University of Minnesota Morris Catalog

2019–2021

This catalog covers academic years 2019–20 and 2020–21. The Morris Catalog is in effect for nine years; this catalog is in effect from fall 2019 through the end of summer session 2028. Students returning to Morris after an absence should contact the Office of the Registrar to determine which catalog will best fit their graduation plans.

General Information

The University of Minnesota

The University of Minnesota Morris (UMN Morris) is one of the five campuses that make up the University of Minnesota. The other four campus locations are Crookston, Duluth, Rochester, and the Twin Cities. With more than 67,000 students enrolled across all five campuses, the University of Minnesota is one of the largest public universities in the United States. Founded in 1851 as a land grant institution, the University serves Minnesota’s families and businesses, while contributing knowledge and innovations to help build a healthier, sustainable world.

University of Minnesota

Mission Statement

The University of Minnesota, founded in the belief that all people are enriched by understanding, is dedicated to the advancement of learning and the search for truth; to the sharing of this knowledge through education for a diverse community; and to the application of this knowledge to benefit the people of the state, the nation, and the world.

The University’s mission, carried out on multiple campuses and throughout the state, is threefold:

• Research and Discovery—Generate and preserve knowledge, understanding, and creativity by conducting high-quality research, scholarship, and artistic activity that benefit students, scholars, and communities across the state, the nation, and the world.

• Teaching and Learning—Share that knowledge, understanding, and creativity by providing a broad range of educational programs in a strong and diverse community of learners and teachers, and prepare graduate, professional, and undergraduate students, as well as non-degree seeking students interested in continuing education and lifelong learning, for active roles in a multicultural world.

• Outreach and Public Service—Extend, apply, and exchange knowledge between the University and society by applying scholarly expertise to community problems, by helping organizations and individuals respond to their changing environments, and by making the knowledge and resources created and preserved at the University accessible to the citizens of the state, the nation, and the world.

In all of its activities, the University strives to sustain an open exchange of ideas in an environment that embodies the values of academic freedom, responsibility, integrity, and cooperation; that provides an atmosphere of mutual respect, free from racism, sexism, and other forms of prejudice and intolerance; that assists individuals, institutions, and communities in responding to a continuously changing world; that is conscious of and responsive to the needs of the many communities it is committed to serving; that creates and supports partnerships within the University, with other educational systems and institutions, and with communities to achieve common goals; and that inspires, sets high expectations for, and empowers the individuals within its community.

Morris Campus

The University of Minnesota Morris is situated on 160 acres in west central Minnesota and is the third educational institution located on the site. In 1887, an American Indian boarding school was established; it was operated for 22 years, first by the Sisters of Mercy and then by the federal government. In 1909, as the federal government reduced the number of nonreservation boarding schools, the campus and facilities were deeded by Congress to the State of Minnesota on the condition “that Indian pupils shall at all times be admitted to such school free of charge for tuition and on terms of equality with white pupils.” Beginning in 1910 and for the next 53 years, the West Central School of Agriculture offered a boarding high school experience for rural young people under the auspices of the University of Minnesota’s Institute of Agriculture. To meet changing educational needs, as the School of Agriculture was being phased out, the Board of Regents in 1959 established the University of Minnesota Morris (UMN Morris).

Conceived at the outset as a four-year liberal arts college, Morris was to provide an educational opportunity for students throughout the state and region who sought a rigorous and focused undergraduate liberal education in a small public college setting. The guiding principles of selective admission, controlled growth, and academic excellence in a residential campus atmosphere have not changed for almost six decades.

With approximately 1,700 students and 130 teaching faculty, Morris combines the residential environment of the small liberal arts college with the advantages of being a campus of the University of Minnesota. The faculty, representing more than 25 academic fields, are organized into four divisions: Education, Humanities, Science and Mathematics, and Social Sciences. A 13 to 1 student-faculty ratio and a strong institutional commitment to individual attention bring Morris students into frequent contact with faculty; undergraduates often collaborate with faculty in research activities and artistic performances.

The Morris student body is diverse and talented. The campus currently is the collegiate home for students from throughout Minnesota, over 30 other states, and 24 foreign countries. In 2020, 30 percent were students of color and 11 percent were international students. American Indian students comprise 20 percent of the student body, making Morris the only baccalaureate college in the Upper Midwest eligible for U.S. Department of Education designation as a Native American Serving Non-tribal Institution. Also, in
2020, the average ACT Composite score of entering freshmen was 25.
There are around 120 student organizations, clubs, committees, and special interest groups at Morris. Throughout the year, the campus community and residents of the region enjoy a wide variety of cultural and co-curricular activities—theatre productions, concerts, recitals, music festivals, lectures, and athletic events.
Morris is a founding and active member of the Council of Public Liberal Arts Colleges (COPLAC). This national organization of 30 member colleges has a commitment to academic excellence and concern for undergraduate student development. COPLAC helps to strengthen and tell the public liberal arts story. In addition to sponsoring innovative courses for students from member institutions, COPLAC convenes faculty for professional development. The COPLAC website can be viewed at www.coplac.org.

University of Minnesota, Morris Mission
The University of Minnesota Morris provides a rigorous undergraduate liberal arts education, preparing its students to be global citizens who value and pursue intellectual growth, civic engagement, intercultural competence, and environmental stewardship.
As a public land-grant institution, Morris is a center for education, culture, and research for the region, nation, and world. Morris is committed to outstanding teaching, dynamic learning, innovative faculty and student scholarship and creative activity, and public outreach. Morris’s residential academic setting fosters collaboration, diversity, and a deep sense of community.

Morris Student Learning Outcomes
Morris has adopted the following Student Learning Outcomes. All students are expected to have gained, by the time of graduation:
1. Knowledge of Human Cultures and the Physical and Natural World through:
   • Core studies in the liberal arts: arts, histories, humanities, languages, mathematics, sciences, and social sciences
   • In-depth study in a particular field: its schools of thought, advanced theories, language, and methods of inquiry
   • Engagement with big questions, both contemporary and enduring
2. Intellectual and Practical Skills, practiced extensively across students’ college experiences, including:
   • Inquiry and analysis
   • Critical thinking and problem-solving
   • Creative thinking and artistic expression
   • Written, multi-media, and oral communication
   • Quantitative literacy
   • Information and technology literacy
   • Collaboration
3. An Understanding of the Roles of Individuals in Society, through active involvement with diverse communities and challenges, including:
   • Civic knowledge and engagement—local and global
   • Intercultural knowledge and competence
   • Aesthetic/artistic engagement
   • Environmental stewardship
   • Ethical reasoning and actions
4. Capacity for Integrative Learning, including:
   • Synthesis and advanced accomplishment across general and specialized studies, and through co- and extra-curricular activities
   • Application of knowledge, skills, and responsibilities to new settings and progressively more complex problems
   • Skills for sustained learning and personal development

Accreditation
The University of Minnesota Morris is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. Professional accreditation for elementary and secondary teacher preparation has been granted by CAEP, Council for Accreditation of Educator Preparation (National Council for Accreditation of Teacher Education legacy) and the Minnesota Professional Educator Licensing and Standards Board.

Academic Programs
Morris’s academic programs offer preparation for most of the professions and several specialized occupational areas. Each student’s program includes studies in three broad areas of knowledge—the humanities, the natural sciences, and the social sciences.

Majors
Morris students may choose a four-year curriculum leading to the bachelor of arts degree with a major in any of the following fields:
- Anthropology
- Art History
- Biology
- Chemistry
- Communication, Media, and Rhetoric
- Computer Science
- Economics
- Education
  - Secondary Education (licensure only)
  - Coaching (endorsement only)
- Elementary Education
- English
Minors
In addition to a major, students may pursue a minor in one of the programs above or in one of the free-standing minors: African and Black American Studies, Data Sciences, Jazz Studies, or Sustainability Leadership.

Individualized Majors and Minors (“Areas of Concentration”)
Morris students may also work closely with faculty to design their own individualized program or “area of concentration.” Examples of previously approved areas of concentration include: exercise science, applied ecology, forensic science, human rights and social justice, international studies, jazz studies, health and wellness, Classical civilization, and journalism. To develop and declare an individualized major or minor, students must consult with a faculty adviser. Students must then complete the Area of Concentration Approval Form and request approval by a faculty adviser and the dean. Area of Concentration Forms are available online at www.morris.umn.edu/services/acad_affairs/aavarious.html#areaconcentration. Changes to an approved area of concentration must go through the original approval process.

Preparation for Professional Degrees
Morris also offers students the opportunity to pursue coursework that prepares them for admission to a variety of professional schools offered at universities across the country and, in particular, at UMN Twin Cities, including in Veterinary Medicine (VetFast) and the master’s program in Nursing. (See the section on Preparation for Professional Degrees in Other Colleges.) This coursework is determined in consultation with faculty advisers and is intended to complement the general education and major requirements needed for the degree at Morris.

Honors Program
The UMN Morris Honors Program offers a distinct and academically challenging intellectual experience for self-motivated and high-achieving students. The Honors Program amplifies and complements the liberal arts mission of Morris with a curriculum based on intentional interdisciplinarity.

The program’s core course is IS 2001H—Traditions in Human Thought, a course that explores significant works from history, literature, philosophy, and science from an interdisciplinary perspective. Honors students then complete at least 8 credits of interdisciplinary honors course electives and an honors capstone project; the capstone is a substantial scholarly or creative interdisciplinary work designed by each student working cooperatively with an interdisciplinary panel of three faculty and includes a culminating project defense. Co-curricular events for honors students often include an annual dinner, service learning, conversations with distinguished campus visitors, and more. Successful completion of the Honors Program is noted both on the transcript and on the diploma as graduating “with honors.”

Students normally apply to the program in the spring semester of their freshman year and begin coursework in their sophomore year. While any Morris student may apply, academic success in the fall semester, faculty recommendations, and a short application essay determine the Honors cohort. A more detailed description of the Honors Program courses and requirements appears in the Programs and Course Descriptions section of this catalog.

Facilities
The Morris campus is situated on rolling prairie along the Pomme de Terre River in the rural community of Morris. The attractive, tree-shaded campus, with its 35 buildings, is located around a pedestrian mall. The major buildings, including the Science and Math Complex, Welcome Center, the Humanities Fine Arts Center, the Physical Education Center, Imholte Hall, the Student Center, the Dining Hall, and three of the residence halls, including the new Green Prairie Community, are modern in design and of relatively recent origin. They are blended with several older buildings of a gracious early 20th-century style, which recalls the campus’s early history, first as an American Indian boarding school, then as the University’s West Central School of Agriculture. All major instructional areas as well as most administrative space are accessible to persons with mobility limitations.

The Humanities Fine Arts Center received the prestigious First Design Award from Progressive Architecture magazine.
It houses two theatres, a recital hall, a gallery, art studios, music rehearsal rooms, two television studios, and a variety of special purpose classrooms. The Rodney A. Briggs Library provides resources 24/7 through the library’s website and online collections. The library is open 99 hours a week allowing students to access its print and media collections, research assistance, interlibrary loan service, and offering individual and group study space. The UMN Morris Archives and the West Central Minnesota Historical Research Center are among the special collections available in the library. The library also houses the Office of Academic Success and the Writing Center.

Morris has laboratory facilities for psychology and a simulation laboratory for political science students, as well as many laboratories for the natural sciences. Students also have access to several campus computer labs that provide services for instruction and research. The Student Center serves as the community center for Morris students, faculty, staff, alumni, and guests with the Edward J. and Helen Jane Morrison Performing Arts Center which is home to Edson Auditorium, Oyate Hall, Higbies Coffee Shop, the Information Center, Turtle Mountain Café, and Louie’s Lower Level student lounge space. The Student Center is home to the offices of Student Activities, Conferences and Events, the Academic Center for Enrichment, and student organizations, as well as the student radio station and a computer lab and study lounge.

In 2000, a new science building and renovated existing science facilities gave the campus a 60,000-square-foot complex that houses laboratories and computer classrooms to support the science and mathematics curriculum. The 40,000-square-foot Regional Fitness Center (RFC), a campus/community partnership, houses a walking/jogging track, low impact cardiovascular area, warm water pool and water slide, and multipurpose court areas. The nearby Cougar Sports Center houses three basketball courts in its main gymnasium. It also features a large multipurpose gymnasium, an exercise therapy and weight room, handball courts, and classrooms. It has a spacious natatorium consisting of an official Olympic-size, eight-lane swimming pool, and a separate diving tank.

UMN Morris’s Welcome Center houses Admissions, Advancement (Development and Alumni Relations), Communications and Marketing, Community Engagement, the Office of Sustainability, and the Center for Small Towns. Created through the renovation of the Community Services building in 2010, the project achieved LEED (Leadership in Energy Efficient Design) Gold certification.

UMN Morris’s newest residence hall, the Green Prairie Community, opened in 2013. This state-of-the-art residential facility enhances the campus’s other energy and sustainability initiatives with both first-class residential space and a high quality learning environment suitable for student research and demonstration programs. The project was awarded the inaugural Best of Buildings, Benchmarks, and Beyond (B3) Award for Sustainable Buildings 2030 in recognition of the eco-friendly initiatives used throughout the building.

Morris has been in the forefront in adopting renewable energy technologies and achieving energy efficiency. Two wind turbines can generate all of the campus electrical needs on windy days and meet about 60 percent of the campus annual electrical load on average. The campus biomass heating and cooling plant displaces fossil fuel with locally obtained biomass, like corn cobs, that is grown locally to heat and cool the campus. A solar thermal array heats the RFC’s recreational pool, keeping about 15 tons of CO2 out of the atmosphere annually. An additional array provides electricity for the Green Prairie Community.

University Policies

Equal Opportunity and Affirmative Action
The University of Minnesota shall provide equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression. University policy information is available at diversity.umn.edu/eoaa. Inquiries or reports regarding compliance may be directed to the Director, Office of Equal Opportunity and Affirmative Action, University of Minnesota, 274 McNamara Alumni Center, 200 Oak Street S.E., Minneapolis, MN 55455; phone: 612-624-9547; email: eoaa@umn.edu or to the Director, Human Resources, University of Minnesota Morris, 201 Behmler Hall, 600 East 4th Street, Morris, MN 56267; phone: 320-589-6024, email: ummeoaa@morris.umn.edu. Anonymous report can be submitted to compliance.umn.edu/report.

The Morris campus EOAA information, including reporting options, is available at www4.morris.umn.edu/human-resources/equal-opportunity. The University system EOAA information, including reporting options, is available at diversity.umn.edu/eoaa.

Employees must report sexual misconduct they learn about in accordance with University policy. An employee may make a report of sexual misconduct that they learned about, or find more information about the employee reporting requirement at www4.morris.umn.edu/human-resources/equal-opportunity.

This publication/material is available in alternative formats upon request. Please contact the Office of Human Resources, University of Minnesota Morris, 201 Behmler Hall, 600 East 4th Street, Morris, MN 56267; 320-589-6024.

Immunization
All students born after 1956 who take more than one University class are required under Minnesota law to document their immunization history by submitting a Health History form provided in the New Student Guide at www.morris.umn.edu/wellness/physicalhealth/immunization/. This form must be filled out and returned to the Health Service within 45 days after the beginning of the first term of enrollment in order for students to continue registering for classes at the University. Complete instructions accompany the form.

Extracurricular Events During the Study Day/Finals Week Period
University policy prohibits classes, University-sponsored trips, or extracurricular events on study day and during the final examination period. Under certain rare circumstances, exceptions to the prohibition on trips or events are possible. Students who are unable to complete course requirements during final examination period as a result of the exemption shall be provided an alternative and timely means to do so. For more information, refer to the policy at policy.umn.edu/education/exam.

Smoke-Free Campus Policy
Smoking is prohibited in all buildings of the University of Minnesota Morris campus.

Email
The University of Minnesota provides new students with a free email account. University-assigned student email accounts are the official means of communication with all students. Students are responsible for all information sent to them via the University-assigned email account. Students who choose to forward the University email account are still responsible for the information (including attachments) that is sent to any other email account.

Information regarding administrative deletion of email accounts can be found at it.umn.edu/google-account-end-life-policies.

The contact person on the Morris campus is the registrar. For current policy information see www.policy.umn.edu/Policies/Education/Student/EMAIL.html.

University of Minnesota Policy Library
Official administrative policies and procedures are retained and maintained in the University’s online policy library to guide and direct the University community (faculty, staff, and students). For more information, visit the University Policy Library at policy.umn.edu.

  Nonresidents and Reciprocity ................................................................................................. 15
  Multi-Institutional Student ...................................................................................................... 15
  Special Admissions Status ........................................................................................................ 16
Admissions

The Office of Admissions is the primary source of information about the University for prospective students. Admissions arranges personal visits with admissions counselors or with University faculty to discuss programs in which a student is interested. In addition, the office provides college catalogs, brochures, and other printed materials regarding many aspects of the institution and its policies and programs. For more information about admissions or to arrange a campus visit, call 1-888-866-3382. Persons with disabilities seeking accommodation during the admissions process may contact the Disability Resource Center coordinator in Room 240, Rodney A. Briggs Library, 320-589-6178.

Admission Requirements

Persons seeking admission to the University of Minnesota Morris on the basis of a high school diploma or through transfer from another college should check the admission requirements detailed on the following pages. Applicants may submit an application online at admissions.morris.umn.edu. Applications submitted online must be accompanied by a nonrefundable fee of $25 payable online or by check or money order to the University of Minnesota Morris (please do not send cash through the mail). Paper applications are available by request from the Office of Admissions and must be accompanied by a nonrefundable fee of $35. Please do not send cash through the mail.

Freshman Admission

Because of the nature of the curriculum, the standards of academic performance required, and the need to maintain the small size of the college, a selective admission policy is necessary. Morris currently enrolls approximately 400 first-year students in its fall semester class, most of whom graduate in the top 25 percent of their high school class. The current student body represents 32 states and 23 foreign countries; large and small, public and private high schools; and a variety of social, economic, and cultural backgrounds. Success with high school preparatory courses, class rank, ACT or SAT test scores, educational objectives, extracurricular activities, and other relevant information are all taken into consideration in the admission decision. If a student did not complete high school, a GED (General Equivalency Diploma) may be accepted in lieu of high school transcripts.

Applications for first-year applicants are reviewed on a rolling basis beginning August 1. Priority deadline for admission and competitive scholarships is December 15. Applications submitted by the priority deadline will be considered for admission, Morris Competitive Academic Scholarships, and Achievement Scholarship packages. The final deadline to apply is March 15. Applications received after December 15 will be automatically considered for admission and Achievement Scholarship packages.

All admitted applicants are required to confirm their acceptance with a $175 nonrefundable confirmation fee due on or before the national candidate’s reply date of May 1. The confirmation fee reserves space in the class, and the date of receipt of the student’s confirmation fee gives priority consideration for housing assignments and course registration. Students are encouraged to send their confirmation fees as soon as possible.

High School Preparation

Successful applicants to Morris must complete the following courses in high school:

1. **Four years of English**

   with emphasis on writing, including instruction in reading and speaking skills, and literary understanding and appreciation.

2. **Four years of mathematics required**

   including two years of algebra, one of which must be intermediate or advanced algebra, and one year of geometry. Students who plan to enter the natural sciences, health sciences, or quantitative social sciences should have additional preparation beyond intermediate algebra. See the policy link for current information, policy.umn.edu/Policies/Education/Education/HIGHSCHOOLPREP.html.

3. **Three years of science**

   including one year each of biological and physical science.

4. **Three years of social studies**, including U.S. history.

5. **Two years of a single foreign language**

   American Indian languages and American Sign Language may also be used to fulfill this requirement.

6. **One year of arts**, including visual or performing arts.

   Applicants who are missing a specific requirement may not necessarily be denied admission if they are otherwise admissible.

   Students are strongly urged to include computer skills courses in their college preparation program.

Standardized Test Scores

Freshmen must submit scores from the ACT or the College Board’s SAT Test. As a basis for admission, applicants’ ACT/SAT scores should clearly indicate strength in their aptitude and preparation. Applicants should complete the ACT/SAT assessment during one of the national testing periods (preferably spring or summer of the applicant’s junior year of high school or fall of their senior year of high school) and have their assessment report sent to Morris (ACT code 2155, SAT code 6890). In certain instances in which the ACT/SAT is not readily available, scores from the on-campus residual ACT can be used for Morris admission purposes only. Please contact the Office of Admissions to schedule a residual ACT exam.
Freshmen with PSEO Credits
Students who have acquired college credits from regionally accredited postsecondary institutions through Minnesota’s Postsecondary Enrollment Options Act (PSEO) must provide the Morris Office of Admissions with an official transcript of courses taken from a college or university during their junior and/or senior year in high school.

International Students
Citizens of other countries are encouraged to apply for admission to the University of Minnesota Morris. They are evaluated on an individual basis, with consideration given to each student’s academic record in relation to the educational system of the native country. Applicants must show evidence of exceptional academic achievement and probability of success at Morris. Applicants should submit official transcripts from every postsecondary institution previously attended. The Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) is required of all students applying from outside the United States unless their native language is English. If taking the IELTS, a minimum score of 5.5 is expected of Morris applicants. If taking the TOEFL, a minimum score of 550 paper, 213 computer, or 79 Internet-based is expected of Morris applicants. The IELTS and TOEFL exams are offered worldwide at selected locations. Please see www.ielts.org or www.toefl.org for more information.

Transfer Student Admission
Students who have completed coursework at another accredited institution of higher education may transfer to the University of Minnesota Morris. Based on the types of courses completed and performance in that coursework, students can receive advanced standing and credit toward the bachelor of arts requirements at Morris. To aid in a smooth transition to Morris, students are asked to contact the admissions office immediately to start the conversations about the admissions process and the transfer of course credit.

As a preliminary guide to prospective transfer students, visit Transferology at transferology.com where students can view course equivalencies, see requirements for Morris majors, enter and store their transfer courses, and produce a report showing their courses satisfying Morris degree requirements.

Preparing for Transfer to Morris
Students currently enrolled in another college or university should discuss transfer plans with a Morris admissions counselor, at 320-589-6035 or 1-888-866-3382 and visit the Office of Admissions transfer website at www4.morris.umn.edu/admissions/apply/transfer-students.

• Call or visit Morris. Students should request the following materials:
  o information on financial aid (how to apply and by what date);

• Make an appointment—after reviewing the above materials—to talk with the Office of Admissions transfer coordinator. Be sure to ask about course transfer and degree requirements.

For more information, visit the Office of the Registrar transfer website at www.morris.umn.edu/registrar/transfer/.

Applying for Transfer Admission to Morris
Applications submitted to Morris are reviewed on a rolling basis beginning August 1. The priority deadline for spring admission is November 1; the priority deadline for fall admission is May 1. Applicants may apply online at admissions.morris.umn.edu or may obtain a paper application from the Office of Admissions. Each online application submitted must be accompanied by a nonrefundable fee of $25 payable online or by check or money order to the University of Minnesota Morris (please do not send cash through the mail). Applicants submitting a hard copy application must attach a nonrefundable fee of $35. A $175 confirmation fee is due by December 1 for spring enrollment, May 1 for fall enrollment, or within 30 days after notification of admission, whichever is later.

Applicants must submit the following:
• a completed Application for Admission;
• official transcripts from every previous postsecondary institution attended, whether courses were completed satisfactorily or not.

Students with less than one year of college must include high school transcripts and ACT/SAT scores. In general, transfer students with credits from an accredited college or university who have maintained at least a 2.50 cumulative GPA in all credits attempted are considered for admission. After students have applied for admission, their transcripts are evaluated. An Academic Progress Audit System (APAS) report showing how the courses meet specific degree requirements will be made available to the student. If the student has questions about the evaluation, the student may contact the transfer evaluation coordinator in the Office of the Registrar.

Understanding How Transfer of Credit Works
• Credits and grades are assigned by the previous (source) college. Morris, as the target college, decides which credits meet Morris degree requirements and transfer.
Morris accepts transfer coursework:
- from institutions that are regionally accredited;
- from institutions that provide courses that are intended for transfer to baccalaureate programs;
- that is comparable in nature, content, and level to courses offered by Morris;
- that is applicable to the bachelor of arts degree: “like” transfers to “like”;
- with the grade of D or above, subject to the restrictions of Morris degree requirements.

In addition to coursework from the traditional liberal arts disciplines, Morris may accept courses in teaching licensure that compare to Morris education courses.

Morris does not accept transfer coursework from proprietary technical colleges, business colleges, and similar postsecondary schools that are not regionally accredited. However, credit for knowledge acquired in liberal arts coursework from these programs may be obtained by special examination.

Courses that are technical or applied do not transfer to Morris.

The University of Minnesota transcript lists the name of each source college with the number of credits accepted from each. Grades earned in transfer courses do not count toward the GPA on the University of Minnesota transcript or toward GPA-based degree honors.

Transfer course titles appear on Academic Progress Audit System (APAS) reports. Transfer courses may qualify to fulfill general education requirements, major/minor requirements, and teaching licensure requirements.

In lieu of regional accreditation, evidence must be provided that instruction is collegiate level and appropriate for Morris’s liberal arts mission before credit is awarded.

Religious studies from accredited public colleges go through the normal transfer review. Religious studies from accredited private colleges go through a special review committee.

Transfer credits become applicable to a University of Minnesota degree program or certificate program only after the student has been admitted as a degree-seeking student.

Rights as a Transfer Student
A transfer student is entitled to:
- a fair credit review and an explanation of why credits were or were not accepted; and
- a formal appeals process. Appeals steps are listed below.
1. The transfer student provides supplemental information to the Office of the Registrar—a syllabus, course description, or reading list;
2. The Office of the Registrar may ask the destination department(s) to review supplemental materials;
3. The student receives an updated APAS showing the outcome of the appeal; and
4. The student, if dissatisfied with the outcome, can make a further appeal to the Scholastic Committee.

Understanding Degree Requirements for Transfer Students
- Not everything that transfers will help the student graduate. Morris’s bachelor of arts degree requires coursework in several categories: general education, major/minor courses with their prerequisites, and electives. The key question in determining whether transfer courses will fulfill Morris requirements is, “Will the student's credits fulfill requirements of the degree or program chosen?”
- The Minnesota Transfer Curriculum (MnTC) is an agreement for transferring general education requirements as a package from colleges within Minnesota State Colleges and Universities (Minnesota State). The MnTC will be honored for students who have fully completed that curriculum before transfer to Morris. The remaining Morris degree requirements are:
  - foreign language study, one year at the college level;
  - a total of 60 general education credits outside the discipline of the major;
  - a major or area of concentration;
  - 30 credits in residence; 15 of the last 30 credits must be from Morris;
  - 2.00 cumulative University of Minnesota GPA;
  - 120 credits (minimum), including credits transferred in to Morris, for the degree.

- Application of courses to Morris general education requirements for students who are transferring to Morris from within MNSCU but who have not completed the MnTC will be done on a course-by-course basis.
- If the student changes the career goal or major, it might not be possible to complete all degree requirements within the 120 minimum total credits required for graduation.

Adding Programs After Earning a Degree from Another Institution
Students transferring to Morris after earning a degree from another college should note the following information.

Teaching licensure
- Students must be admitted to both Morris and the education program.
- Students may earn a bachelor of arts degree that would be recorded on the University of Minnesota official academic transcript.
- Students may elect a “teaching licensure only” option without a degree notation on the official transcript.

Completing or adding a major
- Students must meet all bachelor of arts degree requirements at Morris; a major is one component of the degree.
• Catalogs are in effect at Morris for nine years from the first semester covered by the catalog.
• Students may use catalog requirements in effect at the time they enter Morris and later, but not catalogs in effect before their entrance date.
• The major, one of the components of the degree, is recorded with the Morris degree information on the official transcript.

Completing or adding a minor
• Students meet all bachelor of arts degree requirements at Morris; a minor is an optional component of the degree.
• All of the items listed under Adding a Major at Morris (see the previous section) also apply to adding a Morris minor to a degree earned at another college or university.

Transfer Within the University of Minnesota
A student who wishes to change from one college, school, or campus of the University of Minnesota to Morris must meet the Morris requirements for admission.
• Transfer applicants from other colleges within the University to Morris who have maintained at least a 2.50 GPA are considered for admission.
• Students with less than 30 college credits must submit a final high school transcript, meet the admission requirements for freshmen, and have at least a 2.50 GPA in their college coursework.
• Application for transfer within the University of Minnesota should be made at the Office of the Registrar on the campus where the student is currently enrolled or was last registered. The Application for Undergraduate Change of Campus, available at www4.morris.umn.edu/admissions/apply/transfer-students, serves as the Application for Admission.
• Students should apply as early as possible before their expected date of transfer.
• To receive a bachelor of arts degree, transfer students must meet all Morris degree requirements.
• Students transferring to Morris who have completed general education at another University of Minnesota campus may use the Minnesota Transfer Curriculum (MnTC) agreement to transfer general education requirements as a package to Morris. The MnTC will be honored for students who have fully completed that curriculum before transfer to Morris. The remaining Morris degree requirements are:
  o foreign language study, one year at the college level;
  o a total of 60 general education credits outside the discipline of the major;
  o a major or area of concentration;
  o 30 credits in residence; 15 of the last 30 credits must be from Morris;
  o 2.00 cumulative University of Minnesota GPA;
  o 120 credits (minimum) for the degree.

Deferred Admission
Students choosing to delay their matriculation into Morris after being admitted may defer their admission. To seek deferred admission, students first complete all admissions procedures. Once admitted, they request deferred status; after deferment has been granted, the $175 nonrefundable confirmation fee will reserve space for up to one year.

Nonresidents and Reciprocity
Under reciprocity agreements, residents of North Dakota, South Dakota, Wisconsin, and Manitoba who attend Morris may pay a specially designated tuition rate. To obtain current figures and necessary forms, contact the student’s home state higher education services office, the Morris Office of Admissions, or the appropriate office listed below:

North Dakota residents—Reciprocity Program, North Dakota Board of Higher Education, 10th Floor, State Capitol Building, Bismarck, ND 58501
South Dakota residents—Reciprocity Program, South Dakota Board of Regents, Box 41, Brookings, SD 57007
Wisconsin residents—Reciprocity Program, Wisconsin Higher Educational Aids Board, 137 East Wilson Street, Madison, WI 53707
Manitoba residents—Office of Admissions, University of Minnesota Morris, 600 East 4th Street, Morris, MN 56267

As a member of the Midwest Student Exchange Program (MSEP), a multi-state reciprocity program, Morris offers eligibility to students from Illinois, Indiana, Kansas, Michigan, Missouri, Nebraska, and Ohio reduced tuition. As part of its efforts to make a high quality Morris education available to students from across the country and world, the University of Minnesota Morris offers the National Scholar Award to nonresident, MSEP, and international students. These students will be considered for this renewable award that recognizes student academic accomplishments and potential, helping offset the difference between in-state and nonresident tuition.

Multi-Institutional Student
A consortium agreement among the University of Minnesota campuses allows students planning to earn their degree at their home campus to enroll in courses offered by another University of Minnesota campus. This arrangement is available for only one term per academic year. Application forms and critical information about attending another campus and how courses will apply to Morris programs are available at onestop.morris.umn.edu/academics/multi-institution-enrollment. Applications for financial aid and enrollment are processed through the Morris or home campus. Students are charged separate tuition rates and fees for classes taken on each campus.
Special Admissions Status

Returning Morris Students
Students who will not maintain continuous registration for any reason should consult with their adviser about whether to request a leave of absence. Morris students who fail to register for a semester (excluding summer), and who have not been granted a leave of absence or whose leave of absence has expired will be placed on “inactive” status. Former Morris students are considered for readmission on the basis of their past performance as space is available. Former Morris students who transferred to another college must submit official transcripts from each institution with their application for readmission to the Office of Admissions. Once readmitted, the Office of the Registrar provides the information needed to register for classes. Forms and procedures related to this policy can be found at www.policy.umn.edu/Policies/Education/Education/READMISSIONLOA.html.

Taking Courses at Morris for Those Not Seeking a Degree
Morris offers opportunities to non-degree seeking students who wish to prepare for college, explore an area of study, or pursue a personal interest. Because they are not pursuing a Morris degree, non-degree seeking students are not required to be officially admitted to Morris. Courses completed and corresponding grades are posted to an official Morris transcript. Should a non-degree seeking student decide to pursue a degree in the future, credits earned may count towards a degree program.

Non-Degree Seeking Students Fall into Several Groups:
Postsecondary Enrollment Option (PSEO) Students—High school students who wish to take online courses through PSEO can learn more through Morris Online Learning at onlinelearning.morris.umn.edu/pseo/. High school students who wish to be Morris residential students through PSEO can learn more through the Office of Admissions at www4.morris.umn.edu/admissions/apply/pseo-students.
Students from Other Colleges and Universities—Morris summer sessions (academics.morris.umn.edu/summer-term), online courses (onlinelearning.morris.umn.edu/), and study abroad programs (www.morris.umn.edu/ACE/studyabroad/) may provide excellent academic opportunities for students from other colleges and universities.
Morris Faculty and Staff—Eligible faculty, academic professional and administrative, civil service, and union-represented staff employees are encouraged to take classes to advance their education at Morris with the support of the Regents Scholarship Program. Learn more at www.morris.umn.edu/hr/forms/.
The “Curious Citizen”—Adults from near and far may take courses of special interest through Morris online learning at onlinelearning.morris.umn.edu/ or inquire about classroom courses at onestop.morris.umn.edu/.
Minnesota Senior Citizen Education Program—The Senior Citizen Education Program is part of a Minnesota state statute that provides senior citizens higher education opportunities. Those who meet the residency and age requirements may audit courses for no credit without any tuition charge or take courses for credit at $10 per credit tuition charge. Learn more at www.morris.umn.edu/registrar/senior/.

Cost of Attendance, Fees, Financial Aid, and Scholarships

One Stop Student Services help students manage the business side of their academic career. All UMN Morris fees, deposits, and refund policies are subject to change without notice. For the most detailed and up-to-date information on the Cost of Attendance, visit z.umn.edu/ummcoa.

Cost of Attendance

The Cost of Attendance (COA) budget components are determined by federal regulation and include tuition and required fees, room and board, books and supplies, transportation, personal and miscellaneous expenses, and loan fees.

The standard cost of attendance is based on full-time enrollment for the academic year (fall and spring terms). Costs vary according to the student’s residency and enrollment status. Actual costs depend on personal lifestyle, academic program, and coursework choices.

<td>$26,384</td>
</tr>
</tbody>
</table>

The approximate yearly COA for a Morris resident student living on campus in 2018-19 is $22,556 and yearly COA for a non-resident student living on campus is $24,584. This amount includes tuition and required fees, room and board, and an estimate for textbooks and supplies. Not included are indirect costs such as transportation, personal and miscellaneous expenses, and loan fees that are best estimated by the individual student. For the most detailed and up-to-date information on the COA, visit z.umn.edu/ummcoa.

The University participates in the Midwest Student Exchange Program (MSEP). MSEP is a multi-state tuition reciprocity program. Morris offers reduced tuition to eligible students from the following states: Illinois, Indiana, Kansas, Michigan, Missouri, Nebraska, and Ohio. For consideration, students need only to submit an application for admission.

Morris has a 13+ credit tuition band. Students taking 13+ credits are billed the 13-credit rate; students taking fewer than 13 credits per semester are billed on a per-credit basis. This is a great savings, as many students take an average of 15 credits per semester in order to graduate in four years.

Fees

For the most detailed and up-to-date information on fees, visit z.umn.edu/ummfees.

Morris Campus Fee

The Morris Campus Fee is charged to all students to help fund technological enhancements and services on campus that are of direct benefit to students and their educational programs. Those registered for fewer than 6 credits pay a reduced rate. A Summer Campus Fee is charged to students taking classes during summer session.

Class/Program Fees

Fees charged in addition to tuition.

Concert Choir Retreat—Supports retreat expenses incurred for Concert Choir, including travel and/or meals, etc.

Cross Cultural Practicum Experience Fee—Covers a portion of the costs associated with additional travel expenses related to the Cross Cultural Experience.

Education Program Fee—Covers required Tk20 account purchased upon program admission, cost of background checks for field placements, increased cost of placement and supervision, and stipends for cooperating teachers in initial extensive field placements.

Endorsement/Additional Licensure Fee—Covers a portion of the costs associated with placements for field experiences required for student teachers pursuing endorsements or additional licenses.

International English Language Program – STELLAR Fee—STELLAR International Summer English Language course fee consists of three parts: confirmation/deposit which is applied towards program costs if student attends, educational program costs that are charged in lieu of tuition, and travel costs for field trips, etc.

Minneapolis Museum Travel Fee—Supports travel and entry costs to take students to view museum exhibits and meet with gallery professionals in the field as part of the Basic Studio Discussion curriculum.

Online Course Fee—Supports the additional costs related to delivering online courses.

Private Music Lesson Fee—Fee for individual instruction provided in private music lessons.

Online Learning Fee—Charged on a per credit basis to students enrolled in online/distance learning courses.

Student Teaching Fee—Covers a portion of the costs associated with placement, supervision, and assessments of student teaching. All candidates completing student teaching in the state of Minnesota must now submit a teacher performance assessment (edTPA) to Pearson for official scoring.
Studio Art Materials Fee—Materials are purchased in bulk by UMN Morris to achieve greater savings for students and then resold to students based on materials needed per course.

Study Abroad Domestic Travel Fee—Fee charged to students enrolling in a study abroad program that has domestic travel costs that cannot be charged through Study Abroad. This fee provides the students with housing, meals, and travel before they leave for their study abroad experience.

Symphonic Winds Retreat Fee—Supports the cost of the Symphonic Winds student retreat at Inspiration Point Retreat Center.

Theatre Arts Design Software Fee—This class uses design software called Vectorworks which is a multi-platform computer-assisted drafting program used in the architecture, engineering, entertainment, and landscape design fields. Students complete projects which culminate with a portfolio of their work, that the students take with them, demonstrating their mastery of core and advanced concepts relating to the use of industry specific software.

Theatre Arts Materials Fee—Supports the purchase of materials for projects that aid students’ learning experiences. The projects become a part of a portfolio that students take with them that can be used to demonstrate mastery of numerous skill sets obtained throughout the classroom experience.

Theatre Stage Makeup Fee—Supports the purchase of materials for projects that aid students’ learning experiences. The projects become part of a portfolio that students take with them that can be used to demonstrate mastery of numerous skill sets obtained throughout the classroom experience. The projects created by students also become part of the makeup kit to be used in the future. The cost of ordering bulk supplies for products needed in this class for makeup creation is much less than when each student orders it individually. Also, each student may order slightly different products that could alter the assignment result.

Student Services Fees
Student Services Fees are mandatory assessments on each campus and provide non-instructional activities and services that make significant contributions to student development.

Activity Fee—Charged each semester to all students. The fee allows students to participate in the activities, events, and services it funds, which include cultural and social events sponsored by student organizations and other Morris units. A Summer Activity Fee is charged for students taking classes during summer session.

Health and Wellness Services Fee—Charged each semester to all students registered for 6 or more credits. Those registered for fewer than 6 credits may elect to pay this fee in order to have access to the Health Service and Wellness Services, which provide limited outpatient care. (Students must have adequate health insurance coverage to supplement this care.)

Intercollegiate Athletic Fee—This fee allows students to attend various intercollegiate events.

Regional Fitness Center (RFC) Fee—Charged to allow students taking 6 credits or more to use the Regional Fitness Center on the UMN Morris campus.

Student Center Fee—Charged each semester to all students to pay for services and operating expenses, facility repair and improvement, and a reserve for future expansion or replacement of the facility.

Other Fees
These are fees that have not been included in Student Services Fees, UMN Morris Campus Fee, or Class/Program Fees. The list includes fees that are mandatory, supplemental, or optional.

Admissions Freshman Confirmation Fee—Charged to admitted students to show their intent to enroll at UMN Morris.

Application Fee—A nonrefundable fee submitted with the Application for Admission to UMN Morris. The amount of fee is determined based on submission method—paper or online.

Certification Fax Fee—Charged for faxing certifications.

Confirmation Fee—Reserves admitted student’s place in freshman/transfer class. Fee primarily pays for new student registration. The fee is nonrefundable after May 1.

Credit by Examination Fee—Charged per credit to students to take special subject exams to demonstrate knowledge acquired outside specific courses offered at UMN Morris. Special exams are given at the discretion of the discipline.

Global Student Teaching (GST) Application Fee—Support for administrative costs of processing applications to UMN Morris’s Global Student Teaching program.

Global Student Teaching (GST) Program Fee—Supports program costs for participation in the GST program, including support of on-site supervision and administration. Fee is charged on a per-week basis for the program.

Health Insurance Fee—All Morris students who are registered for 6 credits or more are required to provide proof of health insurance coverage. Students who are unable to provide such proof are required to carry insurance through a group plan provided by an outside agency contracted through Morris Health Services. International students are required to purchase the Morris group insurance or they may seek a waiver based on proof of equivalent coverage.

Housing Contract Cancellation Fee—Charged only to students who signed a housing contract and subsequently requested cancellation of their on-campus housing (prior to the official move-in date) for the purpose of living off campus.

Installment Fee—Students who choose to enroll in the payment plan will have a fee added to their balance when they enroll.
International Student Academic Service Fee—Charged to all international students to support enhanced academic services, with the focus of ensuring retention, timely graduation, and student satisfaction with their Morris experience.

International Student Support Services Fee—Charged to all international students for added support costs such as SEVIS system, record keeping, mailing of official documents, providing orientation, etc.

Late Payment Fee—Students who fail to pay the amount due on their student bill are assessed a late fee. Accounts not paid in full by the due dates on all subsequent bills are assessed an additional late fee each time a due date passes.

Late Registration Fee—Charged to students who register after the first day of the term. Students are required to register before the first day of the term.

Locker Fee—Charged for the use of a locker and towel service in the Physical Education Center. Lockers are also available in the lower level of the Student Center and are accessible in two ways. Unlimited use lockers may be rented from the Information Center.

Key Deposit/Lost Key Fee—Charged to students to receive key access to specific doors/classrooms on the Morris campus and for any lost keys.

Minnesota Education Job Fair Fee—Charged to students participating in the MN Education Job Fair (either pre-registration or on site).

National Student Exchange Fee—Charged to students participating in the program sponsored through the National Student Exchange (NSE).

New Student Orientation Fee—Charged to provide New Student Orientation on the Morris campus.

Non-Sufficient Funds (NSF) Check Fee—Charged on all returned checks.

Non-Affiliated Study Abroad Program Fee—A non-affiliated program fee is charged to students who want to use the Foreign Student (FOST) registration process to maintain full-time student status at UMN Morris (which enables them to access financial aid for the term abroad and apply for study abroad scholarships) but attend a program that is not affiliated with UMN Morris. Additional fees are charged to students who extend their program or apply to a second program. This also supports creating an emergency action plan for students and establish a communication plan for students. The fee also assists in assigning transfer credit to student transcripts.

Parking Permit Fee—Charged per academic year for a permit to park in campus lots.

Placement Fee—UMN Morris Global Student Teaching (GST)—Covers a portion of the costs associated with placements in GST locations including a stipend paid to country administrators.

Stop Payment Fee—Fee assessed when a refund check must be re-issued upon request of the student or due to an incorrect mailing address.

Storage Container Fee—Charged per academic year for storing items with limited access.

Student Teaching Fee—Charged to students participating in the Education Student Teaching Program to cover a portion of the costs associated with placement, supervision, and assessments of student teaching.

Transcript Fees—If students have no holds on their record, official transcripts are issued for a fee. For fastest service, transcripts may be ordered online. Transcript orders received in person, by mail, or by fax are usually processed within one to two business days. Information about ordering an official transcript and how to view and/or print an unofficial transcript at no cost is available on the One Stop Student Services website.

Transfer Confirmation Fee—Charged to incoming transfer students for registration costs.

U-Card Replacement Fee—Charged to replace a U-Card, the University’s identification card. This fee applies to registered Morris students who have lost or damaged their card.

Deposits

Housing—A first-time application fee and a nonrefundable deposit must be paid by all newly admitted Morris students seeking on-campus housing.

Key Return Deposit—A refundable deposit is charged for each key issued for an outside door of, or a room in, a campus building to ensure its return. A refundable deposit is charged for Science Building keys.

Pay the University

Students are responsible for all charges to their student account by the due date shown on their billing statement. It is the student’s obligation to pay bills on time in order to avoid late fees.

For more information about billing and payment, visit z.umn.edu/ummpay.

Payment Plan

Students may choose to opt in to the installment plan for fall and spring semesters. An installment/re-billing charge per semester will be added to the balance on the student’s next bill. Nondegree students are not eligible for the installment payment plan. The installment plan is not available for the summer term.

Late Payment Fees

Any time a student pays less than the amount due by the due date, a late payment fee will be assessed to the student’s account and a hold will be placed on the student’s record.
All Morris fees, deposits, and refund policies are subject to change without notice.
For more information about billing and payment, visit z.umn.edu/umm_pay.

Nondegree Student Bills
Students who are not seeking a degree are responsible for paying their student financial bill in full by the first billing due date of each semester. If the bills are not paid in full by the first due date, the student will be cancelled out of all classes. Signing the application to enroll as a nondegree student is an agreement to pay bills by the first due date of each semester enrolled.

Financial Aid
For more detailed information on financial aid, visit z.umn.edu/umm_finances.

Financial Aid Application
The Free Application for Federal Student Aid (FAFSA) is the only application needed to receive federal, state, or institutional financial aid at Morris. Students should complete the FAFSA as soon after January 1 as possible to be considered for all available funding.

Criteria for Awarding Federal, State, and Institutional Financial Aid Funds
Morris uses the Expected Family Contribution (EFC) to determine financial need and the eligibility for financial aid based on federal, state, and institutional formulas, criteria, policy, regulations, and the availability of funds under the direction of the University of Minnesota administration. The EFC and financial need are determined by federal methodology based on the information provided on the Free Application for Federal Student Aid (FAFSA). The EFC determines what the student/parent(s) can reasonably be expected to pay toward their educational costs.

Unusual Circumstances
Students should contact the One Stop Student Services when/if a family's financial situation changes after submitting the Free Application for Federal Student Aid (FAFSA), or a student/family feels that the results from the FAFSA don’t fully represent the household financial situation.
Death, separation, divorce, unemployment, loss of employment, military service, nursing home expenses, unusual medical care expenses, tuition costs for a dependent student’s parent attending college, tuition expenses for children attending a private elementary or high school, or loss of nontaxable income or benefits are all examples of unusual circumstances that may affect a student’s financial aid eligibility.
A One Stop counselor can help determine whether unusual circumstance adjustments are eligible to be made to the processed FAFSA; adjustments require additional documentation.

Satisfactory Academic Progress (SAP)
To maintain eligibility for federal, state, and institutional aid, students must meet University of Minnesota Morris academic progress standards for financial aid recipients. For more information, visit z.umn.edu/ummsap.

Scholarships and Waivers
For detailed information regarding scholarships, visit z.umn.edu/ummscholarships.

Automatic Consideration
Admitted freshmen and transfer students will be automatically considered for these scholarships:

Achievement Scholarships—Based on information provided in the Application for Admission, admitted freshmen will be considered for Achievement Scholarship Packages, which range from $4,000 to $18,000 over four years ($1,000-$4,500 annually). Students will be notified of their award with their letter of acceptance.
National Scholar Award—Non-resident and international students will be considered for the National Scholar Award which ranges from $500-$2,000 per year.
National Merit Scholarships—National Merit Finalists who choose Morris as their first-choice college will receive a full tuition scholarship, renewable for up to four years. Semi-Finalists and Commended Scholars are eligible for up to $4,000 disbursed evenly over four years, renewable for up to four years. Students must provide the Office of Admissions with documentation of their Commended or Semi-Finalist status to receive this award.
Transfer Scholarships—Students transferring to Morris from another college outside of the University of Minnesota system with 30 transferable credits earned after graduating high school and a 3.75 transfer GPA (calculated based on transferable credits) qualify for a $2,000 nonrenewable scholarship. Those with at least a 3.5 transfer GPA qualify for a $1,000 nonrenewable scholarship. These scholarships are distributed over the first year at Morris. Transfer students will receive notification of their award pending an official evaluation of their transfer credits, typically 2-3 weeks after admission.

Competitive Academic Scholarships
Application Due December 15
Incoming first-year students are invited to compete for Morris’s top two scholarship packages. To be eligible, students must submit their Application for Admission and required materials by December 15. Recipients will be selected during a competitive interview process held at Morris in early February.

Prairie Scholars—Prairie Scholars receive a scholarship package equivalent to full tuition, renewable for up to four years by maintaining a 2.5 GPA.
Morris Scholars—Morris Scholars receive a $24,000 scholarship package, disbursed evenly over four years, plus a one-time $2,500 scholarship stipend. The stipend may be used during the second, third, or fourth year at Morris to engage in an eligible scholarship experience (e.g., to study abroad, to participate in a research or artistic project, or to travel to academic conferences).

Clyde E. Johnson Music Scholarship—Clyde E. Johnson Music Scholarships honor the memory of the late Clyde E. Johnson, professor emeritus of music, who served Morris from 1961 until 1999. The scholarships are awarded to talented Morris music ensemble members to cover the fees for weekly private, individual music lessons in the student’s ensemble performance medium (instrumental or voice).

Morris will host auditions for students planning to participate in music ensembles. While on campus, students will audition with music faculty and awards will be given based on the music faculty’s evaluation of a student’s audition and a recommendation letter from a private instructor or ensemble director. This scholarship is awarded by the Music Discipline.

All renewable scholarships are awarded on a per semester basis for fall or spring terms only and require students to maintain a 2.5 cumulative GPA and be enrolled for at least 12 credits. The Prairie Scholars Award, Morris Scholars Award, and National Merit Finalists Award will replace any previous scholarship package award offers. National Merit scholarships cannot be combined with the Prairie or Morris Scholars Award.

Final scholarship packages may consist of academic scholarships, U Promise scholarships and donor-funded scholarship awards. A student’s award may be adjusted if institutional and outside awards cause the award to go over the cost of attendance (COA).

Other Institutional and Donor-Funded Scholarships

Through institutional programs and the generosity of donors, additional scholarships are awarded based on information provided in the Application for Admission and the Free Application for Federal Student Aid (FAFSA) and will be a part of the final scholarship package.

Waivers

For more information about waivers, visit z.umn.edu/ummgrantswaivers.

American Indian Tuition Waiver—In recognition of the Morris campus history as an Indian Boarding School in the 1800s, federal and state legislatures have mandated that American Indian students attending Morris are not required to pay tuition.

Visually or Hearing Impaired Tuition Waiver/Assistance—Minnesota resident students who are visually or hearing impaired may be eligible for a tuition waiver or partial tuition assistance. To apply for either of these tuition assistance programs the student must complete the Tuition Waiver/Assistance for Blind or Deaf Students Application and provide the required documentation.

Federal, State, and Institutional Programs

Students who have completed a Free Application for Federal Student Aid (FAFSA) and are admitted to Morris are considered for federal, state, and University funding. Awards are based on financial need (as determined by the FAFSA), any eligibility criteria specific to the programs, and availability of funds.

Federal Programs

Federal Pell Grant—The Federal Pell Grant is a federally funded grant for students who are pursuing their first undergraduate degree. The results of the Free Application for Federal Student Aid (FAFSA) will determine Federal Pell Grant eligibility. Students may receive a Pell Grant for three consecutive full-time semesters during the course of a single academic year.

Federal Supplemental Educational Opportunity Grant (FSEOG)—The Federal Supplemental Educational Opportunity Grant is a federally funded program for students who are pursuing their first undergraduate degree. The FSEOG amount is set by institutional awarding criteria, availability of federal funds from the U.S. Department of Education, and enrollment status.

TEACH Grant Program—The TEACH Grant is a federally funded gift program for full-time undergraduate students or students enrolled in a post-baccalaureate teacher credential program.

State of Minnesota Programs

Minnesota State Grant—The Minnesota State Grant is a State of Minnesota funded gift program for students who are pursuing their first undergraduate degree, are Minnesota residents, and have not attended a post-secondary institution more than eight semesters at full-time status. Students may receive the Minnesota State Grant for three consecutive full-time semesters during the course of a single academic year. The award is based on availability of funds from the state of Minnesota and enrollment status.

Minnesota Postsecondary Child Care Grant—The Postsecondary Child Care Grant is a state of Minnesota funded gift program for students who are pursuing their first undergraduate degree, are Minnesota residents, have children 12 and under (14 and under if disabled), demonstrate financial need, and have not attended a post-secondary institution more than eight semesters at full-time status. The amount of assistance will depend on the family
size, annual income of the family, and the number of daycare hours necessary to cover education or work obligations.

**Minnesota Public Safety Officer’s Survivor Grant**—The Public Safety Officer’s Survivor Grant provides an educational benefit to dependent children under age 23 (age extended to 30 for those who served on active military duty for at least 181 consecutive days and were honorably discharged or released) and the spouses of public safety officers killed in the line of duty. Eligibility is determined by the Minnesota Department of Public Safety.

**Minnesota GI Bill**—The Minnesota GI Bill program was established in 2007 to provide postsecondary financial assistance to eligible Minnesota veterans who served on or after September 11, 2001. The Minnesota Office of Higher Education determines funding based on enrollment status.

**Institutional Programs.**

**University Grant**—The University Grant is awarded to students who are pursuing their first undergraduate degree. The actual award amount is set by institutional financial aid office criteria, availability of funds, and the student’s enrollment status.

**University of Minnesota Promise Scholarship**—The University of Minnesota is committed to making a world-class education a great value for Minnesota families. The University of Minnesota Promise Scholarship (U Promise) has expanded the need-based programs to guarantee tuition aid for Minnesota resident undergraduates with a family income of up to $120,000.

**Student Assistance Grant for Emergencies (SAGE)**—The Student Assistance Grant for Emergencies (SAGE) has been created for the purpose of providing quick-response emergency grants for short-term financial emergencies, enabling a student to remain in school, rather than being forced to take a leave of absence or drop out.

**Student Employment Program**

There are three types of on-campus and off-campus student employment programs: Federal Work-Study (FWS), State Work-Study (SWS), and Institutional Student Employment (ISE). All student employment programs are handled in the same manner; however, eligibility requirements differ for each. Students must be enrolled in a degree-seeking program, pursuing their first undergraduate degree, and registered for a minimum of 6 credits per semester to maintain eligibility. Students must meet satisfactory academic progress requirements as well as financial aid eligibility guidelines for all student employment programs. For more information about student employment, visit z.umn.edu/ummstudentemployment.

**Loan Programs**

Student loans are sources of financial aid that must be repaid. Morris offers student loans as part of the financial aid award after reviewing eligibility for grants, scholarships, and work-study. Students must complete a Free Application for Federal Student Aid (FAFSA) to be eligible for federal loans. For more detailed information, visit z.umn.edu/ummloans.

**Federal Loan Programs**

**Ford Federal Direct PLUS Loan**—Parents of a dependent student may apply for a Ford Federal Direct Parent Loan for Undergraduate Students (PLUS) Loan, a non-need-based program that allows a parent to borrow any amount up to the cost of attendance minus other financial aid awarded.

**Ford Federal Direct Subsidized Loan**—The Ford Federal Direct Subsidized Loan is a need-based loan program subsidized by federal funds that allows students to borrow money interest-free while in school at least half-time.

**Ford Federal Direct Unsubsidized Loan**—The Ford Federal Direct Unsubsidized Loan is a non-need-based loan program. Students are charged interest on this loan, but have the option to defer paying the interest while in school at least half time.

**Private Loan Programs**

Morris recognizes that not all students and their families will be able to meet the financial burden of paying for an education, even with the assistance of traditional aid resources. Morris cannot recommend a private loan program since each student’s needs are unique; students should evaluate each loan program to determine the best loan for their educational plans.

**American Indian Programs**

For more information about American Indian programs, visit z.umn.edu/ummscholarships.

**American Indian Tuition Waiver**—In recognition of the Morris campus history as an Indian Boarding School in the 1800s, federal and state legislatures have mandated that American Indian students attending Morris are not required to pay tuition. Students who possess one-fourth or more Indian ancestry, are Minnesota residents, and have financial need should apply with the Minnesota Office of Higher Education. In order to qualify for this scholarship, students must be eligible to receive the Federal Pell or Minnesota State Grant.

**Minnesota Indian Scholarship Program (MISP)**—Students who are enrolled with a state or federally recognized tribe are encouraged to apply for BIA funds by directly contacting their BIA Higher Education Program. The amount awarded is based on financial need and availability of funds through the BIA. Students are encouraged to apply with their tribe as early as possible.

**Ethel M. Curry American Indian Scholarship**—The Ethel M. Curry American Indian Scholarship is awarded to students who are admitted to Morris as first-year freshmen. To be considered for the Ethel M. Curry American Indian
Scholarship, students must complete the American Indian Tuition Waiver Application providing proof of American Indian heritage. Students will be given priority if they are one-fourth American Indian, enrolled in a federally recognized tribe, and a Minnesota resident.

Shakopee Mdewakanton Sioux Community Endowed Scholarship (SMSC)—The SMSC Endowed Scholarship was established through a generous gift from the Shakopee Mdewakanton Sioux Community. The program is designed to recruit and retain talented American Indian students with demonstrated financial need to Morris.

Other Aid Programs

Morris Academic Partners (MAP)
Morris offers the Morris Academic Partners (MAP) program in which faculty select academically talented, qualified third-year students to assist them in scholarly and creative projects. Selected MAP students undertake assignments intended to enhance their intellectual competence and increase their interest in graduate or professional study.

Morris Student Administrative Fellows (MSAF)
Morris offers the Morris Student Administrative Fellows (MSAF) Program, in which academic and administrative staff select qualified students to serve as interns in offices and programs on campus. Selected students undertake substantive, academically enriching projects involving them in responsible managerial or technical positions working with faculty and staff mentors.

Undergraduate Research Opportunities Program (UROP)
The Undergraduate Research Opportunities Program (UROP) benefits students by allowing them to work with a faculty member on research, scholarly, or creative projects. Students develop detailed knowledge of research methods and have unique access to the faculty and facilities of the entire University of Minnesota system.

Veterans Education Benefits
Morris is approved by the Minnesota State Approving Agency to participate in all Veterans Education Assistance Programs. These programs include Veterans Administration (VA) benefits for those who have served on active duty and their eligible dependents, as well as members of the Reserve and National Guard.

Minnesota War Orphans Tuition Waiver
Students who have lost a parent through death as a result of a military service-related injury or disease may be eligible for a full-tuition waiver and assistance to help with other educational expenses at a Minnesota institution. Contact One Stop Student Services for coordinated veterans’ services support at Morris.

Vocational Rehabilitation
Students may be eligible for vocational rehabilitation if they have a physical or mental disability that makes it difficult for them to find or keep a job. If a student is determined eligible for services, Minnesota’s vocational rehabilitation program considers the student’s eligibility for other financial aid and may fund some direct costs such as tuition, student service fees, books, supplies, and equipment.

Registration

Once a student is admitted to Morris, campus staff and faculty are available to assist the student in registering for courses and in getting oriented to the services, resources, and requirements of the University. Students are responsible for registering for classes each term. Students register themselves through the MyU portal. Students may also register in-person at the Office of the Registrar, 212 Behmler Hall. Registration information is available on the One Stop Student Services website at onestop.morris.umn.edu/academics/enroll-class.

Advising for Registration

All students benefit from meeting with advisers every term prior to registration. Students with less than 60 credits are required to meet with their adviser before registering. A hold is placed on their record that prevents registration until advisers release the hold after an advising meeting. To plan for registration, all students should review their Academic Progress Audit System (APAS) report to see which degree requirements need to be completed and which courses satisfy them. After registering, students should review APAS again to see how their courses are counting toward graduation.

Maximum Credits for Registration

The maximum number of credits per fall or spring semester for which a student is allowed to enroll without approval is 20. Scholastic Committee approval is required for a student to enroll for 20.5 or more credits for fall or spring semester. The maximum number of credits for the summer term (May, summer I, and summer II sessions) is 12 credits. The registrar, on behalf of the Scholastic Committee, acts on petitions from students to register for more than the maximum number of credits.

New Student Registration

Registration sessions are held on campus in the late spring and summer for entering first-year students and transfer students who are enrolling for fall semester. Faculty advisers assist new students with reading APAS reports, academic planning and course selection, and guide them through the process of online registration. New students should have official transcripts from all postsecondary institutions attended (including college credit earned while in high school) sent to the Office of Admissions at least two weeks prior to the assigned registration session. When received, the credits are incorporated into the APAS report to assist advisers in recommending appropriate courses. Morris offers a comprehensive student orientation program that provides information on Morris’s educational opportunities, services, and resources. Returning students help new students find their niche in campus life. New Student Orientation is held just before the beginning of the academic year. Students entering Morris spring semester are provided with orientation information at the beginning of the semester.

Registration for Subsequent Semesters

Students are notified via MyU, the University’s portal, of their registration appointment time. All students with fewer than 60 completed credits must meet with their advisers and receive registration approval from them prior to registering. It is recommended that all students meet with their advisers to discuss registration every semester.

Students are encouraged to register during their scheduled appointment time to secure classes needed for progress towards the degree. The registration schedule allows seniors to register first, then juniors, sophomores, and freshmen. Then registration is open to all students. Students who do not register prior to the first day of the term will be assessed a registration late fee.

Annual Planning

For all Morris students, long-range academic planning between students and their advisers occurs during the spring semester, prior to registration for the subsequent fall semester. This long-range planning or Annual Planning provides an opportunity for significant discussion of the breadth and quality of students’ liberal education; career objectives, interests, and plans; and technical details of degree requirements. Students who will be freshmen or sophomores in the fall plan their next year; those who will be juniors plan their two remaining years. Seniors are invited to attend “Senior Meetings” at the beginning of fall semester to plan their final year. Students with fewer than 60 completed credits will have a hold placed on their record that will prevent them from registering until it is released by their adviser.

Holds on Student Records

Students are not able to register if there is a hold on their student record. Students with fewer than 60 completed credits will have an adviser hold preventing them from registering until it is released by their adviser. Holds may be the result of a financial obligation to the University, such as a library fine, or failure to comply with academic regulations. Students should clear their holds as soon as possible since the registration system does not allow students to register until holds are cleared. For more information, see the University policy, available at www.policy.umn.edu/Policies/Education/Education/REGISTRATIONHOLD.html.
Change in Registration
The One Stop Student Services calendar provides detailed registration dates for each term. The last day for students to make changes to their class registration is the 10th class day of fall or spring semester. See the calendar for half-semester and summer term deadlines, the last day to add a class, change grading basis for a class, or withdraw from a class or classes without the symbol “W” (for “withdraw”). Details are published on the One Stop Student Services website at onestop.morris.umn.edu.

Withdrawing from a Class or Classes
Students who are considering withdrawing from a class or classes should discuss their options with their academic adviser, and then speak to a One Stop Student Services counselor.

During the first 10 days of fall or spring semester a student may withdraw from a class or classes without record on the transcript. Between the 11th day and the end of the 10th week of the semester, students may withdraw from a class or classes. The symbol “W” for withdraw will be recorded on the transcript. After the 10th week of the semester, students may petition the Scholastic Committee to withdraw from a class or classes. The petition must include documentation of nonacademic, extenuating circumstances. If approved, the student will be withdrawn from the class or classes. The symbol “W” for withdraw will be recorded on the transcript. Students may not withdraw after the last day of instruction for the semester.

See the One Stop Student Services calendar for semester and summer session deadlines at onestop.morris.umn.edu.

Discretionary Course Withdrawal—
One-time Drop
Students may withdraw from a class after the deadline through the last day of instruction without proof of extenuating circumstances once during their career as an undergraduate student at the University. This “one-time-drop” form is found on the One Stop Student Services forms page under registration, onestop.morris.umn.edu/forms. A student may not withdraw after completing the final examination or equivalent for a course. A symbol of “W” for withdraw appears on the transcript. This rule is part of the University Grading and Transcript policy at policy.umn.edu/education/gradingtranscripts.

Canceling Out of College
Dropping all classes is a big decision. Students should contact One Stop Student Services for detailed information about how to proceed.

Until an official notice of cancellation is received, seats in classes for which students are registered are reserved, and tuition and fees charges continue to accrue regardless of nonattendance.

Refunds
Students may find it necessary to withdraw from all classes during a semester. If students withdraw from the University, they may be eligible to receive a refund of tuition and course fees depending upon when they withdraw.

If the student is receiving financial aid, they may be required to return all or a portion of the aid back to the government or University. This situation could result in the student owing the aid funds to the University, the government, or both.

If a student’s circumstances require them to withdraw from all classes they should contact their academic adviser and One Stop Student Services so their decision will be based on a clear understanding of the consequences of withdrawing from all classes.

Additional information about refunds can be found at z.umn.edu/ummrefunds. To view a comprehensive list of important dates and deadlines visit z.umn.edu/ummdates.

Leave of Absence and Readmission
Students who will not maintain continuous registration for any reason should consult with their advisers about whether to request a leave of absence. Morris students who do not register for one semester and who have not been granted a leave of absence or whose leave of absence has expired will be placed on “inactive” status. Former Morris students are considered for readmission on the basis of their past performance as space is available. Former Morris students who attend another college during their time away from Morris must submit official transcripts from that institution with their applications for readmission. Once readmitted, the Office of the Registrar provides the information needed to register for classes. Forms and procedures related to this policy can be found at www.policy.umn.edu/Policies/Education/Education/READMISSIONLOA.html.

Student Records Privacy
Regents policy, federal law, and state law regulate release of student information to third parties. University policy regulates sharing of information within the University. Some student information is designated as directory information and is a matter of public record. Briefly, this includes name, mailing address, email address, telephone number, dates of registration and registration status, major, adviser, college and class, academic awards received, and degrees received.

A currently enrolled student has the right to suppress some or all directory information. Students suppress directory information through the MyU portal. Once a directory suppression is requested, it will remain active until the student requests its removal. For assistance or additional information, contact One Stop Student Services.
Students may grant parent/guest access to a variety of information including their student account, class schedule, and financial aid through MyU. For assistance, contact One Stop Student Services.

Students have the right to review their educational records, to challenge the contents of those records, and to file a complaint with the U.S. Department of Education. Additional information is available from the Office of the Registrar.

Student Services, Resources, and Opportunities

At Morris, students will find a wide range of activities and services that will enhance their education and enrich their personal experience. They will become members of a learning community that is continually changing and growing. Morris is a friendly campus where students will come to know many fellow students and staff members on a first-name basis. Each person is not just another student, but an individual responsible for making his or her own decisions and using the many resources of the campus to make the most of her or his education.

Many of the services and extracurricular opportunities available at Morris are described in the following pages. Campus services from Financial Aid to Health Service support students during their college experience. Varied social, educational, and recreational programs extend learning beyond the classroom and provide a full range of night and weekend activities. Opportunities include participation in more than 90 student clubs and organizations where students write for the campus newspaper, deejay on the student radio station, and pursue interests from theatre to international affairs. Intercollegiate athletics, intramurals, club sports, and personal fitness opportunities are available for women and men, teams and individuals. Each of these services and activities enhances the Morris college experience.

Academic and Information Resources

Briggs Library

Rodney A. Briggs Library occupies a position at the heart of the Morris campus from physical, virtual, and intellectual perspectives. Located just a few steps from the Student Center in the middle of campus, the library building houses more than 270,000 volumes, as well as journals, music scores, DVDs, CDs, and more. More than 50 networked computers are available, with wireless access throughout the building. The library is also a federal documents depository and maintains a collection of children’s books and materials to support Morris’s highly rated teacher education program. In addition to housing the UMN Morris Archives and West Central Minnesota Historical Research Center, the library includes a growing number of additional special collections (print and digital) to support historical and other specialized research. Extensive online resources are provided via the library’s website. This site serves as the gateway to the library’s more than 150 subscription databases, over 800,000 e-books and over 120,000 online journals, and also provides links to other scholarly resources. The library’s interlibrary loan service has a high success rate of obtaining materials not available locally. Open 99 hours a week (with extended hours during exam weeks), the library provides a variety of quiet study areas as well as group activity space.

Briggs Library staff provide reference assistance in person, by phone, text, email, or chat. The library also sponsors and co-sponsors a variety of events, discussion groups, and programs that are popular with both the Morris campus and greater Morris communities.

Information Technology

Information Technology supports the administrative, instructional, teaching, and research mission of Morris by providing a wide range of infrastructure and instructional technology through multiple service areas: centralized hardware purchasing, data center/server hosting, network, equipment checkout/venue support, classroom technology, the Helpdesk, instructional technology, and video and web conferencing. The Information Technology office is located in Behmler Hall 10. For a complete list of services, visit the Technology at Morris website at technology.morris.umn.edu/.

Access to Morris computing facilities is free to all students. Software available on campus lab computers includes applications for web browsing, photo editing, word processing, spreadsheet, office productivity programs, and academic discipline-specific tools, such as statistical packages and geographic information systems. All general-purpose classrooms utilize standardized technology available for walk-in use by faculty and students. Classrooms and computer labs are equipped with computers, projectors/displays, and sound systems controlled by integrated touch control panels. A full list of technology learning spaces can be found at technology.morris.umn.edu/learning-spaces.

In addition to email, students can access a number of University resources directly from a high-speed Residential Network (ResNet) network connection in every Morris residence hall room, via wireless in all buildings on campus, and from their homes. These resources include the Morris campus library’s extensive online system, many discipline-specific applications, and University of Minnesota Google Apps. All Morris students are granted email accounts and may retain their University of Minnesota email accounts after graduating from Morris.

The Helpdesk can assist faculty, staff, and students with any software or hardware issues, as well as issues with on-campus facilities. The Helpdesk is also available for help with using the University of Minnesota online systems, including training and instruction for assorted academic-related software. All of these services are free for current students. The Helpdesk can also assist students in purchasing software provided at academic discounted rates through the University of Minnesota. The Helpdesk provides a pool of equipment for instructional use that includes Mac and PC laptop computers, data projectors, digital still and video cameras, and portable video production equipment. Faculty
and students may check out this equipment on a short-term basis—at no cost—for use with class presentations and individual media projects.

The Digital Media Lab, a 17-station computer lab located in the lower-level of the Humanities Fine Arts Center (HFA 26) allows students to create media-rich video and design projects for both academic and personal use. This is also a teaching lab for art; music; communication, media, and rhetoric; and theatre disciplines to utilize many high-end industry standard software applications. The Digital Media Lab also offers a storage server, providing secure management of large video projects. Students can seek assistance converting video footage from a variety of video sources: cameras, DVDs, SD cards, and numerous video formats for use in their academic or personal projects.

The Academic Technology Lab, located in HFA 35, can help with class media projects. Lab personnel can provide assistance in understanding and using Canvas, blogging, creating presentations using digital media, or other technology based tools. The lab is available for individual and small group instruction by the academic technologist.

The campus’s interactive video and web conferencing systems provide opportunities for faculty and students to connect with people and places around the world to expand beyond the physical classroom. ITV services include large, managed statewide systems in addition to personal, peer-to-peer desktop solutions.

For any technical assistance or questions, stop by the Helpdesk in Briggs Library, call the Help Line at 320-589-6150, or send an email to ummhelp@morris.umn.edu.

Institutional Effectiveness and Research

The Office of Institutional Effectiveness and Research (IER) provides official, accurate, and timely data to support planning, decision-making, and assessment on the Morris campus. IER is a highly collaborative unit that promotes the use of institutional data, analysis, and research in keeping with Morris’s educational mission. Student enrollment and demographic data, graduation rates, and various other student measures, as well as data informing program reviews, are available from this office. Data related to campus finances and staffing are also collected and appear in the UMN Morris Institutional Data Book.

For more information, visit the IER website reports.morris.umn.edu.

Office of the Registrar

The mission of the Office of the Registrar is to provide a service-oriented environment that promotes and supports the academic goals of students, faculty, and staff in accordance with University and federal guidelines. It manages all facets of Morris students’ academic records, degrees, verification, and transcripts. It supports academic policy implementation and leverages centralized systems to provide streamlined service to Morris students, staff, and faculty. It oversees and implements University-wide technology systems related to academic records, enrollment, and classroom scheduling for the Morris campus. It provides support and services to the Morris campus in the areas of student-related communication; academic records imaging, retrieval, and research; academic policy and procedures; transfer articulation, and privacy and security. It supports Morris course scheduling and manages classroom scheduling on the Morris campus.

The Office of the Registrar manages the Academic Progress Audit System (APAS). Assistance is available on a walk-in basis, via the web, by telephone, email, or by appointment. The office is located at 212 Behmler Hall, 320-589-6027. The Office of the Registrar website is at www.morris.umn.edu/registrar/.

Health and Wellness Resources

Health Service

Health Service provides outpatient healthcare clinic service for Morris students in Clayton A. Gay Hall. Students have on-campus access to physicians, health care providers, and nursing staff, medical treatment, routine laboratory tests, immunizations, and some prescription drugs. All students registered for 6 credits or more may use Health Service through a mandatory student health service fee paid with each semester’s tuition and fees. All Health Service records are confidential. Students should complete the Comprehensive Student Health and Disability Report at the time of enrollment and report emergencies and illnesses requiring a physician’s care to Health Service.

The student health service fee does not pay for medical or surgical inpatient services at a hospital. Health insurance is required for students enrolled for six credits or more. The University of Minnesota offers a student health benefit plan for students not covered by parents’ policies or alternate coverage. Health insurance coverage must be verified or students are automatically enrolled in the University’s student health benefit program.

Student Counseling

Students face more than just academic challenges while attending college. Student Counseling at Morris helps students through this period of change on intellectual, physical, spiritual, emotional, occupational, and social levels. Mental health counselors help students address potential problems, pitfalls, and opportunities during this exciting, challenging, and sometimes difficult transition in life. Students are offered counseling for personal concerns, to help with academic decisions and career exploration. Counselors are able to offer students eight sessions a semester allowing the student to align personal goals with academic goals. Student Counseling does not offer intense mental health treatment but will refer students to resources and treatment off campus and outside the community.
students use this service to share feelings and to discuss problems in a comfortable and confidential setting. All counseling services are provided free of charge.

Wellness Center
The Wellness Center exists to support students in making healthy choices related to their health and wellness. A holistic approach to supporting students is taken and programming is offered throughout the school year related to physical health, mental health, and sexual health. Maintaining a reasonable balance with health and wellness can be the key to success as a student and beyond. Good health and wellness is up to the individual; however, sometimes everyone needs support and education to make the best choices. Such programming includes the Stress Reduction Expo, Wellness Works Week, and collaboration throughout the year with student groups, residential life staff, and area public health resources.

Morris Healthy Eating
The Morris Healthy Eating team was organized in 2009 to make fruits and vegetables and other healthy foods more available and accessible on the Morris campus, in Morris, and in Stevens County.

Students with Disabilities
Morris is a small, student-centered college, which makes this a suitable choice for students with disabilities. Students with disabilities receive personal attention and are accommodated on an individualized basis. The Disability Resource Center is housed within the Office of Academic Success. It provides support for students with physical and various learning, health related, autism spectrum disorder, cognitive and/or psychological disabilities. Disability Resource Center staff work with students to provide access to appropriate accommodations and teach self-advocacy skills.

The Morris campus is a mixture of old and new structures; accessibility varies. All teaching facilities and the library, student center, administration building, and food service building are accessible and have elevators. Students requiring wheelchair access to inaccessible buildings are served by faculty and staff at alternate locations. There is accessible living space in both conventional residence halls and campus apartments.

Students with disabilities are responsible for providing documentation and requesting accommodation(s) far enough in advance for accommodations to be made. Persons with disabilities seeking assistance or information should contact the Disability Resource Center in 240 Briggs Library, 320-589-6178, or oas@morris.umn.edu. Visit the Office for Academic Success website for more information at www.morris.umn.edu/academicsuccess.

Diversity and Equity Resources
Office of Equity, Diversity, and Intercultural Programs (EDI)
The Office of Equity, Diversity, and Intercultural Programs supports events, programs, and partnerships that strengthen relationships, intercultural competence, and global citizenship; promotes a diverse, inclusive, and just community; and advances the engagement and success of students from traditionally underserved backgrounds in the United States and international students from around the world.

International Student Programs (ISP)
Morris provides a unique opportunity for international students by offering a rigorous, liberal arts experience with access to the research capabilities of one of the nation’s most comprehensive university systems. Faculty members make student learning and development their highest priority, giving students a chance to develop close, collaborative working and learning relationships with their professors. The International Student Program Office (ISP) provides academic and social support and visa advising for students on campus.

There are a wide variety of activities and clubs available to students while they are on campus. The Friendship Program, the Ambassador Program, and many International Student Association events are all designed to help international students adjust to living and studying at UMN Morris. A specialized international student orientation takes place before the beginning of each semester to help students plan their academic program, get settled in their housing, and begin to understand the culture of American society and west central Minnesota. Students also have the opportunity to attend the Morris summer intensive English program, STELLAR (Summer Transition for English Language and Liberal Arts Readiness), a for-credit program that provides incoming international students with an intensive, month-long introduction to living and attending college in an English-speaking country. STELLAR provides students opportunities to improve English skills, learn about American campus life and academic culture, and gain a better understanding of a liberal arts education.

Multi-Ethnic Student Program (MSP)
On the main level of the Multi-Ethnic Resource Center, the Multi-Ethnic Student Program (MSP) partners with Native American students, students of color, and affiliated student organizations to develop programs and events that promote student identity development, leadership skills, success, and
intercultural understanding. MSP coordinates a student travel fund and information about campus resources, scholarships, career, internships, and graduate study. MSP is also the home of Gateway, a four-week summer bridge program offered to incoming first-year students who are Native American, persons of color, or are first-generation college students. Gateway provides students with the opportunity to further strengthen their academic and leadership skills and to develop networks with faculty, staff, and other students.

MSP is a great place for students to socialize, relax, and study.

Resource Center for Gender, Women, and Sexuality (RCGWS)
The Resource Center for Gender, Women, and Sexuality (RCGWS), located in the Multi-Ethnic Resource Center (MRC), is a supportive and safe environment for people of all genders, sexualities, and identities on campus. The organizations sharing the RCGWS aim to promote dialogue about issues relating to gender, women, and sexuality; to foster ongoing education surrounding these issues; and to encourage the acceptance of all facets of one’s identity.

Everyone who enters this room may safely and comfortably self-express without fear of discrimination, harm, or exposure for being different. This includes differences of sexual orientation and identity, gender identity and expression, race, ethnicity, religion, socioeconomic status, physical and mental ability, age, and other identities.

The RCGWS is open and accessible during MRC building hours. Staffing is provided by the assistant director for student life and LGBTQIA2S+ Programs, peer gender/sexuality advocates, and Morris Queer Student Initiative for Equality (MoQSIE) executive board members.

Commission on Women and Gender Equity
The Commission on Women and Gender Equity (COWGE) seeks to strengthen the entire community by improving the campus climate for all women and gender minority faculty, staff, and students, in order to create a working and learning environment that is respectful, inclusive, and productive. The COWGE promotes dialogue on issues relevant to women’s and gender equity; challenges norms, values, and attitudes that demean or devalue women and gender minorities while supporting constructive change; encourages faculty, staff, and administration to provide humane working and learning environments for all members of the campus community; promotes fair treatment of women and gender minorities in all areas of academic and campus life, including instruction, hiring, mentoring, evaluation, promotion, and awards/recognition; and recognizes and celebrates the accomplishments and contributions of UMN Morris women and gender minorities.

Additional information is available at committees.morris.umn.edu/commission-women-and-gender-equity.

LGBTQIA2S+ Student Life
Lesbian, Gay, Bisexual, Trans, Queer, Intersex, Asexual, and Two Spirit (LGBTQIA2S+) Programs fosters an inclusive environment for all students, staff, and faculty. Community space is provided in the Resource Center for Gender, Women, and Sexuality (RCGWS). Workshops are created and delivered on LGBTQIA2S+ issues and concerns. LGBTQIA2S+ students are supported in all aspects of their education.

The Queer Issues Committee (QIC) is part of campus governance and is comprised of faculty, staff, and students who meet regularly to work toward making UMN Morris and its surrounding community safe places for LGBTQIA2S+ students, faculty, and staff through programs and advocacy. Additional information is available at: www.morris.umn.edu/equitydiversity/qic/.

Summit Scholars: A TRIO Student Support Services Program
Summit Scholars—TRIO Student Support Services is a Department of Education grant funded program grounded in the civil rights movement and the War on Poverty. Summit Scholars promotes access and equal opportunity educational services for students who are the first generation in college, students who are low income, and students who have disabilities. The program serves 140 students from the first year through graduation, providing success coaching, peer mentoring, academic assistance, financial wellness programming, graduate school exploration, cultural enrichment, and cohort building activities. An application is required.

Native American Student Success Program (NASS)
The Native American Student Success (NASS) program provides direct services to Native American students and collaborates with UMN Morris faculty and staff as well as with tribal communities. NASS assists students with personal, social, intellectual, and ethical development so that they can become life-long learners and responsible leaders in the global society. NASS has a high regard for the unique cultural experiences and perspectives of Native peoples and considers this when working with area students, colleagues, and communities.

Benefits of participation in NASS include cultural and language workshops, opportunities to engage with tribal and world cultures, individualized coaching, mentoring from juniors and seniors, enhanced study skills, financial aid assistance and help completing the FAFSA, meaningful work
opportunities, and special social and cultural opportunities. To learn more, go to morris.umn.edu/newt0NASS.

Student Life, Activities, and Engagement

Residential Life

Living on campus at Morris means being part of an active living and learning community. Residence hall living gives students a unique opportunity to meet new friends and interact with a variety of people. Living on campus means being close to classes and facilities and encourages involvement in college activities. All residence hall rooms have direct, high-speed Morris computer network access—with one connection for each resident. Wireless access is available in residence halls and in many locations across campus. Visit technology.morris.umn.edu/wireless-network. Variety makes living on campus attractive. Morris has five residence halls, ranging from small, traditional settings to larger, contemporary settings. Apartment living is also available in furnished, two-bedroom units designed for four students. Residential life at Morris includes the following options.

Clayton A. Gay Hall accommodates over 200 students with 35 students living on each floor. There are two separate lounge areas and kitchenettes on every floor. Gay Hall is coeducational by wing, floor, or alternating rooms and has open visitation.

David C. Johnson Independence Hall (DCJI) accommodates 230 students in double rooms with 20–30 students living in each wing. There are lounges and kitchenettes on each floor. DCJI Hall is coeducational by either alternating rooms or wings and has open visitation.

Pine Hall, known for its unique, private location near the Humanities Fine Arts building, houses 80 students. A kitchen and game room are located on the ground floor. All floors have an open guest policy and are coeducational by alternating floors.

Spooner Hall is a traditional-style residence hall. Designed to accommodate 90 upper level students, it features large rooms and a comfortable atmosphere distinguished by the Main Lounge on the second floor, which is noted for its charm and warmth. Spooner Hall is coeducational by alternate floors and has open visitation.

The apartment complex at Morris offers facilities for 200 upper level students. The three-to-four-person apartments have two double bedrooms, a kitchen-living room, and a private bath. They provide the flexibility of apartment living arrangements with the convenience of being on campus.

The Green Prairie Community, Morris’s new residence hall, houses 70 students in suite-style housing. The facility features a first-year sustainability theme floor and green living for upper level students. All floors have a kitchenette-lounge. The Green Prairie is coeducational by alternating rooms.

Students living in the residence halls may choose to have single rooms, if space is available, at a slightly higher rate than that for double rooms. The residence halls are served by a central Dining Hall within easy walking distance. The apartments have cooking facilities in each unit.

For more information about on-campus housing, contact the Office of Residential Life, University of Minnesota Morris, MN 56267-2134 or visit the Morris Housing website at www.morris.umn.edu/residentiallife.

Student Center

The Student Center serves as a community center for Morris students, faculty, staff, alumni, and guests. The Student Center includes three primary gathering places:

- the Turtle Mountain Cafe, a popular location for lunch, studying, socializing, and meetings;
- Louie’s Lower Level, a student hangout and lounge space;
- Edward J. and Helen Jane Morrison Performing Arts Center, which includes Oyate Hall, a large multipurpose room with a fireplace lounge and panoramic view of the mall; and Edson Auditorium, home to many campus performances and events.

Higbies is home to the Information Center and campus coffee shop. In addition, the Student Center provides lounge and study space, offices and meeting places for student activities and organizations, the Academic Center for Enrichment, KUMM Radio, and other student-focused programs and functions. The facility is the center for co-curricular activity on the campus. The activities, events, and functions that take place in the Student Center—club meetings, concerts, conferences, forums, and world-class performances and lectures—enrich student life and are an integral part of the Morris experience.

Student Activities

Student Activities, Conferences, and Events’ facilities, programs, and services facilitate student co-curricular involvement and leadership; foster learning, artistic engagement, and community; and connect the region and the campus.

Morris has more than 90 student-led clubs and organizations including campus life programs, University-recognized organizations, and independent student groups. Through student leadership, engagement, and professional staff mentorship, students expand their capacity to contribute to student organizations, events, and programming. Morris student leaders develop teamwork, critical thinking, and decision-making skills; grow social networks; and impact campus culture. At the beginning of each year, Morris sponsors an Activities Fair that serves as a showcase for the many student organizations. The Activities Fair provides new
Involvement in CAC may range from attending and enjoying campus organizations to presenting special events. Events in its program area include outstanding performances. Zombie Prom, the Yule Ball, and the UMMy’s annual film festival are few popular annual events.

Morris Campus Student Association
The Morris Campus Student Association (MCSA) exists to represent the interests of students on the Morris campus of the University of Minnesota. The central policy-making body of Morris, the Campus Assembly, consists of faculty, staff, and elected student representatives. These students, along with other elected or appointed student representatives, form the student government, the MCSA Forum. The Forum provides most of the recommendations for student membership on campus committees. It is the major source for expressing student opinion and initiating legislative action to promote and protect student interests. First-year students can become involved in the MCSA through the First-Year Council.

Campus Activities Council
The Campus Activities Council (CAC) is the major activities and events planning organization on the Morris campus. Through funds provided by Student Service Fees, CAC offers a wide variety of cultural, social, recreational, and educational programs. CAC events range from professional music, theatre, and dance performances to an annual lecture series, free films, stand-up comedy, live music, and community-building activities. Each year CAC works to “bring the world to Morris.”

Involvement in CAC may range from attending and enjoying a variety of events to becoming an active member of any of the five student committees: Concerts, Performing Arts, Homecoming and Traditions, Films, and Convocations (lectures). Each committee selects, organizes, and promotes events in its program area. Committees also work with other campus organizations to present special events.

Campus Events and Activities
In addition to the activities presented by the Campus Activities Council, a variety of other options for cultural enrichment and entertainment are available. A large number of student organizations and residence hall groups organize events and programs of their own. The Morris symphonic winds, choirs, jazz ensembles, and theatre also present outstanding performances. Zombie Prom, the Yule Ball, and the UMMy’s annual film festival are a few popular annual events.

Campus Media
KUMM Morris—the U-90 Alternative (89.7 FM) and The University Register provide the campus community with campus news, information, student opinions, and entertainment. KUMM broadcasts alternative radio 7 days a week, 24 hours a day during the academic year. The student newspaper, The University Register, is published weekly throughout the academic year. KUMM and The University Register are student-run organizations staffed by dedicated volunteers.

Community Engagement
Community engagement is a hallmark of the UMN Morris experience, highlighted in the Morris vision and mission statements. As a land grant institution, UMN Morris is committed to harnessing faculty and student interests, skills, and expertise to make the region a more vibrant place to live and work. The Office of Community Engagement and the Center for Small Towns provide students with many opportunities to get involved in the regional and broader community, including both volunteer and student employment opportunities. Each year, the outreach units of the campus involve an average of 850 students in projects with more than 70 partnering organizations. Opportunities include the Morris Intercultural Education Initiative, with multiple opportunities to work with the regional Latino community; the TREC (Tutoring, Reading, and Empowering Children) program, supporting young people’s academic and social development; up to 25 community-engaged learning classes each year; up to 60 internships with organizations in small towns across the state; and opportunities for individual students and student groups to design their own experiences in partnership with community organizations.

Fine Arts Programs
The Morris studio art and art history faculty arrange regular exhibits in the Edward J. and Helen Jane Morrison Gallery during the year. These exhibits include original works of artists from many periods and mediums, as well as paintings, drawings, prints, and sculptures by Morris students and faculty.

University theatre students and faculty produce classical and contemporary plays each semester during the academic year. In addition, the Meiningens, a student group dedicated to providing theatre experience for its members, offers dramatic productions.

Concerts are scheduled throughout the year by the Morris Symphonic Winds, University Choir, Concert Choir, Chamber Orchestra, and Jazz Ensembles. Student and faculty recitals—vocal and instrumental—are scheduled frequently for student and community enjoyment. Morris Jazz Ensembles sponsor the annual spring Jazz Festival featuring professional guest artists and jazz at its finest.

The Campus Activities Council (CAC) Performing Arts Series sponsors several performances by artists of national and international stature each year.
Displays of rare books are exhibited in the library. Included are general and specialized exhibits of books ranging from the medieval period to modern times.

**Intercollegiate Athletics, Club Sports, Intramurals, and Recreation**

Intercollegiate athletics, club sports, and intramurals and recreation are important features of life at Morris. NCAA Division III intercollegiate athletics and intramural sports contribute to participants’ general education.

Opportunities for personal fitness, recreation, and team competition include state of the art fitness facilities in the Regional Fitness Center, intercollegiate and club sports, intramural leagues, wellness and sports science courses, and indoor and outdoor recreation clubs. Through these athletic and recreational experiences, students have the opportunity to improve their level of personal fitness.

The staff in sport studies and athletics, intramurals and recreation, and the Regional Fitness Center are dedicated to helping each individual participant realize this goal.

**Intercollegiate Athletics**—Morris is an NCAA Division III member of the Upper Midwest Athletic Conference. The Cougars compete in nine sports for men and ten sports for women. Men’s programs include cross country, soccer, football, golf, basketball, baseball, tennis, and indoor and outdoor track and field. Women’s programs include soccer, cross country, volleyball, golf, basketball, softball, swimming and diving, tennis, and indoor and outdoor track and field. Offices for the coaches and staff are located in the Cougar Sports Center.

**Intramural Sports**—Men’s, women’s, and coed intramural leagues are offered each semester in a variety of sports including flag football, basketball, volleyball, slow pitch softball, kickball, and badminton. Weekend tournaments and opportunities for individual competition typically include 3-on-3 basketball, disc golf, bean bags, and 4-on-4 basketball.

**Sports Clubs**—A number of sports clubs have been organized as a result of student-faculty interest. Men’s and women’s rugby, ultimate Frisbee, karate, and ground quidditch have many enthusiastic members. Many of the clubs travel to other colleges and host tournaments at Morris.

**Regional Fitness Center**—The Regional Fitness Center’s recreation and fitness facilities serve UMN Morris students as well as Morris and Stevens County community members. Cardio and state-of-the-art strength machines, water and land group fitness classes, aerobics courses, court time, and a walking/running track offer year-round indoor recreation and fitness opportunities. Swimmers and divers of all levels can use the regulation NCAA/AAU pool, diving tank, or warm water pool.

Morris students registered for 6 credits or more are members of the Regional Fitness Center through a student fee paid each semester with tuition and fees. Students, faculty, and staff are encouraged to use the Regional Fitness Center and Cougar Sports Center facilities.

Students in residence halls have access to recreation facilities, including sand volleyball courts, pool tables, and table tennis.

For outdoor enthusiasts, there are excellent recreational facilities for biking, hiking, fishing, hunting, boating, and skiing within a few miles of the Morris campus. The RFC coordinates the annual Tinman Triathlon, while also offering maps of bike routes along with canoes, cross country skis, snowshoes, and other gear for rent.

**Alumni Association**

The UMN Morris Alumni Association (UMMAA) provides connections and services for UMN Morris alumni and friends. The UMMAA is a non-dues-paying organization that keeps people connected, informed, and in touch. The UMMAA offers students opportunities for networking with alumni across the United States and around the world. Alumni often are willing to assist students in locating internships and jobs and to offer career advice. The UMN Morris Alumni Association group is available on LinkedIn.

Morris students also have access to the publication *Profile*, which is produced by the Morris Office of Communication and Marketing and sponsored in part by the UMN Morris Alumni Association.

Students can visit Office of Alumni Relations at 106 Welcome Center, or online at alumni.morris.umn.edu.

**Campus Safety and Security**

Morris is committed to each student’s safety and wellbeing. Campus programs support student wellness, foster the building of healthy respectful relationships, uphold campus policies, and promote individual action to create a violence-free campus. Each Morris student, faculty and staff member contributes to a healthy campus community for us all.

Campus safety resources are provided at onestop.morris.umn.edu/safety/.

UMN Morris Campus Police serve the campus and are responsible for all property owned by the University in the area. Their staff of full-time police officers and community service officers provide proactive patrol, crime prevention, investigative, law enforcement, and emergency services 7 days/week, 24-hours each day throughout the academic year.

Campus Police officers are licensed as “peace officers” by the State of Minnesota. Minnesota State Statute 629.40 gives peace officers statewide arrest powers while acting in the course and scope of employment. The department investigates all crimes that occur on University property. By working closely with federal, state, and local police agencies, the department strives to provide a safe environment for all students, staff, faculty, and visitors. It is University policy to encourage the prompt reporting of any crimes committed on campus to Campus Police and other appropriate law enforcement officers.
enforcement agencies and to assist the victims of those crimes.

Morris’s campus safety and security programs cover the academic buildings, residence halls, student life facilities, and campus grounds. Morris Campus Police emphasize crime prevention by minimizing crime opportunities and encouraging students and employees to be responsible for their own and others’ security. Campus safety programs include violence prevention programming, annual training on security measures and emergency/crisis management for residence life staff, regular lighting surveys of exterior campus lighting, and 24-hour access phones in public areas within campus buildings and parking areas.

Everyone on campus plays an important role in creating a safe community. Students, faculty, staff, and visitors are encouraged to contact Campus Police with any safety questions or concerns.

Morris publishes an annual Campus Safety and Security Report in compliance with federal legislation—the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. This legislation requires all public and private colleges receiving federal financial aid to provide annual information on campus safety services, crime reporting and the University’s response, data regarding crimes occurring on campus, and relevant policies and procedures. The report is available online at www.morris.umn.edu/police/.

**Green Dot Bystander Education:** “No one can do everything but everyone can do something.” Live the Green Dot is an approach to violence prevention that capitalizes on the power of peer and cultural influence across all levels of society.” The University of Minnesota Morris is a partner in the Green Dot Bystander Education Program engaging campus community members in raising awareness about and taking steps to prevent personal power based violence including sexual assault, relationship violence and stalking: crimes experienced by thousands in the United States and around the world each year.

**Reporting and responding to sexual assault, relationship violence, domestic violence and stalking.** Sexual assault, dating violence, domestic violence and stalking are prohibited at the University of Minnesota. UMN Morris’s violence prevention and response program is coordinated by the Offices of Student Affairs, Campus Police, and Equal Opportunity working in partnership with Someplace Safe, the Stevens County sexual assault and relationship advocacy and crime victims services provider.

Violence Prevention and Response folder and information inserts and related University policies and procedures are provided on onestop.morris.umn.edu/safety/.

Grading and Transcripts

The University of Minnesota Grading and Transcripts Policy, [policy.umn.edu/education/gradingtranscripts](policy.umn.edu/education/gradingtranscripts), addresses grading and transcripts, scholastic dishonesty, incomplete grades, course withdrawal, repeating courses, grading deadlines, dean’s list, and compiling and reporting grades.

The University has two distinct grading systems: A-B-C-D-F, with pluses and minuses as permitted, and S-N. The S-N system is a self-contained alternative to the A-F system. The two may not be combined for a particular student in a particular course.

For undergraduates, an S grade is equivalent to a C- or better, although the S grade is not part of the GPA calculation. For additional information, see the policy on Credit and Grade Point Requirements for an Undergraduate (Baccalaureate) Degree: Twin Cities, Morris, Rochester ([policy.umn.edu/education/bacreditreq](policy.umn.edu/education/bacreditreq)).

When both grading systems are available, the student must declare a choice of grading system as part of the initial registration for the course. The choice may not be changed after the end of the second week of classes (the first week in summer sessions).

The list below identifies the possible permanent grades that can be given for any course for which credit is to be awarded. These grades will be entered on a student’s official transcript and for an A, B, C, or D, with permitted pluses and minuses, carry the indicated grade points. This list identifies the general University standards. At one of their earliest meetings, instructors will define for their classes, as explicitly as possible, the performance that will be necessary to earn each symbol of achievement.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Represents achievement that is outstanding relative to the level necessary to meet course requirements.</td>
<td>4.000</td>
</tr>
<tr>
<td>A-</td>
<td>Represents achievement that is significantly above the level necessary to meet course requirements.</td>
<td>3.667</td>
</tr>
<tr>
<td>B+</td>
<td>Represents achievement that is satisfactory (equivalent to a C- or better).</td>
<td>3.333</td>
</tr>
<tr>
<td>B</td>
<td>Represents achievement that meets the course requirements in every respect.</td>
<td>3.000</td>
</tr>
<tr>
<td>B-</td>
<td>Represents achievement that is worthy of credit even though it fails to fully meet the course requirements.</td>
<td>2.667</td>
</tr>
<tr>
<td>C+</td>
<td>学术 dishonesty is grounds for an F or N for the course. The F carries 0.00 grade points and is included in GPA calculations; the N does not carry grade points and is not included in GPA calculations.</td>
<td>2.333</td>
</tr>
<tr>
<td>C</td>
<td>The symbol V for visitor, indicates registration as an auditor or visitor; does not carry credit or grade points.</td>
<td>2.000</td>
</tr>
<tr>
<td>C-</td>
<td>The symbol W for withdrawal, indicates a student has officially withdrawn from a course. If a student withdraws from a course during the first two weeks of classes, that course registration is not recorded on the student’s transcript. Withdrawal after the 10th week of classes (fourth or later in summer terms) requires a petition and college approval. Approval to withdraw after the deadline requires extenuating, nonacademic circumstances. Once during undergraduate enrollment, at any time up to and including the last day of class for a course, a student may withdraw from that course without college approval and receive a W.</td>
<td>1.667</td>
</tr>
<tr>
<td>D+</td>
<td>The symbol X for continuation course indicates a student may continue in a sequence course in which a grade cannot be determined until the full sequence of courses is completed. The instructor submits a grade for each X when the student completes the sequence.</td>
<td>1.333</td>
</tr>
<tr>
<td>D</td>
<td>The symbol K, assigned by an instructor, indicates the course is still in progress and that a grade cannot be assigned at the present time.</td>
<td>1.000</td>
</tr>
<tr>
<td>F or N</td>
<td>The symbol T, assigned by an instructor, indicates registration as an auditor or visitor; does not carry credit or grade points.</td>
<td>1.000</td>
</tr>
<tr>
<td>S</td>
<td>No grade required.</td>
<td>0.000</td>
</tr>
<tr>
<td>N</td>
<td>No grade reported.</td>
<td>0.000</td>

<td>0.000</td>
</tr>
</tbody>
</table>
Scholastic Dishonesty
Scholastic dishonesty in any portion of the academic work for a course is grounds for awarding a grade of F or N for the entire course, at the discretion of the instructor. This provision allows instructors to award an F or an N to a student when scholastic dishonesty is discovered; it does not require an instructor to do so. Students who enroll for a course on the A-F grading system will receive an F if such grade is warranted; students who enroll for a course on the S-N system will receive an N if such grade is warranted. If the instructor determines that a grade of F or N for the course should be awarded to a student because of scholastic dishonesty, the student cannot withdraw to avoid the F or N. See the Board of Regents Policy: Student Conduct Code at regents.umn.edu/sites/regents.umn.edu/files/policies/Student_Conduct_Code.pdf for the University’s definition of scholastic dishonesty.

Academic Transcript
The University’s official transcript, the chronological record of the student’s enrollment and academic performance, is released by the University only at the student's request or in accord with state or federal statutes. Students must have met all financial obligations to the University and have no judicial holds before official transcripts can be released for any purpose.

Official transcripts are certified and signed by the University registrar. At the student's request, official transcripts can be directly sent to the student or another recipient. The online request is the most convenient way to order an official transcript. More information about official transcripts, including cost and instructions, is available at onestop.morris.umn.edu/academics/transcripts.

Classes, Schedules, and Examinations

Class Attendance
Students must attend the first class meeting of every part of a course in which they are registered (including, for example, labs and discussion sections), unless they obtain prior approval from the instructor (or department, if appropriate) for an intended absence before the first class meeting; without such prior approval, a student’s enrollment in the class may be dropped by the instructor to accommodate another student. For further information, see policy.umn.edu/education/mandatoryfirstclass.

Students are responsible for planning their schedules to avoid excessive conflicts with course requirements and to prioritize class attendance. University policy recognizes, however, that there are a variety of legitimate circumstances in which students will miss coursework. For further information around the parameters of what is a legitimate absence and an outline of the related responsibilities of both the student and the instructor, see policy.umn.edu/education/makeupwork.

Standard Class Schedule and Class Period
A standard class schedule at the University of Minnesota Morris consists of 65-minute classes on Monday, Wednesday, Friday (MWF) or 100-minute classes on Tuesday, Thursday (TTh) with an appropriate change period between classes. Classes of longer than 65 or 100 minutes are permitted, subject to University policies governing the relationship between contact hours, credits, and student workload. See the Class Scheduling Policy at policy.umn.edu/education/classscheduling. Expected Student Academic Work per Credit Policy at policy.umn.edu/education/studentwork, and Directed Study, Directed Readings, and Directed Research policy at policy.umn.edu/education/directedstudy.

Overlapping Classes
Enrolling in overlapping classes is prohibited so students can attend the classes in which they enroll. Instructors may accommodate student-scheduling problems but are not required to do so. Students may petition all instructors involved in the overlap. The decision to approve or deny a petition is discretionary with each instructor involved. The Class Time Conflict Approval petition is found on the One Stop Student Services forms page under registration, onestop.morris.umn.edu/forms. The entire policy Enrolling in Overlapping of Back-to-Back Classes can be found at policy.umn.edu/education/overlappingclasses.

Examinations and Final Exams
Instructors are not permitted to hold their final examinations ahead of the regularly scheduled time except in extremely unusual circumstances and with prior approval of the appropriate division chairperson.

The University examination and final examination policy of the University of Minnesota includes greater detail and can be found at policy.umn.edu/education/exam.

Repeating a Course
Students may repeat most courses once. However, students who receive a grade of S, C, or better may repeat a course only if space permits. When a student repeats a course, 1) both grades for the course will appear on the official transcript, 2) the course credits may not be counted more than once toward degree and program requirements, and 3) only the last enrollment for the course will count in the student’s grade point average (GPA). Additional details are in the Grading and Transcripts policy at policy.umn.edu/education/gradingtranscripts.
Special Ways to Earn Credit or Demonstrate Proficiency

Examinations for Course Credit
Departments may wish to have a means of allowing students to demonstrate existing proficiency in a subject without requiring the student to complete coursework. On the Morris campus, the Scholastic Committee determines whether or not to make available to students an exam for credit or proficiency and whether or not successful completion of the exam will apply to the student’s degree program. Further information, forms, and procedures are in the policy on Departmental Exams for Proficiency or Credit for Undergraduate Students at policy.umn.edu/education/deptcreditexam.

Placement and Proficiency Examinations
Placement examinations in math and languages are administered in the UMN Morris student counseling office, require no fee, and yield no credit or grade. These examinations are offered periodically in the summer, during New Student Orientation, and at scheduled times during the academic year. For more information, see www4.morris.umn.edu/test-center.

Nationally Administered Examinations for Credit
The Scholastic Committee, with the concurrence of the appropriate discipline, recognizes and awards credits based on nationally administered examinations that are taken as part of the Advanced Placement (AP) Program, the College Level Examination Program (CLEP), the International Baccalaureate (IB) Program, and international A Level courses. These credits awarded become applicable to a University of Minnesota degree program or certificate program only after the student has been admitted and enrolled as a degree-seeking student. The national examinations are reviewed every five years. The Scholastic Committee has approved the use of AP, CLEP, IB, and A Level credits in the General Education Requirements; faculty have approved the use of CLEP, IB, and AP credits in specific majors. Review the current qualifying scores at www.morris.umn.edu/committees/scholastic/creditbyexam.

Advanced Placement Examinations
Students may receive credit in more than 30 subjects for qualifying scores on Advanced Placement examinations. Students who have taken AP examinations should request that an official transcript of their scores be sent to the University of Minnesota Morris Office of Admissions.

CLEP Examinations
To select, prepare, and register for exams, go to clep.collegeboard.org/. Students who have taken CLEP examinations should request that an official transcript of their scores be sent to the University of Minnesota Morris where they will be processed for appropriate credit allocation. There are more than 30 CLEP subject examinations covering the content of a variety of courses. To earn credits, a student must meet the national qualifying score, based on a norm group of college students who have already passed the course for which the examination is intended.

International Baccalaureate
Students who complete an International Baccalaureate (IB) diploma with a score of 30 or higher and have no examination scores lower than 4 are awarded 8 credits for each of three higher-level examinations, plus 2 credits for each of three subsidiary exams, for a total of 30 credits. No credit is given for subsidiary-level exams other than those included as part of the IB diploma, but students may receive credit for any higher-level exams with a score of 5 or higher. The Scholastic Committee has approved use of IB credits to meet specific general education requirements. Faculty determine if IB credits may be used in a major. (Evaluation is completed through the Scholastic Committee process. Students do not contact faculty.) To receive credit, students who have completed IB examinations should request that an official transcript of their scores be sent to the University of Minnesota Morris.

Military Service School Experience
Morris does not grant college credit for military service. The Scholastic Committee does, however, grant credit for military service school experience when formal training courses have substantial liberal arts content and have counterparts in the liberal arts curriculum. To obtain credit, students should request than an official Joint Services Transcript or an official Air University/Community College of the Air Force Transcript be sent to the University of Minnesota Morris.

Academic Standing
The minimum academic progress requirements are based on two measures: the cumulative GPA measures performance over time and the term GPA measures performance within the term. The authority for administering the requirements and taking necessary action rests with the Scholastic Committee. (The Financial Aid Office monitors separate financial aid Satisfactory Academic Progress [SAP] requirements. For more information, see onestop.morris.umn.edu/aid/sap.)
All students must maintain both a 2.000 cumulative GPA and a 2.000 term GPA to be in good academic standing.

University of Minnesota Probation and Suspension Policy
See the complete policy at policy.umn.edu/education/acadprobation.

Probation
- A student will be placed on probation (and will remain on probation) if either the term or the cumulative GPA is below 2.000. Students on probation will have a hold placed on their record and must see an adviser in order to register. While on probation, Morris students may not enroll in more than 16 credits without Scholastic Committee approval.
- Colleges may develop academic contracts specifying additional requirements that students enrolled in that college must meet to be removed from probation or to register for classes while on probation. The academic contract may include GPA expectations more rigorous than the 2.000 term and cumulative GPA minimum standard, where programatically warranted and when clearly communicated to the student. If the student meets the conditions of the contract, and the term and cumulative GPA are at least 2.000, the student will be removed from probation. Even if the contract conditions are met, the student must still meet the minimum GPA requirements of this policy. If the conditions of the contract are not met, the student will be suspended.
- After students on probation have met with their advisers (and if a contract is required, the adviser and registrar must be satisfied that the conditions have been met), then probation holds will be temporarily lifted so students may register.

Students on probation return to good standing by earning a term GPA and cumulative GPA of 2.000.

Suspension
A student is suspended if:
- at the end of the probation term (semester), both the term and the cumulative GPA are below 2.000, or
- the conditions of an academic contract are not fulfilled.

The suspension is effective immediately.

Consequences of suspension—When suspended, a student is no longer in the program and cannot register for any University courses for at least one full academic year. All colleges and campuses of the University must recognize the suspension and will not allow students, including non-degree seeking students, with these holds to register without the approval of the college placing the hold.

Appealing suspension decisions—Students may appeal suspension decisions or petition for readmission in writing to the college’s Student Scholastic Standing Committee (SSSC) according to a defined collegiate petition process.

Readmission after suspension—Readmission after a period of suspension is not automatic. To be re-admitted, students must show evidence of changes in circumstances that demonstrate that they will succeed in an academic program.

Returning to the college or a different college after suspension—Upon return to the college after petitioning to reenter, students will be placed on probation, and all colleges will use a probation hold and academic contract for the purpose of monitoring the student’s performance. If students do not successfully complete the contract, they will be suspended again, and then will be required to reapply for admission to a college, rather than petition to reenter.

Appeal to Return After One Semester—Suspended students may appeal to the Student Scholastic Standing Committee using the online appeal form at committees.morris.umn.edu/probation-and-suspension. The appeal is due by June 30 and should include an academic plan for improvement, evidence of successful completion of transfer work; and/or evidence that personal difficulties are being addressed.

If the student wishes to have Student Counseling, Academic Assistance, or the Disability Resource Center provide input on an appeal, they must have written approval (with the student’s signature) prior to the hearing of the appeal. Without this approval, their input cannot be considered.

Decisions on appeals are made in July.

If the appeal is approved, the Committee determines the conditions that must be met during the semester the student returns. If those conditions are not met, the original suspension is reinstated at the end of the term.

Students with an approved appeal return on probation—The Student Scholastic Standing Committee prescribes special conditions in the form of an academic contract in an effort to improve the returning student’s chance for success. Students and their advisers are notified of these conditions. For example, students may be required to complete a specified number of credits and to earn a prescribed GPA during the single semester of their approved return.

Morris Academic Alert Program
The Morris Academic Alert program provides communication, resources, and broad-based support for student success. The program is coordinated by Academic Affairs, Student Affairs, and the Scholastic Committee. It provides students who may be academically at risk with early information and assistance to successfully complete their classes. Studies of student learning underscore the importance of frequent and timely feedback as an important contribution to success in student learning. A timely notification about performance can result in appropriate action. In-progress notifications also help advisers develop strategies for academic success with their advisees.

Per policy (policy.umn.edu/education/midtermacadperformance), instructors are required to provide in-progress notification about performance can result in appropriate action. In-progress notifications also help advisers develop strategies for academic success with their advisees.
notifications for all 1000-level courses to students who, on the basis of performance to date in the course, appear to be in danger of receiving a grade of D, F, or N. Instructors are encouraged to provide in-progress notifications for 2000-level and higher courses. Instructors use the Academic Alert program to notify students of their academic performance within a timeframe that allows them to improve their academic performance or withdraw by the withdrawal deadline. Academic Alerts may also be submitted if a student is missing class, failing exams or quizzes, or experiencing other difficulties.

Staff are also encouraged to submit alerts when students are having difficulty with other campus responsibilities such as missing work.

When alerts are submitted through the Morris Academic Alert Program, the students and their advisers are notified and provided information on support resources. The Academic Alert Team coordinates support for students as needed, particularly when students are at risk in more than one course.

Exceptions to Policy and Requirements

The Scholastic Committee acts on exceptions to requirements in the General Education Requirements (GER) and to policies governing grading, cancel/add, and credit limits. For exceptions in the major, students should consult the discipline coordinator.

Academic Grievance Procedures

Students with complaints about an instructor or criticisms about course content, procedures, or grading should, in almost all instances, bring the matter directly to the instructor. Where this is clearly inappropriate or when such action does not bring about a mutually satisfactory solution, the student should take the problem to the chairperson of the division administratively responsible for the course (see the Academic Division Structure section). The chairperson will attempt to resolve the matter informally. Grievances involving an instructor’s judgment in assigning a grade based on academic performance may be resolved only through this informal resolution procedure. Student academic complaints regarding the University’s provision of education and academic services affecting their role as students must be based on a claimed violation of a University rule, policy, or established practice and should first involve an attempt to resolve the matter informally. Decisions of the division chairperson can be appealed to the vice chancellor for academic affairs and dean. There will be no appeals beyond the vice chancellor for academic affairs. Students may bring academic complaints regarding the University’s provision of education and academic services affecting their role as students. Such complaints must be based on a claim that there has been a violation of a University rule, policy, or established practice. Morris procedures for handling student academic complaints are available through the Morris Office of the Vice Chancellor for Academic Affairs and Dean. Resolution of complaints under this policy may include reinstatement or corrective action for the benefit of the student, including refunds, but may not award monetary damages or direct disciplinary action against any employee of the University. Other issues, such as concerns related to University employment and University admissions decisions, do not fall under the student academic complaints policy. This policy does not limit the University’s right to change rules, policies, or practices related to the provision of academic services and education.

Equal Opportunity and Affirmative Action

The University of Minnesota shall provide equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression. University policy information is available at diversity.umn.edu/EOAA/.

The EOAA Office acts as a neutral party to advise individuals and departments about perceived, existing and potential discrimination, harassment, sexual misconduct (sexual assault, sexual harassment, stalking, and relationship violence), retaliation, and potential violations of the policy against nepotism. EOAA responds to these concerns of these policy violations through informal problem solving or formal investigation.

Discrimination and Harassment

The University of Minnesota is committed to providing an equitable work and learning environment that is free from discrimination and harassment. The Board of Regents’ Equity, Diversity, Equal Opportunity, and Affirmative Action Policy prohibits discrimination and harassment on the basis of race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, and gender expression.

Sexual Harassment, Sexual Assault, Stalking, and Relationship Violence (including Title IX)

Sexual harassment is a form of sex discrimination that is also prohibited by Board of Regents’ policy. The University of Minnesota also prohibits all forms of sexual misconduct, including sexual assault, sexual harassment, stalking, and relationship violence. The federal statute referred to as Title IX also prohibits sexual harassment and sexual misconduct.
Nepotism
The Board of Regents’ Nepotism Policy governs conflicts of interest that result from personal relationships among members of the University community. The University requires reporting of potential nepotism situations to Human Resources or to EOAA so that appropriate steps can be taken to avoid any prohibited activity.

Retaliation
The University of Minnesota prohibits retaliation against anyone who raises concerns about discrimination, harassment, sexual misconduct, or nepotism; opposes such practices; or participates in an investigation. Retaliation may include intimidation or harassment.

Title IX: Required Sexual Misconduct Reporting
Employees must report sexual misconduct they learn about in accordance with University policy. An employee may make a report of sexual misconduct that they learned about, or find more information about the employee reporting requirement at www4.morris.umn.edu/human-resources/equal-opportunity.

Bias Crime or Hate Crime
When a member of the University of Minnesota Morris community experiences or becomes aware of a possible bias-related incident, the University of Minnesota will provide support and address disrespectful bias and discrimination within the community. The University of Minnesota Morris campus procedures for reporting and responding to bias incidents are available at www4.morris.umn.edu/human-resources/equal-opportunity.

Disability Accommodation
Student disability accommodations are coordinated through the Disability Resource Center in the Office for Academic Success, 240 Briggs Library, 600 East 4th Street, Morris, MN 56267; 320-589-6178.

Faculty, staff, and other disability accommodation requests, or request for materials in alternative formats, please contact the Office of Human Resources, 201 Behmler Hall, 600 East 4th Street, Morris, MN 56267, 320-589-6024.

Inquiries and Reports
Inquiries or reports regarding compliance, including Title IX compliance, may be directed to the Director, Office of Equal Opportunity and Affirmative Action, University of Minnesota, 274 McNamara Alumni Center, 200 Oak Street S.E., Minneapolis, MN 55455; phone: 612-624-9547; email: eoaa@umn.edu or to the Director, Human Resources, University of Minnesota Morris, 201 Behmler Hall, 600 East 4th Street, Morris, MN 56267; phone: 320-589-6024, email: ummeoaa@morris.umn.edu. An anonymous report can be made at compliance.umn.edu/report.

Confidential assistance for students:
- Student Counseling
  235 Behmler Hall, 600 East 4th Street
  Morris, MN 56267
  Phone: 320-589-6060

Confidential assistance for faculty and staff:
- U of M Employee Assistance Program (EAP), The Sand Creek Group, Ltd.
  Phone: 651-430-3383 or 888-243-5744

The Morris Campus EOAA information, including reporting options, is available at www4.morris.umn.edu/human-resources/equal-opportunity. The University system EOAA information, including reporting options, is available at diversity.umn.edu/eoaa/.

Other Resources
Contact the Morris Campus Police Department at 320-589-6000, immediately if a crime has been committed.

The Morris campus Violence Prevention and Response Folder is available at z.umn.edu/MorrisViolencePreventionResponse.

Student Code of Conduct, Academic Integrity, and Disciplinary Procedures
All students are expected to abide by the University of Minnesota Student Code of Conduct adopted by the Board of Regents (regents.umn.edu/sites/regents.umn.edu/files/policies/Studennt_Conduct_Code.pdf). The Student Conduct Code is based in the following guiding principles:

- The University seeks an environment that promotes academic achievement and integrity, that is protective of free inquiry, and that serves the educational mission of the University.
- The University seeks a community that is free from violence, threats, and intimidation; that is respectful of the rights, opportunities, and welfare of the students, faculty, staff, and guests of the University; and that does not threaten guests of the University; and that does not threaten the physical or mental health or safety of members of the University community.
- The University supports and is guided by state and federal law while also setting its own standards of conduct for its academic community. The University is dedicated to the rational and orderly resolution of conflict.

The Student Conduct Code specifically prohibits scholastic dishonesty; disruption of the academic environment; falsification; refusal to identify and comply; attempt to injure or defraud; harm to person; bullying; sexual assault; disorderly conduct; illegal or unauthorized possession or use of weapons; illegal or unauthorized possession or use of
drugs or alcohol; providing alcohol to minors; unauthorized use of University facilities and services; theft, property damage, or vandalism; unauthorized access; disruptive behavior; hazing; rioting; violation of University rules; violation of federal or state law; and persistent violations.

Any alleged violation of the student conduct code is a matter of concern to the University. The University of Minnesota Morris has a campus-wide disciplinary process, managed by the Office of the Vice Chancellor for Student Affairs and the Student Behavior Committee (SBC), a subcommittee of the Student Affairs Committee, that handles most complaints under the Student Conduct Code. Allegations of individual or group misconduct may be reported by the Campus Police, University departments, individual students, faculty/staff, campus guests, or others. University of Minnesota student conduct processes emphasize student development through understanding and accepting responsibility for personal behavior, while protecting community interests and due process. Students and student organizations found responsible for disciplinary offenses under the Student Conduct Code are subject to sanctions (i.e., warning, probation, required compliance, restriction of privileges, university housing suspension, suspension, expulsion). Factors considered in determining appropriate sanctions are outlined in the code.

The student conduct code and related UMN Morris procedures are available on the One Stop Student Services Safety and Emergency webpage, onestop.morris.umn.edu/safety/ and the University of Minnesota Policy Library, www.policy.umn.edu.

Student Behavior Committee

Disciplinary Action

On the Morris campus, formal disciplinary action is the responsibility of a faculty-student committee of the Campus Assembly. The constitution of the University of Minnesota Morris makes explicit the role of the Student Affairs Committee in oversight, consistent with the Regents policy, of student conduct processes on the Morris campus. A nonvoting administrative secretary is appointed by the chancellor, with judicial processes managed through the Vice Chancellor for Student Affairs.

Administrative Disciplinary Action

It is desirable that some instances of student misconduct be settled directly within the appropriate administrative unit. These persons and agencies investigate allegations of misconduct and work with the concerned parties to reach an administrative resolution of the dispute whenever possible. The student has the right to request a formal hearing regarding the issue with the Student Behavior Committee.

Student Academic Integrity

Scholastic honesty is of fundamental importance to the functioning of any community of scholars. Although the pursuit of knowledge is always a communal project, individual academic achievement must be the result of a person’s own efforts and abilities. Members of an academic community are responsible for their own personal and academic development and for fostering an academic climate in which all members draw from and give back to the community. The University is charged with implementing those policies that will help bring about such an academic climate. However, the ultimate responsibility for creating a community of scholars, in which mutual self-respect flourishes, lies with the individual members of the community. Each member must, therefore, act according to the highest standards of academic honesty.

Academic honesty entails producing original work, accurately attributing authorship, and acknowledging the work of others, including the work of collaborators, when appropriate. Academic honesty extends to behavior that supports the academic honesty of others. The integrity of an academic community demands that students and faculty alike display honesty, trust, fairness, respect, and responsibility.

The maintenance of academic integrity is a joint student and faculty responsibility. The procedures in the link below apply to all academic work pursued at the University, including work submitted to fulfill course requirements (both in- and out-of-class work), as well as independent academic endeavors. These include but are not limited to in-class examinations, quizzes, tests, laboratory tests, reports, laboratory reports, “take-home” examinations, research projects, papers, art work, internships, and assistantships. It is incumbent upon course instructors assigning work to be submitted in fulfillment of course requirements to explain, either verbally or in the course syllabus, what constitutes academic dishonesty and plagiarism. Any special conventions regarding quotation, paraphrasing, footnoting, use of outside materials, collaboration, and related matters shall be carefully explained by the instructor.

Allegations of scholastic dishonesty are usually first raised by the affected instructor and are often resolved simply by the assignment of a grade or other academic consequence in the class and the acceptance of that grade or consequence by the student. Instructors should report all cases of scholastic dishonesty to the Office of the Vice Chancellor for Student Affairs, even if the matter is resolved.

The student conduct code and related UMN Morris procedures are available on the One Stop Student Services Safety and Emergency webpage, onestop.morris.umn.edu/safety and the UMN policy library, www.policy.umn.edu.

Procedures for academic integrity violations are available at policy.umn.edu/education/studentconductcode-proc03.

University of Minnesota Morris 2019-21 Catalog

Academic Information

Morris is committed to providing students as many learning opportunities as possible, both inside and outside the classroom. All faculty are not only dedicated to teaching, but are also active in expanding the knowledge of their field, finding creative expression for ideas, or using their professional training to serve the region. Many faculty encourage students to participate in this professional work, creating opportunities for students to gain experience with the research process, coauthor scholarly articles, or realize their potential to make impactful change.

Morris offers 34 majors as well as areas of concentration (self-designed majors), interdisciplinary, and preprofessional programs. Programs and courses in education, the humanities and fine arts, the social sciences, and science and mathematics provide an excellent background for any major. Students can complement their coursework through the Honors Program, study abroad, internships, field trips, and directed studies. In addition, many lectures, concerts, films, and special programs are offered on campus to enhance the educational experience.

Helping students make the most of their education is Morris’s primary goal. Morris’s programs challenge students to think critically, make decisions wisely, develop their creativity, and increase their awareness of the world around them.

Program Planning

Students are responsible for planning programs that will satisfy their own educational and professional goals. Academic advisers, faculty, student success coaches, and Academic Advising, Career Center, and Student Counseling staff are available to assist with program planning, and students should seek this assistance to assure well-organized and balanced programs of study as well as to avoid planning errors.

This catalog was published in spring 2019. Links to the most current information about major requirements and courses can be found in the online catalog at www.catalogs.umn.edu/morris.

APAS—Academic Progress Audit System

The Academic Progress Audit System (APAS) is a tool for both students and advisers. The report provides progress information towards general education requirements, majors or major/minor requirements, and degree completion. Students cannot graduate until all degree requirements listed on APAS are completed. APAS is the “Document of Record” used to certify completion of the degree. Students are encouraged to review their APAS:

• prior to registering to review which requirements need to be completed;
• after registering to confirm that new classes meet requirements;
• when grades are posted to review courses counting toward graduation;
• to explore majors by using the “what if” option;
• to regularly confirm graduation requirements are completed, especially during the senior year.

APAS reports are available through the MyU portal.

Graduation Planner

Graduation Planner is an online academic planning tool that allows students to explore degree requirements, plan courses, and create customized plans that help them stay on track for graduation. Advisers are able to view student plans and provide feedback. The goal of Graduation Planner is to simplify the degree planning process and stimulate meaningful interaction with advisers.

The Graduation Planner works together with APAS to help students plan for graduation in a timely manner and to explore a variety of majors, minors, and/or licensure programs. Information about the Graduation Planner can be found at plan.umn.edu/.

Schedule Builder

Schedule Builder is available to create customized class schedules for use during registration. The program takes into account desired courses, personal preferences, and a target number of credits. Schedule Building can be used in conjunction with the “Shopping Cart” feature of the registration system.

Credits

Information on workload expectations assists students in understanding the necessary time to allocate for their courses. Outlining workload expectations also allows for greater consistency across the curriculum, as well as identifies areas where the expectations are not necessarily applicable due to the nature of the course being taught. This is outlined in the University policy, “Instructional Time per Course Credit” at www.policy.umn.edu/Policies/Education/Education/INSTRUCTIONALTIME.html and Directed Studies, Directed Readings, and Directed Research at www.policy.umn.edu/Policies/Education/Education/DIRECTEDSTUDY.html

Each credit represents an average of three hours per week of a student’s time and effort, with one hour in class, two hours of preparation, or three hours of laboratory work, for example.

Class Level. A student with fewer than 30 completed credits is classified as a freshman; 30 to 59 completed credits, a sophomore; 60 to 89 completed credits, a junior; 90 completed credits or more, a senior.

Promoting Timely Graduation. At least 120 credits are required for graduation. Students must complete at least 15 credits per semester on average to graduate within four
years. The University expects most undergraduate students to complete their degree within four years. The complete policy is at policy.umn.edu/education/timelygraduation

Maximum Credits for Registration
The maximum number of credits per fall or spring semester for which a student is allowed to enroll without approval is 20. The maximum number of credits per summer term (May term, Summer Session I, and Summer Session II) for which a student is allowed to enroll without approval is 12. The registrar’s approval is required for a student to enroll for more than the maximum credits. If the request is denied, the student may appeal to the Scholastic Committee.

Student Academic Support
The student academic support offices and services at Morris are dedicated to promoting academic development, enrichment, and success for Morris students beginning when students commit to Morris and continuing until they graduate. These offices include:
- The Office of Academic Success, which includes Academic Assistance, the Disability Resource Center, Academic Advising, and the College Success Coach program;
- Academic Center for Enrichment (ACE)
- Career Services (within ACE)

Office of Academic Success
240 Briggs Library
320-589-6178
The Office of Academic Success (OAS) promotes educational equity, access, and excellence. The staff are dedicated to helping students identify and achieve their academic goals. The office provides a range of academic assistance programming as well as disability resources, accommodations, and support. OAS is also a resource for faculty concerned about a student’s academic progress, students thinking about transferring or leaving college, or for any other issues that may impact student success. All services are provided to enrolled students at no additional fee. For more information, visit the Office of Academic Success website www.morris.umn.edu/academicsuccess

Academic Advising
The mission of the Academic Advising program is to promote and support student learning by providing opportunities for personal and academic growth through quality activities and resources for both students and faculty. Advising by faculty is considered an integral part of Morris’s central mission. Strong connections between students and faculty outside the classroom contribute to a successful educational experience.
Academic Advising is responsible for coordinating the advising program. Adviser assignments are based on students’ particular needs and academic interests. Faculty advisers help with academic planning and encourage students to pursue their interests within the liberal arts. First- and second-year students are required to discuss their course selections with their advisers each semester. Students must prepare an academic plan: first-year students for their sophomore year and sophomores for their final two years. Advisers can help students enhance their college experience by clarifying academic goals, talking through ways to meet requirements, and considering the effects of their choices on degree completion, career preparation, or graduate school. Students also work with advisers to plan academic enhancement opportunities such as study abroad, internships, and research projects.
Advisers are experts in helping students plan their general education requirements and courses for the major. Students are encouraged to change advisers as their interests change. Information on how to change advisers can be found online or by visiting the Advising website.
It is common for students to begin college with an “undecided” major or for students to change majors/minors throughout their academic career at Morris. Academic planning assistance is available through individual appointments and Academic Advising’s resources. Career Services also offers resources and interest inventories. Students are also strongly encouraged to discuss academic and career options with their adviser.
For more information, visit www.morris.umn.edu/advising.

Academic Assistance
Academic Assistance provides academic support to enhance student success.
Academic Assistance collaborates with various academic disciplines to provide peer tutors for many courses offered at Morris. The program also offers drop-in study rooms, appointment-based tutoring, Peer Assisted Learning study groups, and individual academic consultation. Staff also instruct the Mastering Skills for College Success course, which teaches efficient academic strategies and offers time management, test preparation, and study skills programming.

College Success Coaching
Faculty advisers and success coaches work together to bridge the academic experience and connect students to campus resources. First-year students are paired with a success coach to help them develop strong relationships with the campus community and access programs and services. Success coaches guide students in the transition to college-level learning. Staff in the Office of Academic Success and campus partners in Summit Scholars (TRIO Support Services) and the Native American Student Success program work together and serve as success coaches for all first-year students.
Disability Resource Center
The goal of the Disability Resource Center is to ensure that students have access to all learning opportunities. Students with disabilities receive personal attention and are accommodated based on their individual academic needs. The Disability Resource Center staff provides support for students with physical as well as various learning, health-related, cognitive, autism spectrum disorder, and/or psychological disabilities. Disability Resource Center staff provide access to appropriate accommodations and help students learn self-advocacy skills.

Students with disabilities are accommodated through a variety of means such as alternate print formats, alternate testing, note-takers, building orientation, classroom relocation, technology, priority registration, sign language interpreters, and books in audio format.

Students with disabilities are responsible for providing documentation and requesting accommodation far enough in advance for accommodations to be made. For more information, visit the Disability Resource Center website www.morris.umn.edu/academicsuccess/disability/.

The Academic Center for Enrichment and Career Services
5 Student Center
320-589-7014
The Academic Center for Enrichment (ACE) offers guidance and information for students interested in expanding their academic and intellectual experiences beyond the traditional classroom. The ACE office coordinates the following enrichment programs: study abroad, honors, national scholarships, National Student Exchange, and many of Morris’s undergraduate research opportunities. All Morris students are eligible to participate in these academic enrichment activities and the ACE office works to increase student awareness of these opportunities. Students who are Morris Scholars work with the ACE staff to explore opportunities that are supported by their stipends. The ACE office is staffed by faculty advisers who are available to answer student questions and help students identify which enrichment programs fit their interests.

For more information on any of the programs below, visit the ACE website at www.morris.umn.edu/ACE.

Career Services
320-589-6065
Career Services offers a variety of career planning, field experience education, and job and graduate/professional school transition services. These services are available to both current students and alumni who need assistance in establishing career planning and job search strategies. Career planning activities offer the opportunity to evaluate skills, values, and interests that affect career decision making. Career planning may include personal counseling, exploring the Career Resource Library, occupational testing, and participation in life/work planning, career fairs, and outreach groups.

Field experience education at Morris is offered through an internship program. Internships provide the opportunity to earn credit for study and work in one’s chosen field. Morris has established internships in business, counseling, public relations, television and radio production, social work, public administration, computer programming, education, scientific research, and many other fields.

Career transition services assist students and alumni in seeking employment or admission to graduate or professional schools. These services include providing information about job vacancies in education, government, business, and industry; arranging on- and off-campus interviews between employers and candidates; collecting and maintaining current information about salary and employment trends; and offering assistance with résumé and letter writing, job search, and interviewing techniques.

For more information, visit www.morris.umn.edu/services/career.

Honors Program
The Honors Program is an opportunity for Morris students to pursue more intensive interdisciplinary liberal arts studies, primarily in co-taught courses with faculty from different academic divisions. Only students who complete the Honors program are eligible to graduate “with honors.” All UMN Morris students are eligible to apply to the Honors Program. Typically, students apply to the program in the spring semester of their freshman year and begin coursework in their sophomore year, but other timetables are possible. While everyone may apply, academic success in the fall semester, faculty recommendations, and a short essay may be used to limit admission to those students with the proven motivation and likely ability to succeed in the program.

Applications are available at the Academic Center for Enrichment, 5 Student Center. Students wishing to register for an honors course must be enrolled in the Honors Program. If seats remain in an honors course at the end of registration, non-honors students may enroll with the permission of the instructor.

To graduate with honors, participants must 1) complete IS 2001H—Honors: Traditions in Human Thought, usually in the fall of their sophomore year; 2) complete 8 elective credits in the Honors Program at Morris; 3) successfully complete an interdisciplinary honors capstone project; and 4) have an overall Morris GPA of 3.50 or higher upon graduation. To qualify for a degree with honors, a student must have completed 60 or more semester credits at the University. One Honors course may be taken S-N with pre-approval from the Director of Honors. A student may petition the Director of Honors to transfer up to two honors credits earned at another institution as elective credits in the Morris Honors Program.
Honors courses are limited to a class size of 15. The elective courses examine a particular topic from an interdisciplinary perspective. The courses are often team-taught by faculty from different Morris academic divisions and concern subjects of special interest to the faculty who design them. Two of the 8 required honors elective credits may be earned through an Honors Co-Curricular Independent Project (IS 3991H). This is an interdisciplinary, independent project related to a unique co-curricular opportunity such as study abroad, an internship, or mentored research. Students pursuing this option must secure pre-approval from the Director of Honors and the Dean before embarking upon the proposed project.

The honors capstone project is a substantial scholarly or creative work that demonstrates students’ intellectual engagement and their ability to articulate and defend their choices regarding methodology and subject matter before a panel of three faculty members from different disciplines, including the project’s adviser. It is the responsibility of the student to secure a project adviser, identify two other faculty panelists in consultation with the project adviser, and register for at least two credits of IS 4994H—Honors Capstone Project. The project defense must occur before the end of the last week of classes in a given semester.

National, International, and All-University Scholarships and Fellowships
Morris encourages eligible students to apply for prestigious national scholarships, including the Rhodes, Fulbright, Truman, Marshall, National Security Educational Program (NSEP), Gates-Cambridge, Udall, and others. These academic scholarships cover a wide range of fields and assist in the pursuit of graduate and/or professional study as well as career development. They also typically carry a generous stipend or financial award. Public information sessions are periodically held on campus for students to learn more about these scholarships, including eligibility requirements and application procedures. A team of faculty and staff advisers mentors students in the complex and highly competitive application process.

National Student Exchange
Morris is a member of the National Student Exchange (NSE). NSE is an undergraduate exchange program within the United States, Canada, Guam, Puerto Rico, and the U.S. Virgin Islands. With nearly 200 colleges and universities participating in NSE, students have a wide variety of courses, programs, facilities, and environments to meet diverse academic and personal needs and interests. Students may participate in an exchange with another NSE college or university for a semester or a year.

Study Abroad
Morris is committed to preparing students to become global citizens and to deepening their understanding of world issues. Because firsthand knowledge of other societies and cultures builds international awareness, Morris encourages students to study abroad as part of their academic program. The ACE office and study abroad advisers provide international study, work, and travel information for students. In addition to consulting with ACE advisers and reviewing guides on foreign study and travel, students are encouraged to meet with their faculty adviser to discuss how study abroad options can fit into their academic plans.

As a part of the University system, Morris students have access to an especially broad range of programs all over the world. These programs are offered by Morris (both short-term programs led by faculty and international exchange programs with foreign universities), other campuses of the University, and other affiliated programs.

Undergraduate Research Opportunities Program (UROP)
The Undergraduate Research Opportunities Program (UROP) is a competitive, merit-based program throughout the University of Minnesota that offers financial awards to undergraduates for research, scholarly, or creative projects undertaken in partnership with a faculty member. Students may apply for awards twice a year. UROP awards include stipends (up to $1,500) and expense allowances (up to $300). All full-time undergraduates at Morris are eligible to apply. All Morris faculty may serve as UROP sponsors.

Undergraduate Research Symposium
The Academic Center for Enrichment helps organize Morris’s Undergraduate Symposium (URS), an all-campus conference held each spring during which students from across the campus are invited to present their original research, creative, and scholarly work for their peers and the wider community. All Morris students are eligible to participate and acceptance into the symposium is competitive.

Morris Academic Partners (MAP)
Morris has established a program for advanced students called Morris Academic Partners (MAP). Receiving a stipend, Morris Academic Partners undertake assignments that enhance their intellectual competence and increase their interest in graduate or professional study. Projects involve assisting faculty and professional staff in their research and/or teaching and are more complex than typical work-study assignments. Faculty members apply for the MAP and select student partners entering their third year of study who meet the eligibility requirements. Information about the MAP program may be obtained by contacting the Office of the Vice Chancellor for Academic Affairs and Dean, 315 Behmler Hall (320-589-6015) or online at
Morris Student Administrative Fellows
The Morris Student Administrative Fellows program is designed to enable academically talented, qualified students to assist administrative or faculty offices with administrative and managerial projects. Selected students undertake substantive, academically enriching projects involving them in responsible managerial or technical positions working with faculty and staff mentors. The program pays a stipend directly to the student’s financial aid account. Further information about the Morris Student Administrative Fellows program may be obtained by contacting the Office of the Vice Chancellor for Academic Affairs and Dean, 315 Behmler Hall (320-589-6015) or online at www.morris.umn.edu/services/acad_affairs/aavariables.html#fellows.

Directed Study and Internships
The term “directed study” refers to those on- or off-campus learning experiences individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum. Directed study courses (with 1993, 2993, 3993, or 4993 course numbers) should be arranged before the term begins, but may be added to the registration later up to and including the last day of classes. While registration can occur later in the term, note that the financial aid deadline for awarding aid based upon enrolled credits is the 10th class day of the term. Morris sets the maximum credit limit per student for directed studies at 10 credits. An “internship” is a supervised opportunity to apply academic learning at a field site. It is arranged between a student, an on-site supervisor, and a University faculty member. Morris sets the maximum credit limit per student for internships at 32 credits. For more information about finding an internship, contact the Career Center at 320-589-6065. Directed study and internship offerings include the following courses:

- **Discipline Directed Study**—1993, 2993, 3993, 4993 (1–5 cr per semester)
- **Interdisciplinary Directed Study**—IS 1993, 2993, 3993, 4993 (1–5 cr per semester)
- **Helping Profession Internship**—IS 3796 (1–16 cr per semester)
- **Interdisciplinary Internship**—IS 3996 (1–16 cr per semester)
- **Prior Learning Directed Study**—IS 3893 (1–4 cr per semester)
- **Prior Learning Internship**—IS 3896 (1–16 cr per semester)

A special Directed Study Approval form or Internship Approval form and Learning Contract are required for registration. These forms, available at the division offices or online, essentially establish a contract between the student and the supervising faculty member. The contract includes a statement of the objectives of the project, the methods to be employed, and the procedures for evaluating the project. In addition to faculty evaluation, student evaluation of the project is mandatory. When the work of the project is completed, the faculty member will provide the student with an evaluation questionnaire, which is part of the approval form. The student completes the questionnaire and delivers it to the Office of the Vice Chancellor for Academic Affairs and Dean. The faculty member may not submit a grade until the student’s evaluation of the project has been completed.

Online Learning
The Morris Online Learning program offers the same quality education available in the classroom through web-based college instruction, including small classes and one-on-one interaction with faculty in an interactive virtual classroom environment. Current students, nontraditional students, and new students are welcome. All online courses earn credits equivalent to credits earned on campus for the same course. These credits may be applied toward a degree program at the Morris campus or other colleges in Minnesota and throughout the United States. Courses are transferable to other colleges following guidelines of the institution evaluating the transfer credits.

Information about Morris Online Learning can be found at onlinelearning.morris.umn.edu/. Online learning courses are featured at onlinelearning.morris.umn.edu/course-offerings and answers to the most frequently asked questions are listed at onlinelearning.morris.umn.edu/frequently-asked-questions-faq.

Summer Term
The summer term, including May session, Summer Session I, and Summer Session II, offers a learning environment that helps students realize their academic and intellectual potential. Enrolling in rigorous summer term courses offered in the classroom, field, online, and in an independent study format, allows students to accelerate their degree, make up lost credits, meet general education requirements (GER), and/or take a course while living at another location.

Summer term courses, while offered in a condensed format, require the same rigor and effort per credit as any course offered during the fall and spring semesters. Summer term offers a variety of courses, delivery options, and schedules. May session is a special three-week session that begins immediately after spring semester ends. Summer Sessions I and II are each five-week sessions. A few courses begin in Summer Session I and continue through Summer Session II.

Summer term will enrich and expand upon the University’s regular semester curricular offerings and enhance learning opportunities for students in innovative ways. Information about Morris’s summer term can be found at www.academics.morris.umn.edu/summer-term.
Majors Offered
The University of Minnesota Morris offers the following majors:

- Anthropology
- Art History
- Biology
- Chemistry
- Communication, Media, and Rhetoric
- Computer Science
- Economics
- Elementary Education
- English
- Environmental Science
- Environmental Studies
- French
- Gender, Women, and Sexuality Studies
- Geology
- German Studies
- History
- Human Services
- Latin American Area Studies
- Management
- Mathematics
- Medieval Studies
- Music
- Native American and Indigenous Studies
- Philosophy
- Physics
- Political Science
- Psychology
- Sociology
- Spanish
- Sport Management
- Statistics
- Studio Art
- Theatre Arts

Specific requirements for Morris majors are listed in the Academic Division Structure and Program and Course Descriptions sections of this catalog. Completion of a given major, however, usually involves fulfillment of more than the minimum requirements. Once students have selected a major, they should seek the counsel of a faculty member in the discipline to plan a well-organized and balanced program.

Often students enter college undecided about their major. General education requirements, many of which are completed during the first two years, introduce students to disciplines from which they choose a major.

Minors
In addition to a major, students may pursue a minor in one of the programs above or in one of the free-standing minors: African and Black American Studies, Data Sciences, Jazz Studies, or Sustainability Leadership.

Individualized Majors and Minors ("Areas of Concentration")
Students may choose to complete an area of concentration. This is an individualized, often interdisciplinary, group of courses that meets the requirements for a major or minor. Examples of previously approved areas of concentration include: actuarial sciences, animal behavior, art therapy, journalism, chemistry major with forensic science, human rights and social justice, international studies, jazz studies, deaf studies, forensic science. Students must fill out the appropriate forms and request final approval. Area of concentration forms are available online at www.morris.umn.edu/services/acad_affairs/aavarious.html#areaconcentration. Changes to an approved area of concentration must go through the original approval process.

Teacher Education
UMN Morris offers all students the opportunity to study education and its role in society. Most courses with the “Ed” designator meet general education requirements, and enrollment in these courses is open and not limited to students pursuing teaching licensure through either the elementary education or secondary education program.

The requirements for teacher education programs are listed in the Academic Division Structure and Program and Course Descriptions sections of this catalog. These programs are selective. An admission process must be completed for entry into either the elementary or secondary education program. These admission requirements are set by UMN Morris and the state of Minnesota and are outlined in further detail in the Elementary Education and Secondary Education sections of this catalog. Students who intend to pursue licensure as an elementary or secondary school teacher should contact the Division of Education as early as possible in their college career.

Both education programs are state and nationally accredited. They follow a model in which students progress through coursework and field experiences as a cohort. Programs are highly interactive and reflective. They emphasize the integration of theory and practice, leadership, diversity, and technology. State and national standards are met through developmental, constructive, and collaborative programs.

The Division of Education offers a major and teaching licensure in elementary education (K–6) with optional endorsement areas in preprimary (age 3–preK); and middle level (grades 5–8) communication arts and literature, mathematics, science, and social studies. Licensure of secondary school teachers is offered in chemistry (9–12), communication arts and literature (5–12), French (K–12), general science (5–8), instrumental music (K–12), life science (9–12), mathematics (5–12), physics (9–12), social studies (5–12), Spanish (K–12), visual arts (K–12), and vocal music (K–
12). Students may elect to complete coursework leading to endorsement for head varsity coaches in Minnesota. See the coaching endorsement section below for course listings. Teacher education at UMN Morris is part of the lifelong development of an effective teacher. It is based on a belief that a successful teacher is one who reflects on teaching and makes instructional decisions that ensure student learning. Teacher education at UMN Morris uses personalized instruction and provides opportunities for a variety of rural, urban, and suburban placements in Minnesota, other states, and other countries. Teacher candidates are prepared to employ human, technological, and other resources in the effective instruction of diverse populations of learners. The program introduces prospective teachers to the teaching profession and prepares them to demonstrate:

1. **Knowledge** of themselves and of learners; liberal arts disciplines; diverse cultures, social organizations, and societies; growth, development, and learning; communication and language; problem solving; and effective teaching and learning;
2. **Skill** in all aspects of teaching including setting goals and objectives; selecting appropriate content, activities, and materials; implementing effective lessons; assessing student learning; and evaluating oneself with the goal of continuous improvement;
3. **Dispositions** associated with effective teaching, including collaboration; ethics and integrity; equity and respect; efficacy and commitment to learning; responsibility; and enthusiasm and openness;
4. **Leadership** when addressing educational issues developed and demonstrated through issue-oriented readings and research; topic presentations; expert groups; peer teaching; senior presentations; and participation in University clubs, organizations, committees, and research programs with UMN Morris faculty.

### Coaching Endorsement

The Sport Studies and Athletics discipline is designed to provide students with the knowledge and skills necessary for overall fitness/wellness and coaching. The statement, “Varsity coaching requirements completed,” is added to the transcript of students who complete the requirements for coaching endorsement. Details are available online at [academics.morris.umn.edu/sport-studies-athletics/coaching](http://academics.morris.umn.edu/sport-studies-athletics/coaching).

### Preparation for Professional Degrees in Other Colleges

Undergraduate liberal arts coursework is required for admission to professional schools in fields such as engineering, pharmacy, law, and medicine. Students on the Morris campus have the opportunity to complete a broad range of liberal arts courses that prepares them to apply for admission to various professional schools at the University of Minnesota and other prestigious universities across the nation. It is recommended that students who intend to apply for professional programs complete the Morris degree requirements. Many students change their educational objectives during the course of study in preparation for a professional school, in which case the credits earned can be applied toward Morris graduation requirements. Morris advisers work with students on a regular basis to plan an academic program that supports the student’s academic interests and goals. Academic Advising provides detailed guides to preparatory coursework at Morris that is recommended by the University of Minnesota professional schools. In addition, professional school catalogs, the best source of information about requirements, are available online at [www.catalogs.umn.edu](http://www.catalogs.umn.edu).

Students are urged to consult the catalog of the professional school they plan to attend for information about the admission requirements, application deadlines, and procedures. Most professional schools require a minimum GPA, a satisfactory score on a standardized aptitude test, and letters of recommendation. Online and self-study courses related to the health sciences offered through the University of Minnesota, Twin Cities are also available to Morris students. Morris offers preparatory coursework for the following professional schools of the University of Minnesota. Note that most programs require students to complete their bachelor of arts degree prior to applying.

- Dentistry
- Engineering
- Law
- Medicine
- Nursing
- Pharmacy
- Physical Therapy
- Physician Assistant
- Veterinary Medicine

### Dentistry

Students planning to earn the doctor of dental surgery degree at the School of Dentistry on the Twin Cities campus must complete a minimum of 87 semester credits in a broad liberal arts curriculum while emphasizing biology, chemistry, organic chemistry, biochemistry, mathematics, physics, and applied psychology for admission to the professional program. The majority of students entering the program have completed four or more years of college and a bachelor’s degree. Admission is very competitive and requires a minimum of 50 hours of shadowing in general dentistry. The average entering GPA for the 2015 class was 3.55 (overall) and 3.47 (science-based courses). Specific requirements can be viewed at [www.dentistry.umn.edu](http://www.dentistry.umn.edu/). Students seeking admission to the School of Dentistry must apply through the Associated American Dental Schools Application Service (AADSAS) by December 1. Information and registration for the Dental Admission Test (DAT) are available online at [www.aeda.org/aadsas](http://www.aeda.org/aadsas). Scores from the
DAT are required as part of the application and must be submitted to the School of Dentistry by December 1 of the academic year preceding the fall term in which enrollment is sought. The supplemental School of Dentistry application deadline is also December 1 and the application is available in early June. Applications are considered on a rolling basis, so students are encouraged to apply early.

Engineering
Students at Morris can pursue the study of engineering programs including aerospace and mechanics, astrophysics, biomedical, bioproducts and biosystems, chemical, civil, computer, electrical, environmental, geoengineering, industrial and systems, materials science, and mechanical engineering. The pre-engineering curriculum option allows students to attend Morris for two years, taking the mathematics, chemistry, physics, computer science, writing, and other liberal arts courses required in engineering programs and then transfer to UMTC. Students considering an advanced degree in engineering can complete a bachelor of arts degree at Morris and then enroll in a graduate engineering program at UMTC or elsewhere.

Pre-Engineering Program
The pre-engineering program is a well-articulated arrangement with the University of Minnesota College of Science and Engineering in which students attend Morris for two years, completing the core mathematics, physics, chemistry, computer science, and composition courses that are the standard preparatory courses for the CSE engineering programs. Since the course requirements do vary slightly from one engineering program to another, each student should work closely with a faculty adviser in the selection of both required and elective courses. (Many students choose electives that satisfy the general education requirements of both Morris and CSE so that they have the option of graduating from Morris rather than transferring.) After two years at Morris, students can transfer to CSE. Most successful applicants have a technical GPA of 3.2 or higher. Secondary factors include cumulative GPA and grade trends. Students can complete a bachelor of science in engineering within two to three years after their transfer. The priority application deadline is February 1. The average transfer GPA was 3.61 in Fall 2019.

B.A./Graduate Engineering Degree Program
A bachelor of arts degree in one of the basic sciences at Morris is excellent preparation for a graduate degree in engineering. It is not necessary to have an undergraduate degree in engineering to enroll in an engineering graduate program either at the University of Minnesota or elsewhere. At the University of Minnesota, a student with a bachelor of arts in one of the basic sciences can usually complete a master of science in engineering in two years. A doctorate degree takes several more years.

Law
A bachelor’s degree is required for admission to law school, but no specific preparatory program or major is prescribed. Students are advised to plan a rigorous liberal arts bachelor’s program that provides a broad background in the humanities, mathematics, sciences, and social sciences. Students should select an academic major based on their special area of interest and abilities to ensure a depth and breadth of knowledge in one field. They are also encouraged to take courses that require independent thought and writing, including work in other languages, and to develop effective skills in oral and written expression through coursework or activities.

The University of Minnesota Law School is noted for its exceptional and accessible faculty and a highly competitive admissions process that results in highly credentialed students. A strong scholastic record and scores from the Law School Admission Test (LSAT) are key factors for admission. Various factors such as work experience; career goals; positions of leadership; racial, ethnic, or economic backgrounds; and public service are also considered.

All applicants must first register online with the Credential Assembly Service (CAS). The service acts as a repository for the student’s application, academic transcripts, LSAT test scores, and letters of recommendation. Other required materials include a personal statement, a resume highlighting extracurricular activities and community service, and an application fee.

Applicants typically take the LSAT in December of their senior year in college. Applications are available on September 1 with an early decision deadline of January 15 and final deadline of July 15. Admission is on a rolling basis. LSAT/CAS information and applications are available online at www.lsac.org.

Medicine
Students planning to enter a school of medicine must complete a bachelor’s degree before admission. Required premedical courses in the bachelor’s degree program include biology, chemistry, physics, psychology, and sociology. The two Minnesota medical schools are the University of Minnesota Medical School in Minneapolis and the University of Minnesota Medical School in Duluth. Requirements of the various medical schools vary and change frequently. Admission is extremely competitive. First-year Morris premedical students should check the websites of the schools they are interested in and work closely with their faculty adviser and the Morris pre-medicine advising committee. Students who wish to enter medical school directly after graduating should begin application procedures for medical school during their junior year.

Both Minnesota medical schools use the American Medical College Application Service (AMCAS). The AMCAS
application should be submitted online between June 1 and November 1 of the year students wish to apply. Medical school applicants are required to take the Medical College Admission Test (MCAT). Students must take the MCAT no later than September 30 of the year they wish to apply. Registration materials and more information about MCAT can be found at www.aamc.org/students/applying/mcat/ and at Student Counseling.

Nursing
An excellent opportunity for Morris students to pursue a career in the nursing profession is the Masters of Nursing (MN) Program at the University of Minnesota, Twin Cities. During their senior year or after graduation, Morris students can apply to this full-time, 16-month graduate-level program that is designed for students with a bachelor’s degree in a non-nursing field. The program includes all the essentials of a bachelor of science in nursing (BSN) program, plus additional graduate work. Upon completion of the program, students are eligible to take the national licensure exam to become a registered nurse and are also eligible for Public Health Nursing (PHN) certification in Minnesota. The MN program also provides an excellent foundation for either the PhD in nursing or Doctor of Nursing Practice (DNP) degrees at the School of Nursing.

Applicants for the MN program must have a minimum GPA of 3.0 and, in addition to filling out an online application, they will need to complete 9 prerequisite courses and take the GRE. The application cycle for the MN program is from September 1 to November 1 for enrollment beginning in the following fall. Admission is competitive for the 64 spots in the MN program. The Fall 2019 class had an average GPA of 3.7 in their prerequisite courses. Application materials and more information can be found at www.nursing.umn.edu/.

Pharmacy
Students planning to apply to the University of Minnesota College of Pharmacy (Twin Cities or Duluth) must complete specific general education coursework, including composition, biology, human anatomy, human physiology, chemistry, mathematics, physics, economics, behavioral sciences, philosophy/ethics, and public speaking. A completed bachelor’s degree is preferred (about 90% of accepted students have a four-year degree). The most recent entering class had an overall 3.4 PharmCAS GPA and a 3.3 average science GPA. Students must also take the Pharmacy College Admission Test (PCAT) no later than January in the year they apply for admission. More information about the PCAT exam can be found at www.pcatweb.info.

The criteria used to evaluate and select applicants for admission include the student’s previous coursework and GPA, PCAT scores, diversity factors, work experience, demonstrated leadership, oral and written communication skills, and letters of recommendation. Highly qualified candidates are then invited to campus for an interview prior to the admission decision.

Applicants to the program on either the Duluth or Twin Cities campuses must submit materials through PharmCAS, the national application service to which all application materials, including transcripts, letters of reference, and PCAT scores, are submitted. Admission to the College of Pharmacy is selective and offered on a rolling basis. The final application deadline is February 1, however, the class may fill before that time. More information can be found at www.pharmacy.umn.edu.

Physical Therapy
Students must complete a bachelor’s degree (no major preferred) to be eligible for admission to the graduate level physical therapy program at the University of Minnesota, Twin Cities. While at Morris, students are encouraged to complete a strong liberal arts program. Required undergraduate coursework includes biology courses with labs, human anatomy, human physiology, chemistry with labs, physics with labs, general psychology, abnormal psychology, calculus, medical terminology, and statistics (including ANOVA and regression analysis). Past students have also found that biochemistry and human/animal biology classes are helpful preparation. Exposure to a physical therapy setting through volunteer work or employment (minimum 100 hours) is also an important prerequisite. Admission is very competitive. Primary standards require letters of recommendation, a minimum GPA of 3.00, and all courses must be taken with A-F grading. The application cycle runs from July 1 through March 31 with priority consideration for applications received by February 1. Students must take the GRE general exam and can find details online at www.gre.org. For more information, see www.med.umn.edu/rehabmedicine/about/divisions/physical-therapy.

Physician Assistant
Physician assistants, also known as PAs, practice medicine on a team under the supervision of physicians and surgeons. They are formally educated to examine patients, diagnose injuries and illnesses, and provide treatment.

Students must complete a bachelor’s degree (no major preferred) to be eligible for admission to a graduate level physician assistant program. Students are expected to have strong coursework in biology, chemistry, statistics, and psychology. Students are encouraged to strengthen their application with evidence of volunteer or work experiences in health care related roles such as a nurse’s aide or emergency medical technician (EMT). Admission is competitive.

Students interested in being a PA should research the PA program details of schools they are interested in attending early in their undergraduate career as specific program requirements, deadlines, and required supplemental
Graduation With Honors
Students graduating with honors are those who have successfully completed the Morris Honors Program. (See Honors Program above for detailed program requirements.)

Dean’s List
The Dean’s List recognizes students who have achieved an outstanding academic record during a given semester. To qualify, students must have completed all credits for which they were registered during that semester, registered for a minimum of 12 credits of which two-thirds must be on the A-F grading system, and earned a minimum term GPA of 3.666. The Dean’s List is announced each semester by the vice chancellor for academic affairs and dean; a notation is put on the student’s transcript, and a certificate is sent to each student named on the list.

There are instances in which coursework may extend beyond a single academic semester or a serious illness or justifiable emergency may make it impossible for work to be completed by the end of a semester. In such cases, students who meet all other Dean’s List criteria stated above may petition the Functions and Awards Committee in writing for an exception; petitions must be filed within two weeks after the beginning of the next semester for which students register. Students who seek such exceptions should consult with the Office of the Registrar for more information.

Campuswide Awards
Awards recognize exceptional scholarship and related achievements within the student body. Such scholarship can be demonstrated in a variety of ways. Award recipients are recognized at an annual Honors and Awards Ceremony prior to Commencement.

Chancellor’s Award
This award is presented to outstanding students on the basis of academic excellence and contribution to campus life. The Executive Committee of the Morris Campus Student Association and student members of the Campus Assembly nominate students for this award. Nominees are endorsed by the Functions and Awards Committee. Morris’s chancellor makes the final selection.

Scholar of the College Award
This award is presented annually to students who have demonstrated distinguished scholarly work by making valuable contributions in one or more of the academic disciplines. Nominations are made by the faculty, reviewed by the Functions and Awards Committee, and approved by the Campus Assembly.

Allen W. Edson Award
This award is presented annually in recognition of a student’s total contribution to campus life. Selection is made by the Executive Board of the Morris Campus Student Association, student members of the Campus Assembly, and the faculty. Allen Edson was superintendent of the University
of Minnesota West Central School of Agriculture (WCSA) and Experiment Station on the Morris campus from 1947 to 1958. He joined the WCSA staff in 1921.

**Discipline-Based Honors**

In addition to the above scholastic honors, the University of Minnesota Morris recognizes campuswide student leadership in the academic disciplines. Discipline-based honors can be found at [www.morris.umn.edu/services/acad_affairs/DisciplineHonors.html](http://www.morris.umn.edu/services/acad_affairs/DisciplineHonors.html).

Degree Completion

Bachelor of Arts Degree

Degrees from the University of Minnesota are granted by the Board of Regents upon the recommendation of the faculty of the University school or college, in this case the Morris campus, in which students are enrolled. Requirements vary among the undergraduate colleges of the University, and students must meet all course, credit, and grade point average (GPA) requirements of the college in which they are enrolled. The Morris Catalogs are in effect for nine years; this catalog is in effect from fall 2019 through the end of summer session 2028. Students may choose to use the catalog in effect their first term and year at Morris (provided it has not expired) or any subsequent catalog.

The General Education requirements completed under any previous catalog, including expired catalogs, may be used to complete the bachelor of arts degree. Permission to use the major requirements from an expired catalog must be obtained from the faculty. If a degree application is on file by the 10th class day of spring semester. There is a commencement ceremony in May of each academic year.

Degree Requirements

Requirements for the bachelor of arts (B.A.) degree at Morris include general education and the major.

General Education—General education consists of three parts: Intellectual Community, Skills for the Liberal Arts, and Expanding Perspectives. Students in their first semester at Morris are expected to enroll in an Intellectual Community (IC) course. Students should also attempt to complete the Writing for the Liberal Arts (WLA) requirement in their first year at Morris. Transfer students who have completed 12 credit hours or more of courses at a college or university after receiving their high school diploma are exempt from the IC requirement, and, if those 12 or more post-high school matriculation credit hours include at least four credits of writing instruction and fulfill the writing requirement at their previous institution, are also exempt from the WLA requirement. Regardless, all students are strongly encouraged to complete WLA. All students must also meet the other requirements listed in Skills for the Liberal Arts and in Expanding Perspectives.

The Skills component of general education helps students acquire the intellectual and communication skills needed for successful advanced work. The Expanding Perspectives component helps students gain enough understanding of the principal areas of human endeavor to continue learning and to have a sense of the limits of their knowledge. In order to lay the foundation for learning early, students are expected to complete a significant part of the Skills component during their first and second years of college. The emphasis is on establishing an intellectual framework for future work—a framework consisting of writing, linguistic reasoning, and artistic skills. Students continue to develop these skills in advanced courses.

The Expanding Perspectives component aims to produce effective, inquiring, successful citizens who are able to understand how knowledge is acquired in many academic disciplines—the practices they share and those that diverge, the different approaches to asking questions and making conclusions, the contributions each makes to the broader framework of liberal education. Students with this breadth of knowledge are able to solve problems because they bring ideas and techniques from one field to bear on another in innovative ways. They are also able to bring these differing perspectives to aid their understanding of a world of diverse peoples, activities, and value systems, all of which are increasingly interrelated.

Expanding Perspectives is divided into two parts. One consists of a traditional core of liberal studies roughly organized around the subjects of history, social sciences, humanities, fine arts, and the biological and physical sciences. The other addresses contemporary themes, which are grouped under the heading, The Global Village. The goal is to expand students’ perspectives on human diversity, people and the environment, the international scene, and issues of ethical and civic responsibility. Students gradually fulfill the Expanding Perspectives requirements throughout their college career.

During the first year, students should explore possible majors or fields of specialization, keeping in mind that, in a liberal arts degree program, the major is more of an intellectual “home base” than preparation for a specific occupation.

Transfer students with degrees from other colleges must complete the Morris degree requirements in order to have a major or minor appear on the Morris transcript. Majors and minors do not appear on the transcript unless they are part of a degree program.

Courses taken to complete general education requirements may also apply to requirements in the major. However, all students must complete 60 credits of general education that are not drawn from the discipline of the major.
Specific Provisions

1. General Education Requirements
   (60 credits)

Goals of the General Education Requirements

I. Intellectual Community: To foster development of a liberal arts intellectual community through the introduction of intellectual and practical skills and through active student-faculty engagement in course material.

II. Writing for the Liberal Arts: To foster development of a collaborative writing community, to improve academic writing skills, and to practice the writing process, with emphasis on substantive revision; to develop information literacy particularly in relation to resources on the Morris campus, and to strengthen the foundation for advanced writing conventions specific to individual disciplines and for research processes generally expected in upper-level Morris courses.

B. Foreign Language: To develop proficiency in a single language other than English at the level equivalent to the first full year of college language study.

C. Mathematical/Symbolic Reasoning: To strengthen students’ ability to formulate abstractions, construct proofs, and utilize symbols in formal systems.

D. Artistic Performance: To introduce an understanding of the creative process through individual performance, and demonstrate skill in such activities as composition, theater, dance, studio art, and music.

III. A. Historical Perspectives: To increase students’ understanding of the past, the complexity of human affairs, the ways in which various forces—economic, cultural, religious, political, scientific—influence efforts to control events, and the ways historians verify and interpret their findings.

B. Human Behavior, Social Processes, and Institutions: To increase students’ systematic understanding of themselves as functioning humans, their individual similarities to and differences from others, their awareness of the nature and significance of their conscious experience, and the forces that shape their interpersonal attachments and interactions; or to increase students’ understanding of methods of analyzing modern society or some significant legal, political, economic, religious, social, or scientific component of it.

C. Communication, Language, Literature, and Philosophy: To expand students’ capacity to understand, analyze, discuss, and evaluate discourse concerning the complexity of the human condition through the study of languages and works of thought and imagination.

D. Fine Arts: To develop students’ understanding, analysis, and appreciation of the arts.

E. Physical and Biological Sciences: To increase students’ understanding of the structure and dynamics of the physical and biological worlds, and of the scientific method.

F. The Global Village: To increase students’ understanding of the growing interdependence among nations, peoples, and the natural world.

1. Human Diversity: To increase students’ understanding of individual and group differences (e.g., race, gender, class) and their knowledge of the traditions and values of various groups in the United States.

2. People and the Environment: To increase students’ understanding of the interrelatedness of human society and the natural world.

3. International Perspective: To increase students’ systematic understanding of national cultures substantially different from those in which they received their prior schooling.

4. Ethical and Civic Responsibility: To broaden and develop students’ capacity to question and reflect upon their own and society’s values and critical responsibilities, and to understand forces, such as technology, that cause them to modify these views and often mandate creation of new ways to resolve legal, social, and scientific issues.

Provision i

Morris courses designated as appropriate for meeting general education requirements are those which, if passed successfully, demonstrate the student’s competency in a given skill or area.

Students are required to complete a minimum of 60 credits of general education coursework outside the discipline of the major and must meet the requirements listed below. The requirements may be met not only through Morris courses, but also by transfer of credit, examinations for proficiency or credit, assessment of prior learning, individual projects, and other means. For details, students should consult with their advisers.

In some instances the specific general education requirements may be met using fewer than 60 credits, so additional liberal arts elective courses outside the discipline of the major are needed. The following courses do not count towards the 60 credits outside the major: education practicums, most sport studies and athletics (SSA) courses, accounting courses, internships, elementary education, secondary education, and any non-liberal arts courses from another campus or institution.

Note: The designation following each category below, e.g., “IC,” for Intellectual Community, appears at the beginning
of the parenthetical information for each course that is appropriate for that category.

I. Intellectual Community (IC)—One two-credit course.

II. Skills for the Liberal Arts—One to five courses. These requirements emphasize the development of the intellectual skills, the communication skills, and the framework for learning needed for successful advanced work. Because new students need this foundation early, they are expected to complete many of these requirements during their first and second years.

A. Writing for the Liberal Arts (WLA)—One four-credit course. Within a liberal arts education, writing is the primary way to develop and test one’s thinking. Writing is a skill that can always be improved, and learning to write is a process that is never finished. This requirement thus benefits all students, regardless of the writing skills, experiences, or coursework they bring with them to UMN Morris.

B. Foreign Language (FL)—Proficiency in a single language other than English at the level equivalent to the first full year of college language study. This requirement can be met in any one of the following ways:

• by successfully completing a beginning language II course;
• by successfully completing a 2xxx- or 3xxx-level language course;
• by passing a proctored proficiency exam;
• by achieving appropriate AP, CLEP, or IB examination scores; or
• through the Scholastic Committee if English is not the student’s first language.

Placement tests in selected languages are given by Morris language disciplines to determine the level of pre-college proficiency of a student with prior coursework. Students who plan to study at Morris in the same language that they studied in high school must take the placement examination and abide by the placement recommendation. If after initial exposure to the recommended course the placement is not appropriate to the student’s level, students may consult their language instructors as to the proper course level of study.

Students who wish to “test out” of a second language based on prior learning in French, German, or Spanish must pass a proctored proficiency exam. The initial online Morris placement examination does not fulfill this requirement.

Students who studied a second language other than German, French, or Spanish may contact the Scholastic Committee for further information.

C. Mathematical/Symbolic Reasoning (M/SR)—One course.

D. Artistic Performance (ArtP)—One course.

III. Expanding Perspectives—Eight courses of at least two credits each.

A. Historical Perspectives (Hist)—One course.

B. Human Behavior, Social Processes, and Institutions (SS)—One course.

C. Communication, Language, Literature, and Philosophy (Hum)—One course.

D. Fine Arts (FA)—One course.

E. Physical and Biological Sciences (Sci—without lab; Sci-L—with lab)—Two courses, at least one with lab.

F. The Global Village—Two courses, one from each of two areas.

1. Human Diversity (HDiv)
2. People and the Environment (Envt)
3. International Perspective (IP)
4. Ethical and Civic Responsibility (E/CR)

Provisions ii through v

Provision ii—Goals will be used to match courses to general education requirements.

Provision iii—Only courses of two or more credits will satisfy an Expanding Perspectives requirement.

Provision iv—A course can satisfy only one of the general education categories.

Provision v—Writing for the Liberal Arts is required of all new first-year students. Those who have 12 or more post-high school matriculation credit hours are exempt from the WLA requirement only if the post-high school credits include at least four credits of writing instruction that fulfill the writing requirement at their previous institution. Petitions by students based on their having met the spirit of the requirement will be evaluated by the Writing for the Liberal Arts faculty.

Each major can provide students with a statement about how a student majoring in that area will formally acquire computing and writing skills. Students should contact their faculty adviser for current information.

2. Major or Area of Concentration Major

The Major—The major at Morris is defined as an intensive and coherent program of study reflecting the structure of one or more fields of knowledge. The major complements the essential skills and the broad base of knowledge provided by general education.

The purpose of the major is to ensure that each student pursues a particular field of knowledge in depth, investigates advanced theories and schools of thought, and becomes competent in using the language and methods of inquiry of the field. It is through such concentrated study that a student begins to master a body of knowledge and comes to understand the nature of expertise in the chosen field, including both its power and its limitations.
Students complete a major by fulfilling the requirements as specified elsewhere in this catalog. Virtually all academic majors include a capstone experience appropriate to the discipline. Faculty members in the discipline determine the shape and form of the experience. Capstone experiences are credit bearing and usually are assigned as part of a required course.

Transfer students with degrees from other colleges must complete Morris degree requirements in order to have a major appear on the University transcript. Majors do not appear on the transcript unless they are part of a degree program. Transfer students with degrees from other colleges can receive licensure endorsement that is sent to the Minnesota Department of Education from the Division of Education.

**Area of Concentration Major**—Some students may choose to complete an area of concentration instead of a major. An area of concentration is an individualized, often interdisciplinary, group of courses that meets the requirement of study in depth of a specific field of knowledge. Students who wish to complete an area of concentration must have the program approved by appropriate faculty advisers, division chairs, and the vice chancellor for academic affairs and dean. The approved program is submitted to the Office of the Registrar and an individualized APAS report is created. Detailed procedures and forms are available from the Office of the Vice Chancellor for Academic Affairs and Dean or online at academics.morris.umn.edu/academic-programs/areas-concentration.

3. **Minor or Area of Concentration Minor**

**The Minor**—The minor shares the essential characteristics of the major but differs from it quantitatively. It indicates a special interest and expertise beyond general education and provides sufficient skills and knowledge of the field to form a basis for further study. The requirements for minors are listed in this catalog under the appropriate academic discipline.

A minor is not required for graduation.

Transfer students with degrees from other colleges must complete the Morris degree requirements in order to have a minor appear on the Morris transcript. Minors do not appear on the transcript unless they are part of a degree program.

**Area of Concentration Minor**—Students may choose to complete a self-designed minor instead of the minor requirements listed in this catalog by following the same procedures used to define an area of concentration.

4. **Minimum Required Credits (120 credits)**

Baccalaureate degrees require a minimum of 120 semester credits. The maximum number of S-N credits allowed by a student is 25 percent of University credits counted toward the degree (from any campus). The 120 credits required must include a minimum of 60 credits of general education outside the discipline of the major.

No major or program may require students to take more than 40 of the 120 credits required for graduation in any one discipline.*

All credit awarded by the University, regardless of the campus or type of instruction, is recognized by all University campuses, appears on the transcript, and counts toward the requirements for the degree (subject to the requirements and standards established by departments, colleges, and campuses). In some cases, a student may accumulate credits that, while recognized by the University, are in excess of what may be required for the degree program in which he or she is enrolled.

No more than 8 credits in Music Ensembles (Mus 1300 through Mus 1340); no more than 4 credits in SSA 12xx skills courses; no more than 4 credits in Varsity Athletics (SSA 1401 through SSA 1412); no more than 32 credits from internship (IS 3796, 3896, 3996); and no more than 4 credits in Psychology Field Experience (Psy 4896) may be applied to the 120-credit degree requirement. The use of the grade of D in the major may be restricted by the discipline.

*For the purpose of this policy all secondary education methods courses are considered to belong to the secondary education discipline. Introductory foreign language courses do not count toward the 40-credit maximum in the language disciplines. Introduction to public speaking courses do not count toward the 40-credit maximum in speech communication. Current information is available at www.policy.umn.edu/Policies/Education/Education/BACREDITREQ.html.

5. **Quality of Work**

The cumulative GPA required for graduation is 2.000. A minimum GPA of 2.000 (or higher if indicated by the discipline) is required in the major or area of concentration and in the minor or area of concentration at the minor level in order to graduate. Both the cumulative GPA and the major/minor GPA include all, and only, University of Minnesota coursework. The maximum number of S-N credits allowed to a student is 25 percent of University credits counted toward the degree (from any campus). Current information is available at www.policy.umn.edu/Policies/Education/Education/BACREDITREQ.html.

6. **Resident Credit Requirement**

Current information is available at www.policy.umn.edu/Policies/Education/Education/DEGREEREQUIREMENT.html. Students must complete the following minimum number of credits at Morris to earn the degree:

I. At least 30 semester credits.

II. At least 15 of the last 30 credits.

III. At least half of upper-division major work (3xxx courses or higher). Study-abroad credits earned through
programs sponsored by the University are considered resident credit.

IV. At least three upper-division credits in the minor field in order to have a minor recorded on a University transcript.
Academic Division Structure

Division of Education ........................................................................................................ 66
Division of the Humanities ................................................................................................. 66
Division of Science and Mathematics ................................................................................ 67
Division of the Social Sciences .......................................................................................... 68
Interdisciplinary Programs ................................................................................................. 68
Academic Division Structure

Disciplines (i.e., departments or fields such as English, physics, or psychology) are grouped administratively into four divisions—Education, Humanities, Science and Mathematics, and Social Sciences—to help integrate the various areas of study into a liberal arts curriculum, provide a forum for faculty discussion of common programs and interests, and encourage the planning of interdisciplinary academic programs. In addition, there are interdisciplinary courses, internships, and majors that cross divisional lines; these are found under Interdisciplinary Studies and fall under the direct responsibility of the vice chancellor for academic affairs and dean.

Courses are listed alphabetically by discipline. Each discipline description includes, as appropriate, requirements for the major and/or the minor. Teacher education licensure requirements can be found in the Elementary Education and Secondary Education sections.

Division of Education

Education (page 267)
Elementary Education (page 112)
Secondary Education (page 210)
Sport Management (page 230)
Sport Studies and Athletics (page 312)

In education programs, students can study education and its role in society; complete a major and teaching licensure in elementary education with an optional preprimary or middle level endorsement; prepare to teach one or more liberal arts subjects at the secondary school level; and/or prepare for graduate study in education.

Intercollegiate athletics, lifetime physical activity and wellness classes, coaching endorsement, and courses required for a major in sport management are offered in the sport studies and athletics discipline.

Many students enrolled at Morris, no matter what their area of study, participate in intercollegiate athletic competition, which is directed by the sport studies and athletics faculty.

Division of Education programs are enhanced through faculty commitment to personalized instruction, use of current instructional technologies, student research, and opportunities for student and faculty participation in multicultural and international educational experiences.

Division of the Humanities

American Sign Language (page 250)
Art History (page 80)
Art, Studio (page 240)
Chinese (page 259)
Communication, Media, and Rhetoric (page 95)
Dance (page 264)
English (page 118)
French (page 129)

German Studies (page 143)
Humanities (page 283)
Italian (page 288)
Language (page 289)
Latin (page 289)
Medieval Studies (page 178)
Music (page 184)
Philosophy (page 193)
Spanish (page 226)
Theatre Arts (page 245)

The Division of the Humanities is composed of 11 disciplines offering a major, as well as supplementary courses in Chinese, Dance, Italian, Language (for non-native speakers of English), Latin, and the Humanities, e.g., the literature and thought of the non-English-speaking world in translation. The disciplines in the humanities are central to the meaning of a liberal education. In these programs, students investigate important questions about the nature of human beings and their cultures, and examine alternative views concerning the meaning and direction of life.

In addition to its curricular programs, the Division of the Humanities sponsors and directs a varied program of co-curricular activities, organizations, and events for the campus and surrounding communities, including:

- Student art exhibitions, an active student Art Club, and Art Gallery exhibits of works by professional artists;
- Scheduled poetry readings; the Prairie Gate Press; Prairie Gate Literary Festival; foreign and American films; the Writing Center to help students develop creative and expository writing skills; lectures on literary and language subjects; French, German, and Spanish student clubs with a variety of projects; opportunities for students to travel and study abroad;
- A varied program of musical events, including symphonic winds, orchestra, jazz ensemble, and choir concerts, as well as recitals by students and faculty; opportunities to work with well-known composers and artists in residence; tours;
- The Midwest Philosophy Colloquium that brings internationally distinguished philosophers to the Morris campus; a Philosophy Club run by students; easily reachable regional undergraduate conferences where students present their papers;
- A number of opportunities in communication, media, and rhetoric, including sponsorship of speakers and discussion groups, student attendance at conferences, and participation in the student organization Communication Club, as well as the Morris Intercollegiate Speech Team, which competes at several meets each year;
- Annual offering of faculty- and student-directed plays; opportunities to work with professional troupes in
residence; annual theatre tour to New York or London, when feasible.

The Division of the Humanities provides students with opportunities to participate in the varied curricular and co-curricular programs described above. Through participation in these programs either as employees or volunteers, scores of students each year discover for themselves the meaning and value of a liberal education.

Finally, the Division of the Humanities offers its students one of Morris’s most beautiful and useful facilities, the Humanities Fine Arts building—a building to which Progressive Architecture granted its First Design Award with the following citation:

“It gives architectural form to a powerful new direction in education—the school being integrated into the community. This project shows how the school can be a model for community development.”

Division of Science and Mathematics

Biology (page 85)
Chemistry (page 90)
Computer Science (page 99)
Data Science (page 106)
Environmental Science (page 124)
Geology (page 140)
Mathematics (page 174)
Physics (page 197)
Statistics (page 233)

Whether interested in biology, chemistry, computer science, data science, environmental science, geology, mathematics, physics, or statistics, students find that programs in Morris’s Division of Science and Mathematics offer excellent preparation for employment in a related field, graduate study, or teaching in junior or senior high school. Courses leading to Minnesota secondary education licensure are offered in chemistry, physics, life science, earth and space science, and mathematics. The sciences form an integral part of Morris’s preprofessional programs in the health, medical, and engineering fields and contribute to general education studies.

Students have many opportunities to work closely with their professors. Students have conducted research on human-computer interaction, program optimization, and evolutionary computation. They have helped develop a variety of methods for the analysis of statistical data, such as a loglinear model of educational data and the representation of three-dimensional copulas in terms of two-dimensional marginals. Students have also collaborated with faculty in developing mathematical models that are crucial in solving large-scale optimization problems and they have worked on solving open questions in theoretical mathematics and graph theory. Students researched the physics of highly excited atoms, studied emissions of astronomical masers, performed observational optical astronomy, and modeled the behavior of materials with computers. They have investigated the role of fire in prairies, invasive species in forests, macroinvertebrate communities in prairie pothole lakes, the influence of certain cell surface protein on anti-tumor immune response, regulation of cell cycles and bioluminescence, genetics of endangered species, microbial resistance to antibiotics, vertebrate embryogenesis, and effects of changing climate and atmosphere on forest trees. They have studied the geology of glacial deposits in Minnesota, analyzed the fossils and sediments of the Cretaceous Seaway in South Dakota, and contributed to faculty field research in the Rocky Mountains of Colorado and Idaho. They have conducted research on the breakdown of pesticides, the preparation of novel chemical compounds, and the development of new chemical reactions both at Morris and in universities and laboratories across the country. Students have published results of their research with faculty or have given presentations of their findings at conferences or seminars. Many students at some time serve as teaching assistants, earning a financial stipend while assisting professors in tasks such as helping with laboratory courses, tutoring beginning students, assisting with greenhouse maintenance, and operating the Morris telescope.

Over the past several years, awards of external funds from granting agencies such as the National Science Foundation and the Simons Foundation have enabled the Division of Science and Mathematics to support more faculty research and extensive research collaboration among its students and faculty.

In geology and biology, field trips are an integral part of the learning process. Students and faculty have traveled to the Florida Keys, to central and coastal Belize, to Sweden and Brazil, to the volcanoes of Hawaii, to the deserts of Arizona and New Mexico, to western Canada and Alaska, and throughout Minnesota and surrounding regions of the Upper Midwest, in seeking a better understanding of Earth’s natural environments, landforms, and processes. Students will find other ways to enhance their studies in the sciences. The Geology, Math, ACM Computer Science, Biology, ACS Chemistry, and Physics and Engineering Clubs provide an opportunity for students and faculty who share mutual interests to meet informally and participate in related activities. In addition, visiting scientists frequently come to campus to discuss current scientific problems and topics with Morris faculty and students.

The Division of Science and Mathematics hosts several visiting alumni events, in particular, the Latterell Memorial Visiting Alumni Program in the fall semesters and the Science and Math Visiting Alumni Program in the spring. Thanks to the generosity of donors and alumni, every student who graduates with a major in one of the Sciences or Mathematics programs has at least one opportunity,
within four years, to interact with a returning alum who graduated from the same program.

**Division of the Social Sciences**

- Anthropology (page 73)
- Economics (page 108)
- Gender, Women, and Sexuality Studies (page 134)
- Geography (page 277)
- History (page 148)
- Human Services (page 155)
- Management (page 168)
- Political Science (page 200)
- Psychology (page 205)
- Sociology (page 222)

The social sciences explore patterns of individual behavior, group norms, social institutions, and social outcomes, in diverse social and historical settings, using sophisticated empirical, archival, and theoretical approaches. UMN Morris’s Division of the Social Sciences includes the disciplines of Anthropology, Economics, History, Management, Political Science, Psychology, and Sociology. In addition to majors in each of those disciplines, the Division offers interdisciplinary majors in Gender, Women and Sexuality Studies and in Human Services. Social Science coursework is a fundamental part of several other interdisciplinary majors and minors on campus, including Native American and Indigenous Studies, Environmental Studies, African and Black American Studies, and Latin American Area Studies.

The Division of the Social Sciences has many resources to support individual and group learning experiences. These include a wide variety of service learning opportunities, internships (local, state, national, and international), and field studies programs. Many students also serve as research and teaching assistants.

A hallmark of the social sciences at Morris is undergraduate research. Students are encouraged to author or coauthor research papers and projects with Division faculty and to present findings at professional conferences and/or at the UMN Morris Undergraduate Research Symposium. In addition to the intrinsic rewards of this work, many students find that intensive research and mentoring experiences prepare them exceptionally well for fast-track employment opportunities or for graduate study in their chosen fields.

**Interdisciplinary Programs**

- African and Black American Studies (page 71)
- Environmental Studies (page 126)
- Gender, Women, and Sexuality Studies (page 134)
- Geography (page 277)
- Honors Program (page 153)
- Interdisciplinary Studies (page 284)
- Latin American Area Studies (page 163)
- Medieval Studies (page 178)
- Native American and Indigenous Studies (page 188)

Morris offers interdisciplinary majors and/or minors plus an Honors program—with educational objectives realized through the integration of courses from two or more disciplines. Interdisciplinary course offerings not associated with an interdisciplinary major or minor involve in-depth material of two or more traditional academic disciplines or divisions, and some include subject material of a very broad nature that cannot properly be regarded as a part of a traditional discipline or division.
Major and Minor Program Requirements and Course Descriptions

Morris Catalog Website
Programs and courses listed in this document are current as of February 2019. The most current version of all Morris course descriptions can be found online at www.catalogs.umn.edu/morris/index.html. The courses in this catalog are not offered every semester. Use Schedule Builder at schedulebuilder.umn.edu to determine when a course is offered, course prerequisites, hours, days, and room assignments.

Course Numbers and Designators
Course numbers reflect the level of difficulty of a course. Generally, courses numbered 1xxx are for undergraduates in their first year of study, courses numbered 2xxx are for undergraduates in their second year of study, courses numbered 3xxx are for undergraduates in their third year of study, and 4xxx are for undergraduates in their fourth year of study. Some courses require prerequisite coursework or advanced class status for entrance while others do not. Students should plan their programs carefully to complete courses in the proper sequence. Students who have not successfully completed the prerequisite course(s) may be administratively dropped from a course.

In connection with course numbers, disciplines and programs are identified by a two-, three-, or four-letter designator prefix (e.g., Ed for Education, Pol for Political Science, LAAS for Latin American Area Studies).

Symbols, Abbreviations, and Punctuation

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1201-1202-1203</td>
<td>A hyphen between course numbers indicates a sequence of courses that must be taken in the order listed.</td>
</tr>
<tr>
<td>1201, 1202, 1203</td>
<td>A comma between course numbers indicates a series of courses that may be entered any semester.</td>
</tr>
<tr>
<td>, Sci-L</td>
<td>In prerequisite and corequisite listings, a comma means “and.” Courses that meet specific general education requirements are designated as IC, WLA, FL, M/SR, ART/P, HIST, SS, HUM, FA, SCI, SCI-L, HDIV, ENVVT, IP, E/CIR. (See the Degree Completion section for more information about general education requirements.)</td>
</tr>
<tr>
<td>cr</td>
<td>Credits per semester.</td>
</tr>
<tr>
<td>prereq</td>
<td>Some courses require a “prerequisite” (prereq) such as successful completion of certain other courses or particular qualifications, such as class standing, in order for a student to register for the class. Students are allowed “conditional registration” for a course if the prereq is in progress. If the prereq is not satisfactorily completed, the student may be administratively withdrawn from the class. If no prerequisites are listed, there are none for the course. A prerequisite listed by number only (e.g., prereq 3105) is in the same discipline as the course being described. Students must be enrolled in the corequisite (coreq) course(s) at the same time. If no corequisites are listed, there are none for the course. A corequisite course listed by number only (e.g., coreq 3105) is in the same discipline as the course being described.</td>
</tr>
<tr>
<td>coreq</td>
<td></td>
</tr>
<tr>
<td>pr or coreq</td>
<td>Students must either successfully complete the prerequisite course, OR may enroll in the pre/corequisite course concurrently.</td>
</tr>
<tr>
<td>=</td>
<td>Credit will not be granted if credit has been received for the course listed after this symbol (e.g., =[Soc 3602]).</td>
</tr>
<tr>
<td>#</td>
<td>Approval of the instructor is required for registration.</td>
</tr>
<tr>
<td>%</td>
<td>Approval of the discipline offering the course is required for registration.</td>
</tr>
<tr>
<td>@</td>
<td>Approval at the college level (i.e., a form with appropriate signatures) is required for registration.</td>
</tr>
<tr>
<td>Same as</td>
<td>“Same as” courses meet three qualifications: 1) have content sufficient in two (or more) identified disciplines to count in each; 2) have identical course descriptions, published in each associated discipline; 3) are taught at the same time, in the same classroom, by the same instructor.</td>
</tr>
<tr>
<td>H and Honors</td>
<td>Courses with an H following the course number satisfy honors requirements. Also, “Honors:” at the beginning of a course title indicates an Honors course.</td>

Morris Campus
African and Black American Studies Minor
M Acad Dean's Admin
Academic Affairs

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 20

The African and black American studies minor allows students to explore the art, cultures, histories, and literatures of people of African descent here in the United States, where African American experiences and cultures are central to America's self-definition, and also in Africa and in other places of African diaspora. This minor will allow students of all racial and ethnic identities to concentrate on issues pertinent to Africa and the African diaspora, particularly those of black America, and to integrate their understanding of those issues into the broader context of American and world histories and cultures. The minor offers an interdisciplinary and interdivisional curriculum that enables students to explore a variety of intellectual approaches and to make methodological and thematic connections and comparisons among those several approaches.

Student Program Learning Outcomes:
Students will be able to:
- Identify and define black or African models of thought, being, experience, and cultural production in the United States, Africa, and/or the African Diaspora.
- Describe distinct consequences of racism and colonialism in the past and present, which have shaped the lives of people, regardless of racial, ethnic, and national background.
- Apply scholarly theories of black subjectivity to explain domestic U.S. or World affairs.
- Produce a substantial, research- and theory-driven, creative or scholarly work.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Courses for the minor may not be taken S-N unless offered S-N only. No grades below C- are allowed.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Minor Requirements
Students must take a minimum of 20 credits in at least two different disciplines. At least 12 of the 20 credits must be devoted to primarily African and/or black American content.

Courses with PRIMARILY African and/or Black American content
At least 3 credits must be at the 3xxx level or higher.
Take 12 or more credit(s) from the following:
- ENGL 2041 - Introduction to African American Literature [HDIV] (4.0 cr)
- ENGL 3331 - African American Literature [HDIV] (4.0 cr)
- ENGL 3332 - African American Women Writers [HDIV] (4.0 cr)
- ENGL 3522 - Harlem Renaissance [HDIV] (4.0 cr)
- FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4.0 cr)
- FREN 3603 - Francophone Studies: Witches, Wilderness, and Words in Francophone Folktales (4.0 cr)
- FREN 3605 - Francophone Studies: Maghrebian Cinema (4.0 cr)
- FREN 3606 - Francophone Studies: Sub-Saharan Francophone Cinema (4.0 cr)
- HIST 1112 - Introduction to African History to 1880 [HIST] (4.0 cr)
- HIST 1113 - Introduction to African History since 1880 [HIST] (4.0 cr)
- HIST 2312 - History of South Africa to 1976 [HIST] (4.0 cr)
- HIST 2313 - History of South Africa since 1910 [IP] (4.0 cr)
- HIST 3021 - Gender and Sexuality in African History [E/CR] (4.0 cr)
- HIST 3356 - Civil Rights Era, 1954-1974 [E/CR] (4.0 cr)
- MUS 1043 - American Jazz Styles [FA] (4.0 cr)
- MUS 3305 - West African Styles in African American Music [FA] (2.0 cr)
- SOC 3251 - African Americans [HDIV] (4.0 cr)
- SPAN 3685 - Seminar: Slavery and Abolition in Cuban Literature and Culture [IP] (4.0 cr)
- SPAN 3687 - Seminar: Afro-Hispanic Literature and Culture [HDIV] (4.0 cr)

Courses with PARTIAL African and/or Black American content
Take at most 8 credit(s) from the following:
- ARTH 3231 - History of Photography [FA] (4.0 cr)
- ED 2221 - Diversity and Identity in Literature and Film [HDIV] (4.0 cr)
- ENGL 3301 - U.S. Multicultural Literature [HDIV] (4.0 cr)
- ENGL 4017 - Research Seminar: Tricksters-Conjurers in American Indian and African American Literature [HDIV] (4.0 cr)
- FREN 3505 - Modern Studies: Immigration and Identity in Modern France (4.0 cr)
- HIST 1301 - Introduction to U.S. History [HIST] (4.0 cr)
- HIST 2352 - The U.S. 1960s [HIST] (4.0 cr)
- HIST 2608 - History of Cuba: From Colony to Revolutionary State [HIST] (4.0 cr)
- HIST 3304 - Race, Class, and Gender in American History [HDIV] (4.0 cr)
- HIST 3355 - United States in Transition, 1877-1920 [HIST] (4.0 cr)
- HIST 3358 - Civil War and Reconstruction [HIST] (4.0 cr)
- HIST 3614 - Race and Ethnicity in Latin America [HDIV] (4.0 cr)
- MUS 1049 - Introduction to American Popular Music [HUM] (4.0 cr)
- POL 2234 - Race, Class and Power: Social Movements in U.S. Politics [HDIV] (2.0 cr)
- POL 2235 - Race, Class and Power: Interest Groups in U.S. Politics [HDIV] (2.0 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)
- SOC 3124 - Sociology of Law (4.0 cr)
- SOC 3141 - Sociology of Deviance [E/CR] (4.0 cr)
Morris Campus

Anthropology B.A.
Division of Social Sciences - Adm
Division of Social Sciences

• Program Type: Baccalaureate
• Requirements for this program are current for Fall 2019
• Required credits to graduate with this degree: 120
• Required credits within the major: 37
• Degree: Bachelor of Arts

The anthropology curriculum provides a comparative understanding of the range of human cultures throughout the world in humanistic, scientific, and social scientific terms. Anthropology provides the skills and knowledge needed to navigate a diverse world and solve the complex problems that face today's communities.

Objectives:
Anthropology courses provide an understanding of human beings and human society with respect to both biology and culture. Students are exposed to a broad historical and comparative framework within which to view the variety of human cultures. Coursework deals with concepts, techniques, and substantive knowledge of the branches of the field: anthropology, cultural anthropology, archaeology, and applied anthropology.

Program Student Learning Outcomes:
1 - Increased Multicultural Competency
Awareness of one's own cultural filters, ability to think comparatively across sociocultural contexts, and to apply a culturally relative perspective regarding cultural diversity
2 - Applications of Anthropological Perspectives
Development of an anthropological sensibility that enables one to distill social meaning from everyday encounters with individuals, material objects, texts, and other social phenomena, with reference to both past and present human biological, ethnic, and cultural variation; ability to articulate anthropological insights into contemporary issues, and to apply them to the workplace and contemporary world
3 - Research Methods and Theories
Familiarity with anthropological literature and qualitative and quantitative data in at least one of the subdisciplines of anthropology; ability to develop an original research project, and to conduct ethnographic or archaeological field work using appropriate methods; effective communication of anthropological data and/or fieldwork
4 - Ethical Principles
Understanding of ethical principles relative to the conduct of anthropological research and processes, and the application of research findings
5 - Understanding Human Variation
Achievement of a holistic knowledge of the discipline as a whole, and ability to articulate in a knowledgeable way the central ideas from the subdisciplines of cultural anthropology, biological anthropology, and archaeology; understanding and appreciation of contemporary ethnic/cultural variation, bio-cultural systems, and modern biological diversity

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students develop a coherent program of study in consultation with their major advisor generally no later than the spring semester of their sophomore year.
Up to four credits of D+ or D may be used to meet the major requirements if offset by a sufficient number of higher grades to meet the minimum requirement of a cumulative GPA of 2.00 in all courses in the major. Courses may not be taken S-N unless offered S-N only, with the exception of up to 2 credits of Anth 4xxx which may be taken S-N and counted toward the major requirements.

The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

**Required Courses**
- ANTH 1103 - People of the Past: Introduction to Archaeology [SS] (4.0 cr)
- ANTH 1111 - Introductory Cultural Anthropology [SS] (4.0 cr)
- ANTH 1201 - Becoming Human: Introduction to Biological Anthropology [SCI-L] (5.0 cr)
- ANTH 2001 - How We Study People: Introduction to Methods in Cultural Anthropology [SS] (2.0 cr)
- ANTH 2002 - Learning from the Dead: Introduction to Methods in Archaeology and Biological Anthropology [SS] (2.0 cr)
- ANTH 4902 - Senior Seminar (2.0 cr)

**Required Anthropology Skills**
- ANTH 2151 - Professional Skills in Anthropology [SS] (2.0 cr)
- or ANTH 2152 - Applied Anthropology [SS] (2.0 cr)

**Required Anthropology Theory**
- ANTH 3001 - Theory in Cultural Anthropology (2.0 cr)
- or ANTH 3002 - Theory in Archaeology and Biological Anthropology (2.0 cr)

**Required Anthropology Research**
- ANTH 4411 - Research in Cultural Anthropology [E/CR] (4.0 cr)
- or ANTH 4412 - Research in Archaeology and Biological Anthropology (4.0 cr)

**Elective Courses**
An additional 16 credits in anthropology and sociology courses, 12 of which must be in courses 3xxx or above. No more than 4 credits can be from IS 3796. Up to 8 credits can be from classes outside of anthropology or sociology, with approval of the anthropology faculty, if they have substantial anthropological content, or are in related fields.

**Lower Division Elective Courses**
Take at most 4 credit(s) from the following:
- ANTH 1813 - Culture on TV: An Introduction to Anthropology [IC] (2.0 cr)
- ANTH 1865 - Vikings, Aliens, and Ancient Idols: Evaluating Evidence in Archaeology [IC] (2.0 cr)
- ANTH 1xxx
- ANTH 2121 - Topics in Cultural Anthropology [SS] (4.0 cr)
- ANTH 2202 - Men and Masculinities [SS] (4.0 cr)
- ANTH 2204 - Anthropology of Education: Learning and Schooling in Ethnographic Perspective [SS] (4.0 cr)
- ANTH 2206 - Sex, Marriage, and Family [HDIV] (4.0 cr)
- ANTH 2501 - Medical Anthropology-An Overview [SS] (2.0 cr)
- ANTH 2xxx
- SOC 1101 - Introductory Sociology [SS] (4.0 cr)
- SOC 1xxx
- SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
- SOC 2xxx

**Upper Division Elective Courses**
Take 12 or more credit(s) from the following:
- ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4.0 cr)
- ANTH 3251 - Health and Human Ecology [ENVT] (2.0 cr)
- ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4.0 cr)
- ANTH 3455 - North American Archaeology [SS] (4.0 cr)
- ANTH 3461 - Archaeology of Eurasia and Africa [SS] (4.0 cr)
- ANTH 3502 - Latinos in the Midwest [SS] (4.0 cr)
- ANTH 3603 - Latin American Archaeology [SS] (4.0 cr)
- ANTH 3604 - Gender and Sexuality in Latin America [IP] (4.0 cr)
- ANTH 3701 - Forensic Anthropology [SCI-L] (4.0 cr)
- ANTH 3704 - Anthropological Genetics [SCI] (4.0 cr)
- ANTH 3705 - The Archaeology of Death and Burial (4.0 cr)
- ANTH 3751 - Primatology [SCI] (2.0 cr)
- ANTH 3761 - Human Fossil Record [SCI] (2.0 cr)
- ANTH 3xxx
- ANTH 4501 - Archaeological Fieldschool [SS] (4.0 cr)
- ANTH 4xxx
- IS 3796 - Interdisciplinary Internship in the Helping Professions (1.0 - 16.0 cr)
- SOC 3103 - Research Methodology in Sociology (4.0 cr)
- SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4.0 cr)
• SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)
• SOC 3122 - Sociology of Childhoods [HDIV] (4.0 cr)
• SOC 3123 - Sociology of Aging [HDIV] (4.0 cr)
• SOC 3124 - Sociology of Law (4.0 cr)
• SOC 3125 - Terrorism, Law, and the State [SS] (4.0 cr)
• SOC 3131 - World Population [ENVT] (4.0 cr)
• SOC 3141 - Sociology of Deviance [E/CR] (4.0 cr)
• SOC 3251 - African Americans [HDIV] (4.0 cr)
• SOC 3252 - Women in Muslim Society [IP] (4.0 cr)
• SOC 3403 - Sociological Theory (4.0 cr)
• SOC 3xx
• SOC 4xx

• SOC 4xxx
Area of Concentration B.A.

Program Type: Baccalaureate
Requirements for this program are current for Fall 2019
Required credits to graduate with this degree: 120
Required credits within the major: 35 to 50
Degree: Bachelor of Arts

Requirements for the bachelor of arts (B.A.) degree from UMM consist of two parts: general education and the major. Students complete a major by fulfilling the requirements as specified in the UMM Catalog. Instead of a major, some students may choose to complete an area of concentration, which is an individualized, often interdisciplinary, group of courses that meets the requirement of study in depth of a specific field of knowledge.

Prototypes for areas of concentration already given provisional approval by the dean—including actuarial science, American Indian studies, American studies, animal behavior, art therapy, biochemistry with forensics science, biology with forensics science, biostatistics, chemistry with forensics science, criminal justice, digital media studies, environmental studies, international studies, journalism, peace studies, and sports management—can be found online at www.morris.umn.edu/academic/areas. Students must fill out appropriate forms and request approval.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students who wish to complete an area of concentration must have the program approved by appropriate faculty advisers, division chairpersons, and the vice chancellor for academic affairs and dean. Detailed procedures and forms are available from the Office of the Vice Chancellor for Academic Affairs and Dean.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of higher grades.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Designing a major
Samples of areas of concentration are available on the Advising Web site and the Academic Affairs Web site.
Morris Campus

Area of Concentration Minor
M Academic Success, Office of
Academic Affairs

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 20 to 30

Instead of a minor, some students may choose to complete an area of concentration, which is an individualized, often interdisciplinary, group of courses that meets the requirement of study in depth of a specific field of knowledge.

Students must fill out appropriate forms and request approval.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Students who wish to complete an area of concentration minor must have the program approved by appropriate faculty advisers, division chairpersons, and the vice chancellor for academic affairs and dean. Detailed procedures and forms are available from the Office of the Vice Chancellor for Academic Affairs and Dean.

A cumulative GPA of 2.0 in all courses included in the minor is required.
Morris Campus

Art History B.A.
Division of Humanities - Adm
Division of Humanities

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 43 to 47
- Degree: Bachelor of Arts

Art history involves the interdisciplinary study of the numerous ways in which the visual arts reflect, react to, and shape the world's cultures. Given art history's dynamic intersections with such fields as anthropology, history, philosophy, psychology, studio art, literature, and languages, it is not only a quintessential liberal arts major, but it allows many of our students to successfully double-major. By teaching visual literacy, the art history curriculum prepares all students to critically analyze works of art, architecture, and other forms of material culture, allowing them to become more knowledgeable interpreters of the visual world in which we live. In-depth research projects allow majors and minors to not only synthesize existing scholarship, but also to formulate and articulate their own ideas. Research, teaching, and administrative assistantships, in addition to museum or gallery internships, allow art history students to further engage with the field and gain invaluable practical experience.

Objectives, Recommendations, and Program Student Learning Outcomes

The purposes of the art history curriculum are:

1) To develop students’ understanding of a variety of historical traditions and methods of interpretation in the visual arts.
2) To develop and improve students’ ability to analyze and interpret works of art through oral and written means.
3) To help students discover the rich and complex relationship of art to other aspects of culture.
4) To encourage students to have direct contact with art by means of studio art courses, class field trips and assignments, gallery internships, and study abroad experiences.

The discipline also recommends four semesters of college-level courses in foreign language.

Through the various program objectives listed above, students will be introduced to, review, and have the opportunity to master at different levels the following UMM student learning outcomes:

- Knowledge of Human Cultures including core studies in the liberal arts, in-depth study of a particular field, and engagement with big questions.
- Relevant Intellectual and Practical Skills including critical thinking & problem-solving; creative thinking & artistic expression; visual literacy; and written, multi-media, and oral communication.
- An Understanding of the Roles of Individuals in Society including intercultural knowledge and competence, as well as aesthetic/artistic engagement.
- Capacity for Integrative Learning, including synthesis and advanced accomplishment across general and specialized studies and through co- and extra-curricular activities; application of knowledge, skills, and responsibilities to new settings and progressively more complex problems; and skills for sustained learning and personal development.

Program Delivery

This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements

All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements

Students are required to take 2 semester(s) of any second language.
No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

### Required Courses

**ARTH 1111** - Ancient to Medieval Art [FA] (4.0 cr)
**ARTH 1121** - Renaissance to Modern Art [FA] (4.0 cr)

Take exactly 1 course(s) from the following:
- **ARTH 1101** - Interpreting the Visual World: An Introduction to Art History [FA] (4.0 cr)
- **ARTH 1131** - Art Beyond the West: Legacies of Colonialism and Imperialism [FA] (4.0 cr)
- ArtH 1xxx

Take ArTH 4901 in the spring semester of the senior year.
**ARTH 4901** - Art History Capstone (2.0 cr)

**Studio Essentials or two courses in two different media or a combination of the two options.**

The Studio Essentials courses are preparation for advanced work in studio art. The two related parts must be taken concurrently and in sequence. Two 1xxx ARTS courses, in two different media OR the first term of Studio Essentials and one or two 1xxx ArtS course(s) may substitute for the basic studio sequence totaling 8 credits.

#### First Term of Studio Essentials

**ARTS 1101** - Studio Essentials: Observational Drawing [ART/P] (2.0 cr)
**ARTS 1103** - Studio Essentials: Materials and Design [ART/P] (2.0 cr)

#### Second Term of Studio Essentials

**ARTS 1102** - Studio Essentials: Experimental Drawing [ART/P] (2.0 cr)
**ARTS 1104** - Studio Essentials: Materials and Space [ART/P] (2.0 cr)

or 1xxx-level ARTS Courses (in 2 different media)

Take 2 or more course(s) totaling 8 or more credit(s) from the following:
- **ARTS 1001** - Visual Studies for Non-Majors: Drawing [ART/P] (2.0 - 4.0 cr)
- **ARTS 1002** - Visual Studies for Non-Majors: Digitally Assisted Design [ART/P] (2.0 - 4.0 cr)
- **ARTS 1003** - Visual Studies for Non-Majors: Painting [ART/P] (2.0 - 4.0 cr)
- **ARTS 1004** - Visual Studies for Non-Majors: Printmaking [ART/P] (2.0 - 4.0 cr)
- **ARTS 1005** - Visual Studies for Non-Majors: Photography [ART/P] (2.0 - 4.0 cr)
- **ARTS 1008** - Visual Studies for Non-Majors: Ceramics [ART/P] (2.0 - 4.0 cr)
- **ARTS 1014** - Visual Studies for Non-Majors: Sculpture [ART/P] (2.0 - 4.0 cr)

#### Elective Courses

Take 24 or more credits from the following, but no more than 12 credits from 2xxx-level courses

**2xxx-Level Electives**

Take at most 12 credit(s) from the following:
- **ARTH 2102** - Art and Archaeology of Ancient Greece [FA] (4.0 cr)
- **ARTH 2103** - Art and Archaeology of Ancient Rome [FA] (4.0 cr)
- **ARTH 2104** - Irish Art and Archaeology [FA] (4.0 cr)
- **ARTH 2105** - Latin American Art: Pre-Columbian to Modern Art [FA] (4.0 cr)
- **ARTH 2106** - Rome, Jerusalem, and Constantinople: The Art of Three Ancient Capitals [FA] (4.0 cr)
- **ARTH 2xxx**

**3xxx- and 4xxx-Level Electives**

Take 12 or more credit(s) from the following:
- **ARTH 3112** - Faith, Image, and Power: Art and the Byzantine Empire [FA] (4.0 cr)
- **ARTH 3113** - Early Islamic Art and Culture [FA] (4.0 cr)
- **ARTH 3132** - Castles and Cathedral [FA] (4.0 cr)
- **ARTH 3142** - Art of the Italian Renaissance, 1300-1520 [FA] (4.0 cr)
- **ARTH 3161** - After Leonardo: Mannerist and Venetian Renaissance Art [FA] (4.0 cr)
- **ARTH 3171** - Baroque Art [FA] (4.0 cr)
- **ARTH 3191** - American Art to 1900 [FA] (4.0 cr)
- **ARTH 3201** - Nineteenth-Century Art [FA] (4.0 cr)
- **ARTH 3211** - Modern Art from Impressionism to Surrealism [FA] (4.0 cr)
- **ARTH 3221** - Contemporary Art, 1950 to the Present [FA] (4.0 cr)
- **ARTH 3231** - History of Photography [FA] (4.0 cr)
- **ARTH 3272** - Athens, Art, and Theatre [FA] (4.0 cr)
- **ARTH 3273** - Ars Otii: The Art of Roman Leisure [FA] (4.0 cr)
- **ARTH 3274** - Modern Art in Germany [FA] (4.0 cr)
- **ARTH 3281** - Women and Art [FA] (4.0 cr)
- **ARTH 3291** - Facing the Past: Portraiture and Social History [FA] (4.0 cr)
- **ARTH 3xxx**
• ARTH 4xxx
Morris Campus

Art History Minor
Division of Humanities - Adm
Division of Humanities

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 24

Art history involves the interdisciplinary study of the numerous ways in which the visual arts reflect, react to, and shape the world's cultures. Given art history's dynamic intersections with such fields as anthropology, history, philosophy, psychology, studio art, literature, and languages, it is not only a quintessential liberal arts major, but it allows many of our students to successfully double-major. By teaching visual literacy, the art history curriculum prepares all students to critically analyze works of art, architecture, and other forms of material culture, allowing them to become more knowledgeable interpreters of the visual world in which we live. In-depth research projects allow majors and minors to not only synthesize existing scholarship, but also to formulate and articulate their own ideas. Research, teaching, and administrative assistantships, in addition to museum or gallery internships, allow art history students to further engage with the field and gain invaluable practical experience.

Objectives, Recommendations, and Program Student Learning Outcomes:

The purposes of the art history curriculum are:

1) To develop students' understanding of a variety of historical traditions and methods of interpretation in the visual arts.
2) To develop and improve students' ability to analyze and interpret works of art through oral and written means.
3) To help students discover the rich and complex relationship of art to other aspects of culture.
4) To encourage students to have direct contact with art by means of studio art courses, class field trips and assignments, gallery internships, and study abroad experiences.

The discipline also recommends four semesters of college-level courses in a foreign language.

Through the various program objectives listed above, students will be introduced to, review, and have the opportunity to master at different levels the following UMM student learning outcomes:

- Knowledge of human cultures including core studies in the liberal arts, in-depth study of a particular field, and engagement with big questions.
- Relevant intellectual and practical skills including critical thinking & problem-solving; creative thinking and artistic expression; visual literacy; and written, multi-media, and oral communication.
- An understanding of the roles of individuals in society including intercultural knowledge and competence, as well as aesthetic/artistic engagement.
- Capacity for integrative learning, including synthesis and advanced accomplishment across general and specialized studies and through co- and extra-curricular activities; application of knowledge, skills, and responsibilities to new settings and progressively more complex problems; and skills for sustained learning and personal development.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- ARTH 1111 - Ancient to Medieval Art [FA] (4.0 cr)
- ARTH 1121 - Renaissance to Modern Art [FA] (4.0 cr)
- Take exactly 1 course(s) from the following:
  - ARTH 1101 - Interpreting the Visual World: An Introduction to Art History [FA] (4.0 cr)
  - ARTH 1131 - Art Beyond the West: Legacies of Colonialism and Imperialism [FA] (4.0 cr)
Elective Courses
Take 12 or more credits from the following, but no more than 8 credits from 2xxx-level courses

2xxx-Level Electives
Take at most 8 credit(s) from the following:

• ARTH 2102 - Art and Archaeology of Ancient Greece [FA] (4.0 cr)
• ARTH 2103 - Art and Archaeology of Ancient Rome [FA] (4.0 cr)
• ARTH 2104 - Irish Art and Archaeology [FA] (4.0 cr)
• ARTH 2105 - Latin American Art: Pre-Columbian to Modern Art [FA] (4.0 cr)
• ARTH 2106 - Rome, Jerusalem, and Constantinople: The Art of Three Ancient Capitals [FA] (4.0 cr)

• ARTH 2xxx

3xxx- and 4xxx-Level Electives
Take 4 or more credit(s) from the following:

• ARTH 3112 - Faith, Image, and Power: Art and the Byzantine Empire [FA] (4.0 cr)
• ARTH 3113 - Early Islamic Art and Culture [FA] (4.0 cr)
• ARTH 3132 - Castles and Cathedrals [FA] (4.0 cr)
• ARTH 3142 - Art of the Italian Renaissance, 1300-1520 [FA] (4.0 cr)
• ARTH 3161 - After Leonardo: Mannerist and Venetian Renaissance Art [FA] (4.0 cr)
• ARTH 3171 - Baroque Art [FA] (4.0 cr)
• ARTH 3191 - American Art to 1900 [FA] (4.0 cr)
• ARTH 3201 - Nineteenth-Century Art [FA] (4.0 cr)
• ARTH 3211 - Modern Art from Impressionism to Surrealism [FA] (4.0 cr)
• ARTH 3221 - Contemporary Art, 1950 to the Present [FA] (4.0 cr)
• ARTH 3231 - History of Photography [FA] (4.0 cr)
• ARTH 3272 - Athens, Art, and Theatre [FA] (4.0 cr)
• ARTH 3273 - Ars Otii: The Art of Roman Leisure [FA] (4.0 cr)
• ARTH 3274 - Modern Art in Germany [FA] (4.0 cr)
• ARTH 3281 - Women and Art [FA] (4.0 cr)
• ARTH 3291 - Facing the Past: Portraiture and Social History [FA] (4.0 cr)
• ARTH 3xxx
• ARTH 4xxx

Biology B.A.
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 61 to 62
- Degree: Bachelor of Arts

The biology curriculum is designed to provide students with biological knowledge and to develop scientific skills as part of their liberal arts education. Included in those skills are the abilities to conduct and interpret scientific research and to successfully communicate scientific information both verbally and in writing. The faculty believe these objectives can best be attained through a balanced core curriculum in biology and a diverse array of elective coursework, both of which include active lab and field experiences. The biology major prepares students for graduate or professional programs and for careers such as secondary biology education, government service, or private sector employment. The biology discipline also offers a variety of 10XX courses that are designed specifically for students seeking to fulfill general education requirements in science.

Objectives
The biology discipline is designed to:
- Provide students a broad base of fundamental biological knowledge in evolution, genetics, cell and molecular biology, the diversity of life, and ecology.
- Provide students in our upper-level electives detailed knowledge in specific sub-disciplines including experience collecting and interpreting data in both the field and laboratory.
- Advance student skills in written and oral communication of biological information.
- Prepare and encourage students to conduct undergraduate research at UMM or at other institutions.
- Prepare students for postgraduate education in biological research and health-related programs, and/or a variety of careers in biology, including secondary education.
- Provide discipline specific courses for non-majors to serve UMMs general education requirements.

Learning Outcomes
The curriculum is designed to ensure that students in biology will:
- Have sufficiently broad training to apply biological knowledge in a wide range of professional and research settings.
- Recognize evolution as the unifying theme for all of biology and be able to view biological information and questions in an evolutionary context.
- Be able to apply knowledge of chemistry, statistics, and mathematics to biological systems.
- Understand the global nature of biological issues while cultivating a sense of place through study of regional species and ecological systems.
- Be able to seek answers to biological questions through developing and executing scientific inquiry in the field or laboratory setting and by querying biological literature.
- Be able to synthesize and clearly articulate scientific information via written and oral communication.
- Be aware of ethical considerations related to biological research and have the necessary training to conduct work in a safe and sustainable manner.

Teacher Preparation Requirements
Students seeking teaching licensure in life sciences 9-12 should refer to the Education, Secondary (GenEd) section of this catalog.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.
Program Requirements
Students are required to take 2 semester(s) of any second language.

Courses may not be taken S-N unless offered S-N only. Up to 5 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B in the major. A minimum GPA of 2.00 is required in the major in order to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Biology majors are advised to complete their chemistry and mathematics requirements as early as possible. All majors should have their programs approved by a biology advisor by the beginning of their junior year.

Required Courses
BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3.0 cr)
BIOL 2101 - Evolution of Biodiversity [SCI-L] (4.0 cr)
BIOL 2111 - Cell Biology [SCI-L] (4.0 cr)
BIOL 3121 - Molecular Biology [SCI-L] (4.0 cr)
BIOL 3131 - Ecology [SCI-L] (4.0 cr)
BIOL 3700 - Biological Communication I (1.0 cr)
BIOL 3701 - Biological Communication II (1.0 cr)
BIOL 4901 - Senior Seminar (1.0 cr)
CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
CHEM 2301 - Organic Chemistry I [SCI] (4.0 cr)
CHEM 2311 - Organic Chemistry Lab I (1.0 cr)
MATH 1021 - Survey of Calculus [M/SR] (4.0 cr)
  or MATH 1101 - Calculus I [M/SR] (5.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
  or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Elective Courses
Take 16 or more credit(s) from the following:

  Organismal Electives
  Take 4 or more credit(s) from the following:
  • BIOL 4111 - Microbiology (4.0 cr)
  • BIOL 4121 - Herpetology (4.0 cr)
  • BIOL 4131 - Vertebrate Natural History (4.0 cr)
  • BIOL 4151 - Entomology (4.0 cr)
  • BIOL 4172 - Plant Systematics (4.0 cr)
  • BIOL 4301 - Plant Biology (4.0 cr)
  • GEOL 3111 - Introduction to Paleontology [SCI-L] (4.0 cr)

  Non-Organismal Electives
  Take 0 or more credit(s) from the following:
  • BIOL 4003 - Neurobiology (4.0 cr)
  • BIOL 4103 - Cancer Biology (4.0 cr)
  • BIOL 4104 - Cell Signaling Mechanisms (4.0 cr)
  • BIOL 4105 - Stem Cell Biology (4.0 cr)
  • BIOL 4161 - Evolution (4.0 cr)
  • BIOL 4181 - Developmental Biology (4.0 cr)
  • BIOL 4182 - Ecological Developmental Biology (4.0 cr)
  • BIOL 4191 - Freshwater Biology (4.0 cr)
  • BIOL 4211 - Biochemistry (4.0 cr)
  • BIOL 4231 - Immunology (4.0 cr)
  • BIOL 4241 - Our Tiny Predators: Ecology, Infection, Disease (4.0 cr)
  • BIOL 4302 - Plant Physiology (4.0 cr)
  • BIOL 4312 - Genetics (4.0 cr)
  • BIOL 4321 - Animal Physiology (4.0 cr)
  • BIOL 4333 - Biogeochemistry and Global Change (4.0 cr)
  • BIOL 4335 - Ecology of Agriculture (4.0 cr)
  • BIOL 4351 - Conservation Biology (4.0 cr)
  • BIOL 4611 - Biochemistry Lab (1.0 cr)

  Other Electives
  Take 0 - 5 credit(s) from the following:
  • ANTH 3704 - Anthropological Genetics [SCI] (4.0 cr)
  • CHEM 4351 - Bioorganic Chemistry (2.0 cr)
• CHEM 4355 - Biochemistry of Carbohydrates and Glycoconjugates (4.0 cr)
• CHEM 4357 - Structural Methods of Chemical Biology (2.0 cr)
• PSY 3201 - Comparative Psychology [SCI-L] (4.0 cr)
• PSY 3211 - Biological Psychology [SCI-L] (5.0 cr)
• STAT 4601 - Biostatistics (4.0 cr)
Morris Campus

- Degree: Bachelor of Arts

Coursework in chemistry is increasingly interdisciplinary and spans analytical, inorganic, organic, and physical chemistry. Students may also pursue a degree in chemistry with a biochemistry subfield or design an interdisciplinary area of concentration encompassing chemistry and related fields. All majors must study beginning physics and calculus. Beginning chemistry courses satisfy the physical sciences component of the general education requirements.

The UMM chemistry program is approved to offer American Chemical Society (ACS) certified degrees. Students who wish to have their degree certified by the ACS may need to complete additional courses or work beyond the program requirements listed below. A complete description of how to complete the ACS requirements at UMM can be found on the discipline web page: http://www.morris.umn.edu/academic/chemistry/courses.html

Chemistry and biochemistry majors do hands-on work with chemical instrumentation and use computers in both software and hardware applications. The faculty prides itself on working closely with its students on undergraduate research projects, directed studies, and undergraduate teaching assistantships. In addition, chemistry/biochemistry majors are encouraged to complete summer research internships at university and industrial labs or at other research facilities, locally and nationally.

Degrees in chemistry/biochemistry, in addition to being an excellent preparation for industrial employment, government service, or secondary teaching, also prepare students for postgraduate work (> 60% of majors pursue postgraduate work).

Objectives--the chemistry discipline is designed to:

- Serve students from other disciplines requiring knowledge of chemistry;
- Advance student learning in contemporary chemistry/biochemistry at a level appropriate to undergraduates;
- Advance student competence in research in chemistry/biochemistry;
- Prepare students for postgraduate work in a variety of fields and/or for careers in industrial or clinical settings or for careers in secondary education.
- Prepare students for professional programs such as medicine, pharmacy, veterinary medicine, dentistry, and physician assistant.

Learning Outcomes -- The curriculum is designed to ensure that, within the context of chemistry and biochemistry, students are able to:

- Demonstrate an understanding of fundamental concepts of chemistry.
- Solve problems using critical thinking and analytical reasoning skills including the integration of knowledge from other disciplines.
- Identify the objective of an experiment, conduct experiments using appropriate techniques and equipment, interpret the results, discuss the data, and draw conclusions.
- Communicate concepts and results effectively (oral and written), including interpersonal communication.
- Locate and understand literature (especially primary literature) in chemistry and scientific publications.
- Recognize hazards, conduct experiments in a safe, ethical and sustainable manner, and manage chemicals, including chemical wastes.
- Work collaboratively as part of a team.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education
Program Requirements
Students are required to take 2 semester(s) of any second language.

Courses may not be taken S-N. Up to 2 courses with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced. Students should consult members of the chemistry faculty to plan programs of study appropriate to their interests and postgraduate goals.

General Physics (PHYS 1101, 1102) is required, but Principles of Physics (PHYS 1091, 1092) will be considered for substitution on a case-by-case basis via petition to the discipline.

Students may complete a major in chemistry through one of two tracks--the standard chemistry major or the chemistry major with a biochemistry subfield.

**Required Courses**
- CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
- CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
- CHEM 2301 - Organic Chemistry I [SCI] (4.0 cr)
- CHEM 2311 - Organic Chemistry Lab I (1.0 cr)
- CHEM 3101 - Analytical Chemistry [SCI-L] (4.0 cr)
- CHEM 3501 - Physical Chemistry: Thermodynamics [SCI] (4.0 cr)
- CHEM 3901 - Chemistry Seminar I (0.5 cr)
- CHEM 4901 - Chemistry Seminar II (0.5 cr)
- CHEM 2302 - Organic Chemistry II [SCI] (4.0 cr)
  - **or** CHEM 2304 - Organic Chemistry II with a Biological Emphasis [SCI] (4.0 cr)
- CHEM 2321 - Introduction to Research I (1.0 cr)
  - with CHEM 2322 - Introduction to Research II (1.0 cr)
- MATH 1101 - Calculus I [M/SR] (5.0 cr)
- MATH 1102 - Calculus II [M/SR] (5.0 cr)
- PHYS 1101 - General Physics I [SCI-L] (5.0 cr)
- PHYS 1102 - General Physics II [SCI-L] (5.0 cr)

**Program Sub-plans**
Students are required to complete one of the following sub-plans.

**Chemistry, Subfield Biochemistry**

**Biochemistry Required Courses**
- BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3.0 cr)
- BIOL 2111 - Cell Biology [SCI-L] (4.0 cr)
- BIOL 3121 - Molecular Biology [SCI-L] (4.0 cr)
- BIOL 4211 - Biochemistry (4.0 cr)
- BIOL 4611 - Biochemistry Lab (1.0 cr)

**Advanced Biochemistry Elective**
Take 4 or more credit(s) from the following:
- **CHEM 4351** - Bioorganic Chemistry (2.0 cr)
- **CHEM 4355** - Biochemistry of Carbohydrates and Glycoconjugates (4.0 cr)
- **CHEM 4357** - Structural Methods of Chemical Biology (2.0 cr)

**Biochemistry Electives**
For students planning to go to graduate school in biochemistry, it is recommended that they also take BIOL 4111 - Microbiology and BIOL 4312 - Genetics.

Take 1 or more course(s) from the following:
- **CHEM 3301** - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
- **CHEM 3406** - Polymer Properties and Characterization (2.0 cr)
- **CHEM 3407** - Polymer Synthesis (2.0 cr)
- **CHEM 3502** - Physical Chemistry: Quantum Mechanics [SCI] (4.0 cr)
- **CHEM 3801** - History of Chemistry [SCI] (2.0 cr)
- **CHEM 4111** - Instrumental Analysis (5.0 cr)
- **CHEM 4352** - Synthesis (4.0 cr)
- **CHEM 4551** - Theoretical Chemistry (4.0 cr)
• CHEM 4552 - Molecular Spectroscopy (3.0 cr)
• CHEM 4701 - Inorganic Chemistry (4.0 cr)
• CHEM 4751 - Advanced Inorganic Chemistry (2.0 cr)

Chemistry, Standard

**Standard Chemistry Required Courses**
CHEM 3502 - Physical Chemistry: Quantum Mechanics [SCI] (4.0 cr)
CHEM 3511 - Physical Chemistry Lab (1.0 cr)

**Standard Chemistry Elective Courses**
Take 6 or more credit(s) from the following:
• CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
• CHEM 3406 - Polymer Properties and Characterization (2.0 cr)
• CHEM 3407 - Polymer Synthesis (2.0 cr)
• CHEM 3801 - History of Chemistry [SCI] (2.0 cr)
• CHEM 4111 - Instrumental Analysis (5.0 cr)
• CHEM 4352 - Synthesis (4.0 cr)
• CHEM 4551 - Theoretical Chemistry (4.0 cr)
• CHEM 4552 - Molecular Spectroscopy (3.0 cr)
• CHEM 4701 - Inorganic Chemistry (4.0 cr)
• CHEM 4751 - Advanced Inorganic Chemistry (2.0 cr)
• BIOL 4211 - Biochemistry (4.0 cr)
• BIOL 4611 - Biochemistry Lab (1.0 cr)
**Morris Campus**

**Chemistry Minor**

*Division of Science & Mathematics - Adm*

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 25 to 28

The chemistry curriculum focuses on the structure of matter and the conditions required for material change. It prepares students for postgraduate work in a wide variety of fields, or for careers in industry or secondary teaching.

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Minor Requirements**

Courses may not be taken S-N except where noted. Up to 2 courses with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of coursework with a grade of A or B. The GPA in the minor courses must be at least 2.00.

**Required Courses**

- CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
- CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
- CHEM 2301 - Organic Chemistry I [SCI] (4.0 cr)
- CHEM 2311 - Organic Chemistry Lab I (1.0 cr)

**Elective Courses**

Three elective courses are required. Students must take either CHEM 3101 or 3501. Two additional courses are also required. If CHEM 3101 is not taken, one of the two courses must include lab or have an additional concurrent lab registration.

**If CHEM 3101 is taken:**

- CHEM 3101 - Analytical Chemistry [SCI-L] (4.0 cr)
  Take 6 or more credit(s) from the following:
  - BIOL 4211 - Biochemistry (4.0 cr)
  - CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
  - CHEM 3406 - Polymer Properties and Characterization (2.0 cr)
  - CHEM 3407 - Polymer Synthesis (2.0 cr)
  - CHEM 3501 - Physical Chemistry: Thermodynamics [SCI] (4.0 cr)
  - CHEM 3502 - Physical Chemistry: Quantum Mechanics [SCI] (4.0 cr)
  - CHEM 3801 - History of Chemistry [SCI] (2.0 cr)
  - CHEM 4111 - Instrumental Analysis (5.0 cr)
  - CHEM 4351 - Bioorganic Chemistry (2.0 cr)
  - CHEM 4352 - Synthesis (4.0 cr)
  - CHEM 4357 - Structural Methods of Chemical Biology (2.0 cr)
  - CHEM 4551 - Theoretical Chemistry (4.0 cr)
  - CHEM 4552 - Molecular Spectroscopy (3.0 cr)
  - CHEM 4701 - Inorganic Chemistry (4.0 cr)
  - CHEM 4751 - Advanced Inorganic Chemistry (2.0 cr)
  - GEOL 3601 - Introduction to Geochemistry [SCI] (4.0 cr)
  - CHEM 2302 - Organic Chemistry II [SCI] (4.0 cr)
  - CHEM 3501 - Physical Chemistry II with a Biological Emphasis [SCI] (4.0 cr)

**or If CHEM 3101 is not taken:**

- CHEM 3501 - Physical Chemistry: Thermodynamics [SCI] (4.0 cr)

Choose one course and lab combination from the following pairs:

- Take 2 or more course(s) from the following:
  - **Physical Chemistry**
    - CHEM 3502 - Physical Chemistry: Quantum Mechanics [SCI] (4.0 cr)
    - CHEM 3511 - Physical Chemistry Lab (1.0 cr)
  - **Inorganic Chemistry**
• CHEM 4701 - Inorganic Chemistry (4.0 cr)
  CHEM 4711 - Inorganic Chemistry Lab (1.0 cr)
• Biochemistry
  • BIOL 4211 - Biochemistry (4.0 cr)
  BIOL 4611 - Biochemistry Lab (1.0 cr)
• Polymer Chemistry
  • CHEM 3406 - Polymer Properties and Characterization (2.0 cr)
  CHEM 3411 - Polymer Chemistry Lab (1.0 cr)

Additional Elective
Take 1 or more course(s) from the following:
• BIOL 4211 - Biochemistry (4.0 cr)
• CHEM 2302 - Organic Chemistry II [SCI] (4.0 cr)
• CHEM 2304 - Organic Chemistry II with a Biological Emphasis [SCI] (4.0 cr)
• CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
• CHEM 3406 - Polymer Properties and Characterization (2.0 cr)
• CHEM 3407 - Polymer Synthesis (2.0 cr)
• CHEM 3502 - Physical Chemistry: Quantum Mechanics [SCI] (4.0 cr)
• CHEM 3801 - History of Chemistry [SCI] (2.0 cr)
• CHEM 4351 - Bioorganic Chemistry (2.0 cr)
• CHEM 4352 - Synthesis (4.0 cr)
• CHEM 4357 - Structural Methods of Chemical Biology (2.0 cr)
• CHEM 4551 - Theoretical Chemistry (4.0 cr)
• CHEM 4552 - Molecular Spectroscopy (3.0 cr)
• CHEM 4701 - Inorganic Chemistry (4.0 cr)
• CHEM 4751 - Advanced Inorganic Chemistry (2.0 cr)
• GEOL 3601 - Introduction to Geochemistry [SCI] (4.0 cr)
Morris Campus
Communication, Media, and Rhetoric B.A.
Division of Humanities - Adm

Program Type: Baccalaureate
Requirements for this program are current for Fall 2019
Required credits to graduate with this degree: 120
Required credits within the major: 40
Degree: Bachelor of Arts

This discipline is in the Division of the Humanities. The mission of the Communication, Media, and Rhetoric (CMR) discipline is to provide an introduction to the breadth of scholarship in communication history, communication theory, and communication contexts. UMM students in the CMR major study the multidimensional nature of various types of communication processes, the activities of message production, and the analysis and evaluation of personal, public, and mass communication. Students develop skills for lifelong learning and refine capabilities for active involvement in a participatory democracy.

Objectives—The curriculum is designed to ensure that:
1. Students develop a historical and theoretical understanding of the three areas of communication, electronic media, and rhetoric.
2. Students use a variety of assigned theoretical approaches and research methods appropriate to rhetoric, communication, and electronic mass media to describe and evaluate assigned or chosen discourse.
3. Students participate in a variety of oral communication phenomenon assignments using informative and persuasive speaking techniques effectively.

Program Student Learning Outcomes:
1. Students will be able to compare and evaluate various theoretical approaches, demonstrate an understanding of the historical dimensions of theory building, and describe and critically evaluate the complexity and richness of communication.
2. Students will be able to choose from a variety of methods to analyze, synthesize, and evaluate a specific act, communication artifact, or phenomena.
3. Students will be able to design and deliver effective messages orally.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
CMR 1062 - Introduction to Interpersonal and Group Communication [HUM] (4.0 cr)
CMR 1101 - Introduction to Theories of Communication, Media, and Rhetoric [HUM] (4.0 cr)
CMR 4152 - Advanced Public Speaking [HUM] (4.0 cr)
CMR 4900 - Communication, Media, and Rhetoric Seminar I (1.0 cr)
CMR 4901 - Communication, Media, and Rhetoric Seminar II (3.0 cr)
Communication Electives
Take 8 or more credit(s) from the following:
• CMR 2411 - Health Communication [HUM] (4.0 cr)
• CMR 2421 - Business and Professional Communication [E/CR] (4.0 cr)
• CMR 3401 - Communication Theory [SS] (4.0 cr)
• CMR 3411 - Intercultural Communication Theory and Research [HDIV] (4.0 cr)
• CMR 3421 - Organizational Communication Theory and Research [SS] (4.0 cr)
• CMR 3432 - Communication Research Methods [SS] (4.0 cr)
• CMR 3433 - Communication, Power, and Identity [HUM] (4.0 cr)
• CMR 3434 - Communication, Nature, and Belonging [HUM] (4.0 cr)

Media Electives
Take 8 or more credit(s) from the following:
• CMR 1388 - College Newspaper Experience (1.0 cr)
• CMR 1389 - College Radio Experience (1.0 cr)
• CMR 2102 - Communication and the Environment: Analysis and Criticism [HUM] (2.0 cr)
• CMR 2311 - Media History and Society [SS] (4.0 cr)
• CMR 2321 - Digital Media Production [HUM] (4.0 cr)
• CMR 2323 - Media Literacy and Democracy: Baltic Perspectives [IP] (4.0 cr)
• CMR 3301 - Media Theory, Criticism, and Problems [SS] (4.0 cr)
• CMR 3311 - Social Uses of the Media [E/CR] (4.0 cr)
• CMR 3312 - Media Literacy (4.0 cr)
• CMR 3342 - Visual Journalism [HUM] (4.0 cr)
• CMR 4341 - New Media Technologies [HUM] (2.0 cr)

Rhetoric Electives
Take 8 or more credit(s) from the following:
• CMR 2053 - Rhetoric of Supreme Court Opinions: Analysis and Creation [E/CR] (2.0 cr)
• CMR 3101 - Rhetorical History and Theories: Pre-Socratic to Modern Periods [IP] (4.0 cr)
• CMR 3123 - Rhetorical Criticism and Speeches that Changed the World [HUM] (4.0 cr)
• CMR 3124 - Rhetoric of Comic Art: Analysis and Creation [HUM] (4.0 cr)
• CMR 3125 - Rhetoric of Free Speech in American Schools: Case Law and Queries [SS] (4.0 cr)
• CMR 3202 - Rhetoric of Presidential Inaugurals [HUM] (4.0 cr)
• CMR 3251 - Rhetorical Criticism and Free Speech Discourse [E/CR] (4.0 cr)
• CMR 4122 - Rhetoric of Picture Books, Prose and Picture [HUM] (4.0 cr)
• CMR 4123 - Rhetoric of Advertising [HUM] (4.0 cr)
Morris Campus

Communication, Media, and Rhetoric Minor

Division of Humanities

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 22

This discipline is in the Division of the Humanities. The mission of the Communication, Media, and Rhetoric (CMR) discipline is to provide an introduction to the breadth of scholarship in communication history, communication theory, and communication contexts. UMM students in the CMR major study the multidimensional nature of various types of communication processes, the activities of message production, and the analysis and evaluation of personal, public, and mass communication. Students develop skills for lifelong learning and refine capabilities for active involvement in a participatory democracy.

Objectives—The curriculum is designed to ensure that:
1. Students develop a historical and theoretical understanding of the three areas of communication, electronic media, and rhetoric.
2. Students use a variety of assigned theoretical approaches and research methods appropriate to rhetoric, communication, and electronic mass media to describe and evaluate assigned or chosen discourse.
3. Students participate in a variety of oral communication phenomenon assignments using informative and persuasive speaking techniques effectively.

Program Student Learning Outcomes:
1. Students will be able to compare and evaluate various theoretical approaches, demonstrate an understanding of the historical dimensions of theory building, and describe and critically evaluate the complexity and richness of communication.
2. Students will be able to choose from a variety of methods to analyze, synthesize, and evaluate a specific act, communication artifact, or phenomena.
3. Students will be able to design and deliver effective messages orally.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- CMR 1042 - Public Speaking and Analysis [E/CR] (4.0 cr)
- CMR 1062 - Introduction to Interpersonal and Group Communication [HUM] (4.0 cr)
- CMR 1101 - Introduction to Theories of Communication, Media, and Rhetoric [HUM] (4.0 cr)

Elective Courses
At least one course needs to be 3xxx or above.
Take 10 or more credit(s) from the following:
- CMR 1386 - College Newspaper Experience (1.0 cr)
- CMR 1389 - College Radio Experience (1.0 cr)
- CMR 2053 - Rhetoric of Supreme Court Opinions: Analysis and Creation [E/CR] (2.0 cr)
- CMR 2102 - Communication and the Environment: Analysis and Criticism [HUM] (2.0 cr)
- CMR 2311 - Media History and Society [SS] (4.0 cr)
- CMR 2321 - Digital Media Production [HUM] (4.0 cr)
- CMR 2323 - Media Literacy and Democracy: Baltic Perspectives [IP] (4.0 cr)
- CMR 2411 - Health Communication [HUM] (4.0 cr)
- CMR 2421 - Business and Professional Communication [E/CR] (4.0 cr)
- CMR 3101 - Rhetorical History and Theories: Pre-Socratic to Modern Periods [IP] (4.0 cr)
- CMR 3123 - Rhetorical Criticism and Speeches that Changed the World [HUM] (4.0 cr)
- CMR 3124 - Rhetoric of Comic Art: Analysis and Creation [HUM] (4.0 cr)
- CMR 3125 - Rhetoric of Free Speech in American Schools: Case Law and Queries [SS] (4.0 cr)
- CMR 3202 - Rhetoric of Presidential Inaugurals [HUM] (4.0 cr)
- CMR 3251 - Rhetorical Criticism and Free Speech Discourse [E/CR] (4.0 cr)

Computer Science B.A.
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 54
- Degree: Bachelor of Arts

The computer science curriculum is designed to not only provide a solid background in fundamentals, but also to continuously respond to rapid changes in the field of computing by equipping our students with modern tools, approaches, and cutting-edge concepts and technologies. Coursework in computer science spans three core areas of computing, including theory, software development, and systems. Beginning computer science courses are open to non-majors and satisfy the mathematical and symbolic reasoning component of the general education requirements. All computer science majors must complete a senior seminar capstone experience, and the discipline prides itself on the high quality of students' papers and presentations in this course. The program also includes mathematics or statistics in the required coursework.

Computer science majors develop software, explore hardware systems, and apply theoretical concepts. Reflecting the collaborative nature of today's world, teamwork is heavily integrated into computer science coursework. Students are encouraged to use and supplement their formal education through research opportunities, internship experiences, programming and robotics competitions, and student and professional organizations. Many students take advantage of the opportunity to collaborate with computer science faculty on research projects, presenting the results at international, national, and regional conferences, as well as at UMM's Undergraduate Research Symposium.

Study in computer science is required for management and math majors at UMM, as well as for students pursuing a variety of pre-engineering programs. Many UMM computer science majors enter the job market upon graduation, primarily in the computing industry. Others pursue postgraduate work toward a masters or doctoral degree in computing, business, library science, or a variety of other fields.

The student learning objectives of the computer science program span the following five categories:

Students will be able to apply fundamental principles of computer science to solve problems in all core areas of computer science.

Students will demonstrate technological flexibility through the ability to employ new sets of tools effectively.

Students will be able to communicate technical ideas effectively both orally and in written form.

Students will demonstrate their ability to work in groups as part of an effective team.

Students will be able to identify and analyze ethical implications involving technology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Grades of D or D+ in CSCI 1201, 1301, 1302, 2101, Math 2202, and 3411 may not be used to meet the major requirements.

No more than one course with a grade of D or D+, offset by an equivalent number of credits of A or B grades, may be used to meet the requirements for a computer science major.
Non-elective courses may not be taken S-N unless offered S-N only. Up to 4 credits of CSci 4xxx taken S-N may be counted towards the major requirements.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Elective courses: computer science major electives are divided into three areas: systems courses (CSCI 44xx), theory courses (CSCI 45xx), and programming and languages courses (CSCI 46xx). The discipline offers an array of courses in each area. The courses listed are representative of the courses offered. New courses are continually developed and added to keep up with changes in the field.

**Required Courses**

- **CSCI 1201 - Introduction to Digital Media Computation [M/SR]** (4.0 cr)
  - or **CSCI 1301 - Problem Solving and Algorithm Development [M/SR]** (4.0 cr)
- **CSCI 1302 - Foundations of Computer Science [M/SR]** (4.0 cr)
  - or **MATH 2202 - Mathematical Perspectives [M/SR]** (4.0 cr)
- **MATH 3411 - Discrete and Combinatorial Mathematics** (4.0 cr)
- **CSCI 2101 - Data Structures [M/SR]** (5.0 cr)
- **CSCI 3402 - Computing Systems: Concepts** (3.0 cr)
- **CSCI 3403 - Computing Systems: Practicum** (2.0 cr)
- **CSCI 3501 - Algorithms and Computability** (5.0 cr)
- **CSCI 3601 - Software Design and Development** (5.0 cr)
- **CSCI 4901 - Senior Seminar** (2.0 cr)
- **IS 1091 - Ethical and Social Implications of Technology [E/CR]** (2.0 cr)

**Elective Courses**

Take 10 or more credit(s) including exactly 3 sub-requirements(s) from the following:

### Computing Systems Courses (44xx):

Take 2 - 4 credit(s) from the following:

- **CSCI 4403** - Systems: Data Mining (2.0 cr)
- **CSCI 4406** - Systems: Wireless Data Networks (2.0 cr)
- **CSCI 4409** - Systems: Programming for Parallel Architecture (2.0 cr)
- **CSCI 4412** - Systems: Distributed Systems (4.0 cr)
- **CSCI 4422** - Systems: Computer Networks (4.0 cr)
- **CSCI 4432** - Systems: Database Systems (4.0 cr)
- **CSCI 4442** - Systems: Robotics (4.0 cr)
- **CSCI 4446** - Systems: Advanced Operating Systems (4.0 cr)
- **CSCI 4457** - Systems: Ubiquitous Computing (4.0 cr)
- **CSCI 4458** - Systems: Bioinformatic Systems (4.0 cr)
- **CSCI 4459** - Systems: Virtualization and Operating System Administration, Configuration, and Implementation (4.0 cr)

### Theory Courses (45xx):

Take 2 - 4 credit(s) from the following:

- **CSCI 4506** - Theory: Fuzzy Logic and Fuzzy Sets (2.0 cr)
- **CSCI 4507** - Theory: Data Compression (2.0 cr)
- **CSCI 4508** - Theory: Algorithm Design (2.0 cr)
- **CSCI 4511** - Theory: Artificial Life (2.0 cr)
- **CSCI 4552** - Theory: Advanced Algorithms (4.0 cr)
- **CSCI 4553** - Theory: Evolutionary Computation and Artificial Intelligence (4.0 cr)
- **CSCI 4554** - Theory: Cryptography (4.0 cr)
- **CSCI 4555** - Theory: Neural Networks and Machine Learning (4.0 cr)
- **CSCI 4556** - Theory: Computer Graphics (4.0 cr)
- **CSCI 4557** - Theory: Quantum Computing (4.0 cr)

### Processes, Programming, and Languages Courses (46xx):

Take 2 - 4 credit(s) from the following:

- **CSCI 4604** - Processes, Programming, and Languages: Graphical User Interfaces (2.0 cr)
- **CSCI 4605** - Processes, Programming, and Languages: Refactoring (2.0 cr)
- **CSCI 4651** - Processes, Programming, and Languages: Programming Languages (4.0 cr)
- **CSCI 4652** - Processes, Programming, and Languages: Compilers (4.0 cr)
- **CSCI 4653** - Processes, Programming, and Languages: Software Engineering (4.0 cr)
- **CSCI 4654** - Processes, Programming, and Languages: Modern Functional Programming (4.0 cr)
- **CSCI 4655** - Processes, Programming, and Languages: Software Design and Development II (4.0 cr)
- **CSCI 4656** - Processes, Programming, and Languages: Human-Computer Interaction and Interface Design (4.0 cr)
- **CSCI 4657** - Processes, Programming, and Languages: Programming Languages for Client-Server Systems (4.0 cr)
- **CSCI 4658** - Processes, Programming, and Languages: Usability, Design, and Mobile Technologies (4.0 cr)
- **CSCI 4659** - Processes, Programming, and Languages: Measuring and Managing Software Quality (4.0 cr)
Math and Statistics Electives
MATH 1101 and above, excluding MATH 2211, or STAT 2xxx and above, excluding STAT 3701.
Take 12 or more credit(s) from the following:
• CSCI 2701 - Introduction to Data Science [M/SR] (4.0 cr)
• MATH 1101 - Calculus I [M/SR] (5.0 cr)
• MATH 1102 - Calculus II [M/SR] (5.0 cr)
• MATH 2101 - Calculus III [M/SR] (4.0 cr)
• MATH 2202 - Mathematical Perspectives [M/SR] (4.0 cr)
• MATH 2401 - Differential Equations [M/SR] (4.0 cr)
• MATH 2501 - Probability and Stochastic Processes [M/SR] (4.0 cr)
• MATH 3111 - Linear Algebra (4.0 cr)
• MATH 3xxx
• MATH 4xxx
• STAT 2xxx
• STAT 3501 - Survey Sampling [M/SR] (4.0 cr)
• STAT 3601 - Data Analysis [M/SR] (4.0 cr)
• STAT 3611 - Multivariate Statistical Analysis [M/SR] (4.0 cr)
• STAT 3901 - Statistical Communication (2.0 cr)
• STAT 4xxx
Morris Campus
Computer Science Minor
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 26

Objectives--The computer science curriculum is designed to provide students with a strong foundation in the diverse and rapidly changing field of computing. The science of computing is emphasized with a focus on fundamental principles and the formal underpinnings of the field. Students are encouraged to use and supplement their formal education through a variety of research opportunities, participation in discipline colloquia and student/professional organizations, and pursuit of internship experiences or international studies opportunities.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
No more than two courses with a grade of D or D+, offset by an equivalent number of credits of A or B grades, may be used to meet the requirements for a computer science minor. Non-elective courses taken S-N may not be counted towards the minor. A minimum GPA of 2.00 is required in the minor in order to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
CSCI 1201 - Introduction to Digital Media Computation [M/SR] (4.0 cr)
or CSCI 1301 - Problem Solving and Algorithm Development [M/SR] (4.0 cr)
CSCI 1302 - Foundations of Computer Science [M/SR] (4.0 cr)
or MATH 2202 - Mathematical Perspectives [M/SR] (4.0 cr)
MATH 3411 - Discrete and Combinatorial Mathematics (4.0 cr)
CSCI 2101 - Data Structures [M/SR] (5.0 cr)

Required Elective Courses
Take 5 or more credit(s) from the following:
- CSCI 3402 - Computing Systems: Concepts (3.0 cr)
- CSCI 3403 - Computing Systems: Practicum (2.0 cr)
- CSCI 3501 - Algorithms and Computability (5.0 cr)
- CSCI 3601 - Software Design and Development (5.0 cr)

Take 4 or more credit(s) from the following:
- CSCI 3402 - Computing Systems: Concepts (3.0 cr)
- CSCI 3403 - Computing Systems: Practicum (2.0 cr)
- CSCI 3501 - Algorithms and Computability (5.0 cr)
- CSCI 3601 - Software Design and Development (5.0 cr)
- CSci 4xxx

Minor Elective Courses
Take 4 or more credit(s) from the following:
- CSCI 2701 - Introduction to Data Science [M/SR] (4.0 cr)
- MATH 1021 - Survey of Calculus [M/SR] (4.0 cr)
- MATH 1101 - Calculus I [M/SR] (5.0 cr)
- MATH 1102 - Calculus II [M/SR] (5.0 cr)
- MATH 2101 - Calculus III [M/SR] (4.0 cr)
- MATH 2202 - Mathematical Perspectives [M/SR] (4.0 cr)
- MATH 2401 - Differential Equations [M/SR] (4.0 cr)
- MATH 2501 - Probability and Stochastic Processes [M/SR] (4.0 cr)

Creative Writing Minor for non-English majors

Division of Humanities

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 20

Objectives:
The Creative Writing program combines the study of literature and the practice of writing with the goal of providing students with a strong basis for continuing the development of their creative skills.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements.

Courses may not be taken S-N unless offered S-N only. A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
We strongly recommend that students take Engl 1404 in the classroom and not online.

ENGL 1404 - Topics in Writing: Introduction to Creative Writing [ART/P] (4.0 cr)
ENGL 1509 - Literary Studies [HUM] (4.0 cr)

Writing Courses
At least one of these courses must be a 3000-level course.
Take 2 or more course(s) from the following:
- ENGL 1403 - Sports Literature and Writing [ART/P] (4.0 cr)
- ENGL 2106 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4.0 cr)
- ENGL 3012 - Advanced Fiction Writing [ART/P] (4.0 cr)
- ENGL 3015 - Writing Poetry for the 21st Century [ART/P] (4.0 cr)
- ENGL 3032 - Creative Nonfiction Writing [ART/P] (4.0 cr)
- FREN 3410 - Medieval and Early Modern Studies: Troubadours and Old Occitan: Creative Writing in the Middle Ages [HUM] (4.0 cr)

Literature Course
Take 1 or more course(s) from the following:
- ENGL 1205 - Survey of British Literature to the 18th Century [HUM] (4.0 cr)
- ENGL 1206 - Survey of British Literature from the 18th Century Forward [HUM] (4.0 cr)
- ENGL 1211 - Survey of American Literature to the Civil War [HUM] (4.0 cr)
- ENGL 1212 - Survey of American Literature from the Civil War Forward [HUM] (4.0 cr)
- ENGL 2014 - Introduction to Popular Literature: Science Fiction [HUM] (4.0 cr)
- ENGL 2031 - Gender in Literature and Culture [HDIV] (4.0 cr)
- ENGL 2033 - The Bible and Literature [HUM] (4.0 cr)
- ENGL 2041 - Introduction to African American Literature [HDIV] (4.0 cr)
- ENGL 2059 - Introduction to Shakespeare [HUM] (4.0 cr)
- ENGL 2061 - Introduction to Popular Literature: Detection and Espionage in Fiction and Film [HUM] (4.0 cr)
- ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HDIV] (4.0 cr)

Literature Course - 3000-level
Students who have completed the prerequisites may use one of the following courses to meet the literature course requirement.
Take 0 or more course(s) from the following:
- ENGL 3153 - Gothic Literature (4.0 cr)
- ENGL 3154 - 19th-Century British Fiction (4.0 cr)
- ENGL 3155 - 20th-Century British Fiction (4.0 cr)
- ENGL 3156 - Modern Irish Literature (4.0 cr)
- ENGL 3157 - English Renaissance Drama (4.0 cr)
- ENGL 3159 - Shakespeare: Studies in the Bard (4.0 cr)
• ENGL 3161 - Medieval Literature (4.0 cr)
• ENGL 3165 - Seventeenth-Century Revolutions (4.0 cr)
• ENGL 3166 - Postcolonial Literature (4.0 cr)
• ENGL 3168 - Victorian Literature and Culture (4.0 cr)
• ENGL 3171 - The Literature of Creative Nonfiction (4.0 cr)
• ENGL 3173 - Contemporary British Literature (4.0 cr)
• ENGL 3174 - Contemporary Indian and Caribbean Literature [IP] (4.0 cr)
• ENGL 3261 - Modern British and American Poetry (4.0 cr)
• ENGL 3262 - 20th-Century American Poetry: From Modern to Contemporary (4.0 cr)
• ENGL 3301 - U.S. Multicultural Literature [HDIV] (4.0 cr)
• ENGL 3311 - American Indian Literature [HDIV] (4.0 cr)
• ENGL 3331 - African American Literature [HDIV] (4.0 cr)
• ENGL 3332 - African American Women Writers [HDIV] (4.0 cr)
• ENGL 3444 - Holocaust Literature and Film [IP] (4.0 cr)
• ENGL 3522 - Harlem Renaissance [HDIV] (4.0 cr)

Public Reading Participation

Substantive participation in public reading of creative work.
Data Science Minor

Program Type: Undergraduate free-standing minor
Requirements for this program are current for Fall 2019
Required credits in this minor: 26 to 32
N/A

Data science is one of the fastest growing segments in the modern economy. It is inherently multidisciplinary and offers high job satisfaction. The Division of Science and Math is dedicated to "quality undergraduate instruction in the natural and mathematical sciences so that its graduates are well prepared to seek employment at the B.A. level, to enter graduate or professional school, or to teach at the secondary school level."

UMM is also dedicated to "preparing its students to be global citizens who value and pursue intellectual growth, civic engagement, intercultural competence, and environmental stewardship." Being an informed global citizen and making informed decisions about public policy (civic engagement) and environmental issues (stewardship) is enhanced by the ability to understand, interpret, and analyze data--all skills developed by the minor. Jobs not directly data-related are increasingly data-driven and the more data-savvy a student, the more prepared they will be to pursue their aspirations.

Although the majority of courses in the minor are Stats and CSci, data science has its own techniques, concerns, and professional communities. A data science minor will aid students interested in pursuing a career in data science or one that entails working with data scientists. A strong industry drive for practitioners to develop 'non-technical coursework' strongly aligns with the values of a liberal arts education and provides students the opportunity to leverage non-technical interests and coursework to increase their attractiveness to potential employers and graduate programs.

Objectives:
- Familiarize students with the techniques and foundational material necessary for students to pursue future studies or careers in data science.
- Ensure that students understand the ethical implications inherent in the data science field.
- Develop the knowledge, skills, and experiences necessary to properly deal with data (data acumen).
- Ensure that students can properly communicate data science ideas and results to both broad and specialized audiences.

Learning Outcomes:
- Students will gain the ability to apply knowledge of data science to other disciplines
- Students will develop their data acumen.
- Students will be able to demonstrate an understanding of the ethical implications inherent in the data science discipline.
- Students will be able to communicate data science ideas and results to both broad and specialized audiences effectively using presentation skills and visualizations.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Statistical Literacy
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Computational Literacy
CSCI 1201 - Introduction to Digital Media Computation [M/SR] (4.0 cr)
or CSCI 1251 - Computational Data Management and Manipulation [M/SR] (4.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of February 21, 2019
or CSCI 1301 - Problem Solving and Algorithm Development [M/SR] (4.0 cr)

Ethics
IS 1091 - Ethical and Social Implications of Technology [E/CR] (2.0 cr)

Core
Introduction to Data Science
CSCI 2701 - Introduction to Data Science [M/SR] (4.0 cr)
or STAT 2701 - Introduction to Data Science [M/SR] (4.0 cr)

Intermediate Data Science
CSCI 3701 - Intermediate Data Science (4.0 cr)
or STAT 3701 - Intermediate Data Science (4.0 cr)

Electives
At least one course from the list below or discipline approved course.
Take 1 or more course(s) from the following:
• STAT 3501 - Survey Sampling [M/SR] (4.0 cr)
• STAT 4601 - Biostatistics (4.0 cr)
• STAT 4631 - Design and Analysis of Experiments (4.0 cr)
• STAT 4651 - Applied Nonparametric Statistics (4.0 cr)
• STAT 4671 - Statistical Computing (4.0 cr)
• STAT 4681 - Introduction to Time Series Analysis (4.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.

Computer Science
Data Structure, Algorithms and Complexity
CSCI 2101 - Data Structures [M/SR] (5.0 cr)
CSCI 3501 - Algorithms and Computability (5.0 cr)

Statistics
Multivariate Statistics
STAT 3611 - Multivariate Statistical Analysis [M/SR] (4.0 cr)
**Morris Campus**

**Economics B.A.**

**Division of Social Sciences - Adm**

**Division of Social Sciences**

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 47
- Degree: Bachelor of Arts

The economics major is a rigorous, broad introduction to the theories and empirical tools of the field, which addresses the economic environment as a social science. Economists are interested in applications, but in the context that a central task is to explain economic relationships, institutions, and events with some generality. The background economics provides is of use to those contemplating careers in business, government, or teaching, as well as providing specific preparation for those interested in future graduate work in the field.

**Program Student Learning Outcomes:**

**Objectives**The economics curriculum is designed to ensure that students will be able to:

1. Explain and illustrate how the methods of social science are applied by economists to problems of human interaction.
2. Describe and analyze the structure of markets and other key economic institutions.
3. Understand-explain the functioning of the United States and world economies.
4. Apply both economic theory and the quantitative tools of economics to specific problems or questions.
5. Find economic data and to read applied economic research.

**Program Delivery**

This program is available:
- via classroom (the majority of instruction is face-to-face)

**Admission Requirements**

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](http://www.umn.edu/admissions).

**General Requirements**

All students are required to complete general University and college requirements. For more information, see the [general education requirements](http://www.umn.edu/registrar/courses/)

**Program Requirements**

Students are required to take 2 semester(s) of any second language.

Grades of D or D+ in ECON 1111-1112, MATH 1101, and STAT 1601 or 2601 may not be used to meet the major requirements.

Up to 4 credits of other economics coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B.

Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses, Element 1 and Element 2**

***Element 1: Required Preparatory Courses***

Students should complete the following during their first two years:

- ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
- ECON 1112 - Principles of Macroeconomics [SS] (4.0 cr)
- MATH 1101 - Calculus I [M/SR] (5.0 cr)
- STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
  or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

***Element 2: Required Core Courses***
Students should complete the following before their senior year:

- ECON 3201 - Microeconomic Theory (4.0 cr)
- ECON 3202 - Macroeconomic Theory (4.0 cr)
- ECON 3501 - Introduction to Econometrics [M/SR] (4.0 cr)

**Element 3: Elective Courses**

No more than 4 credits from each of the following can be applied to the major:

- ECON x993 - Directed Study

ECON 4501/4502 - Senior/Advanced Research Seminar in Economics and Management

Take 14 or more credit(s) from the following:

- ECON 3005 - Experimental and Behavioral Economics I (2.0 cr)
- ECON 3006 - Experimental and Behavioral Economics II (2.0 cr)
- ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2.0 cr)
- ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2.0 cr)
- ECON 3009 - Political Economy (4.0 cr)
- ECON 3014 - Game Theory: The Theory of Strategic Behavior I (2.0 cr)
- ECON 3015 - Game Theory: The Theory of Strategic Behavior II (2.0 cr)
- ECON 3113 - Money, Banking, and Financial Markets (4.0 cr)
- ECON 3121 - Public Economics I (2.0 cr)
- ECON 3122 - Public Economics II (2.0 cr)
- ECON 3131 - Comparative Economic Systems I [IP] (2.0 cr)
- ECON 3132 - Comparative Economic Systems II (2.0 cr)
- ECON 3134 - Cooperative Business Model (2.0 cr)
- ECON 3136 - Economics of the Green Power Transition: New Business Models and Regulatory Strategies [ENVT] (2.0 cr)
- ECON 3141 - Economic Growth and Development I [IP] (2.0 cr)
- ECON 3142 - Economic Growth and Development II [IP] (2.0 cr)
- ECON 3172 - Strategic Firm Interaction and Market Structures (4.0 cr)
- ECON 3173 - Health Care Economics (4.0 cr)
- ECON 3211 - History of Economic Thought I [HIST] (2.0 cr)
- ECON 3212 - History of Economic Thought II [HIST] (2.0 cr)
- ECON 3993 - Directed Study (1.0 - 5.0 cr)
- ECON 3xxx

**Element 4: Economics Capstone Block**

Take 4 or more credit(s) from the following:

- ECON 4101 - Labor Economics I [HDIV] (2.0 cr)
- ECON 4102 - Labor Economics II (2.0 cr)
- ECON 4111 - Mathematical Economics I (2.0 cr)
- ECON 4112 - Mathematical Economics II (2.0 cr)
- ECON 4121 - International Trade Theory (2.0 cr)
- ECON 4131 - International Finance (2.0 cr)
- ECON 4141 - Empirics of Economic Growth (2.0 cr)
- ECON 4201 - Foundations of Microeconomic Theory (4.0 cr)
- ECON 4501 - Senior Research Seminar in Economics and Management (2.0 cr)
- ECON 4502 - Advanced Research Seminar in Economics and Management (2.0 cr)
- ECON 4993 - Directed Study (1.0 - 5.0 cr)

Morris Campus

Elementary Education B.A.
Division of Education

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 51
- Degree: Bachelor of Arts

A separate admissions process must be completed and admission granted before students enroll in this program.

The elementary education major leads to Minnesota licensure as a teacher of grades K-6. Students obtaining a K-6 license may also pursue an optional endorsement in one of the following five areas: 1) preprimary, 2) middle level communication arts and literature, 3) middle level mathematics, 4) middle level science, and 5) middle level social studies.

Program Student Learning Outcomes (PSLOs)- Coursework in elementary education is designed to meet standards of effective practice required for licensure and provide prospective teachers with opportunities to do the following:

- Understand central concepts, tools of inquiry, and structures of disciplines taught in the elementary school;
- Understand child and adolescent development theory, individual and group motivation and diversity among learners;
- Create instructional opportunities adapted to learners from diverse cultural backgrounds, and with exceptionalities;
- Use instructional strategies and technologies that reflect personal knowledge of effective verbal, nonverbal, and media communication techniques;
- Encourage development of critical thinking, problem solving, and performance skills;
- Understand and use formative and summative methods of student assessment;
- Plan and manage instruction;
- Engage in reflection and self-assessment; and
- Collaborate with parents/guardians, families, school colleagues, and the community in an ethical manner.

Students pursuing Minnesota teaching licensure at the elementary K-6 level and optional endorsement areas must have successfully completed licensure requirements in the elementary teacher education program and passed state and federally mandated examinations for new teachers. A minimum GPA of 2.50 overall with 2.75 minimum GPA in elementary education major and licensure area(s). The GPA includes all course work. All courses that fulfill requirements for teaching licensure in elementary education (discipline, professional education, or other courses) must be completed with a grade of C- or better. Required courses must be taken A-F, unless they are offered S-N only.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
Students must complete 60 credits before admission to the program.

A GPA above 2.0 is preferred for the following:
- 2.75 already admitted to the degree-granting college
- 2.75 transferring from another University of Minnesota college
- 2.75 transferring from outside the University

For admission to the major's two-year course sequence which begins each fall, students must follow the application procedure. Information sessions are held periodically to provide an overview of admissions and program requirements.

Students transferring from other schools must be admitted to UMM before admission to the elementary education program can be offered. Transfer students should seek academic planning advice from the education faculty in advance of application to the program.

Requirements:
1. Completion of required basic skills exams.
2. Minimum GPA of 2.50 overall with 2.75 minimum GPA in ElEd major and licensure area(s). No grade below C- will be accepted in these courses.
3. Approximately 60 credits completed by the end of the sophomore year.
4. Approval of the faculty based on an interview, recommendations, assessment of prior experience (especially with children and other cultures), and progress toward degree.

5. Admission to UMM.

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

Required prerequisites

**Courses Required for Program Admission**

**ED 2111** - Tutor-Aide Practicum (1.0 cr)
**ED 2121** - Introduction to Education [SS] (4.0 cr)
**ED 2131** - Foundations of Reading (2.0 cr)
**ED 2601** - Development, Learning, and Teaching [SS] (2.0 cr)
  *or PSY 2411* - Lifespan Developmental Psychology [SS] (4.0 cr)
  *or PSY 3401* - Child Development (4.0 cr)
  *or PSY 3504* - Educational Psychology (4.0 cr)

**General Requirements**

All students are required to complete general University and college requirements. For more information, see the general education requirements.

**Program Requirements**

All courses required for a major in elementary education must be completed with a grade of C- or better. Required courses must be taken A-F, unless they are offered S-N only. A minimum GPA of 2.75 is required in the major to graduate. The GPA includes all course work. Grades of "F" are included in GPA calculation until they are replaced.

Successful completion of course assignments, elementary education course grades of C- or better, satisfactory completion of field experiences, and minimum GPA of 2.50 overall with 2.75 minimum GPA in the elementary education major and licensure area(s) are required at the end of each semester for continued eligibility in the program.

Students seeking an additional major or minor should see requirements for the area of interest.

**Major Requirements - Program Year One**

**ELED 3101** - Teaching and Learning Strategies (3.0 cr)
**ELED 3102** - Reading Methods: Literacy and Language Instruction in the Elementary School (4.0 cr)
**ELED 3103** - Mathematics in the Elementary School (4.0 cr)
**ELED 3111** - Practicum I: Field Experience in the Elementary Classroom (2.0 cr)
**ELED 3204** - Advanced Childhood and Adolescent Development (2.0 cr)

**Practicum II: Field Experience**

**ELED 3211** - Practicum II: Field Experience in a Preprimary Setting (1.0 cr)
  *or ELED 3212* - Practicum II: Field Experience in a Middle Level Setting (1.0 cr)
  *or ELED 3213* - Practicum II: Field Experience in a K-6 Setting (1.0 cr)

**Major Requirements - Program Year Two**

**ED 4121** - Strategies for Inclusive Schooling (2.0 cr)
**ED 4901** - The Teacher and Professional Development (1.0 cr)
**ELED 4102** - Social Studies in the Elementary School (2.0 cr)
**ELED 4103** - Science in the Elementary School (2.0 cr)
**ELED 4104** - Language Arts and Literature in the Elementary School (3.0 cr)
**ELED 4107** - Health and Physical Education in the Elementary School (1.0 cr)
**ELED 4111** - Practicum III: Beginning Student Teaching (2.0 cr)
**ELED 4112** - Practicum IV: Cross-Cultural Experience in the Elementary School (1.0 cr)

**Student Teaching Requirements**

1. Passing scores on required basic skills examinations or faculty approved remediation plan.
2. Approval of elementary education faculty.
3. Minimum GPA of 2.50 overall with 2.75 minimum GPA in ElEd major and licensure area(s).

**Directed Student Teaching**

**ELED 4201** - Directed Student Teaching in Primary and Intermediate Grades [HDIV] (12.0 cr)
  *or ELED 4204* - Directed Global Student Teaching at the Primary and Intermediate Level [IP] (1.0 - 16.0 cr)
Program Sub-plans
A sub-plan is not required for this program.

Elementary Education Minnesota Licensure Requirements
Students planning to teach in Minnesota elementary schools must meet the licensure requirements of the Professional Educator Licensing and Standards Board (PELSB). The following program is designed to meet these requirements which are subject to change when the PELSB implements new licensure rules. Note: Students must complete licensure requirements and apply for licensure within seven years from time of admission to the program. After seven years, all education courses previously taken are void and must be retaken.

1. EIEd Major Requirement
   All requirements for an elementary education major must be complete in order to be licensed.

2. Communication Arts and Literature
   Students must also complete the general education requirements for writing and foreign language.
   Engl 3021 is recommended. In the listing below, 2xxx is equivalent to 2xxx or above.
   
   ENGL 2xxx
   or ENGL 3021 - Grammar and Language [HUM] (4.0 cr)
   CMR 1052 - Introduction to Public Speaking [E/CR] (2.0 cr)
   or CMR 1042 - Public Speaking and Analysis [E/CR] (4.0 cr)

3. Mathematics and Statistics
   MATH 1001 - Excursions in Mathematics [M/SR] (4.0 cr)
   STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
   or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)
   or STAT 2611 - Mathematical Statistics [M/SR] (4.0 cr)

4. Visual and Performing Arts
   Students must complete two courses from two different disciplines.
   In the listings below, 1xxx is equivalent to 1xxx or above.
   Take 2 or more course(s) including 2 or more sub-requirement(s) from the following:
   
   • ARTH 1101 - Interpreting the Visual World: An Introduction to Art History [FA] (4.0 cr)
   or ARTH 1xxx
   • ARTS 1008 - Visual Studies for Non-Majors: Ceramics [ART/P] (2.0 - 4.0 cr)
   or ARTS 1xxx
   • DNCE 1xxx
   • MUS 1041 - Introduction to Music [FA] (4.0 cr)
   or MUS 1042 - Fundamentals of Music [FA] (4.0 cr)
   or MUS 1xxx
   • TH 1101 - The Theatre Experience: An Introduction [FA] (4.0 cr)
   or TH 1xxx
   or TH 2111 - Creative Drama with Children [ART/P] (4.0 cr)

5. Social Studies
   Students must complete two courses from two different disciplines.
   In the listings below, 1xxx is equivalent to 1xxx or above.
   Take 2 or more course(s) including 2 or more sub-requirement(s) from the following:
   
   Sub-requirement 1: Anthropology
   • ANTH 1111 - Introductory Cultural Anthropology [SS] (4.0 cr)
   or ANTH 1xxx
   
   Sub-requirement 2: Economics
   • ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
   or ECON 1112 - Principles of Macroeconomics [SS] (4.0 cr)
   or ECON 1xxx
   
   Sub-requirement 3: Geography
   • GEOG 1xxx
   or GEOG 2001 - Problems in Geography [ENV] (4.0 cr)
   
   Sub-requirement 4: History
   • HIST 1301 - Introduction to U.S. History [HIST] (4.0 cr)
   or HIST 1xxx
   
   Sub-requirement 5: Political Science
   • POL 1201 - American Government and Politics [E/CR] (4.0 cr)
   or POL 1xxx
   
   Sub-requirement 6: Sociology
   • SOC 1101 - Introductory Sociology [SS] (4.0 cr)
   or SOC 1xxx
   or SOC 3122 - Sociology of Childhoods [HDIV] (4.0 cr)

6. Science
Students must complete two courses from two different disciplines, at least one with a lab (SCI-L).
In the listing below, 1xxx is equivalent to 1xxx or above.
Take 2 or more course(s) including 2 or more sub-requirements(s) from the following:

**Sub-requirement 1: Biology**
- BIOL 1xxx
- or ENST 2101 - Environmental Biology [SCI-L] (4.0 cr)

**Sub-requirement 2: Chemistry**
- CHEM 1xxx

**Sub-requirement 3: Environmental Science**
- ESCI 1xxx

**Sub-requirement 4: Geology**
- GEOL 1001 - Environmental Geology: Geology in Daily Life [SCI] (4.0 cr)
- or GEOL 1101 - Physical Geology [SCI-L] (4.0 cr)
- or GEOL 1xxx

**Sub-requirement 5: Physics**
- PHYS 1052 - The Solar System [SCI-L] (5.0 cr)
- or PHYS 1xxx

7. Psychology
- PSY 2581 - Drugs and Human Behavior [SS] (2.0 cr)

8. Cross-Cultural Field Experience
- Students must successfully complete a cross-cultural field experience.

9. Additional Licensure Requirements

**GPA requirements:**
- Minimum GPA of 2.50 overall with 2.75 minimum GPA in EIEd major and licensure area(s).
- No grade below C- will be accepted.
- No courses may be taken S/N.

**State-required exams:**
- Passing scores on all state-required basic skills, pedagogy, content, and performance examinations.

**Discipline Approval:**
- Approval of elementary education faculty.

**Field Experiences:**
- Field experiences have been completed in the full scope of licensure.

**Preprimary Education Endorsement**
- Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure. This endorsement requires separate admission and additional state-required examinations.

1. Preprimary Education (age 3 to K)
- Students planning to complete this sub-plan should take ELED 3211 in addition to the following courses:
  - ELED 3203 - Preprimary Theory and Pedagogy (4.0 cr)
  - ELED 4206 - Directed Student Teaching in Preprimary Classroom [HDIV] (4.0 cr)
  - SOC 1101 - Introductory Sociology [SS] (4.0 cr)

**Additional Courses**
- Additional courses may be accepted in place of the courses listed below. Contact the Elementary Education Discipline Coordinator for more information.
- Take 2 or more course(s) from the following:
  - ED 4903 - Kindergarten Education (4.0 cr)
  - PSY 3112 - Cognition (4.0 cr)
  - PSY 3302 - Personality (4.0 cr)
  - PSY 3401 - Child Development (4.0 cr)
  - PSY 3404 - Culture and Human Development [HDIV] (4.0 cr)
  - PSY 3501 - Social Psychology (4.0 cr)
  - SOC 3122 - Sociology of Childhoods [HDIV] (4.0 cr)
  - TH 2111 - Creative Drama with Children [ART/P] (4.0 cr)
  - or TH 2112 - Drama in the Classroom [ART/P] (2.0 cr)

**Middle Level Education Endorsement - Communication Arts & Literature**
- Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure. This endorsement requires separate admission and additional state-required examinations.

2. Middle Level Comm. Arts & Lit. (grades 5-8)
- In addition to the required courses listed below, a minor in English is strongly recommended. Students planning to complete this sub-plan should take EIEd 3212 in addition to the following courses:
  - ENGL 1509 - Literary Studies [HUM] (4.0 cr)
  - ENGE 4121 - Methods of Teaching Communication Arts and Literature in the Middle and Secondary School (4.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of February 21, 2019
ELED 3202 - Middle Level Theory and Methods (1.0 cr)
ELED 4207 - Directed Student Teaching in Middle Level Classroom [HDIV] (4.0 cr)
CMR 1042 - Public Speaking and Analysis [E/CR] (4.0 cr)
or CMR 1052 - Introduction to Public Speaking [E/CR] (2.0 cr)

Additional Courses
Engl 3021 is recommended. In the listing below, 2xxx is equivalent to 2xxx or above.
Take 3 or more course(s) from the following:
• ED 2201 - Perspectives on Young Adult Literature: Schooling, Society, and Culture [HUM] (4.0 cr)
• ENGL 2xxx
• ENGL 3021 - Grammar and Language [HUM] (4.0 cr)

Middle Level Education Endorsement - Mathematics
Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure. This endorsement requires separate admission and additional state-required examinations.

3. Middle Level Mathematics (grades 5-8)
In addition to the required courses listed below, a minor in mathematics is strongly recommended. Students planning to complete this sub-plan should take ELED 3212 in addition to the following courses:
MTHE 4121 - Methods of Teaching Mathematics in the Middle and Secondary School (4.0 cr)
MATH 1101 - Calculus I [M/SR] (5.0 cr)
MATH 1102 - Calculus II [M/SR] (5.0 cr)
ELED 3202 - Middle Level Theory and Methods (1.0 cr)
ELED 4207 - Directed Student Teaching in Middle Level Classroom [HDIV] (4.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)
or STAT 2611 - Mathematical Statistics [M/SR] (4.0 cr)

Additional Courses
Math 3111 is recommended. In the listing below, 2xxx is equivalent to 2xxx or above.
Take 2 or more course(s) from the following:
• MATH 3111 - Linear Algebra (4.0 cr)
• MATH 2xxx

Middle Level Education Endorsement - Social Studies
Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure. This endorsement requires separate admission and additional state-required examinations.

4. Middle Level Social Studies (grades 5-8)
In addition to the required courses listed below, a minor in anthropology, economics, history, political science, or sociology is strongly recommended. Students planning to complete this sub-plan should take ELED 3212 in addition to the following courses:
SSCE 4121 - Methods of Teaching Social Science in the Middle and Secondary School (4.0 cr)
ELED 3202 - Middle Level Theory and Methods (1.0 cr)
ELED 4207 - Directed Student Teaching in Middle Level Classroom [HDIV] (4.0 cr)
ECON 1112 - Principles of Macroeconomics [SS] (4.0 cr)
HIST 1301 - Introduction to U.S. History [HIST] (4.0 cr)
POL 1201 - American Government and Politics [E/CR] (4.0 cr)
or POL 1xxx or above
ANTH 1111 - Introductory Cultural Anthropology [SS] (4.0 cr)
or SOC 1101 - Introductory Sociology [SS] (4.0 cr)

Additional Courses
Geog 2001 is recommended. In the listing below, 1xxx is equivalent to 1xxx or above.
Take 1 or more course(s) from the following:
• ANTH 1xxx
• ECON 1xxx
• HIST 1xxx
• POL 1xxx
• SOC 1xxx
• GEOG 2001 - Problems in Geography [ENVT] (4.0 cr)

Middle Level Education Endorsement - Science
Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure. This endorsement requires separate admission and additional state-required examinations.

5. Middle Level Science (grades 5-8)
Students planning to complete this sub-plan should take ELED 3212 in addition to the following courses:
BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3.0 cr)

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of February 21, 2019
BIOL 2101 - Evolution of Biodiversity [SCI-L] (4.0 cr)
CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
ELED 3202 - Middle Level Theory and Methods (1.0 cr)
ELED 4207 - Directed Student Teaching in Middle Level Classroom [HDIV] (4.0 cr)
GEOL 1101 - Physical Geology [SCI-L] (4.0 cr)
SCIE 4121 - Methods of Teaching Science in the Middle and Secondary School (4.0 cr)
PHYS 1052 - The Solar System [SCI-L] (5.0 cr)
   PHYS 1091 - Principles of Physics I [SCI-L] (5.0 cr)
   PHYS 1092 - Principles of Physics II [SCI-L] (5.0 cr)
   or PHYS 1101 - General Physics I [SCI-L] (5.0 cr)
   PHYS 1102 - General Physics II [SCI-L] (5.0 cr)
CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
   or ED 3993 - Directed Study (1.0 - 5.0 cr)
Program Type: Baccalaureate
Requirements for this program are current for Fall 2019
Required credits to graduate with this degree: 120
Required credits within the major: 40 to 48
Degree: Bachelor of Arts

In English, students study literature and language, including its development over time and contemporary significance. Courses for both majors and non-majors offer a wide range of approaches and topics. Some courses focus on single authors, genres, or historical periods; others emphasize social contexts of literature, investigate representations of race or gender, or explore literary perceptions of the environment. Still, others cover film, creative writing, and contemporary popular literature.

English offers a Creative Writing Track for English majors and a Creative Writing Minor for non-majors. The Creative Writing program includes introductory classes in the techniques of poetry and prose writing, advanced classes in genres such as fiction, poetry, and creative nonfiction, and a variety of topics courses.

Objectives--The curriculum introduces students to the main literary genres and important historical periods and movements in English; to representative works of British, American, and Anglophone literature; and to methods of critical interpretation. The major is designed to meet the needs of students with various goals, including those seeking a foundation for work in fields related to English (e.g., education, communications, editing and publishing, law, theater); those who want a humanistic base in reading, thinking, and writing for a liberal arts education; and those who intend to pursue graduate study in the field. Students engage in critical reading, oral and written analysis of texts, formal argumentation, and research.

English classes tend to be small and conversational. Students collaborate with one another by discussing subtle and complex texts while discovering their own interpretive voices by writing clear and persuasive essays.

Program Student Learning Outcomes
Students will:
1. Be able to analyze both primary and secondary texts;
2. Be able to write a coherent argument, both with and without secondary sources;
3. Develop writing skills and processes in order to achieve specific writing goals;
4. Demonstrate basic knowledge of critical approaches and practices of literary study;
5. Demonstrate basic knowledge of literary history.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.
Required Courses
ENGL 1509 - Literary Studies [HUM] (4.0 cr)
Take exactly 12 credit(s) from the following:
- ENGL 1205 - Survey of British Literature to the 18th Century [HUM] (4.0 cr)
- ENGL 1206 - Survey of British Literature from the 18th Century Forward [HUM] (4.0 cr)
- ENGL 1211 - Survey of American Literature to the Civil War [HUM] (4.0 cr)
- ENGL 1212 - Survey of American Literature from the Civil War Forward [HUM] (4.0 cr)

Research Seminar
A research-based study of a literary subject that forms a capstone experience for majors. 40xx courses are offered in rotation.
Take 4 or more credit(s) from the following:
- ENGL 4004 - Research Seminar: Old English Literature and Language (4.0 cr)
- ENGL 4012 - Research Seminar: Environmental Literature and Theory (4.0 cr)
- ENGL 4017 - Research Seminar: Tricksters-Conjurers in American Indian and African American Literature [HDIV] (4.0 cr)
- ENGL 4023 - Research Seminar: Nationalism and Irish Literature (4.0 cr)
- ENGL 4024 - Research Seminar: Poet's Choice: The Book as the 25th Poem (4.0 cr)
- ENGL 4028 - Research Seminar: Inventing a Nation: Early American National Literature (4.0 cr)
- ENGL 4031 - Research Seminar: Renaissance Romance (4.0 cr)
- ENGL 4032 - Research Seminar: Transnational Theory and Literatures (4.0 cr)
- ENGL 4034 - Research Seminar: The Adventure Novel in American and British Literature (4.0 cr)
- ENGL 4035 - Research Seminar: Booker Watch: Contemporary British Literature and the Emergence of Canonicity [IP] (4.0 cr)
- ENGL 4037 - Research Seminar: The Biographical Novel (4.0 cr)

Lower Level Elective Courses
4 of the 40 credits in the major must have an HDIV designator at 2xxx or above. No more than 4 credits of 1xxx or 2xxx courses, other than the required Literary Studies and surveys may count in the major. A survey course, not used previously, may count as an elective.
Take at most 4 credit(s) from the following:
- ENGL 1205 - Survey of British Literature to the 18th Century [HUM] (4.0 cr)
- ENGL 1206 - Survey of British Literature from the 18th Century Forward [HUM] (4.0 cr)
- ENGL 1211 - Survey of American Literature to the Civil War [HUM] (4.0 cr)
- ENGL 1212 - Survey of American Literature from the Civil War Forward [HUM] (4.0 cr)
- ENGL 1403 - Sports Literature and Writing [ART/P] (4.0 cr)
- ENGL 1404 - Topics in Writing: Introduction to Creative Writing [ART/P] (4.0 cr)
- ENGL 2014 - Introduction to Popular Literature: Science Fiction [HUM] (4.0 cr)
- ENGL 2015 - Introduction to Film Studies [HUM] (4.0 cr)
- ENGL 2031 - Gender in Literature and Culture [HDIV] (4.0 cr)
- ENGL 2033 - The Bible and Literature [HUM] (4.0 cr)
- ENGL 2041 - Introduction to African American Literature [HDIV] (4.0 cr)
- ENGL 2059 - Introduction to Shakespeare [HUM] (4.0 cr)
- ENGL 2061 - Introduction to Popular Literature: Detection and Espionage in Fiction and Film [HUM] (4.0 cr)
- ENGL 2106 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4.0 cr)
- ENGL 2108 - Writing With Style (2.0 cr)
- ENGL 2173 - The Nature Essay: Writing and Reading Creative Non-fiction about the Natural World [ENVT] (4.0 cr)
- ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HDIV] (4.0 cr)
- ENGL 2xxx
- HUM 1xxx
- HUM 2xxx

Upper Level Elective Courses
Up to 4 credits of 3993, 4993 may count in the major.
Take 16 or more credit(s) from the following:
- ENGL 3012 - Advanced Fiction Writing [ART/P] (4.0 cr)
- ENGL 3015 - Writing Poetry for the 21st Century [ART/P] (4.0 cr)
- ENGL 3032 - Creative Nonfiction Writing [ART/P] (4.0 cr)
- ENGL 3043 - Medieval Makings of Tolkien's Worlds (4.0 cr)
- ENGL 3153 - Gothic Literature (4.0 cr)
- ENGL 3154 - 19th-Century British Fiction (4.0 cr)
- ENGL 3155 - 20th-Century British Fiction (4.0 cr)
- ENGL 3156 - Modern Irish Literature (4.0 cr)
- ENGL 3157 - English Renaissance Drama (4.0 cr)
- ENGL 3159 - Shakespeare: Studies in the Bard (4.0 cr)
- ENGL 3161 - Medieval Literature (4.0 cr)
- ENGL 3163 - Life in a Medieval City: Literature and Culture in York, 700-1500 [HUM] (4.0 cr)
Program Sub-plans

A sub-plan is not required for this program.

Creative Writing

To earn an English Creative Writing subplan, students must complete 48 credits; these must include ENGL 1404 and eight other writing credits of which four credits must be at the ENGL 3xxx level.

NOTE: Students must also complete the required courses, advanced skills course, the research seminar, and a 2xxx-level or above elective that carries the HDIV designation as listed under the English major program requirements. Eight credits of electives must be outside of creative writing courses [see list below].

Required Courses

We strongly recommend that students take Engl 1404 or equivalent in the classroom and not online.
ENGL 1404 - Topics in Writing: Introduction to Creative Writing [ART/P] (4.0 cr)

Electives

Choose 20 total electives from the following categories. Note that a course may not count in more than one category. Only one 1xxx or 2xxx-level elective allowed in the elective categories.

Writing Electives

Take at most 8 credit(s) from the following:

Upper Division Electives

Take at most 8 credit(s) from the following:
• ENGL 3012 - Advanced Fiction Writing [ART/P] (4.0 cr)
• ENGL 3015 - Writing Poetry for the 21st Century [ART/P] (4.0 cr)
• ENGL 3032 - Creative Nonfiction Writing [ART/P] (4.0 cr)
• Additional Electives

Take at most 4 credit(s) from the following:
• ENGL 1403 - Sports Literature and Writing [ART/P] (4.0 cr)
• ENGL 2106 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4.0 cr)
• ENGL 2173 - The Nature Essay: Writing and Reading Creative Non-fiction about the Natural World [ENVT] (4.0 cr)
• FREN 3410 - Medieval and Early Modern Studies: Troubadours and Old Occitan: Creative Writing in the Middle Ages [HUM] (4.0 cr)

Literature Electives

If you complete Engl 1403, 2106, or 2173 as a writing elective, you must choose all 3000-level elective courses. If you have not completed a 2000-level writing elective, you may choose one 1000 or 2000-level elective course.
Take 0 - 8 credit(s) from the following:
• ENGL 1205 - Survey of British Literature to the 18th Century [HUM] (4.0 cr)
• ENGL 1206 - Survey of British Literature from the 18th Century Forward [HUM] (4.0 cr)
• ENGL 1211 - Survey of American Literature to the Civil War [HUM] (4.0 cr)
• ENGL 1212 - Survey of American Literature from the Civil War Forward [HUM] (4.0 cr)
• ENGL 2014 - Introduction to Popular Literature: Science Fiction [HUM] (4.0 cr)
- ENGL 2015 - Introduction to Film Studies [HUM] (4.0 cr)
- ENGL 2016 - Monsters and the Monstrous in English Literature [HUM] (4.0 cr)
- ENGL 2031 - Gender in Literature and Culture [HDIV] (4.0 cr)
- ENGL 2033 - The Bible and Literature [HUM] (4.0 cr)
- ENGL 2041 - Introduction to African American Literature [HDIV] (4.0 cr)
- ENGL 2059 - Introduction to Shakespeare [HUM] (4.0 cr)
- ENGL 2061 - Introduction to Popular Literature: Detection and Espionage in Fiction and Film [HUM] (4.0 cr)
- ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HDIV] (4.0 cr)
- ENGL 2xxx
- ENGL 3153 - Gothic Literature (4.0 cr)
- ENGL 3154 - 19th-Century British Fiction (4.0 cr)
- ENGL 3155 - 20th-Century British Fiction (4.0 cr)
- ENGL 3156 - Modern Irish Literature (4.0 cr)
- ENGL 3157 - English Renaissance Drama (4.0 cr)
- ENGL 3159 - Shakespeare: Studies in the Bard (4.0 cr)
- ENGL 3161 - Medieval Literature (4.0 cr)
- ENGL 3163 - Life in a Medieval City: Literature and Culture in York, 700-1500 [HUM] (4.0 cr)
- ENGL 3165 - Seventeenth-Century Revolutions (4.0 cr)
- ENGL 3166 - Postcolonial Literature (4.0 cr)
- ENGL 3168 - Victorian Literature and Culture (4.0 cr)
- ENGL 3171 - The Literature of Creative Nonfiction (4.0 cr)
- ENGL 3172 - American Utopian Literature (4.0 cr)
- ENGL 3173 - Contemporary British Literature (4.0 cr)
- ENGL 3174 - Contemporary Indian and Caribbean Literature [IP] (4.0 cr)
- ENGL 3261 - Modern British and American Poetry (4.0 cr)
- ENGL 3262 - 20th-Century American Poetry: From Modern to Contemporary (4.0 cr)
- ENGL 3301 - U.S. Multicultural Literature [HDIV] (4.0 cr)
- ENGL 3311 - American Indian Literature [HDIV] (4.0 cr)
- ENGL 3312 - World Indigenous Literature and Film [HDIV] (4.0 cr)
- ENGL 3331 - African American Literature [HDIV] (4.0 cr)
- ENGL 3332 - African American Women Writers [HDIV] (4.0 cr)
- ENGL 3414 - Feminist Theory [HDIV] (4.0 cr)
- ENGL 3444 - Holocaust Literature and Film [IP] (4.0 cr)
- ENGL 3522 - Harlem Renaissance [HDIV] (4.0 cr)
- ENGL 3993 - Directed Study (1.0 - 5.0 cr)
- ENGL 3xxx
- ENGL 4993 - Directed Study (1.0 - 5.0 cr)
- ENGL 4xxx

Public Reading Participation
Substantive participation in public reading of creative work.
Morris Campus

English Minor
Division of Humanities - Adm

• Program Type: Undergraduate minor related to major
• Requirements for this program are current for Fall 2019
• Required credits in this minor: 20

In English, students study literature and language, including its development over time and contemporary significance. Courses for both majors and non-majors offer a wide range of approaches and topics. Some courses focus on single authors, genres, or historical periods; others emphasize social contexts of literature, investigate representations of race or gender, or explore literary perceptions of the environment. Still, others cover film, creative writing, and contemporary popular literature.

Objectives--The curriculum introduces students to the main literary genres and important historical periods and movements in English; to representative works of British, American, and Anglophone literature; and to methods of critical interpretation. Students engage in critical reading, oral and written analysis of texts, formal argumentation, and research.

English classes tend to be small and conversational. Students collaborate with one another by discussing subtle and complex texts while discovering their own interpretive voices by writing clear and persuasive essays.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Minor Requirements
Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Required Courses
ENGL 1509 - Literary Studies [HUM] (4.0 cr)

Take exactly 8 credit(s) from the following:
• ENGL 1205 - Survey of British Literature to the 18th Century [HUM] (4.0 cr)
• ENGL 1206 - Survey of British Literature from the 18th Century Forward [HUM] (4.0 cr)
• ENGL 1211 - Survey of American Literature to the Civil War [HUM] (4.0 cr)
• ENGL 1212 - Survey of American Literature from the Civil War Forward [HUM] (4.0 cr)

Elective Courses
4 of the 20 credits in the minor must have an HDIV designator at 2xxx or above. No more than 4 credits of 1xxx or 2xxx courses, other than the required Literary Studies and surveys, may count in the minor. A survey course, not used previously, may count as an elective.

Take at most 4 credit(s) from the following:
• ENGL 1205 - Survey of British Literature to the 18th Century [HUM] (4.0 cr)
• ENGL 1206 - Survey of British Literature from the 18th Century Forward [HUM] (4.0 cr)
• ENGL 1211 - Survey of American Literature to the Civil War [HUM] (4.0 cr)
• ENGL 1212 - Survey of American Literature from the Civil War Forward [HUM] (4.0 cr)
• ENGL 1403 - Sports Literature and Writing [ART/P] (4.0 cr)
• ENGL 1404 - Topics in Writing: Introduction to Creative Writing [ART/P] (4.0 cr)
• ENGL 2014 - Introduction to Popular Literature: Science Fiction [HUM] (4.0 cr)
• ENGL 2015 - Introduction to Film Studies [HUM] (4.0 cr)
• ENGL 2016 - Monsters and the Monstrous in English Literature [HUM] (4.0 cr)
• ENGL 2031 - Gender in Literature and Culture [HDIV] (4.0 cr)
• ENGL 2033 - The Bible and Literature [HUM] (4.0 cr)
• ENGL 2041 - Introduction to African American Literature [HDIV] (4.0 cr)
• ENGL 2059 - Introduction to Shakespeare [HUM] (4.0 cr)
• ENGL 2061 - Introduction to Popular Literature: Detection and Espionage in Fiction and Film [HUM] (4.0 cr)
• ENGL 2106 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4.0 cr)
• ENGL 2108 - Writing With Style (2.0 cr)
• ENGL 2173 - The Nature Essay: Writing and Reading Creative Non-fiction about the Natural World [ENVT] (4.0 cr)
• ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HDIV] (4.0 cr)
• ENGL 2xxx

Take 4 or more credit(s) from the following:
• ENGL 3005 - Understanding Writing: Theories and Practices [HUM] (4.0 cr)
• ENGL 3012 - Advanced Fiction Writing [ART/P] (4.0 cr)
• ENGL 3015 - Writing Poetry for the 21st Century [ART/P] (4.0 cr)
• ENGL 3021 - Grammar and Language [HUM] (4.0 cr)
• ENGL 3032 - Creative Nonfiction Writing [ART/P] (4.0 cr)
• ENGL 3043 - Medieval Makings of Tolkien's Worlds (4.0 cr)
• ENGL 3153 - Gothic Literature (4.0 cr)
• ENGL 3154 - 19th-Century British Fiction (4.0 cr)
• ENGL 3155 - 20th-Century British Fiction (4.0 cr)
• ENGL 3156 - Modern Irish Literature (4.0 cr)
• ENGL 3157 - English Renaissance Drama (4.0 cr)
• ENGL 3159 - Shakespeare: Studies in the Bard (4.0 cr)
• ENGL 3161 - Medieval Literature (4.0 cr)
• ENGL 3163 - Life in a Medieval City: Literature and Culture in York, 700-1500 [HUM] (4.0 cr)
• ENGL 3165 - Seventeenth-Century Revolutions (4.0 cr)
• ENGL 3166 - Postcolonial Literature (4.0 cr)
• ENGL 3168 - Victorian Literature and Culture (4.0 cr)
• ENGL 3171 - The Literature of Creative Nonfiction (4.0 cr)
• ENGL 3172 - American Utopian Literature (4.0 cr)
• ENGL 3173 - Contemporary British Literature (4.0 cr)
• ENGL 3174 - Contemporary Indian and Caribbean Literature [IP] (4.0 cr)
• ENGL 3261 - Modern British and American Poetry (4.0 cr)
• ENGL 3262 - 20th-Century American Poetry: From Modern to Contemporary (4.0 cr)
• ENGL 3301 - U.S. Multicultural Literature [HDIV] (4.0 cr)
• ENGL 3311 - American Indian Literature [HDIV] (4.0 cr)
• ENGL 3312 - World Indigenous Literature and Film [HDIV] (4.0 cr)
• ENGL 3331 - African American Literature [HDIV] (4.0 cr)
• ENGL 3332 - African American Women Writers [HDIV] (4.0 cr)
• ENGL 3411 - Critical Approaches to Literature (4.0 cr)
• ENGL 3414 - Feminist Theory [HDIV] (4.0 cr)
• ENGL 3444 - Holocaust Literature and Film [IP] (4.0 cr)
• ENGL 3522 - Harlem Renaissance [HDIV] (4.0 cr)
• ENGL 3xxx

• ENGL 4004 - Research Seminar: Old English Literature and Language (4.0 cr)
• ENGL 4012 - Research Seminar: Environmental Literature and Theory (4.0 cr)
• ENGL 4017 - Research Seminar: Tricksters-Conjurers in American Indian and African American Literature [HDIV] (4.0 cr)
• ENGL 4023 - Research Seminar: Nationalism and Irish Literature (4.0 cr)
• ENGL 4024 - Research Seminar: Poet's Choice: The Book as the 25th Poem (4.0 cr)
• ENGL 4028 - Research Seminar: Inventing a Nation: Early American National Literature (4.0 cr)
• ENGL 4031 - Research Seminar: Renaissance Romance (4.0 cr)
• ENGL 4032 - Research Seminar: Transnational Theory and Literatures (4.0 cr)
• ENGL 4034 - Research Seminar: The Adventure Novel in American and British Literature (4.0 cr)

Morris Campus
Environmental Science B.A.
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 76
- Degree: Bachelor of Arts

This major is for students interested in an interdisciplinary science education that prepares them to deal with environmental challenges. The basic natural resources of land, air, and water are studied in the context of protecting and sustaining the environment. Students become knowledgeable about environmental issues and applied environmental science. The environmental science curriculum draws courses predominantly from the disciplines of the Division of Science and Mathematics.

The program prepares students to be able to:

- Demonstrate a strong basis of knowledge about the basic natural resources of land, air, and water.
- Exhibit awareness about the problems arising from the interaction of human society and natural environment.
- Effectively apply skills in techniques of applied environmental science, including experiment design, collection of data and analysis of experimental results.
- Demonstrate skill in oral and written presentation of scientific problems that pertain to the environment.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students are encouraged to fulfill distribution requirements with courses that complement the environmental science major (e.g., ECON 1111 - Microeconomics, ECON 3007 - Environmental and Natural Resource Economics I, and ECON 3008 - Environmental and Natural Resource Economics II).

Selection of electives must be done in consultation with an environmental science advisor. By the beginning of their junior year, students should submit a clearly articulated educational plan and a list of selected electives, to be reviewed and approved by the Environmental Science Advisory Group.

Courses in the Division of Science and Math, other than those listed below, may be used to fulfill the "Elective Science Courses" with the prior approval of the Environmental Science Advisory Group.

Required courses may not be taken S-N unless offered S-N only.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of F are included in GPA calculation until they are replaced.

Required Courses
Basic Sciences
CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
MATH 1101 - Calculus I [M/SR] (5.0 cr)
or MATH 1021 - Survey of Calculus [M/SR] (4.0 cr)
PHYS 1101 - General Physics I [SCI-L] (5.0 cr)
or PHYS 1091 - Principles of Physics I [SCI-L] (5.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Applied Sciences
BIOL 3311 - Ecology [SCI-L] (4.0 cr)
GEOL 1101 - Physical Geology [SCI-L] (4.0 cr)
GEOL 2161 - GIS and Remote Sensing [SCI] (4.0 cr)
GEOL 3501 - Hydrology [SCI] (4.0 cr)
ENST 1101 - Environmental Problems and Policy [ENVT] (4.0 cr)
ESCI 4901 - Environmental Science Senior Seminar I (1.0 cr)
ESCI 4902 - Environmental Science Senior Seminar II (1.0 cr)
ENST 4101 - Environmental Biology [SCI-L] (4.0 cr)
or BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3.0 cr)

Required Practicum
Completion of an applied educational experience in environmental science. An approved educational experience in a work, research, and/or field setting that provides a practical complement to the student's classroom learning experiences. Educational experiences are approved by the Environmental Science Advisory Group. A wide variety of experiences are possible, ESCI 3196 - Environmental Science Field Camp is one example.

Elective Science Courses
Courses from at least two disciplines must be included. No more than 8 credits from 2xxx courses may be used to meet this requirement. If a second major is sought in the Division Science and Mathematics, at least 12 elective credits for the environmental science major must come from a discipline outside the second major (e.g., a geology major cannot apply more than 8 GEOL elective credits toward the environmental science major).
Take 20 or more credit(s) from the following:
• BIOL 4121 - Herpetology (4.0 cr)
• BIOL 4131 - Vertebrate Natural History (4.0 cr)
• BIOL 4151 - Entomology (4.0 cr)
• BIOL 4172 - Plant Systematics (4.0 cr)
• BIOL 4191 - Freshwater Biology (4.0 cr)
• BIOL 4301 - Plant Biology (4.0 cr)
• BIOL 4333 - Biogeochemistry and Global Change (4.0 cr)
• BIOL 4351 - Conservation Biology (4.0 cr)
• CHEM 2301 - Organic Chemistry I [SCI] (4.0 cr)
• CHEM 2302 - Organic Chemistry II [SCI] (4.0 cr)
• CHEM 2304 - Organic Chemistry II with a Biological Emphasis [SCI] (4.0 cr)
• CHEM 3101 - Analytical Chemistry [SCI-L] (4.0 cr)
• CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
• CHEM 3406 - Polymer Properties and Characterization (2.0 cr)
• CHEM 3407 - Polymer Synthesis (2.0 cr)
• CHEM 3501 - Physical Chemistry: Thermodynamics [SCI] (4.0 cr)
• ESCI 2201 - Field Experience in Environmental Challenges of the Italian Alps [ENVT] (4.0 cr)
• ESCI 3111 - Evolution of the Minnesota Prairie [SCI-L] (4.0 cr)
• ESCI 3301 - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
• GEOG 2001 - Natural and Unnatural Geologic Hazards [ENVT] (4.0 cr)
• GEOL 2121 - Sedimentology and Stratigraphy [SCI-L] (4.0 cr)
• GEOL 2131 - Geomorphology [SCI] (4.0 cr)
• GEOL 2141 - Glacial and Quaternary Geology [SCI] (4.0 cr)
• GEOL 3111 - Introduction to Paleontology [SCI-L] (4.0 cr)
• GEOL 3502 - Groundwater [ENVT] (4.0 cr)
• PHYS 3004 - Atmospheric Physics [ENVT] (4.0 cr)
• STAT 4601 - Biostatistics (4.0 cr)
Morris Campus

Environmental Studies B.A.

Academic Affairs

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 54 to 57
- Degree: Bachelor of Arts

This is an interdisciplinary major under the authority of the vice chancellor for academic affairs and dean. The program is administered by the environmental studies program coordinator.

Objectives: The environmental studies major is designed to serve those interested in a broad knowledge of the natural environment and the role of humans in it. Students acquire a foundation of knowledge in economics, policy, science, humanities, and statistics. Carefully chosen electives, a required practical internship or research experience, and a capstone seminar provide depth of experience and help students prepare for graduate and professional programs, as well as for careers in education, government service, and the private sector.

Program Student Learning Outcomes:

1 - Environmental competency: Students will be able to analyze their own impact on the environment, so as to think critically about the consequences of their individual and collective choices

2 - Environmental issues as multifaceted and multidisciplinary: Students will be able to apply a multidisciplinary lens to the underpinnings of modern environmental movements and problems

3 - Knowledge of major environmental challenges: Students will be able to articulate major intertwined challenges and how to effectively address them

4 - Research methods and creative expression: Students will be able to apply qualitative and quantitative methods to research projects in environmental studies

5 - Cultivating an understanding of place in global context: Students will be able to articulate the interactions among biophysical, economic, and social aspects of particular places or regions and their connections to larger global forces or issues

Program Delivery

This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements

All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements

Students are required to take 2 semester(s) of any second language.

Requirements for the major include successful completion of two elements:

Element 1: The Environmental Studies Core
Element 2: The Environmental Studies Elective Block

Selection of electives must be intentional and done in close consultation with an environmental studies advisor. Students submit an elective plan during the EnSt 3988 Pre-internship Seminar. Elective plans must be designed to ensure that there is sufficient depth of
coverage in the chosen ENST electives. For many students, a second major (or minor) in a closely related discipline is desirable. Electives often can be selected in such a way that they also count toward the second major. Elective courses, other than those listed below, may be appropriate to add depth and provide more theoretical context for the environmentally focused coursework. Approval of alternative electives requires written consent of the course instructor and the program coordinator.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Element 1: The Environmental Studies Core
Students must successfully complete each of the following requirements in order to satisfy this element of the major. NOTE: If students choose to take the biology sequence instead of EnSt 2101, they must complete BOTH Biol 1111 and Biol 2101.

ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
ENGL 2106 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4.0 cr)
or PHIL 2114 - Environmental Ethics [ENVT] (4.0 cr)
ENST 1101 - Environmental Problems and Policy [ENVT] (4.0 cr)
ENST 2101 - Environmental Biology [SCI-L] (4.0 cr)
or BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3.0 cr)
ENST 3988 - Environmental Studies Pre-Internship Seminar (1.0 cr)
ENST 3989 - Environmental Studies Post-Internship Seminar (1.0 cr)
ENST 4901 - Senior Capstone Experience (4.0 cr)
GEOL 1101 - Physical Geology [SCI-L] (4.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Element 2: Environmental Studies Elective Block
Students must successfully complete at least 24 credits from the electives listed below, subject to the following restrictions:

1. Courses used to satisfy this element may not be used to complete the Core element.
2. At least 16 credits must come from the Upper Division Electives Block.
3. At least 4 credits of the Upper Division Electives must come from Category A.
4. At least 4 credits of the Upper Division Electives must come from Category B.

Lower Division Electives
Take at most 8 credit(s) from the following:

• ANTH 1103 - People of the Past: Introduction to Archaeology [SS] (4.0 cr)
• ANTH 1201 - Becoming Human: Introduction to Biological Anthropology [SCI-L] (5.0 cr)
• CHEM 1001 - Chemistry for the Curious Citizen: The Role of Chemistry in the Environment and Everyday Life [SCI-L] (3.0 cr)
• CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
• CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
• CMR 2102 - Communication and the Environment: Analysis and Criticism [HUM] (2.0 cr)
• ENGL 2106 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4.0 cr)
• ENGL 2173 - The Nature Essay: Writing and Reading Creative Non-fiction about the Natural World [ENVT] (4.0 cr)
• ENST 1801 - Introduction to Sustainability through Science Fiction [IC] (4.0 cr)
• ENST 2001 - Natural and Unnatural Geologic Hazards [ENVT] (4.0 cr)
• HI 1812 - FIRE! An introductory Seminar to American Environmental History [IC] (4.0 cr)
• HIST 2451 - The American West [HIST] (4.0 cr)
• IS 2039 - Understanding Cuba [IP] (2.0 cr)
• PHIL 2114 - Environmental Ethics [ENVT] (4.0 cr)
• PHYS 3004 - Atmospheric Physics [ENVT] (4.0 cr)
• POL 1201 - American Government and Politics [E/CR] (4.0 cr)
• SOC 2201 - Sociology of Food [HDIV] (4.0 cr)
• ENST 1201 - Mapping the Environment [ENVT] (4.0 cr)
or GEOL 2161 - GIS and Remote Sensing [SCI] (4.0 cr)

Upper Division Elective Courses
Take 16 or more credit(s) from the following:

Category A: Science and Mathematics Electives
Take 4 or more credit(s) from the following:

• BIOL 3131 - Ecology [SCI-L] (4.0 cr)
• BIOL 4131 - Vertebrate Natural History (4.0 cr)
• BIOL 4151 - Entomology (4.0 cr)
• BIOL 4172 - Plant Systematics (4.0 cr)
• BIOL 4191 - Freshwater Biology (4.0 cr)
• BIOL 4302 - Plant Physiology (4.0 cr)
• BIOL 4333 - Biogeochemistry and Global Change (4.0 cr)
• BIOL 4335 - Ecology of Agriculture (4.0 cr)
• BIOL 4351 - Conservation Biology (4.0 cr)
• CHEM 3101 - Analytical Chemistry [SCI-L] (4.0 cr)
• CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
• ESCI 3301 - The Chemistry of Sustainable Energy [SCI] (4.0 cr)
• GEOL 3011 - Earth Resources [ENVT] (4.0 cr)
• GEOL 3501 - Hydrology [SCI] (4.0 cr)

• Category B: Social Science Electives
  Take 4 or more credit(s) from the following:
  • ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4.0 cr)
  • ANTH 3251 - Health and Human Ecology [ENVT] (2.0 cr)
  • ANTH 3704 - Anthropological Genetics [SCI] (4.0 cr)
  • ANTH 3761 - Human Fossil Record [SCI] (2.0 cr)
  • ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2.0 cr)
  • ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2.0 cr)
  • ECON 3136 - Economics of the Green Power Transition: New Business Models and Regulatory Strategies [ENVT] (2.0 cr)
  • ENST 3001 - Water Resources Policy [ENVT] (4.0 cr)
  • ENST 3101 - Industrial Ecology (4.0 cr)
  • GEOG 3501 - Geographic Information Systems [ENVT] (4.0 cr)
  • HIST 3361 - An Environmental and Geographic History of the United States [ENVT] (4.0 cr)
  • POL 3272 - Making Environmental Public Policy [ENVT] (4.0 cr)
  • POL 3355 - Environmental Political Theory [ENVT] (4.0 cr)
  • SOC 3131 - World Population [ENVT] (4.0 cr)

• Category C: Humanities Electives
  Take 0 or more credit(s) from the following:
  • ENGL 3063 - Environmental Justice Literatures [HDIV] (4.0 cr)
  • ENGL 4012 - Research Seminar: Environmental Literature and Theory (4.0 cr)
  • ENST 3112 - Climate Change and Moral Responsibility [ENVT] (4.0 cr)
  • ENST 3201 - Environmental Justice [E/CR] (4.0 cr)
  • FREN 3507 - Modern Studies: French for Sustainability [ENVT] (2.0 cr)
  • IS 3053 - Irish Texts and Contexts [ENVT] (4.0 cr)
Morris Campus
French B.A.
Division of Humanities - Adm
Division of Humanities

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 33 to 41
- Degree: Bachelor of Arts

French is an important language of diplomacy, commerce, and health care and is used in research across the globe and in many disciplines, such as music, art, linguistics, history, law, political science, anthropology, biology, chemistry, mathematics, and philosophy. The French discipline gives students the language and analytical skills necessary to engage intellectually with these interconnected fields in French and to appreciate the cultures of France and Francophone countries throughout the world.

Program Student Learning Outcomes
The French curriculum is designed to ensure that students:
- Develop their reading, writing, speaking, and listening skills in French;
- Refine their intercultural and problem-solving skills;
- Expand research and career opportunities in a global and interconnected world;
- Discover the traditions, literatures, arts, and histories of French-speaking peoples;
- Explore the contributions of French-speaking peoples to education, the humanities, social sciences and/or STEM fields;
- Engage in research in French;
- Prepare for a career serving French-speaking people in the United States and abroad in the sciences, commerce, diplomacy, economic development, healthcare, teaching, or community outreach.

CERTIFICATE PROGRAM IN FRENCH
The certificate program in French responds to the growing demand for individuals who can communicate successfully in a global environment and is intended for students whose other academic commitments prevent them from completing either a major or minor in French. To earn a certificate, a student must: a) complete a minimum of 16 credits in French at UMM at the 2xxx and/or 3xxx level. All courses for the certificate must be taken on campus at UMM. Students are encouraged to study abroad, but the UMM French faculty need to assess the skills and progress of the student. Therefore, classes taken abroad (including July in Paris) do not count for the certificate. b) earn at least a B in each of the four courses (S-N grades will not be accepted for the certificate). No courses in English may count toward the French certificate program. Students who complete a major or minor in French are not eligible for the certificate program. A student who has met the above requirements may request a reference letter from the UMM French faculty certifying completion of the certificate program as well as language competence based on guidelines published by the American Council on the Teaching of Foreign Languages (ACTFL).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

Required prerequisites
Beginning French
Beginning French I and II or equivalent previous language experience required to take intermediate French.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of French.

French majors must complete a significant amount of coursework at Morris and are also strongly encouraged to study abroad.
At least 50 percent of French major credits, including one-half of required upper division credits, must be completed on the Morris campus (21 or more credits). Morris courses, study abroad, or domestic transfer credit may comprise the remaining credits for the major.

Students must procure prior approval from the French Discipline in order for transfer credit, including study abroad, to be applied to the French major. Credits completed under the European Credit Transfer System will be converted to United States credits according to internationally recognized standards (i.e. 1 ECTS credit = .5 U.S. credit).

Students who place into FREN 3002/3003/3004 must complete 33 credits for the major. Students who place into FREN 2001 must complete 41 credits for the major.

Up to four credits taught in English (such as FREN 1031, 1302, 1303, or 1311) may count towards the French major if students complete written work for the class in French.

The French Discipline strongly encourages French majors to complete one year of study in an additional world language.

No grades below C- may count toward the French major. Courses may not be taken S-N unless offered S-N only. A minimum GPA of 2.000 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

**Required Courses**

The final capstone presentation (Fren 4902) must be given in French

- **FREN 2001** - Intermediate French I [IP] (4.0 cr)
- **FREN 2002** - Intermediate French II [IP] (4.0 cr)
- **FREN 3002** - Civilization and Composition: Tools for Studying the Medieval and Early Modern Periods [HIST] (2.0 cr)
- **FREN 3003** - Civilization and Composition: France Since the Enlightenment [HIST] (2.0 cr)
- **FREN 3004** - Civilization and Composition: Colonialism and Francophone Worlds [HIST] (2.0 cr)
- **FREN 3011** - Introduction to French and Francophone Literature [HUM] (4.0 cr)
- **FREN 4902** - French Capstone Project (2.0 cr)
- **HUM 1305** - Career Preparation in World Languages (1.0 cr)

**Medieval and Early Modern Studies (MEMS), Modern Studies (MOS), Francophone Studies (FRS)**

Students who study abroad may satisfy the MEMS, MOS, FRS requirements with three credits in the area of study (rather than four credits as prescribed below). Students who satisfy any of these requirement with three credits must still satisfy the total credits for the major.

**Medieval and Early Modern Studies (MEMS)**

These courses fall within the period that encompasses the Middle Ages through French classicism. Students gain familiarity with the history, cultures, and literatures of France from its beginnings in early feudal society through the seventeenth century.

Take 4 or more credit(s) from the following:

- **FREN 3402** - Medieval and Early Modern Studies: Pre-Enlightenment Culture in France (2.0 - 4.0 cr)
- **FREN 3406** - Medieval and Early Modern Studies: Emotional Extremes in Medieval and Early Modern Literature (4.0 cr)
- **FREN 3407** - Medieval and Early Modern Studies: The "East" and its Marvels (2.0 - 4.0 cr)
- **FREN 3408** - Medieval and Early Modern Studies: Quests, Qualis, and Custards--Food in Life and Literature (2.0 - 4.0 cr)
- **FREN 3409** - Medieval and Early Modern Studies: Monsters and the Marvelous (2.0 - 4.0 cr)
- **FREN 3411** - Medieval and Early Modern Studies: Medieval and Renaissance Bodies (4.0 cr)

**Modern Studies (MOS)**

These courses cover a wide range of historical, literary, and cultural moments and movements that have marked France's development since the dawn of the French Enlightenment.

Take 4 or more credit(s) from the following:

- **FREN 1031** - Modern Studies: The Modern Body in France [SS] (2.0 cr)
- **FREN 1302** - French Cinema [IP] (4.0 cr)
- **FREN 1303** - Paris as Text/Image/Sound [IP] (2.0 cr)
- **FREN 3501** - Modern Studies: The Old Regime and New Ideas: The French Enlightenment (4.0 cr)
- **FREN 3502** - Modern Studies: Revolution, Romanticism, Modernity (4.0 cr)
- **FREN 3503** - Modern Studies: Avant-Garde, Existentialism, Experimentation (2.0 - 4.0 cr)
- **FREN 3505** - Modern Studies: Immigration and Identity in Modern France (4.0 cr)
- **FREN 3507** - Modern Studies: French for Sustainability [ENVT] (2.0 cr)

**Francophone Studies (FRS)**

These courses examine the literature, film, history and cultures of French-speaking populations living in Africa, North America, the Caribbean, South America, Europe, and Asia.

Take 4 or more credit(s) from the following:
• FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4.0 cr)
• FREN 3603 - Francophone Studies: Witches, Wilderness, and Words in Francophone Folktales (4.0 cr)
• FREN 3604 - Francophone Studies: Francophone America (4.0 cr)
• FREN 3605 - Francophone Studies: Maghrebian Cinema (4.0 cr)
• FREN 3606 - Francophone Studies: Sub-Saharan Francophone Cinema (4.0 cr)
• FREN 3607 - Francophone Studies: Sex and Gender in Francophone Literature and Film (4.0 cr)

Elective Courses
Students must complete additional elective credits in French to reach 41 credits in the French major if beginning at 2001 at UMM, or 33 credits if beginning at 3002/3003/3004 at UMM. Of these credits, up to 4 credits may come from FREN 1031, FREN 1302, FREN 1303, FREN 1311, and up to another 4 credits may come from FREN 2012, FREN 2013 and FREN 2014.

Electives can be chosen from the cluster courses above (exclusive of those used to meet the required courses) or the following:

Electives - Advanced Language Studies (ASL)
These courses analyze the structure and usage of French language in detail and on an advanced level.
Take 0 - 12 credit(s) from the following:
• FREN 3112 - Advanced Language Studies: Introduction to French Phonetics (2.0 - 4.0 cr)
• FREN 3113 - Advanced Language Studies: Introduction to Translation (2.0 - 4.0 cr)
• FREN 3114 - Advanced Language Studies: Advanced French Grammar (2.0 - 4.0 cr)

Electives - MEMS/MOS/FRS
Take at most 4 credit(s) from the following:
• FREN 1031 - Modern Studies: The Modern Body in France [SS] (2.0 cr)
• FREN 1302 - French Cinema [IP] (4.0 cr)
• FREN 1303 - Paris as Text/Image/Sound [IP] (2.0 cr)
• FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4.0 cr)

Electives - Explorations
Take at most 4 credit(s) from the following:
• FREN 2012 - Business French (1.0 cr)
• FREN 2013 - Explorations in Grammar (1.0 cr)
• FREN 2014 - Explorations in Cultures (1.0 cr)
Program Type: Undergraduate minor related to major
Requirements for this program are current for Fall 2019
Required credits in this minor: 27

French is an important language of diplomacy, commerce, and health care and is used in research across the globe and in many disciplines, such as music, art, linguistics, history, law, political science, anthropology, biology, chemistry, mathematics, and philosophy. The French discipline gives students the language and analytic skills necessary to engage intellectually with these interconnected fields in French and to appreciate the cultures of France and Francophone countries throughout the world.

Program Student Learning Outcomes
The French curriculum is designed to ensure that students:
- Develop reading, writing, speaking and listening skills in French;
- Refine intercultural and problem-solving skills;
- Expand research and career opportunities in a global and interconnected world;
- Discover the traditions, literatures, arts, and histories of French-speaking peoples;
- Explore the contributions of French-speaking peoples to education, the humanities, social sciences and/or STEM fields;
- Engage in research in French;
- Prepare for a career serving French-speaking people in the United States and abroad in the sciences, commerce, diplomacy, economic development, healthcare, teaching or community outreach.

CERTIFICATE PROGRAM IN FRENCH
The certificate program in French responds to the growing demand for individuals who can communicate successfully in a global environment and is intended for students whose other academic commitments prevent them from completing either a major or minor in French. To earn a certificate, a student must: a) complete a minimum of 16 credits in French at UMM at the 2xxx and/or 3xxx level. All courses for the certificate must be taken on campus at UMM. Students are encouraged to study abroad, but the UMM French faculty need to assess the skills and progress of the student. Therefore, classes taken abroad (including July in Paris) do not count for the certificate. b) earn at least a B in each of the four courses (S-N grades will not be accepted for the certificate). No courses in English may count toward the French certificate program. Students who complete a major or minor in French are not eligible for the certificate program. A student who has met the above requirements may request a reference letter from the UMM French faculty certifying completion of the certificate program as well as language competence based on guidelines published by the American Council on the Teaching of Foreign Languages (ACTFL).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

Required prerequisites
Beginning French
Beginning French I and II or equivalent previous language experience required to take intermediate French.

Minor Requirements
Students are required to take 2 semester(s) of French.

At least 50 percent of French minor credits, including at least four upper division credits, must be completed on the Morris campus (14 or more credits). Morris courses, study abroad, or domestic transfer credit may comprise the remaining credits for the minor.

Students must procure prior approval from the French Discipline in order for transfer credit, including study abroad, to be applied to the French minor. Credits completed under the European Credit Transfer System will be converted to United States credits according to internationally recognized standards (i.e. 1 ECTS credit = .5 U.S. credit).

Required Courses
Elective Courses
Selection of electives must be done in consultation with a French faculty member. Electives should ensure that there is variety and depth in the minor. Take 16 or more credit(s) from the following:

- FREN 2xxx
- FREN 3xxx
Morris Campus
Gender, Women, and Sexuality Studies B.A.
Division of Social Sciences - Adm
Division of Social Sciences

• Program Type: Baccalaureate
• Requirements for this program are current for Fall 2019
• Required credits to graduate with this degree: 120
• Required credits within the major: 40
• Degree: Bachelor of Arts

This is an interdisciplinary program housed in the Division of Social Sciences. The program is administered by the Gender, Women, and Sexuality Studies (GWSS) coordinator who is a faculty member of any of the four divisions.

Gender and sexuality are urgent contemporary issues that impact the culture, politics, and economics of American and international societies. Because such issues affect nearly every professional field and avenue of inquiry, GWSS students engage critically with theoretical and practical models from across the disciplines.

Objectives and Program Learning Outcomes:
(1) Students will be able to apply concepts from the study of gender and sexuality across a diverse range of contexts.
(2) Students will be able to apply a broad range of interdisciplinary theories and perspectives to current events.
(3) Through diverse methodologies and critical paradigms, students will be able to analyze the impact of gender and sexuality in their own lives and in the world around them.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students interested in the major should meet with their advisor before the beginning of their junior year.

Students develop a coherent program of study in consultation with their advisor. In developing an elective plan, students are also strongly encouraged to consult with faculty who teach within the GWSS program.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Required Courses
GWSS 1101 - Introduction to Gender, Women, and Sexuality Studies [HDIV] (4.0 cr)
GWSS 2404 - Feminist, Queer, and Intersectional Theories [HDIV] (2.0 cr)
GWSS 4901 - Gender, Women, and Sexuality Studies Capstone (1.0 cr)

Elective Requirements
Students must fill the remaining 33 credits with courses from the following lists. These courses must come from at least three different disciplines. A course not listed below may be applied to the elective requirement with the consent of the instructor and GWSS coordinator. With the approval of the GWSS coordinator, up to 8 credits can be supplied by internship experiences.
Primarily Gender, Women, and Sexuality Content
The following courses are strongly recommended:
Engl 2031. Gender in Literature and Culture.
Phil 2141. Analytic Feminism.
Soc 3121. Sociology of Gender and Sexuality.
Take 25 or more credit(s) from the following:
- ANTH 2206 - Sex, Marriage, and Family [HDIV] (4.0 cr)
- ANTH 3604 - Gender and Sexuality in Latin America [IP] (4.0 cr)
- ARTH 3281 - Women and Art [FA] (4.0 cr)
- ENGL 2031 - Gender in Literature and Culture [HDIV] (4.0 cr)
- ENGL 3155 - 20th-Century British Fiction (4.0 cr)
- ENGL 3332 - African American Women Writers [HDIV] (4.0 cr)
- FREN 3607 - Francophone Studies: Sex and Gender in Francophone Literature and Film (4.0 cr)
- GWSS 2101 - American Masculinities: The Making of Guys, Dudes, Bros, and Men [SS] (2.0 cr)
- GWSS 2102 - Masculinities in the Margins: Intersectional and Marginalized Masculinities [SS] (2.0 cr)
- GWSS 3993 - Directed Study (1.0 - 5.0 cr)
- HIST 1402 - Gender, Women, and Sexuality in American History [HDIV] (4.0 cr)
- HIST 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4.0 cr)
- HIST 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4.0 cr)
- HIST 3021 - Gender and Sexuality in African History [E/CR] (4.0 cr)
- HIST 3304 - Race, Class, and Gender in American History [HDIV] (4.0 cr)
- MUS 3115 - Gender and Sexuality in Music [FA] (2.0 cr)
- PHIL 2141 - Analytic Feminism [HUM] (4.0 cr)
- POL 3303 - Gender, Sexuality, and Political Theory [SS] (2.0 cr)
- PSY 3051 - The Psychology of Women and Gender [HDIV] (4.0 cr)
- PSY 3261 - Human Sexuality (4.0 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)
- SOC 3252 - Women in Muslim Society [IP] (4.0 cr)
- SPAN 3654 - Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature [HUM] (4.0 cr)
- SPAN 3688 - Seminar: Literature and Gender in Nineteenth-Century Spain [HUM] (4.0 cr)
- SSA 2403 - Sport, Gender, and Sexuality [SS] (2.0 cr)

Partial Gender, Women, and Sexuality Content
Take at most 8 credit(s) from the following:
- ANTH 2501 - Medical Anthropology-An Overview [SS] (2.0 cr)
- ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4.0 cr)
- ANTH 3251 - Health and Human Ecology [ENVT] (2.0 cr)
- ARTS 3014 - Media Studies: Fabric as Form [ART/P] (2.0 - 4.0 cr)
- ECON 4101 - Labor Economics I [HDIV] (2.0 cr)
- ED 2221 - Diversity and Identity in Literature and Film [HDIV] (4.0 cr)
- ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HDIV] (4.0 cr)
- ENGL 3153 - Gothic Literature (4.0 cr)
- ENGL 3154 - 19th-Century British Fiction (4.0 cr)
- ENGL 3158 - Victorian Literature and Culture (4.0 cr)
- ENGL 3301 - U.S. Multicultural Literature [HDIV] (4.0 cr)
- ENGL 3311 - American Indian Literature [HDIV] (4.0 cr)
- ENGL 3411 - Critical Approaches to Literature (4.0 cr)
- ENGL 3444 - Holocaust Literature and Film [IP] (4.0 cr)
- ENGL 3522 - Harlem Renaissance [HDIV] (4.0 cr)
- ENGL 4027 - Research Seminar: Dickens and Criticism (4.0 cr)
- ENGL 4031 - Research Seminar: Renaissance Romance (4.0 cr)
- ENGL 4034 - Research Seminar: The Adventure Novel in American and British Literature (4.0 cr)
- FREN 1031 - Modern Studies: The Modern Body in France [SS] (2.0 cr)
- FREN 1302 - French Cinema [IP] (4.0 cr)
- FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4.0 cr)
- FREN 3402 - Medieval and Early Modern Studies: Pre-Enlightenment Culture in France (2.0 - 4.0 cr)
- FREN 3406 - Medieval and Early Modern Studies: Emotional Extremes in Medieval and Early Modern Literature (4.0 cr)
- FREN 3407 - Medieval and Early Modern Studies: The "East" and its Marvels (2.0 - 4.0 cr)
- FREN 3408 - Medieval and Early Modern Studies: Quests, Quails, and Custards--Food in Life and Literature (2.0 - 4.0 cr)
- FREN 3603 - Francophone Studies: Witches, Wilderness, and Words in Francophone Folktales (4.0 cr)
- FREN 3605 - Francophone Studies: Maghrebian Cinema (4.0 cr)
- HIST 2103 - Medieval Europe [HIST] (4.0 cr)
- HIST 2132 - History of Fairy Tales and Folklore in Europe [HIST] (4.0 cr)

Geology offers courses that satisfy a variety of requirements, as well as a curriculum leading to a bachelor of arts degree in geology.

Objectives  The mission of the geology discipline is provide a firm foundation in the geological and cognate sciences for students interested in the investigation and solution of geologic problems; to prepare students for graduate study in the geosciences; to provide the necessary background in earth science for those who plan to teach in this field at the secondary level; and to serve those in other professional or interdisciplinary programs who need a basic understanding of the geosciences.

The geology curriculum serves the liberal arts by offering courses that allow students to gain a better appreciation of the natural environment; increase their awareness of the impact of dynamic geological events and processes on society; help them recognize the importance of Earth resources, and introduce them to the methodologies and reasoning used in the sciences.

The geology curriculum is designed to provide students with a understanding of the evolution of the Earth as a planetary body and the fundamental geologic principles used to reconstruct Earth history; how to recognize geologic features and Earth materials, and to infer the processes responsible for their formation; and provide the requisite skill set to solve geologic problems. The curriculum seeks to help students hone their observation skills in order to interpret geology in a natural setting, emphasizing the integration of knowledge acquired in the classroom. The curriculum stresses familiarization with current geologic literature, and encourages critical thinking in both approaching research problems and evaluating the literature. The geology program encourages students to pursue independent research projects and has an outstanding track record of student involvement in research. The curriculum is also designed to help students develop and enhance their oral and written communication skills. The curriculum prepares students to enter graduate school and/or find careers as professional geologists.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Up to 8 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N unless offered S-N only. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
GEOL 1101 - Physical Geology [SCI-L] (4.0 cr)
GEOL 2101 - Mineralogy and Crystallography [SCI-L] (4.0 cr)
GEOL 2111 - Igneous and Metamorphic Petrology [SCI-L] (4.0 cr)
GEOL 2121 - Sedimentology and Stratigraphy [SCI-L] (4.0 cr)
GEOL 3101 - Structural Geology [SCI-L] (4.0 cr)
GEOL 4901 - Geology Senior Seminar (1.0 cr)
GEOL 4902 - Geology Senior Seminar Presentations (1.0 cr)
MATH 1021 - Survey of Calculus [M/SR] (4.0 cr)
or MATH 1101 - Calculus I [M/SR] (5.0 cr)
Completion of approved Geology Field Camp (6 cr)

Elective Courses
Take 10 or more credit(s) from the following:
- GEOL 2131 - Geomorphology [SCI] (4.0 cr)
- GEOL 2141 - Glacial and Quaternary Geology [SCI] (4.0 cr)
- GEOL 2161 - GIS and Remote Sensing [SCI] (4.0 cr)
- GEOL 3001 - Global Tectonics [SCI] (4.0 cr)
- GEOL 3011 - Earth Resources [ENVT] (4.0 cr)
- GEOL 3111 - Introduction to Paleontology [SCI-L] (4.0 cr)
- GEOL 3401 - Geophysics [SCI] (4.0 cr)
- GEOL 3501 - Hydrology [SCI] (4.0 cr)
- GEOL 3601 - Introduction to Geochimistry [SCI] (4.0 cr)
- GEOL 4130 - Advanced Geomorphology (4.0 cr)
- GEOL 4140 - Advanced Glacial and Quaternary Geology (4.0 cr)
- GEOL 3993 - Directed Study (1.0 - 5.0 cr)
or GEOL 4993 - Directed Study (1.0 - 5.0 cr)

Recommended for graduate studies:
- GEOL 2151 - Historical Geology: Earth History and Changing Scientific Perspectives [SCI-L] (4.0 cr)

Additional Electives
Courses must be chosen in consultation with a geology adviser.
Take 7 or more credit(s) from the following:
- BIOL 1xxx
- BIOL 2xxx
- BIOL 3xxx
- BIOL 4xxx

Geology Minor
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 38

Objectives--The geology curriculum serves those interested in broadening their knowledge of the natural environment and the geological sciences as part of their liberal arts education. It provides a firm foundation in geology, related sciences, and mathematics for students interested in the investigation and solution of geologic problems, provides background in earth science for those who plan to teach in this field at the secondary level, and serves those in other professional or interdisciplinary programs who need geology as a related subject.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Up to 8 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits earning a grade of A or B. Courses may not be taken S-N, unless offered S-N only. The GPA in these courses must be at least 2.00.

Minor Required Courses
- GEOL 1101 - Physical Geology [SCI-L] (4.0 cr)
- GEOL 2101 - Mineralogy and Crystallography [SCI-L] (4.0 cr)
- GEOL 2111 - Igneous and Metamorphic Petrology [SCI-L] (4.0 cr)
- GEOL 2121 - Sedimentology and Stratigraphy [SCI-L] (4.0 cr)
- CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
- CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
Choose one course from the following
- GEOL 3101 - Structural Geology [SCI-L] (4.0 cr)
- or GEOL 3111 - Introduction to Paleontology [SCI-L] (4.0 cr)
- or GEOL 3501 - Hydrology [SCI] (4.0 cr)

Elective Courses
Take 4 or more credit(s) from the following:
- GEOL 2131 - Geomorphology [SCI] (4.0 cr)
- GEOL 2141 - Glacial and Quaternary Geology [SCI] (4.0 cr)
- GEOL 2151 - Historical Geology: Earth History and Changing Scientific Perspectives [SCI-L] (4.0 cr)
- GEOL 2161 - GIS and Remote Sensing [SCI] (4.0 cr)
- GEOL 3001 - Global Tectonics [SCI] (4.0 cr)
- GEOL 3101 - Structural Geology [SCI-L] (4.0 cr)
- GEOL 3111 - Introduction to Paleontology [SCI-L] (4.0 cr)
- GEOL 3401 - Geophysics [SCI] (4.0 cr)
- GEOL 3501 - Hydrology [SCI] (4.0 cr)
- GEOL 3601 - Introduction to Geochemistry [SCI] (4.0 cr)
- GEOL 4130 - Advanced Geomorphology (4.0 cr)
- GEOL 4140 - Advanced Glacial and Quaternary Geology (4.0 cr)
Take at most 3 credit(s) from the following:
- GEOL 1993 - Directed Study (1.0 - 5.0 cr)
- GEOL 2993 - Directed Study (1.0 - 5.0 cr)
- GEOL 3993 - Directed Study (1.0 - 5.0 cr)
- GEOL 4993 - Directed Study (1.0 - 5.0 cr)

German Studies B.A.
Division of Humanities - Adm

**Division of Humanities**

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 40
- Degree: Bachelor of Arts

This is an interdisciplinary program housed in the Division of the Humanities. The program is administered by the German studies coordinator and the chair of the Division of the Humanities.

The German studies curriculum includes the language, literature, film, linguistics, history, and culture of German-speaking countries and Germanic languages. The courses are designed to enhance students' understanding of their own language and culture through introduction to another. Our courses expand students' ability to think by giving them a new tool with which to do so. The courses are carefully sequenced to incrementally increase student aptitude in the one skill upon which everything else they could possibly do or study relies: language. Expansion of thought in any field of study requires the acquisition of new language. Learning the German language provides students with direct access to the world's fourth largest economy as well as the sister economies of the other German-speaking countries (Germany, Austria, Switzerland). Additionally students gain intimate knowledge of a linguistic tradition and culture that has produced innovation in almost every field of study pursued on campus, thereby benefiting students regardless of their main area of concentration.

Program Student Learning Outcomes - Learning an entirely new linguistic idiom increases one's ability to think, and neurological studies have shown that it actually grows brain cells. Our primary goal is to enable students to become culturally competent. We have constructed the curriculum to increase students' confidence and social skills by capitalizing on their innate and extant ability to use language and by demonstrating to them that they can acquire another language, while also providing an understanding of language itself that will enable them to acquire further languages. The intellectual and practical skills enable students to gain a deeper understanding of the roles of individuals in society, as well as building upon their capacity for integrative learning. Our program aims to provide students with opportunities that will enable them to directly apply newly acquired linguistic abilities, cultural knowledge, and social skills in their chosen area of study through study abroad, internships, and professional exchanges.

Study Abroad
In light of today's increasingly interdependent world, the German faculty strongly encourages study abroad in combination with a German Studies major or minor, as a most effective means by which to:

- Improve language abilities
- Broaden academic horizons
- Globalize one's world view
- Expand career opportunities

Study in Austria and Germany - The University has direct exchange with Potsdam University and is affiliated with exchange programs in Berlin and Freiburg for both one- and two-semester stays. There are also possibilities for study at many other German, Austrian, and Swiss universities. Language prerequisites vary for each program. Through the Academic Center for Enrichment, students may explore further opportunities.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the [Office of Admissions website](http://www.registrar.umn.edu/admissions).

General Requirements
All students are required to complete general University and college requirements. For more information, see the [general education requirements](http://www.umn.edu/registrar/credit).
Program Requirements

Students are required to take 2 semester(s) of German.

Elective plans must be designed to ensure that there is sufficient depth of coverage in the chosen German studies electives. For many students, a double-major (or minor) in a closely related disciplinary major is desirable. For some majors, electives can be selected in such a way that many of the courses in a coherent German studies elective plan also count toward the second major. An advising sheet for recommended course combinations and areas of focus will be available to students and faculty involved.

In addition to the requirements for the major, students are encouraged to complete at least one year of instruction in another foreign language.

No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses

- GER 2001 - Intermediate German I [IP] (4.0 cr)
- GER 2002 - Intermediate German II [IP] (4.0 cr)
- GER 3001 - Advanced German Grammar Capstone [IP] (4.0 cr)
- GER 3101 - Introduction to German Literature and Culture I [HUM] (4.0 cr)
  or GER 3102 - Introduction to German Literature and Culture II [HUM] (4.0 cr)
- GER 4001 - German Civilization I: From the Stone Age to 1871 [HIST] (4.0 cr)
  or GER 4002 - German Civilization II: From 1871 to the Present [HIST] (4.0 cr)
  or GER 4101 - History of the German Language [HIST] (4.0 cr)

Selection of Elective Courses

Other elective courses, not listed below, may be appropriate to add depth and provide more theoretical context for the German studies coursework (requires written approval of the course instructor and the program coordinator).

All or most elective credits should be from upper division (3xxx or 4xxx) courses.

Elective Courses

Courses listed under the "German and Partial German Electives" heading that are outside of the German discipline (e.g., HIST 3209) require written approval of the course instructor and the program coordinator prior to registration.

Take 20 or more credit(s) from the following:

**German and Partial German Electives**

Exclusive of those used for required courses.

Take 12 or more credit(s) from the following:

- ARTH 3274 - Modern Art in Germany [FA] (4.0 cr)
- ENGL 3444 - Holocaust Literature and Film [IP] (4.0 cr)
- GER 3043 - Thinking Economy and Desire: Introduction to Critical Theory [HUM] (4.0 cr)
- GER 3101 - Introduction to German Literature and Culture I [HUM] (4.0 cr)
- GER 3102 - Introduction to German Literature and Culture II [HUM] (4.0 cr)
- GER 4001 - German Civilization I: From the Stone Age to 1871 [HIST] (4.0 cr)
  or GER 4002 - German Civilization II: From 1871 to the Present [HIST] (4.0 cr)
  or GER 4101 - History of the German Language [HIST] (4.0 cr)
- HIST 3204 - Nazi Germany [HIST] (4.0 cr)
- HUM 3043 - Thinking Economy and Desire: Introduction to Critical Theory [HUM] (4.0 cr)

**German-related Content Electives**

Take at most 4 credit(s) from the following:

- ENGL 4004 - Research Seminar: Old English Literature and Language (4.0 cr)
- HIST 2132 - History of Fairy Tales and Folklore in Europe [HIST] (4.0 cr)
- HIST 2151 - Modern Europe [HIST] (4.0 cr)
- HIST 3101 - Renaissance and Reformation [HIST] (4.0 cr)
- PHIL 4002 - Existentialism [HIST] (4.0 cr)

**Supplemental Electives**

Take at most 4 credit(s) from the following:

- ARTH 3132 - Castles and Cathedrals [FA] (4.0 cr)
- ARTH 3201 - Nineteenth-Century Art [FA] (4.0 cr)
- ARTH 3211 - Modern Art from Impressionism to Surrealism [FA] (4.0 cr)
- ENGL 3021 - Grammar and Language [HUM] (4.0 cr)
- ENGL 3411 - Critical Approaches to Literature (4.0 cr)
- HIST 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4.0 cr)
- HIST 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4.0 cr)
HIST 3161 - The Enlightenment [HIST] (4.0 cr)

History B.A.
Division of Social Sciences - Adm

Requirements for this program are current for Fall 2019

- Program Type: Baccalaureate
- Required credits to graduate with this degree: 120
- Required credits within the major: 40
- Degree: Bachelor of Arts

Objectives-The history curriculum is designed to introduce students to the study of the human past in a broad range of contexts across place and time. Emphasizing the role of the student as an active learner, the curriculum encourages individualized learning experiences, including those outside of established coursework, and the development of close working relationships between students and faculty.

Student Learning Outcomes:
1. Students are introduced to the study of the human past across a diverse range of contexts.
2. Students learn to think critically through analysis of a variety of primary and secondary source materials.
3. Students learn to communicate their ideas effectively in writing and through oral presentation.
4. Students are exposed to the ethical frameworks within which historians pursue their work, both individually and collectively.
5. Students understand the construction of historical knowledge and gain exposure to a broad range of approaches used by historians.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students should develop a coherent program of study in consultation with their major advisor. The student and advisor must meet to plan the student's course of study and ensure the major encompasses breadth across regions and time periods. The student's plan must involve at least one course prior to 1750, and at least one course each from three of the following areas: Asia, Europe, Middle East/Africa, Latin America, Native America/Indigenous, and United States.

When the student applies for graduation, the advisor reviews the student's course of study to document that the student has successfully demonstrated breadth across regions and time periods in the major.

Prior to the end of the second week of the student's last semester before graduation, the student completes an anonymous online assessment of how well the program of study has enhanced the student's:

- Familiarity with range of historical periods and cultures sufficiently broad to allow meaningful exploration of the human experience in varied times and places;
- Ability to critically analyze, interpret, and synthesize various types of historical materials;
- Insight into the construction of historical knowledge as reflective of personal and social contexts; and
- Ability to initiate and pursue a course of historical inquiry.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.
A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses**

Students must take at least two 3000-level courses prior to enrolling in the Hist 3181 (excluding directed studies).

- **HIST 1111** - Introduction to World History [HIST] (4.0 cr)
- **HIST 3181** - The Study of History [HIST] (4.0 cr)
- **HIST 4501** - Senior Research Seminar in History (4.0 cr)

**Electives**

Students must complete 28 credits choosing at least one course prior to 1750, and at least one course each from three of the following areas: Asia, Europe, Middle East/Africa, Latin America, Native America/Indigenous, and United States. Directed Studies (X993) may be used in any of the areas if content is appropriate and approved by their major advisor.

**Take 28 or more credit(s) from the following:**

- **History Prior to 1750**
  - Take 4 or more credit(s) from the following:
    - **HIST 1112** - Introduction to African History to 1880 [HIST] (4.0 cr)
    - **HIST 1501** - Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4.0 cr)
    - **HIST 1601** - Latin American History: A Basic Introduction [IP] (4.0 cr)
    - **HIST 2103** - Medieval Europe [HIST] (4.0 cr)
    - **HIST 2108** - Ancient Greek and Roman History [HIST] (4.0 cr)
    - **HIST 2609** - History of Brazil: From Sugar to Sugar Cars [HIST] (4.0 cr)
    - **HIST 2704** - Gender, Women, and Sexuality in Medieval Europe [SS] (4.0 cr)
    - **HIST 3008** - The Making of the Islamic World [HDIV] (4.0 cr)
    - **HIST 3021** - Gender and Sexuality in African History [E/CR] (4.0 cr)
    - **HIST 3101** - Renaissance and Reformation [HIST] (4.0 cr)
    - **HIST 3207** - The Crusades [IP] (4.0 cr)
    - **HIST 3614** - Race and Ethnicity in Latin America [HDIV] (4.0 cr)

- **Geographical Areas**
  - Take 24 or more credit(s) including 3 or more sub-requirement(s) from the following:
    - **Asia**
      - **HIST 1501** - Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4.0 cr)
      - **HIST 2551** - Modern Japan [HIST] (4.0 cr)
      - **HIST 2552** - History of Modern China [HIST] (4.0 cr)
      - **HIST 2557** - History of Southeast Asia [HIST] (4.0 cr)
      - **HIST 3557** - East Asia Since 1800 [IP] (4.0 cr)
    - **Europe**
      - **HIST 2103** - Medieval Europe [HIST] (4.0 cr)
      - **HIST 2108** - Ancient Greek and Roman History [HIST] (4.0 cr)
      - **HIST 2132** - History of Fairy Tales and Folklore in Europe [HIST] (4.0 cr)
      - **HIST 2151** - Modern Europe [HIST] (4.0 cr)
      - **HIST 2704** - Gender, Women, and Sexuality in Medieval Europe [SS] (4.0 cr)
      - **HIST 2708** - Gender, Women, and Sexuality in Modern Europe [IP] (4.0 cr)
      - **HIST 3101** - Renaissance and Reformation [HIST] (4.0 cr)
      - **HIST 3161** - The Enlightenment [HIST] (4.0 cr)

History Minor
Division of Social Sciences - Adm
Division of Social Sciences

Program Type: Undergraduate minor related to major
• Requirements for this program are current for Fall 2019
• Required credits in this minor: 20

Objectives—The history curriculum is designed to introduce students to the study of the human past. Students minoring in history learn to approach decision-making with an awareness of a broad range of choices; learn to think critically and communicate their ideas effectively; learn to integrate their academic study with their intellectual and ethical development; and understand the construction of historical knowledge. The curriculum emphasizes the role of the student as an active learner and encourages individualized learning experiences, including those outside of established coursework, and the development of close working relationships between students and faculty.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Minor Requirements
No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
• HIST 1111 - Introduction to World History [HIST] (4.0 cr)

Electives
An additional 16 credits in history of which 12 credits are at 2xxx or above. There should be evidence of work in at least three (3) of the following areas: Asia, Europe, Middle East/Africa, Latin America, Native America/Indigenous, and United States. Directed Studies (X993) may be used in any of the areas if content is appropriate and approved by their major advisor.

Take 16 or more credit(s) including 3 or more sub-requirements(s) from the following:

Geographical Areas - 1xxx
Take at most 4 credit(s) from the following:
• Asia
  • HIST 1501 - Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4.0 cr)
• Latin America
  • HIST 1601 - Latin American History: A Basic Introduction [IP] (4.0 cr)
• United States
  • HIST 1301 - Introduction to U.S. History [HIST] (4.0 cr)
  • HIST 1402 - Gender, Women, and Sexuality in American History [HDIV] (4.0 cr)
• Middle East/Africa
  • HIST 1112 - Introduction to African History to 1880 [HIST] (4.0 cr)
  • HIST 1113 - Introduction to African History since 1880 [HIST] (4.0 cr)

Geographical Areas - 2xxx or above
Take 12 or more credit(s) from the following:
• Asia
  • HIST 2551 - Modern Japan [HIST] (4.0 cr)
  • HIST 2552 - History of Modern China [HIST] (4.0 cr)
  • HIST 2557 - History of Southeast Asia [HIST] (4.0 cr)
  • HIST 3557 - East Asia Since 1800 [IP] (4.0 cr)
• Europe
  • HIST 2103 - Medieval Europe [HIST] (4.0 cr)
  • HIST 2108 - Ancient Greek and Roman History [HIST] (4.0 cr)
  • HIST 2132 - History of Fairy Tales and Folklore in Europe [HIST] (4.0 cr)
  • HIST 2151 - Modern Europe [HIST] (4.0 cr)
  • HIST 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4.0 cr)
or HIST 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4.0 cr)
or HIST 3101 - Renaissance and Reformation [HIST] (4.0 cr)
or HIST 3161 - The Enlightenment [HIST] (4.0 cr)
or HIST 3204 - Nazi Germany [HIST] (4.0 cr)

Honors Program

Program Type: Other

Requirements for this program are current for Fall 2019

Required credits to graduate with this degree: 12

This program is 8 terms (4 years) long.

The Honors Program offers UMM students an opportunity to pursue an intentional interdisciplinary and interdivisional curriculum and work toward graduation with honors.

Honors courses, limited to a class size of 15, are interdisciplinary in nature and often team-taught by faculty from different UMM academic divisions, and concern subjects of special interest to the faculty members who design them. All UMM students are eligible to apply to the Honors Program. Admitted students usually take the required core course, IS 2001H-Traditions in Human Thought, in the fall of their second year. Honors students then complete at least 8 credits of interdisciplinary honors course electives and a 2-credit honors capstone project; the capstone is a substantial scholarly or creative interdisciplinary work designed by each student working cooperatively with an interdisciplinary panel of three faculty and includes a culminating project defense.

Learning Outcomes

1. Connections among disciplines. Students demonstrate an understanding of interdisciplinary inquiry and a recognition of its centrality in the liberal arts setting in general and the Honors Program in particular.
2. Engagement with big questions, both contemporary and enduring. Students are active members of intellectual communities within and beyond Honors classes.

Further information about the Honors Program may be obtained from the Academic Center for Enrichment (ACE) office at www.morris.umn.edu/ACE.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

Students normally apply to the program in the spring semester of their freshman year and begin coursework sophomore year. While everyone may apply, the following may be used to limit the number of students accepted, focusing on those with the proven motivation and ability to likely succeed in the program: academic success in the fall semester, faculty recommendations, and a short essay.

Applications are available at the Academic Center for Enrichment, 5 Student Center.

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements

All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements

Honors capstone project: It is the responsibility of the student to secure a project advisor for the honors capstone project, identify two other faculty for the panel in consultation with the project advisor, and register for at least 2 credits of IS 4994H - Honors Capstone Project. Students should submit the completed project to the Honors Program director and panel members by April 1, and arrange for the defense.

To qualify for a degree with honors, a student must have completed 60 or more semester credits at the University.

No grades below a C- are allowed. Courses applied to the honors program may not be taken S-N unless offered S-N only.

A minimum GPA of 3.50 in all University of Minnesota, Morris courses is required. Grades of “F” are included in GPA calculation until
they are replaced.

**Required Courses**
IS 2001H is usually completed in fall of the sophomore year.
IS 2001H - Honors: Traditions in Human Thought [HUM] (2.0 cr)
IS 4994H - Honors Capstone Project (2.0 cr)

**Elective Courses**
Any fully-approved IS 3xxxH course may be used to fulfill the 8 credit elective requirement.

Two of the eight elective credits may also be completed by writing an interdisciplinary paper related to co-curricular engagement, such as an internship or study abroad experience. Students complete an Honors Co-Curricular Independent Study form and register for IS 3991H. These projects are subject to assessment by a committee of faculty members.

Take 8 or more credit(s) from the following:
- IS 3111H - Honors: The End of the World as We've Known It: The Apocalypse Then and Now [SS] (2.0 cr)
- IS 3203H - Honors: A Cross-Section of the Enlightenment [HIST] (2.0 cr)
- IS 3204H - Honors: Ecological Health and the Sustainability of Common-Property Resources [ENVT] (2.0 cr)
- IS 3206H - Honors: Introduction to Game Theory [M/SR] (2.0 cr)
- IS 3209H - Honors: Apocalypse Now? The Science and Policy of Preparing for a Catastrophe [ENVT] (2.0 cr)
- IS 3211H - Honors: Republic or Empire? The American 1890s [HIST] (2.0 cr)
- IS 3212H - Honors: Global Encounters and the Making of the Contemporary World, 1450 to the Present [HDIV] (2.0 - 4.0 cr)
- IS 3214H - Honors: Evolution and Culture of Human Aggression [HUM] (2.0 cr)
- IS 3215H - Honors: Sagas before the Fall: Culture, Climate, and Collapse in Medieval Iceland [ENVT] (2.0 cr)
- IS 3216H - Honors: Perspectives on Disability in Contemporary American Life [HDIV] (2.0 cr)
- IS 3217H - Honors: The Trial of Galileo [HIST] (2.0 cr)
- IS 3234H - Honors: Intersections of Art and Science [FA] (2.0 cr)
- IS 3237H - Honors: The Power of Place: An Interdisciplinary Approach to Where We Live [ENVT] (2.0 cr)
- IS 3238H - Honors: In Search of Nietzsche [IP] (4.0 cr)
- IS 3239H - Honors: The Anatomy of Development and the "Common Good": Sardar Sarovar Dam in Gurjurat, India [SS] (2.0 cr)
- IS 3240H - Honors: Proud Decade or Dark Age? The American 1950s [HIST] (2.0 cr)
- IS 3241H - Honors: Worldviews [SCI] (4.0 cr)
- IS 3242H - Honors: Two Cosmological Poets: Dante and Lucretius [IP] (2.0 cr)
- IS 3244H - Honors: Fascism, the Resistance, and Their Legacy in Contemporary Italy [IP] (2.0 cr)
- IS 3245H - Honors: Archaeology Mythbusting [SS] (2.0 cr)
- IS 3246H - Honors: Science, Poetry, and the Great War [SCI] (4.0 cr)
- IS 3247H - Honors: Heroes of Ancient Greece and Rome [HUM] (2.0 cr)
- IS 3248H - Honors: Art and History of the Crusades [FA] (2.0 cr)
- IS 3249H - Honors: Literature Through Opera [FA] (2.0 cr)
- IS 3250H - Honors: Moral Sentimentalism [HUM] (4.0 cr)
- IS 3251H - Honors: Chariots and Gladiators: Ancient Greek and Roman Athletics [HIST] (2.0 cr)
- IS 3252H - Honors: Archaeoastronomy [SCI] (2.0 cr)
- IS 3256H - Honors: White City, White Countryside: An Economic and Environmental Geography of the Upper Midwest (2.0 cr)
- IS 3991H - Honors Co-Curricular Independent Study (1.0 - 2.0 cr)
Morris Campus

Human Services B.A.
Division of Social Sciences - Adm
Division of Social Sciences

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 54
- Degree: Bachelor of Arts

The human services major provides students with an understanding of the individual, the family, the community, institutions, and the systems that are set up to serve these individuals and groups. Students will learn how individuals are in constant interaction with their environments, communities, and institutions. They also will learn how socioeconomic and political environments influence individuals, families, and communities. Human service workers carry out many different roles, from case management and intervention to program administration and development. Students in human services build professional experience for their resumes through our applied service-learning classes and/or capstone internship.

Student Learning Outcomes:
Understanding of the history and structure of human services systems
Knowledge of human development, family functioning, community dynamics, and political systems
Basic skills in intervention with some or all of the following: individuals, families, groups, organizations
Research and information literacy for effective delivery of services
Knowledge of ethics, values, and policies guiding human services practice
Information and technological literacy through exposure to statistical packages
Ability to utilize databases related to human services
Exposure to the domains that inform the field of human services

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students choose one of the HMSV sub-plans generally no later than the spring semester of their sophomore year. Students may complete more than one sub-plan, however, each elective may only be used to satisfy the requirements of one sub-plan. Students should choose an advisor with a background or specialties related to the human services area (e.g., anthropology, political science, psychology, sociology).

Students should discuss the arrangement of their internship with the HMSV internship coordinator during their junior year.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Courses and directed studies not listed below may be considered for addition to the HMSV major, provided the subject matter is appropriate for the program of study. Contact HMSV coordinator.
Students should complete Psy 4102 during the semester before their internship (HMSV 4896).

Students may complete more than one sub-plan, however, one 4 credit internship may only be used to satisfy the Human Services Internship requirement of one sub-plan.

**Introduction to Anthropology or Sociology**
- ANTH 1111 - Introductory Cultural Anthropology [SS] (4.0 cr)
- or SOC 1101 - Introductory Sociology [SS] (4.0 cr)

**Introduction to Psychology**
- PSY 1051 - Introduction to Psychology [SS] (4.0 cr)

**Political Science**
- POL 1201 - American Government and Politics [E/CR] (4.0 cr)

**Theory and Practice of Human Services**
- HMSV 3001 - Theory and Practice of Human Services [SS] (4.0 cr)

**Research Methods**
- PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
- or SOC 3103 - Research Methodology in Sociology (4.0 cr)

**Statistics**
- STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
- or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

**Professional Ethics**
- PSY 4102 - Intro to Prof Conduct, Legal Constraints, Ethics in Human Services [E/CR] (2.0 cr)

**Human Services Internship**
- HMSV 4896 - Internship in the Human Services (1.0 - 4.0 cr)

**Program Sub-plans**
Students are required to complete one of the following sub-plans.

**General**
The general human services sub-plan provides students with an understanding of the individual, the family, the community, institutions, and the systems that are set up to serve these individuals and groups. Students will learn how individuals are in constant interaction with their environments, communities, and institutions. They also will learn how socioeconomic and political environments influence individuals, families, and communities. Human service workers carry out many different roles, from case management and intervention to program administration and development. Students in human services build professional experience for their resumes through our applied service-learning classes and/or capstone internship.

At least 16 elective credits need to be at the 3xxx or 4xxx level.

**Psychology Electives**
Take 8 or more credit(s) from the following:
- PSY 2402 - Family Interaction Dynamics [SS] (4.0 cr)
- PSY 2581 - Drugs and Human Behavior [SS] (2.0 cr)
- PSY 3051 - The Psychology of Women and Gender [HDIV] (4.0 cr)
- PSY 3101 - Learning Theory and Behavior Modification (4.0 cr)
- PSY 3313 - Psychopathology (4.0 cr)
- PSY 3314 - Child and Adolescent Psychopathology (4.0 cr)
- PSY 3404 - Culture and Human Development [HDIV] (4.0 cr)
- PSY 3501 - Social Psychology (4.0 cr)
- PSY 3504 - Educational Psychology (4.0 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)
- PSY 3581 - Psychopharmacology (2.0 cr)
- PSY 4101 - Helping Relationships (4.0 cr)

**Sociology and Anthropology Electives**
Take 8 or more credit(s) from the following:
- ANTH 2202 - Men and Masculinities [SS] (4.0 cr)
- ANTH 3502 - Latinos in the Midwest [SS] (4.0 cr)
Additional Electives

Additional elective credits to total at least 24 elective credits. Electives may be selected from any elective category above and the following (exclusive of the course used to fulfill the Research Methods requirement):

Take 0 - 8 credit(s) from the following:

• BIOL 2102 - Human Anatomy (4.0 cr)
• ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
• ECON 1112 - Principles of Macroeconomics [SS] (4.0 cr)
• ENST 2101 - Environmental Biology [SCI-L] (4.0 cr)
• MGMT 3701 - Organizational Behavior [SS] (4.0 cr)
• POL 2261 - States: Laboratories of American Democracy [E/CR] (2.0 cr)
• POL 3475 - International Human Rights (4.0 cr)
• PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
• PSY 2411 - Lifespan Developmental Psychology [SS] (4.0 cr)
• PSY 3701 - Organizational Behavior [SS] (4.0 cr)
• SOC 3103 - Research Methodology in Sociology (4.0 cr)
• SOC 3131 - World Population [ENVT] (4.0 cr)
• SSA 2102 - Human Anatomy (4.0 cr)

Criminal Justice

The criminal justice human services sub plan provides students with knowledge of the criminal justice system, theories of criminal behavior, law, administration, and policy. Students will also learn about the reciprocal relationship between sociocultural contexts and the criminal justice system. This knowledge will prepare students interested in pursuing careers related to the criminal justice system. Students in human services build professional experience for their resumes through our applied service-learning classes and/or capstone internship.

At least 16 elective credits need to be at the 3xxx or 4xxx level.

Required Course

POL 1202 - Law and Society: Introduction to Public Law [SS] (4.0 cr)

Required Electives

Take 12 or more credit(s) from the following:

• ANTH 3701 - Forensic Anthropology [SCI-L] (4.0 cr)
• CMR 1062 - Introduction to Interpersonal and Group Communication [HUM] (4.0 cr)
• POL 3231 - Constitutional Law: Civil Liberties and Civil Rights [HDIV] (4.0 cr)
• POL 3232 - Constitutional Law: Governmental Powers and Constraints [SS] (4.0 cr)
• PSY 3501 - Social Psychology (4.0 cr)
• SOC 3124 - Sociology of Law (4.0 cr)
• SOC 3141 - Sociology of Deviance [E/CR] (4.0 cr)

Additional Electives

Additional elective credits to total at least 20 elective credits. Electives may be selected from the elective category above and the following (exclusive of the course used to fulfill the Research Methods requirement):

Take 0 - 8 credit(s) from the following:

• ANTH 1201 - Becoming Human: Introduction to Biological Anthropology [SCI-L] (5.0 cr)
• MGMT 2101 - Principles of Accounting I (4.0 cr)
• MGMT 2102 - Principles of Accounting II (2.0 cr)
• PHIL 3131 - Philosophy of Law [SS] (4.0 cr)
• POL 2234 - Race, Class and Power: Social Movements in U.S. Politics [HDIV] (2.0 cr)
• POL 2235 - Race, Class and Power: Interest Groups in U.S. Politics [HDIV] (2.0 cr)
• POL 3411 - International Law [IP] (4.0 cr)
• POL 3475 - International Human Rights (4.0 cr)
• PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
• PSY 2581 - Drugs and Human Behavior [SS] (2.0 cr)
• PSY 3112 - Cognition (4.0 cr)
• PSY 3302 - Personality (4.0 cr)
• PSY 3313 - Psychopathology (4.0 cr)
• PSY 3314 - Child and Adolescent Psychopathology (4.0 cr)
• PSY 3501 - Social Psychology (4.0 cr)
• PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)
• PSY 3581 - Psychopharmacology (2.0 cr)
Human Development
The human development human services sub plan provides students with an understanding of psychological, social, and biological development and facilitates understanding of sociocultural contexts that influence development. The focus is on normative development, individual variations of development and abnormal development. This knowledge will prepare students interested in providing services to children and older adults. Students in human services build professional experience for their resumes through our applied service-learning classes and/or capstone internship.

At least 16 elective credits need to be at the 3xxx or 4xxx level.

Required Electives
Take 16 or more credit(s) from the following:
- HIST 3214 - History of Childhood [HIST] (4.0 cr)
- HIST 3465 - History of the American Family [HIST] (4.0 cr)
- PSY 2411 - Lifespan Developmental Psychology [SS] (4.0 cr)
- PSY 3404 - Culture and Human Development [HDIV] (4.0 cr)
- PSY 3504 - Educational Psychology (4.0 cr)
- PSY 4101 - Helping Relationships (4.0 cr)
- SOC 3122 - Sociology of Childhoods [HDIV] (4.0 cr)
- SOC 3123 - Sociology of Aging [HDIV] (4.0 cr)

Additional Electives
Additional elective credits to total at least 24 elective credits. Electives may be selected from the elective category above and the following (exclusive of the course used to fulfill the Research Methods requirement):
Take 0 - 8 credit(s) from the following:
- ANTH 1201 - Becoming Human: Introduction to Biological Anthropology [SCI-L] (5.0 cr)
- ANTH 2204 - Anthropology of Education: Learning and Schooling in Ethnographic Perspective [SS] (4.0 cr)
- ANTH 2206 - Sex, Marriage, and Family [HDIV] (4.0 cr)
- ANTH 3604 - Gender and Sexuality in Latin America [IP] (4.0 cr)
- BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3.0 cr)
- BIOL 2102 - Human Anatomy (4.0 cr)
- ED 2111 - Tutor-Aide Practicum (1.0 cr)
- ED 2121 - Introduction to Education [SS] (4.0 cr)
- ED 2131 - Foundations of Reading (2.0 cr)
- ENST 2101 - Environmental Biology [SCI-L] (4.0 cr)
- POL 2234 - Race, Class and Power: Social Movements in U.S. Politics [HDIV] (2.0 cr)
- POL 2235 - Race, Class and Power: Interest Groups in U.S. Politics [HDIV] (2.0 cr)
- PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
- PSY 2402 - Family Interaction Dynamics [SS] (4.0 cr)
- PSY 3051 - The Psychology of Women and Gender [HDIV] (4.0 cr)
- PSY 3101 - Learning Theory and Behavior Modification (4.0 cr)
- PSY 3112 - Cognition (4.0 cr)
- PSY 3401 - Child Development (4.0 cr)
- PSY 3402 - Adolescent and Emerging Adult Development (4.0 cr)
- PSY 3403 - Adult Development and Aging [E/CR] (4.0 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
- SOC 3103 - Research Methodology in Sociology (4.0 cr)
- SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4.0 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)
- SOC 3123 - Sociology of Aging [HDIV] (4.0 cr)
- SOC 3131 - World Population [ENVT] (4.0 cr)
- SOC 3141 - Sociology of Deviance [E/CR] (4.0 cr)
- SSA 2102 - Human Anatomy (4.0 cr)

Social Justice
The social justice human services sub plan provides students with an understanding of how to create societies or institutions based on the principles of equality and solidarity, the value of human rights, and the importance of recognizing that every human being deserves dignity. Social justice is the view that everyone deserves equal economic, political and social rights and opportunities. This major will prepare students for jobs related to community activism, human rights advocacy or non-profit administration. Students in human services build professional experience for their resumes through our applied service-learning classes and/or capstone internship.
At least 16 elective credits need to be at the 3xxx or 4xxx level.

**Required Electives**
Take 16 or more credit(s) from the following:

- ANTH 3502 - Latinos in the Midwest [SS] (4.0 cr)
- GWSS 2404 - Feminist, Queer, and Intersectional Theories [HDIV] (2.0 cr)
- HIST 2312 - History of South Africa to 1976 [HIST] (4.0 cr)
- NAIS 1101 - Introduction to Native American and Indigenous Studies [HDIV] (4.0 cr)
- PHIL 3121 - Political Philosophy [SS] (4.0 cr)
- PSY 3501 - Social Psychology (4.0 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)

**Additional Electives**
Additional elective credits to total at least 24 elective credits. Electives may be selected from the elective category above and the following (exclusive of the course used to fulfill the Research Methods requirement):

Take 0 - 8 credit(s) from the following:

- ANTH 1201 - Becoming Human: Introduction to Biological Anthropology [SCI-L] (5.0 cr)
- ANTH 2202 - Men and Masculinities [SS] (4.0 cr)
- ANTH 3604 - Gender and Sexuality in Latin America [IP] (4.0 cr)

Jazz Studies Minor
Division of Humanities - Adm

Division of Humanities

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 25 to 27

The jazz studies minor is for non-music majors only and offers an array of jazz-related courses and is designed for students wanting to develop fundamental skills in jazz performance and style. In addition to studying and applying jazz improvisation performance practices, students will become familiar with the cultural and contextual background of jazz and its relationship to other music genres.

Objectives:

1) Expose students to a wide range of jazz styles through collaborative performance
2) Familiarize students with the cultural context of jazz, including stylistic origins and historical developments
3) Develop students' abilities in improvisation and overall musicianship through studies in jazz theory, composition, and individual performance study

Student Program Learning Outcomes:

1) Students will be able to perform a wide range of jazz repertoire in small and large ensembles
2) Students will be able to demonstrate an understanding of the cultural context of jazz through written and oral mediums
3) Students will be able to demonstrate the ability to improvise in a stylistically informed manner

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Minor Requirements
No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only. A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Students must complete four semesters of Mus 0100, four semesters of Mus 12xx and two semesters of Mus 1080.

MUS 100 - Concert Attendance (0.0 cr)
MUS 1080 - Jazz Combo [ART/P] (1.0 cr)
MUS 1081 - Jazz Improvisation [ART/P] (2.0 cr)
MUS 1151 - Foundations of Music Theory I: Rhythm and Pitch [M/SR] (2.0 cr)
MUS 1152 - Foundations of Music Theory II: Line [FA] (2.0 cr)
Mus 12xx. Indiv Perf Studies
MUS 1111 - Functional Keyboard for the Music Major I [ART/P] (1.0 cr)
or MUS 1200 - Individual Performance Studies: Piano [ART/P] (1.0 cr)
MUS 1223 - Individual Performance Studies: Composition [ART/P] (1.0 cr)
MUS 1330 - Jazz Ensemble [ART/P] (1.0 cr)
MUS 2406 - Jazz Style and Repertoire [FA] (2.0 cr)
MUS 3119 - Jazz Theory [FA] (2.0 cr)
MUS 3224 - Advanced Individual Performance Studies: Improvisation [ART/P] (1.0 cr)
MUS 3305 - West African Styles in African American Music [FA] (2.0 cr)

Electives
Take 1 or more course(s) from the following:
- ENGL 3522 - Harlem Renaissance [HDIV] (4.0 cr)
• MUS 3109 - Analysis of Popular Music [HUM] (2.0 cr)
• MUS 3121 - Music Technology [FA] (2.0 cr)

Latin American Area Studies B.A.

Academic Affairs

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 35 to 38
- Degree: Bachelor of Arts

Latin American Area Studies (LAAS) is an interdisciplinary program at Morris. Latin American countries have been our allies, our enemies, our trading partners, and our friends. Our history is entangled with the history of the region south of the US border. We influence their culture, and they influence ours. In LAAS, we study Latin American history and culture using a wide variety of perspectives and methods. When you study in the LAAS discipline you will acquire a basic introduction to Latin American cultures and societies; the means essential to gain an understanding of Latin America and its diverse peoples; and an understanding of Latin America in a comparative perspective.

Objectives:
To provide a basic introduction to the cultures and societies of Latin America, to provide the means essential to gain an understanding of Latin America and its diverse peoples, and to place Latin America in a comparative perspective.

To meet these objectives, three of our core courses engage students in learning about the histories, contemporary events, and research resources on Latin America. In addition, all of our electives courses introduce students to a diversity of significant topics on Latin America, ranging from language proficiency, literature courses on Latin American cultures, issues of social justice, race, gender, migration, development, politics, economics, revolutions, and more. Our Senior Capstone course immerses students in gaining a deeper understanding of selected topics on Latin America. Together, our courses engender greater comprehension of Latin America, language comprehension and communication skills, important analytical skills, greater inter-cultural sensitivity and empathy, and ability to conduct research and compose well-written research papers.

Program Student Learning Outcomes:
1. Students will be able to think critically and communicate effectively, through informed understandings of Latin America, on issues of historical, social, economic, and political processes affecting the region.
2. Students will be able to locate relevant research resources and apply them in conducting research on Latin America.
3. Students will be able to competently compare and contrast the different countries and regions of Latin America from the perspective of its diverse human populations and societies.
4. Students will be able to apply an interdisciplinary perspective to gain a deeper understanding of Latin America.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 4 semester(s) of Spanish.

Students must enroll through the LAAS coordinator.

Students are required to complete Span 1001, 1002 (or 1003), 2001, and 2002 prior to or during enrollment in the major (the
requirement may be waived by testing out of Span 2002).

Students are encouraged to use elective credits to acquaint themselves with as many academic fields of Latin American studies as possible.

Students may have up to a three-course overlap with any other major. Additional overlap must be approved by the LAAS coordinator.

No minimum below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses**
After enrolling in the major and when in residence, 1 credit per semester in LAAS 3100; up to 4 credits can be applied to the 24-credit elective requirement for the major. With approval of the LAAS coordinator and another faculty member, a capstone experience in a different discipline that contains primarily Latin American content may be wholly or partially substituted for LAAS 4901, but requires completion of four total credits.

- **HIST 1601** - Latin American History: A Basic Introduction [IP] (4.0 cr)
- **LAAS 3100** - Contemporary Latin America (1.0 cr)
- **LAAS 3201** - Bibliographical Tools and Journals in Latin American Area Studies (2.0 cr)
- **LAAS 4901** - Senior Capstone in Latin American Area Studies (2.0 - 4.0 cr)

**Elective Courses**
These courses must come from at least three different academic disciplines, not including LAAS. Courses and directed studies not listed below may be approved by the LAAS coordinator, provided the subject matter is appropriate for the major.

Take 24 or more credits from the following:

**Foundational Level**
Take at most 12 credits from the following:
- **ANTH 2001** - How We Study People: Introduction to Methods in Cultural Anthropology [SS] (2.0 cr)
- **ARTH 2105** - Latin American Art: Pre-Columbian to Modern Art [FA] (4.0 cr)
- **HIST 1818** - Environmental History of Latin America [IC] (2.0 cr)
- **HIST 1822** - Age of Atlantic Revolutions [IC] (2.0 cr)
- **HIST 2608** - History of Cuba: From Colony to Revolutionary State [HIST] (4.0 cr)
- **HIST 2609** - History of Brazil: From Sugar to Sugar Cars [HIST] (4.0 cr)
- **LAAS 1993** - Directed Study (1.0 - 5.0 cr)
- **LAAS 2993** - Directed Study (1.0 - 5.0 cr)
- **SPAN 1054** - Associated Languages: Introduction to Nahuat Language [IP] (4.0 cr)
- **SPAN 2121** - Associated Languages: Intensive Portuguese [IP] (4.0 cr)
- **SPAN 3011** - Conversation, Composition, and Culture [IP] (2.0 cr)
- **SPAN 3012** - Spanish Grammar in Practice [IP] (2.0 cr)
- **SPAN 3111** - Readings in Spanish I [HUM] (2.0 cr)
- **SPAN 3112** - Readings in Spanish II [HUM] (2.0 cr)

**Advanced Level**
Take 12 or more credits from the following:
- **ANTH 3502** - Latinos in the Midwest [SS] (4.0 cr)
- **ANTH 3603** - Latin American Archaeology [SS] (4.0 cr)
- **ANTH 3604** - Gender and Sexuality in Latin America [IP] (4.0 cr)
- **HIST 3612** - Social Revolution in 20th-Century Latin America [HIST] (4.0 cr)
- **HIST 3613** - U.S.-Latin American Relations in Historical Perspective [IP] (4.0 cr)
- **HIST 3614** - Race and Ethnicity in Latin America [HDIV] (4.0 cr)
- **LAAS 3993** - Directed Study (1.0 - 5.0 cr)
- **LAAS 4993** - Directed Study (1.0 - 5.0 cr)
- **POL 3475** - International Human Rights (4.0 cr)
- **POL 3504** - Latin American Politics (4.0 cr)
- **PSY 3404** - Culture and Human Development [HDIV] (4.0 cr)
- **SPAN 3211** - Literature and Culture of Spain [HUM] (4.0 cr)
- **SPAN 3212** - Literature and Culture of Latin America [HUM] (4.0 cr)
- **SPAN 3651** - Seminar: Miguel de Cervantes Saavedra’s “El ingenioso hidalgo Don Quijote de la Mancha” [HUM] (4.0 cr)
- **SPAN 3654** - Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature [HUM] (4.0 cr)
- **SPAN 3681** - Seminar: Romanticism and Revolution in 19th-Century Spain [HUM] (4.0 cr)
- **SPAN 3682** - Seminar: Realism and Reform in 19th-Century Spain [HUM] (4.0 cr)
- **SPAN 3683** - Seminar: Modernity and Identity in Spain, 1900-1930 [HUM] (4.0 cr)
- **SPAN 3684** - Seminar: Hispanic Film [HUM] (4.0 cr)
- **SPAN 3685** - Seminar: Slavery and Abolition in Cuban Literature and Culture [IP] (4.0 cr)
- **SPAN 3686** - Seminar: Writing History in Spanish American Literature [HUM] (4.0 cr)
• SPAN 3687 - Seminar: Afro-Hispanic Literature and Culture [HDIV] (4.0 cr)
• SPAN 3690 - Seminar: Mexican Cultural Production [HUM] (4.0 cr)
• SPAN 3691 - Seminar: Native Cultural Production of the Americas [HDIV] (4.0 cr)
• SPAN 3692 - Seminar: Nahua Media and Culture [IP] (4.0 cr)
• SPAN 4001 - Research Symposium [HUM] (4.0 cr)
Morris Campus
Latin American Area Studies Minor
M Acad Dean's Admin

Academic Affairs

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 27 to 30

Latin American Area Studies (LAAS) is an interdisciplinary program at Morris. Latin American countries have been our allies, our enemies, our trading partners, and our friends. Our history is entangled with the history of the region south of the US border. We influence their culture and they influence ours. In LAAS, we study Latin American history and culture using a wide variety of perspectives and methods. When you study in the LAAS discipline you will acquire a basic introduction to Latin American cultures and societies; the means essential to gain an understanding of Latin America and its diverse peoples; and an understanding of Latin America in a comparative perspective.

The objectives of an LAAS minor will be to expose more students to important historical and current concerns regarding Latin America. They will meet the same student learning objectives as majors: to acquire 1) A basic introduction to Latin American cultures and societies; 2) the means essential to gain an understanding of Latin America and its diverse peoples; and 3) an understanding of Latin America in a comparative perspective.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Students are required to take 4 semester(s) of Spanish.

Students must enroll through the LAAS coordinator.

Students are required to complete Span 1001, 1002 (or 1003), 2001, and 2002 prior to or during enrollment in the minor (the requirement may be waived by testing out of Span 2002).

Students are encouraged to use elective credits to acquaint themselves with as many academic fields of Latin American studies as possible.

Students may have up to a three-course overlap with any other minor. Additional overlap must be approved by the LAAS coordinator.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses

After enrolling in the minor and when in residence, 1 credit per semester in LAAS 3100; up to 4 credits can be applied to the 20-credit elective requirement for the minor.

- HIST 1801 - Latin American History: A Basic Introduction [IP] (4.0 cr)
- LAAS 3100 - Contemporary Latin America (1.0 cr)
- LAAS 3201 - Bibliographical Tools and Journals in Latin American Area Studies (2.0 cr)

Elective Courses

These courses must come from at least three different academic disciplines, not including LAAS. Courses and directed studies not listed below may be approved by the LAAS coordinator, provided the subject matter is appropriate for the minor.

Take 20 or more credit(s) from the following:

- Foundational Level
  - Take at most 12 credit(s) from the following:
  - • ARTH 2105 - Latin American Art: Pre-Columbian to Modern Art [FA] (4.0 cr)
  - • HIST 1816 - Environmental History of Latin America [IC] (2.0 cr)
• HIST 1822 - Age of Atlantic Revolutions [IC] (2.0 cr)
• HIST 2608 - History of Cuba: From Colony to Revolutionary State [HIST] (4.0 cr)
• HIST 2609 - History of Brazil: From Sugar to Sugar Cars [HIST] (4.0 cr)
• LAAS 1993 - Directed Study (1.0 - 5.0 cr)
• LAAS 2993 - Directed Study (1.0 - 5.0 cr)
• SPAN 1054 - Associated Languages: Introduction to Nahuatl Language [IP] (4.0 cr)

Morris Campus
Management B.A.
Division of Social Sciences - Adm
Division of Social Sciences

• Program Type: Baccalaureate
• Requirements for this program are current for Fall 2019
• Required credits to graduate with this degree: 120
• Required credits within the major: 58 to 60
• Degree: Bachelor of Arts

This discipline offers a multidisciplinary liberal arts-based program that allows students to enter the field of management as a professional or proceed to graduate studies. The management curriculum focuses on areas of human knowledge that concern the operation and control of business and nonprofit organizations. In addition to developing competence in analytical and core business areas, students majoring in the field are expected to learn to critically examine business and other institutions from a liberal arts perspective.

Program Student Learning Outcomes
The curriculum is designed to ensure that students will be able to:
1. describe and identify the economic context for business and organizational decision making.
2. apply, compare, and contrast different methods and approaches for managing financial, human, and material resources.
3. explain the nature and functioning of the financial system.
4. describe the nature of the global business environment.
5. communicate business, accounting, and managerial knowledge both orally and in writing.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students intending on going to graduate school are strongly recommended to take MATH 1101-1102. Students are also recommended to take PHIL 2112, if not required to do so. Prospective majors should see a management faculty member before registering for classes. Consultation with an advisor is essential to program planning.

Requirements for the major include successful completion of each of the following four elements:
1. The management core
2. The 3000-level elective management block
3. The elective management capstone block
4. A program sub-plan in either Financial and Organizational Management (F&OM) or Global Business (GB)

Grades of D or D+ in MGMT 2101-2102, ECON 1111-1112, STAT 1601 or 2601 may not be used to meet the major requirements.

Up to 4 credits of other coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. No coursework for the major may be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

No more than 4 credits from each of the following can be applied to the major: ECON 4501 - Senior Research Seminar in Economics
Element 1: The Management Core
Students must successfully complete all of the courses below in order to satisfy this element of the major.

Students should complete all but ECON 3113 and MGMT 3601 during their first two years.

- ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
- ECON 1112 - Principles of Macroeconomics [SS] (4.0 cr)
- ECON 3113 - Money, Banking, and Financial Markets (4.0 cr)
- MGMT 2101 - Principles of Accounting I (4.0 cr)
- MGMT 3601 - Transnational Enterprise [IP] (4.0 cr)
- STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
  or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)
- CMR 1042 - Public Speaking and Analysis [E/CR] (4.0 cr)
  or CMR 1052 - Introduction to Public Speaking [E/CR] (2.0 cr)

Element 2: 3000-level Elective Management Block
Students must successfully complete 8 or more credits from the list below, exclusive of coursework used to satisfy sub-plan requirements.

Take 8 or more credit(s) from the following:

- ECON 3005 - Experimental and Behavioral Economics I (2.0 cr)
- ECON 3006 - Experimental and Behavioral Economics II (2.0 cr)
- ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2.0 cr)
- ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2.0 cr)
- ECON 3009 - Political Economy (4.0 cr)
- ECON 3014 - Game Theory: The Theory of Strategic Behavior I (2.0 cr)
- ECON 3015 - Game Theory: The Theory of Strategic Behavior II (2.0 cr)
- ECON 3121 - Public Economics I (2.0 cr)
- ECON 3122 - Public Economics II (2.0 cr)
- ECON 3131 - Comparative Economic Systems I [IP] (2.0 cr)
- ECON 3132 - Comparative Economic Systems II (2.0 cr)
- ECON 3134 - Cooperative Business Model (2.0 cr)
- ECON 3136 - Economics of the Green Power Transition: New Business Models and Regulatory Strategies [ENVT] (2.0 cr)
- ECON 3141 - Economic Growth and Development I [IP] (2.0 cr)
- ECON 3142 - Economic Growth and Development II [IP] (2.0 cr)
- ECON 3172 - Strategic Firm Interaction and Market Structures (4.0 cr)
- ECON 3173 - Health Care Economics (4.0 cr)
- ECON 3202 - Macroeconomic Theory (4.0 cr)
- ECON 3211 - History of Economic Thought I [HIST] (2.0 cr)
- ECON 3212 - History of Economic Thought II [HIST] (2.0 cr)
- ENST 3101 - Industrial Ecology (4.0 cr)
- MGMT 3101 - Financial Management (4.0 cr)
- MGMT 3102 - Financial Institutions (2.0 cr)
- MGMT 3127 - Supply Chain Logistics Management (4.0 cr)
- MGMT 3133 - Managerial Accounting (4.0 cr)
- MGMT 3134 - Cooperative Business Model (2.0 cr)
- MGMT 3141 - Business Law: The Legal Environment of Business (2.0 cr)
- MGMT 3142 - Business Law: Sales Law, Commercial Paper, and Forms of Business (2.0 cr)
- MGMT 3151 - Human Resources Management I [E/CR] (2.0 cr)
- MGMT 3152 - Human Resources Management II [HDIV] (2.0 cr)
- MGMT 3161 - Labor Management Relations I [E/CR] (2.0 cr)
- MGMT 3162 - Labor Management Relations II (2.0 cr)
- MGMT 3201 - Marketing Principles and Strategy (4.0 cr)
- MGMT 3221 - Management and Organization Theory (4.0 cr)
- MGMT 3501 - Applied Deterministic Modeling for Management Science (2.0 cr)
- MGMT 3502 - Applied Probabilistic Modeling for Management Science (2.0 cr)
- MGMT 3503 - Consumer Behavior [SS] (4.0 cr)
- MGMT 3513 - Negotiation (4.0 cr)
- MGMT 3701 - Organizational Behavior [SS] (4.0 cr)
- MGMT 3993 - Directed Study (1.0 - 5.0 cr)
- PSY 3503 - Consumer Behavior [SS] (4.0 cr)
- ECON 3201 - Microeconomic Theory (4.0 cr)
  or MGMT 3123 - Managerial Economics (4.0 cr)
Element 3: Elective Management Capstone Block
Students must successfully complete 4 or more credits from the list below.
Take 4 or more credit(s) from the following:
- ECON 4101 - Labor Economics I [HDIV] (2.0 cr)
- ECON 4102 - Labor Economics II (2.0 cr)
- ECON 4111 - Mathematical Economics I (2.0 cr)
- ECON 4112 - Mathematical Economics II (2.0 cr)
- ECON 4121 - International Trade Theory (2.0 cr)
- ECON 4131 - International Finance (2.0 cr)
- ECON 4141 - Empirics of Economic Growth (2.0 cr)
- ECON 4201 - Foundations of Microeconomic Theory (4.0 cr)
- ECON 4501 - Senior Research Seminar in Economics and Management (2.0 cr)
- ECON 4502 - Advanced Research Seminar in Economics and Management (2.0 cr)
- ECON 4993 - Directed Study (1.0 - 5.0 cr)
- MGMT 4101 - Investment and Portfolio Analysis (4.0 cr)
- MGMT 4201 - The Economics of Corporate Strategy I (2.0 cr)
- MGMT 4202 - The Economics of Corporate Strategy II (2.0 cr)
- MGMT 4501 - Globalization and Business Strategy (2.0 cr)
- MGMT 4502 - Technological Change, Labor Market, and Skill Formation (2.0 cr)
- MGMT 4896 - Internship (1.0 - 4.0 cr)
- MGMT 4993 - Directed Study (1.0 - 5.0 cr)

Program Sub-plans
Students are required to complete one of the following sub-plans.

Financial and Organizational Management (F&OM)
The financial and organizational management (F&OM) sub-plan requires completion of the following elements:
1. The F&OM required courses block
2. The F&OM elective courses block

F&OM Sub-Plan Element 1: The F&OM Required Courses Block
Students must successfully complete the list of courses below.
- MGMT 2102 - Principles of Accounting II (2.0 cr)
- MGMT 3101 - Financial Management (4.0 cr)
- MGMT 3701 - Organizational Behavior [SS] (4.0 cr)
- MGMT 3123 - Managerial Economics (4.0 cr)
  or ECON 3201 - Microeconomic Theory (4.0 cr)
- MATH 1021 - Survey of Calculus [M/SR] (4.0 cr)
  or MATH 1101 - Calculus I [M/SR] (5.0 cr)

F&OM Sub-Plan Element 2: The F&OM Elective Courses Block
Take 4 or more credit(s) from the following:
- CSCI 1251 - Computational Data Management and Manipulation [M/SR] (4.0 cr)
- PHIL 2112 - Professional Ethics [E/CR] (4.0 cr)

Global Business
The global business (GB) sub-plan requires completion of the following elements:
1. The GB language block
2. The GB skills and perspectives block
3. The GB general electives block

GB Sub-Plan Element 1: The GB Language Block
Students must complete 8 credits of French, German, Spanish, or other approved language of international commerce at 2xxx level or above.

GB Sub-Plan Element 2: The Skills and Perspectives Block
Take 8 or more credit(s) from the following:
- CSCI 1251 - Computational Data Management and Manipulation [M/SR] (4.0 cr)
- MATH 1021 - Survey of Calculus [M/SR] (4.0 cr)
  or MATH 1101 - Calculus I [M/SR] (5.0 cr)
- PHIL 2112 - Professional Ethics [E/CR] (4.0 cr)

GB Sub-Plan Element 3: The GB General Electives Block
Take 6 or more credit(s) from the following:
- ECON 3009 - Political Economy (4.0 cr)
• ECON 3131 - Comparative Economic Systems I [IP] (2.0 cr)
• ECON 3132 - Comparative Economic Systems II (2.0 cr)
• ECON 3141 - Economic Growth and Development I [IP] (2.0 cr)
• ECON 3142 - Economic Growth and Development II [IP] (2.0 cr)
• ECON 4121 - International Trade Theory (2.0 cr)

Division of Social Sciences

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 26

This discipline offers a multidisciplinary liberal arts-based program that allows students to enter the field of management as a professional or proceed to graduate studies. The management curriculum focuses on areas of human knowledge that concern the operation and control of business and nonprofit organizations. In addition to developing competence in analytical and core business areas, students majoring in the field are expected to learn to critically examine business and other institutions from a liberal arts perspective.

Program Student Learning Outcomes
The curriculum is designed to ensure that students:
1. describe and identify economic context for business and organizational decision making.
2. apply, compare, and contrast different methods and approaches for managing financial, human, and material resources.
3. explain the nature and functioning of the financial system.
4. describe the nature of the global business environment.
5. communicate business, accounting, and managerial knowledge both orally and in writing.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Grades of D or D+ in MGMT 2101-2102 or ECON 1111-1112 may not be used to meet minor requirements.

- ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
- ECON 1112 - Principles of Macroeconomics [SS] (4.0 cr)
- MGMT 2101 - Principles of Accounting I (4.0 cr)
- MGMT 2102 - Principles of Accounting II (2.0 cr)

Elective Courses
No more than 4 credits from MGMT x993 - Directed Study can be applied to the minor.

Take 12 or more credit(s) from the following:
- MGMT 3101 - Financial Management (4.0 cr)
- MGMT 3102 - Financial Institutions (2.0 cr)
- MGMT 3123 - Managerial Economics (4.0 cr)
- MGMT 3127 - Supply Chain Logistics Management (4.0 cr)
- MGMT 3133 - Managerial Accounting (4.0 cr)
- MGMT 3134 - Cooperative Business Model (2.0 cr)
- MGMT 3141 - Business Law: The Legal Environment of Business (2.0 cr)
- MGMT 3142 - Business Law: Sales Law, Commercial Paper, and Forms of Business (2.0 cr)
- MGMT 3151 - Human Resources Management I [E/CR] (2.0 cr)
- MGMT 3152 - Human Resources Management II [HDIV] (2.0 cr)
- MGMT 3161 - Labor Management Relations I [E/CR] (2.0 cr)
- MGMT 3162 - Labor Management Relations II (2.0 cr)
- MGMT 3201 - Marketing Principles and Strategy (4.0 cr)
- MGMT 3221 - Management and Organization Theory (4.0 cr)
- MGMT 3501 - Applied Deterministic Modeling for Management Science (2.0 cr)
- MGMT 3502 - Applied Probabilistic Modeling for Management Science (2.0 cr)
• MGMT 3503 - Consumer Behavior [SS] (4.0 cr)
• MGMT 3513 - Negotiation (4.0 cr)
• MGMT 3601 - Transnational Enterprise [IP] (4.0 cr)
• MGMT 3701 - Organizational Behavior [SS] (4.0 cr)
• MGMT 3993 - Directed Study (1.0 - 5.0 cr)
• MGMT 3xxx
• MGMT 4101 - Investment and Portfolio Analysis (4.0 cr)
• MGMT 4201 - The Economics of Corporate Strategy I (2.0 cr)
• MGMT 4202 - The Economics of Corporate Strategy II (2.0 cr)
• MGMT 4501 - Globalization and Business Strategy (2.0 cr)
• MGMT 4502 - Technological Change, Labor Market, and Skill Formation (2.0 cr)
• MGMT 4896 - Internship (1.0 - 4.0 cr)
• MGMT 4993 - Directed Study (1.0 - 5.0 cr)
• MGMT 4xxx
Objectives--The mission of the discipline is to advance knowledge of mathematics by teaching mathematics and its processes, by research in mathematics and mathematical pedagogy, and by dissemination of this knowledge to students and the community we serve.

Historically, the study of mathematics has been central to a liberal arts education. The mathematics curriculum serves as an integral part of students’ active pursuit of a liberal arts education. The mathematics program serves students who major or minor in mathematics, seek secondary mathematics teaching licensure, major or minor in programs that require a mathematical background, or wish to fulfill components of a general education.

The mathematics curriculum is designed to help students develop competence in problem-solving, mathematical techniques and methods; to sharpen students’ mathematical intuition and abstract reasoning, as well as their quantitative literacy. The curriculum is also designed to encourage and stimulate the type of independent and critical thinking required for research beyond the confines of the textbook. It provide students with the basic knowledge and skills to make mathematical contributions to modern society. The mathematics program enables students to do in-depth and independent mathematics-related research projects that require students to integrate their mathematical knowledge from different areas, and to enhance their communication skills by way of written reports and oral presentations. The program seeks to enable students to observe and communicate how the development of mathematics has been part of historical and current cultural and scientific developments. The curriculum prepares students to enter graduate school, pursue careers in applied mathematics, or teach mathematics.

Program Delivery
This program is available:
  • via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced. Courses may not be taken S-N unless offered S-N only. Up to 5 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of B- or above in courses at or above 2xxx. Exceptions to requirements may be granted on an individual basis, after consulting with the math faculty.

Majors should begin with MATH 1012 - PreCalculus I or MATH 1013 - PreCalculus II or MATH 1101 - Calculus I. Students with questions about placement are encouraged to discuss them with members of the mathematics faculty.

Recommended electives for students planning to pursue graduate work in pure mathematics:
MATH 3222 - Complex Analysis
MATH 4211 - Real Analysis
MATH 4221 - Topology
MATH 4231 - Abstract Algebra II
MATH 4241 - Number Theory
MATH 4252 - Differential Geometry
MATH 4253 - Combinatorics

Recommended electives for students planning to work or pursue graduate work in applied mathematics or related fields:

MATH 2401 - Differential Equations
MATH 3401 - Operations Research
MATH 3411 - Discrete and Combinatorial Mathematics
MATH 4401 - Numerical Methods With Applications in Mathematical Modeling
MATH 4452 - Mathematical Modeling

Residency Requirement
Students must complete a minimum of three 3xxx or higher math courses at UMM.

Required Courses
MATH 1101 - Calculus I [M/SR] (5.0 cr)
MATH 1102 - Calculus II [M/SR] (5.0 cr)
MATH 2101 - Calculus III [M/SR] (4.0 cr)
MATH 3111 - Linear Algebra (4.0 cr)
MATH 2202 - Mathematical Perspectives [M/SR] (4.0 cr)
MATH 3211 - Real Analysis I (4.0 cr)
MATH 3231 - Abstract Algebra I (4.0 cr)
MATH 4901 - Senior Seminar (2.0 cr)

Take 1 or more course(s) from the following:
- MATH 2401 - Differential Equations [M/SR] (4.0 cr)
- MATH 3401 - Operations Research (4.0 cr)
- MATH 3411 - Discrete and Combinatorial Mathematics (4.0 cr)
- MATH 4401 - Numerical Methods with Applications in Mathematical Modeling (4.0 cr)
- MATH 4452 - Mathematical Modeling (4.0 cr)

Take 4 or more credit(s) from the following:
- MATH 2xxx
- MATH 3xxx
- MATH 4xxx

Take 1 or more course(s) from the following:
- CSCI 1201 - Introduction to Digital Media Computation [M/SR] (4.0 cr)
- CSCI 1301 - Problem Solving and Algorithm Development [M/SR] (4.0 cr)

Take 1 or more course(s) from the following:
- STAT 2601 - Statistical Methods [M/SR] (4.0 cr)
- STAT 2611 - Mathematical Statistics [M/SR] (4.0 cr)

Mathematical Applications Course
Take 1 or more course(s) from the following:
- CHEM 3501 - Physical Chemistry: Thermodynamics [SCI] (4.0 cr)
- CSCI 2101 - Data Structures [M/SR] (5.0 cr)
- CSCI 3402 - Computing Systems: Concepts (3.0 cr)
- CSCI 3501 - Algorithms and Computability (5.0 cr)
- CSCI 3601 - Software Design and Development (5.0 cr)
- ECON 3201 - Microeconomic Theory (4.0 cr)
- ECON 3202 - Macroeconomic Theory (4.0 cr)
- ECON 3501 - Introduction to Econometrics [M/SR] (4.0 cr)
- ECON 4111 - Mathematical Economics I (2.0 cr)
- ECON 4112 - Mathematical Economics II (2.0 cr)
- GEOL 3401 - Geophysics [SCI] (4.0 cr)
- GEOL 3501 - Hydrology [SCI] (4.0 cr)
- MATH 3501 - Applied Deterministic Modeling for Management Science (2.0 cr)
- MATH 3502 - Applied Probabilistic Modeling for Management Science (2.0 cr)
- PHIL 2101 - Introduction to Symbolic Logic [M/SR] (4.0 cr)
- PHYS 1101 - General Physics I [SCI-L] (5.0 cr)
- PHYS 1102 - General Physics II [SCI-L] (5.0 cr)
- PHYS 2101 - Modern Physics [SCI-L] (4.0 cr)
- PHYS 3301 - Optics (4.0 cr)
- PHYS 3101 - Classical Mechanics [SCI] (4.0 cr)
- PHYS 4101 - Electromagnetism (4.0 cr)
- PHYS 4201 - Quantum Mechanics (4.0 cr)
- STAT 3601 - Data Analysis [M/SR] (4.0 cr)
• STAT 3611 - Multivariate Statistical Analysis [M/SR] (4.0 cr)
• STAT 4601 - Biostatistics (4.0 cr)

Medieval Studies B.A.
Division of Humanities - Adm
Division of Humanities

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 36 to 40
- Degree: Bachelor of Arts

Medieval studies is an interdisciplinary major and minor in the humanities division, administered by the medieval studies faculty and the chair of the humanities division.

The field of medieval studies includes primarily European literature and culture from roughly 500 to 1500 and provides an opportunity at the undergraduate level for students to think synthetically across disciplines. To contextualize the medieval period in the "West," the medieval studies curriculum encompasses topics in English, art history, history, French, math, philosophy, theatre, music, anthropology, German, and areas such as gender and religion with historical roots in ancient and classical periods and Byzantine cultures.

Coursework in medieval studies enhances students' understanding of artistic and material relics of the Middle Ages such as manuscripts, cookery books, Gothic cathedrals, Crusader castles, and picturesque towns cramped within ancient walls. The period also saw many of the foundational choices that have, for good and ill, made the world what it is today. Many current challenges in the fields of Western law, human rights, attitudes toward power, authority, gender relations, and sexual mores derive from the ways in which these were viewed a millennium ago.

Program Student Learning Outcomes
Students explore implications and intersections of products of the medieval world across disciplinary, chronological, and geographical barriers. The medieval studies major prepares students for graduate study in many academic fields as well as internship and career opportunities from museum curating to education, law, and data analysis.

In the core courses for the medieval studies major, students develop:
- Familiarity with diverse methodologies and critical paradigms to analyze, interpret, and synthesize various types of evidence for the medieval period
- Reading, writing skills, and critical thinking skills
- Skills for reading medieval primary texts in their original language
- Analytical skills in art history, history, and literature while studying how the past, including language, is not a fixed entity
- Familiarity with range of medieval culture, language, and thought to allow meaningful exploration of the human experience in the Middle Ages
- Insight into the construction of belief, culture, and knowledge in the Middle Ages as reflective of personal and social contexts

Study Abroad
In light of today's increasingly interdependent world, the UMM medieval studies faculty fully endorses study abroad in combination with a medieval study major or minor, as the most effective means by which to:
- Improve language abilities
- Gain firsthand access to medieval artifacts
- Broaden academic horizons
- Globalize one's world view of the medieval pasts role in the present
- Expand career opportunities
- Advance cross-cultural and problem-solving skills
- Gain confidence in oneself personally and professionally

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of February 21, 2019
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of Latin.

Students must complete a significant amount of coursework in medieval studies at UMM, but are also strongly encouraged to study abroad or on other campuses. In order to count study abroad toward the major, all students must procure formal approval of coursework from the medieval studies steering committee prior to departure. (Typically, no more than 9 credits for one semester abroad or 16 credits for a year abroad may count toward the major.) Students interested in a foreign study experience may complete Engl 3163 in York, England; Hum 1006 in Rome, Italy; or IS 3053; offered periodically in summer terms. Other study abroad programs may be considered toward this degree program in consultation with the Medieval Studies faculty.

Medieval Studies is by nature interdisciplinary. Students are responsible for developing a coherent program from the elective choices available. Work with a Medieval Studies faculty member to see how a careful selection of your General Education courses can enhance your knowledge of the field. The medieval studies steering committee strongly recommends at least one year of study in another world language in addition to Latin.

No grades below C- may count toward the Medieval Studies major. Only 4 credits may be taken S-N unless other courses are offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Lat 1002 requires Lat 1001 as a prerequisite. One or both courses may be satisfied through a proctored proficiency exam or transfer credit. Students who begin their Morris careers beyond Latin 1002 earn a four-credit exemption from the major.

LAT 1002 - Beginning Latin II [FL] (4.0 cr)
Take exactly 3 course(s) from the following:
• ARTH 1111 - Ancient to Medieval Art [FA] (4.0 cr)
• ENGL 3021 - Grammar and Language [HUM] (4.0 cr)
• FREN 3002 - Civilization and Composition: Tools for Studying the Medieval and Early Modern Periods [HIST] (2.0 cr)
• GER 3101 - Introduction to German Literature and Culture I [HUM] (4.0 cr)
• HIST 2103 - Medieval Europe [HIST] (4.0 cr)
• HIST 2108 - Ancient Greek and Roman History [HIST] (4.0 cr)
• POL 3351 - Ancient and Medieval Political Thought [HUM] (4.0 cr)

Advanced Seminar (4000-level capstone on a Medieval Topic (2-4 cr)
Consult with one of the Medieval Studies faculty to choose this course; it may be in any discipline as long as it is in accordance with the approval from the Medieval Studies faculty.

Elective Courses
Courses used to meet the elective requirement are exclusive of any used to complete the required courses. No more than four credits of an x993 course (directed study) will be accepted toward the major.

Instructors of courses requiring prerequisites within a discipline may admit students who have taken a similar level course in a comparable discipline.

Take 20 or more credit(s) from the following:

Limited Electives
Take at most 8 credit(s) from the following:
• ARTH 1111 - Ancient to Medieval Art [FA] (4.0 cr)
• ARTH 2104 - Irish Art and Archaeology [FA] (4.0 cr)
• ENGL 2016 - Monsters and the Monstrous in English Literature [HUM] (4.0 cr)
• ENGL 2033 - The Bible and Literature [HUM] (4.0 cr)
• ENGL 1205 - Survey of British Literature to the 18th Century [HUM] (4.0 cr)
• ENGL 3021 - Grammar and Language [HUM] (4.0 cr)
• FREN 3002 - Civilization and Composition: Tools for Studying the Medieval and Early Modern Periods [HIST] (2.0 cr)
• HIST 1501 - Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4.0 cr)
• HIST 2103 - Medieval Europe [HIST] (4.0 cr)
• HIST 2108 - Ancient Greek and Roman History [HIST] (4.0 cr)
• HIST 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4.0 cr)
• HUM 1002 - Norse Saga [HUM] (4.0 cr)
• HUM 1006 - From the Caesars to the Saints: Walking Ancient Rome [HIST] (4.0 cr)
• MATH 2211 - History of Mathematics (4.0 cr)
• MUS 1155 - Foundations in Music History I: Ancient to 1750 [HIST] (2.0 cr)
• TH 3101 - World Theatre: History and Literature I [FA] (4.0 cr)
• Unlimited Electives
  Take 12 or more credit(s) from the following:
  • ARTH 3112 - Faith, Image, and Power: Art and the Byzantine Empire [FA] (4.0 cr)
  • ARTH 3113 - Early Islamic Art and Culture [FA] (4.0 cr)
  • ARTH 3132 - Castles and Cathedrals [FA] (4.0 cr)
  • CMR 3101 - Rhetorical History and Theories: Pre-Socratic to Modern Periods [IP] (4.0 cr)
  • ENGL 3043 - Medieval Makings of Tolkien's Worlds (4.0 cr)
  • ENGL 3161 - Medieval Literature (4.0 cr)
  • ENGL 3163 - Life in a Medieval City: Literature and Culture in York, 700-1500 [HUM] (4.0 cr)
  • ENGL 4004 - Research Seminar: Old English Literature and Language (4.0 cr)
  • FREN 3402 - Medieval and Early Modern Studies: Pre-Enlightenment Culture in France (2.0 - 4.0 cr)
  • FREN 3406 - Medieval and Early Modern Studies: Emotional Extremes in Medieval and Early Modern Literature (4.0 cr)
  • FREN 3407 - Medieval and Early Modern Studies: The "East" and its Marvels--Food in Life and Literature (2.0 - 4.0 cr)
  • FREN 3410 - Medieval and Early Modern Studies: Troubadours and Old Occitan: Creative Writing in the Middle Ages [HUM] (4.0 cr)
  • FREN 3411 - Medieval and Early Modern Studies: Medieval and Renaissance Bodies (4.0 cr)
  • GER 3702 - Martial Masculinities: Manhood and Aggression in German Literature and Culture [HUM] (4.0 cr)
  • GER 4001 - German Civilization I: From the Stone Age to 1871 [HIST] (4.0 cr)
  • GER 4101 - History of the German Language [HIST] (4.0 cr)
  • HIST 3008 - The Making of the Islamic World [HDIV] (4.0 cr)
  • HIST 3207 - The Crusades [IP] (4.0 cr)
  • IS 3053 - Irish Texts and Contexts [ENVT] (4.0 cr)
  • IS 3215H - Honors: Sagas before the Fall: Culture, Climate, and Collapse in Medieval Iceland [ENVT] (2.0 cr)
  • IS 3242H - Honors: Two Cosmological Poets: Dante and Lucretius [IP] (2.0 cr)
  • IS 3248H - Honors: Art and History of the Crusades [FA] (2.0 cr)
  • LAT 2001 - Intermediate Latin Prose [IP] (4.0 cr)
  • LAT 2002 - Intermediate Latin Poetry [HUM] (4.0 cr)
  • PHIL 3151 - History of Ancient Philosophy [HIST] (4.0 cr)
  • POL 3351 - Ancient and Medieval Political Thought [HUM] (4.0 cr)

Music B.A.
Division of Humanities - Adm
Division of Humanities

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 40
- Degree: Bachelor of Arts

The music curriculum is designed to develop not only musical and performance skills, but also to investigate the many ways that music can help us understand human culture and history. This curriculum meshes the liberal arts model of breadth of knowledge with applied lessons, ensembles, and theory/history of music.

Program Student Learning Outcomes:
1. Musicianship: Students will demonstrate proficiency in aural and keyboard musicianship.
2. Performance: In their area of specialization, students will study and perform a wide range of music literature, communicating character and style and engaging with the listener in an assured manner.
3. Music in a historic and cultural context: Students will develop the ability to discuss music critically, examine the role of music in culture, and consider the various ways people understand meaningful expression in music.
4. Music theory: Students will demonstrate proficiency in reading and writing scales, chords, and rhythms, show an understanding of contrapuntal techniques and formal structures, and analyze pieces using appropriate analytical techniques.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Students with advisers in other disciplines are strongly encouraged to consult regularly with a music faculty advisor.

Required Courses
Foundational courses (1151-6) and 2xxx-level music theory and repertoire courses are taken concurrently with piano lessons or Functional Keyboard for the Music Major, Mus 1111, 1112, 2111, 2112 until the piano proficiency test is passed.

Students must enroll in MUS 0100 seven times.
7 credits in individual performance studies in the applied area, of which a minimum of two semesters must be in the MUS 32XX-Advanced Individual Performance Studies series.
MUS 100 - Concert Attendance (0.0 cr)
MUS 1151 - Foundations of Music Theory I: Rhythm and Pitch [M/SR] (2.0 cr)
MUS 1152 - Foundations of Music Theory II: Line [FA] (2.0 cr)

Native American and Indigenous Studies B.A.

M Acad Dean's Admin

Academic Affairs

• Program Type: Baccalaureate
• Requirements for this program are current for Fall 2019
• Required credits to graduate with this degree: 120
• Required credits within the major: 40
• NA
• Degree: Bachelor of Arts

This is an interdisciplinary major under the authority of the vice chancellor for academic affairs and dean. The program is administered by the coordinator(s) of Native American and Indigenous Studies.

The Native American and Indigenous Studies major is designed to enhance students' awareness and their overall knowledge about sovereignty and the diversity of Indigenous cultures with primary focus on the United States. Majors are required to engage and learn Native American histories, cultures, literatures, languages, arts, sciences, and expressive cultures.

Program Student Learning Outcomes:

Native American and Indigenous Studies promotes critical thinking, writing, and communication skills that are also rooted in Indigenous knowledge systems and community involvement by

Developing proficiency in core concepts in the field of Native American and Indigenous Studies;

Locating, exploring, and critically analyzing texts relevant to Native American and Indigenous Studies;

Acquiring an awareness of the complexities of tribal sovereignty;

Developing skills and knowledge necessary to engage in collaborative and ethical research within Indigenous Studies;

Applying interdisciplinary skills and approaches in the study of Indigenous peoples within local and global contexts;

Writing and speaking effectively.

Program Delivery

This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements

All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements

Students are required to take 2 semester(s) of any second language.

Students develop a coherent program of study in consultation with their major advisor.

Native and Indigenous Studies students are especially encouraged to take an American indigenous language, such as Anishinaabe or Dakota to meet the general education language requirement.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements. Courses may not be taken S-N, unless course is offered as S-N only.
A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses**

With approval of the Native American and Indigenous Studies coordinator(s), a capstone course in a different major may be substituted for NAIS 4901 if it contains primary Native American content (e.g., ENGL 4017 - Research Seminar: Tricksters-Conjurers in American Indian and African American Literature).

- **NAIS 1101** - Introduction to Native American and Indigenous Studies [HDIV] (4.0 cr)
- **NAIS 4901** - Senior Project in Native American and Indigenous Studies (4.0 cr)
- **ENGL 2411** - Representations of American Indians in Popular and Academic Culture [HDIV] (4.0 cr)

NOTE: Engl 3311 is the preferred literature course.

- **ENGL 3311** - American Indian Literature [HDIV] (4.0 cr)
- or **ENGL 3312** - World Indigenous Literature and Film [HDIV] (4.0 cr)
- **HIST 2251** - American Indians and the United States: A History [HDIV] (4.0 cr)

**Elective Courses**

Students must complete at least 20 credits from the electives listed below, subject to the following restrictions:

1. Courses are exclusive of any used to complete the required courses.
2. At least 12 credits must be from primary NAIS courses.
3. No more than 4 credits of directed studies (X993) may be applied to the major.
4. No more than 3 credits of ARTS 1050 may be applied to the major.
5. No more than 8 credits of American Indigenous languages may be applied to the major.

Take 20 or more credit(s) from the following:

**Primary Native American and Indigenous Studies**

Take 12 or more credit(s) from the following:

- **ANTH 3402** - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4.0 cr)
- **ANTH 3455** - North American Archaeology [SS] (4.0 cr)
- **ANTH 3465** - Archaeology and Native Peoples [HDIV] (4.0 cr)
- **ENGL 3311** - American Indian Literature [HDIV] (4.0 cr)
- **ENGL 3312** - World Indigenous Literature and Film [HDIV] (4.0 cr)
- **ENGL 4017** - Research Seminar: Tricksters-Conjurers in American Indian and African American Literature [HDIV] (4.0 cr)

- **HIST 2252** - Comparative Indigenous History: Beyond Native America [HIST] (4.0 cr)
- **HIST 3304** - Race, Class, and Gender in American History [HDIV] (4.0 cr)
- **HIST 3359** - Native Strategies for Survival, 1880-1920 [HDIV] (4.0 cr)
- **HIST 3402** - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4.0 cr)
- **HIST 3403** - American Indian Education: History and Representation [E/CR] (4.0 cr)
- **HIST 3614** - Race and Ethnicity in Latin America [HDIV] (4.0 cr)
- **NAIS 1801** - American Indian Song and Dance [IC] (2.0 cr)
- **NAIS 1803** - Native America in the 20th Century [IC] (4.0 cr)
- **NAIS 2212** - Indian Residential Schools: Their History and Legacy [E/CR] (2.0 cr)
- **NAIS 2252** - Comparative Indigenous History: Beyond Native America [HIST] (4.0 cr)
- **NAIS 2801** - Anishinaabe Song and Dance: An Exploration of Song and Dance, Traditions and Practices [HDIV] (4.0 cr)
- **NAIS 2993** - Directed Study (1.0 - 5.0 cr)
- **NAIS 3220** - Indigenous Language and Cultural Immersion Experience (1.0 - 2.0 cr)
- **NAIS 3403** - American Indian Education: History and Representation [E/CR] (4.0 cr)
- **NAIS 3404** - Contemporary Research Issues in Native America [E/CR] (4.0 cr)
- **NAIS 3405** - Digital Workshop in Native American and Indigenous Studies [E/CR] (2.0 cr)
- **NAIS 3993** - Directed Study (1.0 - 5.0 cr)

**Primary Native American and Indigenous Studies, Indigenous Languages**

Take at most 8 credit(s) from the following:

- **NAIS 1001** - Beginning Dakota Language I (4.0 cr)
- **NAIS 1002** - Beginning Dakota Language II [FL] (4.0 cr)
- **NAIS 1011** - Beginning Anishinaabe Language I (4.0 cr)
- **NAIS 1012** - Beginning Anishinaabe Language II [FL] (4.0 cr)
- **NAIS 1054** - Associated Languages: Introduction to Nahuatl Language [IP] (4.0 cr)
- **NAIS 2011** - Intermediate Anishinaabe Language I [HUM] (4.0 cr)
- **NAIS 2012** - Intermediate Anishinaabe Language II [HUM] (4.0 cr)

**Related Native American and Indigenous Studies**

Take at most 8 credit(s) from the following:

- **ARTS 1008** - Visual Studies for Non-Majors: Ceramics [ART/P] (2.0 - 4.0 cr)
- **CMR 3411** - Intercultural Communication Theory and Research [HDIV] (4.0 cr)
- **ENGL 3301** - U.S. Multicultural Literature [HDIV] (4.0 cr)
- **HIST 2451** - The American West [HIST] (4.0 cr)
- **PSY 3542** - Multicultural Psychology [HDIV] (4.0 cr)
• SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
• SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)

Other Elective Courses
Directed studies and interdisciplinary internships, with appropriate subject matter, may be used to meet the elective requirements.
Morris Campus

Native American and Indigenous Studies Minor

Academic Affairs

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 20

The Native American and Indigenous Studies minor is designed to enhance students' awareness and their overall knowledge about sovereignty and the diversity of Indigenous cultures with primary focus on the United States. Minors are required to engage and learn American Indian histories, cultures, literatures, languages, arts, sciences, and expressive cultures.

Program Student Learning Outcomes:

Native American and Indigenous Studies promotes critical thinking, writing, and communication skills that are also rooted in Indigenous knowledge systems and community involvement by

Developing proficiency in core concepts in the field of Native American and Indigenous Studies;
Locating, exploring, and critically analyzing texts relevant to Native American and Indigenous Studies;
Acquiring an awareness of the complexities of tribal sovereignty;
Developing skills and knowledge necessary to engage in collaborative and ethical research within Indigenous Studies;
Applying interdisciplinary skills and approaches in the study of Indigenous peoples within local and global contexts;
Writing and speaking effectively.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Native American and Indigenous Studies students are especially encouraged to take an American indigenous language, such as Anishinaabe or Dakota.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements. Courses may not be taken S-N unless course is offered as S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- NAIS 1101 - Introduction to Native American and Indigenous Studies [HDIV] (4.0 cr)

Electives

Students must complete at least 16 credits from the electives below, subject to the following restrictions:
1. Students must have at least one course from two of the disciplines below.
2. No more than 4 credits of directed studies (X993) may be applied to the minor.
3. No more than 8 credits of an American Indigenous language may apply to the minor.
4. At least 3 credits must be at the 3xxx level or higher.
Take 16 or more credit(s) from the following:
- ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4.0 cr)
- ANTH 3455 - North American Archaeology [SS] (4.0 cr)
- ANTH 3465 - Archaeology and Native Peoples [HDIV] (4.0 cr)
- ANTH 3993 - Directed Study (1.0 - 5.0 cr)
- ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HDIV] (4.0 cr)

Division of Humanities

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 40
- Degree: Bachelor of Arts

The philosophy program provides an environment in which students receive rich, well-rounded instruction in philosophy, whose pursuit is essential to a liberal arts education.

Program Student Learning Outcomes
UMM’s philosophy curriculum offers coursework in all major subfields of philosophy including the history of philosophy, metaphysics and logic, epistemology, and values. As a field of study, philosophy is at the core of a liberal arts education, as its skills encourage independent thought and interdisciplinary, integrated inquiry. Specifically, UMM's philosophy program offers students the opportunity to:

- Explore philosophy's fundamental questions and proposed answers;
- Cultivate their own philosophical powers, which include creativity, sensitivity, intellectual courage, open-mindedness and critical-mindedness, logical rigor, and analytical precision;
- Join the great conversation by contributing their own considered insights;
- Hone their ability to speak and write effectively.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

• PHIL 4130 - Contemporary Issues in Philosophy [HUM] (4.0 cr)
• PHIL 4131 - Personal Identity, Proper Names, and Essences [HUM] (4.0 cr)

Additional 4xxx Elective
One additional 4xxx course exclusive of those used to meet other major requirements or electives.
Take 4 or more credit(s) from the following:
• PHIL 4xxx
Morris Campus

Philosophy Minor
Division of Humanities - Adm

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 24
- This program requires summer terms.

The philosophy program provides an environment in which students receive rich, well-rounded instruction in philosophy, essential to a liberal arts education.

Program Student Learning Outcomes:
UMM’s philosophy curriculum offers coursework in all major subfields of philosophy: the history of philosophy, metaphysics and logic, epistemology, and values. As a field of study, philosophy is at the core of a liberal arts education, as its skills encourage independent thought and interdisciplinary, integrated inquiry. Specifically, UMM’s philosophy program offers students the opportunity to:

Explore philosophy’s fundamental questions and proposed answers;
Cultivate their own philosophical powers, which include creativity, sensitivity, intellectual courage, open-mindedness and critical-mindedness, logical rigor, and analytical precision;
Join the great conversation by contributing their own considered insights;
Hone their ability to speak and write effectively.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Take 8 or more credit(s) from the following:
- PHIL 2101 - Introduction to Symbolic Logic [M/SR] (4.0 cr)
- PHIL 2111 - Introductory Ethics [HUM] (4.0 cr)
- PHIL 1101 - Introduction to Philosophy [HUM] (4.0 cr)
  or PHIL 1801 - THINK: An Introduction to Philosophy [IC] (4.0 cr)

Core Courses
Take 8 or more credit(s) from the following:
- PHIL 3101 - Metaphysics [HUM] (4.0 cr)
- PHIL 3121 - Political Philosophy [SS] (4.0 cr)
- PHIL 3141 - The Theory of Knowledge [HUM] (4.0 cr)
- PHIL 3151 - History of Ancient Philosophy [HIST] (4.0 cr)
- PHIL 3171 - History of Modern Philosophy [HIST] (4.0 cr)
- PHIL 4111 - Ethical Theory [HUM] (4.0 cr)

Elective Courses
Take 8 or more credit(s) from the following:
- PHIL 2112 - Professional Ethics [E/CR] (4.0 cr)
- PHIL 2113 - International and Biomedical Ethics [HUM] (4.0 cr)
- PHIL 2114 - Environmental Ethics [ENVT] (4.0 cr)
- PHIL 2121 - Philosophy of Religion [HUM] (4.0 cr)
- PHIL 2141 - Analytic Feminism [HUM] (4.0 cr)
- PHIL 2151 - Philosophy of Mind [HUM] (4.0 cr)
- PHIL 2161 - Philosophy and Film [HUM] (4.0 cr)
• PHIL 2162 - Ethics of Love and Sex [HUM] (4.0 cr)
• PHIL 3112 - Free Will [HUM] (4.0 cr)
• PHIL 3131 - Philosophy of Law [SS] (4.0 cr)
• PHIL 4000 - History of Philosophy Seminar [HIST] (4.0 cr)
• PHIL 4002 - Existentialism [HIST] (4.0 cr)
• PHIL 4100 - Moral Issues and Theories [HUM] (4.0 cr)
• PHIL 4121 - Philosophy of Language [HUM] (4.0 cr)
• PHIL 4130 - Contemporary Issues in Philosophy [HUM] (4.0 cr)
• PHIL 4131 - Personal Identity, Proper Names, and Essences [HUM] (4.0 cr)

Physics B.A.
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 58
- Degree: Bachelor of Arts

The physics program is designed to develop the following student learning outcomes:
1. Students will understand the concepts of classical and modern physics while also developing their ability to solve quantitative problems in these areas.
2. Students acquire the skills necessary to perform experimental work.
3. The program develops students' ability to communicate, in form and content, both orally and in writing, the results of scientific work.

The physics program offers a background suitable for students planning to pursue graduate study or careers in industry, research, or teaching. It also provides a solid foundation for any career requiring analytical reasoning.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Courses may not be taken S-N. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of F are included in GPA calculation until they are replaced. No grades below C- are allowed.

Required Courses
MATH 1101 - Calculus I [M/SR] (5.0 cr)
MATH 1102 - Calculus II [M/SR] (5.0 cr)
MATH 2101 - Calculus III [M/SR] (4.0 cr)
MATH 2401 - Differential Equations [M/SR] (4.0 cr)
PHYS 1101 - General Physics I [SCI-L] (5.0 cr)
PHYS 1102 - General Physics II [SCI-L] (5.0 cr)
PHYS 2101 - Modern Physics [SCI-L] (4.0 cr)
PHYS 3101 - Classical Mechanics [SCI] (4.0 cr)
PHYS 4101 - Electromagnetism (4.0 cr)
PHYS 4201 - Quantum Mechanics (4.0 cr)
PHYS 4901 - Senior Thesis I (1.0 cr)
PHYS 4902 - Senior Thesis II (1.0 cr)

Elective Courses
Take 12 or more credit(s) from the following:
- PHYS 2201 - Circuits and Electronic Devices [SCI-L] (4.0 cr)
- PHYS 3003 - Computer Modeling of Materials [SCI] (2.0 cr)
- PHYS 3004 - Atmospheric Physics [ENVT] (4.0 cr)
- PHYS 3151 - Solid State Physics (2.0 cr)
- PHYS 3152 - Particle and Nuclear Physics (2.0 cr)
- PHYS 3301 - Optics (4.0 cr)
- PHYS 3401 - Experimental Physics [SCI-L] (4.0 cr)
- PHYS 3501 - Statistical Physics [SCI] (4.0 cr)

Political Science B.A.
Division of Social Sciences - Adm
Division of Social Sciences

• Program Type: Baccalaureate
• Requirements for this program are current for Fall 2019
• Required credits to graduate with this degree: 120
• Required credits within the major: 40
• Degree: Bachelor of Arts

Political science is the comprehensive study of the behaviors, organizations, institutions, and philosophical foundations of political life at the individual, state, national, and international settings.

Objectives:
The major program is designed to prepare students for lifelong civic engagement and leadership in democratic society, as well as intercultural competence as global citizens. The political science major curriculum stresses the development of strong analytical skills and critical thinking and prepares students for further academic training in political science, law, public administration, international relations, and other graduate programs as well as for work in public affairs, business, journalism, interest groups, and a wide range of other careers.

Program Student Learning Outcomes:
1. Students will know and remember significant terms, processes, concepts, principles, and theories in political science research across the sub-fields.
2. Students will know and utilize multiple methods of analysis and synthesize their knowledge and skills to design, conduct, and present independent political research.
3. Students will understand and be able to compare, contrast, and explain perspectives on global and cross-cultural issues at the state, national, and international levels.
4. Students will demonstrate effective skills in oral and written analysis through identification and production of the parts, relationships, and organizing principles of political research communication.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

The political science major requires 40 credit hours of political science courses. Of those, 16 are required core courses and 24 are elective courses. The political science discipline strongly recommends that students take advantage of opportunities in internships, field studies, and study abroad.

Students are also strongly encouraged to take advantage of courses in other disciplines such as economics, history, psychology, philosophy, and statistics that will complement and enrich their political science coursework. Symbolic Logic (PHIL 2101) is recommended for pre-law students and statistics (STAT 1601 or 2601) for other political science majors.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.
Required Courses

Introductory Courses
Take 2 or more course(s) from the following:
• POL 1101 - Introduction to Political Theory [E/CR] (4.0 cr)
• POL 1201 - American Government and Politics [E/CR] (4.0 cr)
• POL 1202 - Law and Society: Introduction to Public Law [SS] (4.0 cr)
• POL 1401 - World Politics [IP] (4.0 cr)

Research Methods
POL 2001 - Political Science Research Methods [SS] (4.0 cr)

Senior Seminar
Take exactly 1 course(s) from the following:
• POL 4205 - Seminar in American Politics (4.0 cr)
• POL 4305 - Seminar in Political Theory (4.0 cr)
• POL 4405 - Seminar in Comparative Politics and International Relations (4.0 cr)

Electives
Within the 24 additional elective credits, majors are required to complete:
- at least 4 credits of 2000-level work in addition to 2001.
- at least 12 credits of 3000-level work.

Additional options for majors (exclusive of courses used for the core requirement):
Majors may complete:
- one additional 4000-level course
- one additional 1000-level course
- up to 8 credits of Pol 1993, 2993, 3993, 4993 with discipline approval
- up to 4 credits of Pol 3996 with discipline approval

Political Science majors must satisfy distribution requirement by taking at least 4 credits in each of the three areas (American Politics, International and Comparative Politics, and Political Theory). Students may take an additional 4xxx course as an elective.

Take 24 or more credit(s) from the following:

American Politics
Take 4 or more credit(s) from the following:
• POL 2221 - The American Judicial Process [SS] (2.0 cr)
• POL 2222 - The U.S. Supreme Court [SS] (2.0 cr)
• POL 2234 - Race, Class and Power: Social Movements in U.S. Politics [HDIV] (2.0 cr)
• POL 2235 - Race, Class and Power: Interest Groups in U.S. Politics [HDIV] (2.0 cr)
• POL 2261 - States: Laboratories of American Democracy [E/CR] (2.0 cr)
• POL 2262 - Power and Politics in American Cities and Communities [E/CR] (2.0 cr)
• POL 3201 - Legislative Process [SS] (4.0 cr)
• POL 3211 - The American Presidency [SS] (4.0 cr)
• POL 3231 - Constitutional Law: Civil Liberties and Civil Rights [HDIV] (4.0 cr)
• POL 3232 - Constitutional Law: Governmental Powers and Constraints [SS] (4.0 cr)
• POL 3251 - American Democracy in Action: Campaigns, Elections, and Political Behavior [SS] (4.0 cr)
• POL 3263 - Political Psychology [SS] (4.0 cr)
• POL 3266 - Media in American Politics [SS] (4.0 cr)
• POL 3272 - Making Environmental Public Policy [ENVT] (4.0 cr)

International and Comparative Politics
Take 4 or more credit(s) from the following:
• POL 2401 - U.S. Foreign Policy [IP] (4.0 cr)
• POL 2411 - Model United Nations [IP] (4.0 cr)
• POL 2461 - Diplomatic Negotiation [IP] (4.0 cr)
• POL 2501 - East Asian Society and Politics [SS] (4.0 cr)
• POL 3411 - International Law [IP] (4.0 cr)
• POL 3451 - Comparative Foreign Policy (4.0 cr)
• POL 3453 - Russian Politics and Foreign Policy [IP] (4.0 cr)
• POL 3475 - International Human Rights (4.0 cr)
• POL 3504 - Latin American Politics (4.0 cr)

Political Theory
Take 4 or more credit(s) from the following:
• POL 2301 - Anarchy and Utopia [HUM] (2.0 cr)
• POL 2302 - Gandhi and the Politics of Resistance [SS] (2.0 cr)
• POL 2354 - Political Ethics [E/CR] (4.0 cr)
• POL 3302 - Islamic Political Thought [SS] (2.0 cr)
• POL 3303 - Gender, Sexuality, and Political Theory [SS] (2.0 cr)
• POL 3351 - Ancient and Medieval Political Thought [HUM] (4.0 cr)
• POL 3352 - Modern Political Thought [HUM] (4.0 cr)
• POL 3355 - Environmental Political Theory [ENVT] (4.0 cr)

Political Science Minor

Division of Social Sciences

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 20

Political science is the comprehensive study of the behaviors, organizations, institutions, and philosophical foundations of political life at the individual, state, national, and international settings.

Objectives:
The minor program is designed to prepare students for lifelong civic engagement and leadership in democratic society, as well as intercultural competence as global citizens.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
The political science minor requires 20 credit hours of political science courses.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Take 1 or more course(s) from the following:
- POL 1101 - Introduction to Political Theory [E/CR] (4.0 cr)
- POL 1201 - American Government and Politics [E/CR] (4.0 cr)
- POL 1202 - Law and Society: Introduction to Public Law [SS] (4.0 cr)
- POL 1401 - World Politics [IP] (4.0 cr)

Elective Courses
Courses used to satisfy electives are exclusive of any used to complete the required courses.

Take 12 or more credits from 2xxx, 3xxx or 4xxx. At least 4 credits must be from 3xxx or 4xxx level.

Take at most 4 credit(s) from the following:
- POL 1101 - Introduction to Political Theory [E/CR] (4.0 cr)
- POL 1201 - American Government and Politics [E/CR] (4.0 cr)
- POL 1202 - Law and Society: Introduction to Public Law [SS] (4.0 cr)
- POL 1401 - World Politics [IP] (4.0 cr)

Take at most 8 credit(s) from the following:
- POL 2001 - Political Science Research Methods [SS] (4.0 cr)
- POL 2221 - The American Judicial Process [SS] (2.0 cr)
- POL 2222 - The U.S. Supreme Court [SS] (2.0 cr)
- POL 2234 - Race, Class and Power: Social Movements in U.S. Politics [HDIV] (2.0 cr)
- POL 2235 - Race, Class and Power: Interest Groups in U.S. Politics [HDIV] (2.0 cr)
- POL 2261 - States: Laboratories of American Democracy [E/CR] (2.0 cr)
- POL 2262 - Power and Politics in American Cities and Communities [E/CR] (2.0 cr)
- POL 2301 - Anarchy and Utopia [HUM] (2.0 cr)
- POL 2302 - Gandhi and the Politics of Resistance [SS] (2.0 cr)
- POL 2354 - Political Ethics [E/CR] (4.0 cr)
- POL 2401 - U.S. Foreign Policy [IP] (4.0 cr)
- POL 2411 - Model United Nations [IP] (4.0 cr)
- POL 2461 - Diplomatic Negotiation [IP] (4.0 cr)
- POL 2501 - East Asian Society and Politics [SS] (4.0 cr)

- Required credits within the major: 42
- Degree: Bachelor of Arts

The psychology curriculum focuses on understanding scientific methods and applying them to both human and non-human behaviors and mental processes. It provides students with methodological skills, practice in applying these skills, and an introduction to core areas of psychology. The major provides a comprehensive selection of courses that fully prepare students for a wide range of careers and graduate and professional studies.

Student Learning Outcomes:
Goal 1: Knowledge base in psychology
1.1 Understand the spectrum of psychological phenomena related to behavior and mental processes and how the environment (ranging from biological to sociocultural influences) affect both.
1.2 Obtain a knowledge of psychology's main content domains and applications.

Goal 2: Scientific inquiry and critical thinking
2.1 Ability to use scientific reasoning to interpret psychological phenomena.
2.2 Demonstrate psychology information literacy.
2.3 Engage in innovative and integrative thinking and problem solving.
2.4 Gain exposure to interpreting, designing, and conducting psychological research.
2.5 Attain awareness of ethical issues in psychology.

Goal 3: Communication
3.1 Demonstrate effective writing.
3.2 Exhibit effective presentation skills.
3.3 Exhibit effective discussion skills.

Goal 4: Information and technological literacy
4.1 Exposure to psychological statistical packages.
4.2 Ability to utilize databases related to psychology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.
Required Courses

PSY 1051 - Introduction to Psychology [SS] (4.0 cr)
PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Take at least one course from each of the following areas. One course must be a designated lab course. Lab courses include: Psy 3101, 3111, 3112, 3201, 3211, 3504, 3521.

Learning and Cognition

Take 1 or more course(s) from the following:
- PSY 3101 - Learning Theory and Behavior Modification (4.0 cr)
- PSY 3111 - Sensation and Perception (4.0 cr)
- PSY 3112 - Cognition (4.0 cr)
- PSY 3504 - Educational Psychology (4.0 cr)

Biological and Comparative Psychology

Take 1 or more course(s) from the following:
- PSY 3201 - Comparative Psychology [SCI-L] (4.0 cr)
- PSY 3211 - Biological Psychology [SCI-L] (5.0 cr)
- PSY 3521 - Health Psychology (4.0 cr)
- PSY 3581 - Psychopharmacology (2.0 cr)

Personality and Clinical Psychology

Take 1 or more course(s) from the following:
- PSY 3302 - Personality (4.0 cr)
- PSY 3313 - Psychopathology (4.0 cr)
- PSY 3314 - Child and Adolescent Psychopathology (4.0 cr)
- PSY 4101 - Helping Relationships (4.0 cr)
- PSY 4301 - Clinical Assessment and Therapeutic Interventions (4.0 cr)

Developmental Psychology

Take 1 or more course(s) from the following:
- PSY 2411 - Lifespan Developmental Psychology [SS] (4.0 cr)
- PSY 3051 - The Psychology of Women and Gender [HDIV] (4.0 cr)
- PSY 3401 - Child Development (4.0 cr)
- PSY 3402 - Adolescent and Emerging Adult Development (4.0 cr)
- PSY 3403 - Adult Development and Aging [E/CR] (4.0 cr)
- PSY 3404 - Culture and Human Development [HDIV] (4.0 cr)

Social and Applied Psychology

Take 1 or more course(s) from the following:
- PSY 3501 - Social Psychology (4.0 cr)
- PSY 3503 - Consumer Behavior [SS] (4.0 cr)
- PSY 3513 - Negotiation (4.0 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)
- PSY 3701 - Organizational Behavior [SS] (4.0 cr)

Advanced Seminar in Psychology

Take exactly 1 course(s) from the following:
- PSY 4910 - Advanced Seminar in Learning or Cognitive Psychology (4.0 cr)
- PSY 4920 - Advanced Seminar in Biological or Comparative Psychology (4.0 cr)
- PSY 4930 - Advanced Seminar in Clinical or Multicultural Psychology (4.0 cr)
- PSY 4940 - Advanced Seminar in Developmental Psychology (4.0 cr)
- PSY 4950 - Advanced Seminar in Social or Organizational Psychology (4.0 cr)
- PSY 4960 - Advanced Seminar in Health Psychology (4.0 cr)
- PSY 4970 - Advanced Seminar in Psychology (4.0 cr)

Elective Courses

Additional elective credits to total at least 42 credits in the major (including required courses). No more than 4 credits of either IS 3796 or Psy 4896 may be applied to the major.

Electives may be selected from any category above (except advanced seminars), and the following:

Take 1 or more course(s) from the following:
- IS 3796 - Interdisciplinary Internship in the Helping Professions (1.0 - 16.0 cr)
- IS 3800 - Practicum in Social Sciences (1.0 - 2.0 cr)
- POL 3263 - Political Psychology [SS] (4.0 cr)
- PSY 2402 - Family Interaction Dynamics [SS] (4.0 cr)
- PSY 2581 - Drugs and Human Behavior [SS] (2.0 cr)
- PSY 2993 - Directed Study (1.0 - 5.0 cr)
- PSY 3121 - Psychology of Creativity (4.0 cr)
- PSY 3261 - Human Sexuality (4.0 cr)

• PSY 4771 - Independent Research in Psychology (1.0 - 6.0 cr)
• PSY 4772 - Empirical Investigations in Psychology II (2.0 cr)
• PSY 4896 - Field Experiences in Mental Health (1.0 - 4.0 cr)
• PSY 4993 - Directed Study (1.0 - 5.0 cr)
• STAT 3601 - Data Analysis [M/SR] (4.0 cr)
• STAT 3611 - Multivariate Statistical Analysis [M/SR] (4.0 cr)
Morris Campus
Psychology Minor
Division of Social Sciences - Adm
Division of Social Sciences

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 30

The psychology curriculum focuses on understanding scientific methods and applying them to both human and non-human behaviors and mental processes. It provides students with methodological skills, practice in applying these skills, and an introduction to core areas of psychology. The major provides a comprehensive selection of courses that fully prepare students for a wide range of careers and graduate and professional studies.

The psychology curriculum is designed to ensure that students achieve the following goals:

Goal 1: Knowledge base in psychology
1.1 Understand the spectrum of psychological phenomena related to behavior and mental processes and how the environment (ranging from biological to sociocultural influences) affect both.
1.2 Obtain a knowledge of psychology’s main content domains and applications.

Goal 2: Scientific inquiry and critical thinking
2.1 Ability to use scientific reasoning to interpret psychological phenomena.
2.2 Demonstrate psychology information literacy.
2.3 Engage in innovative and integrative thinking and problem solving.
2.4 Gain exposure to interpreting, designing, and conducting psychological research.
2.5 Attain awareness of ethical issues in psychology.

Goal 3: Communication
3.1 Demonstrate effective writing.
3.2 Exhibit effective presentation skills.
3.3 Exhibit effective discussion skills.

Goal 4: Information and technological literacy
4.1 Exposure to psychological statistical packages.
4.2 Ability to utilize databases related to psychology.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- PSY 1051 - Introduction to Psychology [SS] (4.0 cr)
- PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
- STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
  or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Take at least one course from four of the five following areas. One must be a designated lab course. Lab courses include: Psy 3101, 3111, 3112, 3201, 3211, 3504, 3521.

Learning and Cognition
Take 0 - 1 course(s) from the following:
- PSY 3101 - Learning Theory and Behavior Modification (4.0 cr)
- PSY 3111 - Sensation and Perception (4.0 cr)
- PSY 3112 - Cognition (4.0 cr)
•PSY 3504 - Educational Psychology (4.0 cr)

Biological and Comparative Psychology
Take 0 - 1 course(s) from the following:
•PSY 3201 - Comparative Psychology [SCI-L] (4.0 cr)
•PSY 3211 - Biological Psychology [SCI-L] (5.0 cr)
•PSY 3521 - Health Psychology (4.0 cr)
•PSY 3581 - Psychopharmacology (2.0 cr)

Personality and Clinical Psychology
Take 0 - 1 course(s) from the following:
•PSY 3302 - Personality (4.0 cr)
•PSY 3313 - Psychopathology (4.0 cr)
•PSY 3314 - Child and Adolescent Psychopathology (4.0 cr)
•PSY 4101 - Helping Relationships (4.0 cr)
•PSY 4301 - Clinical Assessment and Therapeutic Interventions (4.0 cr)

Developmental Psychology
Take 0 - 1 course(s) from the following:
•PSY 2411 - Lifespan Developmental Psychology [SS] (4.0 cr)
•PSY 3051 - The Psychology of Women and Gender [HDIV] (4.0 cr)
•PSY 3401 - Child Development (4.0 cr)
•PSY 3402 - Adolescent and Emerging Adult Development (4.0 cr)
•PSY 3403 - Adult Development and Aging [E/CR] (4.0 cr)
•PSY 3404 - Culture and Human Development [HDIV] (4.0 cr)

Social and Applied Psychology
Take 0 - 1 course(s) from the following:
•PSY 3501 - Social Psychology (4.0 cr)
•PSY 3503 - Consumer Behavior [SS] (4.0 cr)
•PSY 3513 - Negotiation (4.0 cr)
•PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)
•PSY 3701 - Organizational Behavior [SS] (4.0 cr)

Elective Courses
Additional elective credits to total at least 30 credits in the minor (including required courses). No more than 4 credits of either IS 3496 or Psy 4896 may be applied to the minor.

Electives may be selected from any category above and the following:
Take 1 or more course(s) from the following:
•IS 3760 - Interdisciplinary Internship in the Helping Professions (1.0 - 16.0 cr)
•IS 3800 - Practicum in Social Sciences (1.0 - 2.0 cr)
•POL 3263 - Political Psychology [SS] (4.0 cr)
•PSY 2402 - Family Interaction Dynamics [SS] (4.0 cr)
•PSY 2581 - Drugs and Human Behavior [SS] (2.0 cr)
•PSY 2993 - Directed Study (1.0 - 5.0 cr)
•PSY 3121 - Psychology of Creativity (4.0 cr)
•PSY 3611 - History and Philosophy of Psychology [HIST] (4.0 cr)
•PSY 3800 - Research Practicum (1.0 - 12.0 cr)
•PSY 3993 - Directed Study (1.0 - 5.0 cr)
•PSY 4102 - Intro to Prof Conduct, Legal Constraints, Ethics in Human Services [E/CR] (2.0 cr)
•PSY 4770 - Empirical Investigations in Psychology I (2.0 cr)
•PSY 4771 - Independent Research in Psychology (1.0 - 6.0 cr)
•PSY 4772 - Empirical Investigations in Psychology II (2.0 cr)
•PSY 4896 - Field Experiences in Mental Health (1.0 - 4.0 cr)
•PSY 4993 - Directed Study (1.0 - 5.0 cr)
•STAT 3601 - Data Analysis [M/SR] (4.0 cr)
•STAT 3611 - Multivariate Statistical Analysis [M/SR] (4.0 cr)
Program Type: Other
Requirements for this program are current for Fall 2019
Required credits to graduate with this degree: 41 to 43
This program is 8 terms (4 years) long.

This discipline is in the Division of Education. A separate admissions process must be completed and admission granted before students can enroll in this program.

The secondary education program leads to Minnesota licensure as a teacher in specified liberal arts disciplines.

Program Student Learning Outcomes (PSLOs)-Coursework in secondary education is designed to meet standards of effective practice required for licensure and provide prospective teachers with opportunities to do the following:

- Understand central concepts, tools of inquiry, and structures of disciplines taught in the middle and secondary school;
- Understand adolescent development theory, individual and group motivation, and diversity among learners;
- Create instructional opportunities adapted to learners from diverse cultural backgrounds, and with exceptionalities;
- Use instructional strategies and technologies that reflect personal knowledge of effective verbal, nonverbal, and media communication technique;
- Encourage development of critical thinking, problem solving, and performance skills;
- Understand and use formative and summative methods of student assessment;
- Collaborate with parents/guardians, families, school colleagues, and the community in an ethical manner.

To obtain a teaching license, an individual must have completed a major, a bachelor's degree, and licensure requirements in the area(s) in which licensure is sought. UMM is approved to recommend teaching licensure in the following fields: chemistry (9-12), communication arts and literature (5-12), French (K-12), general science (5-8), instrumental music (K-12), life science (9-12), mathematics (5-12), physics (9-12), social studies (5-12), Spanish (K-12), visual arts (K-12), and vocal music (K-12).

Coursework required for licensure, in most cases, is not equivalent to a major. Consult an advisor in the discipline to determine major requirements.

Students planning to seek Minnesota teaching licensure at the secondary school level must complete licensure requirements in the discipline(s) of the subject(s) they intend to teach, the secondary teacher education program, and state and federally mandated examinations for new teachers. A minimum GPA of 2.75 is required in licensure area(s) and in education prerequisite courses. A minimum GPA of 2.50 is required overall. The GPA includes all course work. Grades of "F" are included in GPA calculation until they are replaced. All courses required for teaching licensure in secondary education (discipline, professional education, or other courses) must be completed with a grade of C- or better. Required courses must be taken A-F, unless they are offered S-N only.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
Students must complete 90 credits before admission to the program.

A GPA above 2.0 is preferred for the following:
- 2.75 already admitted to the degree-granting college
- 2.75 transferring from another University of Minnesota college
- 2.75 transferring from outside the University

For admission to the one-year program which begins each fall, students must apply in the fall of the preceding year. Admissions decisions are made in early spring.

Transfer students must be admitted to UMM before admission to the secondary program can be offered. Transfer students should seek academic planning advice from the secondary education faculty before application to the program.

Requirements
1. Completion of required basic skills examinations.
2. A minimum GPA of 2.75 is required in licensure area(s) and in education prerequisite courses and 2.50 overall. No grade below C- will be accepted in these courses.
3. Completion or near-completion of licensure courses in the content/licensure area(s) and demonstration of satisfactory progress in each licensure area.
4. Approval of the faculty based on an interview, recommendations, prior experiences with young people, and progress towards a degree.
5. Admission to UMM.

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

Required prerequisites

Courses Required for Admission

- **ED 2121 - Introduction to Education [SS] (4.0 cr)**
- **ED 2111 - Tutor-Aide Practicum (1.0 cr)**
- **PSY 2581 - Drugs and Human Behavior [SS] (2.0 cr)**
- **CMR 1042 - Public Speaking and Analysis [E/CR] (4.0 cr)**
  - or **CMR 1052 - Introduction to Public Speaking [E/CR] (2.0 cr)**
- **ED 2601 - Development, Learning, and Teaching [SS] (2.0 cr)**
  - or **PSY 2411 - Introduction to Lifespan Developmental Psychology [SS] (4.0 cr)**
  - or **PSY 3401 - Developmental Psychology I: Child Psychology (4.0 cr)**
  - or **PSY 3504 - Educational Psychology (4.0 cr)**

General Requirements

All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements

Student Teaching Requirements

1. **Successful completion of:**
   - **SEED 4102 - Teaching and Learning Strategies (2.0 cr)**
   - **SEED 4103 - Practicum Experience in the Middle and Secondary School (4.0 cr)**
   - **SEED 4104 - Teaching Diverse Learners [HDIV] (2.0 cr)**
   - **SEED 4105 - Reading and Literacy in the Content Areas (2.0 cr)**
   - **ED 4121 - Strategies for Inclusive Schooling (2.0 cr)**

2. **SEED 4115 - Advanced Content Reading**
   - **SEED 4115 - Advanced Content Reading [HUM] (2.0 cr)**

3. **Successful completion of licensure area methods course(s).**
   - **ARTE 4123 - Methods of Teaching Art K-12 (4.0 cr)**
   - or **ENGE 4121 - Methods of Teaching Communication Arts and Literature in the Middle and Secondary School (4.0 cr)**
   - or **LANE 4123 - Methods of Teaching Foreign Language K-12 (4.0 cr)**
   - or **MTHE 4121 - Methods of Teaching Mathematics in the Middle and Secondary School (4.0 cr)**
   - or **MUSE 4123 - Methods of Teaching Music K-12 (4.0 cr)**
   - or **SCIE 4121 - Methods of Teaching Science in the Middle and Secondary School (4.0 cr)**
   - or **SSCE 4121 - Methods of Teaching Social Science in the Middle and Secondary School (4.0 cr)**

4. **Satisfactory completion of tutor-aide and practicum experiences.**

5. **GPA and grade requirements**
   - 2.75 minimum GPA required in licensure area(s) and education prerequisite courses and 2.50 overall.
   - No grade below C- will be accepted.

6. **Passing scores on required basic skills examinations or faculty approved remediation plan**

7. **Approval of SeEd faculty based on recommendations from faculty in the student’s discipline.**

Middle and Secondary School Licensure Requirements

Students planning to teach at the secondary level must meet licensure requirements of the MN Board of Teaching, which change as new rules are adopted. Students must complete licensure requirements and apply for licensure within seven years of admission to the program. After seven years, all prior education courses are void and must be retaken. Coursework in the licensure area must also meet current requirements; therefore, some content courses may need to be retaken.

1. **Professional education courses:**
   - **ED 2121-Introduction to Education and ED 2111-Tutor-Aide Practicum**
   - **SEED 4102, 4103, 4104, 4105, 4115, and Ed 4121**
   - Student Teaching
SEED 4201 - Directed Student Teaching in the Middle and Secondary School [HDIV] (12.0 cr)
or SEED 4204 - Directed Global Student Teaching at the Middle and Secondary Level [IP] (1.0 - 16.0 cr)
ED 4901 - The Teacher and Professional Development (1.0 cr)

2. Successful completion of licensure area methods course(s).
3. ED 2601 Development, Learning & Teaching or PSY 2411 or PSY 3401 or PSY 3504
   or PSY 2411 - Introduction to Lifespan Developmental Psychology [SS] (4.0 cr)
   or PSY 3401 - Developmental Psychology I: Child Psychology (4.0 cr)
   or PSY 3504 - Educational Psychology (4.0 cr)
4. PSY 2581 Drug and Human Behavior
5. CMR 1052-Introduction to Public Speaking or CMR 1042-Public Speaking and Analysis.
6. GPA and grade requirements
   2.75 minimum GPA required in licensure area(s) and education prerequisite courses and 2.50 overall.
   No grade below C- will be accepted.
7. Approval of SeEd faculty based on recommendations from faculty in the student's discipline.
8. Passing scores on all state-required basic skills, pedagogy, content, and performance examination

Program Sub-plans
Students are required to complete one of the following sub-plans.

Chemistry 9-12
Chemistry 9-12
BIOL 1111 is a prerequisite course for BIOL 2111.
CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
CHEM 2301 - Organic Chemistry I [SCI] (4.0 cr)
CHEM 2311 - Organic Chemistry Lab I (1.0 cr)
CHEM 2321 - Introduction to Research I (1.0 cr)
CHEM 2322 - Introduction to Research II (1.0 cr)
CHEM 3101 - Analytical Chemistry [SCI-L] (4.0 cr)
CHEM 3501 - Physical Chemistry I [SCI] (4.0 cr)
BIOL 2111 - Cell Biology [SCI-L] (4.0 cr)
MATH 1101 - Calculus I [M/SR] (5.0 cr)
PHYS 1101 - General Physics I [SCI-L] (5.0 cr)
CHEM 2302 - Organic Chemistry II [SCI] (4.0 cr)
or CHEM 2304 - Organic Chemistry II with a Biological Emphasis [SCI] (4.0 cr)

Communication Arts and Literature 5-12
Communication Arts & Literature 5-12
CMR 1062 - Introduction to Interpersonal and Group Communication [HUM] (4.0 cr)
CMR 1101 - Introduction to Theories of Communication, Media, and Rhetoric [HUM] (4.0 cr)
CMR 4152 - Advanced Public Speaking [HUM] (4.0 cr)
ENGL 2501 - Literary Studies [HUM] (4.0 cr)
ENGL 3021 - Grammar and Language [HUM] (4.0 cr)
ENGL 3005 - Understanding Writing: Theories and Practices [HUM] (4.0 cr)
or ENGL 3032 - Creative Nonfiction Writing [ART/P] (4.0 cr)
Study of Shakespeare (ENGL 3159-Shakespeare: Studies in the Bard or ENGL 2059-Introduction to Shakespeare strongly recommended, ENGL 2059 preferred)
ENGL 3301 - U.S. Multicultural Literature [HDIV] (4.0 cr)
or ENGL 3312 - World Indigenous Literature and Film [HDIV] (4.0 cr)
TH 2111 - Creative Drama with Children [ART/P] (4.0 cr)
or TH 2211 - Oral Interpretation [ART/P] (4.0 cr)

French K-12
French K-12
One cross-listed French course taught in English (such as Fren 1027, 1031, 1302, or 1311, ) may be counted towards the French licensure, provided that students complete written work for the class in French.
HUM 1305 - Career Preparation in World Languages (1.0 cr)
FREN 2001 - Intermediate French I [IP] (4.0 cr)
FREN 2002 - Intermediate French II [IP] (4.0 cr)
FREN 2014 - Explorations in Cultures (1.0 cr)
FREN 3002 - Civilization and Composition: Tools for Studying the Medieval and Early Modern Periods [HIST] (2.0 cr)
FREN 3003 - Civilization and Composition: France Since the Enlightenment [HIST] (2.0 cr)
FREN 3004 - Civilization and Composition: Colonialism and Francophone Worlds [HIST] (2.0 cr)
FREN 3011 - Introduction to French and Francophone Literature [HUM] (4.0 cr)
FREN 3112 - Advanced Language Studies: Introduction to French Phonetics (2.0 - 4.0 cr)
FREN 3113 - Advanced Language Studies: Introduction to Translation (2.0 - 4.0 cr)
or
FREN 3114 - Advanced Language Studies: Advanced French Grammar (2.0 - 4.0 cr)

Medieval Early Modern Studies (MEMS)
One course from Medieval and Early Modern Studies:
FREN 3402 - Medieval and Early Modern Studies: Pre-Enlightenment Culture in France (2.0 - 4.0 cr)
or
FREN 3406 - Medieval and Early Modern Studies: Emotional Extremes in Medieval and Early Modern Literature (4.0 cr)
or
FREN 3407 - Medieval and Early Modern Studies: The "East" and its Marvels (2.0 - 4.0 cr)
or
FREN 3408 - Medieval and Early Modern Studies: Quests, Quails, and Custards--Food in Life and Literature (2.0 - 4.0 cr)
or
FREN 3409 - Medieval and Early Modern Studies: Monsters and the Marvelous (2.0 - 4.0 cr)

Modern Studies (MOS)
One course from Modern Studies:
FREN 1031 - Modern Studies: The Modern Body in France [SS] (2.0 cr)
or
FREN 1302 - French Cinema [IP] (4.0 cr)
or
FREN 1303 - Paris as Text/Image/Sound [IP] (2.0 cr)
or
FREN 3501 - Modern Studies: The Old Regime and New Ideas: The French Enlightenment (4.0 cr)
or
FREN 3502 - Modern Studies: Revolution, Romanticism, Modernity (4.0 cr)
or
FREN 3503 - Modern Studies: Avant-Garde, Existentialism, Experimentation (2.0 - 4.0 cr)
or
FREN 3505 - Modern Studies: Immigration and Identity in Modern France (4.0 cr)

Francophone Studies (FRS)
One course from Francophone Studies:
FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4.0 cr)
or
FREN 3603 - Francophone Studies: Witches, Wilderness, and Words in Francophone Folktales (4.0 cr)
or
FREN 3604 - Francophone Studies: Francophone America (4.0 cr)
or
FREN 3605 - Francophone Studies: Maghrebian Cinema (4.0 cr)
or
FREN 3606 - Francophone Studies: Sub-Saharan Francophone Cinema (4.0 cr)
or
FREN 3607 - Francophone Studies: Sex and Gender in Francophone Literature and Film (4.0 cr)

Study abroad is strongly encouraged.

General Science 5-8

General Science 5-8
BIOL 1111 is a prerequisite course for BIOL 2101 and BIOL 2111.
BIOL 2101 - Evolution of Biodiversity [SCI-L] (4.0 cr)
BIOL 2111 - General Chemistry I [SCI-L] (5.0 cr)
CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
CHEM 1102 - General Chemistry II [SCI-L] (5.0 cr)
GEOL 1101 - Physical Geology [SCI-L] (4.0 cr)
PHYS 1052 - The Solar System [SCI-L] (5.0 cr)

PHYS 1091 or 1101
Prerequisite for PHYS 1101 is MATH 1101-Calculus I.
PHYS 1091 - Principles of Physics I [SCI-L] (5.0 cr)
or
PHYS 1101 - General Physics I [SCI-L] (5.0 cr)

PHYS 1092 or 1102
Prerequisite for PHYS 1102 is MATH 1102-Calculus II.
PHYS 1092 - Principles of Physics II [SCI-L] (5.0 cr)
or
PHYS 1102 - General Physics II [SCI-L] (5.0 cr)

Instrumental Music K-12

Instrumental Music K-12
MUS 1151 - Foundations of Music Theory I: Rhythm and Pitch [M/SR] (2.0 cr)
MUS 1152 - Foundations of Music Theory II: Line [FA] (2.0 cr)
MUS 1153 - Foundations of Musicianship I (1.0 cr)
MUS 1154 - Foundations of Musicianship II (1.0 cr)
MUS 1155 - Foundations in Music History I: Ancient to 1750 [HIST] (2.0 cr)
MUS 1156 - Foundations in Music History II: 1750 to Contemporary [FA] (2.0 cr)
MUS 1300 - UMM Symphonic Winds [ART/P] (1.0 cr)
MUS 2151 - Intermediate Music Theory: Form (2.0 cr)
MUS 2152 - Intermediate Music Theory: Harmony (2.0 cr)
MUS 2301 - Instrumental Techniques--Woodwind (1.0 cr)
MUS 2302 - Instrumental Techniques--Brass (1.0 cr)
MUS 2303 - Instrumental Techniques--Strings (1.0 cr)
MUS 2304 - Vocal Techniques (1.0 cr)
MUS 2305 - Instrumental Techniques--Percussion (1.0 cr)
MUS 2405 - Survey of Instrumental Wind Literature [FA] (2.0 cr)
2 of MUS 3107,3114-3118 Advanced Music History
2 of MUS 3108-3113 Advanced Theory
MUS 3200-3223-Advanced Individual Performance Studies in wind, string, percussion, or keyboard (consult with music faculty to determine performance studies requirements)
MUS 3311 - Conducting Techniques (2.0 cr)
MUS 3321 - Instrumental Conducting and Materials (2.0 cr)
MUS 3351 - Instrumental Arranging [ART/P] (2.0 cr)
MUS 4901 - Senior Project and Portfolio (1.0 cr)
MUS 2404 - The Orchestra and its Literature from the 1700s through Today [FA] (2.0 cr)
or MUS 2406 - Jazz Style and Repertoire [FA] (2.0 cr)

Concert Attendance
Seven successful completions of MUS 0100-Concert Attendance

Piano Proficiency
Music theory courses are taken concurrently with piano lessons or functional keyboard for the Music Major,( Mus 1111, 1112, 2111, 2112) until the piano proficiency test is passed.

Instrument Repair Clinic
Successful completion of the instrument repair clinic

Ensembles
Instrumental licensure students are required to enroll in seven semesters in Mus 1300 (Symphonic Winds).

Life Science 9-12

BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3.0 cr)
BIOL 2101 - Evolution of Biodiversity [SCI-L] (4.0 cr)
BIOL 2111 - Cell Biology [SCI-L] (4.0 cr)
BIOL 3121 - Molecular Biology [SCI-L] (5.0 cr)
BIOL 3131 - Ecology [SCI-L] (4.0 cr)
BIOL 3701 - Biological Communication II (1.0 cr)
BIOL 4312 - Genetics (4.0 cr)
BIOL 4901 - Senior Seminar (1.0 cr)
CHEM 1101 - General Chemistry I [SCI-L] (5.0 cr)
MATH 1021 - Survey of Calculus [M/SR] (4.0 cr)
  or MATH 1101 - Calculus I [M/SR] (5.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
  or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Mathematics 5-12

MATH 1101 - Calculus I [M/SR] (5.0 cr)
MATH 1102 - Calculus II [M/SR] (5.0 cr)
MATH 2101 - Calculus III [M/SR] (4.0 cr)
MATH 2202 - Mathematical Perspectives [M/SR] (4.0 cr)
MATH 2211 - History of Mathematics (4.0 cr)
MATH 3111 - Linear Algebra (4.0 cr)
MATH 3211 - Geometry [M/SR] (4.0 cr)
MATH 3231 - Abstract Algebra I (4.0 cr)
MATH 3411 - Discrete and Combinatorial Mathematics (4.0 cr)
STAT 2601 - Statistical Methods [M/SR] (4.0 cr)
  or STAT 2611 - Mathematical Statistics [M/SR] (4.0 cr)

Physics 9-12

Also recommended (required for physics major): MATH 2101-Calc III, MATH 2401-Differential Equations
MATH 1101 - Calculus I [M/SR] (5.0 cr)
MATH 1102 - Calculus II [M/SR] (5.0 cr)
PHYS 1101 - General Physics I [SCI-L] (5.0 cr)
PHYS 1102 - General Physics II [SCI-L] (5.0 cr)
PHYS 2101 - Modern Physics [SCI-L] (4.0 cr)
PHYS 2201 - Circuits and Electronic Devices [SCI-L] (4.0 cr)
PHYS 3301 - Optics (4.0 cr)
PHYS 3101 - Classical Mechanics [SCI] (4.0 cr)
PHYS 3501 - Statistical Physics [SCI] (4.0 cr)
PHYS 4101 - Electromagnetism (4.0 cr)
PHYS 4201 - Quantum Mechanics (4.0 cr)
Research
Other research experience (e.g., UROP, internship) can be substituted with discipline approval.
Take 1 or more sub-requirements(s) from the following:

**Senior Thesis**
- PHYS 4901 - Senior Thesis I (1.0 cr)
- PHYS 4902 - Senior Thesis II (1.0 cr)

**Directed Research**
- PHYS 1993 - Directed Study (1.0 - 5.0 cr)
  - or PHYS 2993 - Directed Study (1.0 - 5.0 cr)
  - or PHYS 3993 - Directed Study (1.0 - 5.0 cr)
  - or PHYS 4993 - Directed Study (1.0 - 5.0 cr)

**Social Studies 5-12**

Social Studies 5-12 (fulfills requirements for a social science major)
- ANTH 1111 - Introductory Cultural Anthropology [SS] (4.0 cr)
- ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
- ECON 1112 - Principles of Macroeconomics [SS] (4.0 cr)
- GEOG 2001 - Problems in Geography [ENVT] (4.0 cr)
- HIST 1111 - Introduction to World History [HIST] (4.0 cr)
- HIST 1301 - Introduction to U.S. History [HIST] (4.0 cr)
- POL 1201 - American Government and Politics [E/CR] (4.0 cr)
- PSY 1051 - Introduction to Psychology [SS] (4.0 cr)
- SOC 1101 - Introductory Sociology [SS] (4.0 cr)
- STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
  - or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)
  - or Equivalent proficiency in statistics approved by the divisional committee for the social science major.

Area of focus:
Students work closely with their advisors to plan a program that satisfies the required competencies in a chosen sub-plan and in the social science disciplines. The sub-plan most often is demonstrated by completing the minor in that discipline. Program plans must be on file with the Social Sciences Division Office by the completion of a student’s junior year.

**Anthropology**
- ANTH 1103 - People of the Past: Introduction to Archaeology [SS] (4.0 cr)
- ANTH 1201 - Becoming Human: Introduction to Biological Anthropology [SCI-L] (5.0 cr)
- ANTH 4411 - Research in Cultural Anthropology [E/CR] (4.0 cr)
An additional 8 credits (exclusive of those used to complete required courses) in anthropology and sociology; 4 of which must be in courses above 1xxx. No more than 4 credits can be from SOC courses.
Take at most 4 credit(s) from the following:
- ANTH 1xxx
- SOC 1xxx
Take 4 or more credit(s) from the following:

**Anthropology Electives**
- ANTH 3455 - North American Archaeology [SS] (4.0 cr)
- ANTH 3603 - Latin American Archaeology [SS] (4.0 cr)
- ANTH 3701 - Forensic Anthropology [SCI-L] (4.0 cr)
- ANTH 2xxx
- ANTH 3xxx
- ANTH 4xxx

**Sociology Electives**
- SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
- SOC 3103 - Research Methodology in Sociology (4.0 cr)
- SOC 3111 - Sociology of Modernization [IP] (4.0 cr)
- SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4.0 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)

Economics
ECON 3201 - Microeconomic Theory (4.0 cr)
ECON 3202 - Macroeconomic Theory (4.0 cr)
MATH 1101 - Calculus I [M/SR] (5.0 cr)

No more than 4 cr from each of the following can be applied to the sub-plan: ECON x993, ECON 4501

Take 6 or more credit(s) from the following:
•ECON 3005 - Experimental and Behavioral Economics I (2.0 cr)
•ECON 3006 - Experimental and Behavioral Economics II (2.0 cr)
•ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2.0 cr)
•ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2.0 cr)
•ECON 3009 - Political Economy (4.0 cr)
•ECON 3014 - Game Theory: The Theory of Strategic Behavior I (2.0 cr)
•ECON 3015 - Game Theory: The Theory of Strategic Behavior II (2.0 cr)
•ECON 3113 - Money, Banking, and Financial Markets (4.0 cr)
•ECON 3121 - Public Economics I (2.0 cr)
•ECON 3122 - Public Economics II (2.0 cr)
•ECON 3131 - Comparative Economic Systems I [IP] (2.0 cr)
•ECON 3134 - Cooperative Business Model (2.0 cr)
•ECON 3141 - Economic Development and Growth I [IP] (2.0 cr)
•ECON 3142 - Economic Development and Growth II [IP] (2.0 cr)
•ECON 3153 - Contemporary Global Economic Issues [IP] (2.0 cr)
•ECON 3211 - History of Economic Thought I [HIST] (2.0 cr)
•ECON 3212 - History of Economic Thought II [HIST] (2.0 cr)
•ECON 3501 - Introduction to Econometrics [M/SR] (4.0 cr)
•ECON 3993 - Directed Study (1.0 - 5.0 cr)
•ECON 4101 - Labor Economics I [HDIV] (2.0 cr)
•ECON 4102 - Labor Economics II (2.0 cr)
•ECON 4111 - Mathematical Economics I (2.0 cr)
•ECON 4112 - Mathematical Economics II (2.0 cr)
•ECON 4121 - International Trade Theory (2.0 cr)
•ECON 4131 - International Finance (2.0 cr)
•ECON 4501 - Senior Research Seminar in Economics and Management (2.0 cr)
•ECON 4993 - Directed Study (1.0 - 5.0 cr)
•ECON 3xxx
•ECON 4xxx

-OR-

History
An additional 16 credits in history of which 12 credits are at 2xxx or above. There should be course work in at least two geographic areas, with at least one of these in a non-Western area.

Take at most 4 credit(s) from the following:
•HIST 1402 - Gender, Women, and Sexuality in American History [HDIV] (4.0 cr)
•HIST 1501 - Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4.0 cr)
•HIST 1601 - Latin American History: A Basic Introduction [IP] (4.0 cr)
•HIST 1xxx

Take 12 or more credit(s) from the following:
•HIST 2103 - Medieval Europe [HIST] (4.0 cr)
•HIST 2151 - Modern Europe [HIST] (4.0 cr)
•HIST 2251 - American Indians and the United States: A History [HDIV] (4.0 cr)
•HIST 2352 - The U.S. 1960s [HIST] (4.0 cr)
•HIST 2452 - Minnesota History [HIST] (4.0 cr)
•HIST 2551 - Modern Japan [HIST] (4.0 cr)
•HIST 2552 - History of Modern China [HIST] (4.0 cr)
•HIST 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4.0 cr)
•HIST 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4.0 cr)
•HIST 2xxx
•HIST 3008 - The Making of the Islamic World [HDIV] (4.0 cr)
•HIST 3101 - Renaissance and Reformation [HIST] (4.0 cr)
•HIST 3161 - The Enlightenment [HIST] (4.0 cr)

Vocal Music K-12

Art History
MUS 1151 - Foundations of Music Theory I: Rhythm and Pitch [M/SR] (2.0 cr)
MUS 1152 - Foundations of Music Theory II: Line [FA] (2.0 cr)
MUS 1153 - Foundations of Musicianship I (1.0 cr)
MUS 1154 - Foundations of Musicianship II (1.0 cr)
MUS 1155 - Foundations in Music History I: Ancient to 1750 [HIST] (2.0 cr)
MUS 1156 - Foundations in Music History II: 1750 to Contemporary [FA] (2.0 cr)
MUS 1204 - Individual Performance Study: Voice [ART/P] (1.0 cr)
MUS 1320 - Concert Choir [ART/P] (1.0 cr)
MUS 1401 - English, Italian, German, and French Diction for Singers [ART/P] (1.0 cr)
MUS 2151 - Intermediate Music Theory: Form (2.0 cr)
MUS 2152 - Intermediate Music Theory: Harmony (2.0 cr)
MUS 2301 - Instrumental Techniques--Woodwind (1.0 cr)
MUS 2302 - Instrumental Techniques--Brass (1.0 cr)
MUS 2303 - Instrumental Techniques--Strings (1.0 cr)
MUS 2304 - Vocal Techniques (1.0 cr)
MUS 2305 - Instrumental Techniques--Percussion (1.0 cr)
MUS 2402 - Art Song Repertoire [FA] (2.0 cr)
MUS 2403 - Survey of Choral Literature [FA] (2.0 cr)
MUS 2405 - Survey of Instrumental Wind Literature [FA] (2.0 cr)
2 of MUS 3108-3113 Advanced Music Theory
2 of MUS 3107,3114-3118 Advanced Music History
MUS 3204 - Advanced Individual Performance Study: Voice [ART/P] (1.0 cr)
MUS 3311 - Conducting Techniques (2.0 cr)
MUS 3331 - Choral Conducting and Materials (2.0 cr)
MUS 3352 - Choral Arranging [ART/P] (2.0 cr)
MUS 4901 - Senior Project and Portfolio (1.0 cr)

Concert Attendance
Seven successful completions of MUS 0100-Concert Attendance

**Piano Proficiency**
Music theory courses are taken concurrently with piano lessons or functional keyboard for the Music Major, Mus 1111, 1112, 2111, 2112 until the piano proficiency test is passed.

**Ensembles**
Vocal licensure students are required to enroll for seven semesters in Mus 1310 (Concert Choir) and/or Mus 1320 (University Choir).
Morris Campus
Sociology B.A.
Division of Social Sciences - Adm
Division of Social Sciences

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 36
- Degree: Bachelor of Arts

Objectives
The sociology curriculum (with support from anthropology courses) is designed to acquaint students with the concerns, theories, and methods of the science that deals with groups, culture, and interpersonal relations of human beings. In addition to an introduction to sociology as a science, an effort is made to relate human values to the theories, methods, and data of sociology. Courses are designed to meet the needs of liberal arts students, as well as students preparing for graduate school.

Program Student Learning Outcomes:
1. Students will comprehend topics of diversity and multiculturalism through the study of societies across various contexts and time periods.
2. Students will learn sociological principles and perspectives with applications to social issues.
3. Students will learn to think critically through readings and analysis of a variety of primary and secondary source materials.
4. Students will gain competency in sociological research methods and sociological theories with applications to contemporary societies and social problems.
5. Students will learn to communicate their ideas effectively in writing and through oral presentation.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Students develop a coherent program of study in consultation with their major advisor generally no later than the spring semester of their sophomore year.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
The discipline strongly recommends STAT 1601.

- SOC 1101 - Introductory Sociology [SS] (4.0 cr)
- SOC 3103 - Research Methodology in Sociology (4.0 cr)
- SOC 3403 - Sociological Theory (4.0 cr)
- SOC 4991 - Sociology Independent Project Seminar (4.0 cr)

Elective Courses
No more than 8 credits of the 20 elective credits required for the major can be from ANTH courses. No more than 4 cr can be from IS
Take 20 or more credit(s) from the following:

Take 12 or more credit(s) from the following:

- **SOC 2101** - Systems of Oppression [HDIV] (4.0 cr)
- **SOC 2201** - Sociology of Food [HDIV] (4.0 cr)
- **SOC 2xxx**
- **SOC 3112** - Sociology of the Environment and Social Development [ENVT] (4.0 cr)
- **SOC 3121** - Sociology of Gender and Sexuality [HDIV] (4.0 cr)
- **SOC 3122** - Sociology of Childhoods [HDIV] (4.0 cr)
- **SOC 3123** - Sociology of Aging [HDIV] (4.0 cr)
- **SOC 3124** - Sociology of Law (4.0 cr)
- **SOC 3125** - Terrorism, Law, and the State [SS] (4.0 cr)
- **SOC 3131** - World Population [ENVT] (4.0 cr)

Sociology Minor
Division of Social Sciences - Adm

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 24

Objectives
The sociology curriculum (with support from anthropology courses) is designed to acquaint students with the concerns, theories, and methods of the science that deals with groups, culture, and interpersonal relations of human beings. In addition to an introduction to sociology as a science, an effort is made to relate human values to the theories, methods, and data of sociology. Courses are designed to meet the needs of liberal arts students, as well as students preparing for graduate school.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- SOC 1101 - Introductory Sociology [SS] (4.0 cr)
- SOC 3103 - Research Methodology in Sociology (4.0 cr)
- SOC 3403 - Sociological Theory (4.0 cr)

Elective Courses
No more than 4 credits of the 12 elective credits required for the minor can be from ANTH courses. No more than 4 cr can be from IS 3796.

SOC 4991 is strongly recommended.

Take 12 or more credit(s) from the following:
- SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
- SOC 2201 - Sociology of Food [HDIV] (4.0 cr)
- SOC 2xxx
- SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4.0 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4.0 cr)
- SOC 3122 - Sociology of Childhoods [HDIV] (4.0 cr)
- SOC 3123 - Sociology of Aging [HDIV] (4.0 cr)
- SOC 3124 - Sociology of Law (4.0 cr)
- SOC 3125 - Terrorism, Law, and the State [SS] (4.0 cr)
- SOC 3131 - World Population [ENVT] (4.0 cr)
- SOC 3141 - Sociology of Deviance [E/CR] (4.0 cr)
- SOC 3251 - African Americans [HDIV] (4.0 cr)
- SOC 3252 - Women in Muslim Society [IP] (4.0 cr)
- SOC 3307 - Medical Sociology [SS] (4.0 cr)
- SOC 3xxx
- SOC 4991 - Sociology Independent Project Seminar (4.0 cr)
- SOC 4xxx

Take at most 4 credit(s) from the following:
- ANTH 1103 - People of the Past: Introduction to Archaeology [SS] (4.0 cr)
- ANTH 1111 - Introductory Cultural Anthropology [SS] (4.0 cr)
- ANTH 1201 - Becoming Human: Introduction to Biological Anthropology [SCI-L] (5.0 cr)
- ANTH 2202 - Men and Masculinities [SS] (4.0 cr)
- ANTH 2206 - Sex, Marriage, and Family [HDIV] (4.0 cr)
• ANTH 2501 - Medical Anthropology-An Overview [SS] (2.0 cr)
• ANTH 3001 - Theory in Cultural Anthropology (2.0 cr)
• ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4.0 cr)
• ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4.0 cr)
• ANTH 3455 - North American Archaeology [SS] (4.0 cr)
• ANTH 3502 - Latinos in the Midwest [SS] (4.0 cr)
• ANTH 3603 - Latin American Archaeology [SS] (4.0 cr)
• ANTH 3701 - Forensic Anthropology [SCI-L] (4.0 cr)
• ANTH 3704 - Anthropological Genetics [SCI] (4.0 cr)
• ANTH 3xxx

**Spanish B.A.**

*Division of Humanities - Adm*

**Division of Humanities**

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 40
- Degree: Bachelor of Arts

Spanish is spoken by many people: more than 38 million in the U.S., 155,000 in Minnesota, and more than 400 million worldwide. With a rich and diverse history, it is also a language essential to the contemporary world in areas such as education, business, health care, international relations, and law. The Spanish discipline offers courses that emphasize the richness and diversity of Latin American, US Latino, and Iberian cultures, and prepares students with a range of linguistic and critical skills applicable to a wide variety of potential careers or further advanced study in a range of fields.

**Objectives**
The Spanish curriculum offers coursework in the cultures, languages, literatures, and films of Latin America, the Latino USA, and Spain. The courses are designed to help students develop critical insight into the philosophies and values of other cultures, proficiency in a second language, and sensitivity toward literature and film that reflect the experiences of the Spanish-speaking world. The curriculum accommodates liberal arts students interested in a cross-cultural perspective, language study, K-12 teaching, working for nonprofit organizations and social services, or preparation for graduate study in Spanish and related fields.

**PROGRAM STUDENT LEARNING OUTCOMES:**
Over the course of the Spanish major, students will learn to:
- Recognize and develop strategies to support and improve their Spanish language proficiencies in reading, writing, speaking, and listening, which in turn enhances and improves general language skills;
- Refine their cross-cultural and intercultural awareness;
- Expand their critical thinking, analytical competencies and problem-solving skills;
- Discover and critically evaluate the traditions, philosophies, values, artistic expressions, and histories of the cultures of Latin America, the Latino USA, and Spain;
- Design and conduct in-depth, sustained, analytical research in Spanish.

**STUDY ABROAD**
In light of today's increasingly interdependent world, the University of Minnesota, Morris Spanish faculty endorses study abroad, in combination with a Spanish major or minor, as the most effective means by which to:
- Improve language abilities
- Broaden academic horizons
- Globalize one's world view
- Expand career opportunities
- Advance cross-cultural and problem-solving skills
- Gain confidence in oneself personally and professionally

**ADVISING FOR THE SPANISH MAJOR**
It is strongly recommended that students majoring or minoring in Spanish meet with a Spanish faculty member to plan for a timely and successful completion of their program, even if their primary academic advisor is in another discipline.

**Program Delivery**
This program is available:
- via classroom (the majority of instruction is face-to-face)

**Admission Requirements**
For information about University of Minnesota admission requirements, visit the [Office of Admissions website](http://www.umn.edu/admissions).

**General Requirements**
All students are required to complete general University and college requirements. For more information, see the [general education requirements](http://www.umn.edu/registrar/grad/curriculum/requirements/graduate).

© 2005 by the Regents of the University of Minnesota
The University of Minnesota is an equal opportunity educator and employer.
Information current as of February 21, 2019
Program Requirements

Students are required to take 2 semester(s) of Spanish.

Students must complete Span 1001 and Span 1002 or equivalent previous language experience (e.g. placement exam, transfer credit) required to take intermediate Spanish before beginning the major.

No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

A study abroad experience, regular use of the Language Teaching Center, and participation in outreach and educational activities such as the weekly Conversation Table, the Jane Addams Project and the Community ESL program are strongly recommended to enhance language skills and cultural competency. Latin American Area Studies courses are also recommended as a complement to courses in the Spanish discipline.

Students majoring in Spanish are encouraged to take at least one year of instruction in another foreign language.

Required Courses

- SPAN 2001 - Intermediate Spanish I [IP] (4.0 cr)
- SPAN 2002 - Intermediate Spanish II [IP] (4.0 cr)
- SPAN 3011 - Conversation, Composition, and Culture [IP] (2.0 cr)
- SPAN 3012 - Spanish Grammar in Practice [IP] (2.0 cr)
- SPAN 3111 - Readings in Spanish I [HUM] (2.0 cr)
- SPAN 3112 - Readings in Spanish II [HUM] (2.0 cr)
- SPAN 3211 - Literature and Culture of Latin America [HUM] (4.0 cr)
- SPAN 3212 - Literature and Culture of Spain [HUM] (4.0 cr)
- SPAN 4001 - Research Symposium [HUM] (4.0 cr)

Elective Courses

Take 12 or more credit(s) from the following:

- SPAN 3651 - Seminar: Miguel de Cervantes Saavedra’s “El ingenioso hidalgo Don Quijote de la Mancha” [HUM] (4.0 cr)
- SPAN 3654 - Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature [HUM] (4.0 cr)
- SPAN 3681 - Seminar: Romanticism and Revolution in 19th-Century Spain [HUM] (4.0 cr)
- SPAN 3682 - Seminar: Realism and Reform in 19th-Century Spain [HUM] (4.0 cr)
- SPAN 3683 - Seminar: Modernity and Identity in Spain, 1900-1930 [HUM] (4.0 cr)
- SPAN 3684 - Seminar: Hispanic Film [HUM] (4.0 cr)
- SPAN 3685 - Seminar: Slavery and Abolition in Cuban Literature and Culture [IP] (4.0 cr)
- SPAN 3686 - Seminar: Writing History in Spanish American Literature [HUM] (4.0 cr)
- SPAN 3687 - Seminar: Afro-Hispanic Literature and Culture [HDIV] (4.0 cr)
- SPAN 3688 - Seminar: Literature and Gender in Nineteenth-Century Spain [HUM] (4.0 cr)
- SPAN 3690 - Seminar: Mexican Cultural Production [HUM] (4.0 cr)
- SPAN 3691 - Seminar: Native Cultural Production of the Americas [HDIV] (4.0 cr)
- SPAN 3692 - Seminar: Nahua Media and Culture [IP] (4.0 cr)
Spanish Minor

Program Type: Undergraduate minor related to major
Requirements for this program are current for Fall 2019
Required credits in this minor: 32

Spanish is spoken by many people more than 38 million in the US, 155,000 in Minnesota, and more than 400 million worldwide. With a rich and diverse history, it is also a language essential to the contemporary world in areas such as education, business, health care, international relations, and law. The Spanish discipline offers courses that emphasize the richness and diversity of Latin American, US Latino, and Iberian cultures, and prepares students with a range of linguistic and critical skills applicable to a wide variety of potential careers or further advanced study in a range of fields.

Objectives
The Spanish curriculum offers coursework in the cultures, languages, literatures, and films of Latin America, the Latino USA, and Spain. The courses are designed to help students develop critical insight into the philosophies and values of other cultures, proficiency in a second language, and sensitivity toward literature and film that reflect the experiences of the Spanish-speaking world. The curriculum accommodates liberal arts students interested in a cross-cultural perspective, language study, K-12 teaching, working for nonprofit organizations and social services, or preparation for graduate study in Spanish and related fields.

PROGRAM STUDENT LEARNING OUTCOMES:
Over the course of the Spanish major, students will learn to:
Recognize and develop strategies to support and improve their Spanish language proficiencies in reading, writing, speaking, and listening, which in turn enhances and improves general language skills;
Refine their cross-cultural and intercultural awareness;
Expand their critical thinking, analytical competencies and problem-solving skills;
Discover and critically evaluate the traditions, philosophies, values, artistic expressions, and histories of the cultures of Latin America, the Latino USA, and Spain;
Design and conduct in-depth, sustained, analytical research in Spanish.

STUDY ABROAD
In light of today's increasingly interdependent world, the UMM Spanish faculty endorses study abroad, in combination with a Spanish major or minor, as the most effective means by which to:
Improve language abilities
Broaden academic horizons
Globalize one's world view
Expand career opportunities
Advance cross-cultural and problem-solving skills
Gain confidence in oneself personally and professionally

ADVISING FOR THE SPANISH MAJOR
It is strongly recommended that students majoring or minor in Spanish meet with a Spanish faculty member to plan for a timely and successful completion of their program, even if their primary academic advisor is in another discipline.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Minor Requirements
Students are required to take 2 semester(s) of Spanish.

Students must complete Span 1001 and Span 1002 or equivalent previous language experience (e.g. placement exam, transfer credit) required to take intermediate Spanish before beginning the minor.

A study abroad experience, regular use of the Language Teaching Center, and participation in outreach and educational activities such as the weekly Conversation Table, the Jane Addams Project and the Community ESL program are strongly recommended to enhance language skills and cultural competency. Latin American Area Studies courses are also recommended as a complement to courses in the Spanish discipline.
No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- SPAN 2001 - Intermediate Spanish I [IP] (4.0 cr)
- SPAN 2002 - Intermediate Spanish II [IP] (4.0 cr)

Sport Management B.A.
Division of Education

• Program Type: Baccalaureate
• Requirements for this program are current for Fall 2019
• Required credits to graduate with this degree: 120
• Required credits within the major: 54 to 56
• Degree: Bachelor of Arts

This is an interdisciplinary program housed in the Division of Education. The program is administered by the sport management coordinator. Core courses build a foundation of knowledge and skills related to leadership as well as managing, planning, organizing, budgeting, and decision-making within the context of a sport-related organization or department. Core and appropriate elective courses prepare students for future graduate study or professional careers with a sport related emphasis, including areas of marketing, media, management, and governance in amateur and professional sports as well as parks and recreation organizations.

Program Student Learning Outcomes (PSLOs):

Students will demonstrate collaboration and communication skills through written, verbal, and multi-media forms.
Students will be able to apply critical thinking and problem solving skills to sport related issues.
Students will investigate sport related issues and technology applications at a global level.
Students will interpret and construct examples of ethical sport leadership.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

No grades below C- are allowed. Required courses including electives must be taken A-F, unless they are offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Foundational Courses
PHIL 2112 - Professional Ethics [E/CR] (4.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)
CMR 1042 - Public Speaking and Analysis [E/CR] (4.0 cr)
or CMR 1052 - Introduction to Public Speaking [E/CR] (2.0 cr)
or CMR 1062 - Introduction to Interpersonal and Group Communication [HUM] (4.0 cr)

Sport Management Core
ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
MGMT 2101 - Principles of Accounting I (4.0 cr)
SSA 2302 - Introduction to Sport Management (4.0 cr)
SSA 2401 - Sociological Aspects of Sports [SS] (2.0 cr)
SSA 2402 - Psychological Aspects of Sports [SS] (2.0 cr)
SSA 3101 - Sport Industry Analysis [SS] (4.0 cr)
SSA 3172 - Leadership in Sport Organizations [SS] (2.0 cr)
SSA 4101 - Planning and Programming of Athletic Facilities (4.0 cr)
SSA 4102 - Organization and Administration of Athletics and Recreation (4.0 cr)
SSA 4201 - Sport Governance: Legal and Ethical Issues [E/CR] (4.0 cr)

Elective Courses
Take an additional 12 or more credits from the courses listed below. At least 8 credits must be in management at the 3xxx level or above.

Students interested in earning a management minor should see the management section of the catalog for additional information.

Take 12 or more credit(s) from the following:

Take 8 or more credit(s) from the following:

- MGMT 3101 - Financial Management (4.0 cr)
- MGMT 3123 - Managerial Economics (4.0 cr)
- MGMT 3133 - Managerial Accounting (4.0 cr)
- MGMT 3141 - Business Law: The Legal Environment of Business (2.0 cr)
- MGMT 3142 - Business Law: Sales Law, Commercial Paper, and Forms of Business (2.0 cr)
- MGMT 3151 - Human Resources Management I [E/CR] (2.0 cr)
- MGMT 3152 - Human Resources Management II [HDIV] (2.0 cr)
- MGMT 3161 - Labor Management Relations I [E/CR] (2.0 cr)
- MGMT 3162 - Labor Management Relations II (2.0 cr)
- MGMT 3201 - Marketing Principles and Strategy (4.0 cr)
- MGMT 3221 - Management and Organization Theory (4.0 cr)
- MGMT 3503 - Consumer Behavior [SS] (4.0 cr)
- MGMT 3513 - Negotiation (4.0 cr)
- MGMT 3701 - Organizational Behavior [SS] (4.0 cr)

Take at most 4 credit(s) from the following:

- ECON 4101 - Labor Economics I [HDIV] (2.0 cr)
- ECON 4102 - Labor Economics II (2.0 cr)
- PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
- PSY 3701 - Organizational Behavior [SS] (4.0 cr)
- SOC 3103 - Research Methodology in Sociology (4.0 cr)
- SSA 1108 - The Aussie Sport Experience: Culture, Identity, and Impact [IP] (4.0 cr)
- SSA 2102 - Human Anatomy (4.0 cr)
- SSA 2111 - Kinesiology [SCI] (2.0 cr)
- SSA 2112 - Exercise Physiology (2.0 cr)
- SSA 2403 - Sport, Gender, and Sexuality [SS] (2.0 cr)
- SSA 2404 - Sport and Indigenous Cultures [HDIV] (2.0 cr)
- SSA 3201 - Coaching Practicum (1.0 cr)
Morris Campus

Sport Management Minor
Division of Education

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 26

This is an interdisciplinary program housed in the Division of Education. The program is administered by the sport management coordinator. Core courses in sport studies and athletics and in management build a foundation of knowledge and skills related to managing, planning, organizing, budgeting, leading, marketing, and evaluating within the context of an organization or department whose primary product or service is related to sport or physical activity. Carefully selected elective courses prepare students for graduate study (e.g., in business, law, or sport management) or a career in the sport or fitness industry (e.g., athletic director, sport agent, sport marketing, sport media, and managing professional and amateur sport organizations, parks and recreation areas, or sport governing bodies).

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
No grades below C- are allowed. Required courses including electives must be taken A-F, unless they are offered S-N only.

Sport Management Core
- ECON 1111 - Principles of Microeconomics [SS] (4.0 cr)
- MGMT 2101 - Principles of Accounting I (4.0 cr)
- SSA 2302 - Introduction to Sport Management (4.0 cr)
- SSA 2401 - Sociological Aspects of Sports [SS] (2.0 cr)
- SSA 2402 - Psychological Aspects of Sports [SS] (2.0 cr)
- SSA 3101 - Sport Industry Analysis [SS] (4.0 cr)
- SSA 4101 - Planning and Programming of Athletic Facilities (4.0 cr)
- or SSA 4102 - Organization and Administration of Athletics and Recreation (4.0 cr)

Elective Courses
Take four additional credits from MGMT 3xxx or above.

Students interested in earning a management minor should see the management section of the catalog for additional information.

Take 4 or more credit(s) from the following:
- MGMT 3101 - Financial Management (4.0 cr)
- MGMT 3123 - Managerial Economics (4.0 cr)
- MGMT 3133 - Managerial Accounting (4.0 cr)
- MGMT 3141 - Business Law: The Legal Environment of Business (2.0 cr)
- MGMT 3142 - Business Law: Sales Law, Commercial Paper, and Forms of Business (2.0 cr)
- MGMT 3151 - Human Resources Management I [E/CR] (2.0 cr)
- MGMT 3152 - Human Resources Management II [HDIV] (2.0 cr)

Statistics B.A.
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 42
- Degree: Bachelor of Arts

The mission of the discipline is to create and apply statistical methods for collecting, storing, exploring, analyzing, processing and communicating qualitative/quantitative information and to disseminate this knowledge through teaching, scholarly activity, collaboration and outreach. Statistics is the science and art of enhancing knowledge in the face of uncertainty. In our information age, statistics and data science are central to solving problems in the environment, medicine, law, industry, technology, finance, business, public policy, computing, and science in general. The need for statistics applies to almost every area of our lives. The statistics program provides an operational knowledge of the theory and methods of statistics and the application of statistical methods in a liberal arts environment. It seeks to enhance students' critical thinking in making judgments based on data and provides students with the basic knowledge and skills to make contributions to modern society. Students learn to communicate and collaborate effectively with people in other fields and understand the substance of these fields. The curriculum prepares students to enter graduate school or pursue careers in statistics and data science.

The statistics discipline has the following student learning objectives:

Students will gain the ability to make contributions to society through knowledge of statistical theory and statistics applied to other disciplines.

Students will sharpen their ability to extract useful information from data.

The statistics curriculum will enhance students understanding of the mathematical foundations of statistical theory and methods.

The curriculum will prepare students to enter graduate school, and pursue careers in applied statistics.

Students will be able to communicate statistical ideas and results effectively using presentation skills and visualizations.

The curriculum is designed to ensure that students are able to demonstrate the following outcomes:

Model and solve real-world problems by analyzing them statistically, and determine an appropriate approach towards its solution.

Write, read, and construct proofs of key statistical results

Create estimated models, data displays, and new datasets to address problems using computing tools.

Demonstrate basic knowledge of calculus, analysis, linear algebra, probability, and describe their importance to statistics.

Demonstrate students have background to be employed or gain admission to graduate school.

Meet the requirements for employment in professions such as actuarial science and data science.

Describe and explain a theorem, statistical model, and results of a statistical analysis to a non-specialist audience.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements

All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements

Students are required to take 2 semester(s) of any second language.

The GPA in these courses must be at least 2.00. Courses may not be taken S-N, unless offered S-N only.

Recommended electives for students planning to pursue graduate work in statistics or biostatistics:
MATH 2101 - Calculus III
MATH 6111 - Linear Algebra

Recommended electives (beyond those listed for graduate work) for students planning to pursue a PhD in statistics or biostatistics:

MATH 2202 - Mathematical Perspectives
MATH 3221 - Real Analysis I

**Required Courses**

- **MATH 1101 - Calculus I [M/SR]** (5.0 cr)
- **MATH 1102 - Calculus II [M/SR]** (5.0 cr)
- **STAT 2501 - Probability and Stochastic Processes [M/SR]** (4.0 cr)
- **STAT 2611 - Mathematical Statistics [M/SR]** (4.0 cr)
- **STAT 3601 - Data Analysis [M/SR]** (4.0 cr)
- **STAT 3901 - Statistical Communication** (2.0 cr)
- **STAT 4901 - Senior Seminar** (2.0 cr)
- **STAT 1601 - Introduction to Statistics [M/SR]** (4.0 cr) or **STAT 2601 - Statistical Methods [M/SR]** (4.0 cr)

**Elective Courses**
Take 8 or more credit(s) from the following:

- **STAT 1993 - Directed Study** (1.0 - 5.0 cr)
- **STAT 2701 - Introduction to Data Science [M/SR]** (4.0 cr)
- **STAT 2993 - Directed Study** (1.0 - 5.0 cr)
- **STAT 3501 - Survey Sampling [M/SR]** (4.0 cr)
- **STAT 3611 - Multivariate Statistical Analysis [M/SR]** (4.0 cr)
- **STAT 3993 - Directed Study** (1.0 - 5.0 cr)
- **STAT 4601 - Biostatistics** (4.0 cr)
- **STAT 4631 - Design and Analysis of Experiments** (4.0 cr)
- **STAT 4651 - Applied Nonparametric Statistics** (4.0 cr)
- **STAT 4671 - Statistical Computing** (4.0 cr)
- **STAT 4681 - Introduction to Time Series Analysis** (4.0 cr)
- **STAT 4993 - Directed Study** (1.0 - 5.0 cr)

**Additional Elective Courses**
Choose from the list below or from courses with faculty approval.
Take 4 or more credit(s) from the following:

- **CSCI 1201 - Introduction to Digital Media Computation [M/SR]** (4.0 cr)
- **CSCI 1251 - Computational Data Management and Manipulation [M/SR]** (4.0 cr)
- **CSCI 1301 - Problem Solving and Algorithm Development [M/SR]** (4.0 cr)
- **CSCI 1302 - Foundations of Computer Science [M/SR]** (4.0 cr)
- **CSCI 4403 - Systems: Data Mining** (2.0 cr)
- **CSCI 4458 - Systems: Bioinformatic Systems** (4.0 cr)
- **CSCI 4555 - Theory: Neural Networks and Machine Learning** (4.0 cr)
- **ECON 3501 - Introduction to Econometrics [M/SR]** (4.0 cr)
- **GEOG 3501 - Geographic Information Systems [ENVT]** (4.0 cr)
- **GEOG 2161 - GIS and Remote Sensing [SCI]** (4.0 cr)
- **MATH 2101 - Calculus III [M/SR]** (4.0 cr)
- **MATH 2202 - Mathematical Perspectives [M/SR]** (4.0 cr)
- **MATH 3111 - Linear Algebra** (4.0 cr)
- **MATH 3221 - Real Analysis I** (4.0 cr)
- **MATH 3401 - Operations Research** (4.0 cr)
- **MATH 3501 - Applied Deterministic Modeling for Management Science** (2.0 cr)
- **MATH 3502 - Applied Probabilistic Modeling for Management Science** (2.0 cr)
- **POL 2001 - Political Science Research Methods [SS]** (4.0 cr)
- **PSY 2001 - Research Methods in Psychology [SS]** (4.0 cr)
- **SOC 3103 - Research Methodology in Sociology** (4.0 cr)
- **SOC 3131 - World Population [ENVT]** (4.0 cr)
Morris Campus
Statistics Minor
Division of Science & Mathematics - Adm
Division of Science and Mathematics

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 24

Objectives--The statistics program provides an effective operational knowledge of the theory and methods of statistics and the application of statistical methods in a liberal arts environment. It seeks to enhance students’ critical thinking in making judgments based on data and provides them with the basic knowledge and skills necessary to make contributions to modern society. Students learn to communicate and collaborate effectively with people in other fields and, in the process, understand the substance of these fields. The curriculum prepares students to enter graduate school or pursue careers in statistical fields at research institutions and industry.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Courses may not be taken S-N, unless offered S-N only. The GPA in these courses must be at least 2.00.

Minor Requirements
STAT 3601 - Data Analysis [M/SR] (4.0 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4.0 cr)
or STAT 2601 - Statistical Methods [M/SR] (4.0 cr)

Minor Elective Courses
Take 16 or more credit(s) from the following:
- Stat courses
  - Take 1 or more course(s) from the following:
    - STAT 1993 - Directed Study (1.0 - 5.0 cr)
    - STAT 2501 - Probability and Stochastic Processes [M/SR] (4.0 cr)
    - STAT 2611 - Mathematical Statistics [M/SR] (4.0 cr)
    - STAT 2701 - Introduction to Data Science [M/SR] (4.0 cr)
    - STAT 2993 - Directed Study (1.0 - 5.0 cr)
    - STAT 3501 - Survey Sampling [M/SR] (4.0 cr)
    - STAT 3611 - Multivariate Statistical Analysis [M/SR] (4.0 cr)
    - STAT 3993 - Directed Study (1.0 - 5.0 cr)
    - STAT 4601 - Biostatistics (4.0 cr)
    - STAT 4631 - Design and Analysis of Experiments (4.0 cr)
    - STAT 4651 - Applied Nonparametric Statistics (4.0 cr)
    - STAT 4661 - Statistical Computing (4.0 cr)
    - STAT 4681 - Introduction to Time Series Analysis (4.0 cr)
    - STAT 4993 - Directed Study (1.0 - 5.0 cr)
- Non-stat courses
  - Take 0 or more course(s) from the following:
    - CSCI 1201 - Introduction to Digital Media Computation [M/SR] (4.0 cr)
    - CSCI 1251 - Computational Data Management and Manipulation [M/SR] (4.0 cr)
    - CSCI 1301 - Problem Solving and Algorithm Development [M/SR] (4.0 cr)
    - CSCI 1302 - Foundations of Computer Science [M/SR] (4.0 cr)
    - CSCI 4403 - Systems: Data Mining (2.0 cr)
    - CSCI 4458 - Systems: Bioinformatic Systems (4.0 cr)
    - CSCI 4555 - Theory: Neural Networks and Machine Learning (4.0 cr)
    - ECON 3501 - Introduction to Econometrics [M/SR] (4.0 cr)
    - GEOG 3501 - Geographic Information Systems [ENVT] (4.0 cr)
    - GEOL 2161 - GIS and Remote Sensing [SCI] (4.0 cr)
    - MATH 2101 - Calculus III [M/SR] (4.0 cr)
    - MATH 2202 - Mathematical Perspectives [M/SR] (4.0 cr)
• MATH 3111 - Linear Algebra (4.0 cr)
• MATH 3221 - Real Analysis I (4.0 cr)
• MATH 3401 - Operations Research (4.0 cr)
• MATH 3501 - Applied Deterministic Modeling for Management Science (2.0 cr)
• MATH 3502 - Applied Probabilistic Modeling for Management Science (2.0 cr)
• POL 2001 - Political Science Research Methods [SS] (4.0 cr)
• PSY 2001 - Research Methods in Psychology [SS] (4.0 cr)
• SOC 3103 - Research Methodology in Sociology (4.0 cr)
• SOC 3131 - World Population [ENVT] (4.0 cr)
Morris Campus

Studio Art B.A.
Division of Humanities - Adm
Division of Humanities

• Program Type: Baccalaureate
• Requirements for this program are current for Fall 2019
• Required credits to graduate with this degree: 120
• Required credits within the major: 52
• Degree: Bachelor of Arts

The goal of the studio art curriculum is to introduce liberal arts students to the technical, conceptual, and communication skills necessary to activities in the visual arts and to help them understand the major traditions and the place of visual arts in our culture. Studio courses serve the needs of students planning to pursue graduate studies in art, students interested in exploring their own creative potential as part of the general education, and students preparing for secondary school teaching.

Program Student Learning Outcomes:

1. Students will be able to demonstrate proficiency in a variety of technical skills including understanding materials, processes, safe use of tools and environmental stewardship.

2. Students will be able to integrate formal, technical and conceptual intentions within two-dimensional and three-dimensional art practice.

3. Students will be able to critique and analyze their own artwork and the art of others.

4. Students will demonstrate in-depth knowledge of the major historical traditions and contemporary developments of art, including historical, social and cultural contexts.

Program Delivery
This program is available:
• via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.

Program Requirements
Students are required to take 2 semester(s) of any second language.

Studio courses are assessed an individual lab fee.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
The Studio Essentials courses are preparation for advanced work in studio art. The two related parts must be taken concurrently and in sequence during the first year. One 1xxx art history course is also recommended during the first year.

First Term of Studio Essentials
ARTS 1101 - Studio Essentials: Observational Drawing [ART/P] (2.0 cr)
with ARTS 1103 - Studio Essentials: Materials and Design [ART/P] (2.0 cr)

Second Term of Studio Essentials
ARTS 1102 - Studio Essentials: Experimental Drawing [ART/P] (2.0 cr)
with ARTS 1104 - Studio Essentials: Materials and Space [ART/P] (2.0 cr)

Second Year Requirements
ARTS 2101 - Drawing From Life [ART/P] (2.0 cr)
ARTS 2601 - The Artist in Studio and in Society [FA] (2.0 cr)
ARTS 2802 - Digital Fundamentals [ART/P] (2.0 cr)

Second Year Portfolio
Second Year Portfolio Review (spring semester only)

Senior Thesis Project
ARTS 4902 - Senior Thesis Project I (2.0 cr)
ARTS 4903 - Senior Thesis Project II (2.0 cr)

Concentrated Studio Art Courses - Primary Medium
Complete 16 credits in one major medium.

Printmaking
complete 16 credits from the following:
ARTS 3007 - Media Studies: Printmaking [ART/P] (2.0 - 4.0 cr)
ARTS 3200 - Printmaking Studio I [ART/P] (4.0 cr)
ARTS 3210 - Printmaking Studio II [ART/P] (4.0 cr)

or Painting
complete 16 credits from the following:
ARTS 3013 - Media Studies: Painting [ART/P] (2.0 - 4.0 cr)
ARTS 3300 - Painting Studio I [ART/P] (4.0 cr)
ARTS 3310 - Painting Studio II [ART/P] (4.0 cr)

or Sculpture
complete 16 credits from the following:
ARTS 3015 - Media Studies: Sculpture [ART/P] (2.0 - 4.0 cr)
ARTS 3400 - Sculpture Studio I [ART/P] (4.0 cr)
ARTS 3410 - Sculpture Studio II [ART/P] (4.0 cr)

or Ceramics
complete 16 credits from the following:
ARTS 3012 - Media Studies: Ceramics [ART/P] (2.0 - 4.0 cr)
ARTS 3650 - Ceramics Studio [ART/P] (4.0 cr)

or Drawing
complete 16 credits (beyond Studio Essentials courses and one semester of Drawing from Life) from the following:
ARTS 2101 - Drawing From Life [ART/P] (2.0 cr)
ARTS 3017 - Media Studies: Drawing [ART/P] (2.0 - 4.0 cr)
ARTS 3100 - Drawing Studio [ART/P] (2.0 - 4.0 cr)

or Photography/Digital Imaging
complete 16 credits from the following:
ARTS 3016 - Media Studies: Photographic and Digital Processes [ART/P] (2.0 - 4.0 cr)
ARTS 3500 - Photographic and Digital Processes [ART/P] (4.0 cr)

Art, Studio Electives
Complete 10 credits that differ from primary medium.
Take 10 or more credit(s) from the following:
• ARTS 2101 - Drawing From Life [ART/P] (2.0 cr)
• ARTS 3002 - Media Studies: Artist’s Books [ART/P] (2.0 - 4.0 cr)
• ARTS 3006 - Media Studies: Feminist Art: A Studio Perspective [ART/P] (2.0 - 4.0 cr)
• ARTS 3007 - Media Studies: Printmaking [ART/P] (2.0 - 4.0 cr)
• ARTS 3012 - Media Studies: Ceramics [ART/P] (2.0 - 4.0 cr)
• ARTS 3013 - Media Studies: Painting [ART/P] (2.0 - 4.0 cr)
• ARTS 3014 - Media Studies: Fabric as Form [ART/P] (2.0 - 4.0 cr)
• ARTS 3015 - Media Studies: Sculpture [ART/P] (2.0 - 4.0 cr)
• ARTS 3016 - Media Studies: Photographic and Digital Processes [ART/P] (2.0 - 4.0 cr)
• ARTS 3017 - Media Studies: Drawing [ART/P] (2.0 - 4.0 cr)
• ARTS 3100 - Drawing Studio [ART/P] (2.0 - 4.0 cr)
• ARTS 3200 - Printmaking Studio I [ART/P] (4.0 cr)
• ARTS 3210 - Printmaking Studio II [ART/P] (4.0 cr)
• ARTS 3300 - Painting Studio I [ART/P] (4.0 cr)
• ARTS 3310 - Painting Studio II [ART/P] (4.0 cr)
• ARTS 3400 - Sculpture Studio I [ART/P] (4.0 cr)
• ARTS 3410 - Sculpture Studio II [ART/P] (4.0 cr)
• ARTS 3500 - Photographic and Digital Processes [ART/P] (4.0 cr)
• ARTS 3650 - Ceramics Studio [ART/P] (4.0 cr)
• ARTS 3994 - Directed Research [ART/P] (1.0 - 5.0 cr)
Art History Electives
Take 8 or more credit(s) from the following:
- ARTH 2102 - Art and Archaeology of Ancient Greece [FA] (4.0 cr)
- ARTH 2103 - Art and Archaeology of Ancient Rome [FA] (4.0 cr)
- ARTH 2104 - Irish Art and Archaeology [FA] (4.0 cr)
- ARTH 2105 - Latin American Art: Pre-Columbian to Modern Art [FA] (4.0 cr)
- ARTH 2106 - Rome, Jerusalem, and Constantinople: The Art of Three Ancient Capitals [FA] (4.0 cr)
- ARTH 3112 - Faith, Image, and Power: Art and the Byzantine Empire [FA] (4.0 cr)
- ARTH 3113 - Early Islamic Art and Culture [FA] (4.0 cr)
- ARTH 3132 - Castles and Cathedrals [FA] (4.0 cr)
- ARTH 3142 - Art of the Italian Renaissance, 1300-1520 [FA] (4.0 cr)
- ARTH 3161 - After Leonardo: Mannerist and Venetian Renaissance Art [FA] (4.0 cr)
- ARTH 3171 - Baroque Art [FA] (4.0 cr)
- ARTH 3191 - American Art to 1900 [FA] (4.0 cr)
- ARTH 3201 - Nineteenth-Century Art [FA] (4.0 cr)
- ARTH 3211 - Modern Art from Impressionism to Surrealism [FA] (4.0 cr)
- ARTH 3221 - Contemporary Art, 1950 to the Present [FA] (4.0 cr)
- ARTH 3231 - History of Photography [FA] (4.0 cr)
- ARTH 3272 - Athens, Art, and Theatre [FA] (4.0 cr)
- ARTH 3273 - Ars Otii: The Art of Roman Leisure [FA] (4.0 cr)
- ARTH 3274 - Modern Art in Germany [FA] (4.0 cr)
- ARTH 3291 - Women and Art [FA] (4.0 cr)
- ARTH 3301 - Facing the Past: Portraiture and Social History [FA] (4.0 cr)
- ARTH 3xxx
- ARTH 4xxx

Complete one 16 credit sequence in one major medium or two 8 credit sequences in different media.

**Option 1 - A single 16 credit sequence**

**Printmaking**

Take exactly 16 credit(s) from the following:

*ARTS 3007 - Media Studies: Printmaking [ART/P] (2.0 - 4.0 cr)
• ARTS 3200 - Printmaking Studio I [ART/P] (4.0 cr)
• ARTS 3210 - Printmaking Studio II [ART/P] (4.0 cr)

or Painting
Take exactly 16 credit(s) from the following:
• ARTS 3013 - Media Studies: Painting [ART/P] (2.0 - 4.0 cr)
• ARTS 3300 - Painting Studio I [ART/P] (4.0 cr)
• ARTS 3310 - Painting Studio II [ART/P] (4.0 cr)

or Sculpture
Take exactly 16 credit(s) from the following:
• ARTS 3015 - Media Studies: Sculpture [ART/P] (2.0 - 4.0 cr)
• ARTS 3400 - Sculpture Studio I [ART/P] (4.0 cr)
• ARTS 3410 - Sculpture Studio II [ART/P] (4.0 cr)

or Ceramics
Take exactly 16 credit(s) from the following:
• ARTS 3012 - Media Studies: Ceramics [ART/P] (2.0 - 4.0 cr)
• ARTS 3650 - Ceramics Studio [ART/P] (4.0 cr)

or Drawing
Take exactly 16 credit(s) from the following:
• ARTS 2101 - Drawing From Life [ART/P] (2.0 cr)
• ARTS 3017 - Media Studies: Drawing [ART/P] (2.0 - 4.0 cr)
• ARTS 3100 - Drawing Studio [ART/P] (2.0 - 4.0 cr)

or Photography/Digital Imaging
Take exactly 16 credit(s) from the following:
• ARTS 3016 - Media Studies: Photographic and Digital Processes [ART/P] (2.0 - 4.0 cr)
• ARTS 3500 - Photographic and Digital Processes [ART/P] (4.0 cr)

or Option 2 - Take two 8 credit sequences
Take 2 or more sub-requirement(s) from the following:

Printmaking
Take exactly 8 credit(s) from the following:
• ARTS 3007 - Media Studies: Printmaking [ART/P] (2.0 - 4.0 cr)
• ARTS 3200 - Printmaking Studio I [ART/P] (4.0 cr)
• ARTS 3210 - Printmaking Studio II [ART/P] (4.0 cr)

Painting
Take exactly 8 credit(s) from the following:
• ARTS 3013 - Media Studies: Painting [ART/P] (2.0 - 4.0 cr)
• ARTS 3300 - Painting Studio I [ART/P] (4.0 cr)
• ARTS 3310 - Painting Studio II [ART/P] (4.0 cr)

Sculpture
Take exactly 8 credit(s) from the following:
• ARTS 3015 - Media Studies: Sculpture [ART/P] (2.0 - 4.0 cr)
• ARTS 3400 - Sculpture Studio I [ART/P] (4.0 cr)
• ARTS 3410 - Sculpture Studio II [ART/P] (4.0 cr)

Ceramics
Take exactly 8 credit(s) from the following:
• ARTS 3012 - Media Studies: Ceramics [ART/P] (2.0 - 4.0 cr)
• ARTS 3650 - Ceramics Studio [ART/P] (4.0 cr)

Drawing
(complete 8 credits beyond Studio Essentials courses and one semester of Drawing from life)
Take exactly 8 credit(s) from the following:
• ARTS 2101 - Drawing From Life [ART/P] (2.0 cr)
• ARTS 3100 - Drawing Studio [ART/P] (2.0 - 4.0 cr)
• ARTS 3017 - Media Studies: Drawing [ART/P] (2.0 - 4.0 cr)

Photography/Digital Imaging
Take exactly 8 credit(s) from the following:
• ARTS 3016 - Media Studies: Photographic and Digital Processes [ART/P] (2.0 - 4.0 cr)
• ARTS 3500 - Photographic and Digital Processes [ART/P] (4.0 cr)

Art, Studio Electives
Take 0 or more credit(s) from the following:
• ARTS 3002 - Media Studies: Artist's Books [ART/P] (2.0 - 4.0 cr)
• ARTS 3006 - Media Studies: Feminist Art: A Studio Perspective [ART/P] (2.0 - 4.0 cr)
• ARTS 3994 - Directed Research [ART/P] (1.0 - 5.0 cr)
Morris Campus

Sustainability Leadership Minor
M Acad Dean's Admin
Academic Affairs

- Program Type: Undergraduate free-standing minor
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 20 to 24

Sustainability leadership is an interdisciplinary minor. The program is administered on a rotating basis by 2-3 affiliated faculty and staff with oversight by the dean.

The interdisciplinary field of sustainability leadership is designed for students who wish to promote environmental, social, and economic sustainability in their personal and professional lives. The minor provides an opportunity for students in any academic major to develop key competencies that will be the foundation for their growth as sustainability leaders in their civic and professional endeavors.

Coursework in sustainability leadership requires a core course in environmental problems and policy that will provide students with a foundation for considering what "sustainability" means. Courses in communication, diverse perspectives and ethical issues, and the interconnectedness of systems build on that core. All students must also participate in a co-curricular leadership skills series of workshops and undertake a community-engaged learning project that will provide practical experience in leadership and immersive experience in sustainability (that is, an opportunity to engage, observe and learn in depth about sustainability challenges and solutions related to the student's chosen theme). Students have options in each set of requirements and in an additional elective for how they choose to define further their understanding of sustainability and leadership in the areas of communication, ethics, human interactions, environmental issues, and more.

Objectives
On all levels, students explore the implications and intersections of sustainability and leadership within and across disciplines. The sustainability leadership minor works well with any major to prepare students for graduate study as well as various internship or career opportunities.

Program Student Learning Outcomes

In the core courses for the sustainability leadership minor, students will:
* Describe human-environment interactions and related problems and policies
* Communicate about issues of sustainability to the public and diverse audiences
* Analyze and interpret multiple perspectives related to decision-making and leadership
* Reflect on personal and social contexts that lead to construction of belief, culture, and knowledge.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements
Students must complete a significant amount of coursework in sustainability leadership at UMM but are also strongly encouraged to study abroad or on other campuses. In order to count study abroad toward the minor, all students must procure formal approval of coursework from the sustainability minor steering committee prior to departure. (Typically, no more than 6 credits from study abroad may count toward the minor.) Sustainability leadership is by nature interdisciplinary.

No grades below C- may count toward the sustainability leadership minor. No courses may be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
A minimum of 20 credit is required for the minor.

Some courses may require completion of prerequisites. Students should review the prerequisites listed in the catalog or class schedule.
Policy

ENST 1101 - Environmental Problems and Policy [ENVT] (4.0 cr)

Communication

Take 2 or more credit(s) from the following:

- CMR 1062 - Introduction to Interpersonal and Group Communication [HUM] (4.0 cr)
- CMR 2102 - Communication and the Environment: Analysis and Criticism [HUM] (2.0 cr)
- CMR 3311 - Social Uses of the Media [E/CR] (4.0 cr)

Ethics and Interactions

Take 2 or more credit(s) from the following:

- ENST 3112 - Climate Change and Moral Responsibility [ENVT] (4.0 cr)
- POL 2354 - Political Ethics [E/CR] (4.0 cr)
- POL 3272 - Making Environmental Public Policy [ENVT] (4.0 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4.0 cr)

Community Engagement

A discipline/advisor approved 3000-level directed study or internship based on a real-world sustainability need, issue, topic that includes a community engagement attribute, paper, and public presentation and/or publication may be used to fulfill the community engagement requirement.

Take at most 4 credit(s) from the following:

- IS 3104 - Sustaining Community: Stewardship, Leadership, and Social Change [E/CR] (4.0 cr)

Systems

(exploring components, connections, perspectives, and boundaries)

Take 2 or more credit(s) from the following:

- BIOL 3131 - Ecology [SCI-L] (4.0 cr)
- ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2.0 cr)
- ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2.0 cr)
- ENST 3101 - Industrial Ecology (4.0 cr)
- MGMT 3221 - Management and Organization Theory (4.0 cr)
- MGMT 3701 - Organizational Behavior [SS] (4.0 cr)
- PSY 3701 - Organizational Behavior [SS] (4.0 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4.0 cr)
- SSA 3172 - Leadership in Sport Organizations [SS] (2.0 cr)

Morris Leadership Education and Development Program (MLEAD)

The MLEAD program consists of six workshops designed to increase leadership capacity and competency. Taught by Office of Student Activities, Conferences and Special Events.

Additional Elective

One additional course (exclusive of any used to complete other areas in the minor) in ESci, EnSt, or with an ENVT general education designation to strengthen students' understanding of sustainability in relation to environmental issues. Possibilities are offered in a variety of disciplines and include CFAN 3520. Germany: Leading the Renewables Revolution (J-term study abroad, competitive admission; 3 credits).

Take 2 or more credit(s) from the following:

- ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4.0 cr)
- ANTH 3251 - Health and Human Ecology [ENVT] (2.0 cr)
- ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2.0 cr)
- ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2.0 cr)
- ECON 3136 - Economics of the Green Power Transition: New Business Models and Regulatory Strategies [ENVT] (2.0 cr)
- ENST 3001 - Water Resources Policy [ENVT] (4.0 cr)
- ENST 3112 - Climate Change and Moral Responsibility [ENVT] (4.0 cr)
- ENST 3xxx
- ESCI 3xxx
- FREN 3507 - Modern Studies: French for Sustainability [ENVT] (2.0 cr)
- GEOG 3501 - Geographic Information Systems [ENVT] (4.0 cr)
- GEOL 3011 - Earth Resources [ENVT] (4.0 cr)
- GEOL 3502 - Groundwater [ENVT] (4.0 cr)
- HIST 3361 - An Environmental and Geographic History of the United States [ENVT] (4.0 cr)
- IS 3053 - Irish Texts and Contexts [ENVT] (4.0 cr)
- IS 3204H - Honors: Ecological Health and the Sustainability of Common-Property Resources [ENVT] (2.0 cr)
- IS 3209H - Honors: Apocalypse Now? The Science and Policy of Preparing for a Catastrophe [ENVT] (2.0 cr)
• IS 3215H - Honors: Sagas before the Fall: Culture, Climate, and Collapse in Medieval Iceland [ENVT] (2.0 cr)
• IS 3237H - Honors: The Power of Place: An Interdisciplinary Approach to Where We Live [ENVT] (2.0 cr)
• IS 3254H - Honors: The Prairie: What It Was, What It Is, What It Can Be [ENVT] (2.0 cr)

• SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4.0 cr)
• SOC 3131 - World Population [ENVT] (4.0 cr)

Recommended Electives
Although not required, additional coursework in written and oral communication is highly recommended. Several possibilities are listed below.
Take 0 or more credit(s) from the following:
• CMR 1042 - Public Speaking and Analysis [E/CR] (4.0 cr)
• CMR 2321 - Digital Media Production [HUM] (4.0 cr)
Morris Campus
Theatre Arts B.A.
Division of Humanities - Adm
Division of Humanities

- Program Type: Baccalaureate
- Requirements for this program are current for Fall 2019
- Required credits to graduate with this degree: 120
- Required credits within the major: 38 to 40
- Degree: Bachelor of Arts

The discipline encompasses theatre as an artistic form and as a social and cultural institution. The study of theatre arts enables the individual to develop a creative imagination, an inquiring mind, a sense of social responsibility, professional discipline, a collaborative attitude, artistic standards and judgment, and a respect for the art form. The curriculum explores the fundamentals of acting, design and directing with electives that delve deeper into each area of theatre. The discipline produces multiple production each year, providing students with opportunities to act and design. In addition, student theatre and improvisation groups produce performances each semester.

Objectives
The theatre arts curriculum is designed to ensure that students
- understand the theories and process of theatrical production;
- are able to apply theories and skills learned in the classroom to the practice of theatre both through discipline productions and other venues;
- gain the physical and intellectual skills necessary to embody character, interpret a play, or envision the visual and aural elements of the world of the play;
- are able to analyze a theatrical text so that they may in turn conceptualize and execute its design and performance; * learn to collaborate as a team in the production of theatre and, through critical thinking, learn how to solve the problems that must be addressed throughout the process; develop competence in the technologies necessary to the design and production of theatre;
- learn the historical and cultural significance of theatre and theatrical literature;
- are competent in oral and written communication; and
- are adequately prepared for graduate or professional school.

Program Student Learning Outcomes
- understand the theories and process of theatrical production;
- are able to apply theories and skills learned in the classroom to the practice of theatre both through discipline productions and other venues;
- gain the physical and intellectual skills necessary to embody character, interpret a play, or envision the visual and aural elements of the world of the play;
- are able to analyze a theatrical text so that they may in turn conceptualize and execute its design and performance;
- learn to collaborate as a team in the production of theatre and, through critical thinking, learn how to solve the problems that must be addressed throughout the process;
- develop competence in the technologies necessary to the design and production of theatre;
- learn the historical and cultural significance of theatre and theatrical literature;
- are competent in oral and written communication.

Program Delivery
This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements
For information about University of Minnesota admission requirements, visit the Office of Admissions website.

General Requirements
All students are required to complete general University and college requirements. For more information, see the general education requirements.
Program Requirements
Students are required to take 2 semester(s) of any second language.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Required Courses
- **TH 1101 - The Theatre Experience: An Introduction** [FA] (4.0 cr)
- **TH 1111 - Fundamentals of Acting** [ART/P] (4.0 cr)
- **TH 1301 - Fundamentals of Design** [ART/P] (4.0 cr)
- **TH 2101 - Fundamentals of Directing** [ART/P] (4.0 cr)
- **TH 2301 - Stagecraft** [ART/P] (4.0 cr)
- **TH 3101 - World Theatre: History and Literature I** [FA] (4.0 cr)
- **TH 3102 - World Theatre: History and Literature II** [FA] (4.0 cr)
- **TH 3201 - Advanced Acting** [ART/P] (4.0 cr)
  or **TH 3202 - Advanced Directing** [ART/P] (4.0 cr)
- **TH 4901 - Senior Project** (2.0 - 4.0 cr)

Elective Courses
Take 4 or more credit(s) from the following:
- **TH 2111 - Creative Drama with Children** [ART/P] (4.0 cr)
- **TH 2201 - Voice and Movement** [ART/P] (4.0 cr)
- **TH 2211 - Oral Interpretation** [ART/P] (4.0 cr)
- **TH 2221 - Readers’ Theatre** [ART/P] (4.0 cr)
- **TH 3001 - Theatre Scene Painting Studio** [FA] (4.0 cr)
- **TH 3003 - Stage Management** [ART/P] (4.0 cr)
- **TH 3201 - Advanced Acting** [ART/P] (4.0 cr)
- **TH 3202 - Advanced Directing** [ART/P] (4.0 cr)
- **TH 3301 - Stage Lighting** [ART/P] (4.0 cr)
- **TH 3302 - Stage Costuming** [FA] (4.0 cr)
- **TH 3303 - Computer-Assisted Drawing** [ART/P] (4.0 cr)
- **TH 3306 - Advanced Lighting and Sound Design** [ART/P] (4.0 cr)
- **TH 4301 - Scenic Design** [FA] (4.0 cr)

Other Requirements
At least one para-programmatic theatre experience that is arranged through a theatre arts faculty member and may take any number of forms, e.g., internship with a theatre company, study abroad, or theatre tour to New York (TH 1040) or London (TH 1050). Portfolio review in the third year.
Six major production responsibilities (four of which must be in a faculty-directed production, all others must be pre-approved by faculty, and three must be in the junior and senior years).
Morris Campus

Theatre Arts Minor
Division of Humanities - Adm
Division of Humanities

- Program Type: Undergraduate minor related to major
- Requirements for this program are current for Fall 2019
- Required credits in this minor: 28

The discipline encompasses theatre as an artistic form and as a social and cultural institution. The study of theatre arts enables the individual to develop a creative imagination, an inquiring mind, a sense of social responsibility, professional discipline, a collaborative attitude, artistic standards and judgment, and a respect for the art form. The curriculum explores the fundamentals of acting, design and directing with electives that delve deeper into each area of theatre. The discipline produces multiple production each year, providing students with opportunities to act and design. In addition, student theatre and improvisation groups produce performances each semester.

Objectives

The theatre arts curriculum is designed to ensure that students:

- Understand the theories and process of theatrical production;
- Are able to apply theories and skills learned in the classroom to the practice of theatre both through discipline productions and other venues;
- Gain the physical and intellectual skills necessary to embody character, interpret a play, or envision the visual and aural elements of the world of the play;
- Are able to analyze a theatrical text so that they may in turn conceptualize and execute its design and performance; "learn to collaborate as a team in the production of theatre and, through critical thinking, learn how to solve the problems that must be addressed throughout the process; develop competence in the technologies necessary to the design and production of theatre;
- Learn the historical and cultural significance of theatre and theatrical literature;
- Are competent in oral and written communication; and
- Are adequately prepared for graduate or professional school.

Program Student Learning Outcomes

Understand the theories and process of theatrical production;
- Are able to apply theories and skills learned in the classroom to the practice of theatre both through discipline productions and other venues;
- Gain the physical and intellectual skills necessary to embody character, interpret a play, or envision the visual and aural elements of the world of the play;
- Are able to analyze a theatrical text so that they may, in turn, conceptualize and execute its design and performance;
- Learn to collaborate as a team in the production of theatre and, through critical thinking, learn how to solve the problems that must be addressed throughout the process;
- Develop competence in the technologies necessary to the design and production of theatre;
- Learn the historical and cultural significance of theatre and theatrical literature;
- Are competent in oral and written communication.

Program Delivery

This program is available:
- via classroom (the majority of instruction is face-to-face)

Minor Requirements

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses

TH 1101 - The Theatre Experience: An Introduction [FA] (4.0 cr)
TH 1301 - Fundamentals of Design [ART/P] (4.0 cr)
TH 2301 - Stagecraft [ART/P] (4.0 cr)
TH 1111 - Fundamentals of Acting [ART/P] (4.0 cr)
 or TH 2101 - Fundamentals of Directing [ART/P] (4.0 cr)

Elective Courses
4 cr must be 3xxx or above
Take 12 or more credit(s) from the following:
• TH 2111 - Creative Drama with Children [ART/P] (4.0 cr)
• TH 2201 - Voice and Movement [ART/P] (4.0 cr)
• TH 2211 - Oral Interpretation [ART/P] (4.0 cr)
• TH 2221 - Readers’ Theatre [ART/P] (4.0 cr)
• TH 3001 - Theatre Scene Painting Studio [FA] (4.0 cr)
• TH 3003 - Stage Management [ART/P] (4.0 cr)
• TH 3101 - World Theatre: History and Literature I [FA] (4.0 cr)
• TH 3102 - World Theatre: History and Literature II [FA] (4.0 cr)
• TH 3201 - Advanced Acting [ART/P] (4.0 cr)
• TH 3202 - Advanced Directing [ART/P] (4.0 cr)
• TH 3301 - Stage Lighting [ART/P] (4.0 cr)
• TH 3302 - Stage Costuming [FA] (4.0 cr)
• TH 3303 - Computer-Assisted Drawing [ART/P] (4.0 cr)
• TH 3306 - Advanced Lighting and Sound Design [ART/P] (4.0 cr)
• TH 4301 - Scenic Design [FA] (4.0 cr)

Production Requirement
Three major production responsibilities (at least one of which must be in a faculty-directed production, and at least two must be completed in the junior and senior years).

Courses in this catalog are current as of February, 2019. For up-to-date information, see [www.catalogs.umn.edu/morris](http://www.catalogs.umn.edu/morris).
American Sign Language (ASL)

ASL 1001. Beginning American Sign Language I. (4 cr.; Student Option; Every Fall)
Students develop a working vocabulary of conceptually based signs. Emphasis is on receptive abilities. Students develop an awareness of the history of sign language and explore various signing systems, their most common uses, and the cultural rules and values of American Deaf culture. [Note: no credit for students who have received cr for Ed 1012] prereq: 1001 or placement or instr consent

ASL 1002. Beginning American Sign Language II. (FL; 4 cr.; Student Option; Periodic Spring)
Continuation of the sequence beginning with 1001. Students develop a working vocabulary of conceptually based signs, receptive ability, and an awareness of the history of sign language. They also explore various signing systems, their most common uses, and the cultural rules and values of American Deaf culture. [Note: no credit for students who have received cr for Ed 1012] prereq: 1001 or placement or instr consent

Anthropology (ANTH)

ANTH 1103. People of the Past: Introduction to Archaeology. (SS; 4 cr.; Student Option; Every Spring)
Survey of prehistoric and early historic cultures from around the world. Covers the development of hunting and gathering societies, origins of agriculture, and growth of urbanization and state-level societies.

ANTH 1111. Introductory Cultural Anthropology. (SCI-L; 5 cr.; A-F only; Every Spring)
Varieties and range of human behavior as revealed through the comparative study of cultures throughout the world. Concepts developed by anthropologists to explain both the unity and diversity of humankind.

ANTH 1201. Becoming Human: Introduction to Biological Anthropology. (SC-II; 5 cr.; A-F only; Every Spring)
What is human nature, and how did we get this way? The class covers evolutionary theory, modern human biodiversity, our primate relatives, and human evolution. Includes a 90-minute lab session.

ANTH 1813. Culture on TV: An Introduction to Anthropology. (IC; 2 cr.; Student Option; Periodic Fall)
Introduction to basic anthropological concepts using popular depictions of "culture" and anthropology in the media, specifically, in reality TV. Students watch clips or episodes of TV shows like "Cops," "Sister Wives," "Run's House," and "Deadliest Catch." These serve as a springboard to critical engagement with anthropological concerns and concepts like cultural relativism, ethics of research and entertainment, religion, gift exchange, sexuality, gender, marriage, and kinship.

prereq: new college student in their first semester of enrollment at UMM

ANTH 1865. Vikings, Aliens, and Ancient Idols: Evaluating Evidence in Archaeology. (IC; 2 cr.; Student Option; Periodic Fall)
Nations, communities, families, and individuals tell stories about their past. These stories can have many purposes: to define or legitimize their identity, to entertain, to explore lives in the past, or even to make money. How do we evaluate the evidence for and purpose of these stories? How can we apply models for evaluating scientific evidence to other widespread stories found in the media and popular culture? prereq: new college student in their first semester of enrollment at UMM

ANTH 1883. Introduction to Biological Anthropology and the Unity of Humankind. (IC; 2 cr.; Student Option; Periodic Fall)
Introduction to the field of biological anthropology and the unity and diversity of humankind. Provides an overview of the field of biological anthropology and the study of human diversity and evolution. Includes an introduction to evolutionary theory, human diversity, and the history of the discipline of biological anthropology.

prereq: any 1xxx Anth course

ANTH 2001. How We Study People: Introduction to Methods in Cultural Anthropology. (SS; 2 cr.; Student Option; Every Spring)
Survey of methods in cultural anthropology. prereq: any 1xxx Anth or Soc course

ANTH 2002. Learning from the Dead: Introduction to Methods in Archaeology and Biological Anthropology. (SS; 2 cr.; Student Option; Every Spring)
Survey of archaeological methods (lithic and ceramic analysis, zooarchaeology, paleoethnobotany, geoarchaeology, etc.), as well as biological anthropology methods (genetics, paleoanthropology, bioarchaeology, etc.). Introduction to data interpretation and site formation processes. Includes lecture and hands-on work with archaeological and biological anthropology materials. prereq: any 1xxx Anth course

ANTH 2121. Topics in Cultural Anthropology. (SS; 4 cr.; Student Option; Periodic Fall)
Survey of ethnography (a key genre of anthropology writing) including classical and contemporary works. Consider issues about how research is conducted, how it is represented in writing, and ethics and consider the variety of ways in which anthropologists approach their work. Some locations, topics, and approaches may be determined by student interests.

ANTH 2151. Professional Skills in Anthropology. (SS; 2 cr.; Student Option; Periodic Fall)
An overview of academic and practical skills needed in the study of anthropology and in anthropology-related careers, including field-specific presentation and writing skills. Includes discussion and examples of career paths in and outside of academia. Class includes community-based learning and service-learning component. prereq: any 1xxx Anth course

ANTH 2202. Men and Masculinities. (SS; 4 cr.; Student Option; Periodic Fall & Spring)
Introduction to the field of men and masculinity. Examines cultural construction of masculinity in sports, family, work, media, and other social realms, with a focus on contemporary American, Chinese, Mexican, and Japanese societies. Highlights the multiple masculinities that exist, showing which are privileged and what effects this hierarchy of masculinities has. Topics include men's movements and networks, men's socialization, male sexuality and fertility, male aggression and violence, the idea of machismo, intimacy and friendship among males, fatherhood, men's experiences with sports and work, media representations of boys and men, and the social construction of masculinities in different historical and cultural contexts. Helps students understand how masculinity as a social concept affects their relationships with the people in their lives, approaching gender problems in a rational way, and developing cultural sensitivity toward masculinity issues.

ANTH 2204. Anthropology of Education: Learning and Schooling in Ethnographic Perspective. (SS; 4 cr.; Student Option; Periodic Fall & Spring)
Introduction to the central concepts and methods used by cultural anthropologists to study and understand educational processes. Exploration of approaches to diverse educational settings, including both formal and informal contexts. The seminar-style format of the course emphasizes critical thinking and encourages students to connect the readings and course topics to their own lives and experiences.

ANTH 2206. Sex, Marriage, and Family. (HDIV; 4 cr.; Student Option; Periodic Fall & Spring)
Introduction to classic anthropological theories of sexuality, kinship, and marriage. Consider how emotional and experiential aspects of sex, marriage, and family life--love and romance as well as conflict and control--are shaped by formal arrangements known as "social structure." Topics such as gift-exchange, cousin-marriage, patrilineal and matrilineal descent, incest, arranged marriage, and the concept of "blood" relations in North American families are addressed. Also explore recent anthropological work on such topics as transnational adoption, marriage migration, and new reproductive technologies.

ANTH 2501. Medical Anthropology-An Overview. (SS; 2 cr. [max 4 cr.]; Student Option; Periodic Fall & Spring)
Examination of cultural understandings of health, illness, and healing. Using cross-cultural examples and an anthropological perspective, issues such as medicalization, authoritative knowledge, and global inequalities are examined. Examples and case studies

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
may include such diverse topics as childbirth, nutrition, mental health, disease prevention, and the role of medical institutions. prereq: 1111 or Soc 1101

ANTH 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
Individualized on- or off-campus research project or other learning activity not covered in the regular anthropology curriculum. Topic determined by the student and instructor.

ANTH 3001. Theory in Cultural Anthropology. (2 cr. ; A-F only; Every Spring)
Examines the historical development of cultural anthropological theory, influences that shaped historical and contemporary theories in cultural anthropology, and major debates regarding their interpretation. [Note: no credit for students who have received cr for Anth 4901] prereq: 1111

ANTH 3002. Theory in Archaeology and Biological Anthropology. (2 cr. ; Student Option; Every Fall)
Development of theoretical foundation for archaeology and biological anthropology, particularly evolutionary theory, ecological theory, and middle-range theory. Influences that shaped historical and contemporary theory in archaeology and biological anthropology. prereq: 1103

ANTH 3204. Culture, Food, and Agriculture. (ENVT; 4 cr. ; Student Option; Periodic Fall & Spring)
Examines food access, production, and consumption from an anthropological perspective. Emphasis on varying uses of and relationships to food including issues of sustainability, industrial food production systems, food as harmful or medicinal, religious meanings of food, social class, food marketing, gender, and nationalism. prereq: 1111 or Soc 1101 or Psy 1051 or instr consent

ANTH 3251. Health and Human Ecology. (ENVT; 2 cr. ; Student Option; Periodic Fall & Spring)
Exploration of human ecology with an emphasis on human health and demographics, the relationship between socio-environmental factors and human health/demographics, and the evolution of human adaptations. prereq: any Anth 1xxx course

ANTH 3402. Representations from the Field: American Indian Ethnography and Ethnohistory. (HDIV; 4 cr. ; Student Option; Periodic Fall)
Same as Hist 3402. An analysis of ethnographic and ethnohistoric materials focusing on specific American Indian cultures.

ANTH 3455. North American Archaeology. (SS; 4 cr. ; Student Option; Periodic Fall & Spring)
The archaeology of the societies located in the current United States and Canada prior to European colonization. Includes the earliest human colonization of North America (circa 12,000 years ago), early hunting and gathering societies, the development of agriculture, and the formation of complex chiefdoms. Emphasis on the diversity of cultures, languages, economies, and environments found throughout precontact North America.

ANTH 3461. Archaeology of Eurasia and Africa. (SS; 4 cr. ; Student Option; Periodic Fall & Spring)
The archaeology of Europe, Asia, and Africa, from 30,000 years ago up to the development of state-level societies on all three continents. Focus is on prehistory and non-Classical societies.

ANTH 3465. Archaeology and Native Peoples. (HDIV; 4 cr. ; Student Option; Periodic Fall & Spring)
Consideration of examples of archaeological investigations which take Native peoples and cultures as their objective focus; the foundations of a scientific epistemology and philosophy underwriting that focus; the reaction and resistance of Native communities to this kind of archaeology and the epistemological differences informing their positions; and examples of how archaeology might integrate both Native and scientific epistemological stances for a more ethically equitable approach to the past. The goal is to introduce students to scholarly and literary resources that bring opposing viewpoints into conversation with one another.

ANTH 3502. Latinos in the Midwest. (SS; 4 cr. ; Student Option; Periodic Fall & Spring)
Explore the history and experiences of Latinos in the Midwest United States. Starting from a historical perspective, the course examines issues including (im)migration, undocumented status, language, religion, race/ethnicity, media, and economy. A comparative framework emphasizes the unique context of migration into (rather than out of) rural communities as well as those far from a national border. Given the context of the local Morris community, the focus is particularly on rural Latino experiences.

ANTH 3603. Latin American Archaeology. (SS; 4 cr. ; Student Option; Periodic Fall & Spring)
Latin America from the earliest human colonization to European contact. Includes societies from northern Mexico through Tierra del Fuego, as well as the Caribbean. Covers early hunting gathering societies, origins of agriculture, the rise of powerful states and empires, and their influence on later Colonial-period societies.

ANTH 3604. Gender and Sexuality in Latin America. (IP; 4 cr. ; Student Option; Periodic Fall & Spring)
A survey of gender and sexuality in contemporary Latin America. Course readings attend to the ways gender and sexuality intersect with factors such as race, ethnicity, social class, and religion. Topics include women's activism, public health, LGBTQ activism, tourism, and globalization labor.

ANTH 3701. Forensic Anthropology. (SCI; 4 cr. ; Student Option; Fall Odd Year)
Recovery, identification, and analysis of human skeletal remains, including investigation techniques, identification of age, sex, ancestry, and cause of death. Two 65-min lectures and one 2-hour lab weekly. prereq: 1201 or Biol 2102

ANTH 3704. Anthropological Genetics. (SCI; 4 cr. ; A-F only; Periodic Fall & Spring)
Genetic variation in Homo sapiens, links between genes and behavior, and environmental effects on gene expression. Inheritance, “race,” and population genetics. Genetics as a data source in paleoanthropology, including DNA recovered from fossil hominins. Human genetic change since the development of agriculture. Basic bioinformatic methods. prereq: 1201 or Biol 1111

ANTH 3705. The Archaeology of Death and Burial. (4 cr. ; Student Option; Periodic Fall & Spring)
The study of human remains in archaeological sites, with particular attention to the analysis of mortuary behavior and reconstruction of demographic processes from buried populations. Covers theory, methodology, results, and ethics in the subfield of bioarchaeology, prereq: 1103

ANTH 3751. Primatology. (SCI; 2 cr. ; Student Option; Periodic Spring)
A survey of non-human primates (monkeys, apes, and prosimians), with a focus on their physical and behavioral adaptations. Also covers basic methods in primatology, the evolution of primate taxonomic groups, and modern conservation status.

ANTH 3761. Human Fossil Record. (SCI; 2 cr. ; Student Option; Periodic Spring)
In-depth exploration of the human evolution through the fossil record, from the last common ancestor with chimpanzees (around 6 million years ago) up to the extinction of the last pre-modern human (sub)species. prereq: 1201

ANTH 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
Individualized on- or off-campus research project or other learning activity not covered in the regular anthropology curriculum. Topic determined by the student and instructor.

ANTH 4411. Research in Cultural Anthropology. (E/C; 4 cr. ; A-F only; Every Fall)
Exploration and evaluation of methods used in cultural anthropology; qualitative methods; research ethics; and design of qualitative research project. prereq: 1111, 2001

ANTH 4412. Research in Archaeology and Biological Anthropology. (4 cr. ; A-F only; Every Fall)
Exploration and evaluation of methods used in archaeology and biological anthropology; quantitative methods; research ethics; design of research project. prereq: 2002

ANTH 4501. Archaeological Fieldschool. (SS; 4 cr. [max 8 cr.]; Student Option; Periodic Summer)
Experience in archaeological fieldwork, including excavation, survey, artifact processing, and living under field conditions. prereq: instr consent

ANTH 4902. Senior Seminar. (2 cr. ; Student Option; Every Spring)
Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
A sociohistorical consideration of the stylistic and thematic diversity present in the works of such 17th-century masters as Caravaggio, Bernini, Velazquez, Rembrandt, and Vermeer. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3191. American Art to 1900. (FA; 4 cr.; Student Option; Periodic Fall & Spring) A thematic exploration of the role of painting, sculpture, and decorative arts in American society, from colonial times to 1900. Topics include the landscape and Manifest Destiny, American icons, folk art, and the representation of American Indians, African Americans, and women. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3201. Nineteenth-Century Art. (FA; 4 cr.; Student Option; Fall Odd Year) Survey of major movements from Neoclassicism through Romanticism, Realism, and Impressionism to Post-Impressionism. Attention is given to iconographical and formal analysis as well as to the social conditions in which artists lived and worked. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3204. Woman and Art. (FA; 4 cr.; Student Option; Fall Even Year) Appraisal of the role of women as artists and the social context of the women artists. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3211. Modern Art from Impressionism to Surrealism. (FA; 4 cr.; Student Option; Spring Even Year) Survey of the major early modernist movements from Symbolism through Cubism, Futurism, Expressionism, Constructivism, De Stijl, and the Bauhaus to Surrealism. Attention is given to theories of modern art as well as to formal and iconographical analyses and to the social conditions in which modern art was created and experienced. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3212. Contemporary Art, 1950 to the Present. (FA; 4 cr.; Student Option; Fall Even Year) An examination of selected artists and movements from the 1940s through the present. Attention is given to the art and the social context in which it was made and experienced, and to modernist and postmodernist aesthetic and critical thought. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3231. History of Photography. (FA; 4 cr.; Student Option; Spring Odd Year) Survey of European and American photography from the period of invention to the present. Major artists and movements are examined in the context of a variety of aesthetic, social, and technical issues. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3272. Athens, Art, and Theatre. (FA; 4 cr.; Student Option; Periodic Fall & Spring) Classical Athens was a special place. It produced works of art and theatre that are still considered cultural treasures today. Combining archaeological, art historical, and textual sources, explore the context of these great works and look at their interaction with one another and with performances on the Morris campus today. prereq: any 1xxx ArtH course or instr consent; attendance at evening UMM theatre performance required

ARTH 3273. Ars Otii: The Art of Roman Leisure. (FA; 4 cr.; Student Option; Periodic Fall & Spring) What did Romans do in their free time? Explore the art of daily life in ancient Rome focusing on themes and activities related to leisure. Outside the home, Romans bathed, hunted, and went to the theatre. Inside the home, they held lavish dinner parties. In all of these activities, status and social display were of central concern. prereq: any 1xxx ArtH course or instr consent

ARTH 3274. Modern Art in Germany. (FA; 4 cr.; Student Option; Periodic Fall & Spring) Survey of modern art in Germany from the late 19th century through WWII, examining many important movements, tendencies, figures, and issues. It includes the Secession, Die Brücke, Blue Rider, Dada, the Bauhaus, New Vision, and New Objectivity and studies painting, photography, film, and design. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3281. Women and Art. (FA; 4 cr.; Student Option; Fall Even Year) A historical survey of women's roles as creators and patrons of the visual arts in Western European and American societies, from antiquity to the present. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3291. Facing the Past: Portraiture and Social History. (FA; 4 cr.; Student Option; Periodic Fall & Spring) This seminar examines functions and formats of portraits created primarily in Western Europe between 1400-1800, in order to gain greater insight as to how various social identities (such as that of husband and wife, child, friend, and freak of nature) were visually constructed and verbally interpreted. prereq: any 1xxx ArtH course or jr status or instr consent

ARTH 3993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) Content and nature of the course to be determined by faculty and student consultation. May include individual research and writing, working in relation to the Art Gallery program, or travel and study. Prereq-Any 1xxx ArtH class or jr status

ARTH 4810. Practicum in Art History Pedagogy. (1-4 cr.; max 8 cr.; S-N only; Every Fall & Spring) An individualized, hands-on, guided study of the process of teaching Art History. As part of a formal affiliation with an ArtH course, the student undertakes selected learning activities under supervision of the course instructor such as discussion group leader, test review leader, research assistant and/or other teaching related activities. Prereq: which requires an ArtH major or minor or double-major, must already have taken the 1xxx-level ArtH course that they wish to complete this practicum in conjunction with

ARTH 4901. Capstone Assessment of Student Experience in Art History. (2 cr.; S-N or Audit; Every Fall & Spring) Culminating course that focuses on a student-proposed, research-based project. Results of the project are presented in written form, as well as in a public forum. Participation in capstone sessions on topics such as career preparation and proposal and abstract writing is also required. prereq: ArtH major, instr consent

ARTH 4993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) Content and nature of the course to be determined by faculty and student consultation. May include individual research and writing, working in relation to the Art Gallery program, or travel and study. Prereq-Any 1xxx ArtH class or jr status

ARTS 1011. Visual Studies for Non-Majors: Drawing. (ART/P; 2-4 cr.; max 12 cr.; Student Option; Periodic Fall & Spring) For non-majors with little or no experience in drawing. Exploration of observational drawing skills through line work in contour and gesture, continuing with studies in value, texture, and space. Contemporary and traditional modes of drawing explored using a variety of materials. [Note: no elective cr for ArtS majors or minors; materials fee required]

ARTS 1002. Visual Studies for Non-Majors: Digitally Assisted Design. (ART/P; 2-4 cr.; max 12 cr.; Student Option; Periodic Fall & Spring) Development of skills necessary to produce digital imagery, including fundamental aesthetic concerns (composition, color theory, mark-making, etc.) and knowledge of digital media with emphasis on the technical, conceptual, aesthetic, and ethical aspects of digital imaging as an artistic medium. [Note: no elective cr for ArtS majors or minors; materials fee required]

ARTS 1003. Visual Studies for Non-Majors: Painting. (ART/P; 2-4 cr.; max 12 cr.; Student Option; Periodic Fall & Spring) The development of painting as a means of artistic expression including basic technical, material, and formal compositional problems. For non-majors with little or no previous experience in painting. [Note: no elective cr for ArtS majors or minors; materials fee required]

ARTS 1004. Visual Studies for Non-Majors: Printmaking. (ART/P; 2-4 cr.; max 12 cr.; Student Option; Periodic Fall & Spring) Development of skills necessary to produce imagery using printmaking as a means of expression, including the development of fundamental aesthetic concerns (composition, color theory, mark-making, etc.). For non-majors with little or no studio experience. [Note: no elective cr for ArtS majors or minors; materials fee required]

ARTS 1005. Visual Studies for Non-Majors: Photography. (ART/P; 2-4 cr.; max 12 cr.; Student Option; Periodic Fall & Spring) Development of skills necessary to produce imagery using black and white photography as a means of expression, including an introduction to processes, materials, brief history, and critical skills to evaluate photographs. Students must provide their own 35 mm cameras. For non-majors with little or no studio experience. [Note: no elective cr for ArtS majors or minors; materials fee required]
ARTS 1008. Visual Studies for Non-Majors: Ceramics.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Development of skills necessary to produce works in clay. Techniques include forming methods using stoneware and porcelain via hand building or wheel techniques, glazing, clay and glaze chemistry and kilns. For non-majors with little or no studio experience. [Note: no elective cr for Arts majors or minors; materials fee required]

ARTS 1014. Visual Studies for Non-Majors: Sculpture.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Development of skills necessary to produce three dimensional works, including development of technical, conceptual, aesthetic, and material aspects of sculptural processes. For non-majors with little or no studio experience. [Note: no elective credit for Arts majors or minors; materials fee required]

ARTS 1101. Studio Essentials: Observational Drawing.  (ART/P; 2 cr.; Student Option; Every Fall) Preparation for advanced work in studio art. Basic exercises of drawing, use and exploration of materials and methods in line and form development, problems of spatial representation. [Note: materials fee required] preq: coreq 1103, one 1xxx ArtH course recommended during the same year

ARTS 1102. Studio Essentials: Experimental Drawing.  (ART/P; 2 cr.; Student Option; Every Spring) Preparation for advanced work in studio art. Continued development of drawing, use and exploration of materials and methods in line and form development, problems of spatial representation. [Note: materials fee required] preq: 1101, coreq 1104; one 1xxx ArtH course recommended during the same year

ARTS 1103. Studio Essentials: Materials and Design.  (ART/P; 2 cr.; Student Option; Every Fall) Preparation for advanced work in studio art. Elements of two-dimensional design and color theory, introduction to painting and printmaking. [Note: materials fee required] preq: coreq 1103; one 1xxx ArtH course recommended during the same year

ARTS 1104. Studio Essentials: Materials and Space.  (ART/P; 2 cr.; Student Option; Every Spring) Preparation for advanced work in studio art. Elements of three-dimensional design, introduction to sculpture. [Note: materials fee required] preq: 1103, coreq 1102; one 1xxx ArtH course recommended during the same year

ARTS 1801. Murial Project and Public Art.  (IC; 2 cr.; Student Option; Periodic Fall) Understanding and exploration of contemporary mural art through reading, writing, and production of art. Collaborative production of a large-scale painted mural in a public setting. Designed for students who have a working knowledge of the basic principles and skills of art such as drawing, 2D and 3D design, composition, and color theory. preq: new college student in their first semester of enrollment at UMM

ARTS 1802. 2D Studies in Printmaking.  (IC; 2 cr.; Student Option; Periodic Fall) Introduces two-dimensional design concerns through the study of traditional printmaking techniques. Referencing the rich history of socially engaged printmaking as a guide for their own creative process, students learn how to visually express their own ideas related to contemporary social, political, and environmental concerns. preq: new college student in their first semester of enrollment at UMM

ARTS 1900. Fashion Trashion: Where Style Meets Sustainability.  (ART/P; 2 cr. [max 6 cr.]; Student Option; Periodic Spring) Studies in fashion, sustainability, and artistic performance culminating in a final project to design and complete a wearable item from recycled, repurposed, and reimagined items for display in a group runway fashion show. [Note: students must participate in spring runway show in April, held in the evening; materials fee required]

ARTS 2101. Drawing From Life.  (ART/P; 2 cr. [max 6 cr.]; Student Option; Periodic Fall & Spring) Via the study of human anatomy, the course increases and enhances students' knowledge and skill in drawing as a traditional art form and as a preparation for work in other media. [Note: materials fee required] preq: major or minor or instr consent

ARTS 2601. The Artist in Studio and in Society.  (FA; 2 cr.; Student Option; Every Fall & Spring) Preparation for advanced reasoning, writing, and communication skills in studio art. Theories, philosophy, history of visual arts, contemporary trends in art, selected readings. [Note: materials fee required] preq: 1102, 1104, major or minor or instr consent

ARTS 2602. Digital Fundamentals.  (ART/P; 2 cr.; Student Option; Every Fall & Spring) Preparation for advanced work in studio art. Basics of using digital technologies to create independent works, support other studio media or professional practices. [Note: materials fee required] preq: 1102, 1104, major or minor or instr consent

ARTS 3002. Media Studies: Artist's Books.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Personal expression through artist's books. Designed for students who have a working knowledge of the basic principles and skills of art such as drawing, 2D and 3D design, composition, and color theory. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3006. Media Studies: Feminist Art: A Studio Perspective.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) The impact of the women's movement of the 1970s on contemporary art. Exploration of the notion of "women's work" as a studio practice; the materials, methods, and issues that define feminist work. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3007. Media Studies: Printmaking.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Study of and practice in various contemporary methods of printmaking: application of drawing skills, color, composition, and personal expression to alternative printmaking techniques. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3102. Media Studies: Ceramics.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Study of and practice in specialized methods and techniques in ceramics not covered under the regular curriculum. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3103. Media Studies: Painting.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Study of and practice in various contemporary methods in painting: application of drawing skills, color, composition, and personal expression to alternative painting techniques. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3104. Media Studies: Fabric as Form.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall, Spring & Summer) Focus on the possibilities of fabric as the primary medium in art making. Topics include surface manipulation via hand and mechanical processes and using fabric to construct independent forms. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3105. Media Studies: Sculpture.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Study and practice in various specialized methods, techniques, and processes in sculpture not covered by the regular curriculum. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3106. Media Studies: Photographic and Digital Processes.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Study and practice in various specialized methods, techniques, and processes in photo or digital processes not covered by the regular curriculum. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3107. Media Studies: Drawing.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Study and practice in various specialized methods, techniques, and processes in drawing not covered by the regular curriculum. [Note: materials fee required] preq: major or minor or instr consent

ARTS 3108. Drawing Studio.  (ART/P; 2-4 cr. [max 12 cr.]; Student Option; Periodic Fall & Spring) Continued development of the skills and understandings required by problems of drawing. Emphasizes self-direction,
ARTS 3200. Printmaking Studio I. (ART/P; 4 cr. [max 12 cr.]; Student Option; Every Fall) Study of and practice in various methods of printmaking: application of drawing skills, color, composition, and personal expression to printmaking techniques. [Note: materials fee required] prereq: major or minor or instr consent for non-major jrs and srs

ARTS 3210. Printmaking Studio II. (ART/P; 4 cr. [max 12 cr.]; Student Option; Every Spring) Study of and practice in various methods of printmaking: application of drawing skills, color, composition, and personal expression to printmaking techniques. [Note: materials fee required] prereq: major or minor or instr consent for non-major jrs and srs

ARTS 3300. Painting Studio I. (ART/P; 4 cr. [max 12 cr.]; Student Option; Every Fall) The development of painting as a means of artistic expression including basic technical, material, and formal compositional problems. [Note: materials fee required] prereq: major or minor or instr consent for non-major jrs and srs

ARTS 3310. Painting Studio II. (ART/P; 4 cr. [max 12 cr.]; Student Option; Every Spring) The development of painting as a means of artistic expression including basic technical, material, and formal compositional problems. [Note: materials fee required] prereq: major or minor or instr consent for non-major jrs and srs

ARTS 3400. Sculpture Studio I. (ART/P; 4 cr. [max 12 cr.]; Student Option; Every Fall) Exploration of sculpture as a means of artistic expression, including an introduction to the planning and construction of three-dimensional forms using both traditional and contemporary techniques. [Note: materials fee required] prereq: major or minor or instr consent for non-major jrs and srs

ARTS 3410. Sculpture Studio II. (ART/P; 4 cr. [max 12 cr.]; Student Option; Every Spring) Exploration of sculpture as a means of artistic expression, including an introduction to the planning and construction of three-dimensional forms using both traditional and contemporary techniques. [Note: materials fee required] prereq: major or minor or instr consent for non-major jrs and srs

ARTS 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ARTS 3994. Directed Research. (ART/P; 1-5 cr. [max 10 cr.]; Student Option; Periodic Fall & Spring) An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum. [Note: materials fee required]

BIOL 1002. Human Nutrition. (SCI; 3 cr. ; Student Option; Every Spring) Survey of topics in conservation biology, with emphasis on topics that have created controversy and debate: loss of biodiversity; endangered species preservation and management, habitat conservation, environmental degradation, and sustainable development. (two 65-min lect, one 120- or 180-min lab or field study)[Note: no elective cr for biol majors or minors]

BIOL 1054. Introduction to Immunology and Infectious Disease. (SCI; 2 cr. ; Student Option; Periodic Summer) Basic concepts of immunology, how the immune system protects people from infectious diseases (HIV, influenza, Ebola, and malaria), and how infectious diseases have shaped history. [Note: no credit for students who have received credit for Biol 1803]

BIOL 1111. Fundamentals of Genetics, Evolution, and Development. (SCI; 3 cr. ; Student Option; Every Fall & Spring) Introduction to scientific methods and the history of biology, with an emphasis on mechanisms of inheritance, development, and descent with modification. Overview of pre-Darwinian scientific thought; the theory of evolution; a qualitative introduction to genetics and molecular biology; and a summary of developmental biology. (two 75-min lect) prereq: biol major/minor or chem major or any health sciences preprofessional program or ElEd or SeEd major with middle school science specialties or instr consent

BIOL 1801. The Animals Around Us: Wildlife of Minnesota. (IC; 4 cr. ; Student Option; Periodic Fall) Discussion and examination of basic biological principles illustrated through studies of North American wildlife. Topics include movements and migration, behavior, conservation, and ecological relationships. Students research and discuss wildlife-related issues, and work together to learn how to identify species found in Minnesota. At least one field trip to observe local wildlife; additional field trips, time and weather permitting. (two 65-min lect, one 180-min lab or field study) prereq: new college student in their first semester of enrollment at UMM

BIOL 1803. Scientific and Cultural Perspectives of Vaccines and Epidemics. (IC; 2 cr. ; Student Option; Periodic Fall) Exploration of the science behind vaccines and epidemics, the ways in which vaccines and epidemics are portrayed in our culture, and how epidemics have shaped history. Includes a service-learning component in which students design and implement a public health campaign to encourage flu vaccinations on campus. [Note: no credit for students who have received credit for Biol 1054] prereq: new college student in their first semester of enrollment at UMM

BIOL 2101. Evolution of Biodiversity. (SCI-L; 4 cr. ; Student Option; Every Spring) Analysis of evolutionary trends using historical and contemporary evidence. Principles of classification and phylogenetic reconstruction. Includes laboratory survey of the major groups of organisms. (two 65-min lect, one 180-
BIOL 2102. Human Anatomy. (4 cr.; Student Option; Every Fall)
Same as SSA 2102. Structure of human systems at their organ and cellular level. (two 75-min lect, one 120-min lab)[Note: no elective cr for bioi majors or minors] prereq: soph

BIOL 2103. Introduction to Human Physiology. (SCI; 4 cr.; Student Option; Every Spring)
Function of human systems at organ, cell, and molecular levels. (three 65-min lect)[Note: no elective cr for biology majors or minors] prereq: 2102 or SSA 2102 or instr consent

BIOL 2111. Cell Biology. (SCI-L; 4 cr.; Student Option; Every Fall)
Cell structure and function. Includes topics pertaining to the chemistry, physiology, structure, and reproduction of plant and animal cells. (three 65-min lect and one 120-min lab) prereq: C- or better in 1111, Chem 1102 or instr consent

BIOL 3121. Molecular Biology. (SCI-L; 4 cr.; Student Option; Every Fall & Spring)
Principles and mechanisms of DNA function, protein synthesis, and gene regulation in prokaryotes and eukaryotes. Genetic engineering and evolution at the molecular level. (two 65-min lect, 180-min lab, additional lab time arranged) prereq: C- or better in 2111, Chem 2301 or instr consent

BIOL 3131. Ecology. (SCI-L; 4 cr.; Student Option; Every Fall)
Basic principles and models of population biology, community structure and function, and ecosystem dynamics. Lab exercises emphasize field work, techniques for characterizing local plant and animal communities, and experimental investigation of topics such as competition and behavioral ecology. (two 65-min lect, one 180-min lab and field study; weekend field trip required) prereq: C- or better in Biol 2101 or EnSt 2101, Stat 1601 or Stat 2601, or instr consent

BIOL 3700. Biological Communication I. (1 cr.; Student Option; Every Fall & Spring)
Finding and utilizing sources of biological information. Modern techniques for searching the biological literature, as well as reading and interpreting those sources. Principles of technical written and oral communication in biology. prereq: Biol 2101, 2111

BIOL 3701. Biological Communication II. (1 cr.; Student Option; Every Fall & Spring)
Writing, editing, and revising an extensive review paper on a biological topic under the mentorship of a faculty member. Multiple drafts and revisions are expected. prereq: 3700, instr consent

BIOL 4003. Neurobiology. (4 cr.; Student Option; Periodic Fall)
Survey of general principles of neuronal function and formation. Emphasis on comparative aspects of simple nervous systems. prereq: 2111

BIOL 4005. CRISPR/Cas9 in Gene Editing. (4 cr.; Student Option; Periodic Spring)
An introduction to CRISPR/Cas9 gene editing technology, which has widespread application in the areas of biomedicine and agriculture. Students learn these concepts through study and discussion of primary literature and reviews. (two 100-min lectures) prereq: 3121 (or coreq) or instr consent

BIOL 4103. Cancer Biology. (4 cr.; Student Option; Periodic Fall)
Examining cancer processes from a genetic, molecular, and developmental perspective, identifying the cellular events behind uncontrolled growth and metastasis, cell cycle control, apoptosis, and cell signaling and signal transduction. Exploring genetic and environmental factors that can induce cancers. prereq: 2111

BIOL 4104. Cell Signaling Mechanisms. (4 cr.; Student Option; Periodic Spring)
Comparison of common cell signaling mechanisms in prokaryotic and eukaryotic organisms. Basic concepts in regulation of protein activity, followed by a survey of how different organisms have modified these processes for specific functions. Includes student presentations of primary literature to illustrate specific examples at the organismal level. prereq: 3121 or instr consent

BIOL 4105. Stem Cell Biology. (4 cr.; Student Option; Fall Odd Year)
In-depth overview of stem cells in animals. Basic principles of stem cell biology are covered, followed by a survey of how stem cells develop into the various tissues and organs of humans and in experimental animal models. Experimental strategies and therapeutic potential of stem cells are discussed. Ethical and legal issues related to working with embryonic stem cells are examined. Includes student presentation of primary literature and writing of grant proposal to allow for a deeper understanding of the experimental approaches necessary for scientists to study stem cells. prereq: 3121 or instr consent

BIOL 4111. Microbiology. (4 cr.; Student Option; Every Spring)
The biology of pathogenesis and the treatment and prevention of infectious disease. Emphasis on prokaryotic microbes and viruses. (two 65-min lect, one 180-min lab) prereq: 2111, prereq or coreq 3121 or instr consent

BIOL 4121. Herpetology. (4 cr.; Student Option; Spring Odd Year)
Survey of amphibians and reptiles, including their evolution, systematics, identification, behavior, ecological relationships, and contemporary problems associated with human activities. (two 65-min lect, one 180-min lab or field study) prereq: Biol 2101 or EnSt 2101 or instr consent

BIOL 4131. Vertebrate Natural History. (4 cr.; Student Option; Fall Even Year)
Survey of vertebrates, including their evolution, systematics, and ecological relationships. (two 65-min lect, one 180-min lab or field study) prereq: Biol 2101 or EnSt 2101 or instr consent

BIOL 4151. Entomology. (4 cr.; Student Option; Fall Even Year)
Structure, life histories, habits, and classification of common families of insects, including their economic significance. (two 65-min lect, 180-min lab) prereq: Biol 2101 or EnSt 2101 or instr consent

BIOL 4161. Evolution. (4 cr.; Student Option; Spring Odd Year)
Survey of the history, evidence, and mechanisms of organic evolution. (three 65-min lect) prereq: Biol 2101, 2111 or instr consent

BIOL 4172. Plant Systematics. (4 cr.; Student Option; Spring Even Year)
Survey of vascular plant taxa, with an emphasis on the flowering plant families and their evolutionary relationships. Lab emphasizes use of keys for identification of Midwestern plant families and genera. (two 65-min lect, one 180-min lab) prereq: 2101 or EnSt 2101 or instr consent

BIOL 4181. Developmental Biology. (4 cr.; Student Option; Periodic Fall & Spring)
Survey of general concepts in developmental biology, emphasizing molecular mechanisms of positional information, pattern formation, and cellular interactions. Stresses comparative aspects of developmental processes, and the role of development in evolution. (two 65-min lectures, one 180-min lab) prereq: 2111; 4312 recommended

BIOL 4182. Ecological Developmental Biology. (4 cr.; A-F only; Periodic Spring)
Integrates the fields of ecology, development, and evolution. Topics covered include plasticity, environmental interactions in embryology, and the medical consequences of teratogens and other developmental perturbations. (three 65-min lect) prereq: 3131

BIOL 4191. Freshwater Biology. (4 cr.; Student Option; Fall Odd Year)
Structure, function, and biota of freshwater ecosystems, including lakes, streams, and wetlands. Lab emphasizes independent research and field study in local habitats. (two 65-min lect, one 180-min lab; all day field trip required) prereq: Biol 2101 or EnSt 2101, 2111 and prereq or coreq Stat 1601 or 2601 or instr consent

BIOL 4211. Biochemistry. (4 cr.; Student Option; Every Fall)
Structures, functions, and biochemical transformations of proteins, carbohydrates, and lipids. (three 65-min lect) Optional lab offered. See Biol 4611. prereq: Chem 2302 or Chem 2304, prereq or coreq Biol 3121, or instr consent

BIOL 4231. Immunology. (4 cr.; Student Option; Periodic Spring)
An introduction to the cellular and molecular aspects of immunology that are involved in health and disease. Students consider these concepts through discussion of primary literature and clinical scenarios. prereq or coreq: 3121 or instr consent

BIOL 4241. Our Tiny Predators: Ecology, Infection, Disease. (4 cr.; Student Option; Periodic Spring)
Combines ecological concepts and models with interdisciplinary perspectives to understand
BIOL 4301. Plant Biology. (4 cr.; Student Option; Fall Even Year) Descriptive and experimental study of plants. Anatomy, development, physiology, secondary compounds, evolution, human uses of plants. (two 65-min lect, one 180-min lab) prereq: Biol 2101, 2111 or instr consent

BIOL 4302. Plant Physiology. (4 cr.; Student Option; Periodic Spring) Basic principles of plant physiology and development. Emphasis is placed on anatomical features, water and solute transport, biochemical and metabolic activity, embryogenesis, growth, floral development, and response to the environment. prereq: 2111

BIOL 4312. Genetics. (4 cr.; Student Option; Every Spring) Principles and mechanics of inheritance and variation, including cytological, organismal, and population genetics; mechanisms of evolution; and the genetic problems of humans. (two 65-min lect, 180-min lab) prereq: 2111 or instr consent

BIOL 4321. Animal Physiology. (4 cr.; Student Option; Periodic Spring) Functions of animal structures as they relate to coping with different environmental situations. (two 65-min lect, one 120-min lab) prereq: 2101, 2111

BIOL 4333. Biogeochemistry and Global Change. (4 cr.; Student Option; Spring Even Year) Cycling of elements vital to life, particularly nitrogen (N), phosphorus (P), and carbon (C). Focus on understanding the feedback between physical and ecological processes and the biologically driven coupling of nutrient cycles. Analysis of humans as drivers of change in the biogeochemistry of ecosystems. Heavy emphasis on current primary literature. prereq: 3131 or instr consent

BIOL 4335. Ecology of Agriculture. (4 cr.; Student Option; Periodic Spring) Production of food, fuel, and fiber in an ecological context. Quantitative and qualitative examination of inputs and outputs of modern agriculture and its interaction with climate change, wildlife, competing land uses, and global demand. Topics include nutrient and carbon management, biodiversity, and ecosystem services. Emphasis on primary literature sources. Prereq: 3131

BIOL 4351. Conservation Biology. (4 cr.; Student Option; Spring Odd Year) Conservation theory and practice, including threats to biodiversity and approaches to overcoming them. Topics include: habitat loss and fragmentation, overexploitation, climate change and invasive species, population viability analysis using demographic and genetic models, reserve design and management and ex situ measures. Emphasis on primary literature. (two 65-min lect, one 180-min lab) prereq: Biol 2101 or EnSt 2101, Biol 3131 or instr consent

BIOL 4600. Practicum in Biology. (1-2 cr.; [max 4 cr.]; S-N only; Every Fall & Spring) Supervised experience of selected activities; lab preparation/management, greenhouse care/management, animal care, curating museum/herbarium collections. Repeatable with different projects or activities. [Note: no elective cr for biol majors or minors]

BIOL 4611. Biochemistry Lab. (1 cr.; Student Option; Every Fall) Experiments using the major separation and analytical techniques of biochemistry, including centrifugation, chromatography, electrophoresis, immunochemistry, and spectrophotometry. (one 180-minute lab) prereq: (or coreq) 4211

BIOL 4901. Senior Seminar. (1 cr.; A-F only; Every Fall) Seminar series on selected biological topics. Includes preparation and presentation of a seminar based on original research and/or scientific literature. Enroll in Fall, continues all year. prereq: 3701, sr or instr consent; required of all sr biology majors; full-year course begins fall sem

BIOL 4993. Directed Study. (1-5 cr.; [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 1001. Chemistry for the Curious Citizen: The Role of Chemistry in the Environment and Everyday Life. (SCI-L; 3 cr. [max 4 cr.]; Student Option; Periodic Summer) The central nature and relevance of chemistry to the environment and everyday life. Air quality, the ozone layer, global warming, energy resources, acid rain, and nutrition. Discussion and debate of current events related to these topics. Select readings on significant historical chemical discoveries in these areas that still resonate today. Basic chemistry lab principles and techniques. This course is intended for non-science majors. [Note: may not count toward chem major or minor]

CHEM 1006. The Chemical World. (SCI; 4 cr.; Student Option; Periodic Summer) An online course intended for non-science majors that introduces the basic principles of chemistry with special emphasis on everyday life and sustainability. Course topics reflect a variety of current societal and technological issues and the chemical principles embedded in them. [Note: recommended for non-science majors to fulfill the Gen Ed science lab requirement] prereq: Math 0901 or placement at Math 1012 or higher

CHEM 1553. Chemistry, Empirical Inquiry, and Cultural Confluence in Thailand. (IP; 4 cr.; Student Option; Periodic Summer) Science is seen as objective and equally applicable all over the world. This doesn't mean that science doesn't benefit from a diversity of cultural points of view among scientists. Topics included are molecular structure, thermodynamics, quantum theory, nuclear chemistry, organic chemistry, and biochemistry. Lab exercises concomitant with these topics. (three 65-min lect, 180 min lab) prereq: Math 0901 or placement beyond Math 0901 using ACT/ placement exam score

CHEM 1801. Science Savvy in Our Modern World. (IC; 2 cr.; Student Option; Periodic Fall) If students and chemistry were in a Facebook relationship, the status would be "it's complicated." Some students love science and some love to hate it. "America's Finest News
CHEM 1802. The Climate Change Conundrum: Science, Controversy and Communication Failures. (IC; 2 cr.; Student Option; Periodic Fall)
Do you believe in climate change? This question is often asked in a similar manner to: do you believe in sausquatch? There is no evidence that sausquatch exists, but there is a consensus amongst 97% of scientists that climate change is real and it is caused by humans. However, 90% of Americans do not know there is a scientific consensus on climate change. How is this possible? This course breaks down the science behind climate change, discusses the controversy, and students learn and implement effective means of science communication. The final project for this course is a civic leadership project, where students utilize their skills in science communication and share them with the rest of the community at Morris with efforts towards improving science literacy across campus. Ultimately, this course improves science literacy and communication skills. prereq: new college student in their first semester of enrollment at UMM

CHEM 1993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 1994. Directed Research. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring)
An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 2301. Organic Chemistry I. (SCI; 4 cr.; Student Option; Every Fall)
Introduction to the structure and reactivity of organic molecules; nomenclature and functional groups; stereochemistry; mechanisms of substitution and elimination pathways; physical organic chemistry; introduction to synthetic strategy; fundamentals of spectroscopic techniques. prereq: 1102

CHEM 2302. Organic Chemistry II. (SCI; 4 cr.; Student Option; Every Spring)
Continuation of topics from Chem 2301; spectroscopy; chemistry of polyenes, aromatic systems, and amines; enol and enolate chemistry; free-radical chemistry; retrosynthetic analysis; special topics. prereq: C or better in 2301, coreq 2321 or instr consent for chem majors

CHEM 2304. Organic Chemistry II with a Biological Emphasis. (SCI; 4 cr.; Student Option; Periodic Spring)
Continuation of topics from Chem 2301, with an emphasis on compounds and reactions of biological interest. Topics include spectroscopy, structure and reactivity of aromatic compounds, phosphoryl and acyl group transfer, nucleophilic carbonyl addition, reactions involving enolate and enamine intermediates, coenzyme chemistry, electrophilic addition, elimination, oxidation and reduction of organic compounds, and reactions involving free radical intermediates. prereq: C or better in 2301, Biol 2111 or instr consent

CHEM 2311. Organic Chemistry Lab I. (1 cr.; Student Option; Every Fall)
Development of lab techniques in organic chemistry; experimental problem-solving. (3 hrs lab) prereq: coreq 2301 or instr consent

CHEM 2321. Introduction to Research I. (1 cr.; Student Option; Every Spring)
Interdisciplinary approach to experiment design and analysis of data. Synthesis of organic, organometallic, and/or inorganic compounds, with emphasis on purification and characterization using advanced techniques and instrumental methods. Instruction in use of the scientific literature and scientific communication. Begin research project with faculty mentor. (6 hrs lab) prereq: 2311, coreq 2302 or 2304 or instr consent

CHEM 2322. Introduction to Research II. (1 cr.; Student Option; Every Spring)
Continue research with faculty mentor. Experiment design and analysis of data. Instruction in the use of the scientific literature and oral and written scientific communication. (6 hrs lab) Prereq-2321, coreq 2302 or 2304

CHEM 2993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 2994. Directed Research. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring)
An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 3101. Analytical Chemistry. (SCI-L; 4 cr.; Student Option; Every Fall)
The application of chemical equilibria to chemical analysis with emphasis on the fundamental quantitative aspects of analytical chemistry. Acid-base, oxidation-reduction, and complexometric titrations, introduction to electrochemical and spectrophotometric analyses and separations. (3 hrs lect, 3 hrs lab) prereq: 1102

CHEM 3301. The Chemistry of Sustainable Energy. (SCI; 4 cr.; Student Option; Fall Even Year)
The course helps students to understand the role of experts and bias in the reporting. The course also helps students to explore the connections between science and society. Ultimately, this course fosters a relationship where students both need and want to be engaged with chemistry. prereq: new college student in their first semester of enrollment at UMM
Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.

CHEM 3901. Chemistry Seminar I. (0.5 cr.; A-F only; Every Spring)
Presentations by faculty, guest speakers, and students on topics of current research interest. Students are required to present one seminar for the Chem 3901-4901 sequence. [Note: required of all chem majors; may not count toward chem minor] prerq: 2321

CHEM 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 3994. Directed Research. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 4111. Instrumental Analysis. (5 cr.; Student Option; Spring Even Year)
Principles of chemical instrumentation and instrumental methods of analysis; extensive lab work using chromatographic, spectrophotometric, and electrochemical methods of analysis. (3 hrs lect, 6 hrs lab) prerq: 3101

CHEM 4351. Bioorganic Chemistry. (2 cr. [max 4 cr.]; Student Option; Periodic Spring)
Discussion of the theory of enzyme catalysis, determination of catalytic mechanisms for a variety of organic reactions in biological systems, and elucidation of biosynthetic pathways. Involves analysis of the primary literature. prerq: 2302 or 2304, Biol 4211

CHEM 4352. Synthesis. (4 cr.; Student Option; Fall Odd Year)
Study of the preparation of biologically active molecules, emphasizing the application of transition metal chemistry to modern synthetic methods. prerq: 2302 or 2304

CHEM 4353. Synthesis Laboratory. (1 cr.; Student Option; Periodic Fall & Spring)
Modern organometallic synthetic methods applied to the preparation of small organic molecules. Preparation, purification, analysis, and identification of synthetic products. Scientific record-keeping and literature searching. (3 hrs lab) prerq: 4352 or instr consent

CHEM 4355. Biochemistry of Carbohydrates and Glycoconjugates. (4 cr.; Student Option; Periodic Spring)
The study of carbohydrates including the chemical and biological syntheses, functions in metabolism, applications in signaling, and implications for a range of diseases’ diagnosis and treatment. Involves extensive reading in primary literature. prerq: 2321 or Biol 3700, Biol 4211 or instr consent

CHEM 4357. Structural Methods of Chemical Biology. (2 cr.; Student Option; Periodic Spring)
In-depth studies in determining, analyzing, and altering the structure and function of proteins. Topics studied include protein synthesis/isolation/purification, as well as structure determination using spectroscopy and crystallography. Involves extensive reading in the primary literature. prerq: 2321 or Biol 3700, Biol 4211

CHEM 4551. Theoretical Chemistry. (4 cr.; Student Option; Periodic Spring)
Quantum theory of molecules. Statistical thermodynamics; Gibbsonian ensembles; applications. prerq: or coreq 3502 or instr consent

CHEM 4552. Molecular Spectroscopy. (3 cr.; Student Option; Spring Odd Year)
Interaction of molecules and electromagnetic radiation. Spectroscopic determination of molecular structure. Operation of spectrometers and spectrophotometers. prerq: 2302 or 2304, 3101 or instr consent

CHEM 4553. Impermanence and Equilibrium in Chemical Thermodynamics and Buddhism in Thailand. (4 cr.; Student Option; Periodic Summer)
An advanced course both in physical chemistry and in Buddhist concepts. Two of the deepest and furthest reaching ideas in chemical thermodynamics are that non-equilibrium states are impermanent and that they evolve toward equilibrium. Parallel topics equally fundamental to Buddhism are that compounded things are impermanent and that, free from clinging to that which is intrinsically fleeting, one’s mind can settle to a state of calm and clarity. Chemical thermodynamics and Pali Buddhism have very different origins. This course offers the opportunity to reinforce and build on important chemical concepts from Physical Chemistry I while learning some analogous Buddhist concepts and applying them to gain calm and clarity of mind. The course takes place in Thailand on the campus of Mahasarakham University and in cities, villages, and National Parks in Thailand. The course uses a mix of discussion, lecture, and lab as well as cultural activities and excursions. prerq: 3501 or instr consent; 4 credits for may session only; 6 credits if continuing into June in Morris

CHEM 4701. Inorganic Chemistry. (4 cr.; Student Option; Spring Even Year)
The periodic table; models of structure and bonding of main group elements and transition metals, nomenclature, symmetry, and bonding theory of coordination compounds. prerq: 3501 or instr consent

CHEM 4711. Inorganic Chemistry Lab. (1 cr.; Student Option; Spring Even Year)
Lab experiments in inorganic/organometallic chemistry illustrating synthetic and spectroscopic techniques. (3 hrs lab) prerq: 2322, coreq 4701 or instr consent

CHEM 4751. Advanced Inorganic Chemistry. (2 cr. [max 4 cr.]; Student Option; Periodic Fall, Spring & Summer)
Structure and reactions of coordination compounds, inorganic cages and clusters, lanthanide and actinide series. Nanoparticles, bioinorganic topics, and other trends in the field. prerq: 4701 or instr consent

CHEM 4901. Chemistry Seminar II. (0.5 cr.; A-F only; Every Fall)
Continuation of Chemistry Seminar I. This is a full-year course. Students must attend year round and present one of the seminars. [Note: required of all chem majors; may not count toward chem minor; full-year course begins fall semester] prerq: 3901

CHEM 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 4994. Directed Research. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Chinese (CHN)

CHN 1001. Beginning Modern Chinese I. (4 cr.; Student Option; Every Fall)
First semester of a two-semester sequence in first-year modern standard Chinese (Mandarin) for students who have no previous exposure to the Chinese language. Introduction to the sounds of Mandarin, basic grammar, vocabulary, and the Chinese writing system.

CHN 1002. Beginning Modern Chinese II. (FL; 4 cr.; Student Option; Every Spring)
Second semester of the two-semester sequence in first-year Chinese. Designed for those who have completed first-semester Chinese or who have equivalent preparation. Introduction to additional modern standard Chinese (Mandarin) grammar, vocabulary, and sentence structures. By the end of the semester, students should be able to recognize some of the Chinese characters, write about part of them from memory, conduct simple conversations, and read simple Chinese texts on general topics. prerq: 1001 or instr consent

CHN 1101. Introduction to Chinese Culture and Society. (IP; 2 cr.; Student Option; Periodic Spring)
Introduction to Chinese culture and society. Topics include the development of China from the ancient period to the modern era; exploring the country’s customs, religion and philosophy; language and literature; regional cuisines and holidays in China. Aim is to enhance students’ knowledge of Chinese culture and society through reading, discussion, video, and various cultural activities. Taught in English.

CHN 2001. Intermediate Chinese I. (IP; 4 cr.; Student Option; Periodic Fall)
This course is designed for those who have learned Chinese for more than one year or who have equivalent preparation. Introduction to additional modern standard Chinese grammar, vocabulary, and sentence structures; exposure to Chinese culture and authentic
texts appropriate to this level. By the end of the semester, students should be able to handle most daily conversation with moderate fluency. prereq: 1002 or placement or instr consent

CHN 2002. Intermediate Chinese II. (IP; 4 cr.; Student Option; Periodic Spring)
A continuation of 2001 designed for those who have learned Chinese more than one year or who have equivalent preparation. Introduction to additional modern standard Chinese grammar, vocabulary, and sentence structures; exposure to Chinese culture and authentic texts appropriate to this level. By the end of the semester, students should be able to handle most daily conversation with moderate fluency. prereq: 2001 or placement or instr consent

Communication, Media, Rhetoric (CMR)

CMR 1042. Public Speaking and Analysis. (E/CR; 4 cr.; Student Option; Periodic Fall, Spring & Summer)
Public address theories, practices, and analysis.

CMR 1052. Introduction to Public Speaking. (E/CR; 2 cr.; Student Option; Every Fall & Spring)
Activities, assignments, and exercises related to public address/public speaking in a variety of speech settings.

CMR 1061. Interpersonal Communication for Non-Majors or Non-Minors in CMR. (HUM; 3 cr. [max 4 cr.]; Student Option; Periodic Summer)
Examination of the nature of self and others, experiencing and expressing emotions, understanding culture, listening, communicating verbally and non-verbally, managing conflict and power. Special emphasis on relationships with romantic partners with explicit concern for violence within those relationships, relationships with family members and friends, and relationships in the workplace. This course does not fulfill a requirement in CMR for either majors or minors.

CMR 1062. Introduction to Interpersonal and Group Communication. (HUM; 4 cr.; Student Option; Every Fall & Spring)
Activities, assignments, and exercises related to interpersonal and group communication in private and public settings including dating, family, and work.

CMR 1101. Introduction to Theories of Communication, Media, and Rhetoric. (HUM; 4 cr.; Student Option; Every Fall)
A survey of the field of study. Students learn the history, theories, and contexts of communication study that prepare them for upper-division courses.

CMR 1388. College Newspaper Experience. (1 cr. [max 2 cr.]; Student Option; Every Fall & Spring)
Supervised experience of selected learning activities to be done in conjunction with an appointment working at the campus newspaper. prereq: instr consent

CMR 1389. College Radio Experience. (1 cr. [max 2 cr.]; Student Option; Every Fall & Spring)
Supervised experience of selected learning activities to be done in conjunction with an appointment working at the campus radio station. prereq: instr consent

CMR 1801. Legal Argument and Free Speech: Ready to Become a Supreme Court Justice?. (IC; 4 cr.; Student Option; Periodic Fall)
Examination of the development of legal argument in Supreme Court decisions dealing with free speech. Read Supreme Court cases, write opinions, speak to a mock Supreme Court, listen to arguments, and analyze the issues that define the ability to communicate in this country. prereq: new college student in their first semester of enrollment at UMM

CMR 2053. Rhetoric of Supreme Court Opinions: Analysis and Creation. (E/CR; 2 cr.; Student Option; Periodic Fall & Spring)
Exploration of the rhetorical, persuasive dimensions of Supreme Court opinions by examining, in particular, their logical and stylistic elements and effects.

CMR 2102. Communication and the Environment: Analysis and Criticism. (HUM; 2 cr.; A-F only; Periodic Spring)
Analyzes and communicates the information about the environment. Students examine what makes (and what has made) the environmental stories we tell about ourselves. Special emphasis on communicating about food and agriculture. Examine news stories about how and what we eat, advertising that helps us decide what food to buy, and labeling that informs us of what we are consuming. prereq: Engl 1601, soph or higher status or instr consent

CMR 2311. Media History and Society. (SS; 4 cr.; Student Option; Periodic Fall & Spring)
Examines the historical and on-going development of the relationship of media, culture, and the public. Traces and explores the developments of various communication technologies, their impacts and consequences, and their relationships to notions of "the public."

CMR 2321. Digital Media Production. (HUM; 4 cr.; Student Option; Periodic Fall & Spring)
Basic theories and practice: equipment, procedures, and skills associated with planning, writing for, and producing mediated messages. Lectures, studio projects, class critiques.

CMR 2323. Media Literacy and Democracy: Baltic Perspectives. (IP; 4 cr.; A-F only; Periodic Summer)
A study abroad course in Latvia that focuses on developing intercultural competencies, global understandings, and media literacy, including examinations of propaganda and counter-propaganda, journalism in the post-information age, and the media's role in the creation, maintenance, and/or subversion of social memory.

CMR 2411. Health Communication. (HUM; 4 cr.; Student Option; Periodic Fall)
A survey of the critical role communication plays in health promotion, specifically in the area of doctor-patient interaction and health campaigns. Communicative issues include the social construction of health, the role of culture in health and healing, and social support.

CMR 2421. Business and Professional Communication. (E/CR; 4 cr.; Student Option; Periodic Spring)
Developing proficiency in communication skills in business and professional contexts. Preparing, selecting, organizing, designing, and delivering messages in business settings. Analyzing meeting/group facilitation, interpreting, and professional presentations. prereq: 1042, 1062 or instr consent

CMR 3101. Rhetorical History and Theories: Pre-Socratic to Modern Periods. (IP; 4 cr.; Student Option; Every Fall)
Rhetoric from the classical theories of the older Sophists, Aristotle, and Cicero to the modern theories of Blair, Campbell, and Whately. prereq: 1101 or instr consent

CMR 3123. Rhetorical Criticism and Speeches that Changed the World. (HUM; 4 cr.; Student Option; Periodic Spring)
Human beings create and maintain their cultures through rhetoric, the art of being persuasive. This course explores the rhetorical nature of the speeches that have changed the world from Moses and Mohammed to Elie Wiesel and George W. Bush. prereq: 1101 or instr consent

CMR 3124. Rhetoric of Comic Art: Analysis and Creation. (HUM; 4 cr.; Student Option; Periodic Fall)
Explores and analyzes the rhetorical, persuasive features of comic art. Examines the rhetorical construction of comic art in comic strips, comic books, and political cartoons by exploring the persuasive synergy created between picture and text. Students are required to both analyze and create comic art. prereq: 1101 or instr consent

CMR 3125. Rhetoric of Free Speech in American Schools: Case Law and Queries. (SS; 4 cr.; Student Option; Periodic Spring)
Focus on the shifting clash between individual student expression and administrative authority. Assumes a fundamental understanding of freedom of speech case law. prereq: 1801 or 3251 or instr consent

CMR 3202. Rhetoric of Presidential Inaugurals. (HUM; 4 cr.; Student Option; Periodic Fall)
Study of the rhetorical dimensions of the genre of presidential inaugurals. Students will complete a variety of rhetorical criticisms concerning an assigned presidential inaugural. prereq: 1101 or instr consent

CMR 3251. Rhetorical Criticism and Free Speech Discourse. (E/CR; 4 cr.; Student Option; Periodic Fall & Spring)
Analysis and evaluation of Supreme Court opinions establishing the contours of First Amendment protection for freedom of speech. Particular attention is devoted to the nature of "communication" revealed by the decisions studied. prereq: 1101 or instr consent

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
University of Minnesota Morris Catalog
Fall, 2019

CMR 3301. Media Theory, Criticism, and Problems. (SS; 4 cr.; Student Option; Every Spring)
Theories, research studies, current trends, and various critical approaches to examine and explain the reflexive relationships between media and society. prereq: 1101 or instr consent

CMR 3311. Social Uses of the Media. (E/CR; 4 cr.; Student Option; Every Spring)
Participation in the planning, production, and performance of media projects designed to serve various publics, such as campus units or the community.

CMR 3312. Media Literacy. (4 cr.; Student Option; Periodic Fall)
Examining ways people decode media images and messages. Topics include principles of literacy, media content/industries, media and identity, and media effects. prereq: 1101 or instr consent

CMR 3342. Visual Journalism. (HUM; 4 cr.; Student Option; Periodic Spring)
Both a theoretical and a hands-on course that immerses students in all aspects of the visual side of journalism, as well as in design principles and techniques for the web and print.

CMR 3401. Communication Theory. (SS; 4 cr.; Student Option; Every Fall)
Detailed study of the theoretical tradition of human communication. Focuses on social scientific and humanities theories used to explain social interaction. Provides general foundation on various traditions of inquiry as well as qualitative and quantitative methods. prereq: 1101 or instr consent

CMR 3411. Intercultural Communication Theory and Research. (HDIV; 4 cr.; Student Option; Periodic Fall)
Study of intercultural communication from an interpersonal and group perspective. prereq: 1101 or instr consent

CMR 3421. Organizational Communication Theory and Research. (SS; 4 cr.; Student Option; Periodic Spring)
Study of organizational communication, including small group perspectives. prereq: 1101 or instr consent

CMR 3432. Communication Research Methods. (SS; 4 cr.; Student Option; Periodic Fall)
Elements/methods of communication research. Use of quantitative/qualitative research methodologies, basic research design, and data collection methods to inform decision making. prereq: 1101 or instr consent

CMR 3433. Communication, Power, and Identity. (HUM; 4 cr.; Student Option; Periodic Spring)
Exploration of the relationship between communication, culture, and social identities. The focus is negotiation of meaning and social identity in face-to-face interaction and intercultural contexts. Surveyed are theories and texts within intercultural communication, environmental communication, ethnic and racial identity, power in discourse. prereq: 1101

CMR 3434. Communication, Nature, and Belonging. (HUM; 4 cr.; Student Option; Periodic Fall & Spring)
Explore how various cross cultural means of communication are active in and about our worlds and allow for better insights about communication, environment, people, and the ways they are related. Overview research that links communication and the ways knowledge and understanding of our environment are situated in local historical contexts. prereq: 1101

CMR 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CMR 4122. Rhetoric of Picture Books, Prose and Picture. (HUM; 4 cr.; Student Option; Periodic Fall)
Explore and analyze picture books for intended and unintended messages. Examine the rhetorical construction of pictures and the rhetorical impact of the intersection between picture and prose. Gain a deeper sensitivity to the formerly unseen rhetorical dimensions of the symbols that surround them. prereq: 1101 or instr consent

CMR 4123. Rhetoric of Advertising. (HUM; 4 cr.; Student Option; Periodic Spring)
Exploration of the rhetorical dimensions of advertising by examining current theory and practice. Students are asked to both analyze and create print advertising campaigns. prereq: 1101

CMR 4152. Advanced Public Speaking. (HUM; 4 cr.; Student Option; Every Fall)
A study of rhetorical argument design and evaluation. Students analyze and critique arguments, as well as plan and present formal speeches. prereq: 1042 or instr consent

CMR 4341. New Media Technologies. (HUM; 2 cr.; Student Option; Periodic Spring)
Examination of the impact of "new media" on current/future cultures; the structure/processes of media and global society in a comparative context; ways new media change how people communicate, distribute, and process information. prereq: 1101 or instr consent

CMR 4800. Directed Experience in Teaching Communication, Media, and Rhetoric. (1-4 cr. [max 8 cr.]; S-N only; Every Fall & Spring)
Practice as facilitators in the introductory-level Communication, Media, and Rhetoric Seminar I. prereq: instr consent

CMR 4890. Communication, Media, and Rhetoric Seminar I. (1 cr.; A-F only; Every Fall)
Familiarizes students with the literature of the field, including ethical and social implications of communication studies. Students analyze various articles and similarly published works, synthesize contents, and construct a research proposal for a project to be completed as a senior capstone experience. prereq: 1042, 1062, 1101 or sr status with instr consent

CMR 4901. Communication, Media, and Rhetoric Seminar II. (3 cr.; A-F only; Every Spring)
Completion of capstone experience for majors. Students conduct a project of original study and present their findings in written and oral form. prereq: 4900, or sr status in the major, instr consent

CMR 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Computer Science (CSCI)

CSCI 1001. Introduction to the Computing World. (M/SR; 2 cr.; Student Option; Periodic Fall)
Basic hardware and software concepts, elementary data representation, problem solving techniques, algorithm development, introduction to web development, and methods for separation of content and presentation (such as HTML and CSS). [Note: no elective cr for CSci majors or minors]

CSCI 1201. Introduction to Digital Media Computation. (M/SR; 4 cr.; Student Option; Every Spring)
Using images, sounds, and movies to introduce problem solving, data representation, data manipulation, and programming principles including recursion. Introduction to basic ideas in hardware, software, and computing.

CSCI 1251. Computational Data Management and Manipulation. (M/SR; 4 cr.; Student Option; Every Fall)
Introduction to principles and practices of computational data management such as using advanced spreadsheet operations, designing and implementing algorithms to summarize and transform data sets, understanding organizations of databases, writing and executing simple database queries, and creating effective data visualizations. Topics include basic issues of information security and introduction to modern technologies that support collaboration. [Note: no elective credit for CSci majors or minors]

CSCI 1301. Problem Solving and Algorithm Development. (M/SR; 4 cr.; Student Option; Every Fall)
Introduction to different problem solving approaches, major programming paradigms, hardware, software, and data representations. Study of the functional programming paradigm, concentrating on recursion and inductively-defined data structures. Simple searching and sorting algorithms.

CSCI 1302. Foundations of Computer Science. (M/SR; 4 cr.; Student Option; Every Spring)
Basic proof techniques, propositional and predicate logic, induction and invariants, program correctness proofs, simple Big-Oh

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
analysis of algorithms, set theory, introductory graph theory, and basic summations.

CSCI 1801. The Design of Everyday Technologies. (IC; 2 cr.; Student Option; Periodic Fall) Discussion and examination of examples of everyday things, issues surrounding the design of technologies for people, and the impacts of new technologies and tools on people in society. Discussion of how values and ethics are manifested in design. Study of design techniques and approaches with an emphasis on promoting design literacy. Includes discussion, readings, presentations, and a project. Requires attending two activities outside of class, a poster session, and a presentation. prereq: new college student in their first semester of enrollment at UMM

CSCI 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CSCI 2101. Data Structures. (M/SR; 5 cr.; Student Option; Every Fall) Introduction to data structures, including stacks, queues, trees, and graphs; implementation of abstract data types and introduction to software testing, using object-oriented techniques and reusable libraries. (4 hrs lect, 2 hrs lab) prereq: 1201 or 1301 or instr consent

CSCI 2701. Introduction to Data Science. (M/SR; 4 cr.; Student Option; Every Spring) Same as Stat 2701: Introduction to data science and informatics and their application to real world scenarios. Computational approaches to data types; database creation including technologies such as SQL/no-SQL; data visualization; data reduction, condensation, partitioning; statistical modeling; and communicating results. prereq: CSci 1201 or CSci 1251 or CSci 1301, Stat 1601 or Stat 2601 or Stat 2611 or instr consent

CSCI 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CSCI 3402. Computing Systems: Concepts. (3 cr.; Student Option; Every Spring) Overview of computing systems, operating systems, and networks. Sources of complexity. Fundamental abstractions such as memory, processing, and communication; memory management and data storage; threads, processes, race conditions and deadlock; and inter-process and inter-computer communication. Modularity and organization; virtualization; protection and security; performance. [Note: Credit will not be granted if credit has been received for CSci 3401] prereq: CSci 1302 or both Math 2202 and Math 3411, CSci 2101 or instr consent

CSCI 3403. Computing Systems: Practicum. (2 cr.; Student Option; Every Fall) Lab experience with key computing systems tools and concepts. Command-line tools; shell and system scripting; system programming. Pointers and explicit memory management. Digital logic, gates, electronics, and microcomputers. Network organization and communication; client-server programming. Processes and threads; parallel and distributed computing. Performance and profiling. [Note: Credit will not be granted if credit has been received for CSci 3401] prereq: CSci 1302 or both Math 2202 and Math 3411, CSci 2101 or instr consent

CSCI 3501. Algorithms and Computability. (5 cr.; Student Option; Every Fall) Models of computation (such as Turing machines, deterministic and non-deterministic machines); approaches to the design of algorithms, determining correctness and efficiency of algorithms; complexity classes, NP-completeness, approximation algorithms. (4 hrs led, 2 hrs lab) prereq: CSci 1302 or both Math 2202 and Math 3411, CSci 2101 or instr consent

CSCI 3601. Software Design and Development. (5 cr.; Student Option; Every Spring) Design and implementation of medium- and large-scale software systems. Principles of organizing and managing such designs and implementations throughout their lifetime. Designing for modularity and software reuse; use of libraries. Dynamics of working in groups. Group work on a substantial software project. prereq: C- or better in 2101 or instr consent

CSCI 3701. Intermediate Data Science. (4 cr. [max 40 cr.]; Student Option; Every Fall) Same as Stat 3701. Continued development of topics introduced in Introduction to Data Science. Data mining techniques; applied machine learning techniques; mathematical fundamentals such as introductory linear algebra; graphical models such as Bayesian networks; network analysis; special topics such as topological data analysis; and a strong emphasis on communicating results. prereq: CSci 2701 or Stat 2701 or instr consent

CSCI 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CSCI 4403. Systems: Data Mining. (2 cr.; Student Option; Periodic Fall & Spring) An introduction to a new field which tries to solve the problem of how to store (warehouse) and how to extract (mine) valid, useful, and previously unknown data from a source (database or web) which contains an overwhelming amount of information. Algorithms applied include searching for patterns in the data, using machine learning, and applying artificial intelligence techniques. prereq: 2101 or instr consent

CSCI 4406. Systems: Wireless Data Networks. (2 cr.; Student Option; Periodic Fall & Spring) Broad exposure to advanced operating systems topics such as process communication, protection, security, memory management, operating system kernels, network operating systems, synchronization, naming, and distributed systems. prereq: 3402, 3403 or instr consent
CSCI 4457. Systems: Ubiquitous Computing. (4 cr.; Student Option; Periodic Fall & Spring)
Study of the mechanisms and environments of ubiquitous computing. Topics may include computer and network architectures for ubiquitous computing, mobile computing mechanisms, multimodal interaction, pervasive software systems, location mechanisms, techniques for security and user-authentication, and experimental ubiquitous computing systems. prereq: 3403 or instr consent

CSCI 4458. Systems: Bioinformatic Systems. (4 cr.; Student Option; Periodic Fall & Spring)
Introduction to bioinformatics with an emphasis on computer systems. Possible topics include: utilizing software for genetic sequencing, large-scale data management using databases, algorithms for construction of phylogenetic trees, bioinformatic scripting, and other tools for bioinformatics. prereq: 3403 or instr consent

CSCI 4459. Systems: Virtualization and Operating System Administration, Configuration, and Implementation. (4 cr.; Student Option; Periodic Fall & Spring)
The basics of virtualizing hardware and key systems services such as networking. Use of virtualization tools to support an incremental exploration of the installation and configuration of an operating system. More detailed exploration of the implementation of certain operating systems as time allows. prereq: 3402 and 3403 or instr consent

CSCI 4506. Theory: Fuzzy Logic and Fuzzy Sets. (2 cr.; Student Option; Periodic Fall & Spring)
Fuzzy logic and fuzzy sets are used in expert systems, controllers, pattern recognition, databases, decision making, robotics, and economics. The basic theory of fuzzy sets and fuzzy logic along with a brief survey of some of the current research. May include presentations and/or a project. prereq: 3501 or instr consent

CSCI 4507. Theory: Data Compression. (2 cr.; Student Option; Periodic Fall & Spring)
Introduction to data compression (including lossy and lossless compression techniques), wavelets, differential encoding techniques (including pulse code and delta modulation), and subband coding with applications to speech, audio, and images. Compression standards such as the CCITT international standard and MPEG audio compression standard. prereq: 3501 or instr consent

CSCI 4508. Theory: Algorithm Design. (2 cr.; Student Option; Periodic Fall & Spring)
Approaches to the design of efficient algorithms for solving a variety of practical problems such as string matching or those that can be modeled on a tree or graph. Techniques studied include dynamic programming, divide and conquer, greedy methods, backtracking, and approximation algorithms. prereq: 3501 or instr consent

CSCI 4511. Theory: Artificial Life. (2 cr.; Student Option; Periodic Fall & Spring)
Introduction to the field of Artificial Life and the phenomena of living systems, with an emphasis on computational approaches to understanding the logic of living systems in artificial environments. Techniques and tools used to better understand the complex information processing that defines living systems, such as agent-based systems, evolutionary computation, cellular automata, and digital simulations. prereq: 2101 or instr consent

CSCI 4522. Theory: Advanced Algorithms. (4 cr.; Student Option; Periodic Fall & Spring)
Techniques for designing and analyzing efficient algorithms to solve a variety of practical problems. Some algorithmic techniques include dynamic programming, greedy methods, and amortized analysis. Other topics include graph algorithms, string matching, approximation algorithms, and NP-Completeness. prereq: 3501 or instr consent

CSCI 4552. Theory: Artificial Intelligence. (4 cr.; Student Option; Periodic Fall & Spring)
An exploration of the Artificial Intelligence tool for developing solutions to problems that are difficult to describe precisely or solve formally, as well as comparisons with other AI techniques. Includes discussions of theoretical background and tools, implementation issues, and applications. prereq: 2101 or instr consent

CSCI 4553. Theory: Evolutionary Computation and Artificial Intelligence. (4 cr.; Student Option; Periodic Fall & Spring)
Introduction to Evolutionary Computation as an Artificial Intelligence tool for developing solutions to problems that are difficult to describe precisely or solve formally, as well as comparisons with other AI techniques. Includes discussions of mathematical concepts and NP-Completeness. prereq: 3501 or instr consent

CSCI 4554. Theory: Cryptography. (4 cr.; Student Option; Periodic Fall & Spring)
Theory and applications of cryptography. Overview of necessary mathematical concepts. Discussion of algorithms and protocols including public and private key encryption, authentication, and zero knowledge proofs. prereq: CSci 1302 or both Math 2202 and Math 3411, CSci 2101 or instr consent

CSCI 4555. Theory: Neural Networks and Machine Learning. (4 cr.; Student Option; Periodic Fall & Spring)
Study of the underlying theory, structure, and behavior of neural networks and of how neural networks compare to and can be used to supplement other methods of machine learning. Methods such as decision tree learning, inductive learning, reinforcement learning, supervised learning, and explanation-based learning are examined. Analysis of the strengths and weaknesses of various approaches to machine learning. Includes an implementation project. prereq: CSci 1302 or both Math 2202 and Math 3411, CSci 2101 or instr consent

CSCI 4556. Theory: Computer Graphics. (4 cr.; Student Option; Periodic Fall & Spring)
Introduction to basic concepts and algorithms in computer graphics, including three-dimensional geometry and various approaches to modeling three-dimensional scenes. An introduction to transformation and viewing, lighting, shading, texture, and color. Advanced topics may include ray tracing, radiosity, and animation. Students complete several significant projects. prereq: CSci 1302 or both Math 2202 and Math 3411, CSci 2101 or instr consent

CSCI 4557. Theory: Quantum Computing. (4 cr.; Student Option; Periodic Spring)
Summarization of relevant mathematical and quantum mechanical concepts. Basic quantum algorithms concepts and simple algorithms are explored, along with Shor's algorithm, Grover's algorithm, and the quantum Fourier transform. prereq: CSci 1302 or both Math 2202 and Math 3411, CSci 2101, CSci 3501 or Math 1101 or higher or instr consent

CSCI 4604. Processes, Programming, and Languages: Graphical User Interfaces. (2 cr.; Student Option; Periodic Fall & Spring)
An exploration into designing Graphical User Interfaces. Aspects of human-computer interaction are discussed along with how to design good user interfaces. Students complete a project using Java's Swing. prereq: 3601 or instr consent

CSCI 4605. Processes, Programming, and Languages: Refactoring. (2 cr.; Student Option; Periodic Fall & Spring)
Introduction to methodologies for the long-term development and maintenance of software systems. Discussion of methods of fixing errors and extending functionality in a controlled manner that builds on and improves the underlying system design, as well as tools for regression testing to help catch introduced errors. There is a significant programming component as well as change documentation and classroom presentations. prereq: 3601 or instr consent

CSCI 4609. Processes, Programming, and Languages: Usability of Open Source Software. (2 cr.; Student Option; Periodic Fall)
Introduction to usability studies and how users interact with systems using open source software as an example. Students learn usability methods, then explore and contribute to open source software by performing usability tests, presenting their analysis of these tests, and making suggestions or changes that may improve the usability. prereq: 2101

CSCI 4611. Processes, Programming, and Languages: Programming Languages. (4 cr.; Student Option; Periodic Fall & Spring)
History of programming languages, formal specification of syntax and semantics of programming languages from a variety of paradigms (procedural, functional, logic-programming, object-oriented, and parallel paradigms), modern language features. prereq: 2101 or instr consent

CSCI 4652. Processes, Programming, and Languages: Compilers. (4 cr.; Student Option; Periodic Fall & Spring)
Program translations from a variety of paradigms. Lexical analysis and parsing techniques, intermediate representations, type checking, code generation, error detection and recovery, optimization. prereq: 3501, 3601 or instr consent

CSCI 4653. Processes, Programming, and Languages: Software Engineering. (4 cr.; Student Option; Periodic Fall & Spring)
Examination of software engineering techniques and methodologies. Topics include
software life cycle models, analytical and software tools used in software engineering, software metrics, testing techniques, design techniques, planning and estimation methodologies, and issues related to the reusability, portability, and interoperability of software systems. Emphasis on the application of these techniques and methodologies to real world problems. Includes a team-based software development project. prereq: 3601 or instr consent

CSCI 4654. Processes, Programming, and Languages: Modern Functional Programming. (4 cr.; Student Option; Periodic Fall & Spring) Survey of concepts, tools, and techniques from the realm of functional programming. Topics include higher order functions, currying, type systems, concurrency models, mechanisms for managing state, and methods of compilation and evaluation. prereq: CSci 302 or both Math 2202 and Math 3411, CSci 2101 or instr consent

CSCI 4655. Processes, Programming, and Languages: Software Design and Development II. (4 cr.; Student Option; Periodic Summer) Design and implementation of a medium-scale software system in an intensive, full-time lab setting where teams use object-oriented tools and agile development processes. Emphasis on the creation, evolution, and maintenance of system design. prereq: 3601 or instr consent

CSCI 4656. Processes, Programming, and Languages: Human-Computer Interaction and Interface Design. (4 cr.; Student Option; Periodic Fall & Spring) Introduction to the design, evaluation, and implementation of interactive computing systems for human use with a particular emphasis on user interfaces. Possible domains include usability issues for desktop applications, embedded systems, and Web design. Student projects include evaluative studies and sample implementations. prereq: 2101 or instr consent

CSCI 4658. Processes, Programming, and Languages: Usability, Design, and Mobile Technologies. (4 cr.; Student Option; Periodic Fall) Design, evaluation, and use of innovative handheld, mobile, and wearable technologies. Topics include needs and issues unique to mobile users, as well as social and organizational impacts of mobile technologies. The course consists of a mix of lectures and seminar-style discussions, with projects incorporating important aspects of design, implementation, and evaluation. prereq: 3601 or instr consent

CSCI 4659. Processes, Programming, and Languages: Measuring and Managing Software Quality. (4 cr.; Student Option; Periodic Fall) Exploration of metrics and tools for assessing the health and quality of a software system, including technical debt, system complexity, duplication, and maintainability. Ways of communicating about software systems such as code reviews. Use of techniques such as refactoring and design patterns to improve systems. Includes substantial application and project work. prereq: 3601 or instr consent

CSCI 4901. Senior Seminar. (2 cr.; S-N only; Every Fall & Spring) In-depth survey of literature in a specific computer-related field of the student’s choice. Students analyze various articles or similarly published works, synthesize their contents, and present their work formally in a conference setting. Multiple writing and speaking experiences reviewed by faculty and classmates. Requires attendance and presentation at a student conference near the end of the semester in addition to regular class meetings. prereq: IS 1901 or instr consent, jr or sr

CSCI 4993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Dance (DNCE)

DNCE 1321. Introduction to Modern Dance and Ballet. (ART/P; 1 cr. [max 2 cr.]; S-N only; Every Fall) Practice in the fundamental movement vocabulary and steps of dance with an emphasis on traditional ballet techniques and modern dance interpretations. Exploration of body awareness through improvisational exercises and compositional studies. Discussion of the cultural origins of style in dance and the role of dance in contemporary life.

DNCE 1322. Introduction to Jazz and Modern Dance. (ART/P; 1 cr.; max 2 cr.; S-N only; Every Spring) Fundamental movement vocabulary and steps of dance from the unique perspective of American Jazz combined with modern dance. Explores body awareness through improvisational exercises and composed studies. Discussion of dance in contemporary life, individual style, and the cultural origins of jazz music and movement.

DNCE 1323. Introduction to Tap Dance. (ART/P; 1 cr.; max 2 cr.; S-N only; Every Fall) Practice in footwork and introduction to vocabulary that forms the basis of the percussive dance form. Discussion of origins of the dance form, different styles, and relationship to musical structures. Practice in improvisational Tap skills. [Note: Tap shoes required]

DNCE 1330. Introduction to Dance in Musical Theatre. (ART/P; 1 cr. [max 2 cr.]; Student Option; Periodic Fall & Spring) A basic study of dance including its vocabulary, technique, and history. Examine the works of choreographers such as Bob Fosse, Agnes de Mille, Michael Bennett, and Twyla Tharp. The class is a combination of movement and discussion.

DNCE 1331. Ballet I. (ART/P; 1 cr. [max 2 cr.]; Student Option; Every Fall & Spring) A basic study of ballet including its vocabulary, technique, and history. Appropriate for beginning-level students or students who have completed Dnce 1321 or 1322. prereq: 1321 or instr consent

DNCE 1332. Jazz Dance I. (ART/P; 1 cr. [max 2 cr.]; Student Option; Every Fall) A basic study of jazz dance including its technique, history, and applications. Appropriate for beginning-level students or students who have completed Dnce 1321 or 1322. prereq: 1322 or instr consent

DNCE 1333. Modern Dance I. (ART/P; 1 cr. [max 2 cr.]; Student Option; Every Spring) A basic study of modern dance including alignment, technique, and history. Appropriate for beginning-level students or students who have completed Dnce 1321 or 1322. prereq: 1321 or 1322 or instr consent

DNCE 1334. Tap Dance I. (ART/P; 1 cr. [max 2 cr.]; Student Option; Every Spring) Practice in footwork and advanced beginning vocabulary of this percussive dance form, including opportunities for improvisation. Learn about the origins of the dance form, different styles and how they evolved, and the dance form's relationship to musical structures. Learn and compose Tap dance choreography. [Tap shoes required] prereq: 1323 or instr consent

DNCE 2011. Dance in Society. (HDIV; 2 cr.; Student Option; Spring Even Year) Through a broad, cross-cultural survey of the different ways in which dance functions in the modern world, students gain an appreciation of the way this art form reflects social and historical experiences. Includes lectures, readings, and opportunities to see dance through videos, observations, and live performances.

DNCE 2301. Practicum in Dance. (ART/P; 1 cr.; Student Option; Every Spring) Directed projects in performance and production aspects of dance for the stage. Projects can be focused on either choreography or technical theatre for dance. prereq: instr consent

DNCE 2311. Dance Composition. (ART/P; 2 cr. [max 8 cr.]; Student Option; Periodic Fall & Spring) Introduction to the basic elements of choreography, including the use of space, time, energy, abstraction, motif and development, and the selection of music. Using improvisation and assigned movement problems to learn the process of crafting solo and group choreography.
DNCE 2320. Contemporary and Modern Technique and Choreography. (ART/P; 1 cr. [max 2 cr.]; Student Option; Periodic Fall & Spring) Builds upon basic dance vocabulary with movement exercises drawn from traditional schools of modern dance technique. Dancers examine contemporary technique and place an emphasis on aesthetic and expressive qualities that lead to performance. prereq: 1321 or instr consent

DNCE 2331. Ballet II. (ART/P; 1 cr. [max 2 cr.]; Student Option; Every Fall) A low intermediate-level study of classical ballet. Emphasis on advancing technical skill through conditioning and performance of ballet steps and combinations. [Note: ballet slippers required] prereq: 1331 or instr consent

DNCE 2332. Jazz Dance II. (ART/P; 1 cr. [max 2 cr.]; Student Option; Every Spring) Builds upon basic dance vocabulary with emphasis on the movement vocabulary of jazz dance. Emphasis on African dance roots and stylistic variations in contemporary jazz dance forms. Includes a performance experience. prereq: 1332 or instr consent

DNCE 2333. Modern Dance II. (ART/P; 1 cr. [max 2 cr.]; Student Option; Every Fall) Builds upon basic dance vocabulary with movement exercises drawn from traditional schools of modern dance technique (Wigman/Holm, Graham, Humphrey/Limon, Horton, Cunningham). Emphasis is on advancing technical skills through conditioning, improvisation, and movement combinations. Includes a performance experience. prereq: 1333 or instr consent

DNCE 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall, Spring & Summer) A learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum such as dance history, choreography and directing, dance education for children.

ECON 1103. Essentials of Economics. (SS; 3 cr.; Student Option; Every Fall & Spring) The first half of the course develops theories related to individual and firm decision-making. Students will learn how consumers and producers respond to price changes, how price is determined in the market, concepts of elasticity, gains from trade, and how different types of firms maximize profit. The latter half of the course will introduce the theories related to aggregate economy. Specific attention will be given to models that explain business cycles fluctuations and policy initiatives to ameliorate them.

ECON 1111. Principles of Microeconomics. (SS; 4 cr.; Student Option; Every Fall & Spring) Study of scarce resource allocation in a market economy. Supply and demand, consumer theory, theory of the firm, market structure, pricing of factors of production, income distribution and the role of government. prereq: high school algebra or instr consent

ECON 1112. Principles of Macroeconomics. (SS; 4 cr.; Student Option; Every Fall & Spring) Introduction to basic economic problems, concepts, and theoretical models. U.S. economic institutions and the economic organization of society. The role of markets in the production and distribution of societal resources. Measurement of economic performance; national income, inflation, and unemployment; competing macroeconomic theories and stabilization policies. prereq: high school algebra or instr consent

ECON 3005. Experimental and Behavioral Economics I. (2 cr.; Student Option; Periodic Fall & Spring) Introduction to economic experiments as controlled tests of microeconomic and game-theoretic behavioral predictions. In-class economic experiments, elements of non-cooperative game theory, results of market and social preference experiments, and empirical applications. prereq: 1111, 1112, Math 1101, Stat 1601 or Stat 2601; or instr consent

ECON 3006. Experimental and Behavioral Economics II. (2 cr.; Student Option; Periodic Fall & Spring) Advanced concepts and applications in experimental and behavioral economics. prereq: 3005 or instr consent

ECON 3007. Environmental and Natural Resource Economics I. (ENVT; 2 cr.; Student Option; Periodic Fall & Spring) An overview of "brown" pollution and "green" sustainability issues in environmental and natural resource economics. Emphasis on the role of market failures in causing environmental problems and on the design of market mechanisms and incentive regulations to solve those problems. Analysis of current federal policy in the areas of water and air pollution. prereq: 1111 or instr consent

ECON 3008. Environmental and Natural Resource Economics II. (ENVT; 2 cr.; Student Option; Periodic Fall & Spring) The economic analysis of sustainability, focusing on market designs to discourage over-exploitation of both renewable and exhaustible natural resources. Topics include markets for water, fisheries, and energy. prereq: 3007 or instr consent

ECON 3009. Political Economy. (4 cr.; Student Option; Periodic Spring) The historical evolution, methodological relevance, and basic structure of the modern capitalist economy, including the dynamics of capital accumulation, economic crisis, transformation and regulating mechanism of contemporary capitalism, and hegemonic tendency of economy over politics and other aspects of life in contemporary society. prereq: 1111, 1112 or instr consent

ECON 3014. Game Theory: The Theory of Strategic Behavior I. (2 cr.; Student Option; Periodic Fall & Spring) The analytic approach to strategic interaction. Strategic interaction takes place among people when the payoffs to each person depend on the choices of all the others, and each person knows this fact in choosing their behavior. Development of the basic concepts of the theory of strategic interaction, including the definition of a strategy, extensive form and strategic form representations of the same game, and the solution concepts of Nash equilibrium and rollback equilibrium. A selection of applications of economic interest are covered, such as market entry deterrence and social dilemma games. [Note: no credit for students who have received cr for IS 3206H] prereq: 1111 or instr consent

ECON 3015. Game Theory: The Theory of Strategic Behavior II. (2 cr.; Student Option; Periodic Fall & Spring)
Extensions to the basic analytic theory of strategic interaction that widen its applicability, including topics such as repeated games, asymmetric information, and refinements to basic solution concepts. A selection of applications of economic interest, such as screening, signaling, and brinkmanship. prereq: 3014 or instr consent

ECON 3112. Public Economics II. (IP; 2 cr.; Student Option; Periodic Fall & Spring)
Analysis of the economics of public expenditures. prereq: 1111, 1112 or instr consent

ECON 3120. Public Economics III. (2 cr.; Student Option; Every Spring)
Nature and function of money; role of commercial banks and other financial institutions; structure and function of Federal Reserve system; monetary policies for stabilization and growth; and a survey and synthesis of major theories on the value of money. prereq: 1111, 1112 or instr consent, Engl 1601 (or instr consent for students with college writing experience)

ECON 3121. Public Economics I. (IP; 2 cr.; Student Option; Periodic Fall & Spring)
Analysis of the economics of public expenditures. prereq: 1111, 1112 or instr consent

ECON 3131. Comparative Economic Systems I. (IP; 2 cr.; Student Option; Periodic Fall & Spring)
Comparison of the theory and functioning of the major economic systems of the world. Initial exploration of particular cases. prereq: 1111, 1112 or instr consent

ECON 3132. Comparative Economic Systems II. (IP; 2 cr.; Student Option; Periodic Fall & Spring)
Extended exploration of the institutional characteristics, resource allocation patterns, performance, and current issues of selected world economies. prereq: 3131

ECON 3134. Cooperative Business Model. (2 cr.; Student Option; Periodic Fall & Spring)
Same as Mgmt 3134. In the northern plains of the United States, cooperative businesses, including consumer, producer, and worker cooperatives, have made significant contributions to economic growth and development. Identify the unique economic, legal, and organizational characteristics of these firms and their role in the economy. Special attention is given to the potential role of cooperative business organizations in community development. prereq: 1111 or instr consent

ECON 3136. Economics of the Green Power Transition: New Business Models and Regulatory Strategies. (ENVT; 2 cr.; Student Option; Periodic Fall & Spring)
Examines "Utility 2.0" business models and new regulatory approaches that aim to encourage rapid de-carbonization of the electricity system. prereq: 1111

ECON 3141. Economic Growth and Development I. (IP; 2 cr.; Student Option; Every Fall)
Nature and meaning of economic development. Theories of economic growth and the historical experience of now developed countries. General development problems facing developing countries. prereq: 1111, 1112 or instr consent

ECON 3142. Economic Growth and Development II. (IP; 2 cr.; Student Option; Every Fall)
Current development problems and policies in developing countries; the possibilities and prospects for future development. Case studies examining the development progress of these countries. prereq: 3141 (or concurrent enrollment in 3141) or instr consent

ECON 3172. Strategic Firm Interaction and Market Structures. (4 cr.; Student Option; Periodic Fall & Spring)
Firms must interact strategically in all market settings except perfect competition and pure monopoly. The course begins with imperfect markets for simple commodities and a consideration of substitutes and complements. More advanced models are then presented which develop topics such as quality differentiation, entry deterrence, collusion, mergers along the supply chain, various types of price discrimination, and natural monopoly. Emphasis is on the relative efficiency of different market structures, with some consideration of options for government regulation. prereq: 1111 or instr consent

ECON 3173. Health Care Economics. (4 cr.; Student Option; Every Spring)
Utilizes economic theory and statistical tools to analyze the allocation of health care resources with respect to the demand and supply of health care. Explores the institutional details and market structures of the health care industry through the lens of economic analysis, providing a context for managerial decision-making. In particular, the behavior of patients in the utilization of health care, and the roles of hospitals, physicians, and health insurance in the production, distribution, and the utilization of health care resources are examined. Finally, the role of market imperfections and government regulatory intervention are discussed. prereq: 1111 or instr consent

ECON 3201. Microeconomic Theory. (4 cr.; Student Option; Every Fall)
Analytical approach to decision making by individual economic units in the output and input markets, under perfect and imperfect market conditions. Externalities and role of government. prereq: 1111, Math 1101 or instr consent

ECON 3202. Macroeconomic Theory. (4 cr.; Student Option; Every Spring)
The theory of national income determination; inflation, unemployment, and economic growth in alternative models of the national economy. prereq: 1112, Math 1101 or instr consent

ECON 3211. History of Economic Thought I. (HIST; 2 cr.; Student Option; Periodic Fall & Spring)
The origin and development of economic thought from Mercantilism through the classical school. Among others, Adam Smith and Karl Marx are featured. Nature of economics as a social science through the study of its historical development. prereq: 1111, 1112

ECON 3212. History of Economic Thought II. (HIST; 2 cr.; Student Option; Periodic Fall & Spring)
The development of economic thought from Marx and the end of the classical school, through the development of more modern approaches. In addition to the demise of classical thought, a selection from the thinkers who contributed to the foundations of modern microeconomics and/or macroeconomics is covered. Nature of economics as a social science, through the study of its historical development. prereq: 3211 or instr consent

ECON 3501. Introduction to Econometrics. (M/SE; 4 cr.; Student Option; Every Spring)
Statistical techniques and statistical problems applicable to economics and management, focusing on ordinary least-squares regression, classical inference, and detections of and adjustments for violations of the classical assumptions. The course also briefly covers some advanced econometric topics in model specification, estimation, and prediction that include pooled and panel data models, instrumental variable estimation, two-stage least squares estimation, limited dependent variables and logistic regression. prereq: 3201 or 3202, Engl 1601 (or instr consent for students with college writing experience), Stat 1601 or Stat 2601

ECON 3993. Directed Study. (IP; 2 cr.; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ECON 4101. Labor Economics I. (HDIV; 2 cr.; Student Option; Periodic Fall & Spring)
Wage and employment determination. Distribution of earnings and earnings inequality by race and sex. Labor supply applications. prereq: 3201 or instr consent

ECON 4102. Labor Economics II. (2 cr.; Student Option; Periodic Fall & Spring)
Functioning and performance of the labor market. Heterodox explanations of labor market behavior. Labor demand applications. prereq: 3201 or instr consent

ECON 4111. Mathematical Economics I. (2 cr.; Student Option; Periodic Fall & Spring)
Application of mathematical methods to economic analysis. Mathematical formulations and solution of optimizing models pertaining to households and firms and of adjustments to disturbances. [Note: no credit for students who have received cr for Econ 4201] prereq: 3201, 3202 or instr consent

ECON 4112. Mathematical Economics II. (2 cr.; Student Option; Periodic Fall & Spring)
Topics include linear modeling, input-output analysis and linear programming, efficiency and exchange, comparative static analysis, and dynamic microeconomics and macroeconomics models. prereq: 4111 or instr consent
ECON 4121. International Trade Theory. (2 cr.; Student Option; Periodic Fall & Spring) Overview of why trade occurs, pattern of trade and international factor movement. Effect of trade and trade policy on the economy. Current topics in trade theory. prereq: 3201 or Mgmt 3123 or instr consent

ECON 4131. International Finance. (2 cr.; Student Option; Periodic Fall & Spring) Foreign exchange markets; theories of exchange rate determination; fixed vs. flexible rate systems; theories of balance of payments adjustments; international quantity of money theory; international reserves; international monetary system (past, present, and future); internal and external balance, international economic policy coordination, international debt problem; effect of international sector on domestic growth and stability. prereq: 3202 or instr consent

ECON 4141. Empirics of Economic Growth. (2 cr.; Student Option; Periodic Fall & Spring) Presentation of the recent developments in economic growth with an emphasis on empirical research. The course asks, "Why are some countries so rich and some countries so poor?" Students first explore the proximate causes of economic growth such as physical capital, human capital, and productivity, and then address the role played by fundamental causes such as institutions, geography, and deep history. prereq: 3501

ECON 4201. Foundations of Microeconomic Theory. (4 cr.; Student Option; Periodic Fall & Spring) Consumer theory, production theory, and general equilibrium. Issues addressed include: the choice approach versus the preference approach; the perils of common highly regular utility functions; the demand aggregation problem and solutions; the foundations of individual consumer welfare theory and social welfare criteria; multiple output production; and general equilibrium theory as a method for overcoming many of the issues encountered earlier in the course. This course does use a substantial amount of multivariable differential calculus. [Note: no credit for students who have received cr for Econ 4111] prereq: 3201

ECON 4501. Senior Research Seminar in Economics and Management. (2 cr. [max 4 cr.]; Student Option; Every Fall) Guided research sessions familiarize students with literature in the field. Students devote their time to identify a research question and prepare a literature review and research plan. Students are required to write a short literature review paper and make a formal presentation of their literature review and their research plan to their peers. Required presentations may occur outside the regular class schedule. prereq: English 1601 for all students (or instr consent for students with previous college writing experience), 3501 for econ majors or sr status for mgmt majors or instr consent

ECON 4502. Advanced Research Seminar in Economics and Management. (2 cr.; Student Option; Every Spring) Guided sessions familiarize students with advanced research tools in the field. Students extend their research from Econ 4501 in the form of a deeper literature review, an empirical analysis, or a specific case study (management majors only). Students are required to submit a final paper and make a formal presentation of their research to their peers. Required presentations may occur outside the regular class schedule. prereq: 4501, instr consent

ECON 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Education (ED)

ED 1103. Foundational Perspectives for College Student Leadership. (1 cr.; S-N only; Every Fall) A course for first-time student leaders designated to serve in positions within specific units on campus. Students study leadership theory, development, and best practice specific to their roles. Course completion partially fulfills training specific to the student's position. prereq: instr consent

ED 1801. Critical Issues in K-12 Education. (IC; 2 cr.; Student Option; Periodic Fall & Spring) Most first-year college students have spent the majority of their lives immersed in the K-12 education system. This course is an opportunity for students to learn about the historical, political, and social forces that shaped their educational experiences. Students deliberate about and examine pressing and controversial issues in K-12 education today. They explore questions such as whether school dress codes violate students' First Amendment rights, why there are disparities in educational outcomes for students from different backgrounds and what can be done about this, what role religion should be allowed to play in public schools, and more. Students engage with multiple perspectives on each issue and reflect on how each issue impacted their own K-12 educational experiences. Includes opportunities for students to learn and practice strategies and structures for democratic deliberation of public issues. prereq: new college student in their first semester of enrollment at UMM

ED 1802. Why Teach? The Challenges and Rewards of Teaching as the Work of Social Justice. (IC; 2 cr.; Student Option; Every Fall) Explore some of the challenges and rewards of teaching in a K-12 setting. Education is the work of social justice. From that context, this course examines both the challenges that face K-12 educators such as regulations, budget cuts, and negative perceptions of the profession, as well as the positive impact that education can have on individuals and communities. These impacts include higher literacy rates, personal empowerment, personal expression, efficacy, community involvement with youth, and economic growth. prereq: new college student in their first semester of enrollment at UMM

ED 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ED 2111. Tutor-Aide Practicum. (1 cr.; S-N only; Every Fall, Spring & Summer) Students complete 30 hours of preprofessional field experience in the schools. Students enrolled in this course are required to pay for and submit to a Minnesota background check. prereq: coreq 2121

ED 2121. Introduction to Education. (SS; 4 cr.; A-F only; Every Fall & Spring) History, philosophy, and purposes of American education; classroom practices and effective teaching; instructional technology; and certification requirements in education. prereq: coreq 2111

ED 2131. Foundations of Reading. (2 cr.; A-F only; Every Spring) Survey of research on key aspects of literacy development and assessment. [Note: this course is a prerequisite for admission to the Elementary Education program; open to students from all disciplines. Students enrolled in this course are required to pay for and submit to a Minnesota background check.]

ED 2201. Perspectives on Young Adult Literature: Schooling, Society, and Culture. (HUM; 4 cr.; Student Option; Periodic Spring & Summer) Exposure to multiple genres of young adult literature and brief introduction to various types of response to literature. Special emphasis on multicultural literature, the role of literature in forming moral and cultural values, using literature in the grade 5-12 classroom, and reader response theory and pedagogy. Students read, respond to, select, and evaluate young adult literature.

ED 2221. Diversity and Identity in Literature and Film. (HDIV; 4 cr.; Student Option; Periodic Spring) A survey of key concepts in diversity research (including power, prejudice, social justice, institutionalized discrimination, tolerance) as well as identity representation in literary and film texts. Additionally, students analyze power relationships and how they impact and are impacted by such institutions as schooling and the media.

ED 2231. Disability in American Education. (HDIV; 2 cr.; Student Option; Periodic Spring) Introduction to issues related to disability in the context of American schools, both P-12 and post-secondary. In addition to introducing students to classroom practice, the course focuses on important theory in Disability Studies and the social and political history that has led to our systems of special education.

ED 2601. Development, Learning, and Teaching. (SS; 2 cr.; A-F only; Every Spring) Introductory exploration of perspectives on child and adolescent development including cognitive, social/emotional, personal, physical, and language development and theories of learning, with a strong focus on the implications

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
for effective teaching in the P-12 classroom. This course is a prerequisite for admission to the Elementary and Secondary Education programs.

ED 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ED 3011. Global Practicum: Building Intercultural Perspectives for PK-12 Education. (IP; 6-10 cr.; S-N only; Every Fall, Spring & Summer) The practicum provides students interested in education an opportunity to build their intercultural competence, compare and contrast educational systems, and reflect on teaching and learning by assisting a PK-12 mentor teacher in a school. [Note: credit will not be granted if credit has been received for IS 3011; special fee required] prereq: jr status, instr consent

ED 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ED 4121. Strategies for Inclusive Schooling. (2 cr.; A-F only; Every Fall) Strategies and techniques for developing inclusive learning environments. Discussion of the differences in strategies in accommodations and modifications. Emphasizes adaptations for students with mild, moderate, and severe disabilities. Introduction to various methods of identifying students with disabilities and follow-up interventions. prereq: ELED 3101, 3102, 3103, 3111 or admission to the secondary education program

ED 4901. The Teacher and Professional Development. (1 cr.; A-F only; Every Spring) Capstone experience. Professional development issues and philosophy of education are included as topics of study. prereq: ELED or See Ed 4201 or 4204 or instr consent

ED 4903. Kindergarten Education. (4 cr.; A-F only; Periodic Fall, Spring & Summer) Study of kindergarten education. Topics include: historical foundations, philosophy, current issues and trends, developmental characteristics and organizational needs of kindergarten children, and developmentally appropriate practices and instruction in the classroom. prereq: instr consent

ED 4911. Kindergarten Practicum. (1 cr.; S-N only; Periodic Fall, Spring & Summer) Field experience with kindergarten children. prereq: coreq 4903

ED 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
ELED 4201. Directed Student Teaching in Primary and Intermediate Grades. (HDIV; 12 cr.; S-N only; Every Fall) Students teach for a period of 10 to 12 weeks, demonstrating application of approaches to teaching and learning in primary and intermediate grades under the guidance of a cooperating teacher and University supervisor. [Note: special fee required; prereq: 4102, 4103, 4104, 4111, 4112, passing scores on basic skills exams or instr consent]

ELED 4202. Directed Student Teaching in Primary and Intermediate Grades. (1-16 cr.; S-N only; Every Fall & Spring) For students who need alternative or additional student teaching experience. Students demonstrate application of approaches to teaching and learning in primary and intermediate grades under guidance of a cooperating teacher and University supervisor. [Note: special fee required; passing scores on basic skills exams or instr consent]

ELED 4204. Directed Global Student Teaching at the Primary and Intermediate Level. (IP; 1-16 cr.; Student Option; Every Fall, Spring & Summer) Students complete Global Student Teaching for demonstrating application of approaches to teaching and learning in primary and intermediate grades under the guidance of a cooperating teacher and University supervisor. [Note: special fee required; prereq: 4102, 4103, 4104, 4111, 4112, passing scores on basic skills exams or instr consent]

ELED 4206. Directed Student Teaching in Preprimary Classroom. (HDIV; 4 cr.; S-N only; Every Spring) Students teach for a period of 4 weeks demonstrating application of approaches to teaching and learning in preprimary grades under the guidance of a cooperating teacher and University supervisor. [Note: special fee required; prereq: 3201, 3202, 3211, passing scores on basic skills exams or instr consent]

ELED 4207. Directed Student Teaching in Middle Level Classroom. (HDIV; 4 cr.; S-N only; Every Spring) Students teach for a period of 4 weeks demonstrating application of approaches to teaching and learning in middle level grades under the guidance of a cooperating teacher and University supervisor. [Note: special fee required; prereq: 3202, 3212, appropriate methods course, passing scores on basic skills exams or instr consent]

ELED 4993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ENGL 1001. Fundamentals of Writing. (4 cr.; Student Option; Every Fall) Intensive practice in the fundamentals of writing. Students learn and apply strategies for generating, organizing, revising, and editing their writing. [Note: does not fulfill the Writing for the Liberal Arts (WLA) requirement]

ENGL 1011. College Writing. (4 cr.; Student Option; Periodic Fall & Spring) Practice in academic writing, with special emphasis on argumentation, reading closely and critically for the purposes of scholarly analysis, responding to and making use of the work of others, and drafting and revising texts. [Note: does not fulfill the Writing for the Liberal Arts (WLA) requirement]

ENGL 1125. Introduction to the Graphic Novel. (HUM; 4 cr.; Student Option; Periodic Fall) Introductory survey of the graphic novel in contemporary literature and popular culture, including international comparisons. Study several celebrated graphic novels in their cultural contexts, and read criticism that situates them in relation to broader issues of representing identity in current popular culture.

ENGL 1205. Survey of British Literature to the 18th Century. (HUM; 4 cr.; Student Option; Every Fall) Readings in English poetry, prose, and/or drama from the beginnings to the 18th century. Specific authors vary.

ENGL 1206. Survey of British Literature from the 18th Century Forward. (HUM; 4 cr.; Student Option; Every Spring) Readings in English poetry, prose, and/or drama from the 18th century to the present. Specific authors vary.

ENGL 1211. Survey of American Literature to the Civil War. (HUM; 4 cr.; Student Option; Periodic Fall & Spring) Study of important texts, canonical and non-canonical, and important periods and movements that define the colonial and U.S. experience up to 1865.

ENGL 1212. Survey of American Literature from the Civil War Forward. (HUM; 4 cr.; Student Option; Every Spring) Readings in English poetry, prose, and/or drama from the 18th century to the present. Specific authors vary.

ENGL 1211. Survey of American Literature to the Civil War. (HUM; 4 cr.; Student Option; Periodic Fall & Spring) Study of important texts, canonical and non-canonical, and important periods and movements that define the colonial and U.S. experience up to 1865.

ENGL 1212. Survey of American Literature from the Civil War Forward. (HUM; 4 cr.; Student Option; Periodic Fall & Spring) Study of selected historical and literary texts in U.S. literature, canonical and non-canonical, from 1865 to the present.

ENGL 1403. Sports Literature and Writing. (ART/P; 4 cr.; Student Option; Periodic Fall) Introduction to sports literature and sports writing, including exploration of rhetorical modes and techniques.

ENGL 1404. Topics in Writing: Introduction to Creative Writing. (ART/P; 4 cr.; Student Option; Every Fall) Introduction to the basic elements of creative writing, including exploration of poetry, story, and journal writing. Practice with techniques such as dialogue, description, voice, and style.

ENGL 1509. Literary Studies. (HUM; 4 cr.; Student Option; Every Fall & Spring) An introduction to the tools and methods of literary analysis, including the vocabulary of criticism, the techniques of close reading, and the conventions of literary argumentation. Primarily for English majors and minors. A prerequisite to advanced courses in English.

ENGL 1601. Writing for the Liberal Arts. (WLA; 4 cr.; Student Option; Every Fall & Spring) Instruction in academic writing: analysis, argument, inquiry, research, scholarly conversation, clarity, style. Emphasis on writing processes: plan, draft, review, rewrite, revise. Development of information literacy: identify, locate, evaluate, cite, and use electronic and print resources. Workshops with peers and instructor.

ENGL 1802. You're Here! Where's Here?: Reading the Prairie. (IC; 2 cr.; Student Option; Every Fall) Explore the idea of place and the nature of the place that is the western Minnesota Prairie through film, art, and writings by others such as Bill Holm, Paul Gruchow, Meridel LeSueur, Adrian Louis, Robert Bly, Thomas McGrath, and Carol Bly. [Note: field trips outside of class at student's expense; credit will not be granted if 1813 prereq has been received for IS 1813] prereq: new college student in their first semester of enrollment at UMM

ENGL 1803. Shakespearean Adaptations. (IC; 4 cr.; Student Option; Periodic Fall) Read four Shakespeare plays and watch a range of contemporary film adaptations of each one. The course also incorporates discussion (about the texts, the nature of adaptation, Shakespeare's celebrity, etc.) and addresses skills essential to academic success (research, collaboration with peers, analytical writing, etc.). prereq: new college student in their first semester of enrollment at UMM

ENGL 1804. The American Graphic Novel. (IC; 4 cr.; Student Option; Periodic Fall) Introductory survey of the recent rise of graphic novels. In addition to discussing the aesthetic possibilities afforded by the medium of sequential art, study several celebrated graphic novels in their cultural contexts, and read criticism that situates them in relation to broader issues of representing identity in current popular culture. prereq: new college student in their first semester of enrollment at UMM

ENGL 1805. Environmentalism in Science Fiction and Fantasy. (IC; 4 cr.; Student Option; Periodic Fall) An exploration of environmental representations, ideas, and themes within science fiction and fantasy literature. Also features an introduction to basic environmental theories in literature. Assignments include reading novels, short stories, academic articles, and writing both critical and creative pieces. prereq: new college student in their first semester of enrollment at UMM

ENGL 1806. Social Justice Literature and Film. (IC; 4 cr.; Student Option; Periodic Fall) Students read literature and watch a range of contemporary films about issues of social justice. The course also incorporates discussion (about the texts and films) and addresses skills essential to academic success (research, collaboration with peers, analytical writing, etc.). prereq: new college student in their first semester of enrollment at UMM

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
ENGL 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ENGL 2014. Introduction to Popular Literature: Science Fiction. (HUM; 4 cr.; Student Option; Periodic Fall) Introduction to popular literature in a variety of styles and forms with emphasis on analysis and context. prereq: 1601 or 2509 or equiv or declared English major

ENGL 2015. Introduction to Film Studies. (HUM; 4 cr.; Student Option; Periodic Spring) Develops students' abilities to view films critically and to deepen their understanding of the film experience. Begins with critical analysis skills and terminology, then takes up the study of genres and styles, including documentaries and foreign films. [Note: weekly lab required for viewing films] prereq: 1601 or 2509 or equiv or declared English major

ENGL 2016. Monsters and the Monstrous in English Literature. (HUM; 4 cr.; Student Option; Periodic Spring) Monsters in literature reveal our fascination with the supernatural and the grotesque, with the unknown and the boundaries of what it means to be human. Explore how writers have imagined monsters and in what contexts, with examples from the Middle Ages to the present and from British and American literature and film.

ENGL 2031. Gender in Literature and Culture. (HDIV; 4 cr.; Student Option; Periodic Fall & Spring) Introduction to literary and cultural representations of gender. Emphasis on the intersections between power and the social relations of gender, race, class, and sexuality. prereq: 1601 or 2109 or equiv or declared English major

ENGL 2033. The Bible and Literature. (HUM; 4 cr.; Student Option; Periodic Fall) Introduction to the role of the English Bible in the western literary tradition. Readings include key Biblical narratives, as well as English and American literary texts that are either deeply influenced by these stories or attempt to re-write them. prereq: 1601 or 2109 or equiv or declared English major

ENGL 2041. Introduction to African American Literature. (HDIV; 4 cr.; Student Option; Periodic Spring) Introduction to issues and themes in African American literature and culture, with emphasis on historical and cultural context. prereq: 1601 or 2109 or equiv or declared English major

ENGL 2059. Introduction to Shakespeare. (HUM; 4 cr.; Student Option; Spring Even Year) A careful reading of a representative selection of Shakespeare’s poetry and plays (including histories, comedies, tragedies, and romances). Consideration of generic and dramatic conventions, cultural contexts, literary elements, and performance choices on stage and in film. Serves non-majors as well as majors. prereq: 1601 or 2109 or equiv or declared English major

ENGL 2061. Introduction to Popular Literature: Detection and Espionage in Fiction and Film. (HUM; 4 cr.; Student Option; Fall Even Year) Examination of the detective and espionage genres in relation to 20th-century social and geopolitical pressures. prereq: 1601 or 2109 or equiv or declared English major

ENGL 2106. Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World. (ENVT; 4 cr.; Student Option; Periodic Fall & Spring) Writing about the environment. Students learn to use the rich possibilities of language to express their responses to nature and convey to others the importance of close contact with the natural world. Readings in poetry and prose, discussion of technique, and experimentation with a variety of styles and literary forms. prereq: 1601 or 2109 or equiv

ENGL 2108. Writing With Style. (2 cr.; Student Option; Periodic Spring) Students identify key elements of the writing styles they want to practice; learn about the rhetorical effects of words, sentence structures, and emphasis patterns; revise their own sentences to be more clear, concise, and coherent—or witty, satirical, elaborate, elegant. prereq: 1601 or 2109 or equiv

ENGL 2109. Reading and Writing the Essay. (WLA; 4 cr.; Student Option; Every Fall & Spring) Through focus on the essay form, this course helps writers further develop skills in expository and persuasive writing for a variety of audiences. Work includes reading critically, forming and developing claims, and evaluating the quality and sufficiency of evidence and other forms of support for an argument. Emphasis is placed on process: generation of ideas, development of support, peer-reviewing, conferences, and revision. Readings may include academic, historical, and popular essays.

ENGL 2173. The Nature Essay: Writing and Reading Creative Non-fiction about the Natural World. (ENVT; 4 cr.; Student Option; Periodic Fall & Spring) Readings may include academic, historical, and stylistic choices available to writers of the 20th century and a scholar of medieval literature. (Readings will be mostly medieval literature.) prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 2411. Representations of American Indians in Popular and Academic Culture. (HDIV; 4 cr.; Student Option; Periodic Fall) Study of representations of American Indians in American popular and academic culture including literature, films, and sports. Particular attention given to how Indian identity, history, and cultures are represented in pop culture by non-Indians and, more recently, Indians themselves. prereq: 1601 or 2109 or equiv or declared English major

ENGL 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ENGL 3005. Understanding Writing: Theories and Practices. (HUM; 4 cr.; Student Option; Every Fall) Introduction to composition theory: generating, composing, revising, and responding to writing; conventions across disciplines; strategies for teaching and tutoring writing. Weekly short assignments; three formal papers, written and revised in stages; oral presentation of research. Required for first-semester Writing Room staff. prereq: 1601 or 2509 or equiv, soph standing, instr consent, coreq IS 3720 for students working in the Writing Room

ENGL 3012. Advanced Fiction Writing. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) For experienced writers. Focus on developing skills and mastering creative and technical elements of writing fiction. prereq: 2121 or instr consent

ENGL 3015. Writing Poetry for the 21st Century. (ART/P; 4 cr.; Student Option; Periodic Spring) A creative writing class. Practice with the different elements of poetry-sound, rhythm, imagery, voice, line—and exploration of the ways contemporary poets use and transform traditional forms and techniques. prereq: 1404 or instr consent

ENGL 3021. Grammar and Language. (HUM; 4 cr.; Student Option; Every Fall) Study of the English language. Historical development and current structure. Includes language variation and change, social history of language, phonology, syntax, semantics, development of English grammar, prescriptive versus descriptive grammar, and contemporary theories of grammar.

ENGL 3032. Creative Nonfiction Writing. (ART/P; 4 cr.; Student Option; Periodic Spring) For experienced writers. Focus on understanding and practicing the rhetorical and stylistic choices available to writers of creative nonfiction, especially decisions about structure, pacing, language, style, tone, detail, description, and narrative voice. prereq: 2121 or instr consent

ENGL 3043. Medieval Makings of Tolkien’s Worlds. (4 cr.; Student Option; Periodic Fall & Spring) Texts in Old and Middle English, as well as some Welsh, Old Irish, and Old Norse ones, are the basis for this course, framed by references and uses in the fiction of J. R. R. Tolkien, one of the most influential fantasy writers of the 20th century and a scholar of medieval literature. (Readings will be mostly medieval literature.) prereq: 1509 or 2501, one of 1205, 1206, 1211, 1212

The rapid rise of the fossil fuel industry has been a defining historical condition of the last century. As a consequence, we now face global climate change. In this context, study the relationship between energy production and consumption, labor and capital, and human environmental impact as they are represented in literature. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3063. Environmental Justice Literatures. (HDIV; 4 cr. ; Student Option; Periodic Fall & Spring) Environmental justice confronts the unequal distribution of risk in impoverished communities, communities of color, and communities of women and/or queer people. If environmental justice is the struggle for equality and fairness in the distribution of environmental risks and benefits, then how might we understand environmental justice literatures? Explore this question through the approaches of literary studies; environmental studies; gender, women, and sexuality studies; and critical race and decolonial theory. In the process of reading fiction, nonfiction, poetry, drama, films, visual art, and other types of texts, students learn to analyze representations of humans in their relationships to nature, while bringing environmental studies social, political, and ethical questions to these readings. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3153. Gothic Literature. (4 cr. ; Student Option; Periodic Fall) The cultural origins of gothic literature in tension with the neoclassical values of 18th-century Britain and its persistent influence over the next two centuries (including its relationship to modern horror fiction and film). Emphasis on the ways gothic tales encode cultural anxieties about gender, class, and power. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3154. 19th-Century British Fiction. (4 cr. ; Student Option; Periodic Fall & Spring) The rise of the novel to respectability and prominence in Britain from the Romantics to the Victorians. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3155. 20th-Century British Fiction. (4 cr. ; Student Option; Periodic Fall & Spring) Major novelists from the Modernist period and after, focusing on the historical context of the new challenges to literary tradition. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3156. Modern Irish Literature. (4 cr. ; Student Option; Periodic Spring) The poetry, fiction, and drama of Irish writers from 1890-1927, with attention to the ways that literature shaped a national identity. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3157. English Renaissance Drama. (4 cr. ; Student Option; Periodic Fall) A thorough study of the early modern English theater, including readings of 16th- and 17th-century plays and consideration of the literary and cultural contexts that informed them. Special attention is given to the works of Shakespeare’s contemporaries, such as Marlowe, Jonson, Cary, Middleton, and Webster. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3159. Shakespeare: Studies in the Bard. (4 cr. ; Student Option; Spring Odd Year) A topics-based study of Shakespeare’s works and other pertinent texts. Sample topics include “Shakespeare’s Women,” “Dangerous Rhetoric in Shakespeare’s Works,” and “Shakespeare and His Sources.” Attention is given to historical and literary contexts, and students are asked to consider Shakespeare’s work as it is read as well as performed. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3161. Medieval Literature. (4 cr. ; Student Option; Periodic Fall & Spring) Early and later medieval prose, poetry, and drama produced and/or widely read in England from about 700-1500. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3163. Life in a Medieval City: Literature and Culture in York, 700-1500. (HUM; 4 cr. ; Student Option; Periodic Summer) Travel to York, England, to study the literature and history of the city from Anglo-Saxon times to the end of the Middle Ages. Focus on the role that York played as the second city of medieval England, emphasizing the diverse cultural influences on the city. Day trips to historically significant sites in the vicinity of York. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3165. Seventeenth-Century Revolutions. (4 cr. ; Student Option; Periodic Fall) An in-depth study of how 17th-century British literature represents and responds to the numerous revolutionary changes of the time, including political, religious, sexual, cultural, and genre-based upheavals. Writers to be considered may include Philip Sidney, John Donne, Mary Wroth, George Herbert, Margaret Cavendish, Aphra Behn, and John Milton. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3166. Postcolonial Literature. (4 cr. ; Student Option; Periodic Fall & Spring) Study of literature as site of cultural conflict during and after imperial encounters, from the perspectives of both colonizers and colonized peoples. Particular focus on Britain and its former colonies. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3167. Victorian Literature and Culture. (4 cr. ; Student Option; Every Spring) Studies an array of 19th-century literary forms, including fiction, poetry, drama, and prose, in their social and political contexts. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3171. The Literature of Creative Nonfiction. (4 cr. ; Student Option; Periodic Summer) Explore the genre of creative nonfiction as a literary tradition and help to articulate what creative nonfiction is (as well as what it isn’t). Students collaborate in creating working definitions for the genre and prepare projects in which they curate and present a list of readings in the genre. Prereq: 1509 (or 2501)

ENGL 3172. American Utopian Literature. (4 cr. ; Student Option; Periodic Fall) Americans have always been drawn to visions of transformation even as they shrink from imagined dangers. Investigate American literary responses to utopian possibilities and how that literature has shaped and continues to influence the American sense of the possible. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3173. Contemporary British Literature. (4 cr. ; Student Option; Periodic Spring) Exploration of contemporary British literature, with emphasis upon a diversity of new voices. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3174. Contemporary Indian and Caribbean Literature. (4 cr. ; Student Option; Periodic Spring) Exploration of contemporary literature in English from India and the Caribbean. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3261. Modern British and American Poetry. (4 cr. ; Student Option; Periodic Fall) A study of the continuities and break with traditions in 20th-century poetry. Focus on innovations and experiments in form and theme. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3262. 20th-Century American Poetry: From Modern to Contemporary. (4 cr. ; Student Option; Periodic Fall) Study of the radical shifts in poetry and poetics in 20th-century America. Exploration of the ways that poets such as Robert Lowell, Adrienne Rich, Frank O’Hara, Denise Levertov, Allen Ginsberg, James Wright, and Sylvia Plath broke with modernist conventions and New Critical aesthetics and opened the field for the poetry of the late 20th and early 21st centuries. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3301. U.S. Multicultural Literature. (HDIV; 4 cr. ; Student Option; Periodic Spring) Examination of literatures by African American, American Indian, Asian American, Chican@/o, U.S. Latino/a, and other under-represented peoples. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3311. American Indian Literature. (HDIV; 4 cr. ; Student Option; Periodic Fall & Spring) Study of American Indian literature written in English. Particular attention given to language, identity, land, and sovereignty. Prereq: 1509 (or 2501), two from 1205, 1206, 1211, 1212 or instr consent

ENGL 3312. World Indigenous Literature and Film. (HDIV; 4 cr. ; Student Option; Spring Odd Year) Comparative study of indigenous literature and film from North America, New Zealand,
ENGL 3331. African American Literature. (HDIV; 4 cr.; Student Option; Periodic Fall & Spring) Study of African American literature. Particular attention given to issues of gender, class, power, "passing," and the racialized body. Prereq: 1501 (or 2501), two from 1205, 1206, 1211, 1212, or instr consent, or Amin major

ENGL 3332. African American Women Writers. (HDIV; 4 cr.; Student Option; Periodic Fall) If African Americans struggled to achieve equality and recognition in the racist United States, the situation was even more difficult for African American women, who had to contend with the sexism in both the white and black communities. This course examines the writings of prominent African American women. Prereq: 1601 or 2509 or equiv or instr consent

ENGL 3411. Critical Approaches to Literature. (4 cr.; Student Option; Periodic Fall) An introduction to the major schools of literary theory and cultural analysis; particular attention to the ways in which the dialogue and debate between these approaches define the discipline of literary criticism. Prereq: 1501 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3414. Feminist Theory. (HDIV; 4 cr.; Student Option; Periodic Fall & Spring) Same as GWSS 3414. Engages students in a critical examination of several influential works participating in the elaboration of feminist theories. Readings and discussions focus on a series of themes and issues—gender, sexuality, race, class, language, bodies, etc.—and how these issues bear upon society. Prereq: [1509 (or 2501), two from 1205, 1206, 1211, 1212] or [GWSS 1101]

ENGL 3444. Holocaust Literature and Film. (IP; 4 cr.; Student Option; Fall Even Year) Survey of Holocaust literature and film, focusing on works that clarify the political ideology that led to the participation in the murder of two-thirds of Europe’s Jews and that articulated what Jews suffered during the Nazi era. Prereq: 1601 or 2509 or equiv

ENGL 3522. Harlem Renaissance. (HDIV; 4 cr.; Student Option; Fall Even Year) During the 1920s, there was a major aesthetic outpouring in the African American community. Listen to jazz, examine African American artwork, and read poetry, short stories, novels and essays from Harlem Renaissance writers. Prereq: 1501 (or 2501), two from 1205, 1206, 1211, 1212

ENGL 3993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ENGL 4004. Research Seminar: Old English Literature and Language. (4 cr.; Student Option; Periodic Fall & Spring) Prose and poetry of early medieval England (560-1100) in translation and in Old English (which is studied), with attention to material (manuscripts) and cultural contexts and to reception history. Prereq: two from 31xx-35xx, instr consent

ENGL 4012. Research Seminar: Environmental Literature and Theory. (4 cr.; Student Option; Periodic Fall & Spring) Study of environmental literature and theory and an examination of the ways that the languages of different disciplines shape and transform understanding of ecology. Students read literature, philosophy, culture criticism, environmental history, an science writing. Prereq: two from 31xx-35xx, instr consent

ENGL 4017. Research Seminar: Tricksters-Conjurers in American Indian and African American Literature. (HDIV; 4 cr.; Student Option; Periodic Fall & Spring) Study of tricksters and conjurers in American Indian and African American literature, in particular their ability to maintain traditional practices and subvert the dominant culture and imposed cultural norms. Special attention given to cultural and historical contexts and questions of power, identity, cultural difference, and assimilation. Prereq: two from 31xx-35xx, instr consent

ENGL 4023. Research Seminar: Nationalism and Irish Literature. (4 cr.; Student Option; Periodic Fall & Spring) Examination of 20th-century Irish literature through the lens of cultural nationalism. How questions of language, race, culture, and colonial history make the idea of Ireland problematic. Exploration of a diverse host of writers interested in Irish myths, ideals, and identities with research from Irish and postcolonial studies. Prereq: two from 31xx-35xx, instr consent

ENGL 4024. Research Seminar: Poet’s Choice: The Book as the 25th Poem. (4 cr.; Student Option; Periodic Spring) “If you have a book of twenty-four poems, the book itself should be the twenty-fifth,” claims poet James Wright. Study of single volumes of poetry, examination of the book as a whole, and consideration of the sequence of poems and recurring images and themes. Exploration of key movements of the 20th century, placing each volume in its literary context. Prereq: two from 31xx-35xx, instr consent

ENGL 4027. Research Seminar: Dickens and Criticism. (4 cr.; Student Option; Periodic Fall) Multiple novels by Dickens in their historical context with sustained attention to recent critical analysis of his work. Prereq: two from 31xx-35xx, instr consent

ENGL 4028. Research Seminar: Inventing a Nation: Early American National Literature. (4 cr.; Student Option; Periodic Spring) At the end of the Revolution, Americans set out to create a literature that would define the new nation. Writers adapted old forms and invented new ones in an effort to make American writing distinct and somehow reflective of the nation’s values. This course explores those efforts, including drama, novels, magazine writing, and their contexts. Prereq: two from 31xx-35xx, instr consent

ENGL 4032. Research Seminar: Transnational Theory and Literatures. (4 cr.; Student Option; Periodic Spring) An intensive study of transnational literature and theory from the turn of the 20th century to the present, emphasizing the movement of marginalized subjects to the center of cultural expression, the intertwining of cultures in contact zones, and the forms of identity emerging from these modern, hybrid cultures. Prereq: two from 31xx-35xx, instr consent

ENGL 4034. Research Seminar: The Adventure Novel in American and British Literature. (4 cr.; Student Option; Fall Odd Year) Survey of adventure fiction in the Anglo-American tradition from Walter Scott through the mid 20th century, paying particular attention to themes that shaped this tradition, including imperialism and revisions of masculine identity. Prereq: two from 31xx-35xx, instr consent

ENGL 4035. Research Seminar: Booker Watch: Contemporary British Literature and the Emergence of Canonicity. (IP; 4 cr.; Student Option; Periodic Fall & Spring) Comparison of leading contenders for the annual Booker Prize. Student research encompasses the history and controversies that have surrounded the Booker, the generic and national traditions favored in the prize, and the emergence of canonicity through the awarding of the prize. Prereq: two from 31xx-35xx, instr consent

ENGL 4037. Research Seminar: The Biographical Novel. (4 cr.; Student Option; Spring Odd Year) Before the 1970s, there were only a handful of acclaimed biographical novels, but since the 1980s, this genre of fiction has become incredibly popular. Examine what led to the rise of the biographical novel across the globe and examine a variety of such novels. Prereq: two from 31xx-35xx, instr consent

ENGL 4038. Research Seminar: Writing Early Ireland. (HUM; 4 cr.; Student Option; Periodic Fall) Study of key texts in Ireland's literary history pre-1800, including 8th-century epic The Tain Bo Cualnge, excerpts of Edmund Spenser's The Faerie Queene and A View of the State of Ireland, and Maria Edgeworth's novel Castle Rackrent. Especially covers what it means to
ENGL 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Environmental Science (ESCI)

ESCI 1131. Renewable Energy With Biomass Gasification. (SCI-L; 3 cr.; Student Option; Every Summer) Principles of biomass gasification with a focus on chemical, biological, and economic considerations of biomass energy production. Features hands-on training in chemistry and biomass with classroom and lab activities. Prereq-Math 0901 or placement beyond Math 0901 using ACT/placement exam or instr consent.

ESCI 2201. Field Experience in Environmental Challenges of the Italian Alps. (ENVT; 4 cr.; Student Option; Summer Even Year) Study of the impact of geologic processes such as tectonism, mass movement, and flooding; understanding climate change through the observation of vegetation changes and glacier fluctuations; soil and water resources and the archaeological record of the nature of human settlements in the Alps.

ESCI 3111. Evolution of the Minnesota Prairie. (SCI-L; 4 cr.; Student Option; Fall Odd Year) Interpretation of the geologic, geochemical, climatologic, and paleontologic records of western Minnesota to reconstruct the origin and history of the landscape, flora, and fauna during the last 15,000 years. Topics include: climate, deglaciation, large lakes, vegetation changes, late Pleistocene mammals, peopling of the upper Midwest, and extraterrestrial impact events in the upper Midwest. (3 hrs lect, 3 hrs lab, and field trip) prereq: Geol 1101 or EnSt 2101 or instr consent

ESCI 3196. Environmental Science Field Camp. (SCI; 2-4 cr.; Student Option; Every Fall, Spring & Summer) An educational experience in a field or internship setting focusing on identification and solution of environmental science problems in an environmental field, including environmental geology, hydrology, environmental chemistry or environmental biology. A course syllabus or written plan of work must be approved by the Environmental Science Advisory Committee before registration. Prereq-jr status

ESCI 3201. The Chemistry of Sustainable Energy. (SCI; 4 cr.; Student Option; Fall Every Year) Same as Chem 3301. The fundamental chemical concepts underlying energy sources. Topics include: energy basics, fossil fuels, "sustainable" energy sources, biomass, solar voltaics, hydrogen fuel cells, and nuclear energy. prereq: Chem 2302 or instr consent

ESCI 4901. Environmental Science Senior Seminar I. (1 cr.; A-F only; Every Fall) Capstone experience in environmental science. Identification and selection of individual research topics and related bibliographic resources; development of skills in the reading of environmental science literature (assessing data, recognizing gaps in the research findings, identifying problems in research conclusions). Discussion of selected topics of environmental interest. prereq; instr consent

ESCI 4902. Environmental Science Senior Seminar II. (1 cr.; A-F only; Every Spring) Capstone experience in environmental science. Completion of research, assessment of information or data, and formulation of conclusions on the research topic selected. Presentations of research projects. prereq: 4901, instr consent

Environmental Studies (ENST)

ENST 1101. Environmental Problems and Policy. (ENVT; 4 cr.; Student Option; Every Fall & Spring) An introduction to the ways in which state, national, and international political systems deal with environmental issues and goals. The development of environmental governance, the regulatory and economic tools of environmental policy, and the impact of institutions, culture, social movements, and historical development.

ENST 1201. Mapping the Environment. (ENVT; 4 cr.; Student Option; Periodic Fall & Summer) An intense immersion into the world of geographic information systems (GIS), with an emphasis on providing a foundation upon which future coursework and projects can be built. The first half of the course focuses on basic skills and functions; the second half is devoted to an environment-related mapping project. [Note: no elective cr for EnSt majors if credit has been received for Geol 2161]

ENST 1801. Introduction to Sustainability through Science Fiction. (IC; 4 cr.; Student Option; Periodic Fall) Learn about sustainability by considering a variety of works of science fiction. Through review and discussion of comic books, literary works, movies, and TV shows, students think about how human or societal development can happen in a way that enables future generations to thrive.

ENST 2101. Environmental Biology. (SCI-L; 4 cr.; Student Option; Every Fall) Introduction to concepts in biodiversity, evolution, and ecology. Includes basic chemistry and concepts from cell biology, molecular biology, and genetics. A one-course gateway into upper division Biology courses normally requiring the Biol 1111-2101 sequence. (two 65-min lectures, one 180-min lab) [Note: credit will not be granted if credit has been received for Biol 2101]

ENST 3001. Water Resources Policy. (ENVT; 4 cr.; Student Option; Fall Even Year) An examination of fundamental contemporary water resource challenges. Units on water quality (e.g., drinking water) and quantity (e.g., irrigated agriculture) encourage critical evaluation of local, national, and international water resource policy in the contexts of environmental quality, human health, and green infrastr. (two 100 min discussions) prereq: 1101 or Pol 1201 or Pol 1401 or instr consent

ENST 3101. Industrial Ecology. (4 cr.; Student Option; Fall Odd Year) Systems thinking in the context of industrial/ environmental issues. Methods or frameworks including life cycle analysis and design for disassembly, guide an examination of product design, material choice, and flows of energy and resources into, through, and from industrial cycles. [Note: no credit for students who have received cr for EnSt 4101] prereq: 1101, 2101, Econ 1111, Geol 1101, Stat 1601, or instr consent

ENST 3112. Climate Change and Moral Responsibility. (ENVT; 4 cr.; Student Option; Every Spring) Considers the moral responsibilities that citizens have regarding climate change. Includes: 1) tours and discussion of local green infrastructure, 2) panel discussions by professionals and practitioners from the community who will share their expertise; and 3) discussion of the most recent work on climate ethics. prereq: 4 cr of EnSt or instr consent

ENST 3201. Environmental Justice. (ECR; 4 cr.; Student Option; Periodic Fall) Environmental justice has shifted the way that scholars, activists, and policy makers understand and address environmental problems. Core environmental concerns such as pollution and climate change are now also understood to be social justice problems. Considers development of the environmental justice movement and key contemporary environmental justice problems. prereq: 4 cr of EnSt or instr consent

ENST 3988. Environmental Studies Pre-Internship Seminar. (1 cr.; S-N only; Every Fall) Preparation for the environmental studies internship, including attending and writing reflections on presentations by post-internship students, and developing ideas and opportunities for the ENST internship. Students should enroll in this course in fall of sophomore or junior year prior to completing the ENST internship. prereq: 1101

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
ENST 3989. Environmental Studies Post-Internship Seminar. (1-2 cr.; A-F only; Every Fall)
Culmination of the environmental studies internship. Includes preparing a final paper and delivering a public presentation on the internship experience. Assessment is based on the quality of the final products and on class participation. prereq: 3988 or instr consent

ENST 3996. Internship/Field Experience in Environmental Studies. (2-4 cr.; S-N only; Every Fall, Spring & Summer)
An educational experience in a work, research, and/or field setting that provides practical application of the student's theoretical classroom learning experiences. A written plan of work must be approved by the Environmental Studies Internship Coordinator before registration. Prereq: Jr status or instr consent

ENST 4901. Senior Capstone Experience. (4 cr.; A-F only; Every Spring)
Students engage in an individual and/or group problem solving project on a multidisciplinary topic germane to Environmental Studies and present results in a public forum. prereq: 3989 or 3996, sr status or instr consent

French (FREN)

FREN 1001. Beginning French I. (4 cr.; Student Option; Every Fall)
An introduction to oral and written French, its basic structure, and to French culture.

FREN 1002. Beginning French II. (FL; 4 cr.; Student Option; Every Spring)
Continuation of 1001. prereq: 1001 or placement or instr consent

FREN 1021. July in Paris I: French Language and Culture in Paris. (IP; 4 cr.; A-F only; Summer Even Year)
Four weeks of intensive beginning French language and culture at the Sorbonne, Paris IV; guided visits to cultural and historical sites. UMM July in Paris course for students with no French experience or less than one semester of college-level French. Does not satisfy FL Gen Ed requirement. See also Fren 1023 and 3060: July in Paris II and III: French Language and Culture in Paris.

FREN 1023. July in Paris II: French Language and Culture in Paris. (FL; 4 cr.; A-F only; Summer Even Year)
Fren 1002 equivalent for the July in Paris Program. Four weeks of intensive beginning French language and culture at the Sorbonne, Paris IV; guided visits to cultural and historical sites. Satisfies UMM language requirement. See also Fren 1021 and 3060: July in Paris I and III: French Language and Culture in Paris prereq: 1001 or placement

FREN 1031. Modern Studies: The Modern Body in France. (SS; 2 cr.; Student Option; Periodic Fall & Spring)
Beginning with Vesalius, this course examines how the notions of body and mind have been shaped and reshaped in tandem with the rise of the sciences in France, with emphasis on evolving conceptions of ability and disabilities. Taught in English. Meets Modern Studies (MOS) requirement in the French major. prereq: (or coreq) 3011 or instr consent

FREN 1302. French Cinema. (IP; 4 cr.; Student Option; Periodic Fall & Spring)
The history of filmmaking in France from the Lumière brothers to the present; introduction to major trends in film theory. All films have English subtitles. Taught in English. Meets Modern Studies (MOS) requirement for the French major. [Note: does not count towards the Fren minor]

FREN 1303. Paris as Text/Image/Sound. (IP; 2 cr.; Student Option; Periodic Fall & Spring)
Explores how representations of Paris in literature, film, music, and photography have been a key to the construction and the lived experience of the city and how new forms of writing, image-making, and sound production have emerged from the modern metropolis. Texts by Balzac, Baudelaire, Hemingway, Stein, and others. Taught in English, but all written work can be completed in French to count toward the major. Meets Modern Studies requirement in French major. prereq: instr consent

FREN 1311. Sub-Saharan Francophone Cinema. (IP; 4 cr.; Student Option; Periodic Fall & Spring)
Introduction to the history of cinema in French-speaking West Africa. Students learn to read African films, to recognize and analyze political themes in the films, and to become sensitive to issues facing many African nations in the postcolonial world. All films have English subtitles. Taught in English. Meets Francophone Studies (FRS) requirement for the French major. [Note: does not count toward the Fren minor]

FREN 1803. Fairies and Warriors: Medieval Legends and Fictions. (IC; 2 cr.; Student Option; Periodic Fall & Spring)
Students learn about different primary and secondary sources in conjunction with various genres of medieval fiction. Introductions to various languages, library sources, and historical context inform the study of texts, as well as what made someone a fairy, a knight, or a warrior in literature between the 11th and 15th centuries. prereq: new college student in their first semester of enrollment at UMM

FREN 1804. Medieval Myths, Religions, and Fantasy through Literature. (IC; 4 cr.; Student Option; Periodic Fall & Spring)
Students read various genres of medieval fiction as well as religious and historical texts. Introductions to medieval languages, library sources, and historical and cultural context inform the study of texts, with a focus on the presence of mythology, religion, and fantasy in literature from the 11th to 15th centuries. prereq: new college student in their first semester of enrollment at UMM

FREN 2001. Intermediate French I. (IP; 4 cr.; Student Option; Every Fall)
Review of the essential structural patterns of the French language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level. prereq: 1002 or placement or instr consent

FREN 2002. Intermediate French II. (IP; 4 cr.; Student Option; Every Spring)
Review of the essential structural patterns of the French language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level. prereq: 2001 or placement or instr consent

FREN 2014. Explorations in Cultures. (1 cr. [max 2 cr.]; S-N only; Periodic Fall & Spring)
An opportunity for integrated practice in the four skills (listening, speaking, reading, writing) through the discussion of various non-academic texts: children’s books, movies, music videos, commercials, and news stories from throughout the French-speaking world.

FREN 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

FREN 3002. Civilization and Composition: Tools for Studying the Medieval and Early Modern Periods. (HIST; 2 cr.; Student Option; Every Fall)
Study Paris as the center of society, culture, religion, and literature from 1100-1300, while also refining the ability to write academic papers and engaging in academic discussions in French. Read primary texts about religion, mythology, and Classical epics that form the foundation of much of medieval French literature. prereq: 2002 or instr consent

FREN 3003. Civilization and Composition: France Since the Enlightenment. (HIST; 2 cr.; Student Option; Every Fall)
A study of French culture from the Enlightenment period up to contemporary
society. Study the development of the French nation while also refining the ability to write academic papers and to participate in academic discussions in French. prereq: 2002 or instr consent

FREN 3004. Civilization and Composition: Colonialism and Francophone Worlds. (HIST; 2 cr.; Student Option; Every Spring) A study of the history of French colonialism and of the development of la Francophonie as an association of French-speaking countries outside of France. An introductory exploration into the cultures, literatures, and current events of multiple francophone countries and regions throughout the world. prereq: 2002 or instr consent

FREN 3011. Introduction to French and Francophone Literature. (HUM; 4 cr.; Student Option; Every Spring) A survey of literature from France and from across the Francophone world. Study poetry, novels, theater, and film, and develop reading skills and methods of analysis. prereq: 4 credits of 3002 or 3003 or 3004 or instr consent

FREN 3060. July in Paris III: French Language and Culture in Paris. (IP; 4 cr.; max 8 cr.; A-F only; Summer Even Year) Four weeks of intermediate or advanced French-language study at the Sorbonne, Paris IV; guided visits to cultural and historical sites. UMM July in Paris course for students who have had a minimum of one year of college-level French. See also Fren 1021 and Fren 1023: July in Paris I and II: French Language and Culture in Paris. prereq: 1002 or equiv

FREN 3112. Advanced Language Studies: Introduction to French Phonetics. (2-4 cr.; Student Option; Periodic Fall & Spring) Training in French pronunciation through general and French phonetics. Students learn the International Phonetic Alphabet and study the correct articulate of French vowels and consonants, as well as other important parts of speech such as liaison, enchainement, and intonation. Meets Advanced Language Studies (ALS) requirement in French major. [Note: no credit for students who have received cr for Fren 2011] prereq: 2002 or (concurrent enrollment in 2002) or instr consent

FREN 3113. Advanced Language Studies: Introduction to Translation. (2-4 cr.; Student Option; Periodic Fall & Spring) The art of translation applied to everyday discourse, literary texts, and a number of professional fields: journalism, international business, and political, social, and natural sciences with a particular emphasis on specialized vocabularies and advanced grammar and syntax. Meets Advanced Language Studies (ALS) requirement in French major. prereq: (or coreq) 3011 or instr consent

FREN 3114. Advanced Language Studies: Advanced French Grammar. (2-4 cr.; Student Option; Periodic Fall & Spring) Refinement of grammar. Students gain a deeper understanding of the functionality of the French language through a study of French grammar and through applied and historical linguistics. Meets Advanced Language Studies (ALS) requirement in French major. prereq: (or coreq) 3011 or instr consent

FREN 3402. Medieval and Early Modern Studies: Pre-Enlightenment Culture in France. (2-4 cr.; Student Option; Periodic Fall & Spring) This course traces the history of French culture in the Middle Ages and into the Early Modern Period; it examines the geography, language, and institutions of medieval and early modern France through literature. Meets Medieval and Early Modern Studies (MEMS) requirement in French major. prereq: (or coreq) 3002, 3011 or instr consent

FREN 3406. Medieval and Early Modern Studies: Emotional Extremes in Medieval and Early Modern Literature. (4 cr.; Student Option; Periodic Fall & Spring) Theories from cultural and religious studies, anthropology, history, psychology, and sociology combine to approach emotional expression in society and in literature. Readings: Durkheim, Freud, Laplanche, Bataille, Chretien's Lancelot, Partonopeus, Le Roman de Troie, troubadour lyric, Aucassin et Nicolette, Legenda Aurea, Saint Augustine, Ovid's Metamorphoses. Meets Medieval and Early Modern Studies (MEMS) requirement in French major. prereq: (or coreq) 3002, 3011

FREN 3407. Medieval and Early Modern Studies: The "East" and its Marvels. (2 cr.; Student Option; Periodic Fall & Spring) A Medieval French course introducing cultural and literary aspects of the Middle Ages through marvelous figures and manifestations of the medieval French interpretation of the "East," including attention to exotic forms of clothing and food in romance, crusades, bestiaries, and fabliaux. Students read medieval interpretations of adventure stories such as the Iliad and Aeneid. Meets Medieval and Early Modern Studies (MEMS) requirement in French major. prereq: (or coreq) 3002, 3011

FREN 3408. Medieval and Early Modern Studies: Quests, Qualis, and Custards—Food in Life and Literature. (2-4 cr.; Student Option; Periodic Fall & Spring) Spices, game, and chocolate trace the real and imagined movement of European people in the Middle Ages and Early Modern period in literary and historical sources. Make authentic recipes and read authors, including Marco Polo, from many genres of literature. Meets Medieval and Early Modern Studies (MEMS) requirement in French major. prereq: (or coreq) 3002, 3011 or instr consent

FREN 3409. Medieval and Early Modern Studies: Monsters and the Marvelous. (2-4 cr.; Student Option; Periodic Fall & Spring) The Middle Ages and Early Modern period are introduced through monsters, beasts, and other marvelous figures in genres including romance, hagiography, theatre, bestiaries, and fabliaux. Students analyze gender roles and sexual expression, childhood and adulthood, and animals. Meets Medieval and Early Modern Studies (MEMS) requirement in French major. prereq: (or coreq) 3002, 3011 or instr consent

FREN 3410. Medieval and Early Modern Studies: Troubadours and Old Occitan: Creative Writing in the Middle Ages. (HUM; 4 cr. [max 8 cr.]; Student Option; Periodic Fall & Spring) The Troubadours considered Occitan, at the crossroads of French, Spanish, and Italian, the best vernacular for lyric poetry. Poetic innovation flourished at the courts from Auvergne to Catalonia. Learn the grammar of this medieval language as you translate lyric texts and compose and workshop parallel modern poems in a variety of forms. Non-French students and students below French 30xx write and workshop their poems in English, and French students above French 2002 wanting to count the course for the MEMS elective in the major write and translate in French. Language of instruction is English. Meets Medieval and Early Modern Studies (MEMS) requirement in French major. prereq: completion of 1002, its equivalency, or above in French, Spanish, Italian, German, Latin, Portuguese, or Greek or instr consent

FREN 3411. Medieval and Early Modern Studies: Medieval and Renaissance Bodies. (4 cr.; Student Option; Periodic Fall) Through literature, students learn about the diversity of the understandings of the body in the Middle Ages and Renaissance. By studying fictional, religious, and historical portrayals of habits and customs alongside medical treatises, students analyze different conceptions of the body through a variety of primary and secondary sources. prereq or coreq: 3002, 3011 or instr consent

FREN 3501. Modern Studies: The Old Regime and New Ideas: The French Enlightenment. (4 cr.; Student Option; Periodic Fall & Spring) Explores the absolutism of Louis XIV and the rise of modern secular thinking in the French literature and philosophy of the Enlightenment, with particular attention given to shifting notions of freedom, agency, and one’s place within society and relationship to others. Meets Modern Studies (MOS) requirement for the French major. prereq: (or coreq) 3003, 3011 or instr consent

FREN 3502. Modern Studies: Revolution, Romanticism, Modernity. (4 cr.; Student Option; Periodic Fall & Spring) Examines the emergence of Romanticism, Modernity, Realism, and Naturalism in a historical context shaped by the successive revolutions of 1789, 1815, 1830, 1848, and 1870; industrialization; the rise of a middle class; advances in technology and medicine; and the centrality of images and the popular press in daily life in France. Meets Modern Studies (MOS) requirement in French major. prereq: (or coreq) 3003, 3011 or instr consent

FREN 3503. Modern Studies: Avant-Garde, Existentialism, Experimentation. (2-4 cr.; Student Option; Periodic Fall & Spring) From la belle epoque through two world wars and the civil unrest of 1968; from France’s efforts to come to terms with its colonial past to its role within the European Union, from Proust to Pessac, this course examines French

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
history, culture and literary movements of the past century to the present day. Meets Modern Studies (MOS) requirement in French major. prereq: (or coreq) 3003, 3011 or instr consent

FREN 3505. Modern Studies: Immigration and Identity in Modern France. (4 cr.; Student Option; Periodic Fall & Spring) Examination of the history of immigration in France, with a particular focus on the years following the Algerian War to the present. Study of literary representations of cultural dislocation as written by immigrant minorities in France and of the effects of these narratives on the creation of cultural, social, and national identities within these communities and in France. Discussions of the tensions in France between its relatively new multicultural identity and its traditional identity based on a homogenous set of characteristics. Meets Modern Studies (MOS) requirement for the French major. prereq: (or coreq) 3004, 3011 or instr consent

FREN 3507. Modern Studies: French for Sustainability. (ENV; 2 cr.; Student Option; Periodic Fall & Spring) France's engagement with sustainable development with regard to biodiversity, food systems, renewable energy, and air and water quality, especially as these intersect with social and economic disparities. The course draws upon UMM's unique institutional strengths and prepares students with the tools and skills they need in order to work in the sustainability sector in a global, bilingual setting. prereq: (or coreq) 3003, 3011 or instr consent

FREN 3509. Modern Studies: Letters Since the Enlightenment. (4 cr.; Student Option; Periodic Spring) In a survey of epistolary expression from France's Golden Age of letters to today, students explore how historical lettermail, letters in fiction, as well as digital forms of correspondence move between author and audience, between private discourse and public distribution, and between codified formulas and innovative content across time. prereq: (or coreq) 3003, 3011

FREN 3603. Francophone Studies: Witches, Wilderness, and Words in Francophone Folktales. (4 cr.; Student Option; Periodic Fall & Spring) Study of the oral tale in African and Caribbean cultures and how these texts encapsulate cultural knowledge of identity, community, and spirituality. Examination of the supernatural and ancestral spiritual worlds, with a special emphasis on the magical power of words and their ability to create, transform, and destroy. Meets Francophone Studies (FRS) requirement in French major. prereq: (or coreq) 3004, 3011 or instr consent

FREN 3604. Francophone Studies: Francophone America. (4 cr.; Student Option; Periodic Fall & Spring) Survey of literary texts and movements in Francophone North America, including Quebec and Louisiana, as well as the history of French exploration of the New World. A discussion of the cultural tensions that have threatened and continue to shape Francophone identity in North America. Meets Francophone Studies (FRS) requirement in French major. prereq: (or coreq) 3004, 3011 or instr consent

FREN 3605. Francophone Studies: Maghrebian Cinema. (4 cr.; Student Option; Periodic Fall & Spring) A study of Algerian, Tunisian, and Moroccan history and culture as presented through the art of cinema. Examination of films produced in the francophone Maghreb thematically, focusing on topics such as colonialism, gender, Islam, childhood, and immigration. An important goal is to learn to analyze and discuss film academically. Meets Francophone Studies (FRS) requirement in French major. prereq: (or coreq) 3004, 3011 or instr consent

FREN 3606. Francophone Studies: Sub-Saharan Francophone Cinema. (4 cr.; Student Option; Periodic Fall & Spring) Introduction to the history of cinema in French-speaking West Africa. Students learn to read African films, to recognize and analyze political themes in the films, and to become sensitive to issues facing many African nations in the postcolonial world. Meets Francophone Studies (FRS) requirement in French major. prereq: (or coreq) 3004, 3011 or instr consent

FREN 3607. Francophone Studies: Sex and Gender in Francophone Literature and Film. (4 cr.; Student Option; Periodic Fall & Spring) The study of the representation of women, men, and queer identities in Francophone literature and film. Discussion of models of femininity and masculinity, and LGBTQQIA+ identities and how the dual system of sexuality and gender is problematic. Examination of various models of Feminist and Queer Theory from Africa and the Caribbean and how they may differ from American or French models. Meets Francophone Studies (FRS) requirement in French major. prereq: (or coreq) 3004, 3011 or instr consent

FREN 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GWSS 1101. Introduction to Gender, Women, and Sexuality Studies. (HDIV; 4 cr.; Student Option; Every Fall) This course introduces students to the concepts and impacts of gender and sexuality in everyday life. Various feminist, queer, and other gender-oriented theories are introduced as students explore how definitions of femininity, masculinity, and sexuality have been created, maintained, negotiated, and resisted.

GWSS 2101. American masculinities: The Making of Guys, Dudes, Bros, and Men. (SS; 2 cr.; Student Option; Periodic Spring) What makes a man? What does it mean to be "masculine"? How is manhood defined, represented, and enforced in American popular culture? How do race and ethnicity intersect with American manhood? This course uses an interdisciplinary approach to explore these and other questions about gender, masculinity, and society. We situate definitions of manhood historically, examine representations of masculinity in literature and film, and critically reflect on social and cultural messages of American masculinity.

GWSS 2102. Masculinities in the Margins: Intersectional and Marginalized Masculinities. (SS; 2 cr.; Student Option; Periodic Spring) Is "masculinity" the same throughout America? the world? Which men "count" and why? Are there new versions of masculinity in the making? How do race, class, ethnicity, and nationality intersect with manhood? How have these ideas changed over time? This course uses an interdisciplinary approach to explore these and other questions about gender, masculinity, and society. We situate definitions of manhood historically; explore concepts of intersectionality and hegemonic, subordinated, and marginalized masculinity; and critically reflect on social and cultural messages about these concepts.

GWSS 2404. Feminist, Queer, and Intersectional Theories. (HDIV; 2 cr.; A-F only; Every Spring) This course provides a historical overview and introduction to fundamental concepts, frameworks, and bodies of theory related to gender, sexuality, feminism, and other related topics across disciplines. It emphasizes critical analysis of foundational theoretical works and applications of theories to current activism, problems, and scholarship. prereq: 1101 or instructor consent
GWSS 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GWSS 4901. Gender, Women, and Sexuality Studies Capstone. (1 cr.; A-F only; Every Fall & Spring)
This course requires a theoretical analysis paper, in which students analyze and reflect on their academic coursework and own intellectual autobiography. Students are expected to consider and apply feminist, queer, and/or other gender-oriented theoretical approaches in this final paper. This course also requires a portfolio and a presentation and panel discussion. Students can work with any faculty teaching GWSS courses. prereq: 2404, completion of 32 cr towards the GWSS major

Geography (GEOG)

GEOG 2001. Problems in Geography, (ENVT; 4 cr.; Student Option; Every Fall)
Basic concepts and questions in the field of geography. The terminology and approaches of geographical inquiry and analysis, with emphasis on the spatial patterns and arrangements of human interaction with the landscape and the production of geographical knowledge.

GEOG 3501. Geographic Information Systems. (ENVT; 4 cr.; Student Option; Periodic Fall & Spring)
The theory and practice of Geographic Information Systems. Topics include data models, spatial statistics, and cartographic modeling. Special emphasis on social and environmental applications. (two 65-minute lect, one 120-minute lab session per week) prereq: any 1xxx course in social or natural sciences

Geology (GEOL)

GEOL 1001. Environmental Geology: Geology in Daily Life. (SCI; 4 cr.; Student Option; Every Spring)
Effects of volcanoes, earthquakes, and floods on humans and civilization; geologic problems associated with rural and urban building, waste management, and waste disposal; the importance of geologic knowledge in the discovery of fossil fuels and mineral resources. (4 hrs lect)(Note: may not count toward the geol major or minor)

GEOL 1011. Geology of the National Parks. (SCI; 4 cr.; Student Option; Periodic Fall)
Exploration of the fundamental aspects of the geosciences: earth materials, geologic time, plate tectonics, and the evolution of landscapes by examining the geology and geologic history of the U.S. national parks. (4 hrs lect)(Note: may not count toward the geol major or minor)

GEOL 1101. Physical Geology. (SCI-L; 4 cr.; Student Option; Every Fall & Spring)
Introduction to the materials that make up the Earth and the structures, surface features, and geologic processes involved in its origin and development. Lab work includes study of the major constituents of the Earth's crust, including the important rocks and minerals; study of surface and geologic features using aerial photographs, topographic maps, and satellite imagery. (3 hrs lect, 3 hrs lab)

GEOL 2001. Natural and Unnatural Geologic Hazards. (ENVT; 4 cr.; Student Option; Periodic Spring)
Examination of the more significant interactions between humans and geologic environments and processes. Earthquake and volcanic hazards, river flooding, mass movements and slope stability, coastal hazards, and water resources and pollution. Lectures and problems sets emphasize the quantitative approaches used to determine the likelihood and frequency of natural hazards, assess associated risks, and mitigate damage. prereq: 1001 or 1101

GEOL 2101. Mineralogy and Crystallography. (SCI-L; 4 cr.; Student Option; Every Fall)
Classification, identification, physical and chemical properties, origin and natural occurrence of major mineral groups. Lab study of crystal systems by use of models; introduction to optical aspects and physical and chemical testing. (3 hrs lect, 6 hrs lab and field trips) prereq: 1101, Chem 1001 or instr consent

GEOL 2111. Igneous and Metamorphic Petrology. (SCI-L; 4 cr.; Student Option; Every Spring)
Classification, composition, genesis, and natural occurrence of igneous and metamorphic rocks; lab study and identification of rocks by various macroscopic, microscopic, and chemical means. (3 hrs lect, 6 hrs lab and field trips) prereq: 2101

GEOL 2121. Sedimentology and Stratigraphy. (SCI-L; 4 cr.; Student Option; Fall Even Year)
Processes of sedimentation, including origin, transportation, and deposition of sediments; interpretation of sedimentary environments. Principles of stratigraphy and their applications. Lab work includes sedimentary particle analysis; stratigraphic sections; and interpretation of ancient sedimentary environments based on stratified sequences of sedimentary rock. (3 hrs lect, 3 hrs lab and field trips) prereq: 2101

GEOL 2131. Geomorphology. (SCI; 4 cr.; Student Option; Fall Even Year)
Study of the Earth's surface and surficial processes; weathering, erosion, and deposition, and the resulting landforms and products; the history of the study of landforms in the United States. (3 hrs lect, 3 hrs lab and field trips) prereq: 1101

GEOL 2141. Glacial and Quaternary Geology. (SCI; 4 cr.; Student Option; Spring Even Year)
Glaciers, glaciology, glacial deposition, glacial erosion; climatic change and the growth and advance of ice sheets; effect of glaciations on flora and fauna. (3 hrs lect, 3 hrs lab and field trips) prereq: 1101

GEOL 2151. Historical Geology: Earth History and Changing Scientific Perspectives. (SCI-L; 4 cr.; Student Option; Fall Odd Year)
Development of fundamental theories and principles of geology, including stratigraphy, uniformitarianism, geologic time, evolution, and plate tectonics. Emphasis on how geological thought has evolved through time as the scientific, religious, and political climate has changed. Discussion of the Earth's history and science's changing views of the Earth; continental movements, mountain building, and the evolution and development of organisms and ecosystems. Lab experience on methods of interpreting Earth's history from rocks, fossils, and structures and solving geologic problems. (3 hrs lect, 3 hrs lab)

GEOL 2161. GIS and Remote Sensing. (SCI; 4 cr.; Student Option; Every Spring)
Introduction to design, development, and application of Geographic Information Systems (GIS); overview of acquisition and utility of satellite data and imagery; emphasis on applications in Earth and environmental sciences; lab component focuses on practical aspects of GIS development and use and involves original semester projects designed and implemented by individual students. prereq: 1101 or Biol 1110 or Biol 1111 or instr consent

GEOL 2301. Geology of Minnesota. (SCI-L; 4 cr.; Student Option; Periodic Summer)
Active, hands-on learning both in class and on class field trips to selected localities throughout the state. Field trips include: Pipestone National Monument; glacial geology of west-central Minnesota; geology of the Minnesota River Valley; and St. Cloud Quarry Park.

GEOL 2311. Forensic Geology. (ENVT; 4 cr.; Student Option; Periodic Summer)
Introduction to the application of geologic concepts, principles, and research methods in the field of forensic studies. Includes analysis of rocks, minerals, soils, and microfossils; air photo and seismic interpretations; applications to geomorphology, art, and archaeology; and tracing of pollutants, among other topics. Students learn how interactions between people and the natural world or natural materials leave evidence of those interactions. Regular discussion periods focus on actual case histories and real-world scenarios. [Note: this course is for non-majors and does not satisfy the geology elective requirements for the major] prereq: 1001 or 1101 or Chem 1101

GEOL 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GEOL 3001. Global Tectonics. (SCI; 4 cr.; Student Option; Periodic Fall & Spring)

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
Internal structure and composition of the earth; geometry and motion of lithospheric plates; geological and geophysical processes at plate boundaries; evolution of mountain belts; heat flow, thermal convection, and the driving mechanism for plate movement. prereq: instr consent

GEOL 3011. Earth Resources. (ENVT; 4 cr.; Student Option; Periodic Fall) Geology of mineral (base metals, precious metals, and non-metals), energy (fossil fuels, uranium, and alternatives), and other (water and soil) resources; overview of techniques for resource identification, delineation, and extraction; discussion of issues (e.g., environmental, political, and social) surrounding resource identification, extraction, and use; global resource distribution, historical trends, and future outlook. prereq: any 1xxx or 2xxx Geol course or instr consent

GEOL 3101. Structural Geology. (SCI-L; 4 cr.; Student Option; Every Spring) Elementary concepts of stress and strain, theory of rock deformation; description and classification of structures in the Earth's crust; application of geometric, analytical, and map interpretation techniques to solving structural problems; field mapping problems. (three 50-min lect, 3 hrs lab and field trips) prereq: 2111, Math 1021 or Math 1101 or instr consent

GEOL 3111. Introduction to Paleontology. (SCI-L; 4 cr.; Student Option; Fall Even Year) An introduction to the study of the evolutionary history of life on earth as revealed in the fossil and geologic record. Laboratory focuses on study of the classification, morphology, and paleoecology of invertebrate fossils. (two 65-min lect, one 3-hr lab, and weekend collecting trip required) prereq: 2151 or Biol 2101 or EnSt 2101 or instr consent

GEOL 3401. Geophysics. (SCI; 4 cr.; Student Option; Periodic Fall) Propagation of seismic waves, earthquake seismology, and the structure of the Earth; the origin and nature of the Earth's magnetic and gravitational fields; the Earth's internal production and flow of heat; composition, state, and rheology of the Earth's interior; plate tectonics and elementary geodynamics. (three 65-min lect) prereq: Math 1101, Phys 1101 or instr consent

GEOL 3501. Hydrology. (SCI; 4 cr.; Student Option; Every Fall) An examination of the hydrological cycle; evapotranspiration and precipitation; processes of infiltration; rainfall-runoff relationships and the generation of overland flow; response of the drainage basin to storm events; flood-frequency analysis; elements of groundwater flow and evaluation of aquifer characteristics; water quality, contamination, and contaminant transport. (three 65-min lect) prereq: Math 1021 or Math 1101 or instr consent

GEOL 3502. Groundwater. (ENVT; 4 cr.; Student Option; Spring Even Year) The origin, occurrence, and availability of groundwater, aquifer geology and groundwater resources, chemical character of groundwater and groundwater pollution, groundwater wells and well design, and groundwater as a geologic agent. (3 hrs lect, 3 hrs lab and field trips) prereq: 1101 or instr consent

Continuation of 1001. prereq: 1001 or placement or instr consent

GER 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GER 2002. Intermediate German II. (IP; 4 cr.; Student Option; Every Spring) Builds on existing German skills by exploring several different cities in German-speaking lands along with their history and cultural heritage. Course further improves students' listening, speaking and writing abilities through guided readings including assignments on the internet relevant to topics such as geography, history, and culture. prereq: 1002 or placement or instr consent

GER 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GER 3001. Advanced German Grammar Capstone. (IP; 4 cr.; Student Option; Every Fall) Reinforce and review entirety of German Grammar at an advanced level to competently approach reading and writing assignments in advanced German courses while gaining a detailed knowledge of grammar. prereq: 2002 or instr consent; may enroll concurrently with 3xxx-4xxx

GER 3101. Introduction to German. (HUM; 4 cr. [max 8 cr.]; Student Option; Periodic Spring) Same as Hum 3043. Introduction to the classical canon of critical theory, with a special focus on the Frankfurt School of the early and mid-20th century, including films and works of literature as case studies for interpretation. prereq: soph or higher status or instr consent

GER 3101. Introduction to German Literature and Culture I. (HUM; 4 cr. [max 8 cr.]; Student Option; Every Fall) Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
Introduces German culture through a variety of texts and media (music, film, etc.) throughout all periods of German literature with the aim of building reading, writing, and listening skills. Ideally taken together with GER 3001. prereq: 2002 or instr consent; may enroll concurrently with 3001

GER 3102. Introduction to German Literature and Culture II. (HUM; 4 cr. [max 8 cr.]; Student Option; Every Spring) Builds on 3101 and introduces German culture through a variety of texts and media (music, film etc.) throughout all periods of German Literature with the aim of building reading, writing and listening skills. prereq: 3101 or instr consent

GER 3602. Scandinavian Literature 20th and 21st Century Novel. (HUM; 4 cr.; Student Option; Periodic Summer) An introduction to the modern Scandinavian novel, including works from Norwegian, Danish, Swedish, Icelandic, and Finnish authors. This course is taught in English.

GER 3701. The Red Army Faction in German Literature. (IP; 4 cr.; Student Option; Periodic Summer) Examination of the historical background surrounding the turbulent era of student protest in Germany and subsequent formation of the terrorist organization, the Red Army Faction. This course is only offered in German. prereq: Ger 3xxx course or instr consent

GER 3702. Martial Masculinities: Manhood and Aggression in German Literature and Culture. (HUM; 4 cr.; Student Option; Periodic Summer) Examination of masculinity in German-speaking lands by exploring history, literature, film, and graphic art from a theoretical perspective with particular focus on patterns of representation that define and shape "manliness" from the medieval to the modern era.

GER 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GER 4001. German Civilization I: From the Stone Age to 1871. (HIST; 4 cr.; Student Option; Fall Even Year) This course facilitates effective engagement with the history and culture of German-speaking countries and Europe throughout the 19th century. This is a lecture style course taught entirely in German to improve listening, speaking, and writing abilities as well as to prepare for a study abroad experience. prereq: 3001 or equiv

GER 4002. German Civilization II: From 1871 to the Present. (HIST; 4 cr.; Student Option; Spring Odd Year) This course facilitates effective engagement with the history and culture of the German-speaking countries and Europe from the late 19th century to the present. This is a lecture style course entirely in German that improves listening, speaking, and writing abilities and prepares students for a study abroad experience. prereq: 3001 or equiv

GER 4101. History of the German Language. (HIST; 4 cr.; Student Option; Spring Odd Year) A linguistic history of the German language from its Proto-Indo-European roots to the present day. Particular emphasis is placed on understanding the historical origins of modern structures, leading to a deeper understanding of Modern German. Taught in English. Some knowledge of German required. (German majors must turn in written work in German.) prereq: 1001 or equiv

GER 4901. Senior Project. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) A substantial scholarly or creative work (at the undergraduate level) in conjunction with or upon the completion of another course within the discipline. The senior project is recommended for German majors. prereq: 3001 or instr consent

GER 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

History (HIST)

HIST 1015. Topics and Problems in World History. (HIST; 4 cr. [max 8 cr.]; A-F only; Every Fall & Spring) Examination of special topics in world history. Course is built around specific topics, such as genocide in the 20th century or global approaches to environmental history, and emphasizes how historians work, pose questions, use sources, and engage in debate.

HIST 1111. Introduction to World History. (HIST; 4 cr.; Student Option; Every Fall & Spring) Methods, themes, and problems in the study of world history.

HIST 1112. Introduction to African History to 1880. (HIST; 4 cr.; Student Option; Fall Even Year) Exploration of Africa's incredible human and environmental diversity from the earliest times to European contact. Special attention to how historians of Africa interpret non-written sources to understand the past.

HIST 1113. Introduction to African History since 1880. (HIST; 4 cr.; Student Option; Every Spring) Consideration of Africa's past from the colonial era to the present. Special attention to the challenges Africans faced living under Europe's grip as well as their courage to build independent African nations.

HIST 1301. Introduction to U.S. History. (HIST; 4 cr.; Student Option; Every Fall) Methods, themes, and problems in the study of the history of the United States.

HIST 1402. Gender, Women, and Sexuality in American History. (HDIV; 4 cr.; Student Option; Periodic Fall & Spring) Themes and methods in the history of women in the United States. Topics may include women in the colonial era; American Indian, African American, and immigrant women; sex roles; women and work, family, politics, the law, and religion.

HIST 1501. Introduction to East Asian History: China, Japan, and Korea before 1800. (HIST; 4 cr.; Student Option; Periodic Fall) Examination of the social, political, economic, technological, and cultural changes in East Asia before 1800. Possible sub-themes include the rise of the Confucian world order, the spread of Buddhism, and East Asian interactions with the outside world. Discussion of changing perceptions of gender.

HIST 1601. Latin American History: A Basic Introduction. (IP; 4 cr.; Student Option; Every Spring) Methods, themes, and problems in the study of Latin American history.

HIST 1811. A History of You(th). (IC; 4 cr.; Student Option; Periodic Fall) Why does the behavior of young people attract so much attention and anxiety? Why does the stage between childhood and a fully recognized adulthood carry such significance in our collective consciousness? Engage in a historical analysis of what youth has signified, using source materials from Plato to pop culture. Along the way, engage chronologically with the emergence of the categories of childhood and youth and thematically with the relationship between youth and a multitude of social categories and phenomena (for example, politics, media, consumption, and sexuality).

HIST 1812. FIRE!: An introductory Seminar to American Environmental History. (IC; 4 cr.; Student Option; Periodic Fall) One of the primary ways in which people have manipulated their environments has been through the burning of fossil fuels. Indigenous people, for instance, used fire to clear land, to improve soil quality, and to drive game.

HIST 1816. Explaining the Inexplicable: 20th Century Genocides. (IC; 2 cr.; Student Option; Periodic Fall) Examination of a couple of the contemporary world's largest and most important dilemmas. Why did we see all the now familiar campaigns...
of mass murder based on racial and ethnic hatred in the last century, a time of incredible scientific progress? Why, in addition, have we been so slow to learn from this experience? Why, in short, have we been so unsuccessful in honoring our pledge of “never again?”

Through history, memoir, and film, examine these questions and try to understand and answer them from both an historical and a moral perspective. prereq: new college student in their first semester of enrollment at UMM

HIST 1818. Environmental History of Latin America. (IC; 2 cr. ; Student Option; Periodic Fall)
Examination of human interaction with the natural environment in Latin America and how these interactions have shaped the region's social, cultural, political, and economic history. Considers historical and contemporary environmental challenges and people's responses to them. Possible topics include: the Columbian Exchange, the Amazon, economic development, ecotourism, indigenous rights, and urbanization. prereq: new college student in their first semester of enrollment at UMM

HIST 1819. Medieval Cathedrals as Historical Sources. (IC; 2 cr. ; Student Option; Periodic Fall)
Introduction to the medieval past using Gothic cathedrals as primary sources. Over the course of the semester, students explore a wide variety of clues these spectacular buildings provide to the historical forces shaping Europe during the 12th and 14th centuries. Students consider the influence not only of religious, political, and economic factors but also social, geographical, technical, literary, and artistic currents out of which such structures emerged. prereq: new college student in their first semester of enrollment at UMM

HIST 1820. What Happened and Why and How It's still Happening? The 2016 Election in Historical Context. (IC; 4 cr. ; Student Option; Periodic Fall)
Examines the 2016 presidential in historical context with a focus the inter-workings of a number of historical phenomena and explores the long history of American populism, the impact of recent social movements, the challenges posed by globalization and shifts in American political attitudes and values. The course integrates an emphasis on current events with history as a way of understanding the persistence of historical forces. prereq: new college student in their first semester of enrollment at UMM

HIST 1822. Age of Atlantic Revolutions. (IC; 2 cr. ; Student Option; Periodic Fall)
Explore the revolutions that swept across the Atlantic World from the mid-18th to mid-19th century, with a particular emphasis on U.S. independence, the French Revolution, the Haitian Revolution, and Latin American independence movements. In addressing the causes of these revolutions, their processes, outcomes, connections, differences, and larger impacts, students deepen their understanding of notions of freedom, equality, human rights, and revolution. prereq: new student in their first semester of enrollment at UMM

HIST 2003. Public History. (HIST, 2 cr. [max 4 cr. ; Student Option; Periodic Spring)
Introduction to the many ways historians conduct research and present historical topics to public audiences. Public historians, who typically come from a traditional academic discipline, utilize their knowledge in such public settings as museums, archives, historic sites, historical societies, and federal agencies. Examine a number of themes ranging from oral histories and historical reenactments to websites and electronic media. Explore what is public history, who practices it, the role of audience, the tension between history and memory, and the ethical concerns that influence public history practice. Gain hands-on experience in facets of public history such as archival management and oral history.

HIST 2103. Medieval Europe. (HIST; 4 cr. ; Student Option; Periodic Fall & Spring)
Survey of historical developments in Europe from about 500 to 1500.

HIST 2108. Ancient Greek and Roman History. (HIST; 4 cr. ; Student Option; Periodic Fall & Spring)
Provides a broad survey of the political, social, and cultural history of ancient Greece and Rome from the archaic period (c. 700 BCE) to the rise of Islam (c. 600 CE).

HIST 2132. History of Fairy Tales and Folklore in Europe. (HIST; 4 cr. ; Student Option; Periodic Fall & Spring)
Examination of fairy tales and folklore in European history from the early modern era to the present, with a primary emphasis on tracing changes in the social and cultural use of fairy tales over time. Sources drawn from a diverse corpus of tales and retellings, as well as scholarly interpretations from historians, ethnographers, and folklorists. Explores key developments, such as the transformation of 17th-century French tales written as political allegory into the Grimms' 19th-century reinvention of the fairy tale as a staple of middle-class childhood. Other topics may include the oral tradition and literacy; changing ideas about gender, class, and religion; and themes of violence, nationalism, and sexuality.

HIST 2151. Modern Europe. (HIST; 4 cr. ; Student Option; Periodic Fall)
History of modern Europe emphasizing political, economic, social, and intellectual developments since 1789.

HIST 2251. American Indians and the United States: A History. (HDIV; 4 cr. ; Student Option; Every Spring)
The experience of the original Americans and their interaction with later immigrants.

HIST 2252. Comparative Indigenous History: Beyond Native America. (HIST; 4 cr. ; Student Option; Periodic Fall)
Same as NAIS 2252. Explore indigenous experiences with settler colonialism in the United States, Canada, Australia, New Zealand, and sub-Saharan Africa. With special attention to issues of race, labor, gender, education, and movements for decolonization, place the indigenous histories of Morris and Minnesota within a global context. [Note: no credit for students who have received credit for NAIS 1701 or Hist 1701]

HIST 2312. History of South Africa to 1976. (HIST; 4 cr. ; Student Option; Fall Even Year)
Exploration of South Africa's settler colonial history from European contact to youth resistance against white supremacy. Special attention to examining the history of structural racism in a global perspective.

HIST 2313. History of South Africa since 1910. (HIST; 4 cr. ; Student Option; Periodic Spring)
Consideration of apartheid South Africa's roots and the multiracial country's struggle to reconcile its colonial past. Special attention to 20th-century black and non-racial political thought from a global perspective.

HIST 2352. The U.S. 1960s. (HIST; 4 cr. ; Student Option; Fall Even Year)
History of the United States in the 1960s. Backgrounds to the 1960s; political and cultural issues of the decade; the Kennedy promise, civil rights and other movements, Vietnam war, counterculture, conservative backlash, and legacy.

HIST 2441. The United States and the Great War. (HIST; 4 cr. ; Student Option; Periodic Summer)
Presentation of a highly integrated picture of the American experience in World War I. Part of the focus is on the military experience, although approached from the perspective of average soldiers and sailors. More of the emphasis is on the home front and how the war at home encouraged the emergence of a new, more powerful, federal state while simultaneously inviting attacks on civil liberties and ethnic culture. Follow the impact of war through the post-war Red Scare and into the 1920s and explore how it ushered in a new period in American life but one rife with political and cultural contradictions.

HIST 2451. The American West. (HIST; 4 cr. ; Student Option; Fall Even Year)
The American West has loomed large in the imagination of the public since the first Europeans set foot on what would become the United States of America. Historian Frederick Jackson Turner argued that the frontier of the West was what distinguished Americans from their European counterparts. However, the West was already home to complex and sophisticated cultures long before the first fur trapper, gold miner, missionary, or cowboy arrived. Disagreements over the future of the West fueled violent confrontation, disagreements that continue to reveal themselves on contemporary relations among a variety of ethnic, class, and cultural backgrounds. Explore the historical underpinnings of confrontations between settlers and indigenous inhabitants, farmers and ranchers, and the federal, state, private, environmental, and tribal interests in the West. These historical underpinnings help to re-imagine the West and the American identity, and continue to shape contemporary controversies.
HIST 2452. Minnesota History. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of the social, cultural, and political history of Minnesota with emphases on American Indian and European-American conflict, immigration and ethnicity, the development of political culture, and the changing nature of regional identity.

HIST 2551. Modern Japan. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) The history of Japan from the foundation of the Tokugawa Shogunate until the present. Special attention to issues of gender, nationalism, and modernity.

HIST 2552. History of Modern China. (HIST; 4 cr.; Student Option; Periodic Spring) Study of the history of China from the foundation of the Qing dynasty in the 1600s until the present. Special attention to issues of gender, nationalism, and modernity.

HIST 2557. History of Southeast Asia. (HIST; 4 cr.; Student Option; Periodic Spring) A broad survey of Southeast Asia’s civilization and its modern challenges. Emphasizes recent colonialism, nationalism, and postwar development.

HIST 2608. History of Cuba: From Colony to Revolutionary State. (HIST; 4 cr.; Student Option; Periodic Fall) A survey of the history of Cuba from Spanish colonization to the present, with emphasis on the 19th and 20th centuries. Topics include colonization, slavery, imperialism, nationalism, and the Cuban Revolution.

HIST 2609. History of Brazil: From Sugar to Sugar Cars. (HIST; 4 cr.; Student Option; Periodic Fall) Examination of Brazilian history from Portuguese colonization in the early 1500s to its current status as a growing world economic power. Topics include Portuguese colonial rule, independence and the creation of the Brazilian Empire in the nineteenth century, the end of the Brazilian monarchy and the emergence of the republican, the rise of the populist state in the mid-twentieth century, military dictatorship during the Cold War, and the return to democracy and Brazil’s rise to world-power status. Additional topics include the Amazon and environmental history, indigenous history, Afro-Brazilian history, the U.S.-Brazilian relationship from a historical perspective, Brazilian economic development, how Brazilians are coping with the socioeconomic changes in their society, and how they perceive their role in the world.

HIST 2704. Gender, Women, and Sexuality in Medieval Europe. (SS; 4 cr.; Student Option; Spring Even Year) Analysis of the history of European women and gender systems as constructed during the Middle Ages (c. 500-1500).

HIST 2708. Gender, Women, and Sexuality in Modern Europe. (IP; 4 cr.; Student Option; Periodic Spring) Examination of the forces that have shaped the lives of European women since 1600 and analysis of how changes in the structures of power and authority—religious, political, social, familial—affected the choices available to them. Students engage critically with the question of what bringing gender to the forefront of the study of European history has to teach them. Students gain an understanding of many of the underpinnings of American society, which has been deeply affected by European patterns of thought about women and their place in the world.

HIST 3008. The Making of the Islamic World. (HDIV; 4 cr.; Student Option; Fall Even Year) Examines the origins, spread, and impact of Islamic civilization from the 6th through 15th centuries with particular emphasis upon political, religious, and intellectual developments.

HIST 3021. Gender and Sexuality in African History. (E/CR; 4 cr.; Student Option; Periodic Spring) Examination and discussion of pre-colonial, colonial, and post-colonial African history through the debates and trends in and between Western feminism, U.S. women of color feminism, Third World feminism, LGBT studies, queer theory, and the emerging interdisciplinary field of African queer studies. Also suitable for students interested in understanding past and present issues of gender and sexuality in Africa through the theories and conditions that animate black queer studies and the black queer diaspora. prerequisite: 1111 or 1112 or 1113 or Anth 1111 or GWSS 1101 or instr consent.

HIST 3101. Renaissance and Reformation. (HIST; 4 cr.; Student Option; Spring Even Year) Examination of western European history and historiography between 1350 and 1600 with emphasis on cultural "renaissances" and religious "reformations."

HIST 3161. The Enlightenment. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) The intellectual ferment of the Enlightenment has been given the credit and the blame for all things modern—from the concept of human rights and the democracies it has engendered to the subversion of those rights in the totalitarian regimes of the 20th century. Exploration of the ideas of the Enlightenment and their political context and attempt to answer the question of how such an important development in human history can be viewed in such contradictory ways.

HIST 3181. The Study of History. (HIST; 4 cr.; Student Option; Every Fall) Introduction to historical research methods and 20th-century historiography. How to evaluate and employ primary and secondary sources, to cite evidence, and to develop critical historical arguments in a research project. Exploration of key transformations within the field of history, surveying various schools of thought, and assessing the specific advantages and challenges of the approaches. Topics may include Freudian and Marxist interpretations, the Annales school, quantitative analysis, anthropological and sociological approaches, and gender and postcolonial theory. [Note: no credit for students who have received cr for Hist 2001] prerequisite: instr consent

HIST 3204. Nazi Germany. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) History of Nazi Germany. Social and political origins, Nazi rule in the 1930s, the "final solution," World War II, and Germany's attempt to assess this era in its history.

HIST 3207. The Crusades. (IP; 4 cr.; Student Option; Spring Odd Year) Explores the historical contexts and consequences of the European Crusades between the 11th century and early modern period, including the perspective of European Jews, Turkish and Arabic Muslims, and Byzantine and Near Eastern Christians.

HIST 3209. Modern Germany. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of German history from the development of German national ideas through unification and consolidation of the modern German state in 1871 and through its reunification at the end of the 20th century. Examines one of the most fascinating and tumultuous periods in German and European history, why the attempt to understand the German past has occupied so many historians, and why the debates surrounding that attempt have been so contentious. Sources include writings by established historians of Germany, novels, films, and music.

HIST 3211. Modern France. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of French culture and history from the Revolution (1789) to the present. The ways in which successive governments, from Napoleon's empire through the Fifth Republic, have come to terms with legacies of the Revolution such as national citizenship, individual rights, and the politicization of women.

HIST 3212. The French Revolution. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of the causes, players, drama, complexity, and legacy of the French Revolution. Beginning with the changing social order and new political philosophies of the 18th century, the course follows not only the initial unfolding of revolution, terror, and counter-revolution, but also the rise of Napoleon and revolutionary wars. Later reverberations in the revolutions of 1848, the Commune of 1871, and global influences (such as the Haitian Revolution) also addressed. Throughout these events, the experiences of both prominent figures and ordinary participants (the "crowd") considered.

HIST 3213. Modern Britain. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of the history of modern Britain and its empire since the 17th century. Topics include the growth of Britain as a world power through imperialism and industrialization, the challenges of shaping a modern polity, and the 20th-century shifts that reduced its global profile.

HIST 3214. History of Childhood. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of changes in childhood and youth from the early modern era to the present.
Geographic emphasis on Europe, although the course also allows for exploration of similar themes in other parts of the world. Considers key developments in both ideas about and experiences of children, such as the emergence of children's rights discourse. Other topics may include schooling, play, labor, family, sexuality, consumption, migration, welfare, imperialism, and war. Readings drawn from social, cultural, and political approaches to the history of childhood, as well as historical documents created by children themselves across contexts.

**HIST 3303. Creation of the American Republic.** (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of the history of the United States from the beginning of the Seven Years’ War in 1754 to the end of the War of 1812. The origins of the nation and the political, cultural, and social changes that accompanied the birth and early years of the American Republic. Focus on the political and social history of the American Revolution. Other topics include women in revolutionary America, the retrenchment of slavery, indigenous people and early Indian policy, religion and revivalism, the constitutional crisis, and the early presidencies.

**HIST 3304. Race, Class, and Gender in American History.** (HDIV; 4 cr.; Student Option; Periodic Fall & Spring) The themes of race, class, and gender are explored in-depth throughout the semester. Students gain a new awareness about historiography and theories that highlight this growing subfield of American history. Prominent topics covered in lecture and readings include colonization, slavery, suffrage, immigration, sovereignty, labor, ghettoization, art, literature, culture, and the rise of self-determination. Study the intersection of race, class, and gender relations through multiple perspectives of region, ideology, political-economic, and religion.

**HIST 3351. The U.S. Presidency Since 1900.** (SS; 4 cr.; Student Option; Fall Even Year) History of the 20th-century U.S. presidency. Brief consideration of the Presidency before 1900, analysis of performance of presidents since 1900 in roles of chief executive, commander-in-chief, chief diplomat, and chief of state during an era of enlarged governmental functions at home and world power abroad.

**HIST 3353. World War II.** (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Origins, political and military aspects of the war in Europe and Asia, domestic mobilization, the Holocaust and Atomic Bomb, aftermath.

**HIST 3355. United States in Transition, 1877-1920.** (HIST; 4 cr.; Student Option; Periodic Fall) Topics, themes, and problems in U.S. history, 1877 to 1920.

**HIST 3356. Civil Rights Era, 1954-1974.** (E/CR; 4 cr.; Student Option; Periodic Fall & Spring) Background of the Civil Rights movement, emergence of the theory and practice of nonviolence, various Civil Rights groups, role of women, legislative and other accomplishments of the movement, its aftermath and influence.

**HIST 3358. Civil War and Reconstruction.** (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Origin, context, and significance of the Civil War and Reconstruction.

**HIST 3359. Native Strategies for Survival, 1880-1920.** (HDIV; 4 cr.; Student Option; Fall Odd Year) Exploration of the events and policies that sought to eliminate American Indian communities and cultures and the strategies that American Indians developed to survive. Students gain insight into the social, political, and economic history of the United States and ongoing tensions between unity and diversity that characterize the nation's political economy and social structure. Paradoxes under scrutiny include the degree to which policies claiming to emancipate actually imprisoned and prisons became homelands.

**HIST 3360. American Experience in World War II.** (HIST; 4 cr.; Student Option; Periodic Spring) Seven former American Presidents were veterans of World War II and over 175,000 books have been published on this subject alone. Arguably this one event has commanded more attention by writers, filmmakers, and academicians than any other modern historical event. For decades historians have also debated the significance of World War II. After the conclusion of the war, the worldwide devastation and loss of life had reached apocalyptic proportions and new military technologies, like the atom bomb, forever altered the American experience. Scientists and intellectuals, such as Albert Einstein, emerged as new celebrities. Literally every sector of American society and culture had been transformed by World War II. Investigate these questions and more throughout the semester. It is important to note that this course is not a strict military history of the European and Pacific campaigns. Instead, the purpose of this class is to challenge students to grapple with the historic origins and legacies of the war. prereq: jr or sr or instr consent

**HIST 3361. An Environmental and Geographic History of the United States.** (ENVT; 4 cr.; Student Option; Periodic Fall & Spring) A broad examination of how humans interacted with their natural world throughout American history. Combined emphasis on cultural ecology (the study of how various cultural groups shaped the American landscape) with political ecology (the role of the nation’s political economy in driving environmental change). Possible topics include: the Columbian Exchange, European and American Indian conflict, Thoreau and the #32;creation of an environmental ethic, the slaughter of the bison as an ecological tragedy, urbanization and environmental racism, conservation as a political movement and the development of environmental policy, eco-feminism, American religion and the environment, the politics of global climate change. [Note: no credit for students who have received cr for Hist 2361]

**HIST 3402. Representations from the Field: American Indian Ethnography and Ethnohistory.** (HDIV; 4 cr.; Student Option; Periodic Fall) Same as Anth 3402. An analysis of ethnographic and ethnohistorical materials focusing on specific American Indian cultures.

**HIST 3403. American Indian Education: History and Representation.** (E/CR; 4 cr.; Student Option; Fall Even Year) Same as NAIS 4043. Examination of indigenous education in the United States from pre-contact to the late 20th century. Topics include indigenous ways of teaching and learning, efforts to assimilate Native peoples through education, the movement toward educational self-determination within Native communities, and contemporary representations of boarding school experiences. Students also gain insight into the history of the Morris Indian School and its contemporary representation at UMM.

**HIST 3453. The American Presidency, 1789-1900.** (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Growth and development of the U.S. presidency during its first century. Emphasis on selected presidencies such as those of George Washington, Thomas Jefferson, Andrew Jackson, James K. Polk, Abraham Lincoln, and William McKinley.

**HIST 3455. American Immigration.** (HDIV; 4 cr.; Student Option; Periodic Spring) The role of voluntary migration in U.S. history from the late 18th century to the present. Emphasizes on settlement, ethnicity, nativism, transnational issues, and immigration law. Possible topics include European immigrants and “whiteness,” restriction of immigration from Asia, ethnicity and U.S. foreign and military policy, and the varieties of immigration, legal and undocumented, since 1965.

**HIST 3456. History of Religion in America.** (HIST; 4 cr.; Student Option; Periodic Fall & Spring) The history of religion in American life from the perspective of ordinary Americans. Religious diversity receives special emphasis. Topics may include New England witchcraft, the First and Second Great Awakenings, American Indian belief systems, nativism and Anti-Catholicism, religion and politics, immigrant religion and new fundamentalist movements.

**HIST 3465. History of the American Family.** (HIST; 4 cr.; Student Option; Periodic Spring) Examination of the history of the American family from the colonial period to the present. One focus is demographic and explores changes in family size and structure due to economic change and modernization. Also examined are alterated relationships within families, as the nuclear family became more democratic and affectionate, as the position of women within American life changed, as people began to practice different methods of family limitation, and as childhood and adolescence were recognized as distinctive life

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
course phases. Additional topics include the role of class and cultural differences in defining family systems, shifting gender and sexual norms, the rise of unrelated individuals, and the aging of the population, etc.

HIST 3557. East Asia Since 1800. (IP; 4 cr.; Student Option; Periodic Fall & Spring) Examination of the social, political, economic, technological, and cultural changes in East Asia [China, Japan, and Korea] since 1800.

HIST 3612. Social Revolution in 20th-Century Latin America. (HIST; 4 cr.; Student Option; Periodic Fall & Spring) Examination of social revolution in 20th-century Latin America. Particular attention paid to social revolution in Mexico, Bolivia, Cuba, and Nicaragua. Populism, democratic attempts at social revolution, and counterrevolution in other parts of Latin America also considered. Key issues include imperialism, capitalism, communism, nationalism, and the Cold War.

HIST 3613. U.S.-Latin American Relations in Historical Perspective. (IP; 4 cr.; Student Option; Periodic Fall & Spring) Examination of the history of U.S.-Latin American relations from U.S. independence to the present. Focuses on the political, economic, social, and cultural relationships between the two.

HIST 3614. Race and Ethnicity in Latin America. (HDIV; 4 cr.; Student Option; Periodic Fall & Spring) Explore issues of race and ethnicity in Latin America from a historical perspective. Covering the colonial and national periods, examine how ideas of race and ethnicity have intersected with political, economic, and socio-cultural developments in the region. Consider the ways in which race, class, and gender have intersected in Latin America.

HIST 3993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

HIST 4501. Senior Research Seminar in History. (4 cr.; A-F only; Every Fall & Spring) Advanced historical thematic analysis and guided research resulting in an original, substantial paper or project. prereq: 3181, instr consent

HIST 4993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Humanities (HUM)

HUM 1002. Norse Saga. (HUM; 4 cr.; Student Option; Periodic Fall & Spring) Study of medieval sagas, in translation, from Iceland and Norway, and the culture that produced them.

HUM 1006. From the Caesars to the Saints: Walking Ancient Rome. (HIST; 4 cr.; Student Option; Periodic Summer) While taking in the culture of modern-day Italy, students visit important ancient monuments in and around Rome as well as the city's museums. Students read ancient and modern authors, keep a daily journal, give an oral presentation about an ancient site, and write a final paper tying together the knowledge they gain from this program.

HUM 1021. Popular Culture and American Politics. (SS; 3 cr.; Student Option; Every Fall & Spring) This course is an introduction to American politics and popular culture since the 1940’s, exploring the relationship between the two themes. It will especially cover political movements where pop culture plays an important role pushing social change, such as in the civil rights movement, 1960’s counterculture, and feminism. The primary objectives of this course to analyze the popular arts as not just an entertainment source but as a force that is shaped by and subsequently shapes American society.

HUM 1051. Greek Drama. (HUM; 4 cr.; Student Option; Periodic Spring) Study of Greek drama.

HUM 1305. Career Preparation in World Languages. (1 cr. [max 2 cr.]; Student Option; Periodic Fall & Spring) Students advance their understanding of the liberal arts, bilingual skills, and a global and interconnected labor market by developing a professional profile and associated materials in the target language and English including a curriculum vitae (CV), resume, and cover letters. Ideally completed in the junior year to allow ample time for career exploration. Can be repeated once but only one credit may count towards French major or minor.

HUM 1801. Talking about Love, War, Gods, and Politics with Greeks and Romans. (IC; 2 cr.; Student Option; Periodic Fall) Read and discuss important literary dialogues (epic poetry, tragedy, history, and philosophy) from ancient Greece and Rome as a way to explore key topics of the ancient world, including how democracy works (or should work), individuals and their communities, what love is, gender relations, how we can know the divine, and others. prereq: new college student in their first semester of enrollment at UMM

HUM 1805. Myth: From the Page to the Stage. (IC; 2 cr.; Student Option; Periodic Fall & Spring) Grab a thunderbolt and explore the rich tapestry of world mythologies by reading, researching, discussing, creating, and acting. Students familiarize themselves with important myths from various cultures around the world. Students use theatre techniques to creatively engage in classroom role-playing activities as well as projects such as a myth mask, future myth, and a myth collage. At the end of the semester, students perform a short original play focusing on one of the myths studied in class. prereq: new college student in their first semester of enrollment at UMM

HUM 1993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

HUM 2993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

HUM 3043. Thinking Economy and Desire: Introduction to Critical Theory. (HUM; 4 cr.; Student Option; Periodic Spring) Same as Ger 3043. Introduction to the classical canon of critical theory, with a special focus on the Frankfurt School of the early and mid-20th century, including films and works of literature as case studies for interpretation. prereq: soph or higher status or instr consent

HUM 3601. Studies in German Literature. (HUM; 4 cr.; Student Option; Periodic Spring) Same as Ger 3601. Selected readings in German reflecting modern literary trends. Examination of the cultural politics in the evolution of the literature in the formerly divided Germany, using plays, novels, biography, and documentary reports. Deals with questions of literary history, theory, and socio-political structures. Taught in English.

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
HUM 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

HUM 4102. Linguistics for Students of Literature. (HUM; 4 cr.; Student Option; Periodic Spring) Course offers an introduction to language-based approaches to literature. Directed at literature majors (in any language) to enhance close reading through the linguistic analysis of literary language. Topics will include syntax, phonetics, metaphor, speech act theory, sociolinguistics (non-standard dialects), and metrics/prosody. prereq: jr or sr status

HUM 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Interdisciplinary Studies (IS)

IS 1041. Health Sciences Terminology. (2 cr.; Student Option; Every Fall & Summer) A self-study course that has been designed to provide students with a working knowledge of the terminology utilized in the health sciences. There are no formal class sessions. Students take four tests during the term.

IS 1051. Introduction to College Learning Skills. (4 cr.; S-N or Audit; Every Summer) Essential skills for success in higher education. Introduction to computing technology, writing, and math skills. Academic and social skills needed for transition from high school to college. [Note: counts toward the 60-cr general ed requirement] prereq: participation in Gateway Program or instr consent

IS 1061. Mastering Skills for College Success. (2 cr.; S-N only; Every Fall & Spring) Practical assistance to develop efficient, effective learning/academic performance skills. Improve reading, memorization, test-taking, critical thinking; identify academic and career learning styles, motivation, life skills, and their relation to successful academic performance. prereq: instr consent

IS 1071. Systematic Introduction to the Art and Science of Emergency Medical Care. (1; 4 cr.; S-N only; Every Fall & Spring) Introduction to emergency medical care. Develops skills and knowledge to respond appropriately to a medical emergency. (The Stevens County Ambulance Service sets and requires an independent fee.) prereq: registration with the Stevens County Ambulance Service; arrangements must be made by contacting them at 320-589-7421

IS 1091. Ethical and Social Implications of Technology. (E/CR; 2 cr.; Student Option; Every Spring) Description of appropriate technological advances. Historical development related to technology and its development cycle. Discussion of the ethical and social implications of technology.

IS 1802. Music, Education, and the Liberal Arts. (IC; 2 cr.; Student Option; Periodic Fall) What is a liberal arts education, and how does music fit into this idea? How does one succeed in such an environment? Explore the liberal arts approach and the role of music in education. This course also helps students to develop skills that are crucial to success in a liberal arts college environment. prereq: new college student in their first semester of enrollment at UMM

IS 1803. Dangerous Minds: Images of Education in Popular Culture. (IC; 4 cr.; Student Option; Periodic Fall) Are college students always drunk? Do faculty members routinely have affairs with students? Can marginalized students triumph over adversity in high school? Should a college education be free for anyone who wants to attend? Are sports overemphasized in schools? These are only a sampling of the questions the class will explore. Prerequisite: critical lens upon representations of education in popular culture. Through the use of books, films, television, and news stories, students determine if they are being properly represented in today's society or if college really is "Animal House." prereq: new college student in their first semester of enrollment at UMM

IS 1804. Community Engagement: From Volunteerism to Social Justice. (IC; 4 cr.; Student Option; Periodic Fall) Introduction through readings and discussion to multiple frameworks for community engagement. Students are responsible for meeting individual volunteer's and agency's needs through direct volunteerism in engaging in research and direct action intended to create systematic change. In the process of studying these frameworks, students are exposed to a variety of controversies in the service-learning field. Students are also introduced to a Stevens County through field trips to community agencies. Students complete a community engagement project that reflects their academic and professional goals and meets community needs. Projects can range from volunteering directly at an agency to planning a fundraiser or educational event with a partner to completing a manageable community-based research project. [Note: requires off-site meeting times to be arranged] prereq: new college student in their first semester of enrollment at UMM

IS 1806. Bottom Dwellers in an Ocean of Air. (IC; 2 cr.; Student Option; Fall Odd Year) We live on the bottom of an ocean of a mix of gases and vapors which is kept in constant, chaotic motion by uneven heating and planetary rotation, thus evading our control. We, as humans, are often on the defense or in a role of passive adaptation with regard to weather. Are human beings victims or actors on the stage of global atmospheric dynamics? Striving to assemble an answer to this question, students in the course: (1) mine human history for cases in which significant interaction between human society and climate was found; (2) study individual events in which history and weather were intertwined; (3) learn about palaeoclimate research; and (4) pay particular attention on how this interaction between society and atmosphere is shaped in the modern world. The physical principles of weather and climate are introduced as needed for meaningful discussion. prereq: new college student in their first semester of enrollment at UMM

IS 1808. Agents and Agency: Modeling Emergence in the Social Sciences. (IC; 2 cr.; Student Option; Periodic Fall) Agent-based modeling is a computer-based technique for investigating how complex systems can emerge from the behaviors of the people (or other agents) that form the system. Agency is the ability to act according to one's own will, rather than following social and cultural rules of behavior. Can aspects of human societies "emerge" from many simple interactions between agents, constantly repeated? Or are human choices responsible for the structure and attributes of human societies? Is there really a difference, or are these two ways of looking at the same phenomenon? Explore the potential and pitfalls of agent-based modeling as a technique for understanding human societies, through a mixture of readings, discussion, and hands-on development of small-scale computer models. No previous technical or programming experience necessary. prereq: new college student in their first semester of enrollment at UMM

IS 1810. Global Flashpoints. (IC; 4 cr.; Student Option; Periodic Fall) Focus on information literacy by engaging with a select range of unfolding world events. Students are mutually responsible for providing insight and context into these events. The course promotes global citizenship while teaching information literacy skills. prereq: new college student in their first semester of enrollment at UMM

IS 1811. Beyond Shushing: Libraries in the 21st Century. (IC; 2 cr.; Student Option; Periodic Fall) Through readings, discussion, writing, and a service learning project, this class explores the role of libraries and literacy in the 21st century, focusing on the cultural, intellectual, and economic value of literacy. [Note: off campus meetings required] prereq: new college student in their first semester of enrollment at UMM

IS 1812. As We Beg, Borrow, and Steal: Sampling, Quoting, and Appropriation in the Digital Age. (IC; 2 cr.; Student Option; Periodic Fall) Explore the history of borrowing, quoting, sampling, and appropriation in the creation of cultural artifacts such as visual arts, music, writing, film, and scientific research, as well as the impact of digital technologies on these trends today. Students create new artifacts using appropriation techniques to both illustrate and comment on these issues. prereq: new college student in their first semester of enrollment at UMM

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
IS 1814. Big Ideas in Science. (IC; 2 cr.; Student Option; Periodic Fall)
Explore big ideas in science, including the major theories that are the foundations of our current understanding of the universe. Delve into Atomic Theory, Plate Tectonics, Periodic Law, Evolution, and the Big Bang Theory. prereq: new college student in their first semester of enrollment at UMM

IS 1816. Why We Eat What We Eat. (IC; 2 cr.; Student Option; Periodic Fall)
Explores the biological, historical, and cultural origins of eating patterns in the United States and the wider world and the health and environmental consequences of those eating patterns. Students document and reflect upon their own eating patterns and culinary traditions. Current controversies in food production and nutrition are examined. [Note: one evening meeting required] prereq: new college student in their first semester of enrollment at UMM

IS 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 2001H. Honors: Traditions in Human Thought. (HUM; 2 cr.; Student Option; Every Fall)
A study of a selection of significant works from history, literature, philosophy, science, and religion across continents from the earliest writings to the present day. Critical reading, writing, and discussion in an interdisciplinary context are emphasized. prereq: participation in the Honors Program or instr consent

IS 2023. Fine and Performing Arts of London. (FA; 2 cr. [max 6 cr.]; Student Option; Periodic Summer)
A 14-day arts and culture tour of London. Admission to major museums and theatres highlights the diversity of London’s arts and cultural traditions. Includes tours of the city: Buckingham Palace, Westminster, St. Paul’s Cathedral, Abbey Road, Carnaby Street, and Portobello Road. Provides tickets for a variety of theatrical performances: Shakespeare’s Globe Theatre, the National Theatre, and the West End. Museum entry covers: the British Museum, National Portrait Gallery, Hayward Gallery, Tate Modern, Victoria and Albert Museum, and Tate Britain.

IS 2024. Linking the Global with the Local: Development in Nepal. (IP; 6 cr.; Student Option; Periodic Summer)
Introduction to the study of international development as present in the country of Nepal. Throughout this course, students explore and discuss power relations and systems of inequality within the context of global, national, and local social development efforts. Specifically, the course explores the historical construction of terms such as “social development” and “sustainable development.” Students gain insight into the impact of international and national development efforts on a macro-level (e.g., social institutions such as the United Nations and the Government of Nepal) and on a micro-level (e.g., local community development groups). Through these activities, students recognize the diversity of people’s and communities’ experiences and participation/activism in these efforts as shaped by gender, race, ethnicity, caste, social class, region, and religion. Students engage in critical thinking, writing, reflection, and dialogue through both written and oral assignments, as well as cooperative group work throughout the course.

IS 2035. Aging and Healthcare in Greece: Comparative Cultural Practices and Social Policy. (IP; 4 cr.; Student Option; Periodic Spring)
International service-learning course in Athens and the island of Ikaria that explores cross-cultural differences between Greece and the United States in the meaning and experience of aging and the delivery of healthcare, as well as in the social and institutional supports for the aging population. Focus on the role of the community and public sector in promoting optimal aging in rural areas. Students spend two hours per day in the classroom and 4-6 hours per day at a nursing home and rural hospital.

IS 2039. Understanding Cuba. (IP; 2 cr.; A-F only; Periodic Spring)
A two-week study-abroad course in Cuba led by two UMM faculty members from various disciplines on a rotating basis. Itineraries and syllabi vary depending on the coordinating faculty, but each iteration of the course includes experiential learning, classroom instruction, excursions, and guest speakers in Havana and other Cuban locations.

IS 2044. Chasing the Plague in Edinburgh: Scientific and Literary Perspectives on Infectious Disease. (IP; 4 cr.; A-F only; Periodic Summer)
Exploration of the scientific history and literature of plagues in Scotland, with a special focus on Edinburgh. As a city ravaged by the plague twice, Edinburgh represents the ideal location to explore how infectious disease has shaped and continues to shape culture, architecture, history, and identity. Students spend four weeks in residency in Edinburgh discovering the city, gaining a first-hand understanding of its literary and scientific history, and occasionally traveling to nearby sites. Through a mixture of in-classroom lectures and reading discussions, site-specific activities around the city, and trips to related areas, students gain a greater understanding of the impact infectious disease can have on a population. In addition to engaging literarily with the plague, students are also introduced to related topics in immunology and explore current research on the prevention and treatment of infectious diseases.

IS 2102. Research Success Seminar. (1 cr.; S-N only; Every Fall)
A one-credit seminar that introduces McNair Scholars to academic research and communication. Scholars write a research proposal, learn literature searching skills, prepare to carry out research with a faculty mentor, and learn how to prepare for the GRE. prereq: instr consent

IS 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 3001. Career Skills for STEM Majors. (1 cr. [max 2 cr.]; S-N only; Periodic Fall)
Targets the career know-how specific for the STEM fields as identified by professional organizations. This includes, in particular, competence in career exploration, identification of a skill set, the matching of skill set and opportunity, the building of a resume, and interview skills. The course facilitates visits by guests, in particular alumni and scientists in industrial and other non-academic positions. Students identify their strengths and weaknesses, and explore career options using the career sites of professional organizations in their field. Includes mock interviews, searches for summer internships and research opportunities, and the preparation of appropriate application materials. Learn to market career skills (strong liberal arts skills: teamwork, communication, languages, and leadership) in the STEM fields, and build an informed and targeted basis for course choice in the upper levels. Connect students with on-campus and professional organization resources. Intended for junior STEM students. (Half semester, 50 min lecture and 50 min arranged time) prereq: Division of Science and Math major, jr status

IS 3053. Irish Texts and Contexts. (ENV'T; 4 cr.; Student Option; Periodic Summer)
This study abroad course explores the intimate relationship between Irish literature and the spaces in which it developed, from the geographical features that gave prehistoric Irish myths their shape to the large estates that produced poets like William Butler Yeats. The course involves three weeks of travel to many different locations throughout Ireland.

IS 3103. Graduate Success Seminar. (1 cr.; S-N only; Every Fall)
Prepares students for application and admission to graduate school. Emphasis on writing and professional skill development. prereq: admission to the McNair Program

IS 3104. Sustaining Community: Stewardship, Leadership, and Social Change. (E/CR; 4 cr.; A-F only; Every Spring)
Study leadership theories, social action, and community engagement. Gain familiarity with local issues related to sustainability and environmental stewardship through participation in regional tours and engaging with guest speakers. In collaboration with stakeholders in the regional community, students design and implement a community-engaged learning project to address a regional community need. prereq: EnSt 1101 or instr consent

IS 3110. Rural Community Field Project: Center for Small Towns. (SS; 1-6 cr.; S-N only; Periodic Fall & Spring)
An educational experience in a rural learning environment that focuses on rural issues of community life, demography, culture, environment, and policy. A collaborative effort between Center for Small Towns and a public rural entity provides a structured environment in which civic engagement objectives are achieved and grounded in a practical setting. Students gain a valuable understanding about the historical social structures of rural society and witness these structures firsthand. [Note: meets the SS general education requirement if taken for 2 or more cr] prereq: instr consent

IS 3111H. Honors: The End of the World as We’ve Known It: The Apocalypse Then and Now. (SS; 2 cr.; Student Option; Periodic Spring)
Exploration of the occasions and representations of apocalyptic views, focusing on the historical, political, and psychological implications. Antecedents and effects of end-of-the-world prophecies are explored through the use of popular culture (e.g. music, science fiction, other media), writings from across cultural and religious frames of reference, and various historical, political, and psychological resources. prereq: participation in Honors Program or instr consent

IS 3123. Living With Intention: Vocation, Community, and Social Change. (E/C; 4 cr.; Student Option; Periodic Summer)
“Vocation is the place where our deep gladness meets the world’s deep need,” philosopher and storyteller Frederick Buechner wrote. Through career assessments, readings, reflective writing, service-learning, and a final cumulative project, this course provides a context for exploring the change individuals might make in their communities through work and civic engagement.

IS 3203H. Honors: A Cross-Section of the Enlightenment. (HIST; 2 cr.; Student Option; Periodic Fall & Spring)
A cross-section of the cultural and intellectual history of the 18th century. Figures to be studied may include Descartes, Newton, Locke, Hume, Hobbes, Rousseau, Voltaire, Lavoisier, d’Holbach, and Blake. prereq: participation in Honors Program or instr consent

IS 3204H. Honors: Ecological Health and the Sustainability of Common-Property Resources. (ENVT; 2 cr.; Student Option; Periodic Fall & Spring)
Exploration of “sustainability” from the perspective of economics and ecology. Examples may include ocean fisheries, the rain forest, the introduction of alien species, and the global climate. prereq: participation in Honors Program or instr consent

IS 3206H. Honors: Introduction to Game Theory. (M/ST; 2 cr.; Student Option; Periodic Fall & Spring)
Introduction to the formal theory of strategic interaction and to the intuitions behind the theory. Applications to a selection of problems in the natural and social sciences, such as biological evolution, tacit collusion in pricing, strategic behavior in international relations, and strategy in legislative voting. [Note: credit will not be granted if credit has been received for Econ 3014] prereq: participation in the Honors Program, high school higher algebra or instr consent

IS 3209H. Honors: Apocalypse Now? The Science and Policy of Preparing for a Catastrophe. (ENVT; 2 cr.; Student Option; Periodic Fall & Spring)
Popular visions, policy response, and scientific underpinnings of potentially catastrophic societal problems past and present. Do we worry about the right things? How do scientists, politicians, and purveyors of popular culture assess which threats warrant attention? (two 50-min lect/disc plus multiple evening film screenings) prereq: participation in Honors Program or instr consent

IS 3211H. Honors: Republic or Empire? The American 1890s. (HIST; 2 cr.; Student Option; Periodic Fall & Spring)
The 1890s are often seen as a cultural watershed for the United States. Depression, political movements, and a “splendid little war” against Spain are represented only the surface of a decade which altered aspects of race, class, gender, and literary sensibility. prereq: participation in the Honors Program or instr consent

IS 3212H. Honors: Global Encounters and the Making of the Contemporary World, 1450 to the Present. (HDIV; 2-4 cr.; Student Option; Periodic Spring)
An exploration of the initial interaction among the indigenous people of Africa and the Americas with the people of Europe. Parallel immediate and long-term effects of these initial encounters are identified and discussed. prereq: high school higher algebra, participation in Honors Program or instr consent

IS 3214H. Honors: Evolution and Culture of Human Aggression. (HUM; 2 cr.; Student Option; Periodic Fall)
Exploration of aggression in medieval literature and culture and theorization about the adaptiveness of aggression. Group and individual aggression expressed by humans living under current conditions is explored from a cultural and evolutionary perspective. prereq: participation in Honors Program or instr consent

IS 3215H. Honors: Sagas before the Fall: Culture, Climate, and Collapse in Medieval Iceland. (ENVT; 2 cr.; Student Option; Periodic Fall & Spring)
Exploration of the literary and physical record of society in Viking-age Iceland from its settlement during the Medieval Warm Period, through centuries of environmental degradation and changing religion, to the onset of the Little Ice Age and the end of the Icelandic free state. prereq: participation in Honors Program or instr consent

IS 3216H. Honors: Perspectives on Disability in Contemporary American Life. (HDIV; 2 cr.; Student Option; Periodic Fall & Spring)
Introduction to the interdisciplinary field of disability studies, which favors a social rather than medical approach to understanding difference. History and struggle for civil rights, identity issues, contemporary controversies, and exploring the frontiers of one’s own interest in disability by means of a service learning project. prereq: participation in Honors Program or instr consent

IS 3217H. Honors: The Trial of Galileo. (HIST; 2 cr.; Student Option; Periodic Spring)
The dispute between Galileo and the Inquisition produced one of history’s most notorious trials, an enduring symbol of the struggle between science and religion. Study of the complicated history behind the myth by re-creating the trial and learning about the theology, science, and cultural politics of this tumultuous period. prereq: participation in Honors Program or instr consent

IS 3234H. Honors: Intersections of Art and Science. (FA; 2 cr.; Student Option; Periodic Spring)
Explores the intersection of scientific discovery and aesthetic innovation, especially the ways in which scientists and artists have influenced one another’s work. Examines the ways in which these different pursuits value notions of creativity. prereq: participation in Honors Program or instr consent

IS 3235H. Honors: Politics and Film. (HUM; 2 cr.; Student Option; Periodic Spring)
Explores age-old questions of political science and philosophy—what is justice, what does citizenship mean, what is power, how do we relate to the “other”—through the lens of film. Examines American and foreign films and a variety of filmmakers to analyze effects of different cinematic and narrative techniques on our interpretations. prereq: participation in Honors Program or instr consent

IS 3236H. Honors: Representations of Writers and Artists. (HUM; 2 cr.; Student Option; Periodic Fall)
An interdisciplinary approach is used in exploring the varied ways writers and artists are represented in books, television, film, and other media, comparing these representations with the lives and experiences of contemporary working writers and artists. prereq: participation in the Honors Program or instr consent

IS 3237H. Honors: The Power of Place: An Interdisciplinary Approach to Where We Live. (ENVT; 2 cr.; Student Option; Periodic Spring)
Goes beyond the image and myth of Lake Wobegon in examining the past and present of West Central Minnesota. An intensely interdisciplinary focus on environmental, social, political, and economic change and how modern global forces play out in this specific setting. Community leaders and experts play an active role in lecture and discussion. prereq: participation in the Honors Program or instr consent

IS 3238H. Honors: In Search of Nietzsche. (IP; 4 cr.; Student Option; Periodic Fall)
In this interdisciplinary course, read some books by and novels about Nietzsche in order to discover who this remarkable man was.

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
This honors class explores the world of pseudoarchaeology and archaeological fraud, from Atlantis to aliens. Discuss why myths and pseudoscience are so prevalent in popular representations of the past, and whose interests are served by them. Students engage in scientific outreach through the media of their choice to spread the word about archaeological truth and fiction. prereq: participation in the Honors program or instr consent

IS 3246H. Honors: Science, Poetry, and the Great War. (SCI; 4 cr.; Student Option; Periodic Fall) Theory of atoms and the rise of quantum theory in the years bracketing those of World War One, 1914-1918. The War as reflected in the lives of Wilfred Owen, Siegfried Sassoon, Isaac Rosenberg, Robert Graves and others.

IS 3247H. Honors: Heroes of Ancient Greece and Rome. (HUM; 2 cr.; Student Option; Periodic Fall) Explore several types of heroes found in ancient Greek and Roman mythology and literature. Discuss such questions as: What makes a character a hero? What kinds of real-world issues did literary heroes help Greeks and Romans think about? Were they meant to be emulated? How might they be relevant to the modern world? prereq: participation in Honors Program or instr consent

IS 3248H. Honors: Art and History of the Crusades. (FA; 2 cr.; Student Option; Periodic Fall) The Crusades mark a crucial turning point in the Christian West's interaction with the Holy Land that still has immense repercussions to this day. The focus of this co-taught honors course is the multi-layered intersections between the history of the Crusades and the "Western" kingdoms established in the eastern Mediterranean (c. 1099-1291 CE) and the art and architecture produced there. prereq: participation in the Honors Program or instr consent

IS 3249H. Honors: Literature Through Opera. (FA; 2 cr.; Student Option; Periodic Fall) Opera is often a musical staging of a preexisting story from literature or theater. While it combines music, drama, and visuals like film, opera is fundamentally different in that the audience already knows the story on which the opera is based. What do composers and librettists hope to add to their audience's understanding of a work they already know by setting it to music? Explore this cultural question through close examination of works of literature and the operas on which they are based. prereq: participation in Honors Program or instr consent

IS 3250H. Honors: Moral Sentimentalism. (HUM; 4 cr.; A-F only; Periodic Spring) An examination of the foundations of morality. Classical and contemporary readings are juxtaposed with emerging interdisciplinary research on topics such as empathy, altruism, game theory, psychopathy, and disgust. prereq: participation in the Honors Program or instr consent

IS 3251H. Honors: Chariots and Gladiators: Ancient Greek and Roman Athletics. (HIST; 2 cr.; Student Option; Periodic Spring) Explore aspects of Greek and Roman sport by reading ancient accounts and modern scholarship. Discuss questions such as: how were athletic events linked to religion? What role did women have at these events? How were victors honored? What happened at a gladiator show? Who organized games? How do ancient competitions influence modern athletics? prereq: participation in Honors Program or instr consent

IS 3252H. Honors: Archaeoastronomy. (SCI; 2 cr.; Student Option; Periodic Fall & Spring) Archaeoastronomy investigates the incorporation of solar, lunar, planetary, and stellar observations into various ancient cultures. European, North American, and Central American cultures are presented. Students have the opportunity to investigate the effects of astronomical phenomena on a particular culture or location of their choosing. Night viewing sessions are required. prereq: participation in the Honors Program or instr consent

IS 3253H. Honors: Honoring Native Treaties: Human Rights and Civic Responsibilities. (E/CR; 2 cr.; Student Option; Periodic Fall) Examination of North American Indigenous treaties with Canada and the United States, the human rights concerns those treaties bring into focus, and the civic responsibilities the treaties entail. Includes both historical treaty issues, such as the 1868 Treaty of Fort Laramie and its implications for the ownership of the Black Hills, the 1851 Treaty of Traverse de Sioux and the Dakota War of 1862, and more current movements tied to treaty obligations. Survey of leaders and leadership styles in both historic treaty negotiations and contemporary indigenous rights movements. prereq: participation in Honors Program or instr consent

IS 3253H. Honors: Honoring Native Treaties: Human Rights and Civic Responsibilities. (E/CR; 2 cr.; Student Option; Periodic Spring) Examination of North American Indigenous treaties with Canada and the United States, the human rights concerns those treaties bring into focus, and the civic responsibilities the treaties entail. Includes both historical treaty issues, such as the 1868 Treaty of Fort Laramie and its implications for the ownership of the Black Hills, the 1851 Treaty of Traverse de Sioux and the Dakota War of 1862, and more current movements tied to treaty obligations. Survey of leaders and leadership styles in both historic treaty negotiations and contemporary indigenous rights movements. prereq: participation in Honors Program or instr consent

IS 3254H. Honors: The Prairie: What It Was, What It Is, What It Can Be. (ENVT; 2 cr.; A-F only; Periodic Fall) Examination of the history, biology, and literature of the prairie. Through field trips, readings, and writing, students understand one of the great ecosystems in North America, one that has almost disappeared (less than
1% of the prairie remains in Minnesota, but one that has influenced our region in ways obvious and not-so-obvious. We ask what our responsibilities are to the prairie and its future. prereq: participation in Honors Program or instr consent

IS 3255H. Honors: Machine Learning in Society: Who Trains Whom?. (SS; 2 cr.; Student Option; Periodic Spring) Challenges to the view that algorithms are fair and unbiased. Discussion of key machine learning mechanisms and the role of training data in determining algorithms’ outcomes. Exposure of how data rooted in current social processes may introduce biases into machine learning, which perpetuates these biases in society.

IS 3256H. Honors: White City, White Countryside: An Economic and Environmental Geography of the Upper Midwest. (; 2 cr.; A-F only; Periodic Spring) An interdisciplinary honors course examining the emergence of Chicago as the commercial hub for the midwest following European settlement. Focus on the commodities (lumber, wheat, beef, etc.), the technologies (railroads, shaft power, grain elevators, etc.), and the social innovations (the Chicago Board of Trade, futures markets, etc.) that integrated countryside and city in an unprecedented economic and environmental transition. prereq: participation in Honors Program or instr consent

IS 3710. Peer Tutoring in College. (; 1 cr. [max 3 cr.]; S-N only; Every Fall) Tutor students in selected courses.

IS 3720. Tutoring Writing Across the Disciplines. (1-2 cr. [max 6 cr.]; S-N only; Every Fall & Spring) Tutor student writers at the Writing Room; meet regularly with other tutors for ongoing training in peer writing tutoring. prereq: Engl 1601 (or 1011) or equiv, soph standing, instr consent, coreq Engl 3005 for students in their first sem at the Writing Room

IS 3796. Interdisciplinary Internship in the Helping Professions. (1-16 cr. [max 32 cr.]; S-N only; Every Fall, Spring & Summer) One-semester educational experience providing field applications in the helping professions (social work, counseling, casework, child protection services, educational settings, human resource counseling, and the like) for the student’s theoretical classroom learning experiences. Prereq-Psy 4102, approved internship form; Psy 4101 recommended.

IS 3800. Practicum in Social Sciences. (1-2 cr. [max 4 cr.]; S-N only; Every Fall & Spring) Supervised experience of selected learning activities such as discussion group leader, lab assistant, research assistant, or other teaching-related activities. prereq: approved practicum form

IS 3810. Practicum in the Humanities. (1-2 cr. [max 4 cr.]; S-N only; Every Fall & Spring) Supervised experience of selected learning activities such as discussion group leader, test review leader, research assistant, or other teaching-related activities. prereq: approved practicum form

IS 3820. Practicum in Education. (1-2 cr. [max 4 cr.]; S-N only; Every Fall & Spring) Supervised experience of selected learning activities such as discussion group leader, test review leader, research assistant, or other teaching-related activities. This course does not meet a field experience requirement for teacher preparation programs.

IS 3893. Prior Learning Directed Study. (1-4 cr. [max 10 cr.]; Student Option; Every Fall & Spring) Individualized learning project combining prior learning with faculty-directed new learning, awarding academic credit for both. (When content is discipline-related, discipline designation will appear on transcript and credit may count toward appropriate general education requirement category.)

IS 3896. Prior Learning Internship. (1-16 cr. [max 32 cr.]; S-N only; Every Fall & Spring) An educational experience in a work environment providing field application for the student’s theoretical classroom learning experiences. The prior learning internship, such as in social service or business settings, occurred prior to the student’s matriculation. The prior learning is documented and combined with faculty-directed new learning, with credit awarded for both.

IS 3991H. Honors Co-Curricular Internship. (; 1-2 cr.; A-F only; Every Fall & Spring) Co-curricular honors credits may be earned by writing a paper that explores a co-curricular experience such as study abroad, off-campus internship, national student exchange, service-learning, or directed research. Students pursuing this option must seek pre-approval. Projects are directed and assessed by the Honors Director.

IS 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 3996. Interdisciplinary Internship. (1-16 cr. [max 32 cr.]; S-N only; Every Fall, Spring & Summer) One-semester educational experience in a work environment providing field applications for the student’s theoretical classroom learning experiences.

IS 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 4994H. Honors Capstone Project. (; 2 cr.; Student Option; Every Fall & Spring) A substantial scholarly or creative interdisciplinary work designed by the student working cooperatively with a project adviser. Upon completion, the project is defended before a panel of faculty from different disciplines. Successful completion of the honors capstone project is one of the requirements for graduating from UMM "with honors."

Italian (ITAL)

ITAL 1001. Beginning Italian I. (; 4 cr.; Student Option; Every Fall) Introduction to Italian as it is presently spoken and written. Basic sounds, structures, and vocabulary of Italian. Understanding, reading, and writing the language and communicating in Italian about everyday situations. Relationship between culture and language.

ITAL 1002. Beginning Italian II. (FL; 4 cr.; Student Option; Every Spring) Continuation of 1001. prereq: 1001 or placement or instr consent

ITAL 1104. Major Works of Italian Literature in Translation from the Middle Ages to the Present. (HUM; 4 cr.; Student Option; Periodic Spring) Survey of Italian literature from the Middle Ages to the present. Attention given to major works of narrative, poetry, and drama of various periods. Emphasis on ground-breaking works that constituted a challenge to prevailing literary and cultural values. This course is conducted in English; all texts will be read in English translation.

ITAL 1105. Italian Cinema. (IP; 4 cr.; Student Option; Periodic Spring) Study of Italian cinema from the silent era to the present, focusing on significant genres and directors, as well as on critical approaches to film studies. Taught in English; all films have English subtitles.

ITAL 1311. Modern Italy through Literature and Film. (HUM; 4 cr.; Student Option; Periodic Spring) The political, social, and cultural transformations of Italy from 19th-century unification to contemporary issues of immigration and multiculturalism as reflected in literature and film. Topics include forging a national identity; Fascism, the Resistance and post-war period; the "southern question"; the "economic miracle"; current cultural issues.

ITAL 1331. The Eternal City: The Language and Culture of Rome I. (FL; 4 cr.; Student Option; Periodic Summer) Beginning course for UMM study abroad in Rome, Italy. Four weeks of Italian language together with the art and literature of Rome. Emphasis on works of art, literature, and film belonging to several periods and addressing the history and character of the city. Excursions to relevant sites in and near Rome. No previous experience in Italian required.

ITAL 1801. Rome: The City in Literature and Film. (IC; 2 cr.; Student Option; Periodic Fall) Study of representations of the city of Rome in significant works of Italian literature and film. Topics include the rhetorical construction of national and cultural identities, the individual’s relationship to fictional and lived space, the city as stage for major cultural and political preoccupations of contemporary Italy.
Conducted in English. prereq: new college student in their first semester of enrollment at UMM

ITAL 1802. Italian Cultural Landscapes: Migration and the Environment in Literature and Film. (IC; 2 cr.; Student Option; Periodic Fall)
The study of depictions of migration in works of Italian literature and film, with emphasis on the interactions between humans and the natural and constructed spaces they inhabit. Topics include internal migration, diasporic communities within Italy, and contemporary migration to Italy and Europe. Conducted in English. prereq: new college student in their first semester of enrollment at UMM

ITAL 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ITAL 2001. Intermediate Italian I. (IP; 4 cr.; Student Option; Periodic Fall & Spring)
Continued development of listening, reading, writing, and speaking skills; review of the fundamental elements of the Italian language. Emphasis on authentic cultural and literary texts appropriate to this level. prereq: 1002 or instr consent

ITAL 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ITAL 3331. The Eternal City: The Language and Culture of Rome II. (IP; 4 cr.; Student Option; Periodic Summer)
Advanced course for UMM study abroad in Rome, Italy. Four weeks of Italian language together with the art and literature of Rome. Emphasis on works of art, literature, and film belonging to several periods and addressing the history and character of the city. Excursions to relevant sites in and near Rome. Prereq: 1302 or equiv.

ITAL 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ITAL 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Language (LANG)

LANG 1061. Writing in the American University I. (3 cr.; Student Option; Every Fall & Spring)
Writing course for non-native speakers of English at the advanced level, developing competency in standard written English with a focus on development of paragraphs, exploration of the writing process, and experience with various rhetorical styles of essays in preparation for the demands of classroom writing.

LANG 1062. Reading in the American University. (2 cr. [max 4 cr.]; S-N only; Every Fall & Spring)
For non-native speakers of English. Course focuses on developing and reinforcing essential reading skills including vocabulary strategies/word studies; identifying elements of the text to support comprehension; critical thinking and analysis; and more micro-skills such as predicting, skimming, scanning and inferring. prereq: non-native speaker of English, instr consent

LANG 1063. Academic Culture and Oral Skills in the American University. (2 cr. [max 4 cr.]; S-N only; Every Fall & Spring)
For non-native speakers of English. Designed to assist international students with the transition from the social/educational systems in their own cultures to the social/educational systems in the United States. Primary focus on oral skills; coursework focuses on class participation, discussion, note-taking, and critical thinking. prereq: non-native speaker of English, instr consent

LANG 1064. Preparing for the American Liberal Arts Classroom. (3 cr.; S-N only; Every Summer)
Prepares international students for norms and rigors of English-language, liberal arts college classroom. Includes preparation in language/academic skills of reading, writing, oral skills; exposure to disciplines that compose liberal arts; developing familiarity with cultural norms of a U.S. classroom; contextualization of topics through field trips. prereq: non-native speaker of English; admission to UMM, instr consent

LANG 1065. Grammar in Context. (1 cr. [max 2 cr.]; S-N or Audit; Every Fall & Spring)
This course is intended to support writing as students begin their academic studies. The course refreshes prior grammar learning; builds competency in more advanced clause structures such as noun clauses, adverb clauses, and conditionals; and strengthens competency in areas of mechanics, such as the use of commas and other common punctuation related to specific writing conventions. A regular part of the course is identification and revision of these areas in the student's own written work. prereq: non-native speaker of English, #

LANG 1071. Writing in the American University II. (3 cr.; Student Option; Every Fall & Spring)
Writing course for non-native speakers of English at the advanced level, mastering competency in standard written English. Builds on prior work in Lang 1061, continuing work on essay compositions, strong support and basic writing fluency. prereq: 1061, instr consent

LANG 1101. Introduction to Norwegian Language and Culture I. (IP; 4 cr.; Student Option; Periodic Summer)
An introduction to the contemporary Norwegian language (Bokmål) standard along with the culture and recent history of Norway, taught by a native speaker. Activities cover all four modes of listening, speaking, reading comprehension, and writing.

Language Education Methods (LANE)

LANE 4123. Methods of Teaching Foreign Language K-12. (4 cr.; A-F only; Every Fall) Objectives, curricula, special methods, materials, and evaluation appropriate for teaching foreign language in K-12. prereq: admission to the SeEd or ElEd teacher education program; coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105 or prereq ElEd 3202, ElEd 3212

Latin (LAT)

LAT 1001. Beginning Latin I. (4 cr.; Student Option; Every Fall)
Study of Latin vocabulary and structures in order to attain basic reading and writing competence; practice in oral recitations and compositions. Introduction to ancient Roman history and culture.

LAT 1002. Beginning Latin II. (FL; 4 cr.; Student Option; Every Spring)
Continuation of 1001. prereq: 1001 or placement or instr consent

LAT 1993. Directed Study. (1-5 cr. [max 50 cr.]; Student Option; Every Fall, Spring & Summer)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

LAT 2001. Intermediate Latin I. (3 cr.; Student Option; Every Fall & Summer)
Introduction to Latin prose authors of 1st centuries BCE/CE. Readings of continuous passages of unlabeled Latin texts (history, speeches, letters). Review of grammar/vocabulary as needed. Some discussion of major themes/issues in Roman culture as illustrated by texts. prereq: grade of at least C- or S in 1002 or instr consent

LAT 2002. Intermediate Latin Poetry. (HUM; 4 cr.; Student Option; Every Spring)
Introduction to Roman epic poetry. Readings of selections from Vergil's Aeneid. Quantitative meter and poetical devices. Discussion of major themes and issues as developed in Vergil's poetry. prereq: grade of at least C- or S in 2001 or instr consent

LAT 2993. Directed Study. (1-5 cr. [max 50 cr.]; Student Option; Periodic Fall, Spring & Summer)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

LAT 3993. Directed Study. (1-5 cr. [max 50 cr.]; Student Option; Periodic Fall, Spring & Summer)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.

289
LAAS 1993. Directed Study. (1-5 cr. [max 50 cr.]; Student Option; Periodic Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

LAAS 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

LAAS 3100. Contemporary Latin America. (1 cr. [max 8 cr.]; Student Option; Every Fall & Spring) Opportunity for LAAS majors to read about and discuss in historical and cultural contexts the more important contemporary developments in Latin America. [Note: to be repeated each sem a student is in residence; only 4 cr may apply to LAAS major] prereq: LAAS major

LAAS 3201. Bibliographical Tools and Journals in Latin American Area Studies. (2 cr.; Student Option; Periodic Fall & Spring) For the student new to the major. Introduction to the standard bibliographical tools and journals in Latin American area studies. prereq: LAAS major

LAAS 3204. Latin American Area Studies Capstone. (4 cr.; Student Option; Periodic Fall & Spring) A capstone experience for LAAS majors. Individual reading and development of an original research paper in consultation with the LAAS coordinator. With approval of the LAAS coordinator and another faculty member, a capstone experience in a different discipline that contains primarily Latin American content may be wholly or partially substituted for LAAS 4901, but requires completion of four total credits. prereq: 3201, Sr LAAS major, instr consent

MGMT 1011. Fundamentals of Personal Finance. (SS; 2 cr.; Student Option; Periodic Fall & Spring) An introduction to financial concepts to help students become financially literate and make informed financial decisions. Covers the financial planning, budgeting, cash flow, and savings approaches that can be used in everyday life, as well as the advantages and disadvantages of credit and the importance of managing debt. The role of health care in financial planning is introduced. Includes a brief introduction to investment and retirement planning using financial instruments such as savings accounts, bonds, stocks, and mutual funds. Attention is given throughout to insights from behavioral economics, which suggests that while the perfectly rational individual may be a relevant benchmark, most people actually need practical methods that the imperfectly rational person can use to improve financial decision-making.

MGMT 2101. Principles of Accounting I. (1 cr.; Student Option; Every Fall) An introductory course in accounting principles and practices. Students develop an understanding of both the conceptual and procedural framework of accounting processes. Emphasis is placed on the preparation and communication of accounting information and the financial statements for proprietorships and partnerships.

MGMT 2102. Principles of Accounting II. (2 cr.; Student Option; Every Spring) A continuation of Principles of Accounting I. Students develop an understanding of the issues unique to corporations and organizational financing. Cash flow statements and performance analysis are also emphasized. prereq: 2101

MGMT 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MGMT 3101. Financial Management. (4 cr.; Student Option; Every Fall) Fundamental theories of financial management, their applications, and their limitations in solving real business problems. Emphasis on financial analysis, valuation of future cash flows, capital budgeting, risk and return, cost of capital. prereq: 2102, Econ 1111, Econ 1112, Stat 1601, Stat 2601

MGMT 3102. Financial Institutions. (2 cr.; Student Option; Periodic Fall & Spring) An introduction to the functioning and management of financial institutions such as the banking industry, mutual fund industry, insurance companies, pension funds, investment banks, and venture capital firms. prereq: 2101, Econ 1111, Econ 1112

MGMT 3123. Managerial Economics. (4 cr.; Student Option; Every Spring) Development of the basic concepts of the microeconomic theories of consumer behavior, the firm, and market structure, in application to managerial decision-making contexts in the operation and control of business and non-profit organizations. [Note: no credit for students who have received credit for Econ 3201] prereq: 2101, Econ 1111, Math 1101 or Math 1021, Stat 1601 or Stat 2601 or instr consent

MGMT 3127. Supply Chain Logistics Management. (4 cr.; Student Option; Periodic Fall & Spring) An understanding of supply chain logistics is developed which emphasizes the total cost concept of logistics and trade-off analysis both within and between components such as transportation, facilities location, and inventory management. Management decision tools are developed that address these trade-offs in the context of other management considerations such as the firm's marketing and service strategies. prereq: Econ 1111, Math 1021 or Math 1101, Stat 1601 or Stat 2601

MGMT 3133. Managerial Accounting. (4 cr.; Student Option; Periodic Fall & Spring) Managerial accounting is designed to help managers assess needed information to carry out three essential functions in an organization: planning, operations, controlling activities, and making decisions. The emphasis of this course is placed on cost behaviors, various product costing methods, cost-volume-profit relationships, budgeting and control through standard costs, and other quantitative techniques used by management. prereq: 2102

MGMT 3134. Cooperative Business Model. (2 cr.; Student Option; Periodic Fall & Spring) Same as Econ 3134. In the northern plains of the United States, cooperative businesses, including consumer, producer, and worker cooperatives, have made significant contributions to economic growth and development. Identify the unique economic, legal, and organizational characteristics of these firms and their role in the economy. Special attention is given to the potential role of cooperative business organizations in community development. prereq: Econ 1111 or instr consent

MGMT 3141. Business Law: The Legal Environment of Business. (2 cr.; Student Option; Periodic Fall & Spring) Introduction to the legal environment in which business operates. Covers the sources of regulatory authority, including U.S. constitutional authority, judicial authority, and state and local regulatory systems; ethical business decision-making; tortious acts in the business world, intellectual property, and an introduction to contract law. prereq: 2101 or instr consent

MGMT 3142. Business Law: Sales Law, Commercial Paper, and Forms of Business. (2 cr.; Student Option; Periodic Fall & Spring) Covers sales law under the Uniform Commercial Code; negotiable instruments (i.e., the law of commercial paper); and principles...
of agency law. Provides an introduction to a wide variety of business organizational forms with in-depth emphasis on partnerships, limited partnerships, limited liability corporations, corporate law, and securities law and regulation. This class complements MGMT 3141, and may be taken with or without having first taken 3141. prereq: 2101 or instr consent

MGMT 3151. Human Resources Management I. (E/CR; 2 cr.; Student Option; Periodic Fall & Spring) An introduction to the functional areas of human resource management through the use of case studies. Topics include legal issues, strategic and sustainability planning, recruitment, evaluation, compensation, and benefits. prereq: Stat 1601 or Stat 2601 or instr consent

MGMT 3152. Human Resources Management II. (HDIV; 2 cr.; Student Option; Periodic Fall & Spring) Topics in human resource management: evaluating employee performance, training and safety, sustainability and "lean manufacturing," labor relations, and international human resource management. prereq: 3151 or instr consent

MGMT 3161. Labor Management Relations I. (E/CR; 2 cr.; Student Option; Periodic Fall & Spring) Historical development of labor relations and the legal framework governing collective bargaining. Labor relations law reform. Case studies from labor relations law. prereq: Econ 1111 or instr consent

MGMT 3162. Labor Management Relations II. (; 2 cr.; Student Option; Periodic Fall & Spring) Issues in labor-management negotiation, grievances, wages and economic security plans, public policies toward collective bargaining. Case studies from labor arbitration. prereq: 3161 or instr consent

MGMT 3201. Marketing Principles and Strategy. (; 4 cr.; Student Option; Periodic Fall & Spring) Basic factors affecting policy and strategy issues in marketing. Economic, legal, behavioral, environmental, competitive, and technological factors as they affect product, pricing, promotion, and marketing-channel decisions. prereq: 2102, Stat 1601 or Stat 2601 or instr consent

MGMT 3501. Applied Deterministic Modeling for Management Science. (2 cr.; Student Option; Periodic Fall & Spring) Same as Math 3501. Formulations of real-world problems as Linear Programming or Integer Linear Programming models; graphical solutions of some LP-models. Linear Programming: the Simplex method, intuitive ideas behind the Simplex method. Using software to solve LP problems; interpreting optimal solutions; sensitivity analysis; duality. Network diagram representation; critical path method (CPM-PERT); transportation problem. prereq: 2102, Math 1101 or Stat 1601 or Stat 2601 or instr consent

MGMT 3502. Applied Probabilistic Modeling for Management Science. (2 cr.; Student Option; Periodic Fall & Spring) Same as Math 3502. Short review of probability and statistics; mean and variance of a data set; discrete and continuous random variables (especially the exponential distribution and the Poisson distribution). Decision and game theory. Decision trees, types of decision criteria. Queueing models, birth-and-death processes; Markovian or Poisson arrivals and exponential service times; M/M/k and M/M/8 queues; Statistical Quality Control; inventory control system. prereq: 2102, Math 1101 or Stat 1601 or Stat 2601 or instr consent

MGMT 3503. Consumer Behavior. (SS; 4 cr.; Student Option; Periodic Fall & Spring) Same as Psy 3503. Psychological basis for understanding consumers. Some of the topics include consumer behavior, consumer cognitive processes, and consumer judgments and decisions. prereq: Stat 1601 or Stat 2601 or instr consent

MGMT 3513. Negotiation. (4 cr.; Student Option; Periodic Fall & Spring) Same as Psy 3513. Examines the theoretical and applied aspects of negotiation. Topics include negotiation theory, strategy, skills and tactics, communication processes, global negotiation, and ethics. Use of negotiation simulations. prereq: 3221 or Psy 3501 or Psy/ Mgmt 3701

MGMT 3601. Transnational Enterprise. (IP; 4 cr.; Student Option; Every Spring) Development and transformation of business enterprise within the global economy emerging from time and motion studies, mergers, “corporate revolution,” Fordism through to multi-plant manufacturing beyond national boundaries. Includes the basic impact of structural, institutional, and organizational change upon the dynamics of the firm and industry in the contemporary hyper-competitive, technology-driven, fast-paced, global environment. prereq: 2101, Econ 1111, Econ 1112 or instr consent, Engl 1601 (or instr consent for students with college writing experience)

MGMT 3701. Organizational Behavior. (SS; 4 cr.; Student Option; Periodic Fall & Spring) Same as Psy 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace; group dynamics; power, leadership, and attribution theory. prereq: Stat 1601 or Stat 2601, jr or sr

MGMT 3993. Directed Study. (1-5 cr.; [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MGMT 4101. Investment and Portfolio Analysis. (4 cr.; Student Option; Every Spring) The institutional environment of investment, techniques used to price financial products, and how to design a portfolio of many assets. prereq: 2101, 2102, 3101

MGMT 4201. The Economics of Corporate Strategy I. (; 2 cr.; Student Option; Periodic Fall & Spring) Setting the horizontal boundaries (e.g., which lines of business) and vertical boundaries (whether to make or buy inputs and outputs) of the firm, considered as strategic decisions. The different types of competition associated with distinct market structures. prereq: 3123 or Econ 3201, Math 1021 or Math 1101, or instr consent

MGMT 4202. The Economics of Corporate Strategy II. (; 2 cr.; Student Option; Periodic Fall & Spring) Tools for analyzing business strategies: credible strategic commitments, pricing, rivalry, entry and exit, Porter's five forces framework, and the relationship between value creation and strategic market positioning. prereq: 4201

MGMT 4501. Globalization and Business Strategy. ( ; 2 cr.; Student Option; Every Spring) Review of the impact of increasing globalization of the corporate and economic environment; application of strategic methods to new business conditions. prereq: 3601 or instr consent

MGMT 4502. Technological Change, Labor Market, and Skill Formation. ( ; 2 cr.; Student Option; Every Spring) The change of technology in relation to the formation of skills and transformation of regional labor markets throughout the world. The intimate relationship between “skilling” and “deskilling” of labor and the transformation of technology. prereq: 3601 or instr consent

MGMT 4896. Internship. (1-4 cr.; S-N only; Every Fall & Spring) Supervised educational experience and field application relevant to student's major. Written analysis appropriate to the application is required. [Note: 2 cr may be applied to major or minor] prereq: 2102

MGMT 4993. Directed Study. (1-5 cr.; [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Math Education Methods (MTHE)

MTHE 4121. Methods of Teaching Mathematics in the Middle and Secondary School. (4 cr.; A-F only; Every Fall) Objectives, curricula, special methods, materials, and evaluation appropriate for
MATH 901. Basic Algebra. (0 cr. [max 4 cr.]; Student Option; Every Fall)
Sets, absolute values, linear equations and inequalities, functions and graphs, arithmetic of complex numbers, quadratics, radicals, exponents and logarithms, and linear systems of equations. [Note: 0 cr toward graduation, 4 cr toward financial aid]

MATH 1001. Excursions in Mathematics. (M/SR; 4 cr.; Student Option; Every Fall & Spring)
Introduction to the breadth and nature of mathematics and the power of abstract reasoning, with applications to topics that are relevant to the modern world, such as management science, statistics, voting, fair division of assets, symmetry and patterns of growth. prereq: 2 yrs high school math

MATH 1012. Precalculus I: Functions. (4 cr.; Student Option; Every Fall & Spring)
Linear and quadratic functions, power functions with modeling; polynomial functions of higher degree with modeling; real zeros of polynomial functions; rational functions; solving equations in one variable; solving systems of equations; exponential and logarithmic functions, and the graphs of these functions. prereq: Math 0901 or placement

MATH 1301. Calculus I. (M/SR; 4 cr.; Student Option; Every Fall & Spring)
Limits and continuity; the concepts, properties, and some techniques of differentiation, antiderivatives, and definite integration and their connection by the Fundamental Theorem. Partial differentiation. Some applications. Students learn the basics of a computer algebra system. prereq: 1012, 1013 or placement

MATH 1102. Calculus II. (M/SR; 5 cr.; Student Option; Every Fall & Spring)

MATH 1801. Geometry Collides With Culture: Patterns in Space. (IC; 2 cr.; Student Option; Periodic Fall)
Geometry has played a profound role in human understanding of art, vision, space, and the representation of information. Through readings, discussion, projects, and writing, students explore the interplay between geometry, science, and culture. prereq: new college student in their first semester of enrollment at UMM

MATH 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on-or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MATH 2101. Calculus III. (M/SR; 4 cr.; Student Option; Every Fall & Spring)
Multivariable and vector calculus. Three-dimensional analytic geometry; partial differentiation; multiple integration; gradient, divergence, and curl; line and surface integrals; divergence theorem; Green and Stokes theorems; applications. prereq: 1102 or instr consent

MATH 2202. Mathematical Perspectives. (M/SR; 4 cr.; Student Option; Every Spring)
Introduction to the methodology and subject matter of modern mathematics. Logic, sets, functions, relations, cardinality, and induction. Introductory number theory. Roots of complex polynomials. Other selected topics. prereq: 1101

MATH 3111. Linear Algebra. (M/SR; 3 cr.; Student Option; Every Fall & Spring)
Vector spaces, linear independence, spanning sets, basis, dimension, linear transformations, determinants, inner-product spaces, characteristic values and vectors, symmetric matrices, normal matrices, and related topics. prereq: Math 1102

MATH 3222. Complex Analysis. (M/SR; 4 cr.; Student Option; Fall Even Year)

MATH 3293. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on-or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MATH 3311. Introduction to Knot Theory. (M/SR; 3 cr.; Student Option; Fall Odd Year)
An introduction to knot theory. Additional selected topics from low-dimensional topology. prereq: 1101 or instr consent

MATH 3321. Abstract Algebra I. (4 cr.; Student Option; Every Spring)
Systematic study of groups and rings, making use of linear algebra. Groups as codifying symmetry throughout mathematics and its applications.
applications. The Euclidean algorithm and its consequences, both for integers and polynomials. Other selected topics and applications. prereq: 2111, 2202 or instr consent

MATH 3401. Operations Research. (4 cr.; Student Option; Every Fall)
Topics include, but not limited to, linear and integer linear programming formulations, sensitivity analysis and duality, network models and applications. prereq: 1101 or higher or instr consent

MATH 3411. Discrete and Combinatorial Mathematics. (4 cr.; Student Option; Every Fall)
Propositional logic; equivalence relations; recurrence equations; structures and properties of undirected and directed graphs; applications of the aforementioned topics. prereq: 1102 or higher or instr consent

MATH 3501. Applied Deterministic Modeling for Management Science. (2 cr.; Student Option; Periodic Fall & Spring)
Same as Mgmt 3501. Formulations of real-world problems as Linear Programming or Integer Linear Programming models; graphical solutions of some LP models. Linear Programming: the Simplex method, intuitive ideas behind the Simplex method. Using software to solve LP problems: interpreting optimal solutions; sensitivity analysis; dually. Network diagram representation; critical path method (CPM-PERT); transportation problem. prereq: 1101 or Stat 1601 or Stat 2601 or Stat 2611, Mgmt 2102 or instr consent

MATH 3502. Applied Probabilistic Modeling for Management Science. (2 cr.; Student Option; Periodic Fall & Spring)
Same as Mgmt 3502. Short review of probability and statistics; mean and variance of a data set; discrete and continuous random variables (especially the exponential distribution and the Poisson distribution). Decision and game theory. Decision trees, types of decision criteria. Queuing models, birth-and-death processes; Markovian or Poisson arrivals and exponential service times; M/M/k and M/M/8 queues; Statistical Quality Control; inventory control system. prereq: 1101 or Stat 1601 or Stat 2601 or Stat 2611, Mgmt 2102 or instr consent

MATH 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MATH 4211. Real Analysis I. (2 cr.; Student Option; Periodic Fall & Spring)
Differentiation of functions of several variables. The extension of integration to other forms of integrals. Introduction to measure theory. Other optional topics. prereq: 3221 or instr consent

MATH 4221. Topology. (; 2 cr.; Student Option; Periodic Fall & Spring)
Selected topics from point set topology and/or algebraic topology. prereq: 2202 or instr consent

MATH 4231. Abstract Algebra II. (; 2 cr.; Student Option; Periodic Fall & Spring)
Selected topics from the theory of finite groups, Galois theory of fields, and/or the theory of rings. prereq: 3231 or instr consent

MATH 4241. Number Theory. (; 2 cr.; Student Option; Periodic Fall & Spring)
Selected topics from modular congruences, theory of primes, classical Diophantine equations, and the connections with algebraic curves. prereq: 2202 or instr consent

MATH 4252. Differential Geometry. (; 2 cr.; Student Option; Periodic Fall & Spring)
Geometry of curves and surfaces. Frames, curvature, torsion, orientation, differential forms, topological properties of surfaces. The notion of differentiable manifold. Selected applications. prereq: instr consent

MATH 4253. Combinatorics. (; 2 cr.; Student Option; Periodic Fall & Spring)
Selected topics from graph theory, the theory of ordered sets, and/or enumerative combinatorics. prereq: instr consent

MATH 4401. Numerical Methods with Applications in Mathematical Modeling. (; 4 cr.; Student Option; Periodic Fall & Spring)
Finite differences; interpolation; numerical integration; numerical solutions of differential, algebraic, and transcendental equations; computational mathematical models. prereq: 2111, 2401 or instr consent

MATH 4452. Mathematical Modeling. (; 4 cr.; Student Option; Periodic Fall & Spring)
Mathematical topics include, but are not limited to, differential and difference equations, discrete and continuous dynamical systems, predator-prey models, discrete and continuous optimization models, probabilistic models, stochastic and Poisson processes, and queuing models. Applications are drawn from different areas in the sciences and social sciences. prereq: instr consent

MATH 4901. Senior Seminar. (2 cr.; A-F only; Every Fall)
This course is required for all mathematics majors in their senior year. Students must attend year round and present one of the seminars. prereq: sr math major or instr consent; full year course begins fall semester

MATH 4983. Directed Study. (1.5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Music (MUS)

MUS 100. Concert Attendance. (0 cr.; S-N only; Every Fall & Spring)
To be taken by all music majors and minors; involves attending a set number of music performance offerings during the semester, as a participant, audience member, and usher or stage manager. prereq: major or minor

MUS 1041. Introduction to Music. (FA; 4 cr.; Student Option; Every Fall)
Survey emphasizing development of an intelligent understanding and appreciation of music. For non-music majors.

MUS 1042. Fundamentals of Music. (FA; 4 cr.; Student Option; Spring Even Year)
The rudiments of music including note and rhythm reading, scales, chords, beginning chord progressions, and practical keyboard work in the piano lab.

MUS 1043. American Jazz Styles. (FA; 4 cr.; Student Option; Periodic Fall & Spring)
Development and analysis of the New Orleans dixieland, ragtime, stride, boogie-woogie, Chicago dixieland, swing, bop, cool, funk, progressive, third-stream, free form, and fusion jazz styles. Introductory course to help non-music majors become familiar with and appreciate this art form.

MUS 1044. Class Piano for the Non-Music Major. (ART/P; 1 cr.; Student Option; Every Fall & Spring)
Introduction to piano performance for students with no previous piano training. Students will learn basic keyboard skills including note reading, fingering, and counting. Study beginning piano technique and learn to perform elementary-level solos and ensembles. [Note: special fee required]

MUS 1045. Class Guitar. (ART/P; 1 cr.; Student Option; Every Fall & Spring)
Introduction to guitar performance for students with no previous guitar experience. Students learn basic guitar skills, study beginning guitar technique, and learn to perform music. This class is not for students who have played guitar before. [Note: special fee required]

MUS 1049. Introduction to American Popular Music. (HUM; 4 cr.; Student Option; Spring Odd Year)
Survey of popular musical styles in America from the early 20th century to today.

MUS 1050. Collaborative Piano Workshop. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring)
Student pianists who play for private lessons and collaborate in public performance may receive credit. Collaborative piano assignments are made through consultation with the piano faculty. prereq: instr consent

MUS 1061. Introduction to World Music. (IP; 4 cr.; Student Option; Every Fall)
Survey of primarily non-Western music cultures, emphasizing the development of an appreciation for the music and an understanding of its significance in its culture of origin. For non-music majors.

MUS 1062. Instrumental Music In The United Kingdom. (ART/P; 2 cr. [max 4 cr.]; A-F only; Periodic Summer)
Perform and work alongside some of the United Kingdom's finest musicians and experience the British music scene. Visit the cities of London, Manchester, and Cardiff. Perform a series of concerts as part of UMM Symphonic Winds and Jazz Ensemble. Take part in scheduled classes with internationally renowned musicians and teachers at a leading British conservatory.
MUS 1063. Symphonic Winds Performance Tour. (ART/P; 1 cr. [max 2 cr.]; A-F only; Periodic Summer) 
Perform in a variety of locations and collaborate with outstanding ensembles and musicians as part of a scheduled performance tour.

MUS 1070. Instrumental Chamber Ensemble. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) 
Performance of instrumental chamber music. Groups are formed according to the interests of students and availability of materials. Prereq: instr consent

MUS 1080. Jazz Combo. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) 
Performance of instrumental jazz music with emphasis on improvisation.

MUS 1081. Jazz Improvisation. (ART/P; 2 cr.; Student Option; Periodic Spring) 
Introduction to the art of jazz improvisation for instrumentalists and vocalists. Topics, including practice techniques, jazz theory, jazz harmony, and improvisational techniques, are discussed through solo analysis, transcriptions, listening assignments, live performances, and instructor demonstration.

MUS 1090. Vocal Chamber Ensemble. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) 
Performance of vocal ensemble music especially written for smaller groups. Prereq: instr consent

MUS 1111. Functional Keyboard for the Music Major I. (ART/P; 1 cr.; Student Option; Every Fall) 
Beginning instruction for music majors and minors whose principal performing medium is voice or non-keyboard instrument; skill development in sight reading, technique, harmonization, simple literature. [Note: special fee required] Prereq: music major or minor whose primary instrument isn't piano

MUS 1112. Functional Keyboard for the Music Major II. (ART/P; 1 cr.; Student Option; Every Fall) 
Continued beginning instruction begun in MUS 1111 for music majors and minors whose principal performing medium is voice or non-keyboard instrument; includes sight reading, technique, harmonization, transposition, improvisation, simple literature. [Note: special fee required] Prereq: 1111, music major or minor whose primary instrument isn't piano

MUS 1151. Foundations of Music Theory I: Rhythm and Pitch. (M/SR; 2 cr.; Student Option; Every Fall) 
Notation; rhythm reading and identification; scales, modes, keys, and basic chords; simple, compound, and complex meters. Prereq: coreq 1153, 1155, concurrent enrollment in piano classes/lessons until piano proficiency is passed for maj/min

MUS 1152. Foundations of Music Theory II: Line. (FA; 2 cr.; Student Option; Every Spring) 
Study of melody and line; one-, two-, and four-part writing and counterpoint; phrase structure; interaction of line with harmony; analysis and identification. Prereq: 1151, coreq 1154, 1156, concurrent enrollment in piano classes/lessons until piano proficiency is passed for maj/min

MUS 1153. Foundations of Musicianship I. (1 cr.; Student Option; Every Fall) 
Introduction to sight-singing, rhythmic and pitch dictation and transcription, and aural error detection. Prereq: coreq 1151, 1155

MUS 1154. Foundations of Musicianship II. (1 cr.; Student Option; Every Spring) 
Sight-singing of melodies; melodic dictation and transcription; aural error detection. Prereq: 1153, coreq 1152, 1156, concurrent enrollment in piano classes/lessons until piano proficiency is passed for maj/min

MUS 1155. Foundations in Music History I: Ancient to 1750. (HIST; 2 cr.; Student Option; Every Fall) 
A chronological survey of Western musical development from the earliest notated examples to the end of the Baroque period. Emphasis is placed on specific works and composers as examples of larger musical and cultural trends. This is the first of two courses intended to provide a historical framework for further musical study. Prereq: coreq 1151, 1153

MUS 1156. Foundations in Music History II: 1750 to Contemporary. (FA; 2 cr.; Student Option; Every Spring) 
A chronological survey of Western musical development from the Classical period through the current day. Emphasis is placed on specific works and composers as examples of larger musical and cultural trends. This is the second of two courses intended to provide a historical framework for further musical study. Prereq: 1155, coreq 1152, 1154

MUS 1200. Individual Performance Studies: Piano. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring) 
Private instruction in piano is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] Prereq: instr consent

MUS 1202. Individual Performance Study: Organ. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring) 
Private instruction in organ is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] Prereq: instr consent

MUS 1203. Individual Performance Study: Harpsichord. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring) 
Private instruction in harpsichord is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] Prereq: instr consent

MUS 1204. Individual Performance Study: Voice. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring) 
Private instruction in voice is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] Prereq: instr consent

MUS 1205. Individual Performance Study: Violin. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring) 
Private instruction in violin is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] Prereq: instr consent

MUS 1206. Individual Performance Study: Viola. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring) 
Private instruction in viola is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] Prereq: instr consent
MUS 1207. Individual Performance Study: Cello. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in cello is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1208. Individual Performance Study: Double Bass. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in double bass is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1209. Individual Performance Study: Flute. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in flute is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1210. Individual Performance Study: Oboe. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in oboe is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1211. Individual Performance Study: Clarinet. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in clarinet is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1212. Individual Performance Study: Saxophone. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in saxophone is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1213. Individual Performance Study: Bassoon. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in bassoon is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1214. Individual Performance Study: Trumpet. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in trumpet is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1215. Individual Performance Study: French Horn. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in french horn is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1216. Individual Performance Study: Trombone. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in trombone is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1217. Individual Performance Study: Euphonium. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in euphonium is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1218. Individual Performance Study: Tuba. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in tuba is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1219. Individual Performance Study: Percussion. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in percussion is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam should enroll under the A-F grading only. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 1221. Individual Performance Study: Guitar. (ART/P: 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)  Private instruction in guitar is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in the major performance area. All music majors and other students who anticipate applying for the jury exam...
MUS 1321. Chamber Singers. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) A select ensemble of vocalists performing repertoire in a variety of styles. Several public concerts and appearances scheduled each semester. prereq: instr consent

MUS 1330. Jazz Ensemble. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) Rehearsals and concerts cover the literature for this medium. [Note: special fee required for fall term]

MUS 1331. Brass Ensemble. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) A small directed ensemble for brass (and occasionally percussion) players, performing standard brass literature in various styles and from all historical periods. prereq: instr consent

MUS 1340. Orchestra. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) The study and preparation of standard orchestral works for performance at several public concerts and appearances each semester in addition to a concert tour. The study of basic orchestral procedure.

MUS 1350. Choral Ensembles: Community Membership. (0 cr.; S-N only; Every Fall & Spring) Preparation of choral works for at least one public concert each semester and other special events. Emphasis on basic choral singing techniques. FOR COMMUNITY MEMBERS. [Note: UMM students will be required to enroll instead for MUS 1310 or MUS 1320] prereq: instr consent

MUS 1351. Jazz Ensembles: Community Membership. (0 cr.; S-N only; Every Fall & Spring) Rehearsals and concerts cover the literature for this medium. FOR COMMUNITY MEMBERS. [Note: UMM students will be required to enroll instead for MUS 1330] prereq: instr consent

MUS 1352. Wind/Brass Ensembles: Community Membership. (0 cr.; S-N only; Every Fall & Spring) Traditional wind ensembles and chamber music which performs traditional and contemporary music of the highest quality. FOR COMMUNITY MEMBERS. [Note: UMM students will be required to enroll instead for Mus 1300, 1301, and/or 1331] prereq: instr consent

MUS 1353. Orchestra: Community Membership. (0 cr.; S-N only; Every Fall & Spring) The study and preparation of standard orchestral works for performance at several public concerts. The study of basic orchestral procedure. FOR COMMUNITY MEMBERS. [Note: UMM students will be required to enroll instead for MUS 1300, 1301, and/or 1331] prereq: instr consent

MUS 1360. Concert Choir Tour. (0.5 cr. [max 2 cr.]; S-N only; Every Spring) Participation in the spring concert tours undertaken by the UMM Concert Choir. [Note: a program fee is attached to this course to cover the expenses of the concert tour] prereq: coreq 1320, instr consent

MUS 1370. Chamber Orchestra. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) The study and preparation of standard string orchestral works for performance at several public concerts and appearances each semester. Wind and percussion players need special permission to enroll. The study of basic orchestral procedure.

MUS 1401. English, Italian, German, and French Diction for Singers. (ART/P; 1 cr.; A-F or Audit; Spring Odd Year) The sounds and symbols of the International Phonetic Alphabet, rules for correct English, Italian, German, and French lyric diction. Translations of German Lieder, French Melodie, Italian Arias, and English Songs into International Phonetic Alphabet. German, French, Italian, and English songs performed in class for critique.

MUS 1411. Vocal Performance Workshop. (ART/P; 1 cr.; Student Option; Periodic Spring) Practical introduction to vocal performance. Students become familiar with a number of operas and musical comedies and perform selections emphasizing ensemble work. prereq: instr consent

MUS 1801. Introduction to American Popular Music. (IC; 4 cr.; Student Option; Periodic Fall) Survey of popular musical styles in America from the early 20th century to today. An emphasis on classroom discussion and activities, and written assignments designed to encourage critical analysis of American popular music and its social contexts. prereq: new college student in their first semester of enrollment at UMM

MUS 2045. Intermediate Class Guitar. (ART/P; 1 cr.; Student Option; Every Fall & Spring) Focusing on the middle ground where popular and classical guitar meet, reading skills, bar and "color" chords, and advanced right hand technique are applied to both popular and classical music. Students write and perform original songs, learn personal favorites, and advance through carefully selected classical etudes. [Note: special fee required] prereq: 1045 or instr consent

MUS 2101. Core Studies II: Music Theory III. (FA; 4 cr.; Student Option; Every Fall) Modulatory techniques; chromatic harmony of the Classical and Romantic Periods; borrowed chords, Neapolitan and augmented sixths; ninth, eleventh, and thirteenth chords; altered dominants and chromatic mediants; harmonic and formal analysis of scores including binary, ternary, variation, sonata, and rondo forms. prereq: 1102, major or minor or instr consent, concurrent enrollment in piano class/lessons until piano proficiency is passed for majors and minors

MUS 2102. Core Studies II: Music Theory IV. (FA; 4 cr.; Student Option; Every Spring) Model, pentatonic, whole-tone, and octatonic collections; analysis of scores including nonfunctional harmony; pitch class set, twelve-tone and other 20th- and 21st-century techniques. prereq: 2101, major or minor or instr consent, concurrent enrollment in piano class/lessons until piano proficiency is passed for majors and minors

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
MUS 2111. Functional Keyboard for the Music Major III. (ART/P; 1 cr.; Student Option; Every Fall)
Elementary to early intermediate instruction for music majors and minors whose principal performing medium is voice or non-keyboard instrument; continued skill development begun in MUS 2111; introduction of easy solo and ensemble literature. [Note: special fee required] preq: 1112, music major or minor whose primary instrument isn't piano

MUS 2112. Functional Keyboard for the Music Major IV. (ART/P; 1 cr.; Student Option; Every Spring)
Intermediate instruction for music majors and minors whose principal performing medium is voice or non-keyboard instrument; continued skill development begun in MUS 2111; introduction of intermediate solo and ensemble literature. [Note: special fee required] preq: 2111, music major or minor whose primary instrument isn't piano

MUS 2151. Intermediate Music Theory: Form. (2 cr.; Student Option; Every Fall)
Periodicity; analysis and score study of pieces in binary, rounded binary, ternary, variation, sonata, rondo, and sonata-rondo forms. preq: 1152, music major or minor or instr consent

MUS 2152. Intermediate Music Theory: Harmony. (2 cr.; Student Option; Every Fall)
Further exploration of triads, seventh chords, and harmonic function; secondary-function chords; modal mixture; modulation; Neapolitan and augmented-6th chords; upper extensions; altered dominants and chromatic mediants. preq: 1152, music major or minor or instr consent

MUS 2301. Instrumental Techniques--Woodwind. (1 cr.; Student Option; Periodic Fall)
Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the woodwind instruments. preq: major or minor or instr consent

MUS 2302. Instrumental Techniques--Bass. (1 cr.; Student Option; Periodic Spring)
Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the brass instruments. preq: major or minor or instr consent

MUS 2303. Instrumental Techniques--Strings. (1 cr.; Student Option; Periodic Fall)
Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the string instruments. preq: major or minor or instr consent

MUS 2304. Vocal Techniques. (1 cr.; Student Option; Spring Even Year)
Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the percussion instruments. preq: major or minor or instr consent

MUS 2401. Piano from Bach to Jazz. (FA; 2 cr.; Student Option; Spring Odd Year)
Introduction to numerous seminal works from the piano literature, to composers who have written for keyboard instruments over the past three hundred years, and to performers who have propelled this music into the public, placing all of these works and people into historical, cultural, artistic, aesthetic, and social contexts. This hybrid course utilizes online instruction to deliver technical content and class time to focus on listening, writing, and discussion activities in addition to lecture components. Some evening film screenings and evening/weekend concerts may be required.

MUS 2402. Art Song Repertoire. (FA; 2 cr.; Student Option; Spring Odd Year)
A survey of song repertoire from the 17th century to the present, including songs from the German, French, Italian, American, and Spanish traditions. The fusion of music and poetry are studied as well as interpretation and signature musical characteristics.

MUS 2403. Survey of Choral Literature. (FA; 2 cr.; Student Option; Fall Even Year)
A broad survey of choral repertoire from Gregorian chant to present-day compositions. Students develop a comprehensive knowledge of composers and literature discussed in the course through in-depth listening and analysis.

MUS 2404. The Orchestra and its Literature from the 1700s through Today. (FA; 2 cr.; Student Option; Spring Even Year)
A study of the orchestra as a cultural institution. Examine important and influential repertoire, with an emphasis on the symphony, as well as examples of ensembles to understand the role of the orchestra in Western culture.

MUS 2405. Survey of Instrumental Wind Literature. (FA; 2 cr.; Student Option; Fall Odd Year)
A survey of standard and educational wind ensemble and wind chamber music literature from all historical periods and styles. Students develop a comprehensive knowledge of the composers and literature discussed in the course through detailed listening, score study, discussion, and evaluation.

MUS 2406. Jazz Style and Repertoire. (FA; 2 cr.; Student Option; Spring Even Year)
This course addresses the stylistic component of jazz performance through study and analysis of seminal recordings throughout all eras of jazz history.

MUS 2407. Piano Pedagogy I. (ART/P; 2 cr.; Student Option; Fall Even Year)
This course is a study, demonstration, and discussion about the various elements of piano teaching methods, techniques, and materials for elementary and early intermediate levels. This includes analysis of various piano courses and piano literature, discussion of technical regimes, ideas for private and group lessons, and planning for the practical business aspect of teaching. Recommended for piano majors. preq: 1200 or instr consent

MUS 3052. Piano Pedagogy II. (ART/P; 2 cr.; Student Option; Fall Odd Year)
This course covers much intermediate literature from each of the four major periods of music with practical ideas to put into immediate use by current teachers. Piano literature to motivate and retain students as well as the study of performance practices as they relate to each musical style are emphasized. preq: 1200 or instr consent

MUS 3061. Guitar Pedagogy. (ART/P; 2 cr.; Student Option; Every Fall & Spring)
Discussions and readings on guitar pedagogy, private and group lessons, instructing young students, practice methods and business issues associated with self-employment in teaching music. Instruction of beginners in a one-on-one situation and classroom presentation of lessons. preq: 1221 or instr consent

MUS 3101. Core Studies III: Medieval, Renaissance, and Baroque Music. (HIST; 4 cr.; Student Option; Fall Odd Year)
Historical development of Western music and representative literature of the various periods and styles. preq: 1102, major or minor or instr consent

MUS 3102. Core Studies III: Classical, Romantic, and 20th-Century Music. (FA; 4 cr.; Student Option; Spring Even Year)
Historical development of Western music and representative literature of the various periods and styles. preq: 1102, major or minor or instr consent

MUS 3107. Music in 20th-Century America. (FA; 2 cr.; Student Option; Spring Odd Year)
A study of select American musical styles in the 20th century. Art, traditional, and popular musical styles are considered, as well as how these styles intersect. Examples are discussed in terms of musical elements as well as cultural and social contexts. preq: ability to read music and identify basic scales and chords, instr consent

MUS 3108. Intellectual Foundations of Western Music. (HUM; 2 cr.; Student Option; Fall Even Year)
Exploration of source readings and analytical projects showing the intellectual foundations of Western music from antiquity through the Middle Ages. preq: 2151, 2152 or instr consent

MUS 3109. Analysis of Popular Music. (HUM; 2 cr.; Student Option; Spring Odd Year)
Development of analytical techniques to examine popular music from Tin Pan Alley to the present. preq: 2151, 2152 or instr consent

MUS 3110. History of Music Theory: From the Renaissance to the Baroque. (2 cr.; Student Option; Fall Odd Year)
Study of source documents and analytical projects covering the history of Western music theory from the 15th century to approximately 1750. preq: 2151, 2152
MUS 3111. History of Music Theory: Rameau to Riemann. (2 cr.; Student Option; Fall Odd Year)
Study of source documents and analytical projects covering the history of Western music theory from 1750 to 1900. prereq: 2151, 2152

MUS 3112. Analysis of Pre-Tonal Music. (2 cr.; Student Option; Spring Even Year)
Analysis of melodic, harmonic, and rhythmic structure of Western music written between 900 and 1600 CE; topics covered may include polyphony, modality, cadences, isorhythm, and formal considerations. prereq: 2151, 2152

MUS 3113. Analysis of Post-Tonal Music. (2 cr.; Student Option; Spring Odd Year)
Analysis of melodic, harmonic, and rhythmic structure of music since 1900 CE; topics covered may include free atonality, twelve-tone music, serialism, minimalism, neo-Classicism, neo-Romanticism, the New Complexity, post-modernism and collage-based works, and popular influences. prereq: 2151, 2152

MUS 3114. Musical Borrowing. (FA; 2 cr.; Student Option; Fall Odd Year)
Examination of multiple ways that musical traditions or works borrow from each other through techniques such as arrangement, transcription, quotation, adaptation, sampling, etc. Consider how changing the context for these musical references can change intention and meaning for the artist/listener. prereq: ability to read music and identify basic scales and chords

MUS 3115. Gender and Sexuality in Music. (FA; 2 cr.; Student Option; Fall Even Year)
Explores both representation of and discourse on gender and sexuality through music. Course content includes examples from both cultivated and vernacular traditions. prereq: ability to read music and identify basic scales and chords

MUS 3116. Music and Identity. (FA; 2 cr.; Student Option; Spring Even Year)
Explore how music is used in various contexts to shape and express elements of identity. Consider expressions of cultural, racial, social, and other modes of identity. prereq: ability to read music and identify basic scales and chords

MUS 3117. Music in Film. (FA; 2 cr.; Student Option; Fall Even Year)
Examines how music is used in film. Consider how music is used in narrative and representative ways, as well as how the role of music in film has changed over time. prereq: ability to read music and identify basic scales and chords

MUS 3118. Music and Politics. (FA; 2 cr.; Student Option; Spring Even Year)
Examines how music is used in political contexts, and how artists express political ideas through music, both reflecting and shaping contemporary ideas. prereq: ability to read music and identify basic scales and chords

MUS 3119. Jazz Theory. (FA; 2 cr. [max 4 cr.]; Student Option; Fall Odd Year)
Study and analysis of jazz melody, harmony, rhythm, and form (chord/scale relationships, harmonic progressions, chord structures, scale study, chord substitutions, and jazz aural skills). prereq: 1151, 1152 or instr consent

MUS 3121. Music Technology. (FA; 2 cr. [max 4 cr.]; Student Option; Periodic Fall)
Study and application of music technology software and hardware focused on music notation software, audio recording and engineering, and MIDI sequencing. prereq: basic knowledge of music fundamentals and ability to read music or instr consent

MUS 3161. Introduction to World Music. (IP; 4 cr.; Student Option; Every Fall)
Survey of primarily non-Western music cultures, emphasizing the development of an appreciation for the music and an understanding of its significance in its culture of origin. For music majors. [Note: non-music majors or minors should register for 1061]

MUS 3200. Advanced Individual Performance Study: Piano. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in piano for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3201. Advanced Individual Performance Study: Collaborative Piano. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in collaborative piano skills for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3202. Advanced Individual Performance Study: Organ. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in organ for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3203. Advanced Individual Performance Study: Harpsichord. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in harpsichord for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3204. Advanced Individual Performance Study: Voice. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in voice for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3205. Advanced Individual Performance Study: Violin. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in violin for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3206. Advanced Individual Performance Study: Viola. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in viola for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3207. Advanced Individual Performance Study: Cello. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in cello for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3208. Advanced Individual Performance Study: Double Bass. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in double bass for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3209. Advanced Individual Performance Study: Flute. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in flute for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
MUS 3210. Advanced Individual Performance Study: Oboe. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in oboe for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3211. Advanced Individual Performance Study: Clarinet. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in clarinet for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3212. Advanced Individual Performance Study: Saxophone. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in saxophone for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3213. Advanced Individual Performance Study: Bassoon. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in bassoon for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3214. Advanced Individual Performance Study: Trumpet. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in trumpet for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3215. Advanced Individual Performance Study: French Horn. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in French horn for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3216. Advanced Individual Performance Study: Trombone. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in trombone for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3217. Advanced Individual Performance Study: Euphonium. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in euphonium for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3218. Advanced Individual Performance Study: Tuba. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in tuba for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3219. Advanced Individual Performance Study: Percussion. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in percussion for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3221. Advanced Individual Performance Study: Guitar. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in guitar for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3222. Advanced Individual Performance Study: Electric Bass. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in electric bass for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3223. Advanced Individual Performance Studies: Composition. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in composition for music students at an advanced level of performance. A jury examination is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: special fee required] prereq: instr consent

MUS 3224. Advanced Individual Performance Studies: Improvisation. (ART/P; 1 cr. [max 8 cr.]; Student Option; Every Fall & Spring)
Private instruction in improvisation for music students at an advanced level of performance. A jury examination is required for the student's major instrument is required for advanced performance study. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons. [Note: students must be enrolled concurrently in Advanced Individual Performance Studies (MUS 3200-3223); special fee required] prereq: instr consent

MUS 3305. West African Styles in African American Music. (FA; 2 cr.; Student Option; Every Spring Even Year)
An examination of the West African precursors to jazz and other African-American musical styles in the United States, considering both important elements of West African music and how those elements are found in early African-American styles. prereq: ability to read music and identify basic scales and chords

MUS 3311. Conducting Techniques. (; 2 cr.; Student Option; Every Fall)
Development of basic ensemble conducting skills. prereq: major or minor or instr consent

MUS 3321. Instrumental Conducting and Materials. (; 2 cr.; Student Option; Every Spring)
Specialization of instrumental conducting and a survey of ensemble materials for various levels of ability and maturity. prereq: 3311, major or minor or instr consent

MUS 3331. Choral Conducting and Materials. (; 2 cr.; Student Option; Every Spring)
Specialization of choral conducting and a survey of ensemble materials for various levels of ability and maturity. prereq: 3311, major or minor or instr consent

MUS 3351. Instrumental Arranging. (ART/P; 2 cr.; A-F only; Periodic Spring)
Theoretical study of orchestral and band instruments and special problems of scoring and arranging for small and large instrumental ensembles. prereq: 2181, 2182

MUS 3352. Choral Arranging. (ART/P; 2 cr.; A-F only; Periodic Spring)
Native Amer and Indigenous Std (NAIS)

NAIS 1001. Beginning Dakota Language I. (4 cr.; Student Option; Every Fall) An introduction to speaking, writing, and reading Dakota language and an overview of Dakota culture.

NAIS 1002. Beginning Dakota Language II. (FL; 4 cr.; Student Option; Every Spring) A continuation of 1001 with greater emphasis on conversation and culture. prereq: 1001 or instr consent

NAIS 1011. Beginning Anishinaabe Language I. (4 cr.; Student Option; Every Fall) An introduction to speaking, writing, and reading Anishinaabe language and an overview of Anishinaabe culture.

NAIS 1012. Beginning Anishinaabe Language II. (FL; 4 cr.; Student Option; Every Spring) A continuation of 1011 with greater emphasis on conversation and culture. prereq: 1011 or instr consent

NAIS 1054. Associated Languages: Introduction to Nahua Language. (IP; 4 cr.; Student Option; Periodic Fall & Spring) Same as Span 1054. An introduction to speaking, writing, and reading in contemporary Nahuatl (more popularly known as the language of the Mexica or Aztecs) and an overview of Nahua culture. prereq: due to the fact that many Nahua textbooks are bilingual, it is recommended that students have completed at least two years of college-level Spanish

NAIS 1101. Introduction to Native American and Indigenous Studies. (HDIV; 4 cr.; Student Option; Every Fall) An introduction to Native American and indigenous histories and literature, and to other expressive cultures. An interdisciplinary course emphasizing sovereignty, effects of government policies, and diversity of Native American and indigenous societies.

NAIS 1801. American Indian Song and Dance. (IC; 2 cr.; Student Option; Periodic Fall) An academic and active exploration of song and dance traditions from American Indian tribes. prereq: new college student in the first semester of enrollment at UMM

NAIS 1803. Native America in the 20th Century. (IC; 4 cr.; Student Option; Periodic Fall) Explore and critically analyze popular representations of Native people as separate from modern American society. Readings and assignments address how indigenous communities have confounded non-Native expectations through participation in wage labor, migration, athletics, and popular media during the long 20th century. prereq: new college student in their first semester of enrollment at UMM

NAIS 2011. Intermediate Anishinaabe Language I. (HUM; 4 cr.; Student Option; Periodic Fall) Review of the essential structural patterns of the Anishinaabe language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level. prereq: 1012 or placement or instr consent

NAIS 2012. Intermediate Anishinaabe Language II. (HUM; 4 cr.; Student Option; Periodic Spring) Review of the essential structural patterns of the Anishinaabe language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level. prereq: 2011 or placement or instr consent

NAIS 2212. Indian Residential Schools: Their History and Legacy. (E/CR; 2 cr.; Student Option; Periodic Summer) Study of the general history of Indian residential schools and their on-going legacy. Students produce public resource materials on Indian residential schools experiences including the Morris Industrial School. Course includes field work.

NAIS 2252. Comparative Indigenous History: Beyond Native America. (HIST; 4 cr.; Student Option; Periodic Fall) Same as Hist 2252. Explore indigenous experiences with settler colonialism in the United States, Canada, Australia, New Zealand, and sub-Saharan Africa. With special attention to issues of race, labor, gender, education, and movements for decolonization, place the indigenous histories of Morris and Minnesota within a global context. [Note: no credit for students who have received credit for Amin 1701 or Hist 1701]

NAIS 2801. Anishinaabe Song and Dance: An Exploration of Song and Dance, Traditions and Practices. (HDIV; 4 cr.; Student Option; Spring Even Year) Exploration of the language and culture of Anishinaabe song and dance traditions in historical and contemporary times. Learn the deeper meaning and different styles of the ceremonial practices of the Anishinaabe people, which include learning how to make hand drums and studying traditional dance societies and belief systems. prereq: 1011 or instr consent

NAIS 2993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall, Spring & Summer) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

NAIS 3220. Indigenous Language and Cultural Immersion Experience. (1-2 cr. [max 4 cr.]; Student Option; Periodic Summer) As children, humans learn their primary language(s) through day-to-day living and interactions in their communities. This course enables participants to learn Native language through similar immersion, focusing specifically on Minnesota’s first people and the Anishinaabemowin and Dakota fapí languages. Students will live in community together and participate in a language immersion experience

Music Education Methods (MUSE)

MUSE 4123. Methods of Teaching Music K-12. (4 cr.; A-F only; Every Fall) Objectives, curricula, special methods, materials, and evaluation appropriate for teaching music in K-12. prereq: admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105

Music Education Methods (MUSE)

MUSE 4123. Methods of Teaching Music K-12. (4 cr.; A-F only; Every Fall) Objectives, curricula, special methods, materials, and evaluation appropriate for teaching music in K-12. prereq: admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
wherein they conduct everyday activities in the target language; experience language-learning activities suitable to their level of proficiency (from beginner to advanced); and utilize their language skills in the classroom, as well as in outings and activities. Additionally, students study the interrelationships between language, culture, and contemporary events. prereq: instr consent

NAIS 3403. American Indian Education: History and Representation. (E/CR; 4 cr.; Student Option; Fall Every Year)
Same as Hist 3403. Examination of indigenous education in the United States from pre-contact to the late 20th century. Topics include indigenous ways of teaching and learning, efforts to assimilate Native peoples through education, the movement toward educational self-determination within Native communities, and contemporary representations of boarding school experiences. Students also gain insight into the history of the Morris Indian School and its contemporary representation at UMM.

NAIS 3404. Contemporary Research Issues in Native America. (E/C; 4 cr.; Student Option; Periodic Fall)
Critical examination of research theories, methodologies, and practices of various academic disciplines used to study Native Americans. Review of research databases and collections pertaining to Native Americans. Emphasis on the impact and value of research for Native communities. prereq: 1101

NAIS 3405. Digital Workshop in Native American and Indigenous Studies. (E/C; 2 cr. [max 4 cr.]; Student Option; Periodic Fall)
Introduction to digital humanities and curatorial practices in Native American and Indigenous Studies. Become familiar with core debates about digital humanities and curatorial studies and use that knowledge to work with archival materials, to create new materials, and to curate a space for those materials. prereq: instr consent

NAIS 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall, Spring & Summer)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

NAIS 4901. Senior Project in Native American and Indigenous Studies. (4 cr.; Student Option; Every Fall)
A culminating research project in Native American and Indigenous Studies. prereq: 1101, NAIS major, instr consent

Philosophy (PHIL)

PHIL 1004. Introduction to Western Philosophy. (1 cr.; Student Option; Periodic Summer)
What is the good life for human beings? What happens after we die? What is the relation between our minds and bodies? Does God exist? In this course, we will examine classic works in philosophy that address these big questions. Authors include: Plato, Aristotle, Epictetus, and Lucretius.

PHIL 1101. Introduction to Philosophy. (HUM; 4 cr.; Student Option; Periodic Fall & Spring)
An introduction to fundamental philosophical problems in areas such as metaphysics (what exists?), epistemology (what can we know? and how can we know it?), and ethics (what actions are moral and immoral? and what is the good life?), with an emphasis on developing the reading, writing, and analytical skills required for philosophical investigation.

PHIL 1801. THINK: An Introduction to Philosophy. (IC; 4 cr.; Student Option; Periodic Fall)
How should we live our lives? What happens after death? What is the relationship between the mind and body? Does God exist? Why do bad things happen to good people? Examine classical works in philosophy that address these big questions about human nature and its place in the universe. Authors include: Plato, Aristotle, Epictetus, Lucretius, Sextus Empiricus, Descartes, and Hume. Work on the development of philosophical writing, reading, and speaking skills. prereq: new college student in their first semester of enrollment at UMM

PHIL 1802. Philosophy and Pop Culture. (IC; 4 cr.; Student Option; Periodic Fall)
An introduction to traditional issues in philosophy through the lens of characters presented in various pop cultural media. prereq: new college student in their first semester of enrollment at UMM

PHIL 1803. How To Think About Weird Things. (IC; 4 cr.; Student Option; Periodic Fall)
A course designed to build basic critical thinking skills. Answer questions like: What makes a method of inquiry rational? What, if anything, distinguishes "scientific reasoning" from other sorts of reasoning? More generally, what distinguishes good from bad reasoning? What is truth—is it relative? prereq: new college student in their first semester of enrollment at UMM

PHIL 1804. The Meaning of Life. (IC; 4 cr.; Student Option; Periodic Fall)
Introduces incoming students to college through a variety of philosophical readings on the topic of whether there is any meaning of life and, if so, what it is. prereq: new college student in their first semester of enrollment at UMM

PHIL 1805. Campus Quandaries: Moral Problems Raised by College Life. (IC; 4 cr.; Student Option; Periodic Fall)
An introduction to the methods of ethical inquiry as applied to moral debates of interest to first-year college students. Topics include controversies over free/hate speech, symbols of historical injustice, protests, consensual sex, drug use, and the purpose of a college education. prereq: new college student in their first semester of enrollment at UMM

PHIL 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PHIL 2101. Introduction to Symbolic Logic. (M/SR; 4 cr.; Student Option; Every Fall)
An introduction to formal or deductive logic, including basic concepts of logical argumentation; Aristotelian logic; and symbolic translations, truth tables, and theory of deduction. Samples from political speeches, philosophical essays as well as original LSAT questions are analyzed.

PHIL 2111. Introductory Ethics. (HUM; 4 cr.; Student Option; Every Spring)
An introduction to philosophical accounts of what makes right acts right and wrong acts wrong, issues involving the concept of goodness, and arguments or debates about moral responsibility.

PHIL 2112. Professional Ethics. (E/C; 4 cr.; Student Option; Every Fall)
A critical examination of moral issues that arise in a person's professional life. Possible topics include affirmative action, autonomy in the workplace, ethical issues in advertising, corporate responsibility, coercive wage offers, distributive justice, and sexual harassment. Issues concerning race, gender, and women are included in selected modules.

PHIL 2113. International and Biomedical Ethics. (HUM; 4 cr.; Student Option; Periodic Spring)
A general survey of topics in international and biomedical ethics. Topics may include: nuclear deterrence, humanitarian intervention, just war theory, famine relief, global justice, abortion, euthanasia, doctor-patient relationships, clinical trials, animal experimentation, and genetic engineering.

PHIL 2114. Environmental Ethics. (ENV; 4 cr.; Student Option; Spring Even Year)
Survey of fundamental theoretical debates in environmental ethics. General moral approaches are canvassed, as are the major positions in environmental ethics: anthropocentrism, sentientism, biocentric individualism, holism. Specific topics include: speciesism, the environmentalism-animal liberation debate, and the predation problem.

PHIL 2121. Philosophy of Religion. (HUM; 4 cr.; Student Option; Periodic Spring)
A selection of main philosophical issues concerning religion such as the notion of a divinity, the attempts to prove or refute the existence of a divine being, the relationship between faith and reason, the link between religion and morality, the knowledge of a divinity.

PHIL 2141. Analytic Feminism. (HUM; 4 cr.; Student Option; Periodic Spring)
Applies an analytical approach to issues discussed in feminist writings. A mixture of lecture and discussion. Requirements include essay exams, papers, attendance, service-learning projects with related reflective journals, and class participation.

PHIL 2151. Philosophy of Mind. (HUM; 4 cr.; Student Option; Periodic Fall & Spring)

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
An introduction to several problems in the philosophy of mind, such as the mind/body problem, consciousness, and psychological explanation.

PHIL 2161. Philosophy and Film. (HUM; 4 cr.; Student Option; Every Spring)
Addresses some traditional aesthetic questions about the status of film as well as examining film to be a form of philosophy. Also, the role of film as social commentary is discussed.

PHIL 2162. Ethics of Love and Sex. (HUM; 4 cr.; Student Option; Periodic Summer)
Survey of fundamental theoretical debates about the ethics of love and sex. Topics include: competing accounts of erotic love, the moral status of various sexual and romantic orientations, pornography, consensual incest, prostitution and sex tourism, BDSM/kink, and mediated sex (sex tapes, underagesexting, and tell-all memoirs).

PHIL 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PHIL 3101. Metaphysics. (HUM; 4 cr.; Student Option; Spring Even Year)
Explores fundamental metaphysical issues such as the nature of reality, the notion of personal identity, the relationship between language, thought, minds, and the world. Philosophical works of both classic and contemporary philosophers such as Plato, Aristotle, Quine, Putnam, and Kripke are discussed. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 3112. Free Will. (HUM; 4 cr.; Student Option; Periodic Spring)
Explores ancient and contemporary debates surrounding the nature of free will, its plausibility given prevailing theories of physics and mind, and its value. Possible topics include the relevance of free will to autonomy, moral responsibility, and living meaningfully. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 3121. Political Philosophy. (SS; 4 cr.; Student Option; Fall Even Year)
Explores fundamental issues in political philosophy (e.g., political authority; distributive justice; nature, origin, and justification of the state; natural and civil rights) by, among other things, an examination of the works of philosophers such as Plato, Hobbes, Mill, and Rawls. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 3131. Philosophy of Law. (SS; 4 cr.; Student Option; Spring Even Year)
Critical examination of theoretical and practical normative issues in the philosophy of law, especially questions regarding the justification of punishment.

PHIL 3141. The Theory of Knowledge. (HUM; 4 cr.; Student Option; Fall Even Year)
Explores historical and contemporary views on the limits, justification, and nature of human knowledge. Topics include experiential versus a priori knowledge, the nature of belief, skepticism, and different theories of justification. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 3151. History of Ancient Philosophy. (HIST; 4 cr.; Student Option; Fall Even Year)
Explores the views of philosophers such as Plato, Aristotle, Epicurus, and the Stoics. Possible topics include ancient views on the nature and possibility of knowledge, the relationship of the soul to the body, and what the good life is for a human being. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 3171. History of Modern Philosophy. (HIST; 4 cr.; Student Option; Spring Even Year)
Explores views of philosophers such as Descartes, Leibniz, Berkeley, Hume, and Kant. Possible topics include the relationship of the mind to the body, and whether and how it is possible to have knowledge of the external world. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PHIL 4000. History of Philosophy Seminar. (HIST; 4 cr. [max 8 cr.]; Student Option; Every Fall)
Intensive investigation of a particular philosophical problem, area, or work of a philosopher. Topics vary. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 4002. Existentialism. (HIST; 4 cr.; Student Option; Periodic Fall & Spring)
Examination of some prominent thinkers often classified as "existentialists": Kierkegaard, Dostoevsky, Nietzsche, Sartre, and Camus. Topics include what human freedom is, what makes a life authentic (or inauthentic), what role passion and choice should play in acquiring our beliefs and values, and what difference (if any) God's existence or non-existence makes on the significance of our lives. prereq: any 1xxx or 2xxx or instr consent

PHIL 4100. Moral Issues and Theories. (HUM; 4 cr. [max 8 cr.]; Student Option; Fall Even Year)
Intensive investigation of a particular problem, area, issue, or theory in moral philosophy. Possible topics include moral responsibility, autonomy, weakness of will, and self-deception. Topics vary. prereq: 2111 or instr consent

PHIL 4111. Ethical Theory. (HUM; 4 cr.; Student Option; Spring Even Year)
This course in metaethics focuses on the nature of moral obligation. Topics include: Can moral obligations change with the passage of time? Are genuine moral dilemmas possible? Does “ought” imply “can”? Is moral obligation overriding? Is there a genuine distinction between “subjective” and “objective” moral obligation? prereq: 2111 or instr consent

PHIL 4121. Philosophy of Language. (HUM; 4 cr.; Student Option; Spring Odd Year)
Traditional and contemporary discussions of philosophical problems such as the nature of language, its relationships to the world, to human thought, and to truth; the nature of logical reasoning; metalogical problems. Readings from philosophers such as Frege, Russell, Quine, Putnam, Goodman, Wittgenstein, and Kripke. prereq: 2101 or instr consent

PHIL 4130. Contemporary Issues in Philosophy. (HUM; 4 cr. [max 8 cr.]; Student Option; Fall Odd Year)
Exposure to, and critical examination of, philosophical issues of special contemporary interest. Topics may include the nature of analytic philosophy and its relationship to other philosophical traditions such as continental or feminist philosophy, the debate on realism and anti-realism, the notion of objectivity, prereq: 1101 or 2101 or 2111 or instr consent

PHIL 4131. Personal Identity, Proper Names, and Essences. (HUM; 4 cr.; Student Option; Periodic Fall & Spring)
A seminar primarily devoted to the discussion of readings, i.e., Naming and Necessity by Saul Kripke and Reasons and Persons by Derek Parfit. Questions such as: How do proper names function? Are there essential features of persons or objects? What makes each of us the same particular individual over time? prereq: 1101 or 2101 or 2111 or instr consent

PHIL 4900. History of Philosophy Seminar. (HIST; 4 cr.; Student Option; Every Fall)
Intensive investigation of a particular philosophical problem, area, or work of a philosopher. Topics vary. prereq: 1101 or 2101 or 2111 or instr consent

PHIL 4901. Senior Philosophical Defense. (; 2 cr.; A-F only; Every Fall & Spring)
Writing and defending a senior philosophical thesis is the culminating experience for UMM philosophy majors. Majors develop a piece of their philosophical writing, producing multiple drafts in response to comments from a variety of philosophical viewpoints, and then orally defend their thesis. prereq: phil major

PHIL 4902. Advanced Seminar in History of Philosophy. (HUM; 4 cr.; A-F only; Periodic Spring)
Advanced seminar on selected topics in the History of Philosophy. Students read and discuss primary source material on a topic of common interest. Additionally, each student investigates a related topic in greater depth, writes a paper, and gives a public presentation. prereq: 1101 or 2101 or 2111, sr status, instr consent

PHIL 4903. Advanced Seminar in Metaphysics and Epistemology. (HUM; 4 cr.; A-F only; Periodic Spring)
Advanced seminar on selected topics in the Metaphysics and Epistemology. Students read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth, writes a paper, and gives a public presentation. prereq: 1101 or 2101 or 2111, sr status, instr consent

PHIL 4904. Advanced Seminar in Value Theory. (HUM; 4 cr.; A-F only; Periodic Spring)
Advanced seminar on selected topics in Value Theory. Students read and discuss primary source material on a topic of common interest. In addition, each student investigates a related
PHYS 1053. Introduction to Stars, Galaxies, and Cosmology. (SCI; 4 cr.; Student Option; Every Spring) Gravity and electromagnetic radiation; nuclear physics; stellar properties; stellar evolution; galaxies; quasars; and cosmology. Stars and constellations of the winter sky. Night viewing sessions required. (4 hrs lect, 2 hrs lab) [Note: no cr for students who have received cr for Phys 1051]

PHYS 1052. The Solar System. (SCI-L; 5 cr.; Student Option; Every Fall) History of astronomy; motions of celestial objects; gravity and electromagnetic radiation; the Earth and Moon; the planets and their moons; meteors and asteroids; the Sun; telescopes and other astronomical instruments. Stars and constellations of the fall sky. Night viewing sessions required. (4 hrs lect, 2 hrs lab) [Note: no cr for students who have received cr for Phys 1051]

PHYS 1050. Journal Club. (1 cr. [max 4 cr.]; S-N only; Every Fall) Students learn about a wide variety of current topics in physics by reading and discussing recent journal articles.

PHYS 1005. General Physics I. (4 hrs lect, 2 hrs lab) prereq: 1091 interference and diffraction, optical instruments, refraction of light, mirrors and lenses, DC circuits, magnetism, induction, reflection and refraction of light, mirrors and lenses, interference and diffraction, optical instruments, radioactivity (4 hrs lect, 2 hrs lab) prerequisite: Math 1101 or instr consent

PHYS 1102. General Physics II. (SCI-L; 5 cr.; Student Option; Every Fall) Coulomb's law, electric field, Gauss's law, electric potential, capacitance, dielectrics, current, resistance, circuits, magnetic field, Ampere's law, inductance, Faraday's law, AC circuits, Maxwell's equations, electromagnetic waves, nature of light, reflection, refraction, optical instruments, interference, diffraction. (4 hrs lect and rec, 2 hrs lab) prerequisite: Math 1101, Math 1102 or instr consent

PHYS 2201. Circuits and Electronic Devices. (SCI-L; 2 cr.; Student Option; Spring Odd Year) An introduction to crystal lattices, Bravais lattices, electronic band structure in metals and semi-metals, cohesive energy of solids, phonon structure, magnetic properties. prerequisite: 2101, Math 2101

PHYS 3152. Particle and Nuclear Physics. (2 cr.; Student Option; Spring Even Year) Leptons, baryons, quarks, the weak interaction, the strong interaction, the Standard Model, Feynman diagrams, nuclear stability, the shell model, decay modes, nuclear reactions. prerequisite: 2101, Math 2101

PHYS 3301. Optics. (4 cr.; Student Option; Spring Even Year) Introduction to atmospheric physics with an emphasis on thermodynamics. Atmospheric thermodynamics including gas laws, phase transitions, laws of thermodynamics, two-component systems, atmospheric stability; radiative transfer including atmospheric optics and remote sensing; some aspects of atmospheric chemistry such as aerosols, chemical cycles, traces gases; cloud microphysics including nucleation and growth; and atmospheric dynamics including equations of motion for fluid flow, applications to weather systems. (4 hrs lect) [Note: no credit for students who have received cr for Phys 2301] prerequisite: 1092 or 1102, Math 1102

PHYS 3004. Atmospheric Physics. (ENVT; 4 cr.; Student Option; Fall Odd Year) Introduction to atmospheric physics with an emphasis on thermodynamics. Atmospheric thermodynamics including gas laws, phase transitions, laws of thermodynamics, two-component systems, atmospheric stability; radiative transfer including atmospheric optics and remote sensing; some aspects of atmospheric chemistry such as aerosols, chemical cycles, traces gases; cloud microphysics including nucleation and growth; and atmospheric dynamics including equations of motion for fluid flow, applications to weather systems. (4 hrs lect) [Note: no credit for students who have received cr for Phys 2301] prerequisite: 1092 or 1102, Math 1102

PHYS 4101. Electromagnetism. (4 cr.; Student Option; Fall Odd Year)
Vector calculus, electrostatics, Laplace and Poisson equations, dielectrics, magnetostatics, magnetic properties of matter, electromagnetic induction, Maxwell's equations, electrodynamics, electromagnetic waves. (4 hrs lect) prereq: 2101, Math 2101 or instr consent

**PHYS 4201. Quantum Mechanics.** (1-4 cr.; Student Option; Every Spring) Uncertainty principle, Schrödinger equation, commutation relations, momentum space wave functions, Dirac notation, applications to problems in one dimension and the hydrogen atom, angular momentum. (4 hrs lect) prereq: 2101, Math 2101

**PHYS 4901. Senior Thesis I.** (1 cr.; Student Option; Every Fall) Capstone experience in physics. Students work with recent journal articles in physics, practice technical writing, and identify a thesis topic. prereq: sr

**PHYS 4902. Senior Thesis II.** (1 cr.; Student Option; Every Spring) Students develop and present their senior theses orally and in writing. prereq: 4901

**Political Science (POL)**

**POL 1011. Introduction to Contemporary American Political Thought.** (1 cr.; Student Option; Periodic Summer) This course surveys main themes and controversies in U.S. political thought through examination of the 2016 presidential election. In particular, we will explore candidates' presentations of concepts such as liberalism, democracy, liberty, and rights as they seek support from political parties and voters.

**POL 1101. Introduction to Political Theory.** (E/CR; 4 cr.; Student Option; Every Spring) An introduction to key political concepts, questions, and ideologies through the writings of major political thinkers and examination of contemporary debates about political life.

**POL 1201. American Government and Politics.** (E/CR; 4 cr.; Student Option; Every Fail & Spring) Analysis of principles, organization, procedures, and powers of government in the United States. The federal system, national constitution, civil and political rights, party system, nature, structure, powers, and procedures of legislative, executive, and judicial departments of the national government.

**POL 1202. Law and Society: Introduction to Public Law.** (SS; 4 cr.; Student Option; Spring Odd Year) Law is a significant part of modern-day society and culture, especially in the United States. Examine the adversarial system of law and the various actors and institutions that influence and shape it in this country. In particular, look at where legal authority comes from and its limits in modern society. Explore the ways in which law acts to restrict and empower individuals and groups in society. This introductory level course is intended as a survey of the concept of public law both for students interested in taking upper-level courses dealing with legal and constitutional questions and for students simply interested in a greater understanding of why and how law matters in 21st-century society. It is taught using lectures mixed with some in-class activities and simulations.

**POL 1401. World Politics.** (IP; 4 cr.; Student Option; Every Fall) An introduction to international relations, covering the basic concepts, theories, and trends. The major issue fields include historical international systems, war and peace, foreign policy, diplomacy, national interests, international conflict and cooperation, international law, and international organizations.

**POL 1812. Political, Social, and Military Movements in U.S. Politics.** (IP; 4 cr.; Student Option; Periodic Fall) An in-depth look into war and terrorism from 1914 to the present. Why do nations go to war? Why do people resort to terrorism? How do we prevent war/terrorism and preserve peace? Grapple with these questions and by the end of the term, acquire a rich, sophisticated understanding of war/terrorism and independent, critical thinking skills on international conflicts as a whole. prereq: new college student in their first semester of enrollment at UMM

**POL 1993. Directed Study.** (1-5 cr. [max 10 cr.]; Student Option; Every Fail & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**POL 2001. Political Science Research Methods.** (SS; 4 cr.; Student Option; Every Fall) Students conceive and develop research questions and hypotheses; collect and critically review published research on their topic; analyze empirical evidence using statistical software; and write clearly, forcefully, and logically about their research. Examination of the philosophy and critiques of social-science methods. prereq: any 1xxx-level UMM Pol course, major or minor or instr consent

**POL 2221. The American Judicial Process.** (SS; 2 cr.; Student Option; Spring Even Year) A half-semester course examining the common law system as broadly practiced in the United States, including types of legal recourse, the structures of state and federal judicial systems, how judges are selected, and the various influences on their decisions.

**POL 2222. The U.S. Supreme Court.** (SS; 2 cr.; Student Option; Spring Even Year) A half-semester course specifically looking at the role of the Supreme Court in U.S. politics with an emphasis on its historical development, how it interacts with the other federal branches, and the decision-making process of the justices on the Court.

**POL 2234. Race, Class and Power: Social Movements in U.S. Politics.** (HDIV; 2 cr.; Student Option; Spring Odd Year) Using a case study approach, this half-semester course examines a variety of social movements from across U.S. history. Addresses questions such as why social movements arise, how they succeed or fail, and how the American political system adapts to their influence.

**POL 2235. Race, Class and Power: Interest Groups in U.S. Politics.** (HDIV; 2 cr.; Student Option; Spring Odd Year) A half-semester course focusing on the growth and importance of interest groups in U.S. politics by looking at different types of interest groups, the tactics they use to try to influence the political system, how successful they are at doing so, and whether this system works for the public good.

**POL 2261. States: Laboratories of American Democracy.** (E/CR; 2 cr.; Student Option; Spring Odd Year) Examination of the ways American democracy functions in the states. Analysis of principles, organizations, procedures, and functions of state government in the United States, with particular emphasis on comparing state politics and policy outcomes. [Note: no credit for students who have received credit for Pol 3261] prereq: 1201 or instr consent

**POL 2262. Power and Politics in American Cities and Communities.** (E/CR; 2 cr.; Student Option; Spring Odd Year) Explores the nature of political power and institutions in urban, suburban, and rural communities, along with cultural and economic forces. Analyzes political and policy trends in metropolitan regions and rural areas. Includes relevant experiential or service projects in surrounding communities.

**POL 2301. Anarchy and Utopia.** (HUM; 2 cr.; Student Option; Fall Odd Year) An analytical survey of anarchist thought and utopian ideals that are used to challenge modern political and social systems. The course draws from scholarly work as well as fiction, films, and mixed media sources.
POL 2302. Gandhi and the Politics of Resistance. (SS: 2 cr.; Student Option; Fall Odd Year)
A study of Gandhi's theory and practice of satyagraha and swaraj as forms of nonviolent political resistance and human realization. Places Gandhi within the historical and theoretical context of Indian political thought and colonialism and examines the influence of Gandhi's politics of resistance on international political theory.

POL 2354. Political Ethics. (E/CR; 4 cr.; Student Option; Fall Even Year)
Examination of the political leadership and decision making. Ethical frameworks drawn from theoretical readings are applied to a range of historical and contemporary case studies, including an extended role-playing simulation. [Note: no credit for students who have received credit for Pol 3354]

POL 2401. U.S. Foreign Policy. (IP; 4 cr.; Student Option; Fall Even Year)
American diplomatic history. Institutions and processes of American foreign policy. Major factors to be considered and levels of analysis that allow for the examination and dissemination of foreign policy decisions. [Note: no credit for students who have received credit for Pol 3401]

POL 2411. Model United Nations. (IP; 4 cr.; Student Option; Spring Even Year)
Students examine the nature and functions of the United Nations and hone their negotiating skills through a series of mock UN conferences. The issue areas to be covered include peace and security, social justice, economic well-being, nuclear proliferation, environment, and human rights.

POL 2461. Diplomatic Negotiation. (IP; 4 cr.; Student Option; Periodic Fall & Spring)
Discusses negotiation strategies and tactics and examines negotiation skills through a series of simulated negotiations and mock conferences. Diplomacy, negotiation styles, negotiation simulations, and mock conferences. [Note: no credit for students who have received credit for Pol 3461]

POL 2501. East Asian Society and Politics. (SS: 4 cr.; Student Option; Fall Odd Year)
Examination of governments, political and leadership changes, and economic developments in China, Japan, and Korea. Modernization, democratization, political pluralism, revolution, authoritarianism, and civil-military relations. [Note: no credit for students who have received credit for Pol 3501]

POL 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

POL 3201. Legislative Process. (SS: 4 cr.; Student Option; Periodic Fall & Spring)
The internal organization of Congress and state legislatures, with emphasis on how rules and organizational changes affect the policy process. Topics include the evolution of the modern Congress and state legislatures, the committee system, the role of party leadership, and competing theories of congressional organization and behavior. prereq: 1201 or instr consent

POL 3211. The American Presidency. (SS: 4 cr.; Student Option; Periodic Fall & Spring)
Traces the development of the American presidency over time. Major theories of presidential behavior and success are examined, as well as the literature on presidential popularity and executive/ congressional relations. prereq: 1201 or instr consent

POL 3231. Constitutional Law: Civil Liberties and Civil Rights. (HDIV; 4 cr.; Student Option; Fall Even Year)
Case-based examination of major Supreme Court opinions primarily dealing with the Bill of Rights and including topics such as freedom of religion, speech and the press, rights of the accused, and struggles over the right to privacy and how to guarantee civil rights protections. [Note: this course is one part of a two-part set of courses covering Constitutional Law; these courses may be taken in any order] prereq: 1201 or instr consent

POL 3232. Constitutional Law: Governmental Powers and Constraints. (SS: 4 cr.; Student Option; Fall Odd Year)
Case-based examination of major Supreme Court opinions dealing with separation of powers, checks and balances, and issues of federalism. Specific topics include the importance of due process, the Contract Clause, the power to tax and spend, the Commerce Clause, and the struggle to define national and state powers. [Note: this course is one part of a two-part set of courses covering Constitutional Law; these courses may be taken in any order] prereq: 1201 or instr consent

POL 3251. American Democracy in Action: Campaigns, Elections, and Political Behavior. (SS: 4 cr.; Student Option; Fall Even Year)
Examination of the American system of choosing new political leaders and the reasons behind political engagement and making specific voting choices. Attention is paid to the demographics of who does and does not participate, what happened in recent elections, and how American voting behavior has changed and is changing. There is a significant focus on the mid-term or presidential elections which occur during the semester the course is offered, including the creation and implementation of a poll of voters. [Note: no credit for students who have received credit for Pol 4251] prereq: 1201 or instr consent

POL 3263. Political Psychology. (SS: 4 cr.; Student Option; Spring Even Year)
Examines the intersection of political science and psychology research, particularly on topics such as personality, emotions, and cognition. Explores the various roles of individuals and groups in political decision-making, emphasizing the connections between how we think and learn and how we structure society and make political choices. prereq: 1201; Psy 1051 or instr consent recommended

POL 3266. Media in American Politics. (SS: 4 cr.; Student Option; Fall Odd Year)
Examination of the relationships between mass media, government, and public in American democracy. Focus on the role of informed citizenry in theories of U.S. democracy, role of media in informing the U.S. citizenry, and the methods by which this occurs or fails to. Specific attention is given to the ways media influences public opinion, the effects of media, such as framing, agenda setting, and priming, and relationship of media, public opinion, and elites in politics. [Note: no credit for students who have received credit for Pol 4266] prereq: 1201 or instr consent

POL 3272. Making Environmental Public Policy. (ENVT; 4 cr.; Student Option; Spring Odd Year)
Exploration of the domestic and international politics of environmental and energy policy making. Focus on theoretical frameworks for policy making and political behaviors surrounding development of environmental and energy policies. Includes the applications of political dynamics and principles to specific areas of environmental and energy policy. Emphasis also given to politics of policy implementation. prereq: 1101 or 1201 or 1401

POL 3302. Islamic Political Thought. (SS: 2 cr.; Student Option; Fall Even Year)
Examination of classical and contemporary perspectives on Islam and politics that draws from a diverse range of Muslim and non-Muslim political thinkers and scholars. Particular attention given to the global discourse on Islam and democracy. prereq: 1101 or instr consent

POL 3303. Gender, Sexuality, and Political Theory. (SS: 2 cr.; Student Option; Fall Even Year)
Examination of the politics of sex, gender, and sexuality through study of contemporary critical analyses within political theory. prereq: 1101 or instr consent

POL 3351. Ancient and Medieval Political Thought. (HUM; 4 cr.; Student Option; Spring Even Year)
A survey of Western social and political thought from 5th century BCE through the 15th century. Includes two extended role-playing simulations on the Athenian Assembly at the time of the trial of Socrates and the Roman Republic at the time of Julius Caesar's assassination. prereq: 1101 or instr consent

POL 3352. Modern Political Thought. (HUM; 4 cr.; Student Option; Spring Odd Year)
A survey of Western social and political thought from the 16th through the 19th centuries. Includes an extended role-playing simulation on theReformation Parliament’s debates on secular rule and separation from the Church during the reign of King Henry VIII. prereq: 1101 or instr consent

POL 3355. Environmental Political Theory. (ENVT; 4 cr.; Student Option; Fall Odd Year)
An examination of political understandings of the relationship between humans and the natural environment. Topics include international perspectives on the natural
environment, technological optimism and survivalism, the tragedy of the commons, environmental direct action movements, the environmental justice movement, and theories of green democracy and citizenship.

**POL 3411. International Law.** (IP; 4 cr.; Student Option; Spring Odd Year)
An introduction to public international law, examining basic concepts, theories, and legal cases in international law. Includes the nature of international law, recognition, succession, the rights and duties of international persons, the individual and international law, territorial questions, and laws of war. prereq: 1401 or instr consent

**POL 3451. Comparative Foreign Policy.** (; 4 cr.; Student Option; Spring Even Year) Comparative examination of foreign policies of the United States, China, and Russia. Topics include Sino-American relations, Sino-Russia relations, China's rise, Russia's resurgence, global war on terrorism, and nuclear proliferation. [Note: no credit for students who have received credit for Pol 4451]
prereq: 1401 or instr consent

**POL 3453. Russian Politics and Foreign Policy.** (IP; 4 cr.; Student Option; Periodic Spring) Domestic and foreign policies of Russia and the former Soviet Union from the Bolshevik Revolution to the present. Nature of the Soviet empire, Russian Federalism, democratic and market reforms, and Russian foreign relations.
prereq: 1401 or instr consent

**POL 3475. International Human Rights.** (4 cr.; Student Option; Spring Even Year) Explores the historical and philosophical development of concepts of human rights and the contemporary international political and legal frameworks to address rights. Analyzes contemporary concerns about political, economic, and social rights, as well as specific human rights topics like human trafficking and war crimes. Compares American, European, Asian, and Developing World conceptions and critiques of human rights.
prereq: 1401 or instr consent

**POL 3504. Latin American Politics.** (4 cr.; Student Option; Periodic Fall) A comparative examination of central issues in and components of Latin American political life, with a particular focus on economic development, political development of democratic regimes, political violence and human rights, and the region's role in the world. Countries analyzed may include Argentina, Brazil, Chile, Colombia, El Salvador, Mexico, Peru, and Cuba.
prereq: 1401 or instr consent

**PSY 1051. Introduction to Psychology.** (4 cr.; Student Option; Every Fall) An introduction to the science of mind and behavior. Topics include history of psychology, research methods, biological bases for behavior, life span development, sensation and perception, learning, cognitive and social processes, personality, psychopathology, and applications of psychology.

**PSY 1026. Reclaiming Happiness.** (1 cr.; 2 cr.; S-N only; Every Fall & Spring) How to maintain wellbeing through practices in positive psychology, including cultivating optimism and positive emotions, reining negative bias, identifying personal strengths, optimism, gratitude, engagement, meaning and purpose, and positive relationships in support of personal wellbeing and success. [Note: only one credit may be applied to the Psy major or minor]

**PSY 1053. Seminar in Political Science.** (4 cr.; Student Option; Spring Odd Year) The course includes class meetings based on scholarly readings, student-led critical discussion, as well as time devoted to independent research leading to a substantive research project.

**PSY 1993. Directed Study.** (1-5 cr.; max 5 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**Psychology (PSY)**

**PSY 1012. Reclaiming Happiness.** (1 cr.; max 2 cr.; S-N only; Every Fall & Spring)
How to maintain wellbeing through practices in positive psychology, including cultivating optimism and positive emotions, reining negative bias, identifying personal strengths, optimism, gratitude, engagement, meaning and purpose, and positive relationships in support of personal wellbeing and success. [Note: only one credit may be applied to the Psy major or minor]

**PSY 1807. Drugged Society: Humanity's Long-term Relationship with Mind-altering Substances.** (IC; 2 cr.; Student Option; Periodic Fall) Mind-altering substances have been part of the human experience since before written history. This seminar/discussion-based course explores the many ways drugs and drug trade have impacted human societies and cultures. Examples of topics include the role of drug trade in European colonization, the connections between drugs and religion and spirituality, development of legal restrictions, the influence of drugs on arts and literature, and the like. This interdisciplinary course requires active classroom participation and the completion of a research project and presentation with both individual and group components, prerequisites: new college student in their first semester of enrollment at UMM

**PSY 2402. Family Interaction Dynamics.** (SS; 4 cr.; Student Option; Periodic Fall) Families are known for their complexity. Focus is on the development of families, their interactive relationships, and the influence of external factors (e.g., stress) and individual decisions. Includes a general examination of various theories, contemporary research, and practical applications of family life development. Analyze research related to family interaction processes across the family life span with an emphasis on relationship dynamics and cultural differences.

**PSY 2411. Lifespan Developmental Psychology.** (SS; 4 cr.; Student Option; Every Fall) An introduction to theory, data, and research approaches in development from the prenatal period through childhood, adolescence, adulthood, and aging until the cessation of life. Includes physical, perceptual, cognitive, language, moral, personality, socio-emotional, family, and career development and changes over time, as well as issues of death, dying, and bereavement. Includes a multicultural focus.

**PSY 2581. Drugs and Human Behavior.** (SS; 2 cr.; Student Option; Every Fall, Spring & Summer) Survey of psychoactive drugs, their effects on mind and behavior, and prevention and treatment of drug abuse. [Note: no credit for students who have received credit for Psy 1081] prereq: 1051 or instr consent

**PSY 2993. Directed Study.** (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**PSY 3051. The Psychology of Women and Gender.** (HDIV; 4 cr.; Student Option; Every Spring)
Exploration of the interactive biological, psychological, and socio-cultural processes that shape the lives of women and the experience of gender. Topics include: the psychobiology of sex; the social construction of sex and gender; socialization and development; media representations; identity and sexuality; language and communication; motivation and personality; relationships; work and family lives; mental and physical health; mid- and later life development; victimization; therapy; intersections of race, class, and gender; and feminist approaches to teaching, learning, and knowing. prereq: 1051 or instr consent

PSY 3101. Learning Theory and Behavior Modification. (4 cr.; Student Option; Every Fall)
Major theories of learning and their importance for understanding human and nonhuman behavior. Classical and operant conditioning, generalization, discrimination, stimulus control, animal cognition. Behavior modification theories and techniques and their application to clinical populations. Lab projects demonstrate learning and behavior modification theories, concepts, and techniques and illustrate research methods and theory testing. Includes lab. prereq: 2001 or instr consent

PSY 3111. Sensation and Perception. (4 cr.; Student Option; Every Fall)
Empirical study of sensory processes and perceptual organization with emphasis on vision and audition. Anatomy and physiology of sense organs, psychophysics, signal detection theory, attention, speech perception, and perceptual-motor coordination. Includes lab. prereq: 2001 or instr consent

PSY 3112. Cognition. (4 cr.; Student Option; Every Spring)
Empirical study of memory, language behaviors, representation of knowledge, judgment, decision making, problem solving, and creative thinking. Includes lab. prereq: 2001 or instr consent

PSY 3121. Psychology of Creativity. (4 cr.; Student Option; Periodic Fall)
Theory and research in the study of creative individuals and creative behavior from various psychological perspectives. Topics include: cognitive, biological, developmental, social, and cultural approaches to understanding creativity. prereq: at least 8 credits of Psy at 2xxx or above

PSY 3201. Comparative Psychology. (SCI-L; 4 cr.; Student Option; Every Spring)
Comparison of the causations of human and non-human animal behavior from both an evolutionary and biological point of view. The contributions of evolutionary selection pressures, genetics, environment, learning, and culture on the expression of behavior in a wide variety of species, through topics such as adaptation, fitness, altruism, social behavior, parental care, reproductive behavior, mating systems, and aggression. Focus on explaining modern human behavior as informed by non-human behavior. Includes lab component. prereq: [1051, 2001] or Biol 2111

PSY 3211. Biological Psychology. (SCI-L; 5 cr.; Student Option; Every Fall)
Brain organization and function; an emphasis on an understanding of the neural processes that underlie human and nonhuman behavior. Incorporates information from psychology, neuroscience, endocrinology, physiology, chemistry, neurology, and zoology to investigate the physiological bases of behavior. Topics include sensory processes, drugs and addiction, biological rhythms, sexual differentiation, reproduction, methods in neuroscience, neuropsychological disorders, and clinical assessment. Lab projects focus on neuroanatomical research methods and function of the brain. (4 hrs lect, 1 hr lab) prereq: [1051, 2001] or Biol 1101 or Biol 1111

PSY 3261. Human Sexuality. (4 cr.; Student Option; Every Spring)
Survey of aspects of human sexuality, including intimacy and communication; male and female anatomy, physiology, and response; development of sexual differentiation, gender identity, gender role, and gender orientation; varieties of sexual expression; pregnancy and child birth; contraception and disease prevention; sexual coercion and abuse; sexual dysfunctions and their treatment. prereq: 1051

PSY 3302. Personality. (4 cr.; Student Option; Every Spring)
Nature of personality constructs and theories. Conscious vs. unconscious processes; emotion and motivation; nature and measurement of personal traits; their dimensional structure, stability, development, and heritability. prereq: 1051 or instr consent

PSY 3313. Psychopathology. (4 cr.; Student Option; Every Spring)
Psychological disorders and their treatment, including anxiety, personality, mood, schizophrenia, eating, substance and other recognized disorders of adults. prereq: 1051 or instr consent

PSY 3314. Child and Adolescent Psychopathology. (4 cr.; A-F only; Every Fall)
Broad overview of child and adolescent psychopathology--initially focusing on understanding basic concepts, historical context, developmental influences, theoretical perspectives, research methodology, and issues related to classification and assessment--followed by comprehensive information concerning the major childhood disorders (e.g., ADHD, depression, anxiety, pervasive developmental disorders). prereq: 1051 or instr consent

PSY 3401. Child Development. (4 cr.; Student Option; Every Spring)
Theory, data, and research in development from conception to middle childhood. Prenatal and physical development as well as perceptual, cognitive, personality, and social development. Language acquisition and Piaget's theory of cognitive development. prereq: 1051 or instr consent

PSY 3402. Adolescent and Emerging Adult Development. (4 cr.; Student Option; Every Spring)
Theoretical perspectives and research on adolescence and emerging adulthood as distinct stages of the life cycle. Focuses on developmental issues central to the transition from childhood to adulthood, including: puberty and physical development, cognitive and socioemotional development, identity formation, dating and sexuality, family and peer relationships, school and work, culture and media, and the challenges faced by today's adolescents. prereq: 1051 or instr consent

PSY 3403. Adult Development and Aging. (E/CR; 4 cr.; Student Option; Every Fall)
An introductory exploration of the health, individual, social, and cultural factors associated with adult development (e.g., young adulthood, middle age, and older adulthood). Provides an overview of current concepts, gerontological theories, and current methodology in the study of adult development and aging. Students become familiar with the physical aging process, society's perceptions of aging, aging family relationships, and end of life preparation and planning. prereq: 1051 or instr consent

PSY 3404. Culture and Human Development. (HDIV; 4 cr.; Student Option; Every Fall)
Examination of the role of culture in human development through current research and examples from around the world. Learn about similarities and cultural differences in human development, and the regularities that explain these variations. Topics include the concept of culture in developmental psychology, diversity in child rearing practices: enculturation, gender roles, schooling, development in multicultural contexts, and the influence of technology and cultural change on development. Students learn to think culturally about their own development and see how it applies to their future careers. prereq: 1051

PSY 3501. Social Psychology. (4 cr.; Student Option; Every Fall)
Theories and research in the study of interpersonal behavior. Topics include aggression, prejudice, altruism, persuasion, group dynamics, and social influence. prereq: 1051 or Soc 1101 or instr consent

PSY 3503. Consumer Behavior. (SS; 4 cr.; Student Option; Every Spring)
Same as Mgmt 3503. Psychological basis for understanding consumers. Some of the topics include consumer behavior, consumer cognitive processes, and consumer judgments and decisions. prereq: Stat 1601 or Stat 2601 or instr consent

PSY 3504. Educational Psychology. (4 cr.; Student Option; Every Spring)
Discussion of psychological principles/theories in relation to learning in academic settings. Topics may include: a consideration of developmental and social issues that are likely to impact the learner; a discussion of individual differences in learning; an examination of different theoretical approaches to learning applied specifically to educational settings; an analysis of factors related to student motivation and behavior; and a discussion of...
issues related to testing and measurement in academic settings. [Note: includes a lab component] prereq: 1051, 2001

**PSY 3513. Negotiation.** (4 cr.; Student Option; Periodic Fall & Spring)
Same as Mgmt 3513. Examines the theoretical and applied aspects of negotiation. Topics include negotiation theory, strategy, skills and tactics, communication processes, global negotiation, and ethics. Use of negotiation simulations. prereq: 3501 or Mgmt 3221 or Psy/ Mgmt 3701

**PSY 3521. Health Psychology.** (4 cr.; Student Option; Every Spring)
Health implications of interactions among behavioral, environmental, and physiological states. Physiological bases of behavior and health; stress and coping; behavioral antecedents of disease; psychoneuroimmunology; disease prevention and health promotion. [Note: includes lab component] prereq: 1051, 2001

**PSY 3542. Multicultural Psychology.** (HDIV; 4 cr.; Student Option; Every Spring)
Theoretical and methodological approaches to multicultural psychology. Multicultural psychology is the systematic study of behavior, cognition, and affect settings where people of different backgrounds interact. Exploration of these interactions both within and outside of the United States. Topics may include worldview, communication styles, acculturation, prejudice, white privilege, identity development, physical and mental health, and multicultural competencies. prereq: 1051

**PSY 3581. Psychopharmacology.** (2 cr.; Student Option; Every Spring)
Biological and behavioral aspects of drug use, abuse, and addiction. Includes focus on therapeutic drugs used to treat psychiatric conditions as well as drugs of abuse. prereq: C- or better in 2581

**PSY 3611. History and Philosophy of Psychology.** (HIST; 4 cr.; Student Option; Spring Odd Year)
Historical roots and comparative features of major theoretical systems in psychology, including scientific methodology, research interests, and techniques. Movements within psychology that are discussed include: structuralism, functionalism, behaviorism, Gestaltism, psychoanalytic, and existential movements and their modern syntheses, as well as other topics of interest to students. prereq: 1051 or instr consent

**PSY 3701. Organizational Behavior.** (SS; 4 cr.; Student Option; Periodic Fall)
Same as Mgmt 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace; group dynamics; power, leadership, and attribution theory. prereq: Stat 1601 or Stat 2601, Jr or Sr

**PSY 3800. Research Practicum.** (1-12 cr.; S-N only; Every Fall & Spring)
Research activity carried out under the supervision of a psychology faculty member.

**PSY 3993. Directed Study.** (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**PSY 4101. Helping Relationships.** (4 cr.; Student Option; Every Fall)
Approaches to counseling and psychotherapy. Theories of helping relationships. Acquisition of helping skills, including attending behavior, reflection of feeling, paraphrasing, confrontation, and summarization. Major humanistic, cognitive, and behavioral approaches. Didactic instruction, observation of counseling and psychotherapeutic techniques, and practical experiences. prereq: 8 cr or 3xxx or 4xxx Psy or Soc or Anth courses or instr consent

**PSY 4102. Intro to Prof Conduct, Legal Constraints, Ethics in Human Services.** (E/ CR; 2 cr.; Student Option; Every Fall & Spring)
Concepts of professional ethics in human services professions; ethically relevant service mandates and constraints on professional practice; practical problems in the application of ethical principles. [Note: no credit for students who have received credit for IS 4101] prereq: Jr, 8 cr 3xxx or 4xxx Psy or Soc or Anth courses or instr consent

**PSY 4301. Clinical Assessment and Therapeutic Interventions.** (4 cr.; Student Option; Every Spring)
Evaluation of psychological assessments and interventions from different perspectives. Example topics: structured and unstructured assessments; career counseling and assessment; motivational interviewing; family and couples therapy; interpersonal therapy; group therapy; and solution-focused therapy. prereq: 3313 or 3314 or 4101

**PSY 4770. Empirical Investigations in Psychology I.** (2 cr.; A-F only; Every Fall)
This class provides students with an opportunity to conduct their own research. Students work independently or in groups. Students review an area of psychology, generate a hypothesis, design a study and obtain IRB approval. prereq: 2001, instr consent; no credit for 4770 until 4772 is completed

**PSY 4771. Independent Research in Psychology.** (1-6 cr. [max 12 cr.]; A-F only; Every Fall & Spring)
Supervised independent research by a student in any area of psychology. A research proposal may be required by a faculty member prior to approval to enroll in the course. The student is required to write an APA style research paper or give a public presentation. prereq: 2001, instr consent

**PSY 4772. Empirical Investigations in Psychology II.** (2 cr.; A-F only; Every Spring)
Based on previous work in 4770, students collect and analyze data, submit and present their research to the Undergraduate Research Symposium or other instructor approved venue, and write an APA style research paper. prereq: 4770, instr consent

**PSY 4896. Field Experiences in Mental Health.** (1-4 cr.; S-N only; Every Fall & Spring)
Individually arranged, supervised observation and assistance with activities of licensed mental health providers (e.g., Licensed Psychologists, Licensed Clinical Social Workers, Licensed Counselors, Marriage and Family Therapists) in schools, clinics, hospitals, and other field settings [Note: only 4 cr may be applied to the BA or the Psy major or minor] prereq: normally requires 4101, 4102, other courses appropriate to field experience.

**PSY 4910. Advanced Seminar in Learning or Cognitive Psychology.** (4 cr.; A-F only; Every Spring)
Advanced seminar on selected topics in the area of Learning or Cognitive Psychology. Members of the seminar read and discuss primary source material on a topic of current interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation. prereq: 2001, 3101 or 3111 or 3112 or 3504, sr status, instr consent

**PSY 4920. Advanced Seminar in Biological or Comparative Psychology.** (4 cr.; A-F only; Every Spring)
Advanced seminar on selected topics in the area of Biological and Comparative Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation. prereq: 2001, 3201 or 3211, sr status, instr consent

**PSY 4930. Advanced Seminar in Clinical or Multicultural Psychology.** (4 cr.; A-F only; Every Fall)
Advanced seminar on selected topics in the area of Personality or Clinical Psychology. Members of the seminar read and discuss primary source material on a topic of current interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation. prereq: 2001, 3302 or 3313 or 3314 or 3542, sr status, instr consent

**PSY 4940. Advanced Seminar in Developmental Psychology.** (4 cr.; A-F only; Every Fall)
Advanced seminar on selected topics in the area of Developmental Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation. prereq: 2001, 3401 or 3402 or 3403, or 3404, sr status, instr consent

**PSY 4950. Advanced Seminar in Social or Organizational Psychology.** (4 cr.; A-F only; Every Spring)
Advanced seminar on selected topics in the area of Social Psychology. Members of the
seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation. prereq: 2001, 3521 (or 3201 and 3211), sr status, instr consent

PSY 4970. Advanced Seminar in Psychology. (4 cr. ; A-F only; Every Fall & Spring) Advanced seminar on selected topics in the area of Psychology. Members of the seminar read and discuss primary source material on a topic selected by the instructor. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation. prereq: 2001, one or more courses from 3 of the 5 psy major cores, sr status, instr consent

PSY 4993. Directed Study. (1-5 cr. ; max 10 cr. ; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Science Education Methods (SCIE)

SCIE 4121. Methods of Teaching Science in the Middle and Secondary School. (4 cr. ; A-F only; Every Fall) Objectives, curricula, special methods, materials, and evaluation appropriate for teaching science in the middle and secondary school. prereq: admission to the secondary teacher education program or elementary education program, coreq SeEd 4102, SeEd 4103 or prereq ELED 3202, ELED 3212

Secondary Education (SEED)

SEED 3993. Directed Study. (1-5 cr. ; max 10 cr. ; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SEED 4102. Teaching and Learning Strategies. (2 cr. ; A-F only; Every Fall) Provides greater depth in previously taught concepts and skills, including teaching and learning strategies for middle and secondary classrooms, planning for lesson and unit instruction and assessment, learning theory, use of technology in the classroom, discipline, and classroom management. prereq: admission to the secondary teacher education program; coreq 4103, 4104, 4105, methods

SEED 4103. Practicum Experience in the Middle and Secondary School. (4 cr. ; S-N only; Every Fall) Field experience in the middle and secondary school. Prereq: admission to the secondary teacher education program; coreq 4102, 4104, 4105, methods

SEED 4104. Teaching Diverse Learners. (HDIV; 2 cr. ; A-F only; Every Fall) Study of teaching/learning in diverse settings. Topics include learning styles; multicultural education; race, gender, sexual orientation, culture, and class; effects of inequity on schooling; preventing and responding to prejudice and discrimination; and intercultural communication. prereq: admission to the secondary teacher education program; coreq 4102, 4103, 4105, methods

SEED 4105. Reading and Literacy in the Content Areas. (2 cr. ; A-F only; Every Fall) Study of how teachers in the various academic disciplines can support reading and literacy in their classrooms and use reading and literacy to enhance learning in the disciplines. Topics include theory and instructional strategies in the areas of reading comprehension, fluency, and vocabulary development. prereq: admission to the secondary teacher education program; coreq 4102, 4103, 4104, methods

SEED 4115. Advanced Content Reading. (HUM; 2 cr. ; A-F only; Every Fall) Study of how teachers in the various academic disciplines can support reading and literacy in their classrooms and use reading and literacy to enhance learning in the disciplines. Topics include subject-specific theories, strategies, and projects. prereq: 4105

SEED 4201. Directed Student Teaching in the Middle and Secondary School. (HDIV; 12 cr. ; S-N only; Every Spring) Students teach for a period of at least 12 weeks, demonstrating application of approaches to teaching and learning in the middle and secondary grades under the guidance of a cooperating teacher and University supervisor. [Note: special fee required] prereq: 4102, 4103, 4104, 4105, methods, CMR 1042 or CMR 1052, passing scores on basic skills exams or instr consent

SEED 4202. Directed Student Teaching in the Middle and Secondary School. (1-16 cr. ; S-N only; Every Fall & Spring) For students who need alternative or additional student teaching experience. Students demonstrate application of approaches to teaching and learning in middle and secondary grades under the guidance of a cooperating teacher and University supervisor. [Note: special fee required] prereq: passing scores on basic skills exams or instr consent

SEED 4204. Directed Global Student Teaching at the Middle and Secondary Level. (IP; 1-16 cr. ; Student Option; Every Fall, Spring & Summer) Students complete Global Student Teaching demonstrating application of approaches to teaching and learning in the middle and secondary grades under the guidance of a cooperating teacher and University supervisor.

Social Science Educ Methods (SSCE)

SSCE 4121. Methods of Teaching Social Science in the Middle and Secondary School. (4 cr. ; A-F only; Every Fall) Objectives, curricula, special methods, materials, and evaluation appropriate for teaching social science in the middle and secondary school. prereq: admission to the secondary teacher education program or elementary education program, coreq SeEd 4102, SeEd 4103 or prereq ELED 3202, ELED 3212

Sociology (SOC)

SOC 1101. Introductory Sociology. (SS; 4 cr. ; Student Option; Every Fall & Spring) Introduction to the field of sociology, the exploration of societies, and how societies operate. Sociology broadens social insights, fosters critical thinking, guides analytical thinking, and develops writing skills. By actively thinking about issues facing societies today, students learn to examine life situations and the influence of societies and groups on people’s lives, careers, hopes, fears, and personalities. Emphasis on how society is stratified: how organizations and institutions influence the way people think, talk, feel, and act and how different groups (e.g., racial and ethnic) and divisions (e.g., gender and social class) within society have different access to power and privilege. People live their lives in relation to social and physical environments; sociologists study these environments and their effects on people’s experiences and behavior.

SOC 1993. Directed Study. (1-5 cr. ; max 10 cr. ; Student Option; Every Fall & Spring) Individualized on- or off-campus research project or other learning activity not covered in the regular Sociology curriculum. Topic determined by the student and instructor.

SOC 2101. Systems of Oppression. (HDIV; 4 cr. ; Student Option; Every Fall) Patterns of group dominance, exploitation, and hate in the United States and globally. Emphasis on sexism, racism, and classism with some attention to other systems of oppression such as heterosexism and ageism. prereq: 1101 or Anth 1111 or instr consent

SOC 2201. Sociology of Food. (HDIV; 4 cr. ; Student Option; Spring Odd Year) Introduces students to the sociological study of food and society. Examines the complexities of food, health, and power relations as well as the intersections of food with race, class,
Explore the emergence and function of law through the lens of social theories. The course assumes law is embodied in the social structure of society; hence, it is the product of social interaction. Based on this assumption, it examines the role of law in maintaining and reproducing social order, class, race, and gender inequalities. The course is interdisciplinary and comparative in its scope and integrates jurisprudence and various social science theories. prereq: 1101

SOC 3212. Sociology of Childhoods. (HDIV; 4 cr. ; Student Option; Spring Odd Year) Introduces students to the sociological study of childhoods. Examines the interaction between societies and their youngest members—how societies shape children's lives through social institutions such as families, education, and the state. Takes a close look at children's access to privileges and resources as determined by children's experiences of race, gender, class, nationality, and sexual orientation. prereq: 1101 or Anth 1111 or instr consent

SOC 3251. African Americans. (HDIV; 4 cr. ; Student Option; Periodic Fall & Spring) Examination of African American religious, economic, political, family, and kinship institutions in the context of the greater American society. Struggles to overcome problems and the degree of success or failure of these struggles are examined and placed in historical context. prereq: 1101 or Anth 1111

SOC 3252. Women in Muslim Society. (IP; 4 cr. ; Student Option; Periodic Spring) The cultures and social statuses of women in several Muslim countries are examined and placed in their political, economic, and religious contexts. prereq: 1101 or Anth 1111

SOC 3307. Medical Sociology. (SS; 4 cr. ; Student Option; Every Spring) Introduction to the study of the sociological framework of health, illness, and health care. Examination of the influence of race, ethnicity, gender, age, sex, and socioeconomic status on the access to the quality of health care. Exposes students to the concept of health and illness as social constructs, and the meanings and experiences of illness from diverse cultural perspectives. Provides analytical tools to understand the organization and delivery of medical and health care, the relationship between providers and patients in the social and cultural context, the social implication of biomedical innovation, and the U.S. health policy. prereq: 1101

SOC 3403. Sociological Theory. (4 cr. ; Student Option; Every Fall) Survey of major developments in sociological theory, with attention to both classical and contemporary variants. Emphasis on sociological ideas in relation to the principal intellectual currents of European society, American society, and non-Western thought. prereq: 1101; 4 addtl cr in Soc recommended

SOC 4993. Directed Study. (1-5 cr. ; max 10 cr. ; Student Option; Every Fall & Spring) Individualized on- or off-campus research project or other learning activity not covered in the regular Sociology curriculum. Topic determined by the student and instructor.

Spanish (SPAN)

SPAN 1001. Beginning Spanish I. (; 4 cr. ; Student Option; Every Fall & Summer) Development of basic skills of Spanish (reading, speaking, writing, listening) and an introduction to the cultural contexts of Latin America and Spain.

SPAN 1002. Beginning Spanish II. (FL; 4 cr. ; Student Option; Every Fall, Spring & Summer) Continuation of the sequence beginning with 1001. prereq: 1001 or placement or instr consent

SPAN 1003. Accelerated Beginning Spanish. (FL; 4 cr. ; Student Option; Every Fall & Spring) An accelerated introductory Spanish course for students with prior experience and appropriate placement exam score to allow completion of the FL GER requirement with one semester of coursework. Development of basic skills of Spanish (reading, speaking, writing, listening)

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
and an introduction to the cultural contexts of Latin America and Spain. prereq: placement or instr consent

SPAN 1054. Associated Languages: Introduction to Nahua Language. (IP; 4 cr.; Student Option; Periodic Fall & Spring) Same as NAIS 1054. An introduction to speaking, writing, and reading in contemporary Nahuatl (more popularly known as the language of the Mexica or Aztecs) and an overview of Nahua culture. prereq: due to the fact that many Nahuan texts are bilingual, it is recommended that students have completed at least two years of college-level Spanish

SPAN 1801. Hispanic Culture Through Cinema. (IC; 4 cr.; Student Option; Periodic Fall) An introduction to contemporary films from Spain and Latin America, showcasing innovative filmmakers from the Hispanic world, their representations of Hispanic societies through film, and their relationships to other international cinemas, with an emphasis on the medium as an art form rather than a commercial proposition. prereq: new college student in their first semester of enrollment at UMM

SPAN 1802. U.S. Latin@ Literature and Culture. (IC; 4 cr.; Student Option; Periodic Fall) Offered in English, this course considers literature, films, television, and art by and about people of Latin American origin living in the United States. Course activities include readings, lectures, in-class discussions, papers, and presentations. prereq: new college student in their first semester of enrollment at UMM

SPAN 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SPAN 2001. Intermediate Spanish I. (IP; 4 cr.; Student Option; Every Fall) Emphasizes the continued development of oral expression, vocabulary building, spelling, grammar, reading, and composition through the use of authentic materials such as short films and news features, cultural readings, literary selections, and contemporary music that strengthen students' proficiency in Spanish and their understanding of Hispanic cultures. prereq: 1002 or 1003 or placement or instr consent

SPAN 2002. Intermediate Spanish II. (IP; 4 cr.; Student Option; Every Spring) Continuation of the sequence beginning with 2001. prereq: 2001 or instr consent

SPAN 2121. Associated Languages: Intensive Portuguese. (IP; 4 cr.; Student Option; Periodic Fall & Spring) Intensive, accelerated study of the basic skills of Brazilian Portuguese (reading, writing, listening, and speaking) with emphasis on oral competency. prereq: 2002 or Fren 2002 or instr consent

SPAN 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SPAN 3011. Conversation, Composition, and Culture. (IP; 2 cr.; Student Option; Every Fall) Practice in effective oral and written communication in Spanish for advanced students, with an emphasis on the diversity of contemporary Hispanic cultures and a review of basic grammatical concepts. prereq: 2002, concurrent enrollment in 3111 or instr consent

SPAN 3012. Spanish Grammar in Practice. (IP; 2 cr.; Student Option; Every Spring) A review of advanced Spanish grammar, with emphasis on areas of concern and challenge for the non-native speaker, and on strengthening academic writing skills in Spanish. prereq: 3011, concurrent enrollment in 3112 or instr consent

SPAN 3111. Readings in Spanish I. (HUM; 2 cr.; Student Option; Every Fall) Introduction to representative works of contemporary Hispanic literature from diverse genres and cultural contexts, with emphasis on strategies for comprehension and interpretation. prereq: concurrent enrollment in 3112 or instr consent

SPAN 3112. Readings in Spanish II. (HUM; 2 cr.; Student Option; Every Spring) Further examination of representative works of Hispanic literature from diverse genres, time periods, and cultural contexts, with emphasis on literary concepts and terminology, analysis, research and writing practices, and interpretation. prereq: 3111, concurrent enrollment in 3112 or instr consent

SPAN 3211. Literature and Culture of Latin America. (HUM; 4 cr.; Student Option; Every Fall) Study of important exemplary works of Latin American literary and cultural production through major historical periods. Texts are examined in light of multiple contexts, such as artistic, political, historical, and philosophical. prereq: 3012, 3112, or instr consent

SPAN 3212. Literature and Culture of Spain. (HUM; 4 cr.; Student Option; Every Spring) Study of important exemplary works of Spanish (peninsular) literary and cultural production through major historical periods. Texts are examined in light of multiple contexts, such as artistic, political, historical, and philosophical. prereq: 3012, 3112, or instr consent

SPAN 3651. Seminar: Miguel de Cervantes Saavedra’s “El ingenioso hidalgo Don Quijote de la Mancha”. (HUM; 4 cr.; Student Option; Periodic Fall) Study of Miguel de Cervantes Saavedra’s novel “El ingenioso hidalgo Don Quijote de la Mancha” in light of its socio-historical context. prereq: 3012, 3112 or instr consent

SPAN 3654. Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature. (HUM; 4 cr.; Student Option; Periodic Fall) The theme of sex, love, and marriage in Golden Age Spanish Literature through prose, poetry, and theatre of the Golden Age (XVI-XVII centuries) Spain. Consideration of the gender relations and gender politics reflected in the works and the socio-historical context in which these works were produced. prereq: 3012, 3112 or instr consent

SPAN 3681. Seminar: Romanticism and Revolution in 19th-Century Spain. (HUM; 4 cr.; Student Option; Periodic Fall) Study of representative texts (prose and poetry) from the first half of the 19th century in Spain, with emphasis on the expression of the Romantic vision within the particular political context of the period, marked by tensions between liberal reform and traditional conservatism. prereq: 3012, 3112 or instr consent

SPAN 3682. Seminar: Realism and Reform in 19th-Century Spain. (HUM; 4 cr.; Student Option; Periodic Fall) Study of representative texts (novels, stories, and essays) from the second half of the 19th century in Spain, with emphasis on the rise of realism as an exploration of the socio-political reality of the era and the need for reform. The focus is on general trends in Western cultures (e.g., industrialization, positivism, secularization). prereq: 3012, 3112 or instr consent

SPAN 3683. Seminar: Modernity and Identity in Spain, 1900-1930. (HUM; 4 cr.; Student Option; Periodic Fall) Study of representative texts (prose and poetry) from the early decades of the 20th century in Spain with particular emphasis on their responses to changes brought by modernity: advancing technology, modern psychology, political experimentation, spiritual exploration, and artistic innovation. prereq: 3012, 3112, or instr consent

SPAN 3684. Seminar: Hispanic Film. (HUM; 4 cr.; Student Option; Periodic Spring) View, study, and discuss relevant Hispanic films from Spain, Latin America, and the U.S.A. Consider films’ cinematic techniques and their specific socio-cultural and socio-political contexts. prereq: 3012, 3112 or instr consent

SPAN 3685. Seminar: Slavery and Abolition in Cuban Literature and Culture. (IP; 4 cr.; Student Option; Periodic Fall & Spring) A study of the major texts surrounding Cuban slavery from the 1812 Aponte slave rebellion to independence from Spain in 1898. How did 19th-century writers depict Cuban slave society? What was the relationship between literature, abolition, and independence? prereq: 3012, 3112, or instr consent

SPAN 3686. Seminar: Writing History in Spanish American Literature. (HUM; 4 cr.; Student Option; Periodic Fall & Spring) A study of 20th- and 21st-century Latin American historical novels and the colonial and 19th-century texts on which they are based. How and why is the past mobilized to meet the needs of the present? How do historical events continue to haunt the present day? prereq: 3011, 3012, or instr consent

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SPAN 4001. Research Symposium. (HUM; 4 cr. ; A-F only; Every Spring)
A capstone experience for majors, consisting of an introduction to research methods and critical approaches to literature, as well as development of an independent research project and presentation. Spanish majors are required to complete a minimum of 16 of the 20 required credits at the 32xx and 36xx levels prior to registering for Span 4001. It is recommended to have all 20 of these credits completed prior to taking Span 4001. prereq: instr consent

SPAN 4993. Directed Study. (1-5 cr. ; Student Option; Every Fall & Spring)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Sport Studies and Athletics (SSA)

SSA 1051. Fitness for Life. (; 2 cr. ; Student Option; Every Fall & Spring)
Factors associated with a positive lifestyle, assessment of each individual's current wellness status, and development of a personal lifetime program for improving one's quality of life.

SSA 1052. Societal Issues in Health and Wellness. (SS; 2 cr. ; Student Option; Every Spring)
A study of how perceptions of society's health and wellness issues affect our individual health/fitness choices.

SSA 1101. First Aid. (; 1 cr. ; Student Option; Every Fall & Spring)
Lectures, demonstrations, practical work in emergencies and first aid. Emphasis on accident prevention. Completion of the course prepares students for National Safety Council First Aid and CPR Certification.

SSA 1108. The Aussie Sport Experience: Culture, Identity, and Impact. (IP; 4 cr. ; S-N only; Periodic Summer)
Provides students with opportunities to engage with sport management-based content on an international level, including content, key concepts, organizations, and personnel representing established partners, sites, and experience in Australia. Specific emphasis is placed on Australia's engagement with sport at the local level, in addition to their position as a global force when considering athlete development, organizational leadership, and international-level events and venues. Course content also includes emphasis on sport and indigenous culture including a service-learning component with local youth and community organizations. prereq: 2302 or instr consent

SSA 1213. Golf. (; 0.5 cr. [max 1 cr.]; S-N only; Every Fall)
Introductory instruction in the skills and techniques of golf.

SSA 1219. Strength Training. (; 1 cr. [max 2 cr.]; S-N only; Every Fall & Spring)
Introductory instruction in the skills and techniques of strength training.

SSA 1225. Wellness Skills: R.A.D.-Basic and Advanced Self Defense System. (1 cr. [max 2 cr.]; S-N only; Every Fall & Spring)
A hands-on comprehensive program of realistic, self-defense tactics and techniques for women. The only nationally approved self-defense class by the International Association of College Law Enforcement Administrators. Class curriculum is centered around physical self-defense techniques and situational awareness. The advanced section of the class builds on basic techniques and offers more options for increasing awareness and providing a deeper understanding of one's potential.

SSA 1231. Beginning Taekwondo. (; 0.5 cr. [max 1 cr.]; Student Option; Every Fall & Spring)
Philosophy of the martial arts. Basic stances and blocking, kicking, and striking techniques, terminology, footwork and sparring fundamentals.

SSA 1233. Advanced Taekwondo. (; 0.5 cr. [max 1 cr.]; Student Option; Every Fall & Spring)
Advanced stances and blocking, kicking, and striking techniques, terminology, footwork and sparring fundamentals. prereq: 1231 or instr consent

SSA 1401. Varsity Baseball (M). (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1402. Varsity Basketball. (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1403. Varsity Cross Country. (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1404. Varsity Football (M). (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1405. Varsity Golf. (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1406. Varsity Softball (W). (0.5 cr. [max 2 cr.]; S-N only; Every Spring)

SSA 1407. Varsity Tennis. (0.5 cr. [max 2 cr.]; S-N or Audit; Every Spring)

SSA 1408. Varsity Track and Field-Outdoor. (0.5 cr. [max 2 cr.]; S-N only; Every Spring) Varsity track and field - Outdoor

SSA 1409. Varsity Track and Field - Indoor. (0.5-2 cr. ; S-N only; Every Spring)

SSA 1410. Varsity Volleyball (W). (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1411. Varsity Soccer. (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1412. Varsity Swimming & Diving (W). (0.5 cr. [max 2 cr.]; S-N only; Every Fall)

SSA 1801. Mind and Body: Mental Skills and Martial Arts. (IC; 2 cr. ; Student Option; Periodic Fall & Spring)
Mental skills such as stress management, imagery, and concentration have been practiced for centuries by martial artists and more recently by elite performers in a variety of fields (e.g., athletics, artistic and dramatic

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
performance, medicine, and business). These skills and more are introduced through readings, analyzed during discussions, emphasized via the practice of martial arts skills and techniques, and applied to students’ individual needs. Readings come from current sport psychology literature as well as traditional Asian martial arts passages. Students engage in physical activity, prereq: new college student in their first semester of enrollment at UMM

SSA 1802. The Olympic Games: History, Culture, and Society. (IC; 2 cr.; Student Option; Periodic Fall) Study of the increasing diversity of the Olympic Games. Emphasis is placed on the Olympics as examined through historical and modern perspectives, including the impact, influence, and implications upon culture and society. prereq: new college student in their first semester of enrollment at UMM

SSA 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SSA 2102. Human Anatomy. (4 cr.; Student Option; Every Fall) Same as Biol 2102. Structure of human systems at their organ and cellular level. (two 75-min lect, one 120-min lab)[Note: no elective cr for Biol majors or minors] prereq: soph

SSA 2111. Kinesiology. (SCI; 2 cr.; Student Option; Every Spring) Scientific principles of movement and tissue responses to force; analysis of basic movement in sports and other physical activities.

SSA 2112. Exercise Physiology. (2 cr.; Student Option; Every Fall) Human physiological adaptations resulting from activity/exercise.

SSA 2121. Prevention and Care of Injuries. (4 cr.; Student Option; Every Spring) Introduction to safety measures, care, prevention, and rehabilitation of injuries in sports and other physical activities. (three 65-min lect, one 65-min lab) prereq: 2111

SSA 2131. Theory of Coaching. (SS; 2 cr.; Student Option; Every Fall) Introduction to coaching theory within a variety of competitive sport environments. Emphasis upon personal, professional, and philosophical development as related to coaching leadership. Additional topics may include theories of motivation, effective communication, developing team dynamics and culture, as well as improving athlete performance.

SSA 2201. Baseball Coaching. (2 cr.; Student Option; Spring Even Year) History, psychology, and theory of the game, techniques of coaching each position, rules, batting, practice and game organization, strategy, officiating.

SSA 2202. Basketball Coaching. (2 cr.; Student Option; Every Fall) History, psychology, and theory of the game, offensive and defensive formations, strategy, practice and game organization, officiating, rules, and techniques of coaching each position.

SSA 2203. Football Coaching. (2 cr.; Student Option; Every Fall) History, psychology, and theory of the game, offensive and defensive formations, strategy, practice and game organization, officiating, rules, techniques of coaching each position.

SSA 2204. Softball Coaching. (2 cr.; Student Option; Spring Odd Year) History, psychology, and theory of the game, techniques for all track and field events, methods of coaching, practice and meet organization, strategy, rules, officiating.

SSA 2205. Track and Field Coaching. (2 cr.; Student Option; Every Spring) History, psychology, and theory of the sports, techniques for all track and field events, history, psychology, and theory of the game, techniques of coaching each position, rules, batting, practice and game organization, strategy, officiating.

SSA 2206. Volleyball Coaching. (2 cr.; Student Option; Fall Even Year) History, psychology, and theory of the game, offensive and defensive formations, strategy, practice and game organization, officiating, rules.

SSA 2208. Soccer Coaching. (2 cr.; Student Option; Fall Odd Year) History, psychology, and theory of the sport, individual techniques, practice and game organization, officiating, rules and strategies.

SSA 2302. Introduction to Sport Management. (4 cr.; A-F only; Every Fall) Provides students with an overview of and a foundation in sport management. Topics include the history of sport management, the relevance of managerial concepts to sport, typical settings for sport managers, areas of study within sport management, sustainability in sport, and globalization and sport, among others.

SSA 2311. Sports Officiating. (2 cr.; Student Option; Periodic Summer) Knowledge of the rules, techniques, and mechanics for officiating basketball, baseball, and softball at the high school level.

SSA 2331. Personal Training Preparation. (2 cr.; S-N only; Periodic Fall & Spring) Concepts, theory, practice, and research in personal training and conditioning. Basic anatomy and physiology, principles of strength training, overview of training equipment, fitness assessments, designing individual exercise programs, legal liabilities, national certifications, and review of research. Preparation for national certification examinations in the areas of personal training and strength conditioning.

SSA 2332. The Story of Sports. (SS; 4 cr.; Student Option; Periodic Summer) Sports have become an important way to view and understand the broad developments of society in the 20th century. Many of these developments have been presented in the form of movies, music, poetry, short stories, novels, and stories handed down through the generations. Study these developments, how they are told through stories, and how sports can be useful for examining 20th century society and culture.

SSA 2401. Sociological Aspects of Sports. (SS; 2 cr.; Student Option; Every Spring) Sociological aspects of physical education, sports, and recreation and the implications this knowledge has for effective teaching, coaching, and athletic training. prereq: SSA 2302 or SOC 1101

SSA 2402. Psychological Aspects of Sports. (SS; 2 cr.; Student Option; Every Spring) Psychological aspects of physical education, sports, and recreation and the implications this knowledge has for effective teaching, coaching, and athletic training. prereq: 2302 or Psy 1051

SSA 2403. Sport, Gender, and Sexuality. (SS; 2 cr.; Student Option; Periodic Fall) Interdisciplinary introduction to gender and sexuality and their intersection with sport as a social institution. Varying levels and contexts of sport are examined in contribution to the discussion of the sport industry’s opportunities as a platform to address and influence issues of inclusion, accessibility, and equity. prereq: GWSS 1101 or SSA 2302

SSA 2404. Sport and Indigenous Cultures. (HDIV; 2 cr.; Student Option; Periodic Fall) Introduction to Native American sports and games from historical and modern perspectives, with general global comparisons. Emphasis upon the significance, ritual practice, and use of sport and games within Native American communities. Examination of the representation of Native American athletes, identities, and symbols in popular sport. prereq: NAIS 1101 or SSA 2302

SSA 2501. Sports in Media I. (SS; 2 cr.; A-F only; Every Spring) An introduction to the relationship between the media and sports in America. A broad range of topics include broadcast, print, and social media, as well as promotion and public relations and their roles as vehicles for promoting sports.

SSA 2502. Sports in Media II. (SS; 2 cr.; A-F only; Every Spring) A continuation of Sports in Media I that will dissect and analyze the relationship between sports and media. Topics include the development, organization, and implementation of media tactics and associated historical, social, cultural, and legal issues. prereq: 2501

SSA 2993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SSA 3101. Sport Industry Analysis. (SS; 4 cr.; Student Option; Every Spring) An examination of the rapidly developing sports industry from a promotional and sales management perspective. Focus on sport promotion, sport consumers, sales, sponsorship, licensing, and e-commerce. prereq: 2302, Stat 1601 or Stat 2601 or instr consent
Ssa 3172. Leadership in Sport Organizations. (SS; 2 cr.; A-F only; Every Fall) Examination of theories and case studies of organizational leadership within sport. Students learn about additional theories and models of sport leadership and practice and develop their leadership skills. [Note: no cr for students who have received cr for Mgmt 3172] prereq: 2302

Ssa 3201. Coaching Practicum. (; 1 cr.; S-N only; Every Fall & Spring) Supervised field experience in coaching, consisting of no fewer than 40 hours. prereq: instr consent

Ssa 3210. Internship in Sport Studies and Athletics. (1-12 cr.; max 24 cr.; S-N only; Every Fall & Spring) An educational experience in a work environment providing field applications for the student's theoretical classroom learning experiences.

Ssa 3993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Ssa 4101. Planning and Programming of Athletic Facilities. (4 cr.; Student Option; Every Spring) Theories/techniques in administration/management of sport enterprises including the steps in planning/building facilities for athletics, physical education, and sport for college, professional, and public use. prereq: 3101

Ssa 4102. Organization and Administration of Athletics and Recreation. (4 cr.; Student Option; Every Spring) Comprehensive analysis of organization and management of athletics and recreation. prereq: 3101

Ssa 4201. Sport Governance: Legal and Ethical Issues. (E/C; 4 cr.; A-F only; Every Spring) An integrative capstone for students in sport management. In addition to emphases in legal and ethical issues, it integrates knowledge from key areas of study in sport management. Includes an independent research project and a public presentation. prereq: 2401, 2402, 4102

Ssa 4993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Statistics (Stat)

Stat 1601. Introduction to Statistics. (M/SR; 4 cr.; Student Option; Every Fall & Spring) Scope, nature, tools, language, and interpretation of elementary statistics. Descriptive statistics; graphical and numerical representation of information; measures of location, dispersion, position, and dependence; exploratory data analysis. Elementary probability theory, discrete and continuous probability models. Inferential statistics, point and interval estimation, tests of statistical hypotheses. Inferences involving one and two populations, ANOVA, regression analysis, and chi-squared tests; use of statistical computer packages. prereq: high school higher algebra

Stat 1993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Stat 2501. Probability and Stochastic Processes. (M/SR; 4 cr.; Student Option; Periodic Fall) Same as Math 2501. Probability theory; set theory, axiomatic foundations, conditional probability and independence, Bayes' rule, random variables. Transformations and expectations; expected values, moments and moment generating functions. Common families of distributions; discrete and continuous distributions. Multiple random variables; covariance, correlation, multivariate distributions. Properties of random sample and central limit theorem. Markov chains, Poisson processes, birth and death processes, and queuing theory. prereq: Math 1101 or instr consent

Stat 2601. Statistical Methods. (M/SR; 4 cr.; Student Option; Every Fall) Descriptive statistics, elementary probability theory; laws of probability, random variables, discrete and continuous probability models, functions of random variables, mathematical expectation. Statistical inference; point estimation, interval estimation, tests of hypotheses. Other statistical methods; linear regression and correlation, ANOVA, nonparametric statistics, statistical quality control, use of statistical computer packages. prereq: Math 1101 or Math 1021

Stat 2602. Mathematical Statistics. (M/SR; 3 cr.; Student Option; Every Fall & Spring) Descriptive statistics, elementary probability theory; laws of probability, random variables, discrete and continuous probability models. Statistical inference; point estimation, interval estimation, tests of hypotheses. Other statistical methods; linear regression and correlation, ANOVA, use of statistical computer packages.

Stat 2611. Mathematical Statistics. (M/SR; 4 cr.; Student Option; Every Fall) Introduction to probability theory. Principles of data reduction; sufficiency principle. Point estimation; methods of finding and evaluating estimators. Hypothesis testing; methods of finding and evaluating tests. Interval estimation; methods of finding and evaluating interval estimators. Linear regression and ANOVA. prereq: Math 1101

Stat 2701. Introduction to Data Science. (M/SR; 4 cr.; Student Option; Every Spring) Same as Csci 2701. Introduction to data science and informatics and their application to real world scenarios. Computational approaches to data types; database creation including technologies such as SQL/no-SQL; data visualization; data reduction, condensation, partitioning; statistical modeling; and communicating results. prereq: Csci 2701 or Stat 2701 or Csci 1201 or Csci 1301 or Csci 1251 or instr consent

Stat 2993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Stat 3501. Survey Sampling. (M/SR; 4 cr.; Student Option; Fall Even Year) Introduction to basic concepts and theory of designing surveys. Topics include sample survey designs including simple random sampling, stratified random sampling, cluster sampling, systematic sampling, multistage and two-phase sampling including ratio and regression estimation, Horvitz-Thomson estimation, questionnaire design, non-sampling error, and sample size estimation, and other topics related to practical conduct of surveys. prereq: 1601 or 2601 or instr consent

Stat 3601. Data Analysis. (M/SR; 4 cr.; Student Option; Every Fall) Nature and objectives of statistical data analysis, exploratory and confirmatory data analysis techniques. Some types of statistical procedures; formulation of models, examination of the adequacy of the models. Some special models; simple regression, correlation analysis, multiple regression analysis, analysis of variance, use of statistical computer packages. prereq: 1601 or 2601 or 2611 or instr consent

Stat 3611. Multivariate Statistical Analysis. (M/SR; 4 cr.; Student Option; Every Spring) Analysis of categorical data. Loglinear models for two- and higher-dimensional contingency tables. Logistic regression models. Analysis of multivariate analysis, random vectors, sample geometry and random sampling, multivariate normal distribution, inferences about the mean vector, MANOVA. Analysis of covariance structures: principal components, factor analysis. Classification and grouping techniques: discrimination and classification, clustering, use of statistical computer packages. prereq: 1601 or 2601 or 2611 or instr consent

Stat 3701. Intermediate Data Science. (4 cr.; Student Option; Every Fall) Same as Csci 3701: Continued development of topics introduced in Introduction to Data Science. Data mining techniques; applied machine learning techniques; mathematical fundamentals such as introductory linear algebra; graphical models such as Bayesian networks; network analysis; special topics such as topological data analysis; and a strong emphasis on communicating results. prereq: Csci 2701 or Stat 2701 or instr consent

Stat 3901. Statistical Communication. (2 cr.; A-F only; Every Spring) Finding and utilizing sources of statistical information including data. Techniques

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.
for searching statistical literature, as well as reading and interpreting these sources. Principles of technical writing and communication in statistics. Writing, editing, and revising an extensive review paper on a statistical topic. Collaboration and statistical consulting skills needed for clients and project teams, explaining analyses, and writing reports understandable to non-statisticians. Attendance at senior seminar presentations is required. prereq: stat major, jr or sr status or instr consent

STAT 3993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

STAT 4601. Biostatistics. (4 cr.; Student Option; Every Spring) Design and analysis of biological studies: biological assays, case-control studies, randomized clinical trials, factorial designs, repeated measures designs, observational studies, and infectious disease data. Analysis of survival data: basic concepts in survival analysis, group comparisons, and Cox regression model. Use of statistical computer packages. prereq: 1601 or 2601 or 2611 or instr consent

STAT 4631. Design and Analysis of Experiments. (4 cr.; Student Option; Periodic Fall & Spring) Design and analysis of experimental designs: blocking, randomization, replication, and interaction; complete and incomplete block designs; factorial experiments; crossed and nested effects; repeated measures; confounding effects. prereq: 3601 or instr consent

STAT 4651. Applied Nonparametric Statistics. (4 cr.; Student Option; Periodic Fall & Spring) Application of nonparametric statistical methods. Examples use real data, gleaned primarily from results of research published in various journals. Nonparametric inference for single samples, paired samples, and independent samples, correlation and concordance, nonparametric regression, goodness-of-fit tests, and robust estimation. prereq: 1601 or 2601 or 2611 or instr consent

STAT 4671. Statistical Computing. (4 cr.; Student Option; Periodic Summer) Entering, exploring, modifying, managing, and analyzing data by using selected statistical software packages such as R or SAS. The use of statistical software is illustrated with applications of common statistical techniques and methods. Designed for students who have a basic understanding of statistics and want to learn the computing tools needed to carry out an effective statistical analysis. prereq: 1601 or 2601 or 2611 or instr consent

STAT 4681. Introduction to Time Series Analysis. (4 cr.; Student Option; Fall Odd Year) Introduction to the analysis of time series including those with a connection to environment such as spatial and spatio-temporal statistics. Randomness test, ARMA, ARIMA, spectral analysis, models for stationary and non-stationary time series, seasonal time series models, conditional heteroscedastic models, spatial random processes, covariance functions and variograms, interpolation and kriging. prereq: 3601 or instr consent

STAT 4901. Senior Seminar. (2 cr.; S-N only; Every Fall) Required for all statistics majors. Seminar on student-selected statistical topics. Includes preparation and presentation of a seminar based on original research, a data analysis, or results of a detailed study of a topic in statistics. Begins in fall semester and continues all year. Students attend year round and present one of the seminars in Spring semester. Requires attendance and a presentation in addition to regular class meetings. prereq: 3901, or status

STAT 4993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Theatre Arts (TH)

TH 1040. Backstage on Broadway. (1 cr. [max 4 cr.]; S-N only; Periodic Fall & Spring) Supervised field trip to New York; attending selected professional theatre productions; backstage tours; discussions with theatre professionals. prereq: instr consent

TH 1050. London Theatre Tour. (1 cr. [max 4 cr.]; S-N only; Periodic Fall & Spring) Supervised field trip to London, England; attending selected professional theatre productions; backstage tours; discussions with theatre professionals. prereq: instr consent

TH 1060. Production Experience. (1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) Participation in some aspect of theatre production other than performing (e.g., scenery, props, costumes, lighting). An interview and approval from theatre faculty is required. prereq: instr consent

TH 1070. Performance Experience. (ART/P; 1 cr. [max 8 cr.]; S-N only; Every Fall & Spring) Participation in theatrical production as a performer. A production audition is required with approval from the theatre faculty. prereq: instr consent

TH 1101. The Theatre Experience: An Introduction. (FA; 4 cr.; Student Option; Every Fall) Fundamental examination and practical application of the theory, history, and practice of theatrical performance as a reflection of society. Focus is on the theatre event as a collaborative effort and transitory art form. (lect. 2 hrs practicum) [Note: practicum two hours per week, selected from M-Th from 2:00-5:00 pm]

TH 1111. Fundamentals of Acting. (ART/P; 4 cr.; Student Option; Every Spring) Approaches characterization from a physical and psychological view. Focus is on use of imagination, text analysis, body and voice to develop characters from modern realistic dramatic literature. prereq: 1101, theatre arts major or minor or instr consent

TH 1301. Fundamentals of Design. (ART/P; 4 cr.; Student Option; Every Fall) Problem-solving approach to elements, principles, and functions of design; their place in the theatre and elsewhere.

TH 1993. Directed Study. (1-5 cr. [max 10 cr.]; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

TH 2101. Fundamentals of Directing. (ART/P; 4 cr.; Student Option; Every Fall) Introduces the practical components of the director as artist, teacher, and collaborator. Focus is on the craft of directing modern realistic dramatic literature through text analysis, communication of concepts, and stylistic techniques. prereq: 1111, theatre arts major or minor or instr consent

TH 2111. Creative Drama with Children. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Development of classroom skills in the use of dramatic techniques to teach a broad range of subjects to children. Exercises, presentations, and experiential learning techniques are modeled and practiced in class. prereq: 1101 or theatre or elem ed major or instr consent

TH 2112. Drama in the Classroom. (ART/P; 2 cr.; A-F only; Periodic Fall & Spring) Development of classroom skills in the use of dramatic techniques to teach a broad range of subjects to children. Exercises, presentations, and experiential learning techniques are modeled and practiced in this 2-credit half-semester class.

TH 2201. Voice and Movement. (ART/P; 4 cr.; Student Option; Every Spring) Explores the use of the voice and the body as means for expression in performance and everyday communication. Focus is on expansion and enhancement of vocal and physical skills through release of tension, posture, vocal exercises, and muscle extension. prereq: 1111, theatre arts major or minor or instr consent

TH 2211. Oral Interpretation. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Introduces the study of literature through text analysis and performance. Focus is on the student's discovery of the aesthetic, communicative, and performative elements of a variety of personal narratives, prose, and poetry.

TH 2212. Interpretation for Performance. (ART/P; 2 cr.; A-F only; Periodic Fall & Spring) Introduces the study of literature through text analysis and performance. The main focus is the student's performance of prose, drama and a memorized program on a theme. [Note: no
TH 2221. Readers’ Theatre. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Explores the theory and practice of adapting literature into group performance. Focus is on text analysis, script development, directing, and performing both dramatic and non-dramatic literary texts. Prereq: 2211

TH 2222. Creating Live Radio Theatre from Script to Performance. (ART/P; 1 cr.; S-N only; Periodic Spring) Provides an opportunity to develop a radio theater show from script through broadcast performance. Parts are assigned through audition. Involves significant research and rehearsal time in various capacities for all students enrolled. [Note: students will audition/interview to be on radio] Prereq: instr consent

TH 2231. Playwriting. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Introduces the process for writing and revising an original play. Focus is on writing, revising, and presenting a short play, including idea generation, invention, draftng, and peer response.

TH 2301. Stagecraft. (ART/P; 4 cr.; Student Option; Every Spring) Development of stagecraft from the Greeks to the present. Basic forms of stage scenery and their functions in the theatre. Tools, materials, and techniques employed in creating the visual environment of the stage. (3 hrs lect, 3 hrs practicum) [Note: materials fee required]

TH 2993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

TH 3001. Theatre Scene Painting Studio. (FA; 4 cr.; Student Option; Fall Odd Year) Instruction in a systematic approach to painting theatrical scenery. Traditional techniques and the tools and paints that have been developed to support those techniques. Prereq: instr consent

TH 3003. Stage Management. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Introduces the principles of theatrical stage management; explores the stage manager’s functions and duties through all phases of the production process including pre-production, rehearsal, and performance. Prereq: instr consent

TH 3101. World Theatre: History and Literature I. (FA; 4 cr.; Student Option; Every Fall) Theatrical practice and dramatic literature from origins through late 17th century, tracing the roots leading to, and influences on, early modern European theatre practice and dramatic literature, as well as examining select Asian, African, and/or pre-Columbian American theatrical practice.

TH 3102. World Theatre: History and Literature II. (FA; 4 cr.; Student Option; Every Spring) Theatrical practice and dramatic literature from the late 17th century to the present, examining select Asian, African, and/or Western Hemisphere theatrical practice, as well as tracing trends leading to, and influences on, current world theatre practice and dramatic literature.

TH 3201. Advanced Acting. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Begins with advanced acting techniques based in psychological realism and moves to an exploration of select classical and non-realistic forms. Styles to be examined are chosen from a list, including ancient Greek, Elizabethan, comedy of manners, absurdism, postmodernism, musical theatre, etc. Prereq: 1101, 1111, 2101

TH 3202. Advanced Directing. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Begins with advanced directing techniques based in psychological realism and moves to an exploration of select classical and non-realistic forms. Styles to be examined are chosen from a list, including ancient Greek, Elizabethan, comedy of manners, absurdism, postmodernism, musical theatre, etc. Prereq: 1101, 1111, 2101

TH 3301. Stage Lighting. (ART/P; 4 cr.; Student Option; Fall Even Year) History and development of lighting for the stage. Theory and concepts of lighting as a visual art and its function in the theatre. Lighting design as a creative process and practical solution of lighting design problems. Lighting equipment and its use. Prereq: 1301, 2301

TH 3302. Stage Costuming. (FA; 4 cr.; Student Option; Fall Odd Year) History and development of stage costume. Theory and concepts of stage costuming as a visual art and its function in the theatre. Costume design as a creative process. Practical demonstrations of knowledge of design, history, and functions of stage costume. Prereq: 1301, 2301

TH 3303. Computer-Assisted Drawing. (ART/P; 4 cr.; Student Option; Periodic Fall) Theory, concepts, and practice of using a computer as a drawing and drafting tool. [Note: materials fee required]

TH 3304. Art Direction for Film and Television. (FA; 4 cr.; Student Option; Periodic Fall & Spring) Introduction of art direction for film and television. The roles and duties of the production designer and art director for fictional film and television series.

TH 3305. Stage Make-Up. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Systematic approach to stage make-up application. Includes history, safety, product, design, and application, with heavy emphasis on hands-on experience. [Note: materials fee required]

TH 3306. Advanced Lighting and Sound Design. (ART/P; 4 cr.; Student Option; Periodic Fall & Spring) Advanced study in the application of design theory as it relates to lighting and sound for theatre. Particular emphasis on use of relevant technologies in the design process. Prereq: 1301 or 3301 or instr consent

TH 3307. Artistic Portfolio. (2 cr.; Student Option; Periodic Fall & Spring) Designed for students who are working towards performance and/or design degrees. Students are tasked with creating an online portfolio for their work to be used beyond their time at UMM. Junior or senior students who have accumulated a substantial body of creative work will be successful in this course.

TH 3308. Advanced Lighting Design. (2 cr.; Student Option; Periodic Fall & Spring) Designed for students who have completed TH 3301 Lighting Design. Throughout this course, students work with faculty on various hands-on lighting projects in a lab-based environment. Topics explored include programming, networking, and application. Prereq: 3301, instr consent

TH 3450. Irish Drama: Print, Culture, and Performance. (IP; 4 cr.; max 8 cr.; Student Option; Periodic Summer) Includes theatre performances and tours, workshops, and seminars from leading Irish scholars and actors; class sessions; cultural visits and exploration of Irish cities, landscapes, and historical sites throughout Ireland. [Note: some course readings expected before departure]

TH 3993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

TH 4301. Scenic Design. (FA; 4 cr.; Student Option; Fall Odd Year) Designing scenery as an expressive environment for the theatre. Elements and functions of design and principles of composition. Problems in coordination and execution of design in the interpretation of dramatic literature using a variety of staging techniques. Study of various styles of historical and contemporary stage productions and theatre architecture through the writings and designs of such artists and theorists as Appia, Craig, Meyerhold, Jones, and Svoboda. Prereq: 1301, 2301

TH 4901. Senior Project. (2-4 cr.; Student Option; Every Fall & Spring) Culminating activity to demonstrate the student’s competence in some area of theatre arts. Projects may be completed independently (e.g., a research paper, a solo acting performance) or as part of a group effort. Acting, scenery, lighting, costume design, playwriting, and theatre history are some areas in which the project may be undertaken. Prereq: theatre arts major, instr consent at UMM.

TH 4993. Directed Study. (1-5 cr.; max 10 cr.; Student Option; Every Fall & Spring) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Courses listed in this catalog are current as of 2019-02-13. For up-to-date information, visit www.catalogs.umn.edu.

**Melissa Wroblewski** (2010), Finance Manager; B.S., Southwest Minnesota State University

**Bill Zimmerman** (2018), Director, Information Technology; B.S., Minnesota State University

**To be appointed**, Director, Center for Small Towns

**To be appointed**, Director, Grants Development

**To be appointed**, Director, Institutional Research

Morris Campus Faculty

*Recipient of the Horace T. Morse-Minnesota Alumni Association Award for Outstanding Contributions to Undergraduate Education.*

Division of Education

Gwen Rudney, Chair

Elementary and Secondary Education

Professor

*Michelle Page* (2000), B.A., Concordia College; M.S., Ph.D., University of Wisconsin, Madison

*Gwen Rudney* (1991), B.A., M.A., Ph.D., University of California, Riverside

Assistant Professor

Kiel Harell (2014), B.A., University of Minnesota, Morris; Ph.D., University of Wisconsin, Madison

Carrie Jepma (2016), B.A., University of Minnesota, Morris; M.S., St. Cloud State University; Ph.D., University of North Dakota

Sara Lam (2015), B.A., University of Minnesota, Morris; M.Ed., Harvard Graduate School of Education; Ph.D. (ABD), University of Wisconsin, Madison

Sport Studies and Athletics

Assistant Professor

Michael Bryant (2015), B.S., University of Washington; M.S., Seattle Pacific University; Ph.D., University of Washington

Coaches and Instructional Staff

Raymond Bowman (2001), Head Athletic Trainer; B.S., Buena Vista University; M.A., Minnesota State University Mankato

Jessica Devine (2012), Head Men’s/Women’s Track and Field; B.S., Winona State University; M.A., Ball State University

Brendan Goler (2016), Associate Head Softball, Assistant Men’s Soccer; B.A., Benedictine University

Paul Grove (2002), Associate Athletics Director, Head Men’s Basketball; B.A., Gustavus Adolphus College; M.S., Augusta State College

Timothy Grove (2006), Assistant Athletics Director, Head Women’s Basketball; A.A., Fergus Falls Community College; B.S., Mayville State University; M.A., University of North Dakota, Grand Forks

Grant Harding (2007), Head Men’s Baseball; B.S., Hamline University

Rich Hardy (2002), Athletic Trainer; B.S., Northern State University; M.A., University of Nebraska at Kearney

Marty Hoffmann (2013), Head Football; B.A., University of Minnesota, Morris; M.S., South Dakota State University

Matthew Johnson (2004), Interim Athletics Director, Associate Head Football; B.A., University of Minnesota, Morris; M.Ed., University of Minnesota, Duluth

Jana Koehler (2000), Director of Men’s/Women’s Golf; B.A., University of Minnesota, Morris
Tony Krueger (2012), Head Men’s/Women’s Cross Country, Assistant Men’s/Women’s Track and Field; B.A., University of Minnesota, Morris
Dan Magner (2006), Head Women’s Soccer; B.A., Eastern Nazarene College
David Molesworth (2004), Head Swimming; B.S., M.A., University of South Dakota
Heather Pennie-Roy (1998), Senior Woman Administrator, Head Women’s Softball; B.A., University of Minnesota, Morris; M.A., Northern State University
Lulu Seyle (2016), Assistant Women’s Basketball; B.S., Northland College; M.S., North Dakota State University
Joel Sussenguth (2018), Head Volleyball; A.A., Ridgewater College; B.A., Southwest Minnesota State University; M.S., Bemidji State University
Scott Turnbull (2007), Head Men’s Soccer; B.A., University of Minnesota, Morris

Division of the Humanities
Stacey Parker Aronson, Chair

Art History
Associate Professor
Julia Dabbs (2000), A.B., University of Michigan, Ann Arbor; M.A., Ph.D., University of Maryland College Park
James Schryver (2005), B.A., Boston University; M.A., Ph.D., Cornell University
Assistant Professor
Priyanka Basu (2017), B.S., University of Wisconsin, Madison; M.A., Art Center College of Design; M.A., Ph.D., University of Southern California

Art, Studio
Professor
Jessica Larson (1995), B.A., University of Minnesota, Morris; M.F.A., University of Colorado
Theresa Otten (2001), B.S., North Dakota State University; M.F.A., University of South Dakota, Vermillion
Assistant Professor
Jason Ramey (2016), B.F.A., Indiana University-Purdue University Indianapolis; M.F.A., University of Wisconsin, Madison

Instructional Staff
Andrew J. Nordin (2011), B.F.A., St. Cloud State University; M.F.A., San José State University
Andrew Stansbury (2017), B.F.A., University of Texas at San Antonio; M.F.A., University of Massachusetts, Dartmouth

Communication, Media, and Rhetoric
Professor
Mary Elizabeth Bezanson (1987), B.S., B.A., University of Minnesota, Twin Cities; M.A., Ph.D., University of Washington

Associate Professor
Barbara Burke (1996), M.A., University of Michigan; B.S., B.A., M.A., Ph.D., Purdue University

Assistant Professor
Nadezhda Sotirova (2015), B.A., Bridgewater College; M.A., Virginia Polytechnic Institute and State University; Ph.D., University of Massachusetts, Amherst

English
Professor
*Bradley Deane (2002), B.A., University of Michigan; M.A., Ph.D., Northwestern University
Julie Eckerle (2007), B.A., Franklin College; M.A., University of Kentucky; Ph.D., University of Minnesota, Twin Cities
Michael Lackey (2007), B.A., University of St. Thomas; M.A., Ph.D., University of Kentucky, Lexington
C. Brook Miller (2006), B.A., Dartmouth College; M.A., Ph.D., Indiana University

Associate Professor
*Janet Schrunk Ericksen (1998), B.A., University of Kansas, Lawrence; M.A., Ph.D., University of Illinois, Urbana-Champaign
*Becca Gercken (2002), B.A., Slippery Rock University; M.A., Ph.D., University of Miami

Assistant Professor
Angela Hume (2017), B.S., Drake University; M.F.A., St. Mary’s College of California; M.A., Ph.D., University of California, Davis

French
Associate Professor
Tammy Berberi (2002), B.A., Colorado College; M.A., University of North Carolina, Chapel Hill; Ph.D., Indiana University, Bloomington
Sarah Buchanan (2000), B.A., St. Olaf College; M.A. University of Utah; Ph.D., University of Minnesota, Twin Cities

Assistant Professor
Lisa Bevevino (2012), B.A., University of North Carolina at Chapel Hill; M.A., Ph.D., Ohio State University

German Studies
Associate Professor
Stephen Mark Carey (2012), B.A., St. Joseph’s University; M.A., Ph.D., Washington University in St. Louis

Instructional Staff
Henrik Sunde Wilberg (2016), Magistra der Philosophie, University of Vienna; Ph.D., Northwestern University

Languages
Instructional Staff
Viktor Berberi (2002), B.A., University of Notre Dame; M.A., Ph.D., Indiana University
Gabriel Desrosiers (2010), B.A., University of Minnesota, Morris; M.Ed., University of Minnesota, Duluth
Nancy Pederson (2009), B.S., Moorhead State University; M.A., University of Minnesota, Twin Cities
Timothy Poore (2011), B.A., M.A., University of Northern Colorado
Paul Robinson (2016), B.A., Hamline University; M.Ed., University of Minnesota, Twin Cities

Music

Associate Professor
John Wesley (Wes) Flinn (2012), B.M., Morehead State University; M.M., Ph.D., University of Cincinnati College-Conservatory of Music
Denise Odello (2008), B.M., University of California, Irvine; M.A., Ph.D., University of California, Santa Barbara

Assistant Professor
Ann DuHamel (2009), B.A., College of St. Benedict; M.M., University of Minnesota, Twin Cities; D.M.A., University of Arizona, Tucson

Instructional Staff
Jonathan Campbell (2015), B.A., M.M., Central Washington University (Ellensburg); D.A., University of Northern Colorado
Alexander Corbett (2014), B.M., Concordia College, Moorhead; M.M., D.M.A., University of Minnesota, Twin Cities
Ana Miller (2014), B.A., Concordia College, Moorhead, MN; M.M., University of Arizona, Tucson
Simon Tillier (2011), G.Mus., Royal Northern College of Music; M.Mus., University of Calgary, Canada

Philosophy

Associate Professor
Mark Collier (2005), B.A., Columbia University; Ph.D., University of California, San Diego
Daniel Demetriou (2009), B.A., Ambassador University; M.A., Texas A&M University; Ph.D., University of Colorado at Boulder

Spanish

Professor
Stacey Parker Aronson (1991), B.A., Ohio Wesleyan University; M.A., University of Kansas; Ph.D., University of Minnesota, Twin Cities

Associate Professor
James Wojtaszek (1999), B.A., M.A., Kent State University; Ph.D., Rutgers, The State University of New Jersey

Assistant Professor
Adam Coon (2015), B.A., Westminster College; M.A., University of Utah; Ph.D., University of Texas at Austin
Thomas Genova (2012), B.A., Georgetown University; M.A., Ph.D., University of California, Santa Cruz

Instructional Staff
Windy Gonzáles Roberts (2005), B.S., Lesley University, Cambridge, M.A.; M.Ed., Concordia College

Theatre Arts

Professor
Ray Schultz (2000), B.A., New York University; M.A., Ph.D., Wayne State University

Associate Professor
Siobhan Bremer (2001), B.S., Winona State University; M.F.A., Minnesota State University, Mankato

Assistant Professor
Lucas Granholm (2016), B.A., University of Minnesota, Morris; M.F.A., University of South Dakota

Division of Science and Mathematics

Peh Ng, Chair

Biology

Associate Professor
Tracey Anderson (1997), B.A., Gustavus Adolphus College; M.A., University of Kansas; Ph.D., Oregon State University
Margaret Kuchenreuther (1991), B.A., University of Northern Iowa; M.S., University of Wisconsin, Milwaukee; Ph.D., University of Wisconsin, Madison
Paul Myers (2000), B.S., University of Washington, Seattle; Ph.D., University of Oregon
Heather Waye (2008), B.Sc., M.Sc, University of Victoria; Ph.D., Oregon State University

Assistant Professor
Indrajit Chaudhury (2018), B.S., M.S., Assam University, Silchar, India; Ph.D., Institute of Genomics and Integrative Biology (University of Pune), Delhi, India
Robert Denton (2018), B.Sc., Ball State University; M.Sc., Eastern Kentucky University; Ph.D., Ohio State University
Stephen DesLauriers (2016), B.S., Ph.D., University of California, Riverside
Kati Geszvain (2018), B.S., University of Wisconsin-Stevens Point; Ph.D., University of Wisconsin-Madison
Rachel Johnson (2013), B.A., Boston University; Ph.D., Mayo Graduate School

Instructional Staff
Shelby Loberg (2016), B.S., Ph.D., University of Minnesota, Twin Cities

Chemistry

Professor
*Nancy Carpenter (1989), B.S., Elmhurst College; Ph.D., Northwestern University
*Ted Pappenfus (2003), B.A., Saint John’s University; Ph.D., University of Minnesota, Twin Cities

Associate Professor
Joseph Alia (2002), B.A., New College of Florida; Ph.D., Yale University
Jennifer Goodnough (2002), B.S., Saint Francis College, Pennsylvania; Ph.D., University of Wisconsin, Madison

Assistant Professor
Bryan Nell (2017), A.B., Ripon College; M.S., Ph.D., University of Oregon
Kara Nell (2017), B.A., Albion College; Ph.D., University of Oregon
Alyssa Pirinelli (2016), B.S., St. Lawrence University, Canton, NY; Ph.D., Indiana University Bloomington

Computer Science

Professor
Nicholas McPhee (1991), B.A., Reed College; M.S., Ph.D., University of Texas, Austin
Associate Professor  
Kristin Lamberty (2005), B.A., University of Minnesota, Morris; M.S., Ph.D., Georgia Institute of Technology  
Elena Machkasova (2003), M.S., Moscow Oil and Gas Institute; M.S., University of Southern Maine; Ph.D., Boston University  

Assistant Professor  
Peter Dolan (2014), B.A., University of Alaska, Fairbanks; M.S., Ph.D., University of Oregon

Geology  
Professor  
Keith Brugger (1993), B.S., M.S., Lehigh University; Ph.D., University of Minnesota, Twin Cities  
*James Cotter (1984), B.A., Franklin and Marshall College; M.S., Ph.D., Lehigh University  
Associate Professor  
Stephen Crabtree (2012), B.A., Franklin and Marshall College; Ph.D., University of Michigan, Ann Arbor

Mathematics  
Professor  
*Peh Ng (1995), B.S., Adrian College; M.S., Ph.D., Purdue University  
David Roberts (1999), B.A., Princeton University; Ph.D., Harvard University  
Associate Professor  
Christopher Atkinson (2012), B.S., Ph.D., University of Illinois at Chicago  
Laura Mercredi (Merc) Chasman (2011), B.S., California Institute of Technology; M.S., Ph.D., University of Illinois at Urbana-Champaign  
Mark Logan (2002), B.A., Carleton College; Ph.D., University of Wisconsin, Madison  
*Barry McQuarrie (2000), B.S., University of Winnipeg; M.M., University of Waterloo; Ph.D., University of Manitoba  
Instructional Staff  
Harris A. M. Ismail (2017), B.E., Birla Institute of Technology and Science, Pilani, India; M.S., Ph.D., University of Minnesota, Twin Cities

Physics  
Professor  
Gordon McIntosh (1992), B.S., Westminster College, Pennsylvania; M.S., West Virginia University; Ph.D., University of Massachusetts, Amherst  
Associate Professor  
Sylke Boyd (2004), M.A., Ph.D., University of Technology in Chemnitz, Germany  
Michael Korth (1984), B.A., University of Minnesota, Morris; M.S., Ph.D., University of Maryland  
Assistant Professor  
Steven Morgan (2016), B.S., Ph.D., University of Utah

Statistics  
Professor  
*Jon Anderson (1994), B.S., M.S., Ph.D., University of Minnesota, Twin Cities  
Jong-Min Kim (2002), B.S., Chongju University, South Korea; M.S., Chung-Ang University, South Korea; Ph.D., Oklahoma State University  
*Engin Sungur (1990), B.C.P., M.S., Middle East Technical University, Turkey; M.S., Ph.D., Carnegie Mellon University  
Assistant Professor  
Peter Dolan (2014), B.A., University of Alaska, Fairbanks; M.S., Ph.D., University of Oregon

Division of the Social Sciences  
Arne Kildegaard, Chair

Anthropology  
Associate Professor  
Rebecca Dean (2007), B.A., University of Michigan; M.A., Ph.D., University of Arizona  
Assistant Professor  
Joseph Beaver (2009), B.A., University of Kansas; M.A., Indiana University; Ph.D., University of Massachusetts  
Cristina Ortiz (2013), B.A., Central College; M.A., Ph.D., University of Iowa

Economics/Management  
Professor  
Cyrus Bina (2000), B.S., Institute of Advanced Accounting, Tehran; M.A., Ball State University; Ph.D., American University  
Stephen V. Burks (1999), B.A., Reed College; M.A., Indiana University; Ph.D., University of Massachusetts  
*Bart D. Finzel (1989), B.A., Valparaiso University; M.A., Ph.D., Cornell University  
Arne Kildegaard (2001), B.A., Gustavus Adolphus College; M.A., University of Chicago; Ph.D., University of Texas, Austin

Associate Professor  
Bibhudutta Panda (2012), B.A., Uktal University, India; M.A., Gokhale Institute of Politics and Economics, India; M.Phil., Delhi School of Economics, India; M.S., Ph.D., Louisiana State University  
Assistant Professor  
Satis Devkota (2014), B.A., Tribhuvan University, Nepal; M.A., Western Illinois University; Ph.D., Wayne State University  
Instructional Staff  
David G. Brown (2014), B.A., Coe College; M.S., Ph.D., University of Illinois, Urbana; Ph.D., University of California, Davis  
Deb Economou (1995), B.A., Case Western Reserve University; J.D., University of Minnesota Law School  
Lauri Wyum (2014), B.S., Moorhead State University; M.A., Dakota State University

History  
Professor  
*Jennifer Kolpackoff Deane (2005), B.A., University of Washington, Seattle; Ph.D., Northwestern University  
*Roland Guyotte (1969), A.B., Brown University; M.A., Ph.D., Northwestern University

Associate Professor  
Stephen Gross (1998), B.A., Ph.D., University of Minnesota, Twin Cities
Assistant Professor
Emily Bruce (2015), B.A., Williams College; Ph.D., University of Minnesota, Twin Cities
Elliot James (2016), B.A., Carleton College; Ph.D., University of Minnesota, Twin Cities
Benjamin Narvaez (2012), B.A., Grinnell College; M.A., Ph.D., University of Texas at Austin
Kevin Whalen (2015), B.A., University of Minnesota, Morris; Ph.D., University of California, Riverside

Political Science
Professor
Seung-Ho Joo (1995), B.A., Yonsei University, Korea; M.A., Eastern Kentucky University; Ph.D., Pennsylvania State University
Associate Professor
*Sheri Breen (2007), B.A., Ph.D., University of Minnesota, Twin Cities
Roger Rose (2009), B.A., Occidental College; M.A., Ph.D., University of California, Davis
Assistant Professor
Tim Lindberg (2015), B.A., University of Minnesota, Morris; Ph.D., University at Albany, State University of New York

Psychology
Professor
Dennis Stewart (2002), B.S., University of Illinois at Urbana-Champaign; M.A., Ph.D., Miami University
Associate Professor
Thomas Johnson (1986), B.A., St. Olaf College; Ph.D., University of Minnesota, Twin Cities
*Heather Peters (2007), B.A., B.S., University of Minnesota, Twin Cities; M.A., University of Arizona; Ph.D., University of California, Davis
Assistant Professor
Kerry Michael (2014), B.S., Athens State University; M.A., The University of Alabama in Huntsville; Ph.D., Pennsylvania State University

Instructional Staff
Marissa Holst (2017), B.S., University of Wisconsin-River Falls; M.S., Ph.D., Iowa State University
Jacqueline Julien (2005), B.S., University of Wisconsin-River Falls; M.A., Ph.D., Argosy University, Twin Cities
Cheryl Stewart (2004), B.S., George Mason University, Fairfax, Virginia; M.A., Ph.D., Miami University, Oxford, Ohio

Sociology
Associate Professor
Farah Gilanshah (1988), B.A., National University of Iran; M.A., Ph.D., University of Minnesota, Twin Cities
Jennifer Rothchild (2003), B.A., Miami University; M.A., Georgia State University; Ph.D., American University

Interdisciplinary Studies
Native American and Indigenous Studies
Associate Professor
*Becca Gercken (2002), B.A., Slippery Rock University; M.A., Ph.D., University of Miami
Assistant Professor
Kevin Whalen (2015), B.A., University of Minnesota, Morris; Ph.D., University of California, Riverside

Environmental Science
Faculty from numerous disciplines, including anthropology, English, and history.

Environmental Studies
Associate Professor
Ed Brands (2011), B.A., Grinnell College; M.A., Ph.D., University of Iowa

Instructional Staff
Clement Loo (2013), B.A., M.A., University of Calgary; Ph.D., University of Cincinnati
Faculty from numerous disciplines, including biology, economics, English, philosophy, and political science.

Gender, Women, and Sexuality Studies
Faculty from numerous disciplines, including English, history, philosophy, and sociology.

Human Services
Faculty from numerous disciplines, including political science, psychology, and sociology.

Latin American Area Studies
Faculty from numerous disciplines, including anthropology, history, political science, sociology, and Spanish.

Medieval Studies
Faculty from numerous disciplines, including art history, English, French, German Studies, and history.
The University of Minnesota is an equal opportunity educator and employer.
