Curriculum Committee Proposal

Set a limit on I.S. internship credits counting toward the degree

Current: There is currently no approved limit on how many times an IS internship can be repeated and applied to the degree. Online courses with variable credits (e.g., 1-16 credits) show repeatable limits. The default is 999 credits, if no limit is set.

Proposed: The Curriculum Committee unanimously supports setting a maximum limit of 32 I.S. internship* credits to be applied toward the UMM B.A. degree.

Rationale: We want students at this liberal arts institution to take a variety of electives rather than one activity that uses up nearly all of the elective credits.
