Lac qui Parle County Population Distribution, 2010

Source: U.S. Census Bureau, 2010

Lac qui Parle County has seen an overall decrease in population from 1960 to 2010, with the greatest decrease of over 2,000 people occurring between 1960 and 1970. The number of households increased by 7% over these same years, however the significant decrease in average household size offset that increase. The population is projected to decrease over the next few decades, and although not as dramatically as the last fifty years, Lac qui Parle County is projected to lose more population in the future than almost all other counties in the Region.

Race, 2010

Source: US Census Bureau, Decennial Census

The population distribution shows that there is a higher middle age population (ages 45 to 60) in Lac qui Parle County with lower percentages of the population in the younger and older age cohorts. Lac qui Parle County has nearly an entirely white population, which is typical for counties made up of small, rural communities.
