Accomplishments

Morris’s student-run radio station, KUMM, served as the Minnesota headquarters for College Radio Day (CRD). The event, founded in 2010, celebrates college radio listenership and the work that students worldwide contribute to high school and college radio stations. Over 30 countries participated in the celebration.

Jim Hall, director of information technology, will present at the Committee on Institutional Cooperation (CIC) CIO TechForum next week. The CIC is a consortium of the Big Ten member universities as well as the University of Chicago. For more than half a century, these world-class research institutions have advanced their academic missions, generated unique opportunities for students and faculty, and served the common good by sharing expertise, leveraging campus resources, and collaborating on innovative programs. Hall will present on leadership, specifically on finding leadership lessons in unusual places.

Athena Kildegaard, poet and lecturer, has been invited to attend the Concordia College English Department’s Visiting Writers Festival, October 2–4. Kildegaard will read from her work, conduct master classes, participate in a student-moderated panel discussion about writing and literature, and visit classrooms.

Sheri Breen, assistant professor of political science, and several Morris students attended the Land Institute’s 35th annual Prairie Festival last weekend. The three-day event brought students like Naomi Wente ’13, Dodge Center, Jordan Wente ’15, Dodge Center, and Sienna Nesser ’14, Saint Anthony Village, together for lectures, performances, community building, and more.

A University of Minnesota student project led by Natalie Hoidal ’15, Forest Lake, has been chosen as a finalist for the Association for the Advancement of Sustainability in Higher Education (AASHE) 2013 Student Sustainability Awards. Winners will be announced at the AASHE national conference in Nashville October 6. For the project, called “The Next Generation Environmental Leaders,” Hoidal organized a coalition of students from the Morris and
Twin Cities campuses that played a key role in Governor Mark Dayton’s 2013 Environmental Congress.
