THE AGENDA

1. Welcome and Introduction (10 min.)

Item(s) the committee thinks we should discuss:

- Academic success coaches and retention
- Investments in instructional technology in classrooms
- Internationalizing the campus – discuss the study abroad programs
- Fundraising – possibility naming the buildings after donors – one way to increase donations
- 6 year capital plan
- Recruiting and retention
- Remember to pay attention to responsibilities when discussing these topics

2. Responsibilities, stages and components of planning, and integration. (10 min.)

3. Summary of 2015-16 Planning Committee activities (10 min.)

4. UMM Strategic Planning Approach

Alternatives: 1. Do not work on it and wait for the new Chancellor, or **2.** Continue to work on the expiring UMM Strategic Plan (2016)

- See what administration has in mind – vision of who should do it and a timeline
- Focus on agenda items that people want to look into
- Wait because we don't know who the next chancellor will be
 - Still work on goals
- Would be valuable to have a working plan to present to the new Chancellor in the first few weeks of arriving – include units. Goal is to give a long range plan and show what we have achieved
 - There are items that can be worked on before

- Ability for chancellor to buy into it and set goals
- Needs to be collaborative
- Need to have long range goals 10-15 years and 2-3 year goals
- Prepare template- take template and send to the related units and see what they have to say
- Engin started to delete the redundant items in the strategic plan
- Engin asked permission to move forward on preparing the template to send to the units
 - Sent template to Troy and Susan (didn't complete) – Bryan got feedback from Troy and Susan saying they were confused of what the goal of the template was and how much time to spend on it.
 - For Susan – so much has changed and been accomplished
 - Most goals have been met or still continuing – what is more important? – the presentation or the template (how much do you want for both?)
 - Is this the only time we will get to have a say in this process?
 - Make sure to let people know we are continually working on the plan
 - Put in the related units' old strategic plan info
 - Maybe have a meeting with the departments to talk about goals
 - Might be the case that we need to start fresh because past goals have been made
 - Do we need to start with something fresh and different
 - Maybe ask “Have these goal as stated been useful guides to the work you are currently doing?”
 - Make documents/data easily accessible to view
 - Need to capture the newer units as well – for example: academic success coaching
 - Who do we envision sending it to? – existing committee, departments, senior leaders
 - Representatives of the USA staff too
 - How long will the timeframe be for the units to give feedback? – 1 month
 - Should we present this as a survey?
 - Say just capturing data and will revisit and provide feedback later
 - Identify what items we are still working on and get rid of components that are met
 - There are a lot of cross over in other departments so it may be hard to break the plan apart and separate the areas – ex one stop

5. UMM Enrollment Management Plan

Issues: Integrating Challenging/Competing UMTC Enrollment Management Plan. Should we invite the Twin Cities to present what they have to the Committee and Campus.

- Would like to Invite them here to talk with us about what their plan is
- TC has specific plan and goals on what type of students they are going after – where does UMM stand?
 - What are our gaps and what can UMM do?
 - Would like to see what our admissions Director's plan is and see if she needs any help
 - Jacquie has talked with them and addressed these issues
 - We should read what the plan is and then see what we can do

6. UMM Data Flow Planning

Any progress? – do we know where the data is? – Didn't get to
