This Report is brought to you for free and open access by the Assessment of Student Learning Committee (Inactive) at University of Minnesota Morris Digital Well. It has been accepted for inclusion in Assessment of Student Learning Reports by an authorized administrator of University of Minnesota Morris Digital Well. For more information, please contact skulann@morris.umn.edu.

Computer Science Updated PSLOs:

- Students will be able to apply fundamental principles of computer science to solve problems in all core areas of computer science.
- Students will demonstrate technological flexibility through the ability to employ new sets of tools effectively.
- Students will be able to communicate technical ideas effectively both orally and in written form.
- Students will demonstrate their ability to work in groups as part of an effective team.
- Students will be able to identify and analyze ethical implications involving technology.
