In these minutes: Student Interest Survey 2019 draft

Ryan Schamp welcomed all present and noted that a quorum was not present to approve the prior meeting minutes. This approval will be tabled until the next meeting.

Old Business:

1. Ryan Schamp reported on the status of obtaining card swipe information during winter break to see a more accurate picture of students who remain on campus. After several attempts via phone, email and in person by multiple departments he has still not received any feedback from the Twin Cities Central Security. Follow up will continue.

New Business

1. A draft of the Student Interest Survey 2019 was presented by David Israels Swenson and committee members reviewed wording for clarity and made suggestions for new questions. This survey has been collected every odd year in the spring since 2007 by Student Activities. This survey has been anonymous in the past and discussion was had on whether or not it would be useful to have more details pulled in from other campus systems (PeopleSoft, Maxient, A+, etc) for more comparison or if students would not complete it if not fully anonymous. This may be explored further.

The survey brings up questions about types of programming/events on campus, how often and when students attend programming/events, and how involved students are in organizations/clubs on campus. Data can assist in determining if UMM is over programming.

Adjournment time: 12:40pm
