This Report is brought to you for free and open access by the Assessment of Student Learning Committee (Inactive) at University of Minnesota Morris Digital Well. It has been accepted for inclusion in Assessment of Student Learning Reports by an authorized administrator of University of Minnesota Morris Digital Well. For more information, please contact skulann@morris.umn.edu.

Environmental Studies

1 - Environmental competency

Students will be able to analyze their own impact on the environment, so as to think critically about the consequences of their individual and collective choices.

2 - Environmental issues as multifaceted and multidisciplinary

Students will be able to apply a multidisciplinary lens to the underpinnings of modern environmental movements and problems

3 - Knowledge of major environmental challenges

Students will be able to articulate major intertwined environmental challenges and how to effectively address them

4 - Research methods and creative expression

Students will be able to apply qualitative and quantitative methods to research projects in environmental studies

5 - Cultivating an understanding of place in global context

Students will be able to articulate the interactions among biophysical, economic, and social aspects of particular places or regions and their connections to larger global forces or issues.
