This Report is brought to you for free and open access by the Assessment of Student Learning Committee (Inactive) at University of Minnesota Morris Digital Well. It has been accepted for inclusion in Assessment of Student Learning Reports by an authorized administrator of University of Minnesota Morris Digital Well. For more information, please contact skulann@morris.umn.edu.

Geology Program Student Learning Outcomes (PSLOs):

1. Students will be able to describe the evolution of the Earth as a planetary body using the fundamental geologic principles that are used to reconstruct Earth history.
2. Students will exhibit the ability to recognize geologic features and Earth materials, and to infer the processes responsible for their formation.
3. Students will effectively apply skills to solve geologic problems using observations to interpret geology in a natural setting,
4. Students will be able to read, evaluate and incorporate in their research current geologic literature.
5. Students will demonstrate skill in oral and written presentation of geologic knowledge
