This Article is brought to you for free and open access by the Journals at University of Minnesota Morris Digital Well. It has been accepted for inclusion in Journal of the Minnesota Academy of Science by an authorized editor of University of Minnesota Morris Digital Well. For more information, please contact [skulann@morris.umn.edu](mailto:skulann@morris.umn.edu).

# Notice to Contributors

## Publication policies

Membership in the Minnesota Academy of Science is a desirable but not necessary condition of publication in the JOURNAL. All papers by residents of Minnesota, staff and students of Minnesota high schools, colleges and universities, that meet the editorial criteria of the Academy will be considered for publication. Papers are accepted with the understanding that they have not been published, submitted or accepted for publication elsewhere. Short reports of work published elsewhere are welcomed, however, providing copyrights are not infringed.

Authors will usually be notified of receipt of their papers within one week to ten days. Some papers may be sent to reviewers for evaluation of their soundness and significance. Suggestions for revisions or editorial changes, if necessary, will be sent out in ample time to meet the production schedule. Rejected articles will be returned as soon as possible.

## Types of paper

The JOURNAL welcomes all papers of scientific interest to the membership and the residents of Minnesota, such as articles, reports of research, abstracts of work published elsewhere, letters of opinion or information, reports of meetings and book reviews. All papers should be prepared in the form best suited to its material and purpose.

EACH PAPER MUST BE ACCOMPANIED BY AN ABSTRACT AND A BRIEF PROFESSIONAL BIOGRAPHY OF THE AUTHOR/AUTHORS.

## Proofs

One set of galley proofs will be provided for each paper. Alterations should be kept to an absolute minimum and should be marked on the galley, not on the manuscript. The Academy reserves the right to bill authors for textual revisions after type has been set. Both galley proofs and manuscript should be returned to the Editor within the specified period.

## Reprints

Reprints are provided at cost. An order blank will accompany each set of proofs. The minimum order is 100 reprints.

## Preparation of manuscripts

All manuscripts must be prepared on a good grade of white bond paper and double spaced throughout. Do not use yellow second sheets, thin or "erasable" paper. Do not use single spacing anywhere.

Writing should be clear, concise and coherent. Avoid cliches

and literary mannerisms. Organize your material so that the introduction is a statement of your findings, problem, or thesis, and the balance of your paper contains the supporting details and arguments. Be sure the significance of your work or thoughts is apparent to readers outside your field; do not hesitate to include explanations that may be obvious to your colleagues.

Avoid specialized jargon and abbreviations. When technical terms are essential, define those that are peculiar to your field.

A good general style manual can be of great assistance. Appropriate manuals are The University of Chicago style manual, that of the American Institute of Physics and the *Style Manual for Biological Journals*.

## Footnotes

Footnotes should be used sparingly. In most instances, the information can be incorporated in the text. Do not use footnotes for references or citations.

## References

References should be arranged alphabetically in the following form:

*Book:* Andover, P. 1961. *A Study of New England Rocks*. Boston, Provincial Press.

*Chapter:* Exeter, C. and Andover, P. 1961. Vermont Granite. In Andover, P., Editor. *A Study of New England Rocks*. Boston, Provincial Press, pp. 126-199.

*Journal article:* Andover, P., Exeter, C. and Choate, S. 1962. Additional Notes on New England Rocks. *Geol.*, 24:12, pp. 16-58.

To cite a reference in the text, use the following form:

*General:* (Exeter and Andover, 1961).

*Specific:* (Exeter and Andover, 1961:129-130).

Use standard abbreviations for names of journals as given in *Chemical Abstracts List of Periodicals* or the library catalogue.

## Subheads

Insert subheads in appropriate places in the text. Keep them short and meaningful. Avoid use of "Introduction" at beginning of paper.

## Summary

Do not use a summary if it duplicates the information in your abstract.

MINNESOTA ACADEMY OF SCIENCE

3100 38th Avenue South  
Minneapolis, Minnesota 55406

Phone 721-2500  
Area Code 612

According to the Constitution of the Minnesota Academy of Science, any person who subscribes to the object of the society and is nominated by a member is eligible for membership. On recommendation of the Board of Directors, or an official authorized by them, he shall be duly elected. Please complete and return this form to the Executive Secretary at the above address.

APPLICATION FOR MEMBERSHIP IN THE MINNESOTA ACADEMY OF SCIENCE

SUSTAINING \$10.00 \_\_\_\_\_ Annual \$5.00 \_\_\_\_\_ Collegiate \$1.00 \_\_\_\_\_

I. NAME: \_\_\_\_\_  
Last First Title (Mr. Miss Mrs. Dr.)

II. HOME ADDRESS: \_\_\_\_\_  
Phone \_\_\_\_\_  
Zip Code \_\_\_\_\_

III. INSTITUTION: \_\_\_\_\_  
Position \_\_\_\_\_  
ADDRESS: \_\_\_\_\_  
Street Zip Code \_\_\_\_\_  
City Phone \_\_\_\_\_

IV. CLASSIFICATION: Industrial \_\_\_\_\_ Higher Ed. \_\_\_\_\_ Secondary Ed. \_\_\_\_\_ Collegiate \_\_\_\_\_
