Psychology PSLOs, Version 4

1. Students will be able to apply knowledge of the subareas within psychology to the spectrum of psychological phenomena related to behavior and mental processes and explain how the environment (ranging from biological to sociocultural) affects both.
2. Students will be able to use scientific reasoning to interpret psychological phenomena.
3. Students will be able to interpret, design, and conduct psychological research in an ethical manner.
4. Students will be able to communicate scientific findings effectively.
5. Students will be able to apply knowledge of statistical concepts to psychological data.
