5. Study Abroad Presentation

Stephanie Ferrian, Academic Center for Enrichment (ACE), presented on the services and programs offered by ACE for study abroad and National Student Exchange (NSE) (see Addendum One).

Ferrian noted that most students participate in the short-term faculty led programs that take place during May/summer session. The new winter break program to Brunnenburg led by Professor James Cotter had 21 students enrolled and was very successful.

UMM's exchange programs follow a 1:1 exchange meaning one student is sent to the host university and one visiting student is sent to Morris. ACE prefers to keep an even exchange.

Morris is currently only affiliated with International Study Abroad (ISA).

ACE is looking at increasing participation in programs offered by the Duluth campus.

Ferrian enjoys her work because she is able to work with people from various offices and disciplines across campus.

ACE has been charged with helping coordinate domestic travel such as the Symphonic Winds Alaska tour. ACE will also coordinate services for new programs such as the Brunnenburg semester long program and the winter program to Nicaragua.

There are new programs for the 2018-19 academic year to Cuba, Edinburg, and Thailand. ACE is also looking at developing a semester long program to Brunnenburg and is introducing it to other faculty.

ACE no longer has a contract the with Learning Abroad Center (LAC) in the Twin Cities. It was noted that there is no impact on students using the LAC for programs offered by the Twin Cities. The impact is to the program set up and it allows Morris faculty to create and lead the curriculum in addition to saving some money. This also means that the LAC is no longer advertising Morris programs. Student from the Twin Cities campus can still participate in Morris programs, but they will not be advertised.

ACE is now working directly with third party program providers and developing new relationships and exchanges.

ACE is looking at creating a program available to alumni and friends. Judy Korn suggested Ferrian speak with Erin Christensen, Fund Development, and Alumni Relations former staff Carla Riley. A similar program was proposed before, but never came to fruition. Others questioned whether the course should be credit bearing and whether there would be tuition or a program fee. The details have not been worked out.

There are seven students participating in National Student Exchange (NSE). Hawaii is the most popular destination.

It was asked if ACE was aware of a new program required by the US government to report students who are studying out of state. Ferrian was not aware of the new requirement, but will follow up with NSE president. ACE has to report on students studying abroad so this might get added to the reporting.

Ferrian discussed credit policies including the residency requirement given such a high number (above national average) of Morris students studying abroad are seniors. Morris also has a higher number of males participating in study abroad.

Students studying through non-affiliated programs are required to take a leave of absence if they are going to be away for more than one semester.
