IS-1061: ~~Learning to Learn~~ Mastering Skills for College Success (SS; 2 cr; prereq #: S-N only; fall, spring, every year)

Basic learning and thinking skills: procedures for acquiring knowledge and conducting academic inquiry; formulating and evaluating ideas, arguments, and abstract principles. Introduction to elements of the learning process. Assessment of individual approaches and development of individual strategies for learning.

Rationale for change:

"Mastering Skills for College Success" better reflects the intent of the course and emphasizes that students already have skills on which we want to promote improvement. Dropping of the SS Gen Ed designation comes after review of the course in relation to the Gen Ed requirements. As primarily a skills course it should not carry a Gen Ed designator.
