TRUTH Report Presentation (link)

E. <u>Description:</u> A report on the findings of the relationship and history between the University of Minnesota and tribal nations.

Dylan Young presented before forum to disscuss the truth report. Dylans presentation was made to inform and encourage MCSA to pass a resolution in support of the recommendations made by the the TRUTH Report. Dylan went on to discuss the work that TRUTH project has done and the three the guidlings questions;

How might this institution serve as a site of healing rather than harm? How do we redress the inequities created through genocide and repression of Indigenous people and culture? How do we repair where settler occupation has erased native lives, culture, and histories by exploiting native lands and resources while displacing Indigenous people?

The report found that the instatutional harm has been committed by the University of Minnesota. The primary harms that were proven were genocide, forced removal, land exporpiation, wealth transfer and accummination, revisionist history, and ingenious erasure.

The following reccomadtions were made; land back, reperations in perpatuity, diverting PUF streams, represation, Commitment to Education as Individual and Tribal Self-Determination, Enact Policies that Respect Tribal Sovereignty and Cultural Heritage, Sites for Future Research, and Meet Trust Obligations.

Dylan reccomends that MCSA respect for tribal autonomy and UMN-Tribal collaboration. Dylan reminded us that we have the largest Native American student population in the UMN system. Dylan also discussed how in recent history, MCSA has been a leader within the UMN system on issues involving Native students and tribal nations and how we and the University has an opportunity to transform into an institution of healing.
