Course Revision #1

Give complete UMM catalog entry (deletions in strikethru font, additions underlined)(see instructions)

MGMT 2102 - Principles of Accounting II

(2.0 4.0 cr; Prereq-2101; spring, every year)

A continuation of Principles of Accounting I. Students develop an understanding of the issues unique to partnerships, corporations, and organizational financing. Cash flow statements and performance analysis are also emphasized.

Rationale (see instructions):

Principles of Accounting I and II is typically a 6 credit course at most institutions. At UMM it has been an 8 credit course which included content often taught in upper level accounting and management courses such as Managerial Accounting and Financial Management. The change from 4 to 2 credits will mean that some of the topics that are currently taught in Accounting II will now not be covered in this course but will be included in Mgmt 3133-Managerial Accounting or Mgmt 3101-Financial Management. This change will add much needed flexibility to the teaching schedule of the faculty who teaches Mgmt 2101 and 2102 (Principles of Accounting I and II), and make transfer of courses from other institutions easier.

Course Revision #2
