Virtual tour now offers Apple and Android downloads

Summary: Tour users can choose from three virtual campus trails: general, historic and “green.”

(June 30, 2011)-The University of Minnesota, Morris recently made available Apple and Android mobile device downloads for the convenience of its virtual tour users. Morris partnered with YourCampus360, a multimedia company specializing in higher education, to build a complete virtual walking tour of the Morris campus, providing prospective students and their families, alumni, and the general public opportunities to visit campus from afar.

The tour offers users three trails from which to choose. The “general tour” is much like one would take as a prospective student. The green tour features the campus’s renewable energy projects and sustainability initiatives. The historical tour features the campus’s historic district, which is listed on the National Register of Historic Places.

The virtual tour is available [online](#) and on the [Morris campus Facebook page](#).

Downloads are available for [Apple](#) and [Android](#) mobile devices.

Through personal and academic discovery, the University of Minnesota, Morris provides opportunities for students to grow intellectually, engage in community, experience environmental stewardship and celebrate diversity. A renewable and sustainable educational experience, Morris prepares graduates for careers, for advanced degrees, for lifelong learning, for work world flexibility in the future, and for global citizenship.
