Call for Papers for Annual Meeting

Notices for papers for presentation at the 1980 annual meeting of the Minnesota Academy of Science have been issued, and two deadlines have been established for proposals.

The first deadline is Feb. 15, 1980, for abstracts of papers to be offered for possible publication in the *Academy Journal*.

The second deadline, Feb. 22, 1980, is for titles of research results to be presented but not with publication in mind.

The Academy office emphasizes that observance of deadlines and formalities relating to presentations at the meeting is extremely important this year because the Academy's own annual session, April 25-26 at Mankato, will take place a very short time before the International Science and Engineering Fair May 4 - 10 in St. Paul, with the Minnesota Academy of Science as local host for that function.

As in the past two years, abstracts of papers will be published in a booklet to be distributed at the Mankato meeting. The actual manuscripts or reports to be given at the meeting must be deposited with the chairperson of the appropriate section on the day of presentation. Persons desiring publication but not making oral reports must deposit manuscripts before the conclusion of the meeting April 26.

Abstracts must be presented in the designated format. Submission forms as well as general instructions may be obtained from section chairpersons or the Academy office. The advance notice should include an estimate of time required for presentation and need for audio-visual or other special equipment along with the author's name, title, mailing address, institutional base and the exact title of the paper.

Chairpersons are yet to be announced for sections on Chronobiology, Minnesota College Chemistry Teachers, and Minnesota Science Teachers Associations.

Mankato State University also will serve as host for the State Science Fair April 20-22, but the exhibit hall for that event will be located in the Holiday Inn in Downtown Mankato rather than at the campus.

The list of designated chairpersons appears elsewhere in this journal.

Distribution and Ecology of <i>Orconectes iowaensis</i> Fitzpatrick and <i>Orconectes rusticus</i> (Girard) in Minnesota GARY S. PHILLIPS and LARRY A. REIS	18

ON THE COVER — In the main photo the two girls are standing in the shadow of trees planted 25 years before; and the same two girls had been photographed for the narrow picture about 19 years previously. The tree farm is described in an article on page 10.

The Minnesota Academy of Science does not take a stand on issues which may be discussed in articles published in the *Journal*. Readers should bear in mind that views expressed in these articles are strictly those of the authors.
