Graduate Study Information Session at UMM

Summary:

(March 21, 2005)-A Master of Education (M.Ed.) and graduate credit information session will be held from 4:30 – 5:45 p.m. Monday, April 4, in room Science 1020 on the University of Minnesota, Morris campus. Anyone with a bachelor's degree and an interest in pursuing graduate study in education is welcome to attend.

Representatives from the University of Minnesota – Duluth's (UMD) College of Education and Human Service Professions (CEHSP) will be on hand to present an overview of the M.Ed. program and graduate courses that are available on the campus of the University of Minnesota, Morris. A second round of the M.Ed. program will begin in September with summer courses, including the educational computing and technology certificate program, beginning this June at UMM. Education faculty from both campuses will be available to discuss the professional education interests of area educators and others during the session.

The Masters program is delivered in a cohort, with 20-25 professionals moving through common or core courses as a group in a blended course format. Online instruction will replace some of the traditional face-to-face meetings and classes in the M.Ed. program, allowing students from rural Minnesota and surrounding states to continue full time employment while completing the degree. There will be a demonstration of the technology used in the online components of the program at the April 4 session at UMM.

For further information about the M.Ed. and graduate credit information meeting on April 4, please contact Karen Johnson in Continuing Education, University of Minnesota, Morris at 800-842-0030 (320-589-6450) or e-mail johnsokm@morris.umn.edu.

Through personal and academic discovery, the University of Minnesota, Morris provides opportunities for students to grow intellectually, engage in community, experience environmental stewardship and celebrate diversity. A renewable and sustainable educational experience, Morris prepares graduates for careers, for advanced degrees, for lifelong learning, for work world flexibility in the future, and for global citizenship.
