View the sky via campus telescope

Summary:

(February 19, 2004)-The physics discipline at the University of Minnesota, Morris invites the public to view the Moon, Venus, Mars, Saturn and Jupiter from 8 to 9 p.m. Monday, March 1, using the telescope located in the campus observatory.

The observatory can be found in Science 4500, on the fourth floor of the UMM science building. Weather permitting, the planets will all be located in the evening sky.

In the event of unsatisfactory weather, the event will take place on the next evening, March 2, same time and place.

Through personal and academic discovery, the University of Minnesota, Morris provides opportunities for students to grow intellectually, engage in community, experience environmental stewardship and celebrate diversity. A renewable and sustainable educational experience, Morris prepares graduates for careers, for advanced degrees, for lifelong learning, for work world flexibility in the future, and for global citizenship.
