KIRCHER TO SPEAK AT SUMMER FIELD DAY

William H. Kircher, Editor of the FARMER magazine, will be the principal speaker at the afternoon program of the Summer Field Day at the University of Minnesota, West Central School and Experiment Station, Morris, on Thursday, July 13, 1961.

Residents of West Central Minnesota are invited to attend the field day which will start with tours of the experimental areas at 9:30 in the morning, and will give visitors an opportunity to see much of the crops experimental work that is being conducted at the experiment station. Specialists from the University of Minnesota will be on hand to discuss crop production and management as well as to answer questions that may come up concerning crop problems. A special program is planned for the ladies.

The noon meal consisting of barbecued beef will be served to the visitors at a charge of \$1.00 per plate.

A special feature of this year's field day will be a plant problem clinic. Visitors are asked to bring in samples of insects, diseases, or weeds that may be a problem in their area and have this material identified and the specialists will be able to give recommendations concerning the control measures for the particular problem.

The outdoor program for the afternoon will start at 1:15 and be completed by 2:45 p.m.
