Big Stone County	\$81,900	\$447	\$924
Minnesota	\$206,200	\$759	\$1,549

Source: US Census Bureau, ACS (2006-2010)

The median home value in Graceville is well below the median home values for both Big Stone County and the state of Minnesota. However, compared to like sized communities in the Region, Graceville's median home value and median rent falls in the middle. The median monthly housing costs for homeowners on the other hand, are the highest compared to other communities and the county as a whole.

2010 Vacancy Rates

Source: US Census Bureau, Decennial

Home ownership vacancy rate and rental vacancy rate are the proportion of the homeowner or rental inventory that is vacant "for sale" or vacant "for rent." The overall vacancy rate includes other vacancies such as vacant "sold - not occupied," seasonal housing and vacant "rented - not occupied." In 2010, the city of Graceville had average vacancy rates compared to surrounding communities, but well below Big Stone County's rate.

Graceville is part of the CGB School District, which, like most school districts in the Region, has seen a decline in school enrollment over the last decade of over 33 percent. The decline in enrollment is consistent with the declining and aging population in Big Stone County and the entire Region. Note that data was only available for public school districts.

UMVRDC staff developed the concept and design for the Community Profile Brochures and data was collected by students and staff from the Center for Small Towns at the University of Minnesota, Morris. All information was collected from trusted sources such as the U.S. Census Bureau, the American Community Survey, Minnesota Department of Employment & Economic Development (DEED), and the Minnesota Department of Education and is presumed to be accurate.

Helping Communities Prosper

2010 Census Data for Graceville, Minnesota

This Community Profile Brochure is comprised of statistical information from a variety of sources and will provide a snapshot of historical and current demographic, economic and social trends in the Upper Minnesota Valley Region. The purpose is to provide a concise summary of key community statistics to aid decision making about community and economic development.

This statistical and informational profile was compiled by the UMRVDC in collaboration with The Center for Small Towns at the University of Minnesota, Morris for all five counties (Big Stone, Chippewa, Lac qui Parle, Swift and Yellow Medicine) and 37 cities in the Upper Minnesota Valley Region.

The employment categories shown in the table above and the chart below show the 11 Super Sectors of Industry, which is the federal standard in data pertaining to business and industry. However, when comparing the 11 Super Sectors with the total industries in Graceville, it shows that much of the economic activity and employment is outside of these sectors—over 200 jobs and \$5.6 million in economic activity. The pie chart below details that in Big Stone County, nearly half of all employment comes from Education and Health Services. Big Stone County had a slight increase in unemployment during the Recession of 2007-2009, but in 2011 maintained an unemployment rate under 6.5%.
