New Emergency Notification System

The University's emergency notification system, TXT-U, has been replaced and rebranded as SAFE-U. Here's what you need to know:

- Alerts are now called 'SAFE-U Alerts' instead of 'TXT-U.'
- If you received TXT-U messages in the past, you have been automatically opted in to receive SAFE-U.
- Text messages will come from '89361' or '87844.' Save these numbers in your cell phone.

Your safety is a top priority. The University of Minnesota is, and will continue to be, diligent and focused in our efforts to protect the safety of our campus community. More information, including how to add other phone numbers to receive these notifications, is available on the [SAFE-U website](#).

Thank You, Student Employees!

Each year colleges and universities across the country recognize the importance of the student work experience during National Student Employment Week. Morris is celebrating its student employees this week, April 9–15. Student employees perform invaluable services with enthusiasm, dedication, and initiative. The University depends on the contributions of this reliable workforce for the efficient operation of many departments. Student employees are essential to our university—thank you for all you do!

Take the Employee Service Workload Survey

Concerns surrounding service workload issues have been raised with several committees on campus. The Commission on Women has created a [survey](#) to collect data about the service workload of faculty and staff. Your participation in this research is voluntary. [Please respond by April 19.](#)

Accomplishments
